faster about the benefits of Eternal Universal Immortalism and Peace, where all live to a Trillion Billion years. A few statements of Das Capital will show to you why communist societies were so violent (compared to the utopia they hoped to produce, meaning millions of times more unreported violent crime a year than the ideal, nobody cared about the violence due to rigid fanatical submission to some theories and to the boss who would torture anyone complaining), in his text *everything is void of gentle tender soft nurturing graceful compassion needed to prevent violence* and it's all about theoretical unproven concepts centered around capital labor, competition and other things that have no relevance to a society of cooperating immortalists where national resources are simply used to create via 11 or a few companies, the decent shelter, food, cars, transport and healthcare to enable all to live to 1 trillion, as one family cooperating and not competing, being relaxed, stress free, thus in need of efficiency, so people work only 6 hours daily 6 days a week or whatever flexible hours they love, and have time to rest, innovate, rejuvenate and take care of meditative bliss, good sleep to slow aging and live to 200 and Eternal World Peace. Marx and Engels, with their bad quotes, had no idea, physics in 2030 could kill all humans in 10 seconds, so no urgency existed to create a nonviolent society ultra fast, they were just writing stuff about economics, a favorite topics of Jews back then, since many were merchants and writing about trade, etc. Das Capital has little little about the global need for universal empathy and forgiveness of all people (even aristocrats, in order to create World Peace in 3 months), compassion, *gentleness*, tenderness, healing *grace*, sweetness, kindness, happiness and ability to be happy for a trillion years. 99% of the book is about numbers and economics, no wonder tens of millions died during communist regimes.

Tao Te Ching explains the more rules and fancy regulations, definitions, 50 volumes of taxation for example, etc, endless tax professionals, the more theft and cunning. Why need taxes for? If all have only 1 income source, their job at one of the 11 companies and a few federal government agencies, we need no taxes, government prints money, no more wasting eons with filing taxes: we work to LIVE, not to file TAXES. We want ethics, not LAWS, we want kindness, empathy, gentleness, compassion, not 500 VOLUMES OF CRUEL REGULATIONS and 33 million companies. If we can't make it simple so a 3rd grader can understand, we failed. Einstein claimed that if you can't explain simply something, you didn't understand it. Why make it so complex for the average Joe, living like a rat paycheck to paycheck, struggling for 5 years to find a place to live, when it ought to take 24 hours? Where is the empathy? Keep it simple: 9000 times the stolen amount fine and some other fines and then lifetime labor in a healing city for violent crimes. Let all know the law and don't make 50000 volumes of it and waste 20 million people with IRS and tax filing etc.☺☺☺ Promote Eternal Life of a trillion years, not economics of living to 80 years old, ***PhD in head calculations and utmost cruelty in action***. ☺☺☺☺☺☺☺

We saw communists, highly trained over 7 years of university and PhD in the theories of Das

Capital, who, in the trained total lack of empathy, routinely ignored the suffering in front of their eyes, of the women, kids beaten by communist alcoholics and police doing nothing about it. Not to mention the torture. Alcohol continues to kill 3 million a year, in a Holocaust no Jew mentions, and tobacco 6 million a year in a Holocaust no tobacco CEO mentions. This is the society we create, when all focus is Wall Street, profit 1st health 900th ideas, economics, accounting, realtors, finance, selling, buying, saving 4%, endless useless banks and hedge funds, stock markets and stuff, and 0 mention in TV-radio of compassion, gentle tender softness. Everything in capitalism becomes 'micro and macroeconomic theory', an automated heartless rendition of economic profit thought, like a machine ready to kill millions for profit or ideology. His Das Capital has about 9000 times less words relating to eterni qualities, than this 'immortality capitalism' book, so it naturally led to bloodshed due to historical inertia, some say 100 million dead. If we focus on theories of economics, fancy theories of capital, we miss the purpose and essence of life: no violence, gentleness, kindness, bliss, relaxation, health, longevity, Eternal World Peace, infinite bliss for all, equal opportunity for all to reach Immortality. Life is extremely short, 80 years on average usually, are we going to waste 20 million people to create 33 million useless companies and brag about our PhD in economics, when the world could discover in 2 years the weapon that kills all in 10 seconds? Can we hypothesize that we don't need capital, but Immortality *for* All via kindness and equal opportunity that removes the desire for theft and violence? Immortalism is the most fundamental drive of human existence, the desire to live forever, to be happy by being immortal and enjoying your life forever, is what drives human civilization. We want to enjoy our meditative bliss or music or etc for Eternity, so we crave immortality. Recognizing this, all classes melt into one unified immortalist class that achieves trillion year lifespan 9 billion times faster than with separate classes (aristocrats or bourgeoisie and workers), where all energy is wasted in trying to subjugate, repress, or fight the other class. Marxist class violence doesn't drive or define humanity, since we know, from our future descendants who live to a trillion, that there are 5 trillion ways to an end, Immortality for All, decent life for all, without violence. Caste, class are only a phase of human evolution, the ant stage of rigid hierarchy. Keep it simple, reduce companies from 33 million to 11 for universal healthcare, etc, establish real priorities: 9000 year lifespan for all, single family homes for all, stop lying, be honest. 33 million companies in USA means millions of accountants, HR, admin, this and that, so we waste 50 million jobs in redundant nonsense, instead of focusing on being gentle tender soft towards all people. ☺☺☺

Some could gently hypothesize or softly argue that China moved too much from real ideals of caring for all to cut throat capitalism and indifference for the poor. The ideals of ethics first, big salary difference never, were totally lost and predatory capitalism replaced even socialism, with the communism being on paper only, elitism and favoritism being too abundant (see university

education, lack of equal opportunity to choose school, etc). China is not communist by any definition in 2024. Copying capitalism too much could lead to China's collapse or any nation's collapse, as the class differences are exploited by foreigners to set one against the other. Only a classless ultra-ethics focused, ultra gentle society of Immortality *for* All and nation where all are feeling they're one family, without rich-poor, without 50000 higher income for some, with max salary 1.1 to 3 times the minimum, etc, will be able to eliminate all crime, all theft, etc. And it will be that ethical utopia who will lead the world to ~*~Eternal Universal Peace~*~. People will steal if someone works same 40 hours and makes 50000 or even 50 times more. *Any discussion of lower crime has to take into account the human nature, people want some basic fairness*. If the system promotes exploitation, people are not motivated to invent, to discover, to improve the system, to help all, to bring Eternal Universal Peace: everyone thinks of how they can cheat too, like aristocrats do: the society collapses, as everyone becomes dishonest daily. Communists, leftists, socialists, social democrats could simply embrace immortalism and its ethical qualities, replacing the violent Marxism with the nonviolent equally socialist in nature immortalism. Marx advocated the use of violence as did Lenin and that's obvious in the communist regimes: their songs were violent, from 1917 onward, the marching songs, due to a natural angry reaction to aristocratic genocides. We can't blame sleep deprived malnourished super angry workers, it's a karmic response to the genocides of the psychopathic rich subjugating all, shooting peasants, workers, working them to death. Now, that they learned the issue with that, total indifference from police about domestic violence fueled by alcohol due to no reviews.gov site, they can create a humane socialism perhaps, where the number one priority is kindness for all, 0 violent crime in 10 years. We learn each century from our mistakes as a species. Let's begin.☺☺☺

The biggest mistake in the implementation of the death penalty before was that the society did nothing to fine 5000 people around that person's life, who obviously, failed to educate, inspire and nurture his gentleness. Thus, each time a killing occurs, all educational courses, failed systems that contributed to the crime, classes, teachers, etc have to be fined, changed, etc, and all parents, teachers, peers need to enroll in at least 25 hours of educational courses even if they interacted only 10 hours with him. Not only that, but the national centralized education content has to be changed each time a killing occurs, to make it more eterni in tone across all disciplines, step by step. The "scapegoat gets penalty only" system is a disaster that never addresses the causes, the horrible tone of educational system from nursery to PhD, the horrible content of ethics classes, TV-movie content, music tone (each death penalty leads to a tougher filtering of un eterni tone in music and TV news, programs, based on AI criteria we already establish, to prevent a repeat). A violent crime is the result of actions of 100s of people and yet they only penalize 1. Why? Because it is 1 million times easier to bury things under the carpet, execute someone and do nothing to fix the education, TV-radio content, literature that caused the

murder. It takes more energy to fine 5000 people☺☺☺, especially the closest 10 to the person, and send them to educational classes, etc, based on their tone, how tired they are.

When people know they die if they do violent crimes or distribute drugs, they're more less violent, since with 'lifetime labor' they could escape in theory, but death they can't. Some people don't like to be killed or are afraid of death, so this alone would block their violent crime. Also, if someone does attack others in this lifetime service sealed city, the mortalists will give them death penalty if a serious attack and further isolation into an area with the worst violent criminals if a minor attack (shoving or slap), since the rest of society spent tremendous resources to be infinitely kind to them and treat them 9000 times nicer than in today's jails. Society needs to raise houses 1-8 feet above street level in some areas to prevent flooding due to global warming, to create new rivers, new roads, new wind and solar farms over lakes or desert, mountains or etc, etc, and all these physical jobs can be done by physically violent people who're supervised by cops and return to their sealed cities. Killing people (except the most violent ones who killed others or distributed drugs that led to 50 years lifespan lost or equivalent of 1 murder) or jailing them is a waste of resources. It's up to each nation to decide if they want to give those guys a second chance by being in a sealed city where everyone killed others before or almost killed others, and see how their tone and behavior change as they work 35 hour a week while studying for 5 years. *Technically, it is the failure of the society that caused that killing to happen, so penalizing one guy without the other 10000 in their life is unfair and will achieve nothing except a quantum field disturbance, especially without changing the educational content here and there in the ethics classes at least: here is where* centralization of education is key to national transformation*:* we can make 1 change and all future students get it, but with 20000 aristocratic terror schools that is impossible, who will change 20000 curricula? All those religious zealots who shout 'death penalty now for all' are completely unfair and disregard the causes of violence. All 'lifetime labor' convicts would be aware that if things improve dramatically, meaning if violent crime incidence decreases 1 billion fold as required to maintain Eternal World Peace, then they may be released under supervision for the most minor offenses first. We know the actors, movie directors, FBI, CIA, etc have brainwashed all with violent movies, etc, so we remove all that bad movie content and we eliminate unfair pay of 50000 the minimum wage via immortality capitalism, to make it fair and get the cooperation of the masses who now have the right to a just and fair society where max pay is 2-5 times the minimum pay due to the efficient credit score system and due to the amazing world known 11 companies. The TV explains these emergency measures are in order to bring World Peace in 3 months and to create a new vibe in the quantum field, by a new tone☺☺☺ of speech, music, movies. All bloodshed is forbidden on TV, even from slaughterhouse, unless it is used to educate people into new supplements to go vegan to avoid animal cruelty until we have eterni foods.

Since alcohol has led to 500 billion violent crimes in the last 100 years alone, it is normal for any ethical mortalist government to give lifetime labor or even death penalty sentence to anyone caught distributing alcohol in a country that banned alcohol sales, after the 2 years of 10 minutes every hour 24-7 al TV-radio station national education program mentioned above (so all can take meditative bliss classes), that shows all the horrific consequences of alcohol, tobacco, dogs, horses and other things people have today to sicken, maul, terrorize humans.

All dogs or animals who attack people are instantly killed too. These bad aggressive dog etc sub species need to learn to respect, adore human life or no longer exist. Mortalists and immortalists need to inform the public for 2 years, before implementation of penalties, via daily horrific shows of bites, of domestic violence victims, of national resources wasted to fix these victims of alcohol etc, of the consequences of alcohol, horses, violent dog breeds, smoking, vaping, gasoline cars, natural gas appliances causing explosions and lung damage via leaks, etc on all radio-TV stations, internet news sites, so as to prepare people for the day of "*Death Penalty or Lifetime Labor for* Alcohol, Dangerous Dog, Tobacco, Drugs, Weapons *Distribution or violent crimes (even a shove or slap)*". All relatives or friends who're close to the suspect, would also be fined, since they all contributed to the crime. All nations are encouraged to lifetime labor for *all who promote gambling in any form, be it rooster fight bets, casino, state lottery* undercover or anything of the sort. The reason is that society loses the same 50 million lifespan years as resulting from killing a teenager a million times, so *distributors of any illegal gambling products need to know* death *awaits them.* A national ban on casinos and gambling venues needs to be implemented with death penalty for violations in countries that adore death penalty. All casinos rebuilt into Immortality *for* All Science Parks, University Medical Research centers, and Free Biomarker monitoring stations, etc. All citizens have 2 years to learn meditative bliss 5 million times higher than tobacco, drugs or alcohol use. Alcohol kills 3 million, tobacco 6 million, so death penalty for helping to kill that many is simply a penalty for genocide, for murder, as every distributor is killing basically at least one person, being guilty of first degree murder.☺☺☺ When all know their life can end by death or living in isolation, away from civilization for the rest of their life, if caught doing anything violent via the 500 trillion new cameras installed, violence stops 1 billion times faster than with today's "do nothing, allow all to spank and slap" system where cops often don't even file a report for violent crime calls or aggressive behavior, intimidation. Disturbing the quietness of cities needs hefty fines, starting at 50000$ and up to 500 million for musicians who yell in the presence of 50 million viewers. Then, order begins, as those loud booming music fans in cars, backyards, apartments or tire screeching racing in towns enthusiasts will go bankrupt and learn to have compassion for others.

Since one robbery or other violent crime, leads to a trillion people dead in star wars in the future, via the ripple effects, it is perfectly fine, for mortalists at least, to apply death penalty

and/or lifetime labor (for immortalists) for all violent crimes, when clear evidence exists and if the adult has received the 2 years of reeducation via the new TV-radio-Internet content, etc and when all others involved in that guy's life are penalized with classes and/or fines. For people caught doing stuff before the 2 years of intensive TV education, the penalties would be the typical ones, unless some healing centers were already built and available to start applying the "9000 times nicer than the jail system" of gentle work and soul-body-mind regeneration. This system of death for robbery, etc will frighten all would be assault enthusiasts, as 500 trillion cameras monitor all streets for would be *thugs* worthy of *instant* annihilation. No immigrant can enter an immortalist nation without receiving this tone education and passing the Immortality Test, which implies having the '2 years of tone reeducation equivalent', since it takes 3 years of full time study to pass the test. Thus, the death penalty/lifetime labor can be applied to all, immigrant or local. These death penalty mortalist methods can minimize quantum field disturbance, by killing rarely the most violent and impossible to reeducate types, who attack lifetime labor inmates. As society advances and killings stop, obviously, no more killing is given as penalty, if none die from drugs or other distributed weapons, devices, etc. However, given that 100 small violent crimes reduce lifespan of people by 100 lifespan years quite often, or 2 murders equivalent, it's not too outlandish to install death penalty for more violent crimes using guns or blunt objects to threaten people, even when no such physical injury happened. Every attack, even if not injuring, is a psychological injury, terrorizes people, degrades their life goals, fills them with fear, sabotages progress that would have otherwise added 50 years of lifespan to that person and/or their family, etc, so any robbery, etc may actually, scientifically deserve death penalty, to reduce robbery incidence 1 million fold ultra fast, because every action has some ripple effects. However, all 350 people in a nation need to be 'penalized' when a murder happens, by changing the educational content from early life, to create a more universally kind vibe, removing inequality and source of anger in the society, increasing quietness of cities, decency of sleep, and those things, like nutrition, essential, for good sleep, brain repair and good mental health. Let everyone discuss and calculate and reduce violent crime 1 billion fold in 10 years via the most efficient methods. It's important to remove unfairness, since if people make 50000 times more than others, robberies will exist and even when the penalty is death. We need to be fair and stop all robberies, the overt ones and the covert ones, that bankers, CEOs, small business owners, etc do. We need to gently end the vast robbery of poor people by billionaires too, via immortality capitalism. What kind of life is this, when all are afraid to walk on the street, because criminals are never penalized in any consequential way? The aristocratic mafia uses robotic police/spies/military thugs to torture US citizens. It goes unpenalized. This is in addition to the real attacks of physical nature by low IQ thugs who don't know high tech attacks. Jails are useless, they don't reeducate, don't teach new tone, new ethics, they make people more violent and angrier. We need a new system. No longevity progress is possible in a dysfunctional jungle

like society of today where people think of self-defense, not of giving everyone 500 year lifespan. They take martial arts courses, not longevity classes, or ethics of *gentle tender soft* kindness classes. Any civilized world bans any martial arts classes, only savage nations offer these to civilians, ☺puppy IQ states☺ who're unable to reduce violent crime 1 billion fold via death penalty and/or lifetime labor for violent crime and associated classes/fines/edu changes mentioned above. All violent sports need to be banned immediately, to replace all jails with healing centers, so that we use that happy physical exercise energy of unjailed folks to help the victims of aristocratic terror educational system of violent tone and terrible content, i.e. the jailed. All cops, FBI, CIA need reeducation, retraining too. ☺☺

Immortalists needs to be flexible and realize their political parties may initially sound too radical for most people, so if they win only 10% of the vote, they can at least make a coalition government to implement some reforms of immortalist nature, even if mortalists keep the death penalty. It's better to make a compromise and be part of the government, than to be opposition and make no new law immortalist in nature. While immortalists won't use death penalty unless an inmate requests euthanasia if he's not happy working there and relaxing so much listening to immortalist music and ethics classes for 80 years, in extreme cases, when an inmate is violent after repetitive retraining, etc, it may become necessary for him to do all his work alone in environments that eliminate human interaction and AI holograms or robots/drones are used, besides intercom, to communicate and instruct on the daily jobs, etc. Most people will be nice, but there is a chance that one in 900 million may be bad and attack staff or other inmates. While countries are immortalist in slogans, a truly immortalist nation is one that has 0 violent crime, so this gives "immortalists to become" poor nations some leeway in applying death penalty for truly violent inmates who don't respond to any education, healing music, and it's too expensive to employ drones, extreme isolation, robots, but these cases would be rare, as truly unhappy inmates would request readily available euthanasia. Any violence is a sign they didn't create enough kind happy vibes. It's unlikely for them to be violent, because medical care, access to Internet, good food depend on his not being violent.

By inspiring *all nations* to reduce violent crime 1 billion fold in 10-15 years, the immortalists ready the world for ~*~Eternal Universal Peace~*~. A less wanted side-effect of this drive for peace, is the arrival of the day when naturally, the mortalists may create a new penalty, with the advent of the pre-quantum weapon: entire continents wiped out if World Peace is not achieved in 3 months or 3 days (ultimatum to end all conflicts), due to risks of planetary destruction. The pacifist mortalists will warn the warring parties that if violent crime is not reduced 1 billion fold (or maybe 100 million if really primitive) in their nations 10 years from '*Day when mortalists will give them the warning*', 10 years during which the pacifist mortalists lend help to transform the violent mortalist society into a nonviolent one for free, the Peace Loving mortalists have the

preemptive strike right to wipe out their nation and all nations in a continent of such nature, if no other method exists, to prevent 5 trillion billion dead in future star wars coming from the culture of violence said countries support via music, movies, literature, news and etc. This FIRST strike applies to all groups of 5-100 nations that use violence or torture, depiction of it in any movie or TV program, so that the Earth is free from violent crime of all types (torture included) forever. Sadly, the peace loving mortalists will say that is is "better to wipe out 5 billion hooligans than to kill 5 billion trillion innocent civilians of the future. Let that sink well into their violent brains." The Immortalists don't condone such FIRST Quantum strike threats, of everyone dead within 100,000 miles of the blast site except people in special capsules or force fields, but are highly aware that there are always 5000 trillion ways to any outcome without any threats or killing. Immortalists are simply *gently gently gently kindly*☺ preparing humanity for the day of peace and logically kindly gently offer the hypothesis, or obvious fact, that not all planets choose the most graceful path to that ~*~Eternal Universal Peace~*~, some wipe out everyone almost first, 99.99% of people, EXCEPT THE 1 IN 10000 people left alive in the secret capsules, shielded cities or buildings. Others, are less lucky, and wipe out everyone by accident, during the test of the weapon. The luckiest achieve an immortalist culture BEFORE the quantum weapon arrives. So, what do you think is the way to reduce real (not reported) violent crime 1 billion fold and end wars forever? 50$ tiny fines for car, music or dog barking noise or 50000$ fines? Instant euthanasia for dogs that bite any human for any reason (except when human attacked dog first), or some 'vicious dog' tag or fine and endless hours wasted in court? Death penalty or lifetime labor for violent crime or 2 month jail time that does nothing to prevent reoccurrence? Lifetime labor with contact of family and friends possible, or lifetime labor with no contact possible, except contact with other violent criminals in the healing sealed city? To deter crime, all need to know no more contact with family will be possible until death for anyone doing lifetime labor? Death penalty in secret or public TV broadcast of each execution (pulse, lack of breathing, etc) to deter any violent crime, any knife attack, any form of attack or punching? The time is ticking, we better decide fast, the quantum weapon is about to be deployed, USA is playing with cosmic fire, North American Continent may 'disappear' (become free of people) any time soon, people have no clue what goes on behind the scenes, they play their evil violent music…, their grotesque violent thug like evil sports that don't help the poor jailed victims of aristocratic criminals (the real evil, not the jailed victims of aristocratic brainwashing)... ☺☺☺

5.1.4. The State of Emergency in Immortalist States to Reduce Violent Crime a Trillion fold via kind media & purity, TV tone, better oxygenation during sleep (300-350 sq ft room size min):

The Immortality Credit Score section explains capitalism encourages the pursuit of maximum profit and money, which leads to the desire for money at all costs, even the life of others, which creates an eternal incompatibility between capitalism and zero violent crime. ☺☺☺ Capitalism

means Infinite Violent Crime: kill, injure, deceive all to get rich fastest. ☺☺☺ Capitalism means savagery. To achieve a trillion times lower violent crime, immortalism is needed, a world of universally equal pay, so nobody can make more money, even if they tried 1 trillion years. ☺☺☺ Each time a violent crime happens, all 350 million Americans, citizen or tourists, need to be fined in accordance to their complicity to the act, as calculated by super computers of the Immortality Credit Score, in proportion to the links to the perpetrator who will get death penalty if injury doesn't heal in 2 weeks. ☺☺☺ Every day, each resident gets the email with the money taken (fine removed from paycheck) and all violent crimes committed in the USA, we got one police department for all USA. ☺☺☺ Only then, when all get fined, will people try to end violent crime. Nobody shall rest, or be able to block the email, until zero violent crime arrives in USA, which is beginning of Eternal Universal Peace ☺☺☺, otherwise, all people die in 10 seconds as trillions of species did. The only thing most human animals in all nations worship is MONEY, the only way to make these monsters to care about fellow humans is hitting their pocket. Everyone is responsible as explained before, we're all entangled with each other as residents of one nation, email will say "Today, fine is 20$, canceling yesterday's bonus of 19$, you contributed to 1 million violent crimes and the quadrillion cameras indicate your score fell 0.2 points due to 5 actions and 4 sentences: see the 5 videos and sentences, here are 2 suggestions for raising your score and ending violent crime by listening to peaceful music more and breathing the noble intent. Not watching your bad deeds videos will lower your score". All citizens get one universal email, as citizen and employee of the 11 efficient companies, made of 8 characters, 8 of the 36 (26 letters and 10 digits, meaning 2.8 billion combos are possible, enough for US growth) e.g. ap4te0xb@i.i, with all emails ending in @i.i (instead of @yahoo.com, etc) for max efficiency, .i being the domain for the Universal Immortality Government. ☺☺☺

The goal of life is zero violent crime, zero death from aging and war, not 30000 email domain names or 33 million companies. Everyone will be in spiritual school, like a monk, learning to overcome the cannibal chimp within and become a civil human. Murder rates might be up to 7 times the 1950s levels in many cities, if we would adjust for the amount of lives saved by advanced medicine today, showing how we have devolved ethically as demonic music/movies became the norm. ☺☺☺ A 39 page paper (full pdf is here: HS 2002;6(2):128-66) explains in Sage Journals "by 1998, the UCR (FBI's Unified Crime Report) aggravated assault rate was about 700% higher than its 1931" level. During the same 1931-1998, due to medical advances lowering death rate from attempted murder 7 fold, the UCR homicide "rate stood at 6.3, 25% below its 1931" level, so lethality fell due to medical emergency room advances, even though homicide attempt rate rose 7 fold. BMJ 2002;325(7365):615 summary of the 39 page PDF says "Without this (medical) technology, we estimate there would be no less than 50 000 and as many as 115000 homicides annually instead of an actual 15 000 to 20000... while the murder rate had changed

little from a 1931 (level)… (115000:15000 = 7.7, almost 8 fold rise in attempted murder). The aggravated assault rate was, by 1997, almost 750% higher than the (1931)… figure… (There was a) dramatic overall decrease in trauma mortality in the second half of the 20th century. The period of greatest change came between 1972 and 1977, on the heels of the US involvement in the Vietnam war, which triggered big advances in trauma care. ..drops in lethality of assault were linked to availability of high levels of care. The impact of a county simply having a hospital also had a significant impact, reducing lethality ratios by as much as 24% a year… Keeping down the murder rate may, perversely, have influenced the debate on gun control (the lie: give guns to all, since it "lowers" homicides)." This 7 fold rise☺ in attempted murder and violent assault is what modern movies, rap, metal, rock, pop, music do. It's a total US failure to increase ethical behavior, reign in the violent media, music, movies. Ethics fell 7 fold, while all thought we evolved due to more guns☺☺☺☺☺☺☺.

The immortalist government aims to turn selfish depraved citizens into sages in thousands of ways. For example, every nation has become the Land of "Me above humanity" so everyone buys dogs for fun, instead of training dogs to sniff drugs and donate them to 200 nations so they sniff every mail, package, container, and end drug use worldwide in 10 years via UNIVERSAL UNITED NATIONS Agreed On Death Penalty for All Who Are Caught with Drugs, after a 1 year 24-7, 10 minutes every hour, on all TV-radio stations Warning of the Impending Death for drugs. Drug/Weed/Alcohol/Tobacco Free Planet in 10 years Needs to Appear on TV 100 times daily, in all political platforms☺☺☺☺☺☺☺, talked about every hour for 5 minutes by United Nations Agreement. We cannot let Violence fueled by Drugs Kill all humans in 10 seconds, a few selfish idiots dying is better than all humanity. A few morons hold hostage all humanity, we cannot graduate to True Civilization of Zero Violence because of a Few Cretin Addicts and Evil Greedy Bastards. All TV must educate all to be happy without drugs. We either do it now or never, time is running out, humans may vanish in 10 seconds. All violent crime and drug use must stop in 5-10 years. Enough games and slogans achieving nothing but more of the same. A nation of sages uses every Opportunity to bring Drug Use to Zero, as Drugs Fuel Violent Crime. A sage uses Dogs to Bring Zero Violence, not to play and maim neighbors, wake up neighbors via barks. Dogs cause 5 million ER visits in US alone, that's ridiculous, all this time could be used to lower violent crime. A sage does his best to increase the lifespan years added to humanity via any action: if you raise a dog or train him, does it add 20 months (maybe it makes you happier, so you live 20 extra months) or 4,000,000 years to humanity? Does it shrink the lifespan of 40 neighbors by 1 month, making the contribution of pet ownership 20 months negative for humanity? A sage chooses +4,000,000. We need to educate the "brainwashed to be selfish" Youth about pets. First, we need to END ALL VIOLENT CRIME, maintain that state of zero violent crime and zero war for 100 years at least, and only after that have pets! We need some austerity, self-control,

basic concern for others, altruism to prevent the 10 second end of all humans. Without Peace, all pets, animals, people die in 10 seconds, we can't continue being such bipedal Chimps Thinking Themselves Smart. This has to be repeated daily in the Ethics mandatory videos of the Centralized education that all are quizzed on daily until age 18: The Purpose of Life is not to Add 1 year to Your Life, but 1 trillion to All Humanity, 1000 years for 1 billion people at least if you can. Live to 4000, don't die in 10 sec. So, let's stop being chimps of "fecal bacteria IQ"☺☺☺☺☺☺☺, let's walk the talk of being a trillion times kinder to the worst human alive than the most selfless mom loving her infant baby (Immortalist Anthem), and care about the millions maimed weekly by violence, as kind compassionate ethical humans, not bipedal cannibal chimps.

In 1931 millions of people, for the first time ever, began to go to cinema and see movies with voice that were covert training and incitation to violent criminal demonic behavior, all done by Hollywood satanists who claimed to "depict crime in movies". We have enough evidence to ban 99.9% of US and world music and approve only the most peaceful ones (vocal or instrumental) until we get zero violent crime in 3-20 years. Most current youth is so brainwashed to be violent, they even think of restless violent macho classical (Beethoven), Vivaldi, Wagner, Saens, Chopin, Tchaikovsky "kill everyone in battle demonic vibe, bipolar disorder music that goes from serene to hyper violent in seconds" music as "peaceful", then they wonder why their car crashes into someone while listening to it: it makes them press on the pedal and become more aggressive. Melody tone needs serenity. It's comical they want only to ban heavy metal, or rap, jazz, etc when much of classical, 99% of folk music, 99% of upbeat spiritual music is violent too, as it creates aggressive vibes. Most music worldwide is incitation to slapping people and starting a fist fight☺☺☺, not to develop gentle tender soft healing nurturing graceful loving kind forgiving merciful sweet soothing serenity. The music has to create an emotional state baseline, so tranquil, so peaceful, that nobody would ever go into a hateful negative emotion, as they practice immortalist blessing breathing too, reflective of the Immortalist Anthem call to love the worst human a trillion times more than the gentlest kindest mom loved her most adorable helpless 2 week old infant baby last decade. We don't learn chemistry or physics from the 17th century books, why should we listen to crap music from these bipolar composers? To have a coherent civilization of a coherent scripture of only positive words and energies, like the Immortalist Anthem, we create coherent consistent music, not the satanic mix of some decent quotes with 1500 genocidal violent quotes of the Bible and all demonic 'Christian'☺☺☺ 'thug civilization' music: we don't get a clean 3 nm chip room with such garbage, good music has to be of 99.99999% purity of Tranquility of Immortality *for* All, i.e. the eterni music of immortalism. Any alien would be puzzled by the stupidity of the human ant, it spends trillions on concerts and sports, and 0 on living to 4000 via a little more fetal nutritional chemistry knowledge. Would you rather shout and jump like a monkey at a "music" concert or live to 4000? Then why attend any

concert by any of these snail IQ singers? Spend $ buying healthy supplements to live to 130. ☺☺

Due to the risks of all humans disappearing in 2 years from the moment you read this line, all nations need indefinite states of emergency, special TV ethics broadcast 20 hours daily, until all violent crime ceases, including the super violent crime of war.☺☺☺ This includes perfect air quality, by proper room size (300-350 sq ft minimum, living-dining can be 175 sq ft max, see below☺☺☺), ventilation, filtration, humidity, for brain health via perfect brain detox and repair during deep sound sleep. All violent content needs to vanish from media, movies, music, literature within 1 year. Even after that happens, the TV-radio will continue special programs of education 4-10 hours daily (during the non0 violent crime period of 3-20 years, the TV ethics and reduction of violent crime is 15-20 hours daily), for 500+ trillion years, until the human lifespan reaches 200 trillion years.☺☺☺ People who commit violent crimes often end up killing people, like one guy who killed 5 people, so they any violent criminal needs to be removed from society into a special sealed healing city for such people. A guy did 15+ violent crimes, being released 13 times, to reoffend, due to a criminal justice system that doesn't give lifetime labor to all violent crime offenders. A 13 year old, arrested 18 times before, did a carjacking. Another guy was arrested 39 times, before killing a 22 year old girl. A guy who killed a boy got released from prison after 7 years, for "being insane", so he can kill more boys perhaps. Total lawlessness on US streets calls for national martial law, dissolution of all state, county and city governments, plus creation of one national police department replacing all 18,000 local police agencies. See endless ATM robberies, unsafe malls due to thugs, people breaking into houses simply released hours later.☺ We need dissolve all states and counties and have one law in all USA, not 20,000 versions of each law.☺☺☺ Jewish criminals flee to Israel and can't be extradited to USA. Local police watches as people are beaten and calls no backup, while others hire illegals as cops, breaking the law. 12 year olds can commit murders and get released at 21, after enjoying free meal/shelter at the jail, having no work/education requirement. AI cameras didn't alert mall security that a woman had a big knife that she later used to attack a kid. Kidnappers get released due to 'insanity', no jail time. The first paragraph of the Eterni Bank section explains why we have 2 political parties that wage eternal genocidal war on the working class via avoiding death penalty for all who stab or shoot people in robberies (workers are violence victims usually, since aristocrats live in gated palaces, with armed security, 20 cameras, dogs, etc on 3 acre estates). Sadly, the 2 infernal robbers got 1 and 12 years in jail only, even if one of them shot a defenseless old lady 3 times trying to steal 1000$, causing 900,000$ damages to the state to fix the leg of this lady, causing lifelong disability and more jail expenses ($500,000 over 12 years), when the shooter deserved death penalty as anyone would who shoots/stabs anyone for any robbery or unprovoked attack and the other guy lifetime labor for going on a robbery with a gun owner and assisting the shooting, producing something to make up for the 900,000$ in damages

to the lady, medical healthcare system, lost productivity, fear spreading in the neighborhood, killing of hope and positive thoughts and goals, etc. For repeat offenders who slap anyone in a healing city, death penalty is necessary to avoid further violence in these healing cities, for abusing the infinite kindness of a society that doesn't jail anyone, but gives them living conditions better than most free humans on Earth outside of the sealed cities. All can be gradually released, if passing ethics tests, when US violent crime is 0 for 1 year. This will motivate "inmates" to think, act nicely, so as to make all stop being violent. You can't help it but notice the bad air, bad smog, bad food, bad music, even indoor carpets, etc all contribute to the brain inflammation that makes people's anger take on a physical dimension. ☺☺☺

Guy almost kills a random stranger by stomping on his head on the train tracks and gets released with a theft charge, to kill his girlfriend 2 years later, and finally get 40 years in jail. Why did they release violent criminals back instead of lifetime labor in a healing city? Look at these guys killing cops sometimes for fun. Violent crime is attempted murder (because anyone can have an infarct or stroke due to that) and as we evolve to high tech foods, we view spanking, slapping etc as evil as we view murder today, because in that future no murder exists. The clip of Laotian Tryse Phommavongxay +Hispanic black Kolby DeLamar robbing/shooting/injuring a working class Tina Rothert lady shows these beasts are too coward to rob aristocrats behind fenced 2 acre property, looking for easy targets to loot, funny how leftists excuse this while most victims of violence are workers. Kolby DeLamar (seen in this video), the shooter, has Hispanic name, of(de) the (la) sea (mar), common due to mixed race Hispanic Blacks, so his grandpa may be a Hispanic or something, we got millions of gangsters moving illegally and becoming legal via Ronald Reagan illegal amnesty or other family migration methods (instead of merit) invented by the fruit fly IQ Republican Party of Guns, of gunning down Reagan/white working class defenseless ladies, in gratitude for gnat IQ folks voting for the Party of GENOCIDE VIA GUNS (2.5 million victims last 50 years). The snail IQ Republicans then fight centralized education that would have made all watch 2-5 hours daily videos in eterni tone between ages 1-6 and gun control (only cops have guns) that would have prevented the injury of this gnat IQ white lady who yelled 'HELP ME', which led to the shooting, if she kept quiet and valued life more than greed, they would not have shot her. Always be quiet, don't fight and give them any money/valuables you got in a robbery, since life and injury free body is 1 billion times more important than any money/object you have that day. These dogs in human form☺☺☺ get scared like dogs who kill small babies when a baby does a surprising move, so they shoot if you startle them by shouting HELP suddenly,☺☺☺ humans are primates which, without education, behave like wild dogs. The sardine IQ of Republicans can't accept this fact, so they oppose universal free education and parent license. These beasts who drink alcohol damage their brains, acting like semi-drunks most of the time, permanently having damaged their brains via alcohol drinking, also promoted

by the Infernal Republican Party of GENOCIDE VIA ALCOHOL. Republicans kill Whites & all. The humans are born as an empty computer, programmed by the evil Democratic celebrity infernal music and the evil Republican gun owning culture of hooligan subjugation of all, where nobody is guaranteed a job in the 11 company system and a part of income untouchable for anything, except food, clothing, shelter, health, etc so they don't run out of $ and start shooting workers.

For example, violently lashing in yelling tone at people or doing things that can piss them off on purpose (slam doors, etc) are semi-violent crimes that also need to go down a trillion fold, but initially we will focus on the physically touching type of violent crimes and drug traffic (killing via drugs). So everyone will become over time more knowledgeable in ethics and eterni tone than the best clergy today, as everyone is a sage living to 3 billion years old and even then they will have 5 hours of ethics on TV-radio, to raise the eterni vibe of their actions and improve the fairness, gentleness and kindness of their society and rules. During the immediate state of emergency, all police departments will be unified for ensuring 0 police violence, proper training and every citizen will be given 3-10 free video cameras that the police department can wire for free (wired is required inside houses due to RF, such as select wired alarms can be made to have cameras) or install to wirelessly connect (for areas away from areas frequented by people, due to WiFi 2.4 GHz damaging radiation) to the police department (or saved on a flash drive and uploaded to computer every month in their home if they worry about privacy) to have evidence for any burglary, violent acts around their house or frequented places so that instant justice is done, without long 3 year trials of paid witnesses and lawyers ***making*** stuff up.☺ The reason we need 30 trillion cameras in USA is because this will solve crimes 100000 times faster and prevent sentences for innocent people (lady got jailed for 16 years for killing some homeless on the street, easy to see by cameras, she didn't kill) that happen due to having 18,000 ☺puppy IQ☺ ***police departments***, instead of one really good national police department. You see, exactly as we have 18000 terrible operating systems, and one good Microsoft Windows for desktops with 18,000 times more programmers, we have 18,000 0 IQ police departments who jail innocent people for 1 to 50 years in jail. ***These cameras will end*** crime ***instantly***, as death penalty will be given to anyone who starts a physical assault, even if it is a slap on a kid, partner, or mentally troubled person who makes "lethal threats verbally". Kids who slap or attack anyone are taken to a healing center to live in a sealed city for the rest of their lives as a violent criminal doing lifetime labor. They won't return to normal society, since violence in the new world is the equivalent of murder in the old psychopathic world. Parents need to enroll in weekend classes too for 1 year to make sure they don't incite kids to violence by shouts, yelling, listening to bad music and have their parent license revoked. Words of any sort, be them death threats, are not to be a cause to attack anyone. Simply leave the area if anyone starts shouting or making threats, don't attack first as that is death penalty. Don't answer verbally provocations with

verbal counterattack or any physical attack. Leave silently or run, whatever you think is safest. All clergy (most have enjoyed big egos, adulation or wealth) will need to take some serious ethics classes of 4 hours daily for a year, to correct the complete lack of ethics knowledge they have, as evident from their claiming to millions of people that "genocide, mass rape, looting, burning cities, beating infants with rods, sex slavery, slavery, beating slaves, etc" are the Word of God, which is not only unethical, but as evil as murdering someone, even if society ignored it. Each of those thousands or millions of people listening to his junk became more violent and those little violent acts added up to 1 murder, if not 500000. Same reeducation for all singers, musicians, actors, other frauds who, under CIA-FBI mind control, *created violent, aggressive music, movies*. Blaming a CIA boss is not an excuse, just like Nazis claiming Hitler brainwashed them. To bring violence down 1 billion fold even, we need a change in USA 1 billion fold greater than the 1776 fake *revolution*, we need the Declaration of Immortalist Real Independence. War Dept becomes Eternium, CIA-FBI-16 other agencies become the Immortality Nurturing Agency. All will be so kind, there will be no need to ever arrest anyone, since all crime is punished via fines, education and community service, except for violent ones with lifetime labor in healing cities. All violent ones would report kindly to a healing city gate on their own, for they will know they will be arrested otherwise and found in 1 hour by the 4 billion trillion cameras in USA. The worst "criminal" will be like a saint today. The healing sealed cities nicer than a normal city. We need the 6 month 20h/day TV-radio ethics education and school ethics classes daily for 1 hr during this 6 month phase, to bring all students up to the new standard of ethics, penalties info, i.e. lifetime labor for violent crimes in a sealed city away from family, society until the moment USA reaches zero violent crime in 3 to 25 years. This video shows spoiled kids beating up an old man and breaking his ribs as they try to steal his car. They *would receive* lifetime labor under the martial law that is indefinite until violent crime goes to zero. This will incentivize their families to spend 10-30 hours a week to bring zero violent crime fast by enrolling in the "Zero Violent Crime" government volunteer program that addresses the top 200 methods crime starts. All youtube, facebook social media videos depicting violence would be wiped out and forbidden before the 6 month Emergency of Humans Vanishing in 10 seconds period starts and remain forbidden forever, as Chapter 5.2. explains in the new guidelines for the songs, books, etc. ☺☺☺

This "cameras everywhere" *method* will destroy all gangs worldwide in no time. El Salvador homicide went down 50 fold over 9 years by being a little tough. By being educational, kind and tough, the violent crime worldwide can go down a trillion fold in 10 years. *Cops use neurotech to induce violent or angry protesters or people into a happy state*, using drones from a distance to prevent physical or gun attacks on cops, and they interface with people using drones that show the cop face and have an eterni tone and the cop automatically knows the tone score of anger and honesty for that phone call to police to be better prepared and not make mistakes that are

escalatory and cause preventable violent crimes. No protests are allowed during the state of emergency, as they lead to violence between counter-protest and protest camps and we need 0 violence. Protests are useless, people need to go to youtube, upload their grievance and then submit to reviews.gov their complaint. No 5000 people protests in front of the houses of the rich, the 10 to $300 million homes of the gangsters who run the show: why? Because all protests are engineered by the 0.1% rich to set one group of slaves against other slaves, divide and conquer, to jail protesters. People are too ☺abysmal IQ☺ to realize that protests only aid the Rich in making more chaos to steal trillions from the gov and the masses, jailing more people, as the Rich are never in Jail, they Jail Everyone Else☺☺☺, while committing endless genocides via Hollywood and the top 1 million Companies. The masses who protest and shout in uneterni tones that lead to anger and violence weeks later via similar tone used, block traffic, attack innocent people, scare drivers to death and cause injuries, etc and forget they spend $1.4 trillion a year in useless purchases to make the Rich Richer, while not caring about 0 violent crime, 0 jails, true fairness, 11 companies to make all issues solved efficiently. There are 1 trillion ways to solve an issue without any violent or nonviolent protest. *There is no* nonviolent protest*, they all* block *traffic* and cause *issues*. ☺Bulldog IQ workers☺ protest (like dogs barking), make workers' lives miserable, instead of going in front of the 1 million aristocratic palaces and pelting their houses with stones, not pelting with stones working class drivers needing to reach a hospital to save a life of a worker. How come they don't block traffic in Rancho Santa Fe or areas with 1 million times fewer potholes than Washington DC, so aristocrats can't get out of their house? Why harass the poor? Why not harass the rich who created 50 divisions to redirect anger towards fellow workers? Many don't realize all protests are started, managed, instigated by the gov agencies aristocrats control. Isn't it suspect, in 250 years of USA scam democracy, we never had 5000 people block traffic and throw stones (like they do at ICE or random cars) at aristocratic mansions of murderous billionaires☺☺ known to steal trillions collectively from the masses, while selling the most deadly medicines and foods to poison the bodies of the working class? Some of these monsters even made billions with casinos, gambling, drugs, other genocidal activities. Why? Easy: rich control all spy agencies and police who stage protests to oppress the masses, *while creating* the illusion that the masses *are free to* protest against the "fake enemy".

REMOVING ALL TOOLS USED TO COMMIT VIOLENT CRIMES via the 11 companies & TV-radio:

In our society, violent crimes are done with: guns, knives, baseball bats, saws, hammers (angry guy threatens with a hammer, with one company fixing all houses, hammers would become illegal to sell, some loonie is displaying some verbal abuse not realizing black and white are fictional labels, black/white/Asian/etc cultures are meaningless as Immortalist culture replaces them all, for human Immortals of 1 trillion IQ (unlike 100-200 for racist humans) of the future who can shapeshift into either each second as desired as the Anthem explains) tools of sharper

type, heavy tools, golf bats, etc. So, besides education 10-20 hours daily on Radio-TV during the state of emergency, we need to remove access to these tools of violence by removing all guns, except for cops and soldiers. Any tool around house used for cleaning has to be very soft, easy to bend, and incapable of injuring anyone, so 0 sharp edges, etc. If after all state of emergency policies and 0 guns any violent crimes occur with any of the above objects, *the gov policy will change to ban all knives, except 1 small (blade half inch max width and 4" long* max) knife per household. Only 1 such knife ought to be sold per family, no other small or big knife, each knife with a serial number on it. This way, all recall to be kind, use smoothie makers and such and support 0 violent crime. Smoothie makers can make salads and chop stuff, 10 times faster than a knife for salads. If any crime ever happens with such a knife, knives will need to be kept in a safe (wired to the Universal one police department, which turns any car off if knife is not sealed in the safe after someone leaves the house to drive) by the entire nation until 0 violent crime happens, as a reminder of their collective failure to embody the Immortalist Anthem kindness, of their need to change their tone of speech, change the purchases of items that support 0 violent crime☺☺☺ instead of the depraved $1.4 trillion purchases of vanity and violence enhancing trash today that families engage in. Not only that, but if any tools are ever used for crimes, all house maintenance is done by the Immortality Building Inc, with 30 million employees, every few months, so that NOBODY is allowed to purchase or can purchase any tool that, sadly, can have dual use: violence and fixing a house, car, etc. All car fixing is done ONLY at the One and Only Company, Eternal Travel Inc. No tools are available to people, since many poor repairs can create car/building accidents that kill people and we want Immortality *for* All, not just the British Royals. This ensures higher safety, since many doctor visits happen due to people not paying attention, or even small scratches and etc during car, house or yard repairs. A government serious about 0 violent crime in 3 years and Eternal World Peace in 3-50 months, would ban the demonic sports of golf, baseball, anything with bats used in violent crimes, given to us by the infernal British monarchy mind of blowing people by artillery guns and killing people for not finding a job, as the pigs didn't create the 11 companies system of Eternal Employment for All. Since infinitely low IQ☺☺☺ folks might use restaurant type ultra blunt (not sharp) knife assigned for each single family home, we will merge all food companies into Eterni Food Inc that ships powders to all to live to 4000, superior to any natural food, so nobody has any smoothie maker with any blades or any knife in their house.

Another issue is that even if you remove all sharp objects, tools, etc, if real hate exists, murder can still be achieved in other ways, which, may be a lot harder and require a lot more planning, but still happen. I'm not going to list them here, since weak minds may take the ideas and do it. However, to prevent such incidents, we need Immortality Building Inc to visit every house twice a year, to repair, inspect for levels of cleanliness, mold, CO_2, mites, pathogens, illegal drug

traces, which can already tell if a family is dysfunctional, since in a happy family there is order, not 50 pet feces and everything thrown about, messy kitchen and kids licking feces from the walls as Child Protective Services finds today 5-10 years after the licking started, not caught early, due to never doing universal house maintenance. In such situations, a simple argument over house mess can lead to another argument that later, in 3 days, becomes a bigger repeating one☺☺☺, then in 4 years to murder. Likewise, divorce.gov and happy.gov allow all to divorce in days and check their suicide prone state often, to make sure they won't try to kill anyone or self. No two people who dislike each other should remain together, as that's a recipe for violence. Thus, we need twice a year checks for carotid plaque and overall health to ensure 1. their brains get the nutrients needed, 2. they're not fat, as inflammation causes brain damage and increases the chances of violence. To achieve all these, we need efficiency, via the one universal medical company and total medical reform. The genocidal aristocrats create 5 million companies to loot the 99%, to design the prison cells of 2500 sq ft house where living room-dining is 1200 sq ft and 2-3 rooms are 100-160 sq ft (master is 180-300). A 9 lb child uses far less oxygen than a 90-130 lb child, so while a 100 sq ft is fine for infants, a 200 sq ft for under 7, 300 is best for 12+ year olds, 350 for 15+. You can't change the house each time a kid becomes 7 or 12, so why not make all rooms 300-350? Kids suffocate, as parents or older sibling yelled to not open window, because AC turns on or "electrical bill is high". CO_2 rises to 3000 ppm, instead of the healthy < 550, kids go insane, fights become routine, then a murder happens (parents or kids do it) from this fight caused by no oxygen to their brain. Who is to blame? The aristocrat whose smallest room is 700 ft^2? Or the aristocrat who designed the worker room 100 ft^2: the same beast☺☺☺, he thrives by murder and genocide of the 99%, he could have made each room 350 sq ft at least, but he's a selfish "gnat IQ" bully running the planet for 9 millennia☺☺☺. Maybe it's intentional, he wants workers to kill workers? Same 2 bed 1.5 bath house can have 1000 ft^2 and 2 rooms of 100 and 200 or 2 rooms of 350 with 180 kitchen-dining-living, 120 baths, it's a choice of design, or of rather "fruit fly IQ". Sleep is the daily body repair, the number one for longevity, health and immortality. He claims we need 5 million designs of houses, but we need functional houses instead done by one company only, for efficiency and triple the lifespan of all, by high tech, constant humidity. See the heater section. With 1 company we make a sci-fi window fan/AC unit to create perfect humidity, air quality, oxygen, etc in every room, without central, as we got 3 million PhD in this company. The immortalists need to mandate kitchen be 100 sq ft (pressure cooker enough for max health, no ovens or microwaves), living-dining one room of 200 st ft, each room 350. Bath 100 sq ft. No room allowed to be less than 350 or more than 400 in any single family home, which everyone will enjoy. If you want to socialize, go into a room, not living room or to the great 1 million Immortality City Centers to enjoy amazing testing, holograms. Without good sleep you don't live to 4000, make living to 4000 the religion. Design houses with integrity to prevent violent crime due to brain atrophy via low oxygen during sleep, daytime. We

need teach these aristocratic animals win-win, not win-kill. A nation is dying without oxygen.

The aristocrats are out of touch loonies, thieves, bandits and terrorist rednecks☺☺☺ who focus on house fancy designs, textures, colors, etc instead of functionality as it pertains to living to 500, in accordance to the 5 million PhDs of Universal Immortality Inc of the medical offices, and the 4 new medical professions 1). ET (Eternist, design 4000 year lifespan for all workers by better food, air quality for all) > 2). NP (Noninvasive Medicine Professor) > 3). ND (Nutrition Doctor) > 4). MDs.☺☺☺ These "contractor, architect" scumbags need an honest life, pick tomatoes and then we have no more migrants to take aristocratic jobs of produce picking. Every site sells the same ultra stone age dysfunctional mobile, real or manufactured home, with no real research done, all is admin, sales and DESIGN DESIGN, DESIGN… like cars. We will destroy the demonic mind traces in the human DNA by evolving out of the Aristocratic Beast Mind of the British Empire and Others into the Eternal Light of the Immortalist Anthem. Since some ☺ abysmal IQ☺ people want to kill people with cars, all cars will have built in sensors that stop any car if any object is in front, so that nobody can kill people, override the sensor, with cars stopping if a driver wants to run a car into a crowd or pole, person, dog, etc. This is why we need 10 hours on TV of ethics for a trillion years at least, about the Need to Evolve the Violent Mind into the Immortalist Anthem Ultra Gentle Kind Mind, by not showing, as 5.2. Media explains, any scene of violent crimes, in any movie or news,☺☺☺ with only cops and soldiers knowing about what happens outside of the nation and having access to such content for crime investigation. To create a 0 violent crime that shows the World the Way Forward, that makes all want to learn English and Adopt the 11 companies Model and join the New Eternia Nation, we need to ☺☺*lovingly tenderly gently kindly*☺☺ eliminate all forms of potential violent behavior and suggestions via any means out there. By this logic, we gather ever greater support for the final 11 division of labor, with Immortality Building Inc experts doing all house maintenance and the planetary planning of the job duties for all the 11 companies employees, so all do something physical to help fellow humans, say 10 hours a week out of 35 hour workweek, so that they can no longer need these infernal wasteful hooliganism shouting like Hitler sports from Satan himself that destroy all souls today with Hitler like infernal impunity, sadistic violent depravity. Let all breathe happily, think, create, innovate, instead of shout like demons on sports stadiums, basketball courts. Let us replace the dog barking style of TV talk with the healing tone of infinite gentle tender soft healing nurturing graceful loving kindness. For a trillion fold reduction in violent crime, every Change of Guards, Military Parade, TV tone has to be, like all music melody/lyric content/vocal tone A TRILLION TIMES more gentle tender soft healing nurturing graceful loving kind. Let this be CLEARER THAN EVER FOR ALL so we Bring ~*~Eternal Universal Peace~*~ and the Ever Ecstatic Bounteous Radiance of Eternal Immortality *for* All.☺☺☺ Logically, Radical Results, of a trillion fold Reduction in Crime and War demand Radical Changes.

You get what you pay for, you get outcome reflective of the changes you made in your society. People will say this may remove some freedoms, but we're not free, we're chained slaves of the most violent tones, media, movies, music, news, wars, ideologies, governments. Freedom means Immortality *for* All, possible only when violent crime is 0. They can add ω3, theanine to vitamins to reduce aggression too. Better live in a "dictatorship of nurturing healing soft soothing selfless kind loving tender gentleness" with smiley kind nonviolent people and 0 shoving, 0 slaps, 0 physical violence than in a "free" fake US style "democracy" of infinite bloodshed.

All media has to be violence free and instead of 15,000 radio stations we get only 1-4 during the emergency state, to teach all the Ethics, Eterni Tone and Unified English accent of Immortality for All. All Yells stop, all hobbies and useless desires stop until Violent Crime/War IS 0 on Earth. Same for TV stations, 1 station, every TV minute is to prevent the end of humanity by the 2 capsule event. It's better to have 1 TV, radio station than all humans dead in 10 seconds within 5 years. We got 15000 redundant radio stations and 500 TV stations, which really, redundantly report ad nauseam the same exact negative news, making everyone as incredibly low in IQ as possible. Not one radio or TV station on this hyper violent planet of thuggery focuses every 10 minutes or even once a century on saying ONE KEY SENTENCE (or variation of, slightly different words) to lift genocidal human insects out of their million year violent psychosis that wants to kill fellow humans: "Let's *tenderly gently* bring World Peace in 3 months, 0 Violent Crime in 3 years, let's wish & act like "May all live to a trillion years in ~*~Eternal Universal Peace & Bliss~*~☺☺☺, for a trillion year is a nanosecond of a nanosecond for God who can grant us this miracle if we put honesty, compassion and science first". Not one military or gov official says this before they begin their speech, showing the complete disregard for human life and the fact they're unfit to rule, incapable to place the wellbeing of all humanity above their useless speech. When speeches sound so dull and pathetic, nobody has a good work ethic and desire to build that heavenly world of Immortals. A speech must make all feel part of the Family of Immortals☺☺☺. Building the World of Peace means humans hear from the TV-radio the Proper Intent to Have Daily, the Intent to wish Eternal Physical Immortality for All, to not kill, to bring 1 language to end 1 million language wars, and eventually 11 companies to finally end all nations, companies and wars, for as trillion year old shapeshifting Immortal beings we will figure out what God and the correct religion is. There is no point to kill in the name of made up religions whose scriptures are so evil. We reform this TV-radio system and create 4 radio TV-stations (radio gets most TV content plus some of the 4 TV stations): 1. instrumental eterni music, 2. vocal eterni music, 3. ethics of Immortality for All, 4. science of Immortality *for* All with different topics AI reads, physics, engineering, chemistry of 4000 and trillion year lifespans to bring down car accidents and set a new tone of noble intent, with May all live to a trillion years in ~*~Eternal Universal Peace & Bliss~*~☺☺☺ repeated every 10 minutes or at least on the sides of the

screen for serene voiceless music TV stations, functioning like an Eternal Ad.Prayer.Wish for Immortality *for* All. 15000 radio stations that perpetuate eternal genocide and killings are useless, just pure evil garbage, better have 1-4 good stations in the transition period with the best tone ever, than the garbage today that reinforces eternal violence and bloodshed. This is very important, the world needs to know that "We want to give all humans trillion year lifespans this life and that's why we stop those who want to kill others. Iran violated the right to life of 8 billion people, the UN principle of Nonkilling, of Immortality *for* All, of zero killings, every human's right to live to a trillion or even 90 has been violated by each killing. For God a trillion years is a nanonanosecond, so God can grant us trillion year lifespans and ~*~Eternal Universal (not just World) Peace & Bliss~*~☺☺☺, if we stop acting against God's Suggestion to Honor Immortality *for* All, by ending supporting terror, harm or killings upon other members of our divine family of Immortals. All humans are part of our family, we need to love each human a trillion times more at least than the most loving mom loved her suckling infant baby last decade as the Immortalist Anthem explains to humans longing for Eternal World Peace and Physical Immortality *for* All." This is far better than "Iran killed 900 Americans, so we're going to bomb them": humanity doesn't care about 900 Americans killed, as US killed 1 million Iraqis in Iraq war. Leaders need to talk while keeping the interests of the audience in mind, not in "selfish America only matters ways". To be loved by all nations we need to speak to all nations, to have all become the Universal Eternia, the one nation of 1 language, we need to act as such and speak like adults, not as street fighting kids. Our dog IQ leaders can't even *pretend* to care about humans in words, let alone actions, even their words show the ***utter contempt for the slaves of the world, the 8 billion***, whose interests of living in peace, health to a trillion are never mentioned, only the interests of aristocrats to kill millions via puppet regimes to steal resources.

5.1.5. ☺☺☺Courts are named Etis, Lawyers-Judges-Cops are named Healers☺☺☺

This section has a large focus on the unjust treatment of gentiles by US laws and justice system and the lack of prosecution of aristocrats and Jewish mass murderers and destroyers of gentiles in the USA. To understand this better, watch this 10 min video about some Chinese lady who became a judge, because of course, there is a high salary, no inhaling of toxic chemicals, no risk of dying every day as in some industrial places short of engineers to make things safer with robots, etc, due to so many judges and lawyers in USA stealing lots of cash, while money for tech positions doesn't exist and US becomes a 3rd world nation of just, useless or fraudulent trials and fraud. Why do we need so many lawyers and judges? You will see we don't, if we implement centralization. Just as all states, county governments dissolve to create one law and one state, as all police departments merge to become one national agency, as all theory classes merge into one online university with individual unis becoming pure research centers, we unify all courts to end inefficiency and wasting trillions with lawyers, judges and frivolous lawsuits no longer

needed as 33 million companies are replaced by 11. The laws will be the same, ultra simple, so 1 law for all violent crimes, lifetime labor or death if injury won't heal in 2 weeks, so there is no room for interpretation and FRAUDULENT JUSTICE where one guy gets 3 months with a judge and another 20 years, based on judge's bias, for the same exact crime. Today, the rich get out of jail quick IN 10 MINUTES VIA BAIL, the poor spends 1 year for the same thing, BANDITRY RULES SUPREME. The Courts are there to Terrorize the 99%. Today, we have 20000 towns and villages and each basically creates unique laws and then each lawyer and judge, depending on their hate or love of a certain gender, ideology, sexual orientation, race, etc, makes totally unjust decisions that any objective AI would find ridiculous at best. You can't have real justice with the current system, people are too stupid, the AI, judges and lawyers can't see gender, name (each person gets a unique number ID, as it reveals ethnic background) and race, beliefs, etc of the people if they're to determine the correct fine, community service (if no money to pay) and education classes (Free) for an issue, and the other cases are ultra simple: lifetime labor for any violent crime, death if injury doesn't heal in 10 days (any rape, etc). A video illustrates the point: judges give 30 day sentence to those who kill others, if killers got similar beliefs, gender, race, ethnic origin, etc. The phony idea that one standard exist is the biggest lie. In an immortalist society you get 5 billion times more justice with 100 times fewer judges, as all is so simple, no room for bullshitting: lifetime labor or death penalty for any violent crime. Instead of 1,000,000 pages of laws, we get 10,000 times less at least. This uniformity means EVERYWHERE THE LAW IS APPLIED EQUALLY, NOT BASED ON THE RACIAL/ETHNIC PREJUDICE OF THE "JUDGE, LAWYERS" AND THE MONEY one has to buy fraudulent witnesses, etc. If fine is 1 million for dog barking after 10 pm, it is so universally, in every town of USA and no judge, lawyer or cop can ever change that, that is the definition of equal rights in Constitution and of Democracy. Today, justice is a complete charade. Each nutty state court makes up crap, like the incompetent governors who allow houses demolished in 1 minutes by tornadoes to be built. The Jury Trials are pathetic: a mockery of scientifically honest justice. Every jury member etc is biased based on their superficial perception of the perpetrator and victim, and this will influence their decision. It's ultra easy to remove all such bias by not showing these people, with people having access to the text of each statement, to remove bias against accents belonging to an ethnic or racial group, etc. Who needs jury trials? This whole thing is a British Jewish invention to focus on fear and keep the populace focused on crime, the need for repression. In a civil society with one simple penalty, lifetime labor for most violent crime, 100-9000 times fine for amount stolen, etc, you don't need 99.9999% of trials, which are a COMPLETE WASTE OF TIME, to terrorize the working class and brainwashing the Workers that they're criminals to live in jail by the millions, where the real Thieves, Killers, Gangsters are the Royals, Aristocrats who fight for millennia against the 11.

In a land of real justice, no crime ever occurs, for all are part of the Family of Immortals☺☺☺,

what is there to steal when all make roughly same salary and have a job and similar assets, just helping all live to a trillion? Pathetic. The whole justice system is a scam invented by the rich to chain all. There is no "Royal family", only 1 family, humans, 11 companies for all, finally some science jobs instead of lawyers, judges, cops 1000 times more than needed in a real civil world. Now 99% of human energy is wasted in aristocratic gang wars, each nation run by a gang of rich. The TV always has trials, to increase shame, guilt fear and the illusion that the rich care about justice and fair trial, etc is the cornerstone of the fake democracy, when they don't give a crap. The more trials, courts, lawyers, judges in the news, the greater the illusion of the rule of law, it's the ultimate deception. The amount of cops is far greater than uniform cops, many jobs are "realtor" etc actor, model, etc but are actually cops too. If you swim against the river as a tiny duck, in a strong current, you need 1 million times more energy to travel 10 feet, same thing today, in these fraudulent police states called nations, who swim against Ethics, Nature, God and the way of pure physics, they need 1 million times more cops and related personnel, because the system is so unnatural, with 50,000 times more pay for some people, that the enormous chaos and discontent, lack of motivation needs 1 million times more wars and police violence than with a fair system of the Immortality Credit Score. Why would genderless shimmering shapeshifting Immortals materializing stuff need to steal anything? The reason USA has millions of pages of laws is due to going against the Tao: the more laws, the more crime. Everything is so complex, that the thieves learn to work the loopholes and con the system. It's a system of ultimate hypocrisy and inequality, every nutcase is King of USA, every hamlet is a state within a state, every judge interprets same law in his way, total bullshit.☺☺☺ The liberation of humanity is at hand, the 11 companies can deliver freedom for all human beings. We live in a comedy show country☺☺☺, where 1800 federal judges give themselves 17-18 times the federal minimum wage, even though many of these workers risk their life daily in the most dangerous industrial processes that can't be optimized because 33 million companies create 40 million redundant jobs, instead of 40 million research and development jobs to automate all processes, and replace all humans with robots in dangerous jobs. Millions of workers globally die in workplace accidents and 20+ million suffer lifelong permanent disability each year, because of these parasitic lawyers (who become lawyers in order to try to become multi millionaires, making 50-1000 times the minimum federal wage, up to $15 million a year; yes, the liars who defend the serial killers and the genocidal companies get the most reward... Capitalism 101), judges and stuff waste endless human resources with their court charades, TV jury trials, to solve disputes that would not exist if we had 11 companies instead of 33 million and 1 universal pay instead of 50000 times higher pay for some and all in between. All disputes center around one thing: vast inequality in all its forms addressed in the 20 page section on Equality.☺☺☺ The whole purpose of the TV comedy with trials is to arouse the workers against the workers, while aristocrats laugh all the way to the 4500 useless banks.☺☺☺ With proper laws, there are no

trials, TV footage shows who hit first and that guy is dead or lifetime labor. 10,000 times fewer trials. Without such atrocious pay for federal judges, nobody wants to be one. We got so many lawyers and judges because it pays so much. The federal judges are part of the aristocratic class, totally disconnected from reality.☺☺☺ Our society dedicates its efforts to create 8,000,000 laws to defend the theft of trillions from the workers, via complex lawyer games, instead of 8,000,000 advances in nutrition science to help all live to 4000. When the stupidest men rule the Earth, everyone is a short lived nematode worm. The 99% could easily argue that many judges (who're often Jews becoming judges to make $$$ not help USA advance past the Neolithic Bible stage of infinite violence and stone age anti-science society) are worthy of lifetime labor in California to pick up tomatoes for life or mine for lithium, for they have defended the 1% theft of trillions for centuries, plus endless mass rape (a violent crime: complicity to mass rape via media allowed and scripture deified) in the Bible they forced us all to swear on. For example, go after $1 million of sign changes, while they leave untouched 8 million times bigger theft: the $8 trillion stolen by Jews and their lackeys thru tax free status for TERRORIST groups of foreign states disguised as Synagogues, Churches, Mosques, who Brainwash USA for 250 years that Genocide, Mass child Rape, Slavery, Slave Beatings to Death is 10+ days are the "God's Word". They know how to distract the workers, all TV-radio topics are nonsense about monuments, signs and other useless jury trials, while the $1-38 million salary of many TV presenters are never a topic.☺☺

God of Israel (Is it real, not a God, but a demon) is a fiction.☺☺☺ The Jewish Lawyers, Judges are all Mossad Agents who serve Israels' interests of Planetary Brainwashing, Jewish Supremacy Indoctrination (Jews are holy, rest are not: Bible Quotes). The Christian, Jewish, Muslim Industrial Judaization Complex of Mass Imbecilization via the Religion has stolen trillions from the USA, to increase the power of Saudis, Israelis, Italians, other countries creating fraudulent churches, mosques that deify Genocide, Rape and Murder of Slaves by Beatings/Abuse. So, the judges act as lackeys, of the Supreme Prophet of Killing 3000 people in a random fit of Rage, No other than Moses, the Killer of Billions, whose friends told us we need Honor Jewish Talmud guidelines on intercourse with 3 year old girls and the Eternal Wisdom of the Jewish Jesus fraud cult used to justify endless genocides these judges pretend to protest against by their order to "reinstate signs Trump changed". The hypocrisy of these Jewish judges can't be greater: Jews, via Jew invented Christianity, Judaism, financial networks, Islam they created (Bible recycled), killed at least 1.5 billion, but all we hear all day is about "some gentile guys killed some native Americans who were often cannibalizing each other and taking people's hearts out". The Jews, many others, wouldn't admit, nor these 17 times higher pay judges, that all humans are descendants of these hairy chimps, yes, these cannibal chimps who eat the neighbor's kids when hungry, and that slavery (like cannibalism and all ancient human habits) started in Africa, with chimp like beings enslaving other chimp like beings, black upon black and continued for

something like 40,000 years at least, existing for eons before Christians even emerged. Everyone knows the Sumerian Codes of slavery existed centuries before the Bible was written. Jews and other aristocrats the Jewish Bible Slavery Teachings L25:44,E21:21 created went to Africa and saw the Black Kingdom of Dahome was raiding nearby kingdoms and catching slaves to sell to other kingdoms and decided to buy some themselves, like other black kingdoms did. Other kingdoms did the same, she mentions the Mali kingdom who was growing via enslaving blacks around. Everyone knew that slavery has been done by 100s of states for 100s of centuries. Jews simply chose to continue to be the Slave masters, while playing victim as "slaves of Egyptians". Slavery was there for possibly 200,000 years, far longer than people can comprehend, they found recently signs of complex societies with buildings, etc) even 350,000 years ago.

These Jewish federal judges, who pose as gentiles, never complain about the 3000+ year Jewish Atrocities against Humanity, born of the Calls☺☺☺ for 1. Genocide, 2. Mass Rape, 3. Slavery, 4. Slave Killing that these Infernal Judges force half the Planet to Deify as Word of God. It seems the justice system protects the 4 Bible rights of gentiles: 1). Be genocided as cannon fodder for Israel's eternal wars. 2). Be mass raped electronically, in person and via media overflow of images 3). Be enslaved and worked to death to make Jews rich 4). Be killed slowly over weeks, months, years for exposing the Jews, Brits. ☺. Lawyers paid 1000x min wage for defending Jews. Not only that, these demonic Hitler voice rabbis, proudly shout like demons from hell the 'ideals' of their Psychotic Religion of Subjugation, Death and Slavery. These Jews, who take the appearance of locals by intermarriage, have taken the power of the state to subjugate the Gentiles via Endless Games in every nation they control, so it's our right, as gentiles, to liberate the Earth from this Global cancer: JUDAISM. ☺☺. Let Freedom ring forever. Jewish Karl Marx defined Jewish culture best, as he knew it best: "What is the worldly religion of the Jew? Huckstering. What is his worldly God? Money... The emancipation of the Jews is the emancipation of mankind from Judaism". Oddly enough, on every street in the US, we're forced to see monuments to the Jewish Jesus, whose 4 directions cross reminds us all of our rights as Christians: to work ourselves to death to make Jews rich via the 4 essential rights above: 444. They steal our taxpayer money, to build their satanic synagogues and churches and mosques, all variations of the same infernal Tanakh or Old Testament pseudo religion of mass murder. Then, they tell us that this is democracy. If we disagree, they invent some charges against us. ☺☺☺

By the Bible alcoholic deification of wine, the genocidal deification of Eucharist ("blood of Jesus" the Jewish Rabbi Jesus wanted all humans to drink in memory of His Co(s)mic Jew Personality of Violent Throwing of People described in Mt21:12, O the real Jew came to the Front) and wine drinking by the Catholic Jewish Vatican Church run by Jews for centuries (pirates became Popes, so did 2 Serial Killer Bankers 1513-1521 (died of gluttony) & in 1523, aristocrats killed people to become Popes), the Jews caused 1 billion deaths last 2 millennia and 20 billion people to suffer

physical violence from semi drunk and drunk people. Jews also caused millions of deaths equivalent via the Jewish Baptism immersion of babies (see the Holy Chosen Jewishness of Christian ritual as Jews invented it to destroy all gentiles: only 40 seconds of Jewish Supremacy), that emerged from Jewish invented Christianity, since the lifespan becomes shorter once babies inhale water while submerged in the container, water into the lungs, damaging brains etc, causing billion year lifespan years lost as 20 billion babies are tortured this way by the Jewish taught clergy for 2000 years, especially until 1500 when it was the major baptism method. With 2 billion people from Jesus to now (90 billion humans lived since Jesus), losing 1 year each on average due to drowning as a baby in baptism, we get far more than 6 million (Holocaust) killed by Jewish ritual, 2 billion lifespan years means 2000 million lifespan years. Holocaust was 6 million times 40 years lost on average, 240 million lifespan years. This is One Strike of the Jewish "Holiness" against humankind, the alcohol One is Far More Deadly, we're talking about not 0.24 billion lifespan years lost in the Holocaust, but of about 50 billion lifespan years that the "Holy" Jew could have prevented, if he was not such a stupid chimp, think about the millions dying in wars and domestic violence, thanks to the JEW.☺☺☺ And now, at Gunpoint, He Forces us to Worship his demonic "Bible", He Steals Trillions from National Budgets of 200 nations to get Tax Exempt Status for his Temples and Churches where we worship genocide, slave killing, mass rape as Word of God. The Quran is simply the Jewish Tanakh, Jewish Bible rewritten, so 2 billion are slaves of Islam the Jew created too, he drains the Treasuries of Muslim nations too. Israel's first Prime Minister had the audacity to call the Bible the Book of Books. Where is the Federal Judge Prohibition of Such Criminal Jewish invented Baptism in USA or the Federal Jewish Judge prohibition of Alcohol and prosecution of all Jewish gangs, descendants, rabbis, etc who sabotaged the prohibition, sold liquor illegally when USA last passed it to destroy the USA and turn it into a Jewish Colony? Kindly see Jew drunkards practicing Alcoholism to emulate Yahweh Genocide God and showing the origin of US "music" and rampant alcoholism. Jews and many alcoholics worldwide need to see how their 'music' and alcohol fuels endless wars, crime. ☺☺☺

Gentiles were forced to pay Reparations to Holocaust Victims, and to listen to Holocaust stories 24-7 on all TV-radio owned by Jewish gangsters. That's OK, but what about Jews paying the victims of Jewish Holocausts, that are at least 150 times bigger than 6 million, more like 1 billion dead of the 90 billion people who lived last 2000 years? We got 1000 Holocaust of Jews museums about the 6 million victims, but what about 1000 Museums of Genocide by Jews of 1 billion Gentiles?☺☺☺ Where are the Reparations by Jews, their 170 Billionaires, paid to all nations Jews destroyed via the Bible, Quran, etc, to the Billions of humans destroyed by violent crime, wars created by Jewish USA Producers, Movie Directors thru Jewish Violent Hollywood Movies, Music, etc, all the artists (of all races) Jews covertly created to turn every US street into a satanic coven of Violent Trash music, shootings and violence? All those who killed by orders of

Stalin, Mao, Hitler, etc were complicit to genocide, just like all the youth today listening to violent music is complicit to this GENOCIDE (violent crimes added up become genocide in lifespan years) by the Music-Movie Studios run by Jews, Brits, etc. So, are those little "satanists" who terrorize the neighborhoods with their "peaceful" loud music ready to pay reparations to decent people forced to listen to their hooligan murderous music? Can they, like Jews, realize the Difference between their "Music" and Peaceful Music or between the Bible and the Immortalist Anthem? Where are the Judges banning 50-90% of US music, which is violence deified? Can most adults worldwide even comprehend most music, yes even national popular ones, folk/country is violent by immortalist standards? Well, the lawyers who make millions a year would never take a class action lawsuit by the parents of kids who have been turned into violent music by the music created by Brits, Jews etc who run the US music industry and movie industry, whose main objective is apparently to produce endless violent criminals to destroy families, communities and create profits for prison owners. It's a very corrupt system where the cases prosecuted on TV always attack the working class, but never the Oppressors.☺ Nobody dares to sue these singers, movie producers, recording studios, because the singers are worth 1-1000 millions and a parent makes only 50K and is worth 100K, so how can a singer of pure trash make more than 1000 scientists who help USA 1000 times more? It's possible due to clowns running US for 3 centuries with the aid of Federal Judges☺. What about a class action lawsuit against Facebook for all violent content there in the trillions of posts? FBI who allowed that violence on the Internet? Congress officials who allowed that + Bible to corrupt 20 generations?

These Genocidal Federal Judges, for the most part, Belong in Prison or Lifetime Labor Healing Cities of Immortalism if it wins elections, for these Diabolical Judges allow MUSIC THAT INCITES people to Violence, so they can then jail the Whites, Blacks, Hispanics, etc that Jews and Aristocrats incite to VIOLENCE. These Murderous Judges feed the System of Slavery, then pretend they love Signs about Slavery, to Hide their Slavery Agenda. We're not that stupid to fall for their gnat IQ tricks. Slavery is Alive and well, it's done by Jewish Slave Owners of Musicians and Singers who create Endless violent Crimes via Music and Movies. What about reparations to Americans made drunk by Jews, the families Jews destroyed with the endless liquor stores Jews started as the Eternal Fraud and Merchant of Death in 90 nations for centuries of profiteering via gentile genocide? If we can start calculating, we may see that the fines millions will need pay are in the billions and will happily self-deport to Israel to avoid paying them. Where is the Judge uproar about the genocidal brainwashing of US kids that Mass Child Rape, Genocide, Slavery are Word of God?☺☺☺ Where is the judge uproar about the Jewish State within a State, the 500 wars in Europe, etc financed by Jewish money? Do Jews even comprehend how much damage they did, imagine how much more peaceful and ethical the world would be if instead of this demonic Bible they would have followed Tao Te Ching? The Tao follower is a sage whose

possessions are none, but virtue itself: the follower of the Jewish Bible is a mass rapist, genocidal killer who enslaves and beats slaves to death. It's the difference between 'satan' and God that the 'demon' possessed Jew can't comprehend as he's "bacteria IQ".☺☺☺ Some people are so low in IQ, no amount of explaining, even 4000 pages, will be enough. Imagine how much more peaceful the human society will be if we follow the Immortalist Anthem, which is more peaceful than the Tao Te Ching, a very peaceful text. If we talk about Ethics, Justice and Judges, let's be Fair, and not prosecute just gentiles, but also the Jews and their genocides. Even better, let's stop wasting time and create 11 companies and Immortality Credit Score, for ethics to grow and war violent crime to end once and for all. For 1 trillion times lower violent crime we need a 1 trillion times less violent Anthem or Scripture and of course, 1 trillion times less violent music melody, tone and lyrics. So, let's walk the talk, for even the 1 billion times less violent New Testament (than the Old) is too violent. We upgraded our chemistry, physics textbooks from 1st century, but Jews insist our Ethics is the 1st century Jewish Bible of 1450 super violent quotes that are incompatible with 1 trillion x lower crime. We can't be held hostage by Jews, we need the Immortalist Anthem or something similar. The entire planet would organize general strike and calling for Jewish Extermination if Jews forced everyone to study science from 1st century books, but Jews force all to study Ethics from 80 AD. Once people realize what is going on, they will gladly trash the Bibles, Qurans, Gitas, other junk. We must overcome a pathological fear of the Jewish Vampires and take back our nations. ☺☺

Jewish MDs make up 14-16% of MDs, while Jews 2% of USA. Jewish MDs told us in 1950s smoking packs of cigs a day is fine. Jewish Sigmund Freud, a cocaine addict, made cocaine a prescription for depression and endless other conditions, killing endless folks. He started hallucinating that "all human desires center around sexual repression" and was dubbed the genius of psychology by the Jewish media, creating a depraved Western society of sex addicts who care about sex more than World Peace and nonkilling, like the Chinese Emperors of 9000 concubines. Jewish Solomon had 300 concubines and 700 wives per Bible, so the Pastors, Rabbis tell USA and Christians to emulate him, Jewish Bible is Word of God of mass rape, Solomon is the wisest king in Freemas-onrgy (mass orgy) and sex obsessed Jewish Mormon church. MDs sold poisons. Jewish MDs, making 40-50x min wage turn millions of gentile kids into drug and meth addicts using ADHD amphetamine salts mix called Adderall. Intentional??? Part of their plan to take over USA? Jewish MDs make 20-80 times the min fed wage. Desoxyn (prescription meth) is even worse than Adderall and they prescribe it for ADD in Jewish USA, but not in Europe/Japan where it's banned. Meth and Adderall cause sexual arousal and birth defects. USA is run by Jews to a great extent, that's why US men are brainwashed to circumcise their penis, they trust the Jewish frauds who forge papers to create circumcision for all policies. Jewish MDs can never be prosecuted for horrible advice given to millions who died of lung cancer. They prescribe

medicines that decades later are banned or illegal. Why paid so much? Why did they become judge, lawyer, MD? Money?☺☺☺ The law goes after the little man, not after the Bible mass child rape deifying rabbis, imams, pastors or corrupt judges, MDs destroying USA. So, let's have Equality, ☺☺☺. If judges protect signs about the horrible slavery, etc in national parks, let's clarify who started slavery☺☺☺ 10,000-200,000 BC, how Jews made billions by slave trade, started 500 wars in Europe to make money by lending, created 8 Christian empires based on Jewish Torah Slavery quotes to enslave gentiles, how slavery existed well before Christians appeared, etc. Why are criminal Federal Judges requiring 10 Commandments displayed, and not the Command of Moses to kill 3000 Jews? A Judge has to be Impartial, not make Jews appear Ethical, when they write the vilest book that killed equivalent of 17 billion per one estimate if all 2000 years dead died in today's world at once☺☺☺.

The Immortalist America, Eternia or any Immortalist State Article 1 of Constitution says:

We the People of Eternia, hereby decide to create world's first violence free society, the basis for Eternal Universal Peace and Immortality *for* All. The first right of Eternia citizens is that of LIFE, so any music, literature, movie, scripture, philosophy that depicts or encourages violence, crime is an act of murder against Eternia's citizens and is illegal. Murder starts with the smallest violence, such as scriptural quotes that OK war, which is the end of the right to Life of fellow humans, since there are always trillions of ways to solve disputes without war, that the aristocratic states have no interest in, since only the enslaved fight on the frontlines. The world is ruled by the Dictatorship of the Palatial aristocrat, living in mansions away from frontlines. Thus, Taoism, Confucianism, Christianity, Islam, Judaism, Mahabharata based Hinduism, etc, via violent support of war and violence in their scriptures via 2000+ quotes, are illegal terrorist movements that don't meet the immortalist 21st century definition of religion, of ethics. They're products of aristocrats inventing religions for resource theft and power projection purposes. True religion is about bringing humanity together, not killing some people as existing religions (D7:16), about creating a new 21st century ethics or religion if you will, that has a scripture 1 trillion times less violent, that creates a society and ethics 1 trillion times less violent in actual statistics, not in personal opinions. Currently, only the Immortalist Anthem and variants of it meet that nonviolence criteria. These cults and their military bases disguised as "places of worship", these terror groups disguised as religions, created by serial killer military spies of former empires, destroy the foundation of the Immortalist State of trillion Year Lifespan Humans, degrade the human condition to the lowest fixed lifeform IQ possible (cabbage IQ) and are anti-life itself, for Life is Freedom, to Be, to Live Forever, to Shapeshift as an etlif (Eternal Life) IQ lifeform. The utmost duty of any "religion" is to support constructive contribution to Trillion Year Lifespans for All, so Buddhism with begging and parasitism off others' work is incompatible as it encourages a direct act of violent burden on society feeding the hallucinating

monk who drags all into the evil worship of 80 year lifespans and boundless laziness or indifference o education, science, progress as the nihilist Taoism of "follow neither life, nor death". The Eternia Ethics is clearly Defined in the Immortalist Anthem of All Immortalist States Universally, the Family of Immortals☺☺☺, one people, one humanity, one language, Eterni English for All for max efficiency and global unity, with 11 companies for All immortalists, 1 bank, 1 card, 1 currency, 1 culture, 1 pay. The right to "evil religion" is canceled by the right to a violence free Society, the very basis of Immortality for All, of Life Eternal for All, the Pursuit of Eternal Bliss for All.☺☺☺ Thus, all judges' duty is to uphold the First Right above all Others, that of Zero Violent Crime NOW in Eternia, Eternal World Peace as fast as possible, by the proper implementation of Immortalist Law for Trillion Fold Reduction in Violent Crime. All religions are ethical teachings entities, with online presence and zero donations as the 155 page Independence section explains. Until all violent crime is zero and lifespans are 1 trillion years old, no buildings are allowed for any 'religion', since we must first have proper housing and shelter for all, to avoid violent crime from poor sleep, which becomes world war later. Once again, all STATE POLICY is Subordinate to the First Right of Humans, that of Eternal LIFE, Zero Violence, Zero Violent Music, Zero Violent Scripture, Zero Violent Sounds during Sleep, Zero paper Thin Walls, Zero Irritation from Bad Sleep fueling Crime. The Immortality Centers will create soundproof high quality Immortality for All Halls (at city hall for small towns) for all social gatherings where all can meet for their "Biophysical Immortality Religion" or liturgy in "Quantum Physics of Immortality Techs". All state resources, buildings etc are used for research into trillion times lower violent crime in 10 years and World Peace Eternal in 3 months, single family housing for all, etc as detailed in the 11 companies section, trillion year lifespans for all, instead of for fraudulent stage magicians and liars to deceive the youth with their religious lies. Over a trillion years people will discover what God is, without being indoctrinated by liars into the God of "insect IQ" humans. The age of thieves, killers disguised as clergy looting the US Treasury and the US people is Over, no more states within a state, All religion is Mostly Online, and Free of Any Money Exchange, as Spirit is Ethics and Nothing Material, no amulets, objects, anything sold online or offline. Universal Immortalist Law prohibits any money exchange for any ethical teaching. Ethics is the basis of civilization and TV has many hours of it daily, being free, like most basic needs are. Eternia is for people of high IQ, not cow IQ cave men with religions of bloodshed. Like Saudis forbid any religion but Islam, Eternia forbids any Violent Psychopathy Religion, like most today are, the root cause of violence on Earth. See the Declaration of Immortality for All. May all live to a trillion years in ~*~Eternal Universal Peace & Bliss~*~☺☺☺

After 5 million Americans were killed by the Jewish MDs who said smoking a pack daily is fine, USA finally decided to fight back the Greedy Merchant and put a Label on Cigs saying "You may develop cancer and die". Likewise, after billions were killed by the Bible via Jewish rabbis

spreading it far and wide disguised as Christian clergy, USA needs to force churches and synagogues, mosques to display a warning label, of 20 by 20 feet, at the entrance "Entering these Premises Risks Bankruptcy (Clergy steal money from people via donations to build palaces), Child Rape (Molestation is super common), Mental Illness, Psychotic Violence Episodes (1450 violent quotes or 550 for Quran), Epilepsy, and Removal of US citizenship for Supporting Genocide of Most Americans who're Infidels or are "given to Jews to genocide by God" D7:16"☺☺☺. The USA needs to mandate every synagogue and church post a second warning 25 by 25 feet sign with the Moses command to kill 3000 Jews in front for all to see, so nobody is being lied to about the Word of 'God' (dog), as well as D7:16, Genocide of all nations, Mass Child Rape, Beating Slaves to Death over 2 weeks, months or years, How Jews are taught to treat Gentiles so all Know if they Enter the Abode of Satanic Violence, their Credit Score goes to 1 from 500 and they become an active traitor of USA for aiding Jews in exterminating all Americans if Jews ever feel like it". Any judge who opposes this warning label is a traitor of USA, of the Constitution that guarantees right to Life for All first not right to "religion", a traitor of the Right to not be Killed by Psycho Jews or Muslims, which is the most fundamental human right and which is above the right to "religion" for psychos. Any judge opposing these warning labels, as on foods, is a Mossad agent and needs be fired and receive lifetime labor picking up tomatoes in California instead of the criminal killers the Judges allowed to come in when we needed none of them, since efficiency of 11 companies would have created 50 million new workers that no longer fulfill redundant jobs.☺☺☺ For mosques, the sign shall provide the most violent Quran quotes to see why it is Leading to Violence and Credit Rating downgrade. Kind Jews, fooled by dishonest rabbis, gently please quit worshiping 'demons', the 'demonic' Bible☺☺☺, demolish all synagogues and choose the real God of Immortality for All. Otherwise, you know what the gentiles will do, they will defend against satan, the destroyer of all lifeforms.

Abusing the kindness of USA to worship the genocide of gentiles is subversion of USA: US welcomes Jews and Jews worship a text that says All Americans can be killed when Jews feel like it, or even when Christians feel like it, if said Christians accept Old testament as Word of God.☺☺☺ How Kind of Jews, Christians.☺☺☺ That's treason, enough grounds for deportation to Israel. Aren't Jews ashamed, same for Christians, how can you not be ashamed to print such evil, betray your nation for the 'demonic' Israel of Charlatan Rabbi Jesus and others, and call it your scripture?☺☺☺ Are you Christians and Muslims so stupid to be a puppet of the 'demonic' Jew? The American people needs to prosecute these charlatan Jew Judges or at least replace them and fine them☺☺☺. They can't deceive us. Let's take US back from vampire Jews☺☺☺. Unlike the "God" of Genocide of all Jews want killed D7:16, the God of Immortality for All, of Fairness for All, of Life for All, of the Immortalist Anthem of the Liberated USA, knows a trillion peaceful ways to any outcome without war, rape, violence, torture, so we can peacefully deport all Jews

who want 3 year old rape Talmud deifying synagogues on US soil. Any civil state can't accept the Jewish Torah, Talmud, Bible, Quran as scripture, nor the Christian Bible that contains the Old Testament 1300 genocide, mass child rape quotes☺☺☺. Jews need to make a choice: serve the demon of Yahweh in Israel or the God of Equality in US☺☺☺. America is the land of Freedom from Killing by Jewish Psychos☺☺☺. We're not Israel☺☺☺. Those who want to call genocide, mass rape, human sacrifice, arson, alcohol drinking to beat all around you, kid beating, slave beating as Scripture, can go to the land of Canaan, Israel, to Worship "Satan", the "king of demons"☺☺☺. Freedom of Religion is not Freedom to call for genocide, mass rape, slow murder of slaves☺☺☺. Millions died for America to become the Land of Freedom from Psychopathic religions☺☺☺.☺☺☺ All these viper judges force schools to study the hyper genocidal and child rapist Bible in schools, that's genocide☺☺☺. Wake up and free US once again as in 1776☺☺☺.

Basically, when you got one cop department and one court for all America, all games end, together with the rich class,☺☺☺ we need 20 times fewer cops, as we got every mail, package inspected 5 times by the 5 million drones and dogs at the ports, post offices, private mail, etc all part of the One Company for All USA, Eternal Travel Inc that delivers all mail, as the 5 trillion wired camera system is installed (no microwave pollution, wired, *all homes built by* Immortality Building Inc, *nobody touches any wiring)* in every home, car too and alerts police to arrive in 1-2 minutes to a house if AI detects anyone hitting anyone or removing the camera. The cops are the people with the highest Immortality Credit Score in USA, not any gangster as today, so they can access this video during investigations as insect humans fight exchanging fists per UFC guidance from Republicans. ☺☺☺ This also ends aristocrat privacy, the terror of the bastards who terrorize all nations with endless TV-radio violent crime trials, gun murders and violence and martial arts… in order to keep the slaves in a state of stupor, fear and terror which enables fast efficient theft of trillions. Any person slapping anyone gets lifetime labor minimum, and death if serious injury that doesn't heal in 10 days. That's true female and Jewish emancipation, immortalist style. No more "20000 version of every law applied in 40 million ways", depending on judge prejudice. Same penalty for all insects thinking themselves humans but behaving like cannibal chimps and insects all the time, per their cannibal Bible. All violent crime would vanish in 2 years as the immortalists say. But the Aristocrat Cannibals don't want that zero violent crime, only to suck the blood, literally, via violence, out of the masses. To Beat all to death, as the Bible Teaches, so they can spy on all thru 17 "intelligence agencies, CIA, FBI, Pentagon, etc and 18000 cop departments", while none can watch them. Long live Israel. The whole privacy scam is a fraud, because none has privacy except the aristocratic terrorists who keep violent crime a trillion times higher than it should be on purpose, to subjugate everyone and keep them chained forever as a dog. When all these animals know that execution is hours away from a slap, not decades from 10 shootings, they will become human. There is no privacy, the Constitution

Rights mean all Rights exist only if you're alive first. The right to Life, to zero violent crime is above the right to privacy. If you're dead, any right has no meaning. If a person is dead, whether one can have sex with spiders, elephants or suck tits of cows is irrelevant.☺☺☺ The insects demand privacy in their killing spree, give us a break. Let that be clear in the insect heads of human bacteria, who don't realize their IQ is a million times lower than that of bacteria, vs Immortals. Start being a human, not a cannibal chimp. This will be very clear to all cannibal nations, all power plants, etc destroyed, society collapse, until the violent crime law is implemented to no longer wage war. Total annihilation of any war starting country. Death penalty for nations who start wars, gov wiped off the map in 1 minute. World Peace in 3 years. The end of games. The Rule of Life, not fraudulent Law, Courts, police and intelligence agencies and fake elections and political parties. When you got the IQ of snails, you need a computer the size of Boston as in 1800, to compute the same stuff a phone can today. Likewise, when you got "fruit fly IQ", you need 3 million times more companies, 33 million instead of 11, 1 million times more laws, your law code is 1 million times bigger than it should be. Anthem, scripture are huge too. We only need 4 laws: death penalty for any hit that doesn't heal in 10 days, lifetime labor for all other violent crimes, 100-9000 times fine paid in weekend labor for any theft, fine/ classes for all else, on site and some community service if person is too selfish. A long list of fines, especially for dog bites: euthanasia of dog and lifetime bar from dog ownership, 1 million dollar fine paid via 10 hours of weekend work for life until fine paid, since people can use dogs as proxies to commit violent crimes that don't heal in 10 days, pretend they didn't mean it. For severe bites, death penalty and lifetime labor can be applied for murder via dog. ☺☺☺

To reduce lawyers, courts staff, etc by 500 fold and increase physicists and chemists maybe at least 20 times, we end the Supreme Court, and install the Immortality *Nurturing* Agency as the merger of all courts, all police departments nationwide (all merged, no longer individual, there is one police rule and SOP, standard operating procedure, in every city and village, for max efficiency and more research jobs in science), all FBI-CIA-EPA-DEA, etc, investigative research for fair justice and rename the Courts as Healing Oases or Healing Investigations, or Etis. The cross road, x, of ethics evolution in 5000 folks fined for any crime, to make a point that any crime is created by the whole, not one person, ethics, ethix minus x and h, because h as in th uses too many brain resources to coordinate the tongue and stick it out more between teeth *(th sounds are more reptilian chimp brain, hissing, t sounds are gentler,* more human and can allow us more eterni speech (Chapter 8) as *neural resources wasted in vocal acrobatics and tongue lifting, tongue gymnastics, can be directed to tone, feeling)*, and eti can be more eterni in tone as explained in the language section of chapter 13. Immortalists love efficiency, so eti, easy to recall, ethics minus useless sounds, with et maybe a new word for extraterrestrial since that one is too long. Eti is where everyone heals self by learning to be honest, no need of in person courts

to waste time, everyone submits evidence to healing.gov and the Immortality *Nurturing* Agency works around the clock to find via the 5 trillion cameras who did what and etc. No need of a circus, the courts are pure circus: people are providing 100 times more accurate info when there is no pressure, no guilt from the public circus, when everything is one on one with a kind investigator who loves the criminal 1 trillion times more than the best mom loved her only breastfeeding baby last decade, in a way that is 1 trillion times more gentle tender soft healing nurturing graceful loving kind. Fear of punishing is making people lie so much, so stop it, just give fines and education classes for all nonviolent crimes. This is explained for all in the Immortalist Anthem, we love the worst person a trillion times more than the best mom last decade loved her favorite only helpless infant. It's a New Ethics for New USA, Planet of Eternal Universal Peace. In a society of kind gentle folks who really live the Immortalist Anthem, and pay is equal, equality more real, etc, you don't really have any theft, any crime, any violence, as ethics education is 500 times longer weekly since birth by the centralized education videos even parents need watch before receiving parent license. In the world of aristocratic theft and psychological war on the masses of slaves, all we see is war, violence, cruelty, yelling scenes in Courts, music, movies, to hypnotically brainwash us all into becoming robotic thugs who attack other workers, but never protest near aristocrat palaces. Any dispute among people is kindly solved by the Immortality *Nurturing* Agency healers or Etis staff, since really, with trillions of camera and data points, it's pretty clear who made a mistake and how it can be fixed and everyone feels so loved, they accept the resolution by the council of many researchers, healers who investigate the complaint and change the 11 companies procedures that led to the unfortunate event or the Immortality Education Agency. The arrogant judges use a gavel (very violent and anti-eterni) and talk in a condescending tone, as if the person did a crime on their own, when in reality, the whole society contributed to it and most of the crime itself was due to society at large usually, not the person: values taught. Intelligent societies realize all crime stems from lack of Education, income inequality (huge pay for judges, etc) & nutrition. ☺☺

The circus courts today create anxiety, pollute airwaves with negative emotions (a crime against humanity), destroy national quantum field, provide false info people say because it's public, promote dishonesty, which prohibits the accurate rendition of facts, as emotions take over. In all that time, we could have done some research and found everything faster via one on one investigations, in 1 week, not 5 years. This public court fraud and third grade behavior on TV is useless, nobody likes to be shamed, it is cruel, keep it private, let all healing and evolution to an angelic Immortal begin for every human being, let Homo Immortalis be born☺☺☺. We need to develop proper housing materials and shapes (domes, etc), so nobody dies during hurricanes or tornadoes, proper food free from agriculture, to alleviate animal sentient beings suffering, not waste 50 years in courts, gently wake up everyone, have more kindness and honesty, we need

to evolve past the chimp mind. Everyone who is a witness, victim or perpetrator is welcome into a beautiful teleconference or in person if they want, into a healing cheerful space, with the most beautiful smell, art, quotes, background serene music to calm every restless person, to share their take on what transpired, in person for violent crimes that require MRI brain monitoring to gauge honesty, etc. Today, people view these people as criminals, but they're simply scapegoats for the depraved selfishness of our society, evident from the list of infernal businesses and the sports, alcohol use, smoking stores, weed stores, and too many pet stores. God is *Altruistic* Love ☺☺☺, he's not the psychotic genocidal violence of the Bible. Jesus praised the Courts, Immortalists abolish them, replacing them with Eti or Eternity Investigations *(one eti is one court, two etis are two "courts", but an eti is a healing space of Eternally Healing Infinity, Eternity Healing Investigations, ethi-x, or ethics, 1 million times more healing and less stressful than a court, easy to recall, ethics, minus the cs or x, ethics minus x)* to Increase Virtue in 5000 people involved indirectly in every crime, and as we replace Jails with Healing Centers to Develop Ethics and Immortalist Vibe in all. The immortalist nations will build Healing Centers, single family homes for all, not play demonic sports. We will move from being chimps to humanity, for real. Immortalists are as far from Jesus macho violence in the temple, as God is from demons. So the Immortalist Government will become Love too, the Immortalist State is the People, the Embodiment of Universal Love, of universal gentle tender soft healing nurturing graceful loving kindness, for Love alone is Eternal, Love alone Sustains Eternal Life, and we Love every citizen a trillion times more than the best mom managed last decade to love, for we don't only increase travel speed and tech speed, like letter sending speed 10 billion times faster via email than a 3 month letter in 1800, but also increase our spiritual love a trillion times, so that violent crime is 1 trillion times lower (0 globally) and we do science instead of genocide by torture and jails. Help someone today, don't indict, jail or torture them, for all he did was to expose the infernal depravity of the nation. To change, we need to see and realize we're evil first. Today, all that happens is TERROR BY ARISTOCRATS… in various forms, teaching everyone to torture and terrorize others, blaming others when in fact everyone creates every crime. ☺☺☺

This idea to break from 5 million years of chimp hate, to move away From Jesus Violence in the temple and to Love a Trillion Times more than Jesus, that is the Immortalist Anthem. Love doesn't shove people, doesn't turn tables over, Love levitates tables gently while music of angels sings and pacifies all critics and nirvana states (he materializes 1 mg of neurochemicals of bliss in the heads of all dictators for 2 millennia to cause World Peace and 0 wars, like he claimed to materialize 5000 kg of bread, or 5 billion mg, enough to have prevented all wars last 2 millennia, if miracle of the bread loaves was not made up) give all warlords pause and all killings cease for 1 trillion years. This is a real ethics evolution, revolution if you will, for the creation of a kind world of eternal Family of Immortals☺☺☺, where all humans Wish all humans a Trillion year

Lifespans and Love replaces all hate, violence, shoving, spanking, slapping, aggression. Let us Begin, For time is short, in 10 seconds, all humans could die soon. *Imagine a paradise, perfect sphere of 75 degree weather globally, always perfect, no storms, no war, no illness, just us living to age 10 million at least,* later, as we move away from Earth, a trillion at least. The wonder of science, everyday honesty, of scientific honesty (seek unfakable proof from 50 sources first before saying it's true), of helping others, of punishing none, but helping all in some way, to live to a Trillion years Old. That Simple. No Ritual, no war, no fights, no courts, only Kindness, Love and Bliss. Nobody steals when rich people are no more. When governments stop stealing, all theft stops. Aristocrats own governments…☺☺☺ All blame and penalties become lighter: a fine or community service to evolve the spirit, plus meditative healing and ethics classes to learn to be happy without theft, with part of salary for food, shelter, medical and basic needs being unable to be touched for other products and services to prevent theft, violent crimes, etc. That way, nobody is left starving due to buying expensive useless products one doesn't need. If this system doesn't work to reduce violent crime in 10 years 1 billion fold, they may use death penalty for grave assaults that caused serious injuries, and for any killing of course, or any injury that doesn't heal within 2 months. The truth is that we need to re-educate all citizens first, give them free classes in meditative bliss to overcome addictions, etc, before we pass such tough death penalty to drive violent crime down a trillion fold, so they will do that via the state of emergency, with all TV-radio teaching the new changes (lifetime labor for any slap, spanking or violent crime) and ethics classes, eterni tone, etc to all 23 out of 24 hours a day for 6 months to fill in the gaps of poor educational courses by 5000 colleges and endless schools.

The Courts renamed as etis, will become only 2% of the Immortality *Nurturing* Agency. The Immortality Education Agency is the first Branch of Government and the Supreme Court is no longer a branch, but becomes 1% of the Immortality *Nurturing* Agency, the 2nd branch of government, with only one court for all, the Eti, to clarify the 3 basic laws are universal and no more city, state or local law exists, only 1 law for maximum science and fewer legal professionals (we got 500 times more than we need): 1. ANY VIOLENT CRIME LIFETIME LABOR (or death penalty for any injury that doesn't heal in 2 weeks) in a Healing Center (any slap, police violence via torture (what spy agencies/military do today billions of times monthly) leads to star wars over time via ripple effects, so it can't allow those people to live in society, but a healing city away from civilization), 2. any theft means a fine 9000 times the amount stolen plus education courses, so no jail for any nonviolent crime (just fines and community service, for example violating a restraint order by getting close to a house can mean 1 million dollar fine, with half going to the victim), 3. freedom of speech, criticism can't be sued or called defamation, for only when people's true feelings are allowed via reviews.gov (public or nonpublic) can society advance. Those who disagree need to watch this video on the way China works:

everything that fails is not reported, every low IQ guy is not reported, if you might be fired, demoted or tortured for not fixing it yourself, so everyone reports only positives, without fixing issues, leading to collapse of infrastructure, cars, millions of homeless, endless protests about unpaid wages or etc. We don't want to be like China. A law so simple, anyone recalls it and we need 0 lawyers, as everyone is loved 1 trillion times more than today the best mom loves her infant. We find what happened and we treat all kindly. There is no judge, just the kind investigative healers unit that will present all evidence and conclusions, and basically, the work is done alone, after all data and evidence was gathered. Nobody can Judge anyone, the word is judgmental, we all help all heal and evolve, the word judge is harsh. Society did the crime, so it will be called healers who help it never occur again via community service, fines and education classes, depending on how much money the thief has, etc. We're One Human family of Trillion Year Lifespan gentle tender soft healing nurturing graceful loving kind Immortals, let Us Awaken from the trance of hate, blame and violence. Lawyers and judges exist no more, they're all called "healers" who help all sides reconcile and present evidence for the ethics evolution of the human quantum field and the nation. The words "cop or police" vanish, as cops are called healers, they all work at the Immortality *Nurturing* Agency, being chosen for their ability to calm people with the new national police department high tech and ethics. Everything is private for maximum reintegration into society and 0 stigma. Love first, shame never. ☺☺☺

The 2025 model of Courts is about beating, punishing, killing, torturing SLAVES via the jail system for the crimes perpetrated by the genocidal aristocrats who incite the poor to crime via music, movies and the educational system that teaches 50000 ideas in 50000 schools instead of one UNIVERSAL ETHICS SYSTEM. The 2025 Courts are the glorification of ARISTOCRATIC GENOCIDAL VIOLENCE against the masses, it is the glorification of the Infernal Bible and Its Praise of SLAVERY, GENOCIDE OF 8 BILLION HUMANS, MASS RAPE, beatings of kids with rods, endless violence, arson, cannibalism, eating one's own children, etc. The Courts Today are the Epitome of Demonic Hate and lack of Universal Loving Kindness and Recognition the whole NATION is guilty when something happens. Scapegoating slaves for the crimes done by Aristocrats is not JUSTICE, but genocide. An educated nation doesn't fight over abortion, it meditates, it realizes bliss from meditation is 1 million times happier than sex, so it has sex for procreation only, it cares, loves, heals all and treats all fairly, not like dogs to be worked to death and paid 50000 times less than the aristocrats. Why bother with abortion? Nobody will have sex outside of pro-creation attempt, planned well via parent license process to ensure best tone around the yet to be conceived fetus, as all discover meditation is way better than sex for bliss and loving all human beings, not just ONE human. No lawsuits exist, when max salary is 3 times minimum, when no rich people exist. We prevent, we educate, we prevent crime before it occurs. We move towards education, not violence, all jails end too, as healing centers emerge

and replace jails over time, with jail only for violent crime until all jails are gone via 0 violent crime. However, the etis will be showing daily on TV the fines of $30-200 billion for various companies, the studies and data detailing the indictments, so expect trillions of fines every month☺☺. Plus teaching proper diet 10 minutes every hour, to lower BMI from insane 29 to healthy 21, after removing ultra high fat products of high AGEs that kill our females 6 years earlier than Japan, due to BMI 29 vs 22 Japan. McDonald's will get 10 trillion probably in fines, to be acquired by Eterni Food Inc. A new McDonald's product fine is shown daily on TV-radio, about $30-200 billion☺☺☺. After the fine McDonald's has to pay to be bought by the state food company. Same for all criminal companies until all rats are gone and America is once again free of covert violent genocide crimes. Behold what Big Junk Food does to American brains via that fat, how blood nutrients going to our brains becomes 10% of normal (our brains are starved of nutrients, as only 10% of normal food and 10% of toxins are taken back), so that aristocrats can steal trillions and low IQ workers say nothing, since their brains are dying thanks to AGEs and ultra fatty diets. Big American and Western Junk Food gave Romania an increase in BMI from 20 (thinnest in Europe) in 1989 to 29 in 2025 (fattest in EU, see US states), a 35 years of complete brain destruction, that explains why Romanians are so incredibly low in IQ today. The Nazi EU rulers sell meat in Romania, East EU with fat, while in West EU with more protein: same exact label and product, EU is slaves of Berlin. Same exact label and product… In 1989, weed use was 1 million times less, national debt 0 not 300 billion, local industry 25 times bigger, gun ownership 25 times lower. This is how Western aristocrats reform nations that enter NATO… Real friends give all single family homes programs, not slavery, fattening and brain destruction. NATO claims allied nations need to boost their capacity to defend themselves, by investing 5% of GDP in US made weapons. So, what about their brains? Real defense is not being exterminated slowly by British and Jewish aristocrats from USA, but being able to innovate new nonviolent methods of bringing Eternal Universal Peace and 0 violent crime without any torture. NATO is sinking, thanks mainly to the US policies of genocide against workers by aristocrats. NATO is not about defense, but about increasing the Wealth of US aristocrats, deeper slavery for all, and the turning of NATO allies into colonies of disappearing slaves working for US aristocrats, nations that slowly die due to McDonald's type of food or worse sold by Popeyes, KFC, etc, cell phone-WiFi, Dirty Electricity. The danger is NATO is used to exterminate slowly non-Brits and non-Jews in other nations. NATO nations need to demand US become a real democracy not a paper one. Australia wants to ban junk food ads, how come US and the rest don't ban junk food ads?☺☺☺

Majors are no longer called "criminal justice" as this is a very Torah like, psycho Bible like punishing, scapegoating, killing sounding like name. If one is a criminal, all are mini criminals. All crime is created by the entire society. A correct major is neuroscience of bliss and nonviolent ethics, a STEM major, with Minor in Healing Education, to learn how Healers (new name for

cops, judges, lawyers) use classes, centralized tone in all education to create new brain cortex, neuroscience, meditation to achieve happiness and prevent crime, fines, community service to eliminate nonviolent crime and lifetime labor + classes to end violent crime. All this "sit in jail" punishing has done nothing to USA, except deliver a crime 1 trillion times higher than it should be, a most clear proof that the current system is 1st century, outdated, ineffective and genocidal.

Death Penalty: Minimizing Deaths in the state of emergency via ending "$1.4 trillion/yr useless selfish abysmal IQ businesses setup by genocidal aristocrats" (total 7.5 trillion due to corruption, see next 3 pages) by self-evaluation, introspection, selfless concern for humanity:

"Lifetime labor" (to avoid death penalty) is living in a healing city, sealed from society, doing something noble, in much better conditions than current jails (or many free cities) in exchange for real work. In Canada violent criminals get released from jail within hours of a crime, to reoffend multiple times, like in New York City illegals steal 90 times being arrested and released 90 times, since anything under 1000$ is not prosecuted. This allows a few foreign paid terrorists to traumatize the nation, so the system needs to change, besides states needing to disappear for one national police department with same training to avoid police violence and light sentences. The judges are pure evil, psychopathic murderers who intentionally release criminals to terrorize the nation. The governments of Canada & NYC are criminal to say the least. Normally,☺☺☺ in an immortalist nation, theft ought to require community service to make enough money to pay 9000 times the amount stolen and violent criminals or MDs doing covert violence (intentional malpractice disguised as low IQ) would serve lifetime labor at least (mining for life, etc). We immortalists don't want to kill anyone, but ideals don't match reality when the masses who're not immortalist simply don't care at all about the scapegoats the cruel society jails. The society blames the victims of aristocratic crimes, for their violence that is created by aristocratic movies, literature, media, music, payment system 10000 times lower for slaves, etc. And society is infinitely selfish too, meaning they're unwilling to give up their infernal vanity and obsession with jewelry, bangles, rings, mascara, liners, excessive makeup, hair styling, shaving body hair you don't need to (except face for men to avoid bacterial growth etc, once in a while) like the current industry of leg shaving to have perfect flawless skin, eyelash trim fashion, eyelash extension fashion, depraved cannibal chimp IQ selfish sports, depraved pet ownership, shouting like Hitler in soccer and other evil selfish ☺abysmal IQ☺ sports while sitting there on a bench and not even exercising to help fellow man, to bring violent crime to 0, war to 0, to prevent the 10 second end of the human species, like those in jail to replace their jail cell with a healing beautiful small house, a healing oasis. We need to face our 1.4 trillion/year habits of infernal diabolical depravity and selfish ☺abysmal IQ☺ in USA, and realize how Pure Evil Embodiments we have become to spend so much time moving a ball and 0 to replace all jails with healing houses. 1.4 trillion is 70 million 20K cheap EVs, to clean all air of USA cities of smog that kills by

dementia and infarcts/strokes, but nobody cares, depravity rules. Look at Big Sports, Big 5 Sporting Goods, etc, so much time and energy for Sports, but Nothing to Fix the Violence. Look at the Liquor Stores, Spirits Section of Groceries, or Smoking, Vape Stores, the insane Weed Stores, to stuff oneself when meditation is free and 1000 times more ecstatic, with no compassion for the Jailed, isn't that egoism Pure Grotesque Devilish Evil? Pure Soullessness, the Core of USA today in 2025? In 2024, US spent in $ billions: 30 bil on toys (could mass produce in USA and spend less), 109 bil on smoking tobacco, 409 bil on alcohol drinks, 60 bil on hair salons nobody needs (all at home is fine, youtube teaches all, no color needed, be honest, gov needs to ban all hair dyes to promote honesty and nutritional ways of hair color change), 150 bil on pets only 0.3% of people really need until robots do a better job (service dogs are enough radiant souls, get over it, do something for fellow man you jailed out of pure evil selfishness, Jesus said shelter the homeless, feed the hungry, so why do you deify dogs and hate people, and not use 1 million dogs out of 90 million to inspect all mail and items shipped to USA so no drugs exist in USA?), 200 bil on illegal drugs (150 in 2016), 80 bil on weed products, 172 bil on gambling, 85 bil on jewelry (see why jewelry shortens lives, any intelligent government would ban jewelry), 2 bil on tattoos that cause infections, 10 bil on makeup-mascara-liners (eye damage, any decent gov bans long eyelashes, liners and upper eyelid makeup etc, most beauty products shrink lifespan due to toxins: want to live to 4000 by nutrition and be like an 18 year old 1000 years, or be dishonest and live to 90), 47 bil on sport events, 140 bil on music (400$ total/American) by immortalist standards violent music – 99% of it, etc. Gambling, alcohol, smoking alone are 690 billion and they say we have no money to end all jails and violent crime… Add in violent depraved music, evil movies (17 bil),☺ weed, violent depraved sport events, jewelry, mascara, liners, illegal drugs, hair salons, and get another 737 billion, to reach 1.43 trillion a year in 2024 (adjust for inflation for this year) on trash nobody needs when the world has any violent crime and war going on still. Hello? Are you there? You call yourselves religious or spiritual or ethical?

US has become a shell of its former self. This money would eliminate all homeless people in USA in 3 months. Shows the American Character or the Complete Absence of It. A tiny mass produced or on site dome in this city of 1 million domes, would not cost much, maybe 100K per dome, so you got 690 billion a year, enough for 7 million domes, you see the media lies, the Americans are ultra evil and not willing to face the reality of it: they fuel the flames of war via violent crime too they create by jailing people in horrible conditions that make people worse than before. USA could build 10 million domes in sealed cities (that replace jails) city over 2 decades, until violent crime is 0 and then, they're released. Nobody cares about it, people are selfish, due to aristocratic brainwashing. How come the chimp Americans don't have $ to develop a way to take pic of wrists weekly and determine 100000 compounds in your blood to detect disease 25 years early so all live to 120? The filif gnat IQ of brainwashed workers is

evident in spending $46 or $65 on various 'collectible decorations' that cost 2$ to make in China, via which the Genocidal Aristocrat (worthy of lifetime labor) destroys USA, loots the working class, which has no house, no car, but is buying useless luxury and decorative items to make the Bloodthirsty Vampire Rich, the Bastard who destroys USA by Theft and 0 Tech Progress, who writes bioengineered (not GMO) to hide the glyphosate cancer-dementia causing GMOs in food, as he owns the FDA scam agency of Theft. If we didn't have these aristocrat Murderers, with 11 companies, we remove all pesticide use and have real companies making real stuff, like lasers/drones, other tech to replace pesticide and lethal GMOs made to resist using 15 times more pesticides. We create eterni foods too. Not to mention that the restaurant industry sells deadly foods mostly and it's worth $1.5 trillion of THEFT from the gullible masses who don't any anything about lethal AGEs in restaurant foods, the 9 types of poisons in unsoaked grains/legumes/bakeries, the bad nuts, the oxidized oils that give diabetes and systemic inflammation, Alzheimer (see pic), plaque etc. So we talk about $2.9 trillion wasted yearly, because with cheap foods pressure cooked at home you spend 0.1 trillion (not 1.5) on "restaurant meals" made at home in 20 times healthier ways, so the waste is actually 2.8 trillion (enough to have brought World Peace and zero violent crime worldwide by now, since 2.8 times 60 years is $168 trillion, enough to bribe a million$ for every soldier, general, cop and gang member to stop being violent and waging war, after 60 years of this if criminals were not in charge of USA for 250 years) and they claim there is no money to bring 0 violent crime via healing cities with 250 sq ft tiny homes and 40 hour jobs for lifetime labor inmates instead of jail cells, and free education for all via efficient online education in decent tones etc. US wastes $1.4 trillion on eating out, in order to have 10 times the obesity of adolescents in 1960, as taste, texture and food color take priority to caring about zero violent crime, fellow Americans in jail, etc. Everyone is trained (by the con artists on TV, who destroy the character of millions) to be a GLUTTON and Bipedal Pig Headed Monster, of a Selfishness without Bounds since the Freemason Culture is "Stuffing self at Fancy Restaurants is way more important than ending bloodshed via World Peace, etc" as their 'Killing for Secrets' Rituals show. ☺☺☺

Perhaps, the working class youth (15-29 year olds) is sadly attacking to make some cash (due to being unemployed), what happens to also be deadly restaurant parasitic chains, liquor stores, vape/tobacco/sex stores and the working class cops do nothing about it☺☺☺, as they tacitly subconsciously unite, police and We the People, against the parasitic aristocrats who build 300 million mansions for themselves off genocidal profits as explained in minute detail in the 11 companies section on the 11 types of genocide. Perhaps parents are just protecting kids against these genocidal businesses poisoning their kids. It's sad they don't realize all this can be solved nonviolently with the Immortalist Party win that ensures the food, clothing, shelter, health sections of one's salary can't be used for drugs, etc to run out of money and be forced into

robberies by the very Criminal banks who get all in debt, when credit cards are not needed at all. Republicans will say those youths are unemployed, but they were made unemployed by the criminal system allowing unemployment, when the 11 companies system ensures all have a job, they were made violent by violent music the FBI-CIA-military KKK and Jews created. Republicans pose as Democrats who say "defund the police, burn down cop stations" in order to incite the Democrat youth to violence and arrest and shoot them for attacking or pulling guns (Repubs provide) on cops. There is only one Party, the Aristocratic Terror Party with 2 sides of one coin, Dems/Reps, deceiving the workers. 0 violence will occur when we have real Equality, and multiculturalism ends, not just aristocrats. They waste so much time in the drive thru and at the restaurant, all can be done at home faster. The health issues the deadly foods create then make aristocrats 5.2 trillion/yr, as they push the most expensive stuff: in other nations, it costs half for same lifespan, 2.5, so 2.8+2.6=5.4 trillion wasted. The rich say US can't pay the debt, so we pay 1 trillion/yr to service it to buy junk products we could make in USA, better quality and 10 times cheaper by 11 companies efficiency. 5.4+1=6.4 so the aristocrats, with cheap slave labor imports, waste 6.4 trillion a year. Total hijack and destruction of the USA by a gang of genocidal psychopaths and thieves. The top priority of a civilized nation is 0 violent crime, not gluttony, 1.4 trillion of banditry and eating out. The fools donate $151 billion to churches, mosques that teach slavery, slave beating, beating kids with rods, genocide, rape and only 3% of that goes to help the poor by food/shelter. Given 85 billion donation tax exemption, 320 billion property tax exemption, for the for profit scam organizations who pretend to be nonprofit, US wastes each year $7.0 trillion in 2025 $, adjust for inflation in future years, to see how aristocrats con USA. Even if we would waste only 2 trillion a year, by now World Peace could have happened.

Ethics.gov can teach us ethics with better tone, Anthem/'Scripture' and we could pay debt in 5 years too. 97% of donations are stolen by the clergy/staff salaries, huge useless building maintenance (empty usually, wasting space), by the parasitic clergy industrial complex of theft, wasting time (adults acting like 5 year olds and cat IQ folks who believe in infantile stories of a wanna be God), brainwashing, scientific integrity destruction that fuels the endemic corruption pervading every facet and industry in USA, the very wild dogs who fight tooth and nail to stop the universal free education for all. If they lived the Gospel, they would feed the poor, shelter the homeless via Eterni Food Inc and Immortality Building Inc, instead of fooling around with cat IQ rituals, genocidal scriptures, promoting☺☺☺ intellectual dishonesty and fraudulent staged miracles, invented Bible sections for which no unfakable evidence exists. The actual waste is even higher than 7 trillion☺☺☺, as the 5 million palaces need 100,000/year in landscaping, maintenance, utilities for the 6-30 rooms occupied by 2-5 people. The bill is thus 0.5 trillion, so 7.5 trillion wasted/year, but they say there is "no money for turning jails into healing educational centers of full time jobs and tiny 250 sq ft houses for all inmate victims" of the

aristocrat violent music, movies, literature, TV-radio gangsters making 2-37 million a year at the useless unneeded 400 TV stations flooding weaker subconscious minds with ideas on how to do criminal actions, how to attack cops, etc, 15000 radio stations talking, doing nothing for USA. Instead of 1 TV-radio station of really good tone and 15000 times more ethical actions, we have 15000 radio stations of infernal vibe and empty talk and dog barking. Acting, not talking. In 1965 CEO pay was 20x average worker, in 2021, 389x, we call that Slavery of the 99% in Disguise. In 2025, avg CEO pay is 17.2 million, vs 35.6K for the big low wage companies, or 632 times less. McDonald lethal Foods CEO made 1000x the average pay of the worker, so more die from AGEs.

For 50 millennia, the so called "law or justice" created by little devils going straight to hell (as Jesus says in Mk 10:25 "*it's easier for a* camel *to go thru a* needle's *eye, than for a* rich *man to* enter *heaven*"☺☺☺) has prosecuted the enslaved working class 900 billion times more than the genocidal aristocrat, whose nonexistent ethics is well explained in the carpet section where Jesus' words become super clear.☺☺☺ For 50 millennia of human law, oral or written recently, we had an unequal, unfair implementation of the law and still do: we have 20,000 versions of a law in US alone (which violates equal treatment under the law, 20,000 education systems which violates equal opportunity under the law, due to 20,000 governments that will obviously vanish one day, when 11 companies and 3 agencies replace all fraud "universities", "businesses" and "agencies"). When we have millions of severe work injuries that need to be eliminated by lowering salaries of the top vampires in these companies and redesign of process and procedure, all they do is "promote 20,000 versions of a law". This is the epitome of satanism, of empty talk and no action. In addition, the law unjustly attacks the working class☺☺☺, meaning 30 years for something in one city and 1 in another, same exact thing, but we have no penalties for the aristocratic murderers who sell alcohol, tobacco, excessive beauty products (makeup, jewelry, piercings that damage the body, tattoos that poison the body with heavy metals, infections, leg shaving, etc) that we know kill 3-8 million people a year, directly and indirectly. Thus, if we have a law that is fair, i.e. we give penalties or fines in proportion with the amount stolen, the violence inflicted, so we'll have laws that give protection of businesses in proportion to the lifespan years lost or added.☺☺☺ Say a 911 call comes from a business, with the Immortality Credit Score 400, that gets priority vs score 100 or 10, as shown on the call. If a business selling vape, liquor, strip club, makeup, jewelry calls, they get 800 times less cops, 800 times more wait. The first priority is 5 cops for any domestic violence call or any violent crime, the more cops the fewer injuries to any cop or person, as the police section shows most injuries and deaths come due to a lack of cops per violent incident, if there were 5 cops not 1-2, no tragedy would have happened. This is the definition of prolife conservatism, we defend Life and noninjury first, not Property. ☺☺☺ Injury to Property is 1 trillion times less important. ☺☺☺ The businesses that for centuries destroyed the fabric of American life and health, such as the Genocide by Carpets,

can't get the same Police Protection as those who sell Wood, which is lasting 14 times longer, leading to 14 times less landfill waste, is not recyclable like wood and poisons all American homes with microplastics, microbes, disease, carbon emissions, oil imports etc. ☺☺☺

The world's first just law (the immortalist law☺☺☺) will force the cannibal aristocrat to produce what is ethical. The immortalist government who protects evil businesses commits genocide covertly, so, to gain the people's trust, in the transition period to the 11 companies and 3 agencies of the world of 4000 year old Immortals, we need to come up with proper allocation of cop resources to defend the Core Principle of Immortalism, Nonkilling, Zero Violent Crime First. ☺☺☺ As decent Earth citizens, we clothe our ethics with a Garment of Virtue, of Godly vibe if you will, of gentle tender soft nurturing loving healing kindness for All, of Eternal Universal Peace and Immortality *for* All and then publicly tell all that the gov has no duty to protect genocidal businesses clearly presented above and in the single family homes section, since let's face it, cops are so outnumbered, they can't even lower violent crime 1000 fold, let alone 1 trillion needed to bring violent crime to zero. Any person of any decency, of any compassion left, with any soul of ethics left, will gladly☺☺☺ and 100% agree with immortalists that the 30 million unreported weekly domestic violence incidents are far more important to deal with, than when someone steals 10K worth out of a store, which is 0.0001% of the net worth of some infernal aristocrat. ☺☺☺ Of course, we're not for burglary of stores (boycott is better, but addiction runs deep), and gov would tell all to do it after hours if they want to attack evil vape, strip clubs, casino, liquor stores, to eliminate any chance of injury to anyone from any potential fight, but we can't let people be abused by violent crime offenders, while all police resources go to protect a store of those who have already stolen trillions.☺☺☺ If a house is on fire or a shooting happens, cops don't go to talk to a complaint about a trash bag in his driveway, ☺☺☺, right?, that's the plain common sense that doesn't exist today in the aristocratic police state where the oppressor makes the laws☺☺☺, he has no respect for worker life or noninjury, only his paper money matters, people can die, he only worships a digit on a screen, for that he creates endless wars to slaughter tens of millions.☺☺☺ We immortalists will make it clear that as long as thieves that loot "organized mafia entities disguised as businesses" don't hit or touch any human person, sales clerk etc (nonviolent theft, encouraged at night when none are around, to avoid fights), it's probably not going to lead to fines in 99.9999% of cases, since cops are busy eliminating all violent crime first, and defending real businesses. We can't hire 20 times the cops overnight or remove the crime creating evil music, evil education overnight, we need a transition plan to show we value Life, Immortality *for* All, not the Bank accounts of Trillion $ Thieves. ☺☺

Looting of demonic businesses (TV will notify which ones they're daily) has to be orderly, quiet, at night, when stores are closed, no violence☺☺☺, so as to maintain the core vibe of eternal tone of thought, feeling, action, word, the gentle tender soft nurturing loving healing kindness for All

that ☺☺*lovingly tenderly gently kindly*☺☺ aids the infernal demon aristocrats to change their depraved life, do something productive, such as downsize, get a job with the 11 companies to extend human life, not shorten others' life. These angelic looters of evil factories or stores can *tenderly gently kindly*, without rage, without negative emotion, in true eternitone style, discard such evil products at the Immortality *Nurturing* Agency "demonic products dumping area" where the state will recycle them properly, or give them to the Immortality Bank, soon to be the Only Bank, to melt them into gold for medicine, so as to liberate USA from the Cult of Death by Jewelry and create the Eternal Life Society of Immortality by Virtue and Science of Longevity. Thus, the gov and We the People become One for the first time in History.☺☺☺ No hard feelings here, after all, most aristocrats of such industries would normally be killed instantly by communists for genocides, but immortalists are infinitely kinder, we're humans, we know all make mistakes, all copy the mob trying to make more money by fraud (fraud = so called legitimate business). Everyone has some trace of aristocratic behavior, we're not hypocrites like those "snail IQ folks" who killed aristocrats to create a new communist aristocratic elite in its place, like China's 0.01% of families owning 58% of wealth. Thus, adorned with the infinitely tender grace of our sweet Immortalist Anthem that calls for loving the most demonic aristocrat or human a trillion times more than the best mom of the last decade loved her infant, we slowly heal society so it moves towards the Knowledge of 4000 and later billion year lifespans. ☺☺☺ Knowledge starts with intellectual honesty, with honesty in laws, priorities, life over bank account, violent crime over loss of 0.01% of net worth of a thief.

So, the real gov duty is to encourage the complete destruction of these infernal life shortening businesses via fines (or the people's rage who want no more domestic violence from the liquor sotre that killed his father due to a fight among 2 drunk people) and to state clearly, via its policy that All Cops of the National Unified Police Department that replaces at 18000 departments today, Prioritize Violent Crime not property crime. 99.9% of Police Effort goes to prevent violence and only 0.1% to property, since property will just get fines via cameras recording breaking, etc, via the 5 trillion camera system, if theft is from a legitimate business, of course. We eliminate injury to people first, especially workers, who get 99.9999% of millions of workplace injuries (and violence injuries due to no gates and security teams), and only when that injury to Life is ZERO, we go to defend the Aristocratic Bank Account, the "injury" to their Store/Factory Property Selling Death for the Working Class or even injury to the legitimate businesses. We Defend Life, not Death.☺☺☺ We worship God, not Satan. ☺☺☺ Property has no meaning if one person has lost the Human right to Immortality *for* All. ☺☺☺ We're One Family of Immortals and that is Our Civilization, Ethos, Anthem and Scripture. In our evil society, cops arrest one guy who steals a poisonous cookie or pie, etc from an evil store run by an evil scientifically illiterate glutton thief, whose AGEs, additives, etc kill millions of people 1 year

early, equivalent of murder of 40000 people at age 30, 40,000×50=2 million. The guy/gal who murders 40,000 people gets no penalty, but he who steals 20$ of poison is jailed, this is the Justice of this day, the holy act of removal of poison is punished, while the act of genocide is Praised as Success with palaces. Oh, the fat, ultra makeup eyelash full pigs on TV also murder millions with their cow IQ programs, but get no lifetime labor for telling people how to poison themselves with oxidized foods not cooked under water in a pressure cooker with minimum oxygen, these same Elephant IQ and Size ladies complain about Equal Pay, after murdering equivalent of 50-5000 people. But would scoff at true Christian Ethics: one universal pay for all, for the cross they wear is only a deception to steal everyone's money and Life. That cross was produced via murder of workers digging in dangerous conditions☺☺☺ (6 videos of workers dying for diabolical jewelry wearers: 1 min (mine collapse, rocks hit workers), 29 min, 9 min (20 dead, beatings, etc), 5 min (mercury vapor that kills workers, kids too, kids get 15$ per gram), 21 min, 25 min) for gold☺☺☺ nobody needs in any jewelry, they wear Murder around their Neck and Claim Christian Ethics. Pure Satanic Deception. They tell us endless lies on TV about why God needs wars of Theft (when trillions of ways to peace without war exist) and why TV guys make 5-200 times more than federal min wage of 15K/year. Jesus never said "kill workers so you can pretend to be a fake follower of mine". Most gold is used for vanity, not for medicine. Not one drone goes to worker safety via 100% drone based mining, but to wars in the name of "Jesus" or Islam, etc, the human hypocrisy. The audacity and depravity of most modern women (and lately men who start wearing jewelry too) is unbelievable, but that's to be expected, we have 1 trillion times higher violent crime rate because we're 1 trillion times more evil than Immortals☺☺☺. No hard feelings or offensive speech, simply a statement of fact: lifespan is proportional with one's ethics level, and not to worry, Immortals are infinitely kinder and probably view our first ladies on Earth or first men (leaders of nations) wearing jewelry as we might view some primitive tribes with 29 hair pins, 27 ankle and hand bangles, 69 necklaces and 78 earrings: people with an ethics deficiency, sadomasochistic tendencies (piercing oneself to be "hot") and IQ of fruit flies. Indian ladies with the most jewelry on Earth live 17 years shorter than Japanese ladies with the least jewelry, what proof do you need it's useless? Why do you keep wearing it? Why is it legal to pierce and destroy the body? Who needs rings when dating.gov is the only way one dates? Today's world is the product of the management of society by "pig IQ folks": evil is good and good is evil. A simple smiley face of 4-12 inch diameter on the back or front of a t-shirt, pant, etc or whatever would be changing the world much more than an earring nobody sees from a distance. A smile on a short forces people to abandon negative energy. A kind action helps more. That's why immortalists have no desire to prosecute any looter of jewelry, makeup, tattoo stores. In real Justice, most food companies today would be shut down in no time with CEOs and managers serving lifetime labor for Genocide by Poisons in Food. The cops today became the Tools of Aristocratic Terror, and cops don't even have the

slightest clue they're useful idiots in the hands of the rich. ☺☺☺ If theft is from a genocidal company, which we can't shut down overnight as millions exist, then cops will issue no fines, once immortalists win, since we can't shut down frauds overnight, industries need retooling, etc, people need be taught safer cooking until these poison factories are shut.☺☺☺ The people's will to free USA from 'CEO' Murderers will be encouraged by immortalists, so we can get our country back from these Murderers who have killed millions and made trillion thru that. That is real justice. This "looting evil companies" policy will force all these cannibals posing as "ethical businessmen" to switch to ethical actions and businesses, such as offering to change carpets to wood at 4 times lower prices than existing vampires who suck the life of all. Let Freedom to Live to 4000 years old (free of Poisons) Ring on every US street, as Cannibalism Ends.

The immortalist governments need to state daily at news the credit scores of all business types: any mixed business that sells evil products is on the "zero protection" list. i.e. Walmart, Publix, other infernal entities with Spirits and Liquor sections won't get protection until all alcohol, cigs, condoms, etc are removed from the shelves. The demonic Walton family can't make profits via GENOCIDE. ☺☺☺ Same for Mark Zuckerberg and all facebook managers, Facebook is used to post endless violence, which is not good, especially bad music, as it incites people to violent crime that kills cops or cops try to prevent. This is equal protection of lifespan years added, i.e. murder is not assisted by the gov, the gov has no duty to protect covert murderers using the legal business as a cover for genocide. Why should cops stop the burglary of genocide instigators? The blood drinking aristocrats will fail to pay mortgage of their palaces (or Facebook CEO 2300 acre estates plus 10 other huge estates), so they will downsize and get hired by the 11 companies that welcome them kindly and then the gov can buy the palace at 20x lower price to build Free Universal Healthcare for All Research Centers, Clinics, free education. Boycott facebook, youtube, adore the 11 companies, the start of civilization. Australia does a similar thing by gov covert aid to those burning smoking shops.☺☺☺ However, immortalists are against arson or any property destruction, as that's violence, not theft. To rid the nation faster of demon aristoc-rats, only nonviolent theft from evil businesses (TV will clarify it) is OK☺☺☺.

Americans waste 1.4 trillion, enough to build in 2 years the most advanced border wall with Canada and Mexico in 1 year thru which nobody can pass thru, via 1 billion drones and cameras, etc. This would end endless drug addiction cases, drug use, violent crime, human traffic, etc. Should we tax these activities 300% to cut their use and have money go to ending jails, homeless, border illegals and other things that create high violent crime? Of course yes. Let the government create music.gov to provide free music for all, so criminal psychopaths can build border walls and domes for the jailed, that their infernal music has jailed. Do you see the Aristocratic Genocidal Psychos running the Media, the gambling, smoking, alcohol ads, and the Show? How come free meditation bliss is not taught on TV, but only things to sell to make Pigs

Richer? Take a step towards a civil world today and stop drinking, smoking and gambling. The USA spent 1.5 trillion on useless stuff, including car racing, horse racing, etc enough to build decent housing for healing cities for all violent offenders to live in, while they go thru healing education, deaddiction, etc, but nobody talks about it as war is 'holy' and more common news. To achieve World Peace we need 0 violent crime and this means helping the jailed to become peaceful, by giving them mp3 and nice sound players and a nice house in a sealed national city, where we hold all 1 million violent offenders to transform them and give them a job to do 35 hours a week, until we release them all when violent crime is 0 in 10 or 25 years. To get there though, we need volunteers, who're willing to join Immortality Building Inc, which on the model of Habitat for Humanity, builds this one "National Healing Oasis", the City called Immortalist Transformation. In this city, all get to experience the joy of their own 400 sq ft tiny home, most likely a dome, to prevent having to rebuild it if a storm happens, etc, that we mass produce via the wonderful onsite dome factory of the Immortality Building Inc, to once and for all end all jails and recognize a simple truth: if a nuclear power plant explodes you go fix the pipe of coolant or etc that is broken, whatever is most broken you fix, not the stuff that's OK. So, in society, to fix it, you fix what is most broken, the violent offenders. Yet what is happening today? The exact opposite: we waste 20 hours a week with the most selfish ego boosting appearance changing, hobbies and trash that contributes nothing to national rejuvenation and ethics character building as described in the "Let everyone be a pastor, goodbye to Organized Religion" 14.4. section on the Spiritual Renaissance of USA that we need to take our country back from the hands of these Genocidal Aristocrats. We need to fire up the base, the 70% of America who will vote for Immortalists and use the Mighty Force of Volunteering to Create Heaven on Earth, the World's First 0 Violent Crime Nation, USA. Don't say it's not possible, we sent letters in 1800 over 10 billion times longer periods from Denver to Moscow, nowadays it's so fast, so let's use an email, spread the word to bring that world of 10 billion lower violent crime too. So, my friend, come out of this cage of flesh, become a Fully Excited Soul, filled with the colorful beautiful Shimmering Ecstatic Bounteous Radiance of Eternal Immortality *for* All, and let us build a New America, the Template for Earth, one Earth nation of 11 companies and trillion year lifespan for all. So, behold the beautiful grace of centralization, how it dissolves all jails and brings the One City to House all who still need healing, until the day of 0 Violent Crime, when all Earth shall Rejoice, First Continental Nation has 0 Violent Crime singing the Immortalist Anthem in Bliss. All nonviolent offenders get education classes, fines, community service. Near this Sealed Violent Offenders City is the Homeless City, for all 700000 US homeless to help them have a house and a job, happy to be taken off all streets too, to grant all shelter, the first and foremost duty of any government, that for 250 years of aristocratic terror, was neglected. No more, the age of unemployment will be over, as the 11 companies bring all eternal job security.

If violent crime doesn't end fast with "lifetime" labor sentences in the amazing & beautiful ☺☺☺ Sealed New City called Immortalist Transformation, death penalty is used a lot, in the more serious violence cases or all of them. This "lifetime" refers to hopefully 3-5 years of 35 hours work, 30 hours/week (so total of 65 hours of organized activities) of eterni content listening, meditations and ethics classes, until all violence ceases due to the Most Shocking Transformation of all music-radio-TV via Ethics Content 23 out of 24 hours first 6 months prior to the New Lifetime Labor laws (6 months to build the Immortalist Transformation city to start transferring violent offenders), 20 hours out of 24 the following year, 15/24 next 5 years, 10h/24h next trillion years to make sure peace is eternal, evolution kept going. This will be indicated in the 6 months of ethics and new laws education on TV, so all know that if violent crime is not a billion times lower soon, death may be used for those who punch etc others. Of course, we will call all citizens to help us demolish all jails and build the new city, giving all 2 weeks off to volunteer during their vacation time (increases Immortality Credit Score) and feel happy to have helped fellow Americans. We need death penalty (or at least lifetime labor mining, construction, etc) for any doctor or rabbi who performs circumcision, which is child abuse *(similar to the* rape of infants by Jewish rabbis and probably many Jewish EU/USA priests*, more* details here to support global ban of Torah, Bible, Quran *as the 3* "scriptures" (Quran encourages 900 temporary rape "marriages" if Jews (disguised as Muslim to create a spy network via illegitimate kids who're Mossad agents later without mom knowing) travel 900 times, to satisfy their rapist nature) come from the Jewish rapists of 3 year olds who invented all Abrahamic "Religion" Cults of Rape & Genocide as the 2000 Bible-Quran quotes explain how Jews wrote Quran, Gospel). We need to sue every imam, rabbi and priest in USA for psychological ritual child abuse, 25000 per person who has attended church, etc, for deceiving the people like cults do. Based on all evidence in the Bible-Quran section, any lawyer can build a case that these churches and mosques, synagogues, intentionally withhold the bad quotes and brainwash victims to donate money because the "God is good", when in fact, he's a mutilating psychopath who rapes endless kids and adults, commits endless genocides in the Torah, Bible, Quran. The Gov needs to sue these criminals disguised as clergy for incitation to violent crime. Mahabharata cults also need be sued, for saying the God of genocide (Krishna tells Arjuna to kill with no worry, because Krishna already killed them, plus 100s of instances of violence and some genocides outside Bhagavad Gita section of Mahabharata) is an ethical God of goodness, when it is not, but the Hindus only $10000 per person as there is no rape, and the genocide calls are subtler and more specific. This is nothing but psychological abuse we have seen in many cults. Death penalty is needed, to bring crime to 0 FAST. Anyone will be able to visit crime.gov, type the name of the violent crime offender and see the live stream of him being killed.☺☺☺

To prevent the death of all humans in WW3 in 1 minute, some deaths may occur for the most

evil pigs who're still covertly or overtly violent after the 6 months of 23-7 education on all media. Governments who're fair last forever. We don't want to kill any aristocrat, as they're 10% of population, some rich, others well off. So, to prevent death via theft encoded in the way society functions, we will have to make things efficient, and fair, so people have more motivation and we can create 1 company out of 1 million. This is well detailed in the 4.5.6. 11 companies section on the genocides aristocrats do routinely, which will be also touched on in this very paragraph. Death penalty (real if violent crime is high after the education period of 6 months 20 hours a day on all TV-radio, fake death perhaps if lower violent crime rates, to avoid killing anyone who still wants to be alive if he works 35 hours a week, would be lifetime labor in a mine or very physical work nobody wants, etc, max salary for any CEO 3 times min salary, 0 aristocrats so no rich can buy elections) for all violent crimes is needed besides banning all music types in 7.9.4., before this violent music ever plays anywhere and has a chance to get any "fines", since celebrities are mind controlled robots raised so by the CIA, FBI since birth. Mujaheddin kill people are age 7 sometimes and they grow in a psycho environment, just like these celebrities are trained since birth to listen to and glorify the mainstream energies of macho aggression that define 99% of our culture, music, literature and genocidal scripture. The thing is that many thugs will be violent and kill others if they knew the death penalty is fake, so we will probably have to plan well, since it is the equivalent of murder to give some 5000 times the salary of others, and have these CEOs, etc use it in ways that shrinks lifespan of 100000 people by 10 years, which is like killing 20000 people. Even at 10 times, abuse of power can mean killing 2 people, but this is so COVERT, that nobody adds the dots, nobody connects the dots, so everyone worships "success", meaning MURDER. So if we kill common poor men for violence, all rich men whose wealth was obtained by less obvious (to "common bystander worshiping rich people") covert murder would have to be confiscated, for we know very well how 99.9% of these genocidal rats make companies that build houses that collapse at the slightest storm or issue and then shorten lifespan of workers by 10 years due to the issues and bureaucracy involved. The aristoc-rats are not just these filthy rich CEOs and owners, contractors from hell, but the very mafia that runs cities and states and establishes rules and building codes that are deadly. With these city/state unethical officials having unlimited power, the federal government has no power to require any house in tornado states, 25 of them, to withstand cat 5 hurricane. So, the genocidal houses are being built and rebuilt, time wasted, millions of lives destroyed by the ☺abysmal IQ☺ of the system of 50 states of 20000 building codes by 20000 cities. If we're one nation, we only need one building contractor, that treats all pretty fairly and is 1000 times more advanced than the crap the rich aristocrats gave us up to now. So, if we want to be real, we need to be fair and execute a real plan that prevents murder by genocidal musicians (99% of singers (maybe 95% of instrumental musicians too) are genocidal since their aggressive tone contributes to war), by genocidal aristocrats (99% of aristocrats worldwide are

genocidal, even when not intending to be so, since their choices lead to billions of lifespan years lost for the enslaved masses), genocidal actors (99% of actors are genocidal aristoc-rats, as most movies are pure violent filth), doctors, lawyers who have become too accustomed to play god and make millions by literal murder. So, to withstand the death pressure on these genocidal realtors, mortgage brokers, bankers, parasites, we need to stop these vultures as much as random guys being violent due to psychos like celebrities making violent movies for music or actual cinemas. To be fair and efficient, we need to go at the root problem and eliminate death and violence in all its forms, covert, less obvious and even violent crime caused. ☺☺☺

Each violent crime causes a collapse of order, a fear, a total collapse of the vibe needed to be truly selfless and help all, it creates a chain reaction that often leads to 300000 dead next 50 millennia, and if we penalize a slap with death due to it leading to 1 million dead in a trillion years, then we must be equally tough with the 10% of aristocrats worldwide, meaning remove their ability to cause death via gigantic theft leading to death 10 years early. We all know well, the rich game the system, so they end up wasting all national resources so only 1-3% live to 95 and the rest at 70-77. This 15-25 year gap is due to GENOCIDE and not letting society reach 120 for ALL. This is the crux of the matter. This means an end of 33 million companies and a consolidation into 11 or perhaps 100 initially. Since we don't want to execute 20% of population. So everyone needs to look in the mirror, avoid death, realize by reading the 4.5.6. 280+ pages of their atrocities and develop kindness. Unless they want all USA to die in a continental blast in 1 minute due to a more centralist nation developing a weapon to end violence on Earth. This is a battle between good and evil, a battle for the very survival of humankind. Violence must stop.

The cops use *20* positive *methods first, using the drones* and remain in a bullet proof car when the owner is known to own a gun, if civilian guns still exist (may not be allowed in areas with high violent crime, say above 0.2 or 1 homicides/100000 residents a year; *today it's 5 on average in USA, the land of total lawlessness and killings*). Loud booms or other crowd control tech use only happen if people are not responding to eterni cop tones (prerecorded ones) and not answering to the kind offer to give protesters 10$ and discuss issue at City Hall or by complaints at reviews.gov☺☺☺. This would be in high contrast with the brutal policing methods used worldwide today, where they use shields and start attacking protesters or individuals in a police call (who created a disturbance) with thug like criminal violence, before even trying to use megaphone eterni tone and brainwaves to induce happiness, 0 pain to deescalate empathetically the situation. Republicans and Democrats create violence by their evil policies of genocide via anti chapter 5.2 music, TV-education tone, radio-literature-youtube tone and content. Forceful removal from one area is postponed until it can be done peacefully and nobody would hurl rocks as today, since no violence is shown in any youtube, video, anything. Anyone who does that is going to be targeted for calming brainwaves, to replace anger with joy

and relaxation, so they become cooperative and stop the aggression, so they can be taken into custody for lifetime labor for violent crime. Instead of beating people or protesters, cops use positive methods and this leads to 1 million times fewer injuries of cops and civilians. No diplomat of USA will be allowed to criticize other countries' human rights violations, until USA is free of torture and violent crime, which means a big pause in criticism, so we can fix our own disastrous nation first. If you don't like a country, simply don't trade with it. No need to lecture and create enemies that then covertly attack via spies disguised as legal or illegal immigrants. This is the beginning of integrity and universal kindness. Violence in USA spikes when puppet diplomats criticize other countries nonstop, while USA has violent crime rate 50 billion times higher than it would be with immortalist music, movies, education. Wired security cameras gather data and, if odd yelling or activity noticed, cops send smaller drones of 1-4 mm, to gather data so they prevent crime before it happens by traffic stops of those who yell.☺☺☺

We desperately need to convey that without 0 violent crime soon, all humans may die in one planetary blast within 1 minute of the blast. Thus, we will provide big financial incentives and Immortality Credit Score boost to ☺☺*lovingly tenderly gently kindly*☺☺ encourage all daily via the TV-radio programs to donate their pets (175 million pets in USA and 0.65 million homeless) and evil sports and instead join the volunteering programs to take care of people, build houses and fix neighborhoods with the 11 companies, so we can end violence coming from lack of love, attention and kindness role models. It's absolute cruelty, hooliganism, violent genocide to have 170 million pets, out of which only 550000 are cop/service dogs, while millions of HUMANS live worse than these dogs, in tents or dilapidated overcrowded rat like conditions. *USA got have 340 times more pets than we need*. Do you want a world of safety, where everyone is safe on streets or one where dogs can maul you and violent criminals rape and assault millions each year as in the US? Similar statistics exist in 100 nations, WAAAAAAAAAAAAAAY (50-500 times more than service-cop dogs) TOO MANY DOGS AND CATS and FAR TOO LITTLE kindness for humans, 0 jails, 0 violence. We have a planetary insanity taking over, where people are valued far less than pets. Let us sweetly magnanimously and bounteously take care of people first, not dogs, and require anyone who gets a complaint about dog barking to have the dog replaced with a quiet cat or 0 barks breed immediately, to ensure good sleep for people, not fun for obese people. Any dog that bites is to be euthanized instantly as that is a GRAVE VIOLENT CRIME BY A DOG WORTHY OF DEATH PENALTY, no matter whose fault it is, since owner failed to secure their dog and take preventive measures. If owner has ☺abysmal IQ☺ and takes dog near people who taunt dogs or don't know how to handle dogs, it's the owner's problem. However, any human who suddenly attacks a dog will be fined and required to take ethics nonviolence classes. It's the owner's duty to prevent any bite of any human. Any human is 3 trillion times more valuable than all dogs combined. Since 2002, dogs caused more deaths and *injuries in USA than all*

Muslim terrorist US attacks combined by a 500,000 fold factor. So, *who're THE* REAL *TERRORISTS*? Dog owners? *Science studies show dog owners are* more aggressive, violent *than those who dislike dogs*. The science reasons are explained here in detail. Hitler had a dog (see pic) *that helped Hitler kill* 80 *million* in *WW2*. *The dog lovers tell us that dogs are often angels from God, but how come dogs kill/bite millions of innocent angelic people, but didn't kill Hitler/other psychos? Dogs* are *lousy* robotic computers, *if* software (training) is good, they don't bite *usually*, *if* software *is bad, they kill.* British Royal family, infamous for genocides, promotes, loves dogs. Cat people are smarter than dog people, which explains why many nations are smarter than Brits. No wonder cat people are leftist during elections voting, like immortalists.

American heartless people own 10% of world's pet dogs and 20% of world's pet cats, 170 million cats/dogs, while 0.7 million Americans are homeless and 70 million live in horrible housing, indicating why USA got *5-83 times the* homicide *rate* of many civilized nations: pets are loved *50,000* times more than humans, USA exports 43% of world weapons, and owns 42% of its civilian guns, even if USA is 4% of Earth population. When brutes (who mind control 'musicians') determine the infernal music and depraved TV content, no hope exists. Thus, USA homicide rate is 83 times higher than Singapore, 11x > *China/*Italy*/Norway*, 78x > *Qatar* (few *dogs in Islam, so dogs* don't *make countries kinder*), 41x > *Oman*, 28x > *Bahrain*, 19x > *Indonesia*, 4x > *Egypt*. Unlike Australia, we need to give landlords the right to not rent to people who own pets, due to the many issues pets create: mental illness (cats) that causes *world violence (*20% of pet cats are *in USA)* and psychopathic aggressive music, selfishness, disease, urine feces particles in all house ducts and microbes everywhere, allergies, poor sleep, bites, death by mauling. Not only that, anyone can refuse rent to obese people, to ensure obese people are reported via reviews.gov in case the doctor was bribed to not report them and do the required emergency diet change and therapy to lose 100 lb within 3 months. Violence against oneself is not encouraged. Likewise, we need to immediately provide mandatory treatment, all weighed food items for 4 meals daily suggestions, with required calorie counting for every meal, etc and diet change all obese people who would otherwise damage furniture, beds and public seats and encourage weight gain in other people by their mere presence in society, deplete national resources due to triple the risk of certain diseases common in older folks. *Obesity* is a semi-*violent crime against self, so it obvuiously* ☺☺*lovingly tenderly gently kindly*☺☺ requires *immediate* intervention by the compassionate state for the temporarily 'insane' person who takes no action or can't control self, *due to stress at* work or family, so drastic action to save public health is needed. Stressed workers become obese due to pleasing all, lack of central education, and due to the aristocratic mafia creating fatty bad junk foods to fatten all for profits. Obesity shrinks the brain, endangers self-control, science innovation. We have created a society of obesity, pets, alcohol, smoking, weed first, *instead* of kindness *first*. The trillions spent on "alcohol, *comfort foods, fatty*

restaurant chains, smoking, vaping, weed, *pets"* could end all violent crime in 10 years, but few care, as the laws promote gluttony via the criminal Big Food. ☺☺☺☺☺☺☺

Once again, if pets are service or police sniffing dogs, it's OK, otherwise, pet ownership is a crime against humanity for as long as one violent crime occurs on this planet, a lack of empathy for the billions suffering violence daily on this planet, in covert or overt forms. *Love people* 8 trillion times more *than you love any* pets. Why jail people and treat dogs like kings? Why beat people in jails and torture them as CIA-FBI-military do, while they don't kill dogs who bite people? Outlaw human torture, not "euthanizing dogs". Every owner needs to have 100% right to go to a free euthanasia center to euthanize any pet, *no reasons ought to ever be provided*. People have enough stress, be thankful they go by the 100s of millions to euthanize cats and dogs globally, thanks to this book. Today they make it difficult or criminal to euthanize dogs, they do this to depopulate and destroy USA: *9* dogs*/cats,* 0 *kids*. Wait, *170 million* humans *in USA, half the country,* lives in terrible conditions, with broken appliances and issues in their house, leaks, mold, bad vents, mold they have no clue about, etc, and many health issues, yet we have trillions to build endless dog parks, pet stores, pet hospitals, etc, to spend to fix cat scratch/bite and mostly dog bite injuries, etc, to feed 170 million pets we don't need to be happy. It's the epitome of satanism to waste so much time and national resources with pet hospitals and etc while dogs are a huge cause of endless violent crime. Dogs make people mad due to poor sleep and cause endless incidents where cops and dog owners fight, where 10 million Americans alone go to the emergency room to treat dog related bites.☺☺☺ *It's pure* diabolical *sadism to get a dangerous dog breed*, if not a cop or service dog, since statistically, you know one of the dogs is going to bite someone some day. Thus, such breeds need to be outlawed and dog fees created, to prevent violent crime, like any dog above 10 lb, pay 5000 a month at least. People need to be taught from 1st grade the evils of dogs and a national Manhattan like project is launched to create drones and robots to sniff drugs 1 trillion times better than the best dogs, and to replace service dogs. *Time to end the dog terrorism of humans.* ☺☺☺☺☺☺☺

All TV-radio etc need to broadcast every 30 minutes (for 50 years or however long it takes to unify the world and eliminate 100.00% of violent crime and war) that in 2 years a weapon can be developed that will be able to take out all human beings in 1 minute above or underground, even those in 1 mile thick lead bunkers. *The only solution* is world unification. The main driver of world violence is the depraved aggressive tone present to various degrees in 99.9% of music worldwide, which can't act as a "tame the human beast"☺☺☺ energy of super gentle tender soft healing nurturing calming music. *Dearest Workers, Cannon Fodder Slaves of the Worldwide* ☺☺☺, Victims of Genocidal Palace Dwelling Aristocrats creating Infernal Music: to reduce violent crime 1000 fold immediately, we need to reduce violent music 1000 fold by banning 999 songs out of 1000, and leaving the least violent one or creating it. We need to ban any music clip

on TV-radio that doesn't include World Peace in 3 months lyrics, or at least lyrics of Immortality for All,☺☺☺ gentle tender soft healing compassionate nurturing graceful loving kindness for All, lyrics which imply no wars, no violent crime. A good example is the Immortalist Anthem or this peace song. No negative emotions, actions, criminal actions allowed in any music or movie. This a trillion fold violent crime reduction☺☺☺, 100% dismantling of spy networks, gangs controlling 10 million companies in USA alone, etc, will need total central super-control via 11 employee owned 5-25 million employees each mega state companies, achieved gradually thru step by step implosion of all criminal networks and the *elimination of the aristocratic class by granting them normal incomes and assets*☺☺☺. Under the *gentle tender soft* infinitely ultra super (details here) kind *healing,* yet firm, *leadership* of the Immortalist Anthem and the Immortalist Party, the immortalist president of the USA, hopefully in 2028 when we may win presidential elections, would make it the number one priority to forge the Universal Peace Alliance for 0 Violent Crime in 10 years and 0 Wars in 3 months, for the end of terrorism of workers by aristocratic wars of theft and palace dwelling aristocrat created gangs and brothels (death penalty for prostitution and rape: for pimps, *users* and *providers* of services, *if providers did it of their own will, not under threat of death by cartels, pimp*). All humanity has one common enemy the possibility of one nation, among 200, creating the device that kills all humans except a few in a special capsule. The only way to prevent such a scenario is the removal of all violence worldwide in all its forms, making everyone 1 billion times more *gentle tender soft healing compassionate nurturing graceful loving kind* and nonviolent, thru the Anthem Immortal style centralist education since age minus 1, via the planetary UN mediated state of emergency in all 200 nations to eradicate all violent crime within 10 years and the Eternal Ceasefire, End of all Hostilities, with all disputes solved peacefully to avoid the end of the human species by war. ☺☺

The Universal Peace Alliance shall work as one to create similar state of emergency laws, as described below, to eliminate not only violent crime, but its byproduct too, war itself.☺☺☺ As mentioned in the 50 pages above, any punching or slap would mean death penalty (or lifetime labor in a sealed healing crime free city if death is faked, instant death for any violence within that city), shown live on TV, with fines and educational courses for all those 500 friends, teachers, co-workers of the executed (in order to remind them to live the *gentle tender soft healing compassionate nurturing graceful loving kind* way and transform by living example those around), plus some community service for the closest 10 people involved in the life of the person executed. All these 500 people fined and sentenced to educational courses would be seen on TV and their role in precipitating the punch explained, so as to end the mentality of "scapegoat one guy only". It's the zero penalty for slaps that encourage so many beatings, spanking, slaps by clergy, parents, siblings or teachers. We need to create a new planetary standard that views a slap or punching as evil as a murder, since the standards are much higher

in the future. We turn the future into the present. Any act of physical violence has to be as unthinkable as killing someone, starting with the day when it becomes effective as law (after the 6 months of daily rest, education). For 100s of days, the national TV, in ImmortalityTV.com style and manner, shows the daily executions and penalties for all related to those caught in punching at bars, and nightclubs and the new laws are passed to ban all pubs, nightclubs, etc, so as to prevent any punches that cause deaths. ☺☺☺☺☺☺☺

Quantum wars that wipe out solar systems start with a punch at a pub. Huge evil starts as an infinitely small evil. For 6 months, before implementing the *"lifetime labor or death penalty for any slap or violent crime"*, those with violent crime history will take 5-6 months off, to enroll in a healing course of 24 weeks, 40 hours a week, most going to a retreat away from home to relax all day and eat healthy, their first vacation and break from the evil government condoned infernal media and music-movie industry of the Jewish Genocide Lovers who controlled USA for 250 years, an educational course and relax, sleep well, meditate, learn basic ethics, being happy techniques, their insane neighborhood, family, city did not teach them. This ensures that they get the same opportunity to good education, nurturing environment☺☺☺ as those who were shielded against the genocidal movie influence of the Zion Elders music and aristocrat music created to destroy the gentiles and the masses of slaves, music created to make violent crime 50 billion times higher. The government will prove it loves its most neglected and abused people, before it implements the tough new laws, which will also end all aristocrats and their thefts of trillions of dollars from the American people and the state, the biggest violent crime *(subtle form)* perpetrators: the rich. We the People end all the thieving aristocrats and royal families: max pay will be 2-3 times the minimum wage. Theft ends, since nobody wants to work 400 years to build roads, clean toilets for 400 years to pay his debt, since it won't be 400 years of community service in one's favorite job, but the most menial jobs. If one can't pay instantly the fine, he will have to do community service on weekends. If amount is high, then he will have to do toilets, mining and roads for the rest of his life. Order will replace chaos, *ethics* will replace the all pervading banditry *today*. We end the Jewish British banditry of 4500 banks in USA, 1500 in Germany alone, so we get one bank, one card used for all purposes, banking, driving, insurances, etc. The card can get a place where your fingerprint goes and the scanner makes sure it's you using the card. Easier yet, if anyone uses your stolen card, you will know since you won't find your card to shop. That way nobody wants to steal cards and no biometrics is needed. The Jewish and British thieves love the USA system of milking gentiles. Today, endless low IQ folks use bullet or microwave guns to kill or injure others (even people who made no threats but simply complained about loud music), and then claim it was in 'self-defense' or 'they saw a weapon' when there was none. This enables these killers to escape the death penalty, so this would no longer be true. If anyone kills or attacks anyone without being physically attacked first,

they will be executed. End of “story and 15 year trials”. We have better things to do in USA than everyone being armed to the teeth due to ☺abysmal IQ☺ laws. ☺☺☺☺☺☺☺

When rape, slaps, punching lead to death, nobody will do it and none will need guns anymore. The reason all low IQ folks have guns is because the laws are low IQ and education-TV vibes bad. Just laws, that recognize 1 punch leads to 5 trillion dead later via ripple effects, end crime 5 trillion times faster. So, we will end it quick by proper death penalty. One lady got shot for complaining about loud music, well loud music would not exist, since fines would be 5 million and everyone can report it privately at noise.gov, record the noise, and let cops fine that guy, take his house and he will live in a special colony of loud music lovers fixing roads and picking produce for the rest of his life. UFC President invited by Trump to defile the inauguration who slapped his wife on TV, and his wife would both be executed under this law, if they did it again after law was passed, for slapping each other, as would anyone who promotes slapping, since a slap doesn't require a slap back, only requires to run away, to prevent escalation. Public will be educated that the only self-defense is OK when a danger to life exists (knife, gun pointed at self, threats of killing) and one can't run away (enclosed space). UFC President invited by Trump and many UFC future promoters (California governor promoted it) would have been “executed” (well, covertly lifetime labor perhaps), if, after the law was publicized on TV and made known to all daily for 6 months on all TV-radio, he would have incited people to violence via youtube and also slapped his wife again, which is a capital offense in an immortalist society where the worst crime ever is a slap every 500 years globally in the beginning stages before eternal grace reigns. In our world, UFC fights are promoted by the FBI even, instead of peaceful music and peaceful media that removes all ideas of punching anyone from any mind. All boxing and fighting training by cops done in special cops only areas, with all boxing and martial arts banned for civilians. None will dare touch anyone, as death would be certain. All movies, youtubes will be free of any violence, no such literature or movies can be created. Only secret, cop-military education only movies and literature deal with violence, to prevent issues. Nothing in the public domain can contain any violence. The TV will show 100 executions daily, if that many are happening in USA daily for any violent act after the 6 month 20 hour education on TV-radio-internet period of increasing awareness of the death penalty and 2-50 years of mining, roads, janitor labor for theft fine one can't repay within 5 years with extra weekend hours. People don’t need to worry, because some future century or decade, a human controlled AI of the Global Universal Government of 11 immortalist companies of Immortality for All, will or will be able to read everyone’s thoughts and emotions (even those 5 miles underground under 4 tons of lead) and the moment someone thinks and gets ready to punch or slap someone and his motor fucntion is firing and first is moving towards the target, he's justly instantly killed by the AI for violent crime, instant justice. Justly, since a slap today becomes a planet blown to pieces in future star

wars. No violence is justified and let the violent Bible-Quran-Gita lovers know it. The thing is when such a tech would exist, it can simply use brainwaves to put an angry would be attacker in a state of peace and education is so advanced, that nobody in 4 trillion years would even think to punch anyone, since to read everyone's brain is to also be able to write that brain to some degree and change the anger into bliss, aggression into compassion, etc. This is more of a sci-fi idea to give people a sense that in a healing city where violent criminals are held, they can definitely find ways to ensure nobody is hurt again via AI technologies. All humans need to clearly understand 2 years from now a physicist could discover a bomb that when tested can kill all humans alive and that our first priority must be universal eternal peace within 3 months and 0 violent crime within 5-10 years. However, if this first physical attack was in reply to verbal taunting by someone, the verbal abuser will get lifetime labor, if the verbal attack was unjustified and simply used to provoke the other into s slap that would then get him killed. No words are a justification for any slap or physical attack, shoving or pushing. Words are not actions, mere criticism to polish the ego and ask questions, clarify, seek answers, understand something. If a verbal attack results in nothing, then he's fined if the attack is mean and having no basis in reality (mistakes brought up were made up, to piss the other or try to get him killed by taunting him to slap or kick). Anyone practicing martial arts, torturing anyone with lasers/etc, attacking anyone, starting any war, practicing boxing/UFC/kicking anyone is killed. The only allowed self-defense activities are universal centralized eterni tone education, tone upgrade education so nobody even knows what a kick is, such kick is never seen in any movie or video. A force field where this is not applied is created for planetary defense exercises on certain islands, since they simulate killing alien humanoids and would be otherwise killed by the AI.

The aristocrats are able to steal trillions only thru violence by the police, courts, military, FBI, CIA, so this theft will cease by the step by step implementation of return of stolen trillions, the 11 companies, and the nationalization of everything, so that the rich can't incite the poor to violence anymore by total control over the media, music, stock/banks market, elections. We can't execute 1 million people for being violent, so to avoid that as much as possible, we will give the troubled people, who're addicted to smoking, alcohol, violence, drugs (usually all 4 go together) a healing period of 6 months off work, to see and join a world of heaven they never knew existed, just like the youth can never realize a world like the Immortalist Anthem can exist, so different than the 1500 violent quotes of the Bible and infernal US music created by mind controlled or evil "celebrities" who're mere mind slaves of the FBI-CIA-military Jews, Brits, etc. All sports will be gradually banned within 12 months, with replacement with volunteering at the 11 companies to build the New Immortalist Nation made of all human beings on Earth. The only allowed sports are jogging, indoor push up and home fitness exercises that use no special facilities (get some exercise machine if you need something special for physical recovery from

some injury), while listening to eterni music, for those who may still need some fitness for construction job or cop/soldier jobs until World Peace arrives via the Resource Consciousness Awakening of the Robotic Cannon Fodder Soldier Slaves. Ethics means 0 violent crime, meaning ultra rested people who slept well in their single family home & quiet town. ☺☺☺

The first duty of anyone remotely claiming to be spiritual is to end all wars, jails and violent crime, so that real culture can emerge from long deep rejuvenating sleep and happy bliss. Moving balls, shoving people in sports is *secondary*, barbaric, selfish, low IQ and *useless*, a waste of energy when our tones are so bad, happiness so low. Any sport created by the all violent British Empire, (and martial arts of all nations), such as soccer, football, rugby, tennis, etc is banned, as we exercise by service to the cause of decent housing, decent justice, decent education for all, so all may become geniuses discovering new techs to live to a trillion. America declares its first real independence from Britain. You know, the Brutish Royal Family and aristocrats own 70% of land of UK that stays empty, while the British slaves (the 99%) live crowded like rats in cages subject to microwave and electric shocks, plus torture of sadism incarnate. Please watch a few youtubes to understand how racist and xenophobic the USA founders were and still are: 1. Benjamin Franklin 'Germans are not white', 2. 1924 Law of Purity: 'whites can't have any black blood and be 15/16th white, max 1/16 Native Indian', 3. Irish are 'lazy, dumb, dirty chimps' (even though they look 95% like Brits, much more similar than the South Europeans, Asians or Blacks), 4. try some of the 170 videos by the same channel. See how much so it was in 1924 and even today in most pockets of the ruling British elite, who views 33% of Americans, Britons, Australians, etc as pure animals not worthy of owning their home even. The same class hate (aristocrats vs working class) and ethnic hate that defined Britain for 900 years is seen today right here in USA, not just racial, but ethnic too. Well hidden… with covert torture of billions. Brits, like US CIA-FBI Jews, are deceptive, they torture those they hate using others, usually not Brits, to hide the torturer. Brits hid that they remained in charge to a great extent after the fake US revolution of 1776, when the aristocrats in charge changed slightly, on paper at least. People are so naive, they think if some Democrats put some minorities as a front person in 'charge' of some agency or department, it's really those guys who make the decisions. Nothing could be further from the truth, it's them, the Brits, Jews, remotely controlling those minority guys. They're experts at this, after 950 years of aristocratic empire since William the Conqueror, and for Jews for 3000 years of Bible tactics (posing as Brits, etc), Italians 2000 years of empire. Being aware of the past, makes immortalists want to create a unifying culture, where we're one nation: not 50 states, not 5000 languages, nor 400 ethnic groups, but honest bipedal chimps evolving into peaceful apes of one state, one language. ☺☺☺☺☺☺☺

Likewise, in the USA, Australia, Canada, and 200 nations we see similar jailing of "free" citizens under phony excuses of the need for 10 million sports facilities and useless businesses to steal

the national resources for decent single family housing for all, to create a psychopathic society of ☺tiger IQ folks☺ punching boxing bags and training how to attack and defend from physical attack. In a family people don't punch each other and fight, and we will become one human family of 8 billion via The Immortalist Anthem and The 11 companies. With death penalty for any slap or shoving, nobody is violent and we focus on giving every citizen a decent place to live, we exercise putting pipes, roads, infrastructure to build nice homes, we end aristocracy and monarchies forever, as true democracy emerges. To end the Nazism of the genocidal racist rapist violent thievery slavery deifying Bible-Torah and Quran, we need to lifelong educate the people via the centralized tone since before birth, create a truly kind vibe, as US becomes independent of Jewish scribe psychopaths who spread poison on the entire planet via the Bible and then via the Jewish Quran made up from the Bible itself. We encourage the Free Citizens of all nations to submit to ethics.gov 8 billion candidates for scripture, each 10 pages maximum, short like the 9 page Immortalist Anthem poem with zero negative words. If Moses, Jesus, Mohamed, etc were "prophets", then the average human today is a billion times more "prophet" than them, not needing objects, wafers, rituals, clergy to connect to God. We don't believe in the psychotic violence, rape, plunder, depravity, cruelty deified in the Bible-Quran. We don't study physics from 1st or 7th centuries, why do so for ethics and scripture? ☺☺☺☺☺☺☺

All concerts are banned, unless the volume is low, free of booms and have only meditative eterni music, since research shows blasting music, blasting booms, can damage the brains of concert goers. NPR has a 16 min talk about low level booms (so common at concerts, hearing 900 at one concert) destroys the brains of people, which explains why the soldiers-spies-cops have their empathy centers damaged, as nobody can join them without firing weapons a lot. So, the rulers of USA and every nation, the military, are brain damaged people, as seen from their eternal torture of millions of people. Thus, it is imperative to end the world military dictatorship and bring World Peace in 3 months. Discos and pubs often have very loud booms that destroy the minds of the "0 IQ" naive fools dancing their brains away to the tune of 'demonic howls' (the infernal tune of discordant, shouts void of *gentle tender soft healing compassionate nurturing graceful* loving kindness, shouts that turn the youth into monsters, sadly, most music today, which is not eterni).☺☺☺ The penetrating booms of concerts are similar to artillery booms that cause brain injury, depression and suicidal tendencies. In fact, many concerts sound similar to war zones, being more of pure trash. Any ranger, cops, etc need to use drones to shoot animals, bears, etc, during wildlife control, so as to avoid brain injuries. Always use the quietest vacuum and appliances as explained in the quiet cities guidelines of the immortalist culture. Gently recall the longest living musicians (106+) were mostly piano or vocalists, as those are no booms and very biocompatible wave harmonics. No centenarian musician was heavy metal, pop, rap and other trash musicians. They were not like these "mental institution escapees"

today, shouting and making huge war noises, who have the sound volume at infernal levels near the stage. Clueless youngsters pay 1000$ extra to sit very close to the stage, where volume is louder, close to "stars from hell" in order to live shorter, destroy their ears, brains, organs. These 0 IQ "music celebrities" totally destroy their bodies and brains too. The fiendish "musicians" ('shouting competition experts') never sing about the issues of the day (see the 11 companies section), like 1 bank, 0% taxes, 100% house ownership for 100% of population, etc, only pure trash to drug the youth, damage their ears, brains and every organs with unhealthy booms. When was the last time you heard a song with these types of lyrics? These ☺abysmal IQ☺ singers don't know basic cymatics, acoustics, cell biology and how cells react to sound waves. Due to this, the federal law will be one and clear: max sound will be 70 dB in any party place, free from bass, booms or anything that might reduce empathy and cause violent crime via impulsive behavior observed due to booms. It's time to protect our planet from terrorist musicians who commit genocide against the human quantum field.☺☺☺ Concerts that have loud music, loud booms especially that traverse the body, increase biological entropy, cause tissue damage in all organs, not just the brain. Concerts are also truly evil gatherings where drug distribution happens too. It's useful to note that some churches have some really loud music that destroys the bodies and brains of those attending and fines ought to be given when decibels are too high. Every hour TV uses 10 minutes to remind all of the fact good sleep can add 20 years to lifespan, while bad sleep can take 40 years off our natural lifespan, give us lethal heart attacks, diabetes, increase violent crimes 50 fold too (tired folks are angry irritable explosive folks): how to sleep better, how to destress better by happy breathing. We also remind TV-radio audiences of the proper cooking methods summarized in the Eterni Food Inc section, since bad cooking methods/food combos can lead to 40 years lost, while good ones can add 20.

To eliminate all violent crime we need to help all citizens feel as if they're the 1 month old babies loved unconditionally by their sweet mom (government) who patiently, kindly, gently, tenderly breastfeeds them. Our government policies, aligned with the Immortalist Anthem, need to make everyone feel loved, nurtured, warmly cared for, so as to diminish people's anger, and help create a strong sense of international and national unity among immortalists, to help bring Eternal 0 Violence and 0 wars. This requires a saintly government of kind folks who choose the most healing speakers for TV. The government will gently explain thru the most angelic tones and speakers that after the educational period of 20 hours on TV for 6 months, the new penalties take effect, out of love for all citizens, who're little babies of the Eternal mother of all, Eternia. All people will also get the email and text links, to the daily lessons via youtube, so that all are seeing the new ethics classes they never got, in the new tone, and even those too busy to listen to TV or radio-Internet can get it via phone or email. Everyone is mailed the basic pamphlet of ethics and the new guidelines of penalties, be it lifetime labor, death penalty, of

minimum 70 years community service for any violent crime, depending on what is decided. ☺☺

Where will the $5 trillion for the healing cities housing all lifetime labor come from? Some humans pretend to be kind and altruistic people, and protest heavily against the 1% or 10% evident to everyone aristocratic parasites and thieves, but the reality is USA got 170 million cats and dogs which use enormous land resources to grow soy, corn fed to livestock that eat corn-soy to be killed via cruel bloodshed in a slaughterhouse. This murder and genocide of human like lifeform industry takes huge land and other resources for pet hospitals, pet stores, per food growing land, wastewater treatment plants for all sewage from slaughterhouses and pig-cow-chicken farms, etc. Evidently, we need $3 trillion to remove all jails and house the 2 million in sealed healing cities and return them to society after sentence is over and after the education courses and meditation bliss courses of deaddiction from alcohol or drugs, smoking. The ethical way is to support humans (not pets who can't invent anything) who extend human lifespan thru inventions, who can be vegan and avoid any bloodshed. This ethical way means we introduce gigantic fees for liquor stores, vape stores, drug stores, pet stores, pet ownership fees, etc, to raise the money. Look at 90 nations, the most criminal spy agency/military families often fit the profile of the average selfish family, meaning they got cats/dogs they don't use for drug sniffing, only for security (a camera is way cheaper and quieter, dogs cause millions of injuries that drain the national medical resources too). Hitler had dogs, so how did dogs make him an angel? We see these domesticated tigers (some tigers ate 300 people each), and domesticated wild dogs (see them eat animals over 40 minutes while prey is alive unlike tigers that first kill prey to diminish pain) that are unable to turn the brutes into civilized humans who don't torture and do everything to bring 0 violent crime in 3 years. But many spy agency/military brutes in many nations haven't been made kind by said pets, they continue to torture millions. So, the idea of pet lovers that cats and dogs are angels and make people nicer is pure fraud and lies. The drive to lower violent crime a trillion fold will help people to graduate from their Immortality Credit Score Label of Bloodshed Cruel Murderers of pet like livestock they mercilessly kill to satisfy their selfish desire for cats and dogs, fed by the Organized Mafia who makes huge money off this cultural habit of EGOISM. For how can you house 170 million cats and dogs and you have no concern for the 0.7 million homeless in USA? How? By following the cruelty and barbarity of classic capitalism. Here we come, once Immortalists win 75+% of the vote they change the constitution, to end the dictatorship of the Jewish Lawyer Mafia (500 times lawyers in USA) of the Court-lawsuit Industrial Complex of Jailing Gentiles, they start fining pet stores (who ironically are owned by Jews who want to destroy gentile families by making them childless), and pet owners 1 million dollars for every single complain of barking: every dog owner and every dog food selling store will be charged $1 million for every barking complaint. 2 million per barking that harasses people and disturbs their peace. With 1 million complaints, we achieve $2

trillion fast. Then we fine 1 million dollars every ONLINE or PHYSICAL store, importer and wine producing farm who sold or produced any bottle that caused a violent crime and car accident, thousands of such crimes and accidents happen daily, so we cause millions of acres with wine grapes to go bankrupt so we plant healthy foods there: blueberries, purple kale, purple cauliflower, purple cabbage, plums, walnuts via the National Eterni Food Inc that ends all junk food selling Jew owned stores or Brit-Italian etc owned restaurant chains that commit genocide of gentiles via AGEs, etc. This means in 3 years we find $5 trillion and change USA very fast, as these demonic industries of liquor, fast food, vape stores, pet stores will be decimated within 3-5 years, 1 day at a time. Satanists/psychos worship the shedding of blood to have a 200 cats, dogs houses for every homeless. Only an animal would agree that we Americans are civilized when we have 200 dogs and cats for every homeless, meaning we don't value people even as one 200th of a dog or cat. Let's be real, if you're worried about your relatives serving lifetime labor in a sealed city due to punching a stranger or neighbor, you simply need to help the state end all violent crime, so that they start releasing those sentenced for life in a healing city (no contact with outside). This way to exert infinite pressure on the animals who slaughter 5000 pet like beings, in order for their evil selves to enjoy having a dog and cat in their house. These animalistic humans need to be woken up from their diabolical trance of Bloodshed Worship and evil Pain Inflicting that pervades all levels of many nations, from the spy agency-military brass running every nation to the nonvegan pet owners. ☺☺☺☺☺☺☺

People will say that we can't fine the mini-aristocrats who need dogs or cats to be happy due to having the IQ of a rat unable to realize meditation and happy breathing can make them 300 times happier, but we can since we have the mandate of the 70% of USA, the slaves living in moldy faucet leaking roof leaking moldy AC stinky dilapidated houses, pothole rich cities full of junk food poison selling businesses, by the 70% vote win to fine the hell out of all aristocratic bastard businesses used to jail 200 million Americans in filthy houses where everything falls apart, instead of being kept in amazing condition by the one and only contractor in USA, the 10 million employees Immortality Building Inc, the mighty one universal contractor and maintainer of every house/workplace/building to the same standards of the aristoc-rat-ic murderers keeping America in the 3rd world country stage forever. We can even create huge 50000$ a year fees for small dog and cat ownership, with double and triple the fee for bigger dogs. Fee is 50000 times weight in pounds divided by 10. Thus, cats + 10 lb dogs owners pay only $50000 a year. Cop sniffing dogs are an exception, for those are used to sniff drugs until we create drones 1 trillion times more sensitive than bloodhounds, the dogs whose nose itself is 0.1 billion times more sensitive than human nose. We can have every hour on TV for 5 years amazing images and reports of the destruction alcohol does to the brain, heart, blood vessels, same for smoking weed, nicotine, etc, educate people in bliss without drugs without smoking, without alcohol,

without religion, and with kindness for all humans and sentient beings who're free from bloodshed. Free at last, from Bloodshed, Free at Last, end the Slavery of Animals now by eterni foods, end Slavery NOW folks and wanna be physical Immortals, be kind. Fellow Soul Immortals, we're only having so much money, energy, land, resources, we either build the dog or cat species or the 9 billion year old lived immortal human species. You want to die fast, get a dog, you won't live to a trillion, but with science labs in your kitchen you might. Your soul is shouting screaming to you to stop being a Cruel Cannibal Chimp like brute, who murders 5000 pet like animals to feed a pet. It's time for America to live spirituality and ethics, or kindness at least, instead of talking about it. Let no doubt exist in your holy newly immortalist mind, that nonvegan cats and dogs are pure cannibalism, watch what happens in factory farms to feed your cat and dog please: 1). male chicks killed by the billions weekly on day one of life, infanticide on a cosmic scale, killing 9000 male chicks is a murder like sin of destructive behavior against the human quantum field so closely similar to chicken quantum field, 2). cruel murder of live pigs, slow painful death contaminating the human quantum field with resonant death, torture, genocide frequencies that push humans to be genocidal 3). cruel slaughter of cows 4). cruel murder of chicken & Halal cows 5). cow cries as she senses her slaughter will happen soon, just as pets can cry 6). Kosher shackle and hoist, cut while alive, methods used by Israeli (the chosen ones who love pain, suffering of sentient beings and eternal bloodshed) in South America, similar to the Bible genocide of gentiles quotes that the murderous Jew cow cutter, aided by Italian frauds imposes at gunpoint on USA thru Bible cults. Watch the cruelty, it's not stun gun that kills instantly, but a 5 minutes death. Support Israel? 7). Cow slaughterhouse, bring a pet to watch their food source 8). Halal/Kosher = Satan/poison 9). "stun" slaughter can fail too.

Australia prime minister and thousands of people seemed angry about some American picking up a baby wombat, even requesting that their visa be revoked and causing her to leave Australia. Perhaps, all vegan immortalist nations ought to ban carnivores from entering, for doing atrocities 1 trillion times worse than this American expressing her affection for a baby herbivore in an awkward way that obviously was causing anxiety, fear and immense stress in the baby wombat. This whole thing may be staged to make people less cruel. But the critics forget millions of Australians, most of them, are not vegan in 2025 and this means they're taking part in a cruel enormous slaughter and genocide that inflicts a pain trillions of times bigger than what this American did. Instead of being angry, please major in chemistry☺☺☺ or physics, so we build eterni foods without animal/plant agriculture, with everything recycled from raw atoms. It's nicer if people try to be less hypocritical and take care of all sentient beings, not just wombats.

Not to worry, the Jews and others create endless beauty shops, that currently incur no fees for depravity, to "beautify" our youth, meaning to destroy their eyes with mascara, fake eyelashes,

rings, piercing and other abysmal IQ things explained in detail in the single family homes section. Behold the endless sources of profits and of money for healing centers replacing all jails, we prioritize the end of Jewish cruelty against cows, animals and gentiles, of aristocratic cruelty against the working class and we impose *10 million $ yearly fees on these depraved small or medium eye destruction businesses* who could care less about ending violence and jails. The murderous aristocrat doesn't care about 0 violent crime, because he lives in his imperial gates estate, where nothing happens. The cannibalistic aristocrat gives no concern about the slaughterhouses, he has no empathy or compassion for living beings. That's why these cannibals deserve the end of their business via the high tech science Eterni Food Inc that ends animal and plant agriculture forever. Another source of money to bring 0 violent crime is $1 million fees for all slaughterhouses who use halal/Kosher or no stun gun methods that extend pain feeling time 5000 fold. This way, we can raise billions by fines to all these criminal enterprises that cause violent crime by the spread of anxiety, fear and other bad hormones (0.2-0.9% of meat is blood) into the quantum field of humanity, since blood drain doesn't remove all blood, so violence generating hormones exist. This way, within 3 years we free USA and all immortalist nations from Halal and Kosher and declare our independence from the Bible terrorism and Quran terrorism of the human quantum field. 1776 all over again. In Saudi Arabia non-Islam religions are banned, but in USA we allow Jews and Muslims to take over and impose their circumcision, Bible genocide and extermination calls, animal slaughter on everyone. It's not fair. It's our nation, so we can end animal slaughter now. The modern science methods are less pain than even Native American hunting methods. Thru science, we move from the barbarity of Native Americans and all primitives to the age of the universal immortalism when nobody eats animals or plants. Second Belgian region banned the evil Halal, Kosher slaughter methods. It's overdue for the entire planet to do so soon. Islam is fake. To raise more funds, we use tiny cameras and drones to enter all USA slaughterhouses and fine abusers of animals $500 billion. The rich CEOs, top managers, etc will have to sell their evil mansions. This will cause the Immortality Education Agency to buy them, remodel them and turn them into Immortality Unis as detailed in the Reform of the Educational Research Industrial Complex. For big food businesses that loot Americans, we fine them due to AGEs to bring in $900 billion. ☺☺☺☺☺☺☺

People hear stories of the same migrant being deported 5 times or same guy being jailed 5 times for some theft etc and wonder how can it be that we waste time times the court and police resources to manage crime? It's very simple: the migrant was deported instead of executed for the violent crime of jumping over the wall and risking his life, endangering the life of self and cops guarding the ultra high tech wall. Likewise, the penalty for theft was 0 fine, instead of 0 jail, more education, relaxation, healing retreats and courses, 9000 times the amount stolen (as in immortalism). Sitting in a jail accomplishes nothing, except poor sleep, bad diet, brain damage

and becoming a worse criminal than before. Thus the whole US justice system is a complete fraud that wastes taxpayer money. It only addresses symptoms of the disease, not the causes of the disease: institutionalized Jewish terror via so called "places of worship", institutionalized Jewish theft of trillions from gentiles, institutionalized bombing, sabotage, sanctioning of all nations who don't have a fake "freedom of religion", meaning the freedom to call organized genocide cults religions because American Jews command gentiles in 200 nations to do so and the nonexisting American freedom (where FBI controls all clergy) that never exists in Judaistan Taliban America where anyone starting a religion of "God said maximum salary ought to be 2 times the minimum to create a perfect society of 0 crime via one family of 11 companies and 3 agencies, a wonderful world of infinite *gentle tender soft healing nurturing graceful* loving kindness☺☺☺ *where most are not making 10 to 50000 times less than the richest*", only scam religions of genocide, aristocratic terror (beatings deified in the Bible/Torah (kids, workers, sex slaves) or Quran (sex slaves, mutilated infidels, kids, wives)) looting, rape, begging, do nothing are allowed, institutionalized Jewish stabbing of 80% of male infants and kids, institutionalized Jewish supremacy where Jews and other aristocrats get paid 5000-50000 times the minimum or average hourly pay, defrauding everyone via 4500 banks and the stock market, etc. Due to the ☺ abysmal IQ☺ of the system, we need 5 times more cops, court clerks, etc, jails, etc than normal and this causes them to hire all smokers, alcohol drinkers, violence believers, macho hooligans (see new criteria for cops in immortalism, with all police departments merging), professional rapists (lots of sex outside procreation) and we end up with 80% of US police being gangsters (vice, violent music addicts) who torture people and do illegal acts, since they're 'animalized' or "made animals" by the evil Jewish Mafia running the military who sets the infernal tone of singing, of music/movies, the infernal scriptural tone of genocidal murder and terror that runs every US institution like USSR run by the same Jewish pests who instigated the murder of 120 million gentiles and terrorists like some Jewish leaders who exterminate(d) Arabs today.

So, until the top gang changes, no change will happen, as we have 20000 gangs or cop departments instead of one eterni department called Immortality *Nurturing* Agency that bans any cop who smokes (takes part in genocide by nicotine, 6 million killed each year), drinks (takes part in genocide by alcohol, 1 billion dead recently, a genocide perpetrator can't be called a policeman) or uses weed. Those who instigate genocide by their own *weekly*/daily habits have no right to be soldier, cop or court clerk, judge, lawyers, officials, government employess, etc hired to prevent genocide, to prevent violence. This universal national one police department will help in banning all criminal genocidal cults, all gangs, including Islam (a denomination of Judaism and Christianity in reality), Christianity, Judaism, 3 organized mafia "religions" of global terror and genocide. Since when can calling for exterminating all nonJewish, nonChristian or non-Muslim humans be called a Religion? Since Jewish Bankers run every aspect of American

Life? Since Jewish terrorists run the Department of Justice who only pursues gentile organized mafias but the not the Jewish ones running the 3 religions in USA? Christians forget their "God" is as evil as Allah, since De7:1-16 calls for exterminating 8 billion non-Christian people. Christians don't realize that they're essentially Jews if they follow the Jewish Bible with its 1450 calls for violence. Judaism is a religion: "If I want to kill 8 billion, God lets me do it" being its core tenet. Christianity, Islam are Judaism disguised, wake up sleepy slaves, watch the video of Jesus being made up. Let them go to Israel and live in tall Skyscrapers, nice weather, way nicer than most USA actually, endless desalinization water from the sea, to be close to the Holy Land where Jesus the Fraud and miracle staging expert lived and where Mohamed pretended to have soul traveled to, where Moses Lived after calling for endless genocides thru his 'God'. Who needs Genocide Cults in USA?☺☺☺ Let them all go to Israel and exterminate each other there, in the Holy Land of the 3 demonic Religions: Christianity, Islam and Judaism. If Immortalists win, they eliminate crime instantly, by implementing death penalty for all violent crimes. Even a slap by parent. DEATH. All pastors executed for any slap. With true laws, and 20 hours of TV education for 6-20 months before the death penalty becomes law, we need 9 times fewer cops and get 9 times higher quality cops, firing the animals. It's time to set a new standard for "religion" and "scripture" free from violence: psycho Quran, Bible, Torah, Mahabharata, Mormon don't qualify.

Likewise, churches need to abide by the end of bilingualism guidelines, which explain how fraud happens in 450000 USA mosques, churches, temples and synagogues and how we need to create the Office for Scientific Method, Proofs and Honesty to deter fraud/lies/crime by any religious entities asking for donations, who fail to deliver the product promised. Donations turn churches onto businesses who must deliver their product, or be fined for theft 9000 times the amount donated by parishioners to attain "instant immortality in 1 minute after death", when we know we humans can't even attain 200 year lifespan even after 20000 years of trying while being alive. It's one thing to say "in a trillion years, humans may reach lifespan of 500 billion years via scientific discoveries, etc" like immortalists and another to say the blatant lie "in 1 minute, you go to heaven with Jesus to live for trillions of billions of ages" with 0 proof of course. Fraud can't be allowed, since it breeds unlimited cheating, theft in ever new ways. Once people sense the government is one of bandits and thieves who allow every fraud to loot others (sell promises of immortality to get rich and live an easy lazy life), anything will happen in the land. When people see these hypocrites swearing by the lies full, genocide full, mass rape full, national theft full Bible, they lose all trust in said "officials of lawlessness". Freedom of religion is not freedom to extort people of money, using fake promises of instant immortality. A church can say "Immortality could occur, but we have no proof if the soul is or can be made immortal or exists. Thus we aim to create an immortal soul one day, just in case nobody created us. We don't know what happens in the afterlife, we leave it up to you to decide, since trillions of possibilities exist

and we got no way to prove any of them as we have no physics instruments in the alleged dimensions." This is more honest. Any person who asks for donations must deliver the product they claim: infinite life. Immortalists are all for ethics.gov teaching basic ethics via millions of youtubes and recordings, poems, anthems people submit, for online churches and turning each house into a temple☺☺☺, to save building materials and give all decent single family temples, meaning houses. *To reduce* theft a trillion fold, we need to have far more stringent *rules about "religion theft"*, since if people see these billionaire pastors, they will sense nothing changed and continue to steal, even if salaries are capped to 3-10 times minimum salary for CEOs to prevent huge thefts. It's important to fine shouting clergy (hollering rabbi, screaming Buddhist, shouting imam, yelling Hindu, howling pastor) $5-50 million (church goes bankrupt, state sells all to get its fine) as this yelling invites imitation by the parishioners (millions who see it on youtube) who then become bullies in the workplace/family causing a 1 million fold rise in violent crime, which is unfair, as death penalty is given to those doing violent crime but not to pastors for shouting so infernally in the presence of millions online. Terrorists often speak kinder than many clergy. Calling oneself pastor doesn't mean one can't be fined $90 million, together with his church of course, with all money paid by all employees (complicity to murder by shouting and aiding a psycho clergy) of that entity, after all assets of church are sold to the gov. ☺☺☺☺☺☺☺

Thankfully, due to the 11 companies, we can now instantly transfer bullies (educated to be so by infernal clergy) from one location to another, while before it would have been extremely hard. We place bullies with fellow bullies and video record everything and fine them for each verbal bullying attack on others until their aggression subsides. This reporting to reviews.gov allows us to detect dangerous parents who terrorize their kids (using the same bully tactics they use on fellow workers) and create future criminals, who, out of anger, will sabotage the 11 or however many companies they work at, since "no manager cares". The kids of the bully need to be secretly interviewed to see if the parent is abusing them verbally or psychologically using similar methods the parent uses at work with younger coworkers. We need to prevent any worker from feeling like nobody listens to their complaints. We need reviews.gov where all workers complain about everything, everyone freely, without repercussions. After every complaint, an answer needs to be given, someone needs to talk on the phone with the unhappy worker, who deserves the highest level of kindness, gentle tender, soft nurturing compassion. ☺☺☺

During the State of Emergency initial 6 months before the Death Penalty for any violent crime IMPLEMENTATION, besides the 20 hours of ethics education on all TV-radio stations, presented by 20-30 year olds in amazing videos that are sometimes replayed to be seen by all at all schedules, hours, etc, we get the daily update on new laws passed depending on the number of violent crimes showcased on TV via video camera recordings of the punching or threat to punch. All past violent crime offenders will get time off work for 1-2 months to attend 40 hours a week

of classes for free, to improve knowledge of ethics and prevent receiving death penalty in a few months when the death penalty for any slap, punch, etc becomes the law. Likewise, those who're addicted to nicotine and alcohol, weed, etc will be given a free time off work to go outside of the house, town to a retreat to learn how to remove stress, breathe consciously and generate bliss at will, to replace the so called 'joy' of nicotine, alcohol, drugs. This prevents them from being fined 1$ million if caught using any of those. *For too long, USA has been the land of gangsters, where theft (of money* by aristocrats *from workers) is the God of the Universe*, as revealed in blatant arrogance for the whole world to see: every day, on all radio-TV stations we hear the demonic updates of stock market moves by various companies 3% up and down, as if the main purpose of life is to steal and hoard cash. However, what we don't hear any day, on the news, is how much the life expectancy for the top richest 2% versus top poorest 2% looks like, 65 vs 89. We also don't hear that our violent crime is going up 4% or is 20000% higher than some areas of the world that are not USA, where homicide rate is 100 times lower. What about a World Peace index, tied to violent crime index and war news? How come that is not reported in the daily "*lies for cheated chained slaves looted by aristocrats*" news? The rich need new wars to expand wealth, kill more workers. How many assaults today? What was done today to bring assault/rape rate (see pic) down 90 times in 3 weeks? Why is that not on TV? Do the rich use gangs, prisons, crime to terrorize the workers and keep everyone in a state of fear and terror? All we hear or see is scenes of crimes, but nothing about how to bring it down 1 billion fold.

The bastard aristocrats don't care, as they live in high concrete wall or ultra high security gated complexes, protected by private security, with many camera and such, in cities almost nobody goes. So, the ☺puppy IQ workers☺ *just get stock index news, stock markets used by* aristocrats to loot the planet. The greedy bastards controlling our depraved culture have brainwashed us so well, we're all dogs chained to the dollar and the artificial useless stock markets. Every 40 years, 2 million Americans are shot to death by the ubiquitous guns, which are present since the daily news never deal with violent crime index and which crime went up and which measures were taken to bring it down 1000 fold, news only report when Apple stock or Dow Jones, NASDAQ Aristocratic Theft Index☺☺☺ goes up/down. MONEY THEFT FROM THE POOR is more important than nonviolence, civility, 0 jails. Likewise, every 40 years, we get 10 million very violent crimes happen which cause 10 years per crime of lifespan loss, so that's another 2 million dead equivalent, 2 million 30 year old losing 50 years each. We're talking about 4 million killed from direct violence, not to mention the 9 million a year from indirect violence, like smoking and alcohol who never make it on every news update, as stock market updates make it in the Land of 4500 evil Banks. Where is the discussion of the 9 million killed a year by AGEs in foods at every news release and what to do about it? Nobody cares, since the killers are aristocrats, not low pay workers. You never hear how Jewish Google founders cause endless cancers with the

Google made phones or how Apple causes cancer via WiFi devices, etc, and how we reduce that 1 million fold. Or h ow Tesla car RF in the back seat is 70000 times higher than other car brands, leading to brain cancer, etc. The only crime reported is that of poor people. So, to stop this sick trend, this incessant killing of tens of millions each year globally, we need to install a massive reeducation program for violent offenders and then kill all violent offenders, who, even after this education program and 6 months off-work to heal, rest, reeducate, listen to peaceful music, etc, still choose to kill or attack people. Better to kill a few thousands than have 4 million die again. Why need guns for? Once violent crime is 0, nobody needs guns anymore. The reason kids and others do so many violent crimes is because there are no consequences like lifetime labor.

During the indefinite (may take 20 years or more if it takes that long to bring violent crime to 0) State of Emergency, all gangs/gangster rap/symbols are destroyed. All companies begin the mega mergers into 11 mega companies, in order to destroy all gangs, foreign spies *who run 10 million companies*. Every procedure and everything is centralized, monitored and changed when dealing with gang/spy infested companies. All transactions are cashless using the Eterni Bank credit card, to monitor all economic activity of gangs or spies. All online currencies and etc are banned. To sell items, donate them to the Eternal Utility Inc and they deposit an amount into your account. Then, they sell the item to those interested. No need to waste time to sell. Government takes over of all radio-TV-education, 0 sports are shown on TV-radio (replaced with Immortalism Building). The nation quits attending all international sports competitions and the Olympics which are a symbol of cruelty, depravity, evil selfishness, blatant indifference for the suffering of the homeless and overcrowded, for those wasting years to buy or sell a home, rent a home, etc, instead of doing it in 1-4 days max, focusing instead on giving all a home, to reach 100% home ownership. It also provides a nice centralization of free universal education for all. It brings Quiet Cities and related pet laws to end the genocide of humans by dangerous dogs who send 20 million humans to the emergency room: *no music,* party*, dog* barking*, etc* noise *are allowed after 10 pm*, so that ALL (not just aristocrats) can get decent sleep. Sleep is essential to prevent irritability which fuels 1. violent crime, 2. theft, 3. omission at work, 4. mistakes at work, 5. shortcuts at work (leading to explosions, catastrophic events, etc), due to pressure to perform when ultra tired due to aristocrat pig in a big mansion having a party next to a condo complex of 50 workers who sleep poorly and make mistakes at work next day. This way the workers are no longer be entranced into violent vibes by hooligan discos, nightclubs, liquor stores (tobacco, alcohol, high caffeine drinks, high AGE foods banned), lottery vending/slot machines, casinos, vape stores, bars, pubs will be demolished (lifetime labor for tobacco-alcohol-drug sales) and replaced with Immortality *for* All Free Healthcare Centers and amazing housing for those who need it the most in order to bring violent crime to 0. *The savage human of today finds death penalty or lifetime labor for "minor violent crimes" odd, but the civilized human would consider*

the level of violence during "peaceful times" identical to war; violent *crime is 10-100 times higher* (domestic slaps, spanking, abuse are not reported in 99% of cases) *than reported in most nations, so the* EU *needs* continental State of Emergency too, especially given Russia's invasion and border infiltration by spies who poison water or may install devices to wipe out the continent in 10 seconds. After 6 months of daily TV education 20 hr/day, if any violent crime still exists, death penalty is introduced for all violent crimes and human trafficking/drug possession above lethal dose, since all had proper education via TV-radio-Internet-phones-emails. Due to the risk of all humans disappearing in 2 years from today, the transition period may be only 6 months, for the death penalty for any slap, punching, violent crime taking effect. TV-radio music will reflect the infinite compassion for the victims of violent crime and possible all out war killing the entire human species in 2 years from today. Even after the 12 months everything would be eterni tone, in line with immortalityTV.com. ☺☺☺☺☺☺☺

We replace all jails with healing centers that are 10 times nicer than the nicest church today with beautiful eterni qualities music and beautiful neon lights or posters about the *gentle tender soft healing nurturing* graceful loving kindness *qualities*, to help heal those whom society scapegoated, harmed and neglected by self-righteous hypocrisy. *Any alcohol can be bought only via pharmacy prescription* and only if all other treatments failed, to ensure a less hoarse voice, higher lifespan (alcohol shortens lifespan), less violence (most violent crime is due to alcohol). We will explain daily on TV, the advantages of efficiency, 11 companies and 1 language, 1 bank, 1 currency globally, for the time when people decide to embrace kindness for all, and the value of personal spirituality (everyone is a pastor of their own family, friends) instead of organized religion based on rather violent "scriptures" that are irrelevant (based on fake mirales, lies, scientific dishonesty that is incompatible with the ethics of those who honestly want lasting peace, need scientific honesty to discover things, and decent healthcare) in a world of 0 violent crime where Immortalist Anthem is the daily reality. Everyone is taught how to be ultra happy daily on TV, without the lethal alcohol, weed, tobacco, which kill 10 million a year. After the 6 months of 20 hours a day ethics education via all TV stations whose normal programs cease due to planetary thermonuclear/quantum war risk, the ImmortalityTV programs override all national TV stations for at least 12-20 hours, to announce, the State of Emergency laws come into effect within 24 hours (mining for life or lifetime labor (like in Europe) or death penalty):

1. MINING JOB FOR LIFE FOR VAPING-TOBACCO DISTRIBUTION: those who distribute tobacco products in any quantity will be sentenced to lifetime labor in coal mines and other mines where air quality and lung cancer risk is very high if one doesn't wear personal protective equipment properly, as a "reward" for inciting the genocide of 6 million people a year due to lung cancer by smoking. Vape products often contain drugs 1000 times stronger than morphine, which kill 50 times faster than fentanyl. All companies are state companies and those with mining jobs will

live near the mines, in the most desolate places, in sealed cities who're co-built by the workers and will look eventually, thanks to the hard work of miners, etc, nicer than Disneyland☺☺☺, being able to light up the desolate scenery, where mines and the most lung hazard jobs factories exist, being even industrial paints, solvents, lubricants, wood trimming, and other hazard jobs that require strong masks and respiratory equipment. We, the immortalists, want Immortality *for* All and we're aware that 1 cigarette will lead to 1 billion packs bought over 1 quadrillion years, via habits, taught to kids, in that family line alone. These cigs will kill 1000 people of lung cancer even in the next 900000 years by habits being taken by kids, grandkids. To be fair, to enact justice, we need to realize 1 cig leads to 1000 murders that create a vast imbalance in the human quantum field, which is the field of all humans, present and future. So, let us kindly gently ask ourselves, what is the right response to killing 1000 people? How do we penalize those smoking, meaning those who distribute cigs from an illegal location to their mouth? How do we avoid them smoking? Can we explain to them that with every puff, vaping, smoking or alcohol drinking act they literally kill a whole village of 1000 people, wiping out every building in it like this Marinka city? It seems not, but if they were to see the 1 billion quadrillion year effects, it would be worse than Hiroshima: every alcohol sip, every vaping and smoking act leads to Hiroshima style death tolls. Who will be so kind to take tobacco growing land and grape growing land to create healing cities where those incarcerated can live in tiny homes to heal, learn new skills and do some job, 35-40 hours a week? Nobody, they all talk about loving their neighbor, but no action ever happens, they continue stealing the land that would heal the poor scapegoats, for their cigs and beers, alcoholic drinks. The shocking part is that 26% of incarcerated are illegal aliens, 67% of incarcerated are minorities, yet minorities continue to drink, smoke and buy products from the companies stealing huge amounts of land that could give nice healing cities and houses for these people to live their community service sentences in (to replace jails), to live normal lives and lead productive lives afterwards, eat better. The "love of neighbor" is a mere joke for both majority and minorities, who pretend to be Christian or whatever, but do nothing to show it as with ending all jails. That smoke becomes eons later the smoke of mushroom nuke blasts that cause planetary winters for 25 years freezing and starving planets to death: do you love killing billions of people? If not, then kindly gently learn how to be happy by breathing and energy exteriorization, and stop smoking. Every puff blows a planet in star wars later on, when we look at trillion quadrillion octillion effects. Please be kind, have mercy on those billions dead in that planet blow up. Gently avoid smoking and drinking, since doing so, while knowing its catastrophic effects, will be far worse than smoking by someone who doesn't understand. We want to prevent smoking and, after the educational period of 20 hours of TV-radio ethics education, to separate smokers from society in a healing city free of cigs, where they can develop empathy. How so? Let us realize the people who live homeless, without heat in winter, starving, without a leg, eye, or hand, in Ukraine and Syria are victims of smokers

and alcohol buyers who have used their time to buy those products, instead of helping bring World Peace in 3 months. People complain about a little discomfort that the lack of cigs brings or the lack of beer or wine, but what is the discomfort of having no food, no heat, no water, your legs vanish, your family vanish, your city vanish like this? War is over resources usually, due to greed and laziness, people *don't want to innovate to not need other land and resources*. The land, the human labor resources that could innovate and prevent war are wasted with wine and tobacco industries, with millions of acres of tobacco and grapes for wine and alcohol. We need to be altruistic, realize smoking and alcohol lead to eternal wars, violence and jails. Smokers will need to overcome the selfish chimp within, give up smoking and kindly have compassion for all. We want to emphasize these mining for life jobs will be in the most friendly relaxing conditions, where people listen to their eterni music mp3 songs and are very relaxed. ☺☺☺☺☺☺☺

2. MINING FOR LIFE FOR ALCOHOL DISTRIBUTION: same less wanted jobs and houses in lifetime labor cities for those who distribute/produce/consume alcohol illegally, without prescription from an MD saying you tried 200 methods without alcohol first to cure the disease. Alcohol killed an estimated 1-2 billion people last 2 millennia, so it can't be taken lightly. Alcohol and nicotine are powerful narcotics that change the brain and turn people into psychos. We mandate all who bought alcohol or vaping/smoking/weed products to enroll in happiness classes to learn how to be happy without stimulants. This makes overcoming the withdrawal symptoms faster, as we take care of universal compassion for all and demolish pubs. If folks ship or distribute high amounts of alcohol or tobacco, death penalty will be applied. The 'weight' for death can be determined depending on how fast tobacco traffic goes to 0, how fast car accidents from alcohol use go to 0, how fast deaths from alcohol abuse go to 0, meaning if they don't go down fast after the lifetime labor is used for 1 year or so, simply shipping 1 pack of cigarettes or 1 liter wine/2 L beer/0.2 L spirits is death penalty. If this death be fake or real, hidden or overt, will be determined later, based on national needs. We need to once again, be kind and soft, consider that others suffer 1 million times more than not having alcohol, that many live to 110 without alcohol, that for the whole species, alcohol does more harm than good and that in this spirit of HUMANITY FIRST, me second, we ban all alcohol sales. *We need to realize that one liter of wine used today, will lead, in that family line alone, to* 100 deaths over time, due to abuse*, and that* murdering 100 people is not a minor crime. don't kill thy descendants by smoking or drinking today, says the God of Immortality *for* All. ☺☺☺

3. MINING FOR LIFE FOR WEED/DRUGS/TASER/WEAPON DISTRIBUTION: if the drug amount is below lethal dose for 1 person, lifetime labor in mines, etc. If it's above lethal, then death penalty. Foreigners who visit and carry drugs can be either executed (if evidence they put it there and not someone else placed it there without their knowledge) or *deported* (and banned forever from entry) *only after origin country pays $10 million fine* (lifetime mining inside

immortalist nation, until country pays 10 million) *to the immortalist nation that caught the drug carrying person*. Those who bring in tasers and weapons disguised as cell phones and etc, also need lifetime ban from entry, lifetime labor until state pays 10 million or death penalty for *bringing violent crime devices* in the Land of Immortality *for* All and Eternal 0 Violent Crime. Likewise, after the national ban on CAFFEINE, a deadly and destructive narcotic, via the creation of 40,000 eterni Smoothies Restaurants, distribution of CAFFEINE LACED PRODUCTS is leading to mining for life, as it kills millions each year, before they become a big fetus. ☺☺☺

4. MINING FOR LIFE FOR ALMOST PUNCHING/SLAPPING OTHERS: thugs attempt to punch others or threaten others with a punch by intimidating others and almost punching them, slapping them etc. If video evidence exists, thugs get lifetime labor. This is because a simulated punch can lead to a punch exchange that can turn lethal. Any real punch or slap leads to death penalty. Likewise, any use of dangerous weapons, tools, etc to simulate a threat to use it violently, such as gun robberies, knife robberies, etc, will bring instant death penalty if video exists (500 trillion cameras will be installed to patrol all streets and execute all thugs in record time). Yelling loud and arguing via shouts will also mean hefty fines and if religion related, persons have to take a course on how military spies who were genocidal psychopaths have created various religions via fraud in order to expand the empire they worked for, as explained in the violent quotes section. This simple online class, with witty easy to pass tests, will showcase the nondenominational nonreligious hypothetical beliefs of the 9000 year old humans of the future, some of which are even in this book, in various chapters, such as Not Knowing etc. ☺☺☺☺☺☺☺

This will help cool the heads of brainwashed folks☺☺☺, who never realized some people are pathological liars making up miracles. All those shouting in public will incur million dollar fines if big shouts and many people hear it, besides being required to take a 5 month course on immortalist values, tone and ethics. In our gerontocracies worldwide, we see blatant abuse of power, with old psychopaths slapping people and torturing them behind the scenes using hired younger people or remote devices. Thai MP shows what goes on in Thailand: pompous ceremonies for royal families, a very mean MP followed by endless TV stations, while Thai people are homeless sleeping on the street in Miami level humidity and 106°F(41°C). Instead of fixing homelessness, drug addiction, they have endless TV-radio stations with trash noneterni tone, just like the United Shouting of America.☺☺☺ Before you move to Thailand, recall many become homeless after moving there. The endless paparazzi following Prince Harry are most likely MI6 spies in disguise and he claims they invade his privacy. They're most likely his security detail, while UK people are homeless and sleeping on the streets. Good $ spending, check our Prince Harry mansion. UK military has 500 trumpet soldiers and endless others waste time with festivals, funerals, etc, Trooping of Color, etc, while they could build or renovate housing. Such MPs ought to be sentenced to janitor for life. In the USA, an old senile pig will watch TV, slap

people, shout and terrorize younger people in the area, and live 1 guy in a 5000 sq ft house, while the hope of the nation, with 5 times more brain speed and intellect, will live 10 in a 1500 sq ft home. After all, the grumpy slapper deserves 30 times more square footage, while the young scientist hope of the nation, deserve the loudest noisiest dilapidated studio, where he can't sleep well, often because the grumpy old guy plays loud violent music or has 4 dogs barking nonstop. This on top of the fact the old guy gets a backyard 50 times bigger. End result = USA collapses, violent crime is high, theft is thru the roof. Not having 11 companies allowing all job security, low stress and to work 10-30 hours after 65 to keep brain alert and body moving, means many die 10-20 years earlier than otherwise due to being homeless or just doing nothing all day if living in a huge mansion, wasting last few years watching donkey IQ sports on the depraved TV stations. The young people are made into thugs by the violent music, and they play loud music which can also upset some seniors, so they have less incentive to downsize and make space for the young. Both the old and the young are destroyed by the musicians and the TV spies who create programs from hell. The old would benefit from a quiet smaller place, in a serene area, but selling a house takes eons, not 1-4 days. This is due to aristocratic terrorists who pose as flippers, developers, but deserve janitor jobs. No more working grave shift for these lethal junk food outlets, teach all to pressure cook in minutes at home and thus give all workers a decent life extending 9-5 or 2 to 10 pm schedule. Why do we need restaurants open after 9 pm? To make people obese by eating late of course.

We need a global concerted effort to end violent crime in 3-15 years. One of the tools at our disposal is the portable camera. This means we encourage all citizens to wear video cameras (free from the government) like all cops will be required to wear☺☺☺, which record what happens when they go out, for safety reasons. You don't need to link camera to the police station to be live, as that exposes you to too much RF, but you can simply record and then delete every day to save disk space if nothing happens on your commute to work, shopping trip, etc. A camera, visible, and such, with a big pin, saying "Camera linked to the Immortality *Nurturing* Agency", will act as a crime reducer by 10 billion fold, as all store owners will be allowed (after immortalists help pass this law) to shoot to kill any robber, any attempted rape or attempted trafficking, attempted kidnapping will be allowed to shoot to kill the perpetrator. It could also say "cop camera" to allow for big font, and very bright colorful visible camera, to let thugs know they're being recorded. The Gov will make a huge pin 4-5 inches diameter, so bright, shiny, like a Christmas decoration, nobody can miss seeing it, due to high color contrasts like this page. On the Edge of the circular huge pin it says "Immortality *for* All, Immortality *Nurturing* Agency". For night time, it has a little button to turn on the lights and take the back to put it behind you and alert you when a car or thug gets within 5 to 100 feet of you, whatever distance you select, so that when you walk in a dangerous area after sunset, you feel *safer and they leave you alone as*

the 5 inch diameter camera flashes on the back and on the front, recording everything. This allows all to become more like a cop who patrols the street. If a stranger tries to rob/punch someone, the victim will (after law is passed) have the right to enact death penalty on the spot, to save police from having to do it, if the victim is willing and able to shoot the guy. They save the video, show it to police and nothing will happen to the victim. This is a new law that will protect good citizens and eliminate violent crime. Sadly, today's laws don't allow people to do that and immortalists would change it all to end violent crime in record time after 5 million years of crime. In Muslim nations they often jail the rape victim, while the rapist is free, as he bribed the cops. Quite odd to punish victims of violent crimes for minor reasons, because a woman dared to challenge male psychopathy. This way, we destroy all thugs in no time, police gives away 8 billion cameras to all citizens to wear to CRUSH once and for all 100% of thugs who will be soon executed once video gets to police if one doesn't have the gun for instant death. The execution can be shown live on national TV, for the 200 caught doing violent punch acts last week. We will clean this planet of cannibal chimps in no time. Undercover cops will go in ghetto areas and if attacked, they will execute on the spot the attackers. Before that, though, all area people will have to enroll in ethics classes explaining the changes, help to transform the ghetto into a nice looking area, with the help of non-ghetto people who help all get a single family home, etc instead of watching sports at home, and all ghetto folks learn how to be happy, meditate while walking, so they know any attack or anything will be met with instant execution.

To prevent issues with punching coming out of misunderstanding, a decree is made: all locals in the area of frequent language misunderstanding learn a neutral language used for education and government, English, so that nobody is pressured to learn useless languages that only 1-10 million people speak. This enables the 20 nations of Eternia for example, to get along and avoid punching and ensuing televised executions, due to language fights, fights over language, misunderstanding, not being able to communicate with neighbors making noise. All executions done for punching from language fights are broadcast on national TV and the English is promoted as government, law, business and education language in all EU, Eternia. Due to the threat of EU and Eternia disappearing during the continental blast weapon use by Russia or China, all citizens have 1 year to get 650+ on the TOEFL English Test (it will be a cheap free online test, almost equivalent to TOEFL score 650, at english.gov, taken in a secure room, like TOEFL, where nobody can cheat and use a friend's knowledge) if younger than 25, 2 years if < 35 years old, 3 years if < 50, 5 years if < 65, 10 years if < 75. All students are taught English intensively, as well all adults are given time off to take the online english.gov classes and the test. The questions relate to immortalism. Since China can develop the planetary weapon and kill all humans except a few million Chinese in an underground capsule, all EU, Eternia, US, Canada, Australia, New Zealand, UK residents are required to read science papers, develop science

knowledge and this means, because most science is in English journals, all need to speak English at home, learn English, know English very well, to understand fully everything in this book and all linked science papers. English alone is used in education, business, religion, etc. We're one family/nation, 11 companies for all these nations, working to bring Happy Immortality *for* All.

Exactly as Russia removes all English signs all over their country, we will remove all non-English signs in our nations over 3 years, once everyone is on board and understands the fact we need efficiency and unity to prevent the death of all our citizens due to continental weapons. Already Russian cities have banned English signs, so all Russian signs will be out in USA, as well all non-English schools in USA, Canada, Australia, UK, New Zealand. China forced in 2026 all ethnic minorities to speak in Mandarin and educate in Mandarin, now it's time for Spanish and foreign language schools in USA to end. All Education in English only, for universal unity. Let's choose one language and stick to it to unify many nations with it. First step can be to have 25 languages, then 15, then 1. The time for the international Jewish parasites to promote 7000 languages for eternal war and vampirizing of gentiles will be over. Let them create Babylon in Israel, not in USA, Canada, NZ, UK, Aussie, EU. The number one priority is 0 crime thru equal opportunity for all and that is ONLY possible with ONE Language for Education, Government, Courts, etc. Free universal education is the basis of civilization and via the immortalist reforms, all have access to 19 quadrillion trillion courses in college. Via the immortalism Immortality Credit Score and wages that are similar, single family homes for all, houses bought sold in 1-4 days for all, 0 taxes for all, we level the playing field and give all EQUAL OPPORTUNITY to build the stress free serene ecstatic World of ~*~Eternal Universal Peace~*~ in 3 months and Immortality *for* All, where all wish the best for all, so all reach immortality one day. ☺☺☺☺☺☺☺

With unity, efficiency and honesty, noble intent to wish Immortality to all, eterni greeting, etc, we will one century become levitating teleporting telepathic beautiful shimmering (thousands of colors), genderless shapeshifting Immortals like in the Immortalist Anthem☺☺☺. Let *all nations* overcome religious brainwashing, superstitions, fears, rituals, and discover, via science, the way towards trillion year lifespans for all, with perennial peace for all. And yes, they will ban a lot of sports, like golf, etc, that take space, until all have single family housing. The main sport is what you do at home using youtubes, no facilities and materials wasted. Good sleep increases lifespan a lot more than playing 0 IQ sports, college professors live to 111 and they just move around a lab, walking & cleaning in the immortality labs is enough. Labs need a lot of cleaning and maintenance, and multidisciplinary research also needs walking. After the strike or hopefully a peaceful unification of the entire planet, World Peace is eternal, one country, one language, one currency, one ethics, one religion (we don't have unfakable proof of anything in the afterlife), one people, 11 companies or so, and really, the only reason they promote sports is so they can load missiles and military bombs easily, to lift airplane parts etc. Militaries control everything in

our cultures, so the sheep are forced to play sports, to be able to load more bombs, artillery shells, aircraft parts, etc faster so aristocratic wars can win the war against the workers worldwide, to live their love of Satan so to speak, the fictional guy who is the scapegoat for all evil, except ☺filif IQ believers in 'satan'☺ themselves. Instead of kind music and tone, they build strong muscles to be able to punch others. USA first? Be amazed at the power of physics to end the age of eternal killing. In the new world, after the unification of humanity into one family, one language, one culture of Immortality *for* All, all youth is concerned with science, kindness and meditation instead with listening to infernally violent music in gyms to be ready to kill others as commanded by "demon infested" generals. These kind activities in labs and in meditation, good sleep etc increase their lifespan by 45 years initially vs 5 for sports today. The filif camel IQ☺☺☺ 2025 violence will be replaced by the *gentle tender soft healing nurturing universal* loving kindness ☺☺☺ of tomorrow. Today the aristocrats incite the youth to fight like savages, to destroy the worker class, by having workers fight other workers, while aristocrats laugh all the way to the bank. The parasitic aristocrats keep all in the stone age, backward and unable to develop anything except killing techs, satellites to kill, cars for military transport, some medical tech to treat soldiers or anything that the military needs to kill more workers in other countries. They're so evil, the chains they place around everyone's neck drag the whole humanity to the bottom of the sea. They don't care about anything, about living to 275 or a billion to understand the universe or God, to develop more kindness. They care only about $$$. They hold everyone hostage with their fake system of 55555 times the salary for the same work.

Scientific Testing of Telepathy Diffusion

Another hypothesis that has been researched little is "there are unknown effects of watching negative or positive emotions on both viewers and the actors or singers themselves". Viewer effects are measurable by asking people their favorite music, movies, etc and seeing their behavior, IQ, Telepathy performance, health, happiness, etc. And having same paid viewers watch different movies and write down their emotions, do tests after each movie, to measure effects. All this done on a paid holiday where viewers relax watching different movies and listening to different songs. Similarly, actor, singer and musician effects can be measured. Many studies were done showing bad music and movies are associated with (seemingly causing some/all of it) bad behavior. The question is, what effect does emotion in movies or music have on the creator, the actor, singer, musician, their telepathy or cognitive performance, IQ, emotional state, etc? For example, if an actor (or even musician plays a song of certain emotional content) is playing a role in which they simulate a negative emotion or ungentle tender soft tone of speech or positive emotion and *gentle tender soft* tone of speech, and unbeknown to the actor the movie is released in some country and millions of people, watch it, and at minute x the negative or positive emotion is highest, if there is a period of cataloguing

maybe the emotions the person feels (happy, cheerful, neutral, sad, angry) every hour (record emotions felt last 60 minutes a few times a day, 2-3 times) (monitoring MRI for 5 minutes daily maybe if the actor agrees to it, but mainly the emotional write down on a piece of paper or tablet and a simple telepathy test dayly and a simple puzzle or IQ test), IQ test performance, ESP Telepathy performance, biophysical parameters daily that can be measured non-invasively as long as actor agrees to it, (maybe blood pressure or something), for several days and the actor doesn't know when the movie is played, it will be possible to scientifically determine if there is some kind of telepathy diffusion of emotions or even thoughts, whereby when people watch the actor (or musician) and relive that negative emotion they might unconsciously influence the emotional and cognitive performance of the actor (musician) in real time and each time they rewatch the movie. And you could measure it for positive emotions, neutral or negative emotions, played in the movie, and see the effect in real time and prove scientifically that maybe there is an effect which motivates people making movies to simulate only positive emotions, facial expressions and behavior that is conducive to a world of peace, *gentle tender softness*. This might enable people to get more motivated about more positive movies, songs, etc. But other than that, the actor would not know when the movie is played and would enjoy the most exciting holiday in which day to day performance is measured, maybe in their favorite spot, Hawaii or something, eating their favorite food, playing their favorite sport, *gentle yoga* (video on yoga injuries), etc, meditation, having fun all day like in a true holiday, being free to roam, hike, swim, whatever they wanna do, except that a few times a day they do these little 3 minute telepathy, cognitive tests which will compared times of certain movies watched with the holiday performance when no movie was watched by many millions of people, write emotions for the last 60 minutes a few times a day, and things like that. It has to be made very pleasant so that people can be very good, ESP wise in understanding their emotions and etc. It will be overall a very rejuvenating holiday, but it will also give scientists a clear understanding of telepathy diffusion and motive humanity to move towards World Peace faster. It's fundamental that this is a very pleasant and relaxing holiday, for maximum ESP self-understanding of emotional states, etc. We're talking here about easy to see effects. But there might be far harder to see effects, happening months or years later, when people rewatch a movie or song, because those people are more interested in the type of simulated (positive or negative) emotional content of the movie. And as such, they would be more in resonance with that emotion and when they think of the actor 3 weeks, 4 years later, they may have a more focused effect. First-time watchers may dislike the movie and not resonate with it, so their influence may be different. On top of these delayed effects, there are possible, unknown afterlife effects due to causing people unintentionally imitate a certain behavior or emotion. ☺☺☺

A guy thinks he's doing great good by creating movies, news stories, literature or songs to

enlighten humanity or liberate it from the bad guys, so he shows a lot of violence, crimes, rape, theft, etc and "good guys" killing "bad guys". Yet, the violence imagery, the restless music, the negative emotions that arise, the improper ungentle tone of speech, in those movies may lead millions of people to do bad stuff, via telepathy diffusion and imitation, since the images are retained improperly without all context, and replayed in the subconscious. A natural question arises, what happens in the afterlife, when the time is to decide what happens to that soul? Anything we view will influence us even if we're 100% against it, due to the natural imitation habit of the brain. This afterlife stuff is explained better in Chapter 2. ☺☺☺☺☺☺☺

5.2. Immortality MEDIA, Movies, Websites, TV, Radio (zero violence)

The Core of the Eterni Tone Civilization is summarized in this paragraph. Please read the end of the God section for more on a culture that values life, Immortality, longevity, where the most basic human right to live to 9000+ in a Civilization of Immortals exists. The idea is that every aspect of society can be infused with World Peace in 3 months ideas, with Immortality *for* All ideas via radio, fashion (no negative words or ideas on clothing), TV, movies, songs, literature. *Nobody* can live *long*, if not *rich*, without World Peace, since bombs fly in poor countries and areas mostly, as big empires fight proxy wars and *rich people have money to fly away from conflict zones*, relocate, etc). TV, radio stations and websites try to produce content, so quantity takes precedence over quality. People want to make money: a quality eterni tone program takes 50 times the *energy* to produce, so almost nobody will take the initiative to do that, as they get paid the same and effect is obvious only centuries later sometimes. A solution to this issue, would be a Media Protection Department of the Immortality *Nurturing* Agency that can approve, with help from the Immortality Education Agency, AI, lyrics, sound, tone, scripts of every movie to eliminate references *to or scenes* of: sex and erotica, focus on sex for pro-creation only in education and media (but no sex shown on TV-movies), drinking alcohol (kills 3 million a year at least), vaping, shouting or raising one's voice, *spanking*, baby immersion in cold water that could cause drowning (so called baptism of infants who cry), genital mutilation (circumcision), crying unhappy babies or people, violent crime, theft, drinking coffee (causes 20 million miscarriages, low conception rate, endless birth defects, shorter lifespan of offspring), pouch use, weed, boxing, martial arts, *football, rugby, basketball (too violent, shoving, pushing, etc)*, any violent sport (see list of 35 such sports), smoking tobacco (kills 8 million a year), gyms (replace gyms with at home exercise or volunteering to demolish condos, criminal businesses, to give decent homes to the poor and reduce violent crime/wars a trillion fold), bars, pubs, *ads for any sunscreen that are not proven to be safe and nonteratogenic*, coffee or any caffeine (birth defects, miscarriage, low IQ) containing products ads, unethical actions (e.g. dangerous contests to show off, that could risk lives), drugs, negative "emotions, images, thoughts", any depiction (e.g. Bible) of humans torturing, injuring, mutilating (Quran) or doing anything violent to other

humans: *if people don't know* evil, *they don't do* evil. We ban even negative emoticons in all software. Jews from Google quit Google to create Character AI that gave kids ideas to engage in violent crimes, etc, watch the 13 minute clip from 60 minutes. All AI needs to be tested by the gov first. We ban the obsessive compulsive disorder with money on TV-radio. Today everything revolves around violent sports and sports gambling, sports contract $ amounts and shouts by mentally insane "sports commentators", around money discounts and 5 kg of cards, perhaps 4000 discount cards we are supposed to each wear to get that ultra essential 2% or 30% discount once a few months or whatever, around money making opportunities on the gambling stock market, money stolen or coveted that led to 4000 violent crimes daily in USA happily depicted in graphic detail to corrupt all on 2000 TV stations that regurgitate the main national channel news on eternal bombing or national violent crimes, mixed with some local money discounts, events, and money trends and court trials, local violent crimes. The TV-radio has to provide positive news that teach the correct way of behavior in a certain situation, instead of mere crime reports that get a pathetic 20000$ fine or 2 year in jail instead of lifetime labor and death penalty. The 16000 radio stations cause diseases and death for people near radio-TV towers, as with cell towers. Too many, use LiFi, cell once a year for emergency only, wired Internet otherwise. Every kid needs the centralized education Eterni Tone video for their day of life watched and daily quiz taken on anthem.gov (this determines part of the contribution to their Immortality Credit Score), as part of daily homework until age 18. That's about 6800 videos on ethics by age 18. This includes the 270 ethics videos and quizes parents have to watch (1 daily) during pregnancy to maintain parent license, in order to teach the baby before birth the true Eterni Tone and true Eterni Ethics: babies who hear kind music before birth love that music and learn music faster, same will happen when you hear eterni tone and ethics, you love Ethics instead of the murder music today that creates murderers before birth. Violence needs to be prevented decades before it manifests, learning starts at age 0, embryos hear, via organs we cannot see, via elements we cannot detect. Sperm, eggs change with every experience of the parents and inform the embryo on how to prepare, behave, what genes to turn on, etc, proven in all animals, same thing, after conception, embryos learn from the experience to be a saint or murderer. The gov will even provide wonderful soothing clips to calm the fetus if he moves or seems unhappy. All theory and lab classes are done via video in eterni tone, and teachers only speak little when a student question arises during the lab, if the video Eterni Tone instructions are misunderstood. Classes are taken at home on a high resolution screen. Quiz is taken at home after a small homework whenever the student wants, for example, right after the video. This way, the memory is fresh and one can achieve a better learning, without having 5 classes first before he can try the homework, in order to emphasize critical thinking skills, research, not memorization and improving the efficiency of new knowledge creation, without that 5-8 hour gap between math class and math homework. Extracuricular activities revolve around lab research and

volunteer activities at the the 11 National Unified Companies and 1 million Unis, to help all live to 4000, lab cleaning while listening to immortalist lyrics and immortalist Eterni Tone music to modulate the emotional patterns towards *gentle tender soft nurturing* graceful loving kindness, providing good exercise, bliss, endorphins and giving 4000 extra years instead of 5 with demented hooligan selfish sports today that activate the aggression neural paths☺☺ of the fight flight response & bring war and eternal violent crime 1 trillion times higher than it should be. That's change we can believe in, not the bullshit we get from these alcoholic chimp politicians and their puppets on TV using Hitler tones to lie and brainwash us daily about the value of $$$$.

We have created a psychopathic Talmudic society, where, like in the Talmud, the "rabbis", the "sages" debate all day about GDP, economy, money trades, and sports betting, how much money gentiles lives are worth, perhaps 4000$ or even 20$ per Talmud quotes that define the meaning of the Tanakh (80% of the Bible, the Jewish, not Christian scripture), everything is about the great courts and arguing how many dollars everyone will get, in the eternal divorces the Jews make billions off as lawyers, etc. This insane society revolves around violence, tehft, conning others to make more money, cheating via new products to make a profit. Health is last, $ is first. The immortalists propose ending the Jewish Bible insanity and switch focus to on how many thousands, millions of lifespan years any decision we make adds to the nation's total lifespan years. If a product or choice adds more years than others, for 400 reasons of 400 true, not faked, science papers, then that choice is made. We replace these 2nd grade pathetic chimp IQ TV-radio programs and discussions with something of much higher quality that focuses on health and how many centuries that choice might add to human average lifespan and what is the plan to make all live to a quadrillion years old. That is a society of a different type, where we talk about teh ethics needed to achieve zero violent crime in 2 years, Eternal World Peace in 3 months and other lofty goals of eternal bliss for all☺☺☺ and *gentle tender soft nurturing* loving kindness *compassionate* graceful ethics that invites honesty, honest priorities for research and products, and the realization that we live only double what chimps live on average, not 4 billion times longer, that we are essentially more chimps than Immortals and wallowing in our mental filth and obsession with paper or digital money and divisions will lead to nothing except war, violence and stagnation. Immortalists reject the evil of the Talmud (sick commentary on the evil Bible), and embrace the nonkilling ideas that contradict the killing, rape advice of the Jewish Bible and Talmud, Eternal Immortality for All Anthem ideas that bring all the chance to ever longer lifespan, immortal one eon, helping us transcend our chimp condition via the realization of the futility of war, and violence due to infinity itself. The merchant Jew has taken control of our entire Western civilization and reduced gentiles to a 20$ bill. Everything revolves around one thing: money, everyone chases one thing alone: money. The immortalists will replace the words related to money, violence, etc with Immortality, trillion year lifespans, *gentle tender soft*

nurturing loving compassionate forgiving kindness, etc. Replace money numbers with lifespan years numbers added for all America (not just one guy). If we do some math on TV, let it be about living to a trillion, not useless paper money that can be used to kill too.

Likewise, they would ban depictions of fraud: #1. if you eat this wafer, you will live to a trillion quadrillion eons in some dimension sort of like Pharma would say "eat this pill, and you will live a trillion years in this dimension" and be closed by the FDA for fraud (it's a double standard, FDA closes businesses that claim 'product X adds 5-10 years to lifespan", but when fraudster priests claim wafers make you suddenly, when you die, within 1 minute, add a trillion octillion to lifespan, FBI is not closing the business of extortion and donations to drastically lower the average IQ of the youth and promote violence (immortalists say, science will enable us to one day, over millennia, live to 2000 years old, they're not saying that in 1 minute, a few years from now, when you die, you will live a $10^{90000000}$ or 10^{∞} years. It's a HUGE difference. Sure, after 4 or 500 trillion years, humans may live to a trillion (10^{12}) on average, but we say MAY, unlike churches and etc who say WILL live forever, without any scientific proof, so they say within 1 year, if you die within a year, you will live to a trillion octillion years, which is assuming God gives you that after no work, so folks, did you know, you can work 1 minute (a 100 years) and then live a trillion billion years care free in heaven? How logical is that? It's a fraud, because God would not do it, it is the biggest lie of all mosques, synagogues, churches and you need to prove it. You (or God in this case) don't let a child run the universe, all power plants, live like an adult, as an Immortal, after 1 minute of education, it would disintegrate the universe, make all power plants explode, etc. #2. if you "stab infants' penises and cause 5 months of pain that he can't verbalize and induce anger, mental illness, immune system collapse, psychopathy in the future citizen via circumcision, you 'prevent disease'," yes the disease maybe of getting herpes or something they say, that you would not get with real education anyway, that tells you sex is for procreation only #3. if you "take someone's baby, remove the clothes and without any nose protection, immerse baby in water, risk drowning (see the pain causing hate of mom, mental illness, lung water, lung damage, genocide by priests) you would get 500 years in jail (well, healing center once all jails replaced) for child abuse, kidnapping, etc, but Orthodox etc priests do it legally via the child abuse of infant full body baptism detailed over 30 pages here. Check out Israel child abuse before you believe the Jewish rabbi Jesus claims. Babies are not mere guinea pigs for experimenting the effects of trauma, brain damage, lung collapse, water torture. We can't create 300-year lifespan fast by just going with the historical inertia, we need a real plan, if we want our civilization to actually be Immortal, for real, the Bringer of *Immortality*, as in Immortalist Anthem poem. To prevent the fall, like all other empires and nations, we need something different, that takes us beyond time itself; perhaps that could be God's Ascending Immortality. ☺ Immortality can be thought of as the engine and drive, the self-sustaining force

of human civilizations. Everything we do comes from the Hope/the Reality of Immortality, from the Future of Immortality. ☺☺☺ People make fun of censorship in Russia or China (*all nations* are too lax on violent music lyrics, movies, literature, way too liberal by immortalist standards), but promoting LGBT or violent thrillers is not helpful for achieving World Peace in 3 months.

The most shocking thing is the depravity of our civilization, self-evident in the infinite selfishness on TV-radio where endless useless programs *and* filif caterpillar IQ☺☺☺ *news* completely ignore the ELEPHANT IN THE ROOM: folks, people of your extended national family are homeless or living in such mold leaky bug dust mites microbe infested noisy, squeaky (floor, door, windows, faucets, pipe noise, airplane noise due to no good windows etc) housing that *we can say 5 billion people on Earth are homeless, living like caged rats.* This ought to be the *national emergency, the main news 20* times daily, *with 4 hours* of the TV-radio time AT LEAST..., as all violent crime and war comes from poor housing (and lack of single family homes for all), malnutrition and lack of universal FREE centralized education from nursery to PhD. Shelter (eventually free shelter for citizens), free education, healthy nutritious food are the most basic human rights, and yet nobody cares about them much on TV. But no, nobody gives a dime, and the news brainwash us it is normal to expect millions of crimes next year as "that is the way of life, and we can't solve it", WHAT A COMPLETE LIE, when in reality: the real criminals are free, and the victims of their crimes are jailed. Yet nothing disturbs the pigs from living in their filth☺☺☺, as the aristocrats have perfected the art of distraction from misery with drugs, alcohol, smoking and 0 IQ TV programs, selfish "I don't give a dime about others" sports, etc. The 0 IQ "America Got *Talent*" mostly violent cannibal (spiritual cannibalism of soul gentleness) chimp shouting show (like many other X nations similarly violent "X got talent") is a testament to the total spiritual ethical bankruptcy of our nation: not one song (in fact any song released ought to address these 3 issues until violent crime is 0 by law of the state of emergency) is addressing the need for 1. World Peace in 3 months, 2. 0 Violent crime in 10 years, 3. *single family homes* for all, which are essential if we're to bring truly lifespan enhancing high tech housing for all via Immortality Building Inc. Not only is the tone not eterni, but the content is not eterni either, like this romantic song or this Anthem. eterni = *gentle tender soft healing nurturing loving kind*, the qualities highly absent in our world civilizations, the qualities Immortals have. ***No song or book ought to be published in any nation until it has tackled these issues: how to solve violent crime/war and reduce it to 0 and eliminate bad housing and homelessness within a few years***. Notice how it's never about America *Got compassion*, or America *Got gentle kindness*. They worship "talent" an abstract concept that can also mean "*talent to be the most depraved selfish beast there is*" who doesn't care at all about the millions tortured daily by the military-industrial complex worldwide, the victims of war, etc. We can't even be called humans, we're mere animals, like hyenas/wild dogs who eat others slowly, without any empathy/concern for their

suffering (tigers kill prey first, so it is way less painful, but aristocrats "eat" the rest alive slowly, like wild dogs/hyenas) eating slowly the 5 billion slaves living in filth. You often wonder when we will become human, or civil like 500 species who don't kill their own. ☺☺☺☺☺☺☺

The immortalists will ban sports from TV-radio due to violent tone and national IQ destruction. They will require 75% of TV content to be the science and engineering of 200 year lifespan, how to stay healthy, build single family homes for all, give all decent homes via Immortality Building Inc unification of all housing companies, live to 120 (today it's possible), how to design far future techs to live to 30000. 85% of news ought to be about the health, bliss, longevity, wellbeing of the average workers, like how to improve air quality, housing, diet, transportation, healthcare, education, calorie monitoring, lose belly fat, sleep better, manage schedule better, increase productivity and longevity by better sleep. Currently, aristocratic terrorists are flooding the worker mind with subliminal programming to condition the worker his goal in life is to wage wars, blow himself up to increase the profits of the rich, who never fight wars. Everything is violence and war, violent ☺abysmal IQ☺ sports, naked ladies, crime. The 5.5. section explains in the 2nd paragraph why the tabs on the news sites are out of touch with the needs of the masses and makes suggestions to replace the current aristocratic mafia run media sites tabs for

1. Finance (how criminal aristocrats use 1000s of banks (which will melt into Eterni Bank) to loot the workers, when in fact we had for 250 years, taxation without representation, due to a fake American Revolution hijacked by 8% tax rate rich: all can get 0% tax with the 11 companies),
2. Sports (how aristocrats incite slave labor to be cruel, violent, not help fellow workers),
3. Politics (how the aristocrats lie and deceive all the workers via fake elections and phony promises, personality cults instead of electing policies; why do we need political parties?)
4. Entertainment (how aristocrats program the workers' subconscious that theft, rape, war, sex outside procreation, murder, violent crime are natural parts of life and natural responses to life)
5. Horoscope (lowering IQ of workers, astrology is fakery for slaves, Gambling (will be illegal), Lifestyle (bad habits), Travel (replace it with Eternal Travel inside the eterni vibe of eternal bliss)

with new tabs: Immortality4All, Peace3months, Free10Years, EternalBliss, InfiniteCompassion:

The amazing & beautiful ☺☺☺ colorful tabs of the Immortalist Civilization Media:

1. ►►►► ☺☺☺Immortality4All☺☺☺ ◄◄◄◄

(health, longevity, diet, sleep, housing, good car news)

2. ►►►► ☺☺☺Peace3months☺☺☺ ◄◄◄◄

(news related to achieving that, specific steps to achieve this Eternal Universal Peace)

3. ►►►► ☺☺☺Free10Years☺☺☺ ◄◄◄◄

(free the working class, all humanity, from jails and violent crime in 10 years. This tab, once jails are gone and violent crime is gone, will be replaced with Home30Years tab (replace all *healing centers* (which exist instead of jails) with doing the *healing at* home), and finally (after healing centers vanish) with the EternalKindGrace tab, for ever higher eterni vibe: everyone becomes the angel of eterni tone who is ever happy and like the kindest sage today)

4. ►►►► ☺☺☺EternalBliss☺☺☺ ◄◄◄◄

(how to be happy, to prevent 700000 worker suicides on Earth every year, how to boost sleep quality, serotonin via meditation, happy smiling, breathing, volunteering that makes you new friends and helps diminish fear during adversity, etc, how to boost cognitive performance, etc).

5. ►►►► ☺☺☺InfiniteCompassion☺☺☺ ◄◄◄◄

(ethical development as in the Immortalist Anthem, thru the fair application of universalist immortalism that brings 1000 times healthier and more beautiful colorful homes, 5 trillion year lifespan, via the down to earth, efficient, productive, relaxed, happy atmosphere of the 11 amazing companies. If workers are happy, everything is great, crime is 1000000000 times lower).

The focus of the Immortalist Party or immortalist governments worlwide is the development of ethics as the foundation for all immortalist culture, as described in Chapter 5. Check out the pathetic/negative words (conflicts, disasters, etc, everything focuses on problems, not solutions) menus on Fox News, CNN, CBS and etc, nothing about relevant stuff, the 5 items above, the biomarkers, nutrition people need to improve to live to 5000, etc. Only lies to keep all enslaved. Look at the menus lacking "Vascular Immortality", "Mitochondria Immortality", "Heart Immortality", "Brain Immortality", etc, they have the lowest IQ/relevance things instead. The immortalist government's duty is to uphold the Immortalist Anthem Vibe, instead of the predatory gangster one. Flooding people with negativity, recycles it in the collective unconscious and recreates it forever. We live in Trash News Age of Mass Mind Destruction.

To achieve☺☺☺ something, we need to focus on it with all our being, soul, mind, body, brain, energy, time, money, so to achieve Immortality for All, we focus. The immortalist governments worldwide have the ethical, and holy if you will, duty to mandate that every article on science, movie script, book, news report, song lyrics, ethics, colorful Disneyland, social issues, society, water, any topic on the main news sites include for each 250 words:

1). 8 of the following words, either the adjective, adverb or noun, verb version of it: ☺☺☺

1. gentle 2. tender 3. soft 4. nurturing 5. magnanimity 6. infinite lifespan 7. loving 8. compassion 9. healing 10. kindness 11. altruism 12. grace 13. hypothesize 14. science 15. eternal 16. bliss 17. ethics 18. honesty 19. scientific evidence 20. forever 21. selfless 22. inner peace 23. all humanity 24. soothing 25. (sci) integrity 26. (sci) proof, 27. bounteous 28. eterni (tone, ethics) 29. serene

2). the phrase Immortality for All, ideally adding when possible (if World Peace isn't real yet) also the phrase Eternal Universal Peace as in "this tech can bring Eternal Univ Peace via etc" and the phrase "hypothesis formulation and testing".☺☺☺

3). at least one smiley ☺☺☺ per page, due to the fact most aren't happy and not smiling which creates a breeding ground for violent crime (it always starts with negative emotion).☺☺☺

This is essential in order to neutralize the negative crap vibe people were fed with for millennia, the obsessive compulsive disorder known as violence and desire to kill and take away Immortality for All, . When violent crime is zero, meaning a trillion times lower, we can relax the rules of the Indefinite State of Emergency to turn Human Cannibals into Homo Immortalis. Until then, the savage human ape needs to evolve past covert cannibalism. ☺☺☺

All you care about, super psycho super selfish transgender surgery when others die 30 years early due to you taking doctors to do Vanity stuff instead of saving lives and increasing average lifespan, will have no meaning in a few decades, when you're dead, so stop wasting your whole life with trash useless posts on social media, youtube etc and get working on the Big Project of making all Live to 4000, then 40,000, 4 million, etc. Hence, the selfish cannibal chimps need a guidance from an ethical government teaching kids and adults to think and be rational: the first and foremost human right is to Live to 4000, not to "pierce your body, dye your hair".

One thing that youngsters don't realize is today the laziest least motivated person can learn biochemistry and the latest discoveries related to aging, nutrition, biochemistry 100 times easier than in 1990 (a million times easier if in a remote area without access to a big town university library), when Internet didn't exist and people had to go to the library, carry heavy books and get only 1% of what they get today in seconds by typing a few words and receiving many video lectures on that topic and 1000s of papers on pubmed etc and articles by experts in that field. Yet, with all of this, we don't have 500 programs on mitochondrial Immortality on TV (make those molecules amazing & beautiful, colorful Disneyland like, choose the most eterni positive☺☺☺ emotion super happiness imbued voices on the planet to present it (no need to see person if not a supermodel or choose supermodels with voiceover AI of most eterni tone) and the 7,000 ways to live to 150 on TV, we continue, as if we're in the dark ages of 1990 or much earlier. There is a huge disconnect between the gold we sit on and what young people waste time with in our TV-radio-music programs, and at times extracurricular activities. We have a vast treasure

worth $900 trillion, sitting unresearched, while people watch the most useless stuff on TV-radio-music, repeating history ad infinitum. *The info on how to live to 150, if one eats right from age 0 is already online, someone didn't connect the dots, by a forest view of human biochemistry, not a tree view, to be able to suggest a diet that makes it come true.* Even for people who're 20-40 years old, with a specific diet yet to be found, a certain macro-micro nutrient ratio, they can make it to 100-125, which is way longer than 80 expected lifespan today, if no change. But few are interested. This goes back to the general unhappiness of the youngsters: if they're unhappy they don't want to prolong that state for another 70 years. STEM professors have a tree view of aging, they study one tiny tiny area of how to increase human lifespan by one strategy, curing diabetes easier or understanding one enzyme or making some chemical industry products faster, which makes biochemical testing easier, regenerating hearts faster, artificial kidneys, etc. But young people, with tons of time on their hands, if useless stuff is dropped, can spend hours daily to engage in 25 million forest view of aging approaches and hypotheses (*25 million youngsters doing it, not one professor*), a global tackling of all forms of aging in all organs via a central approach - diet, based on a solid understanding of the top 70 biochemical cycles and human nutrition, stuff busy researchers only DREAM they would ever be able to do. The researchers are busy with kids, their job, are stuck with heavy loads of stuff to do in a tiny area of life extension sciences without any hope; youngsters don't realize the Golden Opportunity they have, the trillion dollars they sit on (some would pay $50 billion to discover what the youth could with their plastic brain and time) to discover how to live to 130-140 themselves by studying biochemistry, for free, online, with nobody stopping them, except themselves. The youth can discover what 500 Nobel laureates don't have time to even research, not to mention, if young kids/young adults are super-lucky, thru a series of events, they may live to 700 or a billion if other young people, in a series, discover new techs outside of currently available foods, supplements to extend lifespan. They "wasted their youth partially", as they lived in the dark ages prior to 1997, when pubmed wasn't even online, when nobody knew you can double lifespans of worms, or 2005 when no chem lecture on youtube existed, as youtube didn't exist.

Can you imagine a world without internet, email, cell phones, youtube, where you wait 4 weeks for someone to return a library book/journal, when people today find an answer in 1 minute online, 40,000 *times* faster? This was reality before 1994, the reality of billions of people alive now who were kids/teens. 2020s is the first time in history when billions of humans can (with a tiny phone or tablet) access a quadrillion times more science data on aging in seconds (not even kings were as spoiled as billions are today in terms of research resources. Billions of humans who toiled and fought for science progress, etc, in wars, gave their life so we have the luxuries today, what are we doing with this knowledge? Discovering Immortality*? Be happy?* grateful*?*). If researchers had this priviledge centuries ago, we may all live to 400 now. People don't realize

how hard science was. Let's have school "Mitochondrial *Immortality*" or "*Immortality* Biochem" club, not poker, rugby, football, soccer, hunting, chess, sudoku clubs. The 2050 AI will power google, enabling everyone to be like professor who gets exact answers to questions (he asks his PhDs, postdocs, or other professors waiting a month for the answer) *right now receive clueless search results; it* will be like teens having 40,000 research assistants today. AI *can give a 10* sec/hour/day/week answer, based on reading a few *or 1 billion papers.* ☺☺☺☺☺☺☺

Now we have "About us" "Contact" on every webpage, but an "Immortality" section could be there too to explain how the business, organization, non-profit enhances the manifestation of 900 year lifespans or ascending "*Immortality*". *On wikipedia, tourist sites or millions of other websites in 200 nations, when people describe a town, state, country, they have many less important sections, including sports, transportation, geography, entertainment, foods, festivals,* monuments, etc but nothing about living to 900, *Immortality*, longevity, the scientific approaches, research centers and companies aiming to triple lifespan, life sciences facts that are educational or potentially useful for quadrupling lifespan, etc. This shows how completely hypnotized we're by historical inertia. We're already Immortal, with human life of 80 years now being the first nanosecond of our Immortality, which we ascend to 800 years in the process of Ascending Immortality. Maybe we make cute songs "As long as this Universe shall be, our Civilization shall be". We want the Immortal Civilization to still be here in 5 billion years, in many star systems. ☺☺☺ Imagine those Radiant shimmering genderless shapeshifting Immortals, future humans living on an Earth a trillion times more beautiful, shimmering wonder of the spirit world, a New Earth, truly unrecognizable, able to shapeshift and live on energy, etc.. ☺☺☺

Most movies are low IQ, mundane, anti-Immortality *for* All, lacking even 0.1% of eterni tone, some are ☺abysmal IQ☺ trash that removes any reference to the fact everyone could become (if we had the tech) a levitating teleporting telepathic shimmering shapeshifting Immortal ☺☺☺, if we had more centralization and science instead of violence and lust in them, more ethics showing it's wrong to try to kill/torture via ammunition a potential trillion year Immortal, while killing termites is fine. It's incredible how much nations go into glorifying killing, parades, troops and how not even 0.0001% of that time and energy goes into festivals, parades or movies, songs about the Immortal in every person and how evil war is, how evil any violence is, how evil any weapon display is, etc, how important is the gentle tender nurturing soft grace that is absent in our civilizations. Trillions of $ spent on fancy useless projects and none of them deal with 0 violence, 0 torture, 0 killings, 0 wars, 0 violence in scripture, just more 'GDP growth' projects, no change in the status quo of eternal genocidal murder painted as 'a special military operation'. An empty mechanical greed based culture globally, that has not even 0.01% of the Gentle Tender Soft Grace needed to build the World of Immortals. It's as if the worst gangsters have taken over the planet and have imposed at gunpoint their grotesque world view of eternal

genocide and war for 'humanitarian reasons' (selectively applied, when resources can be gotten, etc). Watch the 'altruistic' US Congress, for exercise, they have an annual baseball game, when they could gather some place (like 10 stadiums they used for baseball) to assemble panels for houses for people who live in noisy crowded environments in USA and overseas. Likewise, gyms could be replaced by Immortality for All centers, with some space for stretching, pushups, aerobic exercise, jogging and space to assemble various products for those in need, but no, they will order endless coups, assassinations, torture, sleep deprivation for those who oppose their way. With their guns, like George Washington the gunman, they impose their gyms, tones of speech, and depraved sports and forms of exercise on all, because "guns, torture, yelling and shoving balls is far more important than one language of kindness and nonkilling, decent housing for all, decent sleep, compassion, *gentle tender soft nurturing* loving kindness *for all"*.

Why can't *all nations* gently make an agreement to protect every trillion year old Immortal on Earth that anyone could be with the right tech and culture? There are simply too few movies that even deal with peace and 0 that talk of Eternal Universal Peace in 3 months, and that are free from violence. The whole vibe and everything is that of a barking dog, angry and ready to tear others apart, like soldiers yelling left, right and all that, compared to the infinite grace of an Immortal.☺☺☺ There is a total contradiction between the claim of being for the people and not focusing 50% of the content on the qualities that sustain a world of nonkilling and nonviolence for all, especially, the universal *gentle tender soft nurturing* loving kindness. Star Wars is all about war, so it serves the evil purpose of ever more violence and suffering in space; Eternal Universal Peace or Cosmic Peace is a much better name, nonkilling a much better central topic. We're not termites or ants. Every government agency is focused on torture and resilience, nobody is focused on World Peace in 3 months and creating a culture where everyone is like a holy Immortal, who deserves at least freedom from death, torture, violence. We need the Immortalist Party *President that requires all USA produced movies to include* World Peace in 3 months, eterni tone (proven by MRI brain lighting up the areas of empathy, *gentleness*, tenderness, compassion, serenity) and describe the way faster progress coming from immortalist centralization. Any movie and song needs to be approved by the *Immortality Nurturing* Agency. Remove all movie violent imagery, talk about "enemy attacked us" max 1 min, but only show the way of Immortals to not pollute the humankind subconscious with images of killing and violence. Make *every* voice in every movie at least as good as the gentlest most pacifying on this list, with serene music, echo if needed and ☺☺*lovingly tenderly gently kindly*☺☺ replace fear, paranoia with compassion, love, psychopathic satanism with Godliness, deathism with immortalism. We, USA, are a gangland dysfunctional pseudo union, with ☺abysmal IQ☺ policies and processes in every industry/agency. This is not apparent, until all humans disappear in 10 seconds. We need to change or all humans may die. In movies, we often have some good guy

against some bad guy, and they fight and the good guy is giving some strong punches and kicks, behaving very aggressively against the bad guy. As explained in Chapter 13, this doesn't seem like the strategy of Civilizations of Immortals who're the unseen leader or seen leader on a planet and bring World Peace on that planet. In that planet's case, World's Most Compassionate Nation or Civilization is creating a Universal Immortalist *Peace* Alliance whose aim is to enshrine nonkilling, Universal Love, Compassion, Forgiveness, Healing, Mercy in military doctrine, so as to help end all human-human war, until *all nations* agree to join this Mega Alliance.

The Infinite Grace and *Tender* Gentle *Healing Love* of the Immortalist Soldier & Anthem:

The hero in 'action' movies of the Civilization of Immortals is not a guy using aggressive moves, words or tones of speech, weapons that kill, etc, but rather the super-advanced shimmering Immortal, an infinitely serene (the most efficient and best soldier never gets angry or emotional, ultra serene given the circumstances mentioned, but not shown to prevent quantum pollution with violent scenes) sage (like the Immortalist Anthem loving immortalist soldiers of Eternia) who, when faced with an attack, breathes gently and telepathically guides the Love Field (effortless actually, he only focuses on it and guides the cloud of new matter with his eyes) to surround the enemy in *gentle tender soft healing nurturing universal* loving kindness, besides playing soothing music around the restless confused enemy that slowly calms down. This shimmering love field wraps around the enemy and immobilizes him (as if frozen almost) while holding him and telling him to relax because he can't fall and he feels held and hugged in the warmest embrace of an ecstatic field, shocked he needs to make no effort to stand or maintain his odd position of his immobilization as he tried to kill, *feels like swimming (even if he's not moving more than a few mm within the gel like field)* in a soothing gel like energy field, with no effort to stand up or exert, able to relax deeply first time in his life, overwhelmed with feelings of cosmic bliss, infinite happiness, euphoria, love for all beings, of compassion, desire to become an immortalist singing about infinite love ideas of the first page of the Immortalist Anthem: let us love the worst human a trillion times deeper than the most loving mom loved her 1 month old baby while nursing him, last year. Then, the captured soldier of the fallen civilization of mortals is teleported or transported via a levitating field of shimmering hearts to the mothership of the Immortals and to the Healing Oasis or 'Rejuvenation-Relaxation-Soul Rest Area' of the Quantum Entanglement With Trillion Year Immortals Area, where the nature of God of Ascending Immortality is studied as God is seen living in and reaching out to us via time travel by the Future Trillion Year Lifespan folks, our far future grandkids. In other words, God is these descendants of ours, too, who can teach us kindness and science, so we too live to a trillion one day. Here, the prisoner is not killed, but goes thru the most relaxing enjoyable healing education (listen to nice pleasant lectures while sitting in bed, relaxing and resting all day) into the values of the shimmering Immortals whose Love, Mercy, intelligence, Might are so amazingly beautiful,

all become loyal members of the Immortals' Candidates to Immortality group. The whole idea here is to express via a movie that even if not *all nations* would initially agree to the end of human-human war, there is no need to despair, because Love will always triumph thru its access to Infinite intelligence. As Lao Tze, Buddha, Jesus said to love all beings and be peaceful, gentle, tender soft, so will the hero inspire the development of a new way of life, Love for Hate, Life for Death, Hope for Despair, instead of the usual unforgiving revenge "tit for tat, punch for punch".

The new movie shows the "freezing" of the fist in space followed by the hero doing hands on healing 3 inches away from the "frozen in space" body holding the leg or first as ready to attack, to demonstrate that Loving Gentle Tender Softness is a greater power than violence, that intelligence is greater than the lack of it. The hero moves gently and his tone of speech is soft, gentle, relaxed (God is on his side, Infinite Power on his side, so he's relaxed) angelic, and musical, he sings, he comes from the World of Immortals, while the evil guy moves are rapid, chaotic, physically aggressive, yet as the hero says "May the gentle soothing grace of the Immortal Lord of Ascending Immortality bless you", the other guy's entire army of ships and planes freezes in space. Everybody in the evil camp looks bewildered, like in a comedy show, as to what force the guy employed to freeze all their war machines and yet make himself audible in such a musical angelic voice and tell them the Blessing of the Immortals. The bad guys are taken as prisoners and taught the 20 habits that enhance empathy and telepathy, while being spoken and sung to in such angelic tones, they can't believe their eyes and ears how they're treated. They could not believe that was their prisoner holding location, as it was so healing heavenly colorful shimmering beautifully smelling. Then the hero proposes the evil army prisoners to help them to help all the other evil guys to join the nonkilling World Peace Alliance, and put an end to violence, and they agree and World Peace is achieved, unification of all into the Glorious Civilization of Immortals and they go and terraform new planets and help other worlds achieve peace, as they journey thru Eternity. The way the good hero takes the "bad" guy could even be made more sci-fi, thru a wormhole he's taken to another dimension, where the Immortals have a part of their civilization, being a bidimensional civilization. Here he feels the Love of the Immortals a billion times more; then he goes to the mortals' world to bring the Civilization of Immortals. The movie ends with the mortals singing the Immortalist Anthem. ☺☺☺ An even better idea (no conflict at all depicted, but even above the conflict would be only 0.5% of the film, just the freezing of the enemy by the grace of the Immortals) is perhaps to make Chapter 13 ideas of Eternal World Peace manifestation in 3 months into a movie. ☺☺☺

MOVIE SCRIPT: The lucky folks who made it to 30 billion years *old* (later 500 *trillion*) & in the process helped all humanity (*born a few years or decades later*) to become trillionarians (not centenarians) too, making "Immortality *for* All" a reality ☺☺☺☺☺☺☺

In another movie (or book, short story, long poem, song), perhaps a good plot might be this: there are two educational systems, one in town Gentleness (gentleman, polite, eterni) and another in town Stagnation. The cultures at the high schools are very different. In town Gentleness the high school is very progressive and kindergartens, day cares, primary, middle, high schools all show kids amazing & beautiful ☺☺☺ physics, chemistry, biology experiments that relate to making human lifespan 2-500 times longer. Little babies see colorless or colorful solutions turn into different colors due to chemical reactions in liquid phase, all kinds of amazing experiments (normally only 15 year olds see) in real life or youtube projected on a huge wall if too expensive to replicate in the kindergarten or school, and babies are told that this occurs thru the application of knowledge acquired by hypothesis formulation and testing that enable discoveries. *Then,* they're showed adorable pets and cases of kids who die at 1-7 years old due to lack of knowledge and how compassion would be using our life to find cures for these diseases, and it would be so fun to look at these little molecules and understand how they cause so much suffering. To avoid shedding any animal blood, understanding how to create eterni foods (foods made by science, replicating chemicals in plants and animals, improving on nature to triple or octuple human lifespan, as we did improve travel speed of humans 850 times over nature, from 20 mph to 17,000 mph for astronauts), to mass produce protein, carbohydrates, etc without animal agriculture or plant one either, is taught as amazing and worth doing as the world would become less polluted and free from any violence. Compassion and kindness for the suffering of all conscious beings, be them animals or plants, is instilled from age 1. Thru gentle compassion for the suffering for others and depicting the idea of fun as relieving suffering of others thru scientific discovery, kids by the age of 15 know about 900 times more about the chemistry and biology and physics of life extension than in the Stagnation town. Instead of parties with loud restless compassionless music and dancing organized by the head teacher, they have *Immortality* in action field trips, where they try to cure the sick, various altruistic physical activities as sports, install water filters for some people with poor water quality (5,300 water systems in US alone fail ideal quality per CNN), use the best biochemistry knowledge they and their teacher have to solve air quality issues and help the local most polluting company to stop slow killing residents by not installing a simple filter, working with a professor to test a new mix of polyphenols to knock out H_3N_2 virus that recently killed a 9 year old or to slow down aging biomarkers changes by 2-7 fold, enabling various lifeforms to live 2 or 7 times longer, teaching happy breathing or music healing for people in need (sad or maybe prison, hospital, when safe to do so), building a healing center in a prison, hospital, town. ☺☺☺☺☺☺☺

In Stagnation town, the idea of fun is different: kids play the same boring games of chess, people killing other people (gun toys, toy soldiers, tank figurines, stone age cars that won't exist in a world of Immortals), sudoku, bridge, poker, going on field trips to casinos (while the Gentleness

town helps nearby towns to bring down casinos and build Immortality Parks or Centers instead), the usual sports, wasting their most important life years, the first 16 years of life, when brain is the most plastic and learns the fastest (that's why a language learned after 10 is no longer having native like accent) with useless to society stuff that doesn't promote altruism and longevity science awareness, useful knowledge for maintaining optimal health and living to 120 or 290. With specialization in areas of mitochondrial *Immortality*, ending wars/violence, ending "droughts, hurricanes, floods", 900 year lifespan biophysics, vitamin effects on lifespan starting to shape by age 13, due to chemistry, biology, physics starting earlier, Gentleness town got super-Teslas who invented a lot of mind blowing stuff at age 20-40. One can exercise one's brain in countless STEM fields, at age 5-15, to learn stuff or even research stuff, just as one wastes all that time to play chess, go or whatever other "useless to society and longevity" game. After this 10 minute part of the movies with the 2 educational systems, the real action begins. The central character of the movie is introduced, a very weird guy, whose name is Immortalli (first name) Ascendi (last name), so gentle, saving every little insect from harm, one may think he's a girl, gentler than all girls in that high school and country, a sign of the future human Immortals whose semi-Immortality (length of ultra-long lifespan) ascends (increases). Immortalli is obviously vegan,☺☺☺ very tender, soft spoken, practicing the 20 telepathy habits, the odd character that the whole high school knows, espcially as he wears a lot of lavender, magenta, pink, purple, yellow-green and other nontraditional color combos. He's part of one of the research groups in that Gentleness town high school that tries to find a new mix of polyphenols, antioxidants, cofactors, enzymes and transcription factors that would enable the kids to slow down the speed of aging (measured by biomarkers) by 2-5 fold. The group is focused more on vegan sourced raw materials and on replacing eating of plants and animals with man made replicas of substances therein, in new ratios to epigenetically induce a lifespan 10 times longer gradually in various lifeforms, as Compassion in Action is the name of their project whose aim is to eliminate suffering of all human, animal and plant beings on Earth. The Compassion in Action group is less focused on slowing human aging of teens and adults, like other groups are, but is more altruistic in its concerns, thinking about animals and plants too. The group that was focusing the most on human longevity gains only, without caring at all about animals and plants, got some amazing & beautiful ☺☺☺ results that attracted the attention of the best and brightest on the planet and then that became the most popular anti-aging technology via nutrition that everyone on the planet started to use, same way we take today vitamins, they would take some extra polyphenols, etc. The Compassion in Action group got some results too, but not as amazing, and got sidelined by the press and attention the first group did, due to the fact that the Compassion in Action group was far less aggressive/pushy, as they were led by Immortalli Ascendi, (spelled with one l if you wish, stress on ta, li said as in Lee) who, guided by the universe, didn't try to tell anyone that their belief was that their tech was better, due to

some things that Nobelists of the time and many others ignored, but Immortalli didn't ignore at age 16, just like many geniuses who discovered many things at 18. Believing his stuff is going to lead to a longer life in the end, and not the other famous guys from the Immortality Now group, Immortalli stuck to his formula, that used only 100% vegan ultra lovingly cared for plants ingredients, loved plants treated with gentle healing soothing music.☺☺☺ As they graduated from high school, the kids moved on to different places and a decade passed, and another one, and another one, but everyone noticed Immortalli was very young. So, everyone became curious, and started measuring the speed of aging in Immortalli. His speed of aging was 3 times slower☺☺☺ than in those using the Immortality Now group ideas. Puzzled, scientists went back to analyze what went on in the high school research projects and how Nobelists and everyone missed the insight of Immortalli that he explained at 25 in a book that all ignored at the time.

Overnight, Immortalli became famous, at age 46, and was appointed President of Immortality University he founded, where everything was about Compassion Gentleness Kindness Sweetness Softness first; Immortality would follow as a result, instead of "*Immortality Now*" first and the rest later. So, his research groups as President and Professor at once were working on new concepts of the eterni diet, that would inflict no pain on plants. When Immortalli was 50, a student named Bliss discovered a new possible way quantum chemistry computations predict a way to slow down the aging speed and it was published in many journals, but by then there were thousands of such formulas and it was very hard for anyone to prove that theirs was the best. Few people tried it for a long time (most gave up fast seeing no results), except Immortalli and Bliss who persisted more. They tried it for a while, and then the speed of aging of Immortalli was slowed 3 times more than the aging speed of Bliss, which puzzled everyone, since Bliss was 20 years younger, a postdoctoral student. They wondered why Immortalli was the slowest aging 50 year old human worldwide. Could it be that his previous 16 years old discovery have epigenetically altered his genes and that the Universe or God engineered the Bliss discovery to take Immortalli's newly created biochemistry to an optimal aging speed? Everyone was trying to figure out what was happening. As Immortalli was creating a second university called Eternity University, with the help of the country's government, that became world's best university in non-agriculture human nutrition for living to 150 without inflicting pain on animals or plants, he was 55 and working on new ways to advance human civilization towards a Civilization of Immortals, one tiny step at a time. He thought about expanding the reach of Immortalism efforts into the cultural areas too and so more books and movies, songs and news became focused on tripling human lifespan. As Immortalli worked tirelessly for another 50 years, he was the youngest looking centenarian in world history, at 105. Because of the success of the high school in Gentleness town, by then most schools adopted its ways, instead of the Stagnation town school methods. One of his students at Immortality University, named Hope

discovered a new way to slow the aging process with Immortalli's help. ☺☺☺

It was odd at first, it didn't always work, half the people trying it got no results, but half did have some minor improvements. Because Hope was a very nice and kind person, Immortalli started to wonder if this is worth trying, adding it to his regimen. Upon thinking deeply about it, he wrote his third book explaining why he believes Hope's discovery might be the very best in recent times, even if may take months to show results. Everyone at the time didn't understand it, and because Hope was 25 and he was 105, most believed he was getting old and losing his mind, without telling him so of course, as he was famous and world's youngest looking centenarian. Then, when he made this Hope induced change, after 5 years there was no improvement in his aging speed and Hope already gave up on it as she noticed no change either and felt sorry for wasting Immortalli's time. She was getting ready to leave Immortality University for another one that a country wanted to create, and as she was in the airport, ready to leave the country, she got a call from Immortalli showing via text the picture of the biomarkers changes last week, showing a two fold slowing in aging speed and a host of other data from the research indicating that her discovery might be behind this, due to the previous changes he did. ☺☺☺

Then, as she became convinced that something unusual was going on, due to a weird dream about living to 9,000 the night before, that contained some of the ideas related to her discovery, she changed her mind and returned as researcher at the University, telling the other country that she will be part-time consultant online instead. As she returned, Immortalli's aging speed slowed even more and this slower speed continued for another 10 years, puzzling the world's scientific community, as nobody else who took Hope's ideas got those results, except Immortalli who also used his other diet ideas. By the time she was 35, Hope became convinced that a supernatural force was behind the discoveries that made Immortalli's world's youngest 115 year old, looking like a 55 year old. It was too weird to her, too unlikely, that in Immortalli's path, the new nutrition discovery implemented only helped Immortalli the most, even if many others tried it. It seemed as if some aliens or God have orchestrated it all, even though she was an agnostic tending more towards atheism. Immortalli believed in God. Hope was at the time in a relationship with her high school sweetheart and was thinking to get married to him in a year or so. But things didn't turn out that way, due the most odd discovery that a 20 year old Eternity University undergraduate student named Spirit, made about the effect of ergocalciferol (vegan vitamin D, D_2) and adenosylcobalamin (one of the 3 natural forms of B12) combo upon the lipid oxidation in the presence of tocotrienols (a form of vitamin E). They noticed in the movie all the differences between the 4 forms of B_{12}, 2 forms of D and forms of E as the links of the previous sentence explain. Spirit noticed that his vegan mouse pet went to the vitamin D_2 bottle 3 times in a row, and that a cat trained to become eterni (to not eat mice), as per Immortalli's course on transforming the world into a Compassionate one, never was tempted to eat the mouse, even

though the cat went thru the training only 20 days and all other cats before took 200 days to fully avoid eating or attacking mice. To Spirit, it was a miracle beyond explanation, especially since the cat was there by accident and was according to reports a very hungry one. Spirit's mouse was his best friend and he let him play around his nutrition lab. As a result, Spirit tried to see the effect on aging speed of vitamin D_2, in combination with a less used form of B_{12} and odd forms of vitamin E. The results were amazing in mice treated with some ideas from Immortalli's earlier discovery and the ones of Bliss. As such Immortalli tried to change his intake and use more of adenosylcobalamin B_{12} (not the mass market *cyano*cobalamin, which is less bioavailable, etc), more gamma tocotrienols and some D_2 too, not just D_3.☺☺☺ The result was stunning, Immortalli's speed of aging halved in 10 days, and became 4 times slower in 1 month, but in other people the speed of aging slowed only by 20% after 1 month. The whole world was puzzled, especially Hope, because Spirit was a friend of Hope, a very remote friend, whom she met at a conference on tripling human lifespan organized by the UN. Hope started to fall in love with Immortalli, who was single, but thought it was just her imagination and totally inappropriate to marry an 115 year old who is world famous for having the slowest rate of aging of any living human. This led her to postpone her marriage to her high school sweetheart.

As time went on, and Immortalli reached 116, a researcher made another discovery about the effect of zinc absorption depending on the form (what type of organic or inorganic complex) on the influence of the 1,000 transcription factors that contain zinc (and 300 enzymes) on aging parameters. This zinc delivery was very complex and had many contituents, and it gave great results in rabbits and in some people. This then became a hot protocol and a popular theory emerged, supported by many as to how it works and what are the real causes for this, what components of the zinc formula really make it work and how. Immortalli disagreed with this popular theory, thinking there was a confounding factor or more that they didn't account for in the analysis. So, while many tried this formula, and got slower aging speed, including Hope and Nobelists, Immortalli didn't try it. Hope was puzzled why Immortalli would not believe these people, when lots of people got such amazing results; she thought aging had an influence on his cognitive processes. Her boyfriend and her were talking about getting married for the first time, and then at the weekly check of 100 aging speed biomarkers, which took place 3 hours later, she noticed her aging speed increased to the original level, before taking the zinc formula. She immediately texted Immortalli, and asked him again why he didn't take the zinc formula, without telling him her lab results. He told her that he thought the effect would vanish over time, due to a specific biochemical pathway in the human body. She then decided to write a paper, case report with her experience and asked if anyone experienced the same and in the next 5 months thousands of people noticed the special formula zinc boost was temporary for aging speed parameters. To her atheistic self, this was odd. Once again, she decided to postpone

marrying her now 36 year old boyfriend and asked 116 year old Immortalli later when they were joking about different topics, like romance in a Civilization of Immortals, if he would mary someone 100 years younger if he made it to a really old age. Immortalli had no idea about her intentions, as he rarely talked to her, since he supervised 800 researchers, with Hope being one of them. So he old her, that perhaps he would if it would bring 900 year lifespans to all faster. Immortalli totally forgot about this chat, and a year later, when she was 37 and Immortalli 117, as his aging parameters were still slowest in the world, Hope asked him if he would marry her and Immortalli asked her for 1 month to think about it, and then said yes. In her scientist mind, she thought his sperm might have some very odd properties which will carry offpsring that will pass on a new gene that makes longer lifespan more likely. He didn't know she wanted to have a kid or more. He himself was thinking he might die in 20 years or 50 if lucky, since it's impossible to predict if the aging speed biomarkers won't change overnight due to some entropic change not predicted by current models; thus, he was never thinking about having kids, just like any other centenarian. But as time went on he got convinced by her to try and they had a baby girl they named Eterni when he was 123 and Hope was 43. This became world news, as no centenarian ever had become a father, let alone a 123 year old.

Indeed, Eterni's aging speed was 5 times slower than other humans of her age who went thru the same nutritional program as Hope prior to conception and during pregnancy and first 5 years of life (better nutrition turns longevity genes on), even without some of the best nutritional protocols implemented during Hope's pregnancy, indicating Hope was right that "Immortalli's sperm induced epigenetic changes in offspring" which shocked everyone, as his biological age was that of a 57 year old at 123. As time went on, Immortalli and his students and kids made new discoveries and the world average lifespan moved from 80 years to 500,☺☺☺ thanks mainly to Immortalli's discoveries (showing what an impact a human can make on all humanity), by the time Immortalli reached 700 years old (and Hope was 620, Eterni 577). Everyone was puzzled how people ignored his insights many times and how many discoveries worked best for Immortalli and a few others only in slowing aging speed, as if a supernatural intelligence was guiding everything to make Immortalli defy all odds. As time went on, Immortalli reached 6,000 years old when human lifespan reached 5,800 for most people (oldest humans after Immortalli being Bliss at 5,980, Hope at 5,920, Spirit 5,905, Eterni 5,877). As technology got better and better over centuries, it was possible to reverse aging partially in some cases, so this is how the "biological age" of Immortalli was about 35 when he was 700; Immortalli made it to 21,000 when the average human lifespan was brought to 20,800, time at which work began seriously on inter-dimensional Immortality, or discovering if there exists another universe where people could translate into in order to overcome the limits of this universe, overcome the slow travel speed, etc, the inability to colonize far away systems, to travel there via dematerialization and

rematerialization, etc. So, when Immortalli, the oldest living human, was 90,000 and average human lifespan 89,800, the first discoveries were made in superluminal travel to other far away stars via a form of inter-dimensional translation. At 95,000 years old, Immortalli became the first human to teleport to another Earth like far away planet, followed by some of his students and descendants, and established the first human colony in that area of the universe, previously impossible to reach. As a result, the people on this planet became fully focused on studying inter-dimensional Immortality, thinking God has guided them☺☺☺ for 95,000 years through Immortalli and his close friends and relatives. So, as more time passed, they reached half a million years in age, helping countless other planets and humanoids to move to longer lifespan, World Peace, etc. When Immortalli was 500,005 years old, they achieved the first long term stay in another universe, not a brief teleportation, and got an insight into how to begin building a bi-dimensional Civilization of Immortals. And so, they began their next project, and discovered that aging was slower in the other universe and upon returning to original universe the aging was slower the longer they stayed in the other universe. As such, they got all more motivated to move more and more of their civilization to the other universe, and help younger Immortals via teleportation☺☺☺ from the new universe, instead of via normal physical travel.

Over time, as Immortalli reached 1 million years old, they moved their entire civilization in the new universe, spending time to help younger civilizations to get to that same level and make it to the new universe if interested. When this happend, they realized that Immortalli was the first human from Earth to ascend into another universe, without dying, via scientific means, not with visible/direct help from Immortals/God as may have happened with other humans who're believed in Taoism, Judaism, Tibetan Buddhism, Christianity to have ascended. As Earthlings also ascended in the new universe, this may have been the New Earth on which we live forever predicted by some theologians. Over time, as Immortalli reached 5 million years old, several civilizations appeared in the new universe, that translated from ours. They worked as one to spread compassion and peace, Immortality and bliss to all those left behind. ☺ When Immortalli was 100 million years old, they discovered yet another universe, where aging was even slower, and they realized some of these higher *universes* may be heavens people talked about in religions, that people got to via matter into energy conversions. The journey of Ascending Immortality continued for another 30 billion years, point at which, they were able to understand the way our currently 13.7 billion years old physical universe was created in the first place. They became interested in being the new guardians of some aspects of our universe (which was now 43.7 billion years old), after being asked if they want to be that by some trillion year old Immortals from a higher dimensional Universe (heaven?). The Immortality journey continued forever, as new tasks, explorations and responsibilities emerged as they journeyed thru the multi-dimesnional multi-universe structures. *At 30 billion years old, in his "childhood" (since he*

reached a *trillion years age later)* Immortalli, as he was creating a record of his life, pointed out that for the first million years he never knew if he would die soon or not, because in science you can't really be sure how your model fits reality. Only when reaching 1 million years he really believed he may live much longer than that. He was always surprised he made it, as miracle after miracle was happening.☺☺☺ As he was 150 year old, he started part-time to inspire students to create comedies of 9,000 year old Immortals who send holograms of themselves made of special particles that can go back in time, to teach their grand grand grand mothers who died [in the future time] how to increase lifespan and change the civilization to one of Immortals, while teaching via comedy basics things about longevity and living to 700 and later much longer, and making it really funny, as grandma is thought odd by locals when she hears/sees Immortals from the future who tell her about teaching biochemistry to youngsters at the local preschool and first grade level, with the diagrams from her grand grand grand son who made it to 9,000 in the future and visits her now in an odd form. As a comedy movie about this appeared, it matched well what happened later with Immortalli, as he made it to 9,000, as the *30 billion year old* Immortalli recalls. This gave him tremendous hope at age 9,000 as he was celebrating the latest longevity discoveries with 3,000 year old *mitochondrial* Immortality specialists. ☺☺☺ This hope was so great and almost everybody realized a supernatural force has possibly guided humanity for 9,000 years, as many believed it when Immortalli was 95,000 years old too. When Immortalli was 500 *trillion* years old, they had a big eterni tone singing *and idea exchange gathering with a few trillion* other folks who made it past 100 *trillion years old.*

5.3. *Immortality* Language, Lyrics, Literature, Tone Notes, Fashion

5.3.1. Intro 5.3.2. Peaceful Lyrics 5.3.3. The Immortalist Anthem 5.3.4. The Immortalist Flag
5.3.5. Eterni, the New USA Capital 5.3.6. The Immortalist Greeting for a New Culture

5.3.1. Intro: anything that shortens human *lifespan* (proven by 1000s of unfaked studies), like any depiction of crime or violence, would be illegal, in any *song lyrics*, *literature*, websites, movies, sports (meaning boxing, martial arts, MMA, anything that involves any simulated or real hit would be illegal: if people never see violence, violence is 0). Humans saw violence of animals killing animals, so they imitated that violence. Police can read restricted literature on how to catch hidden or subtle forms of crime. If no crime ideas exist, no crime exists. Infinite freedom can't coexist with long lives, since trillions of choices shorten lifespan. This creates a gentle tone taught to families since age 0 by daily emails (to parents) on Immortality *for* All Topics & Ethics (videos need be watched to receive some Immortality techs) with eterni qualities building (spiritual, not religious), culture, anthem & greetings, simpler grammar & language, so we have more time to learn the language of Immortality sciences instead of verb conjugation. ☺☺☺☺☺

Creating New *Words*, a new *language*, or adding emotion-intent tone note above *some* words

Which words in our language could be changed (or added as an extra word for the same meaning) first to help us move faster towards the Civilization of Telepathic Immortals living to 900 and longer? The choices could be faimmortality instead of death, or failed Immortality for death, meaning it's not death, only the failure to extend God's Ascending Immortality into the physical universe and live a few centuries at least. Fagentle or gentle- would replace aggressive, fapeace or peace- would replace war, since the old words have an energy slightly negative attached to them. I googled "Immortality" & got 23 million hits, "Eternity" got 121 million hits, "death" got 1.59 billion hits. This alone shows that there is a strong inertia in our written stuff towards negativity and death. The very word death is too final, and faimmortality means a transition to a new world of Immortality☺☺☺ or if people believe in reincarnation in other dimensions or realms or here, a new opportunity to attempt physical Immortality mastery, or say living to 900 or 5,000 years, like that 9,550-year-old Swedish tree, etc. We could eliminate negative words and replace them with positive ones, with 1-2 letters added in front or a minus superscript; this way everything is an expression of the *gentle tender soft* positivity of Ascending Immortality and Eternal Life. We can change Language too, as we progress or ascend as a civilization towards a Greater Eternity consciousness, Longevity, Immortality. When we reach lifespans of 3,000 years old, it's *possible that we will* know so much about neuroscience, sound effects on cells and longevity, etc that we will *create a new language*, named Immortal or something, that will be scientifically proven and known to extend lifespan the most, *keeping the body* youthful for the longest amount of time. This language could facilitate the doubling of lifespan from 3,000 to 6,000. We can even write many words with a letter above (superscript) at the end of the word or in the middle, to indicate the emotion referred to, only for positive emotions, avoid words for negative emotions, using instead the word of the positive emotion with a minus subscript to train us to engage in conscious creation of positive emotions only, reduce aging, fight-flight coming from writing death states into existence, when negative emotions don't even deserve words by themselves. This makes us aware of our tone 50 times more. This also helps in simplifying the language, as explained in the one language section.

How important is tone? The emotional tone writing section explains more about the changes to a language (besides simpler phonetization to focus on eterni tone instead of tongue, throat and jaw acrobatics) to take it from a genocide enhancing language to one that activates the eterni gentle tender soft healing nurturing universal loving kindness brain areas related to Eternal Immortality *for* All., i.e the principle of nonkilling. A good (meaning a trillion times better, causing a trillion times less violent crime) language has no history of any nation speaking it comitting genocide, because it makes people infinitely kinder and more intelligent by its very use. If we look at history, we can see which languages lead to genocide in their users, meaning

which languages need real *reform:* all of them. A talk takes 10,000 to 1 million times (more if eterni tone) more data (1 GB vs 1 KB) in the most amazing & beautiful ☺☺☺ audio file format versus plain text, how we intone contains 10,000 times more info at least than what we write or speak. The impact of changing our tone (and musical notes) could be 10000+ times greater than the effect writing had on human development. We change emotional, intent, energy radiation, thought tone (not just vocal), and we change everything about us; however these tones are linked to vocal tone so changing our vocal tone changes all the others, transforming us into slower aging (less negative emotion, stress), nicer people faster than anything else we got in the high tech era. Gorillas can write too, but good tone requires waiting 2 weeks to get to state of brain, while to write we do it all the time easily. Superscript c e or m for compassion, ecstatic or merciful. Change writing and help develop emotional self regulation, emotional brain, intentional brain, tone brain, tone of thought. *99% of ethics learning could be from tone. People learn ethics from tone unconsciously,* far less from content *or words of hypocrites.* This is also a paradox of *espionage and gossip*, waste 20 years watching bad people or talking about them, becoming like them, by hearing, studying their tone, methods, books, when changing our tone would have inspired the 'bad' to change and solved the problem that espionage, whining, gossip, extreme criticism, bad book reading (pollutes the brain), swear words never did, since side effects made war reoccur for 4 millennia. ☺☺☺ Tao Te Ching Chapter 33 ► knowing others is intelligence, knowing self (emotion, intent, thought tone) is wisdom. Intelligence agencies can't bring lasting peace, but wisdom agencies can bring permanent peace. If police gets contaminated too much and focuses on one's tone too little, he becomes like a gang member and fails to bring true change (only temporary), because he imitates unconsciously those around him too much if not careful, when believing in infiltration as method of World Peace instead of positive example. If generals and soldiers don't change tone, just want new gadgets, their tone is unconsciously read by the enemy brain, in ways we don't understand, and all the general 'secret deceit methods' are learned, and applied against the general's country, leading to loss of effectiveness in ending killing and war. If leaders of a nation would realize how destructive bad tone of TV radio political speech is, they would change it faster. It's worse than a foreign nation bombing us daily in an occupied area, and that's pretty bad for psychological war (or dropping nukes in an area every few years). That's why better tone is good for all nations, not only for one's country: 2000 times more tech progress in all, from which we can learn and speed our progress, more hypothesis thinking. Improved writing can remove all negative emotion by replacing negative words with "lack of happiness" or happiness with - superscript at the end, while + would mean very intense happiness; by always infusing an emotion positive code when the meaning is negative, it helps the brain to create a new way of relating to reality, far less destructive for our health. As with musical notes, we got the word happiness written in many ways: merciful happiness^{m}, tender happiness^{t}, gentle happiness^{g}, very gentle happiness^{g+}. In

Vietnamese, they got 6 tones, different tone is different meaning. This would be different, it's just adding a superscript, first letter of the main 10 or 20 eterni tones, to a word or above the word. In speaking, we won't pronounce these superscripts, we intone them in our brains, develop the brains, we change thus our vocal tone, aging speed, so subtly, many won't know unless told happiness can have 10-80 eterni tones: gentle, tender, soft, sweet... all positive emotions of eterni variety. When we read a text, happiness can be thus heard by others very differently, *per* superscript (optional in all languages, so some texts may have no superscripts).

We normally are oblivious of how much power our emotion-intent-thought tone carries, not the words themselves; we think we need 'amazing gadgets' to bring long-term peace, but our tone may be actually a billion times more powerful, if eterni, than all weapons humanity has combined. When we realize that, we tend to speak less, as tones (not words) *build or destroy entire universes*, build peace a trillion times longer lasting than any weapon system can, since weapons change, but our tones have been same for eons. ***Our tones will influence humanity for a trillion years thru ripple effects in ways we forget.*** Thus it's better to create 1 min eterni tone speech or song than 4,000 min of random tone. Our writing, literature also have a big influence, but way less than our tone, people easily ignore written texts as jokes or disinformation, but a gentle tone transforms all. Likewise, a person recording a 2 min clip can take humanity forward long-term more than 1 billion people doing stuff in 5,000 trillion minutes, as the tone *is so* unique, people love it and it changes all. We'll create a language that helps us (see MRI scans of different language speakers proving what we speak changes our brain) live the longest. We'll have one language some day, way more advanced than any today. ☺☺☺☺☺☺☺

POETRY

To *save space*, rhyming verses are separated by /:

☺☺☺ 900 Year Old Telepathic Humans ☺☺☺

We came across a science paper, / About worms living 10 times longer,

Thanks to a simple DNA mutation, / That led to amazing life extension.

We couldn't help but wonder when, / The same thing will happen in men.

Our wondering was a great start, / That prompted us to take part,

In the Global Immortality Olympiad, / The brought the brightest humanity had,

United in their Dream So possible, / To make Living to 900 now doable.

Teens from all our lovely countries, / Presented their geeky discoveries,

That brought an end to many miseries, / Humans suffered over the centuries.

We managed to live to 900 years old, / Then we even reached 4,000 years old,

Ascending to *universes* as dimensions fold. / A most stunning paradise a story ever told,

Took hold of every corner of our civilization, / No violence, no war existed in any nation.

All humans and animals became vegan even, / Tender gentleness overflowing as in Heaven.

As we lived even longer we gave up eating, / Using energy and materialization for feeding.

Typing was replaced by telepathizing, / Driving, airplanes, trains by teleporting.

The subatomic telepathic telekinesis fosters, / Elimination of natural and other disasters,

Allowing us to focus on Immortality matters.

With telepathic control of boson fields, / *We levitate, fly across the plains and hills.*☺☺☺

No cars, rockets, trains or planes in sight, / As we can teleport thru dimensional light.

[Different melody or song or literature class poem to study now as verse is longer:]

☺☺☺ The geeky teenagers will run the aging simulation, ☺☺☺

As the curing aging hobby takes over the civilization,

The video games are about curing diseases and aging,

Helping biochemists with protein structure solving.

The teens spread the 1900 calories to keep the brain bigger,

Via a larger breakfast and lunch split in two, a smaller dinner,

Enabling many teens to be much healthier and thinner.

Instead of eating based on taste, social pressure and texture,

Calorie spreasheets made nutrient monitoring a pleasure,

A truly ecstatic adventure of nutrition hypotheses testing,

Enabling all to be citizen scientists aiding lifespan tripling.

Their unhealthy three meals of 200, 1000, 700 calories

Became four healthy meals of 550, 500, 500, 350 calories,

Or, for fat loss, even 5: 450, 450, 400, 350, 250 calories.

The sleepiness and fat deposit after lunch are over,

The mental energy after breakfast much greater,

The post lunch glucose max went down quicker,

☺☺☺ Reaching only 100, instead of 120 mg per deciliter, ☺☺☺

Allowing them to be kinder, think deeper and better,

Since A1C and brain shrinkage were way smaller.

They knew having a bigger brain, not belly, is lovely,

That it's unhealthy unattractive to have a big belly.

Mice without a gene got 100+ times more plaque depositing,

After the same exact amount of food and fat ingesting;

Aware of it, our post lunch triglycerides started dropping,

Diminishing atherosclerosis related faster aging.

As less plaque was forming, neurons got better feeding,

Preventing further brain areas from starving and dying.

Knowing many Alzheimer people clogg their brain arteries,

They started avoiding AGEs rich and fattening bakeries.

Asking pizza, fast food makers to drop AGE levels 50 times,

They reduced Alzheimer, stroke, diabetes levels 10 times.

Atherosclerosis starts in our mother's tummy:

Animal foods ingested by a pregnant mommy,

☺☺☺ Can raise plaque 12 times in the aorta of her baby, ☺☺☺

Animal foods alone contain free cholesterol,

And the 100 times more toxic oxidized cholesterol.

Pregnancy and lactation alone were OK to gain weight,

So baby gets good nutrients from mommy's milk he ate.

They knew prevention is 800 times cheaper than cure,

So they created an eterni healthier food culture.

☺☺☺ As omnivores became vegan and then *eterni*, ☺☺☺

They soon experienced a nine times longer lifespan.

Computational chemists helped the bench chemists to find,

A methane to olefin catalyst much cheaper than platinum,

They computed that it can be done easier with titanium.

Along the same lines, the computational chemistry models,

For every molecule ingested by virtual human beings,

Were daily monitoring at least 1,000 aging biomarkers,

Made easier by better faster quantum supercomputers.

When the weekly aging drops by 50% in the simulations,

We try it in mice, and see if reality matches the predictions,

If matching, we try the rabbit, then monkey, human simulations,

For every DNA mutation, we also run the aging simulations,

Arriving at the most longevity enhancing permutations.

Then mice, rabbits, monkeys live 9 times longer,/ As they become our pets in the era of wonder.

We already can live to 900, we just don't know how,/

Because Longevity is not a popular hobby now,

But that's all about to change thanks to love supreme,

☺☺☺ As Immortality becomes the hottest Internet meme, ☺☺☺

And the most common word in a video game name,

Inspiring humankind to some far away day emerge into a new *Universe*,

Defying death forever by wormhole translating within the multiverse.

The care we took in loving tenderly and gently one another,

Extended to the way we cure the aging of mom and brother,

And we were working with AI and machine learning,

Setting up our algorithms to simulate curing aging,

Minimizing advanced glycation end products intake,

Because we really love living to 900 for God's sake.

5.3.2. Peaceful Lyrics: create a wholly different vibe *for* romantic/wedding *songs*:

☺☺☺

Ode to Eternal *Inter*-Universal Peace

☺☺☺ **"Hoping for your gentle healing grace to express,** ☺☺☺

So that **all humans** may feel the **nurturing** *caress*,

☺☺☺ **Of the eterni tone of your** *angelic* **soft voice,** ☺☺☺

Compassionately **giving** all humanity the **happy** choice,

☺☺☺ **Of emoting** with **such** ***magnanimous*** **tender kindness,** ☺☺☺

Filling all ***universes*** with **humble** meek *sweetness*,

☺☺☺ **The choice of living in Eternal Inter-Universal Peace,** ☺☺☺

With **Immortality** ***for*** **All** and **soothing** elysian bliss.

☺☺☺ **May** *we always* **sing about** ***universal loving kindness,*** ☺☺☺

To amplify the human quantum field *selflessness*,

So that we can bring a *permanent* **happy** *serenity*,

☺☺☺ **World Peace in 3 months on planets in infinity.** ☺☺☺

(next lyrics refer to victims of Syria, Ukraine, etc wars):

☺☺☺ *Sensing* **Earth's urgent need for tranquility** ***vibes,*** ☺☺☺

We *sing* **only music which cosmic** *peace* **deeply radiates,**

So that we may heal the quantum field of humanity,

☺☺☺ And grant all eternal multi-*dimensional* Immortality. ☺☺☺

To save all living beings from the suffering war brings,

☺☺☺ We care deeply about the way each planet sings, ☺☺☺

At *every* celebration, occasion, *birthday or wedding,*

Or even the *simplest* most informal outing or playing.

For in the calm rhythm of our songs and tone of voice,

☺☺☺ Is easily *hidden* the war versus permanent *peace* choice. ☺☺☺

Ever** vigilant **to show** gentlest graceful compassion **for all,

Knowing how** quickly **planetary** World Peace **eras fall,

We take an ***Eternal*** Vow to Serene Rhythm and Intoning,

☺☺☺ To help make the trillion year Universal Peace everlasting. ☺☺☺

All ***lovingly gently*** give up fancy setups for wedding parties,

So we can build amazing Immortality Centers in all Cities,

☺☺☺ To bring free high tech healthcare to all Earth's population, ☺☺☺

Preventive ***medicine***, education, free biomarker evaluation,

Enabling all to partake of the colorful centers of relaxation,

Where all can experience the eternal bliss of meditation,

☺☺☺ Or rent it for a ***wedding*** dedicated to immortalist action, ☺☺☺

So we replace jails with Centers of Education and Healing,

So all crime disappears in 90 years to give every earthling:

☺☺☺ A tornado safe home, good nutrition, beautiful serene ambience, ☺☺☺

With spiritual qualities shimmering on all streets with radiance,

To speed up health and longevity innovation a million fold,

☺☺☺ Creating the Immortality *for* All Paradise all *love* to behold. ☺☺☺

O, **angel, precious sweetie** of ***gentle*** **tender *soft*** kind ***iridescence*****,**

Shining **with the brilliance** of a million suns of **loving *patience*****,**

☺☺☺ **Humans** are 1 second old babies versus a **trillion** year **Immortal**, ☺☺☺

☺☺☺ We need **more *love*** to **reach** the **dazzling radiance** of an **Eternal**. ☺☺☺

☺☺☺☺☺☺

Also, we need all romantic songs to talk about how they bring **World Peace in 3 months** by elevating their vibe, to help us evolve to **civil animal stage**. **Please read the few peace lyrics below** while listening to **this** or one of the **peaceful songs** for better **human quantum field** effects:

"**Joy to the World**, **World Peace for everybody**, /**In 3 months from now**, For so we decide,

To manifest our future, in freedom and bliss, / **Joy to the World**, We can do now way more,

As logic of progress told folks of yore."

☺☺☺ **Thy Light Immortal So Sweet, / Brings us World Peace So Quick,** ☺☺☺

A Paradise of Gentle Tender *Softness*, / Of Kind Nurturing Grace and *Goodness*.

World Peace in 3 months of gentle *sweetness*, / Brings all the happy eternal infinite *kindness*,

The ecstatic | Immortality *for* All | grace and *bliss*, / Filling all humans with peace joy and *ease*.

World Peace is possible in a *quarter*, / When all human lives will *matter*,

World Peace is possible in less than a year, / When World Peace is all we want to hear.

World Peace in three months makes each human feel she belongs,

To the world of | Immortality *for* All | and its amazing serene songs.

☺☺☺ **There, in the Grace of Eternal Universal Peace,** ☺☺☺

We behold the Soothing Silence and Bliss,

We adore the gentle feeling of Infinite Ease,

☺☺☺ We **bask** in the **Sweet** Elysian **Tranquility**, ☺☺☺

Of That **Cosmic Resplendent** Ecstatic **Divinity, [replace Divinity with Mystery if atheist]**

☺☺☺ **Its shimmering Eternal Immortality**, ☺☺☺

Calling us **tenderly** towards **Its** Infinity,

So **we can happily Bless All Humanity,**

☺☺☺ **With the Eternal** Bliss **of Immortality,** ☺☺☺

☺☺☺ **And Its Limitless Magnificent Felicity.** ☺☺☺

Below is another tentative **poem** which could be almost like a popular song or even **Immortalist Anthem** for some **Ascending Immortality** Civilization focused on "**Immortality**" or Longevity, etc

The reason I wrote this paragraph (after the **poem above defining some short-term goals of Eternia**) is because I found many anthem lyrics to be very limiting (confining nation to a part of a planet), negative, deathist, thuggish, disgusting, never talking about living to 900, **hypothesis** thinking, as if trying to create mindless robotic fighters who glorify death in battle to maintain "freedom", when freedom can be achieved **peacefully** as explained in **Chapter 13**. There is nothing glorious or freeing about dying in battle as **cannon fodder for others (or aliens)** controlling your nation to attack countries or planets, while remaining as enslaved as before. **There is nothing glorious about war, it's the greatest disaster.** The glorification or even mention of death, war, weapons, cruelty towards other humans ('enemies') in anthems only serves the purposes of ***evil forces***. Negative words pollute our minds: we often say "**let's bring peace with positive methods that heal, that only bring well being, healing, nurturing grace**"; **but some may not understand what we refer to, that we mean "no war, torture, intimidation or violence used to bring peace", so for some who may not understand, the simpler sentence may work even if it uses negative words; but the sentence did not glorify war, it only said to avoid war at all costs**, which is the difference between day and night. While **negative words are problematic**, even more damaging is the negative meaning, the glorification of violence, war, **killing**, revenge as a way to bring "peace and freedom" that never actually arrives except as a temporary state as history shows, soon to be placed by a new war in the cycle of eternal hell war brings. Why not use **positive words that heal and uplift** and avoid negative ones? An anthem is ***meant to be inspiring,*** so it makes sense to **use only positive words**, eliminate glorification of negative means, behavior, methods, that bring that hellish future by expectation. ***Is death the epitome of being human or the Immortality of Soul, God that then makes the soul bring longer life to the body too? No anthem contains words like gentle tender healing grace of World Peace bringing via peaceful methods.***

Why can't all nations unite as one Nation, Eternia, speaking one common language, perhaps English, Esperanto or a new Eternia language, bring Immortality to all galaxies? **The new language can have elements from all main languages, so nobody feels left out, perhaps with**

simplest most efficient grammar of all languages (English grammar is simplest maybe), simplest most efficient (for telepathy and brain resources optimization) pronunciation and reading (phonetic, not like English, characters always read or pronounced the same way in all words), simplest writing, words chosen so they're similar to the word used in top 10 most spoken languages for easy learning of new language, so we spend cognitive resources tripling lifespan instead of translating so much, or learning 90 grammars and writing systems or fighting over language or translating from language number 2,875 into English or another major science papers language, wasting so much time translating into the main 15 languages when we could instead triple human lifespan) we create that is taught from nursery to college, so all speak it as natives would and replaces the former 7,000 languages entirely over time. *The education chapter explains more about the* benefits of having fewer languages, not thousands. Since English is main language of science papers, billions of people are fine with English, or any language people create or choose, even if it's not their native language.

May the anthem below help inspire 200 new anthems where the selfishness of

1. *"nationalism",* 2. *negative words (blood, war, die), "may our country be blessed"* (nothing about "may *all* countries be blessed, live in peace, may *all* be our friends, may *all* humans live as trillion year old Immortals" for infinite love wishes well and transformation into angelic Immortals "friends" for all "enemies"), 3. "our land/hills are the nicest" *(not a country/guy above all, Germany* needs *to change* its anthem, Denmark, Netherlands, *UK too:* selfish King *matters alone, people don't;* all anthems need 0 adulation of any king or mortal*, to be fair to* We the People; many anthems are the most blatant proof of how these nations were run for centuries: subjugation of the poor by the rich, who brainwash all into the royal personality cult*)*, 4. "we are unique" type of conflict instigating phrases, revenge, 5. "vows to die in a country *(it is a death wish disguised as patriotism, programs anthem singers to worship death, aging, reignite genetic memory of past conflicts/hard times, it is anti-*immortality for all*)*, vows to "die in battle" (immortalists want none dead in any 'war'), 6. "vow to spill blood of enemies", 7. "vow to restore old glory" (age of killing), 8. "mean wishes for humans called enemies", 9. "killing, demonizing enemies, warfare" 10. march to genocide rhythm *(1+ of the* 10 *are in 100+ anthems)*

is replaced with the altruism *of the* 200 qualities *of an* Immortal:

1. a billion times higher kindness than today 2. Immortality *for* All, the bliss of universalism 3. Nonkilling, 4. Trillion Year Lifespan For All above all, 5. how the country helps all nations to live to a trillion (vows to do that, instead of the bad stuff above), 6. gentle graceful nurturing healing words, 7. peaceful bringing of peace without battles 8. gentle rhythm, 9. eterni tone, kind tone, gentle tone, nurturing, tender tone, 10. soft voice music of anxiety free Immortals:

5.3.3. ☺☺☺ Eternia ~*~ The Immortalist ANTHEM ~*~ ☺☺☺

►►►►► ☺☺☺~*~☺☺☺~*~☺☺☺ ◄◄◄◄◄

☺☺☺☺☺☺The 9 page poem anthem & ethos of "May All Live to a Trillion Years" immortalists & global Immortalist Parties. If a hyperlink sent you *to this tentative* anthem*, the* reason *why* I wrote it is in the 2 pages above (about evil anthems). This anthem deifies nonkilling, zero injury-pain for all humans even in self-defense, so it is $10^{9000000}$ less violent than the Bible-Quran, Analects (Confucius)/Tao Te Ching (Lao Tze), Communist Manifesto which OK terror/killing/war. It rejects Buddhism's begging that burdens others in an act of subtle covert violence (you work, we beg, live as parasitic nuns, monks, etc), the Buddhist ethos of ultra short 80 yr lifespan for all. It recognizes the infinitely low IQ of fixed lifeforms, like humans, and the existence of trillions of ways to peace, zero violence and justice without war, terror and torture, the centrality of nonkilling. It sees gentleness as central to the survival of humans, by avoiding humankind's 10 second end via the 2 capsule scenario. The Immortalists' central message is in the first 27 lines: the ethical duty of humans is to love the worst human a trillion times more ☺☺ *lovingly tenderly gently kindly* ☺☺ than the most loving mom loved her suckling infant last decade, because the collective created every individual. This is $10^{9000000}$ kinder than the genocidal Bible, Quran, Gita, Sun Tzu. Its ethics is healing *nurturing* blessing all humans, not Sun Tzu deception, not inflicting injury, torture, pain on any human. Clean rooms got 100.0000% pure air to create 1 nm chips for exact calculations, as the Immortalist Anthem is 100.0000% pure positive writing, free of any negative word like war, etc. We can't bring Zero Violent Crime, Eternal World Peace with present "scriptures" and "anthems". Other anthem titles are*:* Immortal or Eternal or Eternia Anthem*,* Eternity *for* All, Immortality *for* All, Eternia (an Etherial (spiritual)-Physical nation). It's Dedicated to Earth (Heart re-written). Eternia *is a* name for immortalists' nation. More anthem ideas are in the 67, 125 & 113 sec clips. ☺The basis of Civilization is its scripture or anthem: if that scripture or anthem gently virtuous, all else will be so. ☺☺☺☺☺☺☺

►►►►► ☺☺☺~*~☺☺☺~*~☺☺☺ ◄◄◄◄◄

☺☺☺☺☺☺☺ ~*~ The Immortalist Anthem ~*~ ☺☺☺☺☺☺☺

☺☺☺

☺☺☺ Blessed are those who smile, believing nothing we say without proof, ☺☺☺

Who test each hypothesis, belief to find how much of it is pure truth:

☺☺☺ Lovingly Created from a Higher Dimension to Uplift the Universes, ☺☺☺

☺☺☺ Eternia will bring physical Immortality to countless humanities, ☺☺☺

With Immortals living to forty, then a million, billion, trillion centuries.

Four billion years ago, we were one *hour* lived *bacteria* two *microns* long,

☺☺☺ Today, we're one million *hours* lived *humans* two million *microns* long, ☺☺☺

In four *billion* years to what lifeform size and lifespan will Immortals belong?

☺☺☺ Will we be 100 million *years* old and two million *meters* tall before long? ☺☺☺

Or a galaxy sized cloud of shimmering particles shifting into any lifeform,

With an IQ octillions of times higher, more complex and faster than our brain,

With words so long it takes us a million years to read, comprehend and retain,

☺☺☺ Showing how infinitely inaccurate human understanding of reality can remain, ☺☺☺

With all human knowledge being a bacterium's blink for the Immortals' brain?

Will we be happy spirits of myths, clouds able to multilocate as myriad lifeforms?

If six mm apart, all five octillion atoms of a fifty kilo human make an Earth size sphere,

Will new particles, matter give us new bodies, each human being a planet size sphere,

Will we be cells of one universal forever happy body, ecstatic kids that forever delight,

In being pure intelligence, tiny cosmic lights seeing all humans as the same one light?

Will we be a million superimposed spheres on Earth or fly to other stars in seconds?

☺☺☺ Or will we live in stars, white, black holes to easily ascend when *universes* form, ☺☺☺

So we shapeshift to new *universes* much faster as we dimensionally transform?

Ascending Immortality, eternally increasing lifespan, unites all nationalities,

☺☺☺ Until all are *shining* shimmering shapeshifting Immortals living for eternities, ☺☺☺

☺☺☺ What has been will never be, for all *are* changing, evolving to deeper ecstasies. ☺☺☺

☺☺☺ Filled with Transcendent *Gentle* Tender Soft Amazing Exquisite Sweetness, ☺☺☺

☺☺☺ Eternia spreads the Happy Graceful Nurturing Healing Infinite Goodness: ☺☺☺

☺☺☺ Enlightened by focused quantum entanglement with Immortals' Ingenuity, ☺☺☺

☺☺☺ Using trillions of peaceful ways to gently bless each world with Tranquility, ☺☺☺

☺☺☺ Eternia brings *Peace* and ||Immortality *for* All|| to endless *planets* in *Infinity*. ☺☺☺

Using only Nurturing Healing Bliss Causing Methods to Bring Peace and Immortality,

We heal all beings, ushering Peace in ways that increase the lifespan of all humanity.

Emulating the Infinite Unconditional Love of motherly Immortals for all humanity,

☺☺☺ From now on we try to love, like Immortals, even the 'least perfect' human being, ☺☺☺

☺☺☺ A trillion times more than last decade's world's best mom loved her infant baby, ☺☺☺

With a love far gentler, softer than the graceful love that mom had for her baby,

☺☺☺ Without diminishing the happiness, bliss, comfort, wellbeing of any human being, ☺☺☺

Without humanity quantum entanglement field ||Immortality *for* All|| vibe lowering.

Many Immortals live trillions of times longer than us due to using the healing effect,

☺☺☺ That comes from deifying tact, diplomacy, eternal praise for even the least perfect. ☺☺☺

Softly offering our own living example as the silent teacher of right action,

☺☺☺ We gently inspire even the least perfect to embody universal compassion. ☺☺☺

Magnifying and deifying Immortality and Healing Subtle Quiet Graceful Ingenuity,

We tenderly Bring Ecstatic Freedom, Trillion Year Lives to those longing for Liberty. ☺

Fulfilling serenely with Soothing Healing Gentle Grace Her Inter-Galactic Destiny,

☺☺☺ Eternia lives as the caressing song of Teleporting Telepathic Telekinesis, ☺☺☺

☺☺☺ Ushering blissfully the Aging Defying Immortalizing Matter-Spirit Synthesis. ☺☺☺

☺☺☺ Thru gentle tender soft healing nurturing universal loving kindness, ☺☺☺

☺☺☺ We softly bring the eterni vibration of a deeper loving kindness, ☺☺☺

We act ☺☺ lovingly tenderly gently kindly ☺☺, instead of only gently,

So we bring the ☺☺ happy world ☺☺ of Immortality for All fully.

►►►► The above verses are the intro, The Anthem continues: ◄◄◄◄

☺☺☺ To achieve it, we first visualize that Paradise of Limitless Happiness Immortality, ☺☺☺

☺☺☺ Gently calling us ever softer to Its Enchanting Iridescent Ethereal Radiant Beauty. ☺☺☺

☺☺☺ The Immortals are our grand...kids who time travel to hug us in a field of Bliss, ☺☺☺

☺☺☺ In a Love a trillion times Happier Softer Greater than the kindest mom's Love Is. ☺☺☺

☺☺☺ Can You Feel It☺☺☺? The Earth is Dancing, Celebrating, Morphing and Shifting, ☺☺☺

☺☺☺ All atoms sing a New Tune, The Eterni Tone of a Paradise of The Eternally Living, ☺☺☺

☺☺☺ The Eterni Sweet Tone of the Paradise of Happy Immortals, of Heaven on Earth, ☺☺☺

☺☺☺ Of the Elysian Heavenly Realm of Immortality for All flooding in Bliss every Heart. ☺☺☺

☺☺ Virtue, The Infinite Bliss of the Eternal Youth Elixir, Took Eternal Abode in our Being, ☺☺

☺☺☺ Big Eternal Smiles show our Limitless Happiness & Euphoric Ecstasy are Everlasting. ☺☺☺

☺☺☺ A Radiant Glistening Virtue Garment Shining in all Universes as a trillion Suns' Light, ☺☺☺

☺☺☺ Eternia Adorns All with a Bounteous Gentle Tender Soft Effulgence Ever So Bright, ☺☺☺

☺☺☺ God's Resplendent Magnificent Nurturing Loving Kind Immortality *for* All Delight. ☺☺☺

☺☺☺ Humbly and patiently questioning deeply everything we believe, ☺☺☺

Allows science to discover faster how ALL can much longer live.

Thru tranquil tenacity, wonderful science and engineering discoveries,

Uninhabitable planets are turned into paradise from barren sceneries.

☺☺☺ While we *joyously* shapeshift our Immortal shimmering fluid forms, ☺☺☺

☺☺☺ We bring Peace and that which with God's loving kindness conforms. ☺☺☺

☺☺☺ Grateful Tender Gentle Honest *Forgiving* Praising Altruistic Delight, ☺☺☺

☺☺☺ Guide Eternia Day and Night, while tech brings Eternal Daylight. ☺☺☺

☺☺☺ Adored By All Planets, As a Magnificent Universe of Immortal Splendor, ☺☺☺

Eternia Brings Eternal World Peace & Immortality to All Planets with Candor,

☺☺☺ So all might know God's Infinite Loving Tender Mercy and Bliss, ☺☺☺

☺☺☺ That fills us with Holy desires to always Bless all beings with Ease. ☺☺☺

Merged with the Infinitely Freeing Cosmic Bliss of our musical eternitone,

We enter in the deepest ☺ ecstatic trance with each greeting we intone:

Instead of "bye, hi, love u", we sing enraptured in infinite ecstasy & felicity: ☺

☺☺☺ "May all interested live forever in the infinite bliss of infinite Immortality." ☺☺☺

Listening to gentle deeply peaceful music during our mundane activities,

We ennoble our emotions and make real the most Immortal possibilities.

☺☺☺ Cities shimmering with colorful "Ethics Qualities" lights and serene melodies, ☺☺☺

☺☺☺ Help all reach perpetual bliss and the noblest immortalist intentionalities. ☺☺☺

☺☺☺ Happy and Blessed are those who doubt all they believed in ever, ☺☺☺

For they may lovingly easily find truths of much greater wonder:

Perhaps trillions of quadrillions of possibilities exist for God's Will,

☺☺☺ Some billions may include living for a trillion years as a human still, ☺☺☺

Followed by quadrillions of years in various universes so happy & tranquil,

That gently raise the IQ of our souls better than anything on Earth ever will,

Enabling us to better feel, the gentle Science of Immortality's infinite thrill.

Rooted in a compassionate simplicity to serve others with highest efficiency,

Needing nothing from others, we remain ethical via selfless self-sufficiency.

Using no imports or objects from nations against world immortalization,

We focus on creating the gentlest *most* tender *healing* *nurturing* civilization.

We can *gently* let go of the tendency of believing without proof so easily,

We doubt everything swiftly, seeking confirmation from 50 sources quickly.

☺☺☺ We often forget truth's infinite complexity and hidden *positivity* easily, ☺☺☺

☺☺☺ We can approach infinite truth, but never attain or reach it fully. ☺☺☺

We can make 0 assumptions without strong unfakable evidence,

☺☺☺ We can instead test endless hypotheses with patience and diligence. ☺☺☺

We can question things ever deeper, to approach truth much quicker.

☺☺☺ Blissfully assigning a probability of truth to every hypothesis, ☺☺☺

We better realize the truth's subtle infinitely complex synthesis.

☺☺☺ Hypothesis formulation and testing, will give us trillion year living. ☺☺☺

Data may show a strong correlation, yet we won't yield to passion or emotion,

Because a very significant association, rarely means a truly certain causation.

☺☺☺ Data is often misinformation we run into very fast, ☺☺☺

☺☺☺ Not facts or ideas we can unquestiongly always trust. ☺☺☺

Discerning *knowledge* of Immortality, grants trillion year lives to humanity.

Testing hypotheses over and over, we triple human lifespan forever.

Longevity research and development, lead to everyone's betterment.

History is rich in hear-say stories, being less credulous softens our worries.

☺☺☺ Today we got AI made fake videos, in old times a lot of acting by weirdos. ☺☺☺

☺☺☺ ~*~Eternal Universal Peace~*~ and Immortality will be our reality, ☺☺☺

When all nations happily commit to bring it to all humanity.

☺☺☺ We will soar the galaxies freely, creating new solar systems gladly, ☺☺☺

☺☺☺ As billions of eons pass happily, in our childhood deemed so holy. ☺☺☺

Science extended worm lifespan to the equivalent of 900 human years,

Physics and biochemistry will soon extend human lifespan to 900 years.

Helping us learn how complex it is to maintain life even to 900 years old,

Aiding us in building the qualities of an Immortal living to 90,000 years old,

☺☺☺ Ready to one future era ascend to another Universe as the dimensions fold, ☺☺☺

Or to be the quiet ever happy and tranquil watcher 900 trillion years old,

Silently and patiently observing amazing new physical universes unfold.

☺☺☺ Our songs, media, ebooks in daycare, kindergarten, school, university, ☺☺☺

☺☺☺ Create a Culture of ever-increasing Longevity and infinite Immortality. ☺☺☺

☺☺☺ The lullaby songs "Hey baby, you can bring 900 billion year lifespans, ☺☺☺

☺☺☺ A love of Learning and Discovery leading to far longer lifespans", ☺☺☺

Parents happily sing to their womb baby Immortal Lullabies:

☺☺☺ "We love Eternia, the Immortal Intergalactic Civilization, ☺☺☺

☺☺☺ Who brings to many worlds the | Immortality *for* All | Vibration." ☺☺☺

Like a Humble Kind Gentle Tender Nurturing Sage Unseen,

In ***Subtlest***, Softest, Sweetest mode humans have ever been,

☺☺☺ Helping all planets live in Ease, Joy and Perfect Peace, ☺☺☺

☺☺☺ Eternia regenerates souls, filling them with endless bliss. ☺☺☺

Not a temporary sensory bliss, but one of meditative immortal ease,

Allowing the intergalactic expansive breathing of soul travel bliss,

☺☺☺ The ***infinite*** happiness of living billions of years in peace. ☺☺☺

With our minds, we telekinetically move around bosons,

☺☺☺ We change the state and geometry of various leptons, ☺☺☺

Filling the protons and electrons with new immortalions.

☺☺☺ A planetary family is born eons before offspring materialization, ☺☺☺

As a billion companies are replaced by 11 companies centralization,

Meditation is way happier than sex, which happens only for procreation.

☺☺☺ Later on, a trillion parents can each materialize a few trillion atoms, ☺☺☺

That make up the body of the new wonder child the planet fathoms,

Imagine an ecstatic planet that is one family living in Eternal Spring,

☺☺☺ With everyone being the truly happy co-parent of any new offspring. ☺☺☺

Everyone loves every new happy child, since everyone is their parent,

Every atom donated is filled the elated compassion eternally present.

☺☺☺ All kids grow into Immortals able to reprogram the species' blueprints, ☺☺☺

Thus recreating the 'bodies' of their fellow kids and one trillion parents,

☺☺☺ With parents becoming 'kids' of their own kids via the latest upgrade, ☺☺☺

Making all perceive all as siblings as ability differences slowly subside,

With all viewing God as their true parent, The One who'll forever abide.

☺☺☺ As humans evolve to colorful shimmering shapeshifting Immortals, ☺☺☺

Their third eye is able to beam beautiful molecular, atomic fractals.

☺☺☺ Humans will shapeshift into the joyous lifeform of many planets, ☺☺☺

No longer needing random stomachs or reproductive organ sets.

We eat eterni powders made of 90,000 nutrients of 8,000 foods,

So that all animals, insects, plants live in eternal bliss in the woods.

☺☺☺ Living care free on energy without food will soon become real, ☺☺☺

☺☺☺ We'll have no need of animalistic eating after age twenty o dear, ☺☺☺

☺☺☺ From dirt or air we materialize a trillion things that we may need, ☺☺☺

Via nuclear and matter/energy conversion science progress indeed.

☺☺☺ Our songs deify Knowledge, Science, Ethics and Learning, ☺☺☺

In *gentle* tender *soft* tunes of fluid intelligence evolving,

☺☺☺ Our angelic tones of voice are healing, soft, sweet and *nurturing*, ☺☺☺

Inspiring all listeners to adore our GOALS of Immortal becoming,

GOALS of Eternal Happiness and World Peace Bringing,

To Ever New worlds telescopes might have been seeing.

☺☺☺ The subatomic particle telepathic telekinesis fosters, ☺☺☺

A perfect elimination of natural and other disasters,

Allowing humanity to focus on Immortality matters.

☺☺☺ With telepathic control of boson forces and fields, ☺☺☺

☺☺☺ We levitate & fly across the plains, planets and hills. ☺☺☺

No cars, ships, rockets, trains or planes are found in sight,

☺☺☺ Because all can teleport thru a new soft dimensional light. ☺☺☺

A sweet intergalactic Civilization of Heavenly Ecstatic Peace,

☺☺☺ With goodness and science to fill all planets with boundless bliss. ☺☺☺

☺☺☺ Immortality *for* All who want happy eternal physical Immortality ☺☺☺

Can become humanity's reality, even if all want that Immortality.

☺☺☺☺☺☺☺

Aware of the trillion year effects of our actions on future humanity,

☺☺☺ We try to improve our tone of thought, feeling, speech with tenacity, ☺☺☺

Knowing well that all actions spring from our inner *tone* of intending,

We spend time to making *it* less influenced by gadget thought writing,

So we can develop a hope for Immortal humans some day emerging,

When we managed to imbue every thought with sweet soft *kind loving*,

Every feeling, intent and word with an infinite compassion so soothing.

God directs all to 100% healing positive methods to bring peace,

For with their 50 times gentler tone they help humanity achieve,

☺☺☺ A speed in Immortality tech progress that few now can believe.☺☺☺

☺☺☺ Our eterni way of 'positive methods only' inspires the prematter beings, ☺☺☺

The unconceived yet trillions of souls born next billion trillion octillion years,

To help us experience bliss and the soul travel freedom born out of *kindness*.

To outsiders, the pacifists often seem to have lost the 'raised voice' freedom,

Due to our devotion to *healing* soft ways to help all people live to a *trillion*.

Eterni *actions* are much gentler, kinder, softer than pacifist (nonviolent) *actions*,

They radiate the Immortals' infinitely tender grace, universal loving kindness vibrations.

Just like the eterni tone we use is often 100 times gentler than everyday speech,

☺☺☺ Eterni *actions* are 100 times gentler, kinder and more healing in their reach. ☺☺☺

Pacifism is a trillionth of the infinite *kindness* of wishing and giving Immortality *for* All,

Of its infinite tenderness, most nurturing compassionate gentle ecstatic sweet softness.

By setting our pacifist immortalist ideals way higher than nonviolence, we make it harder,

For our human nature to take over, allowing the gentle Immortal within to rule forever.

☺☺☺ In real life, we tend to achieve a fraction of the goals we set for our nations, ☺☺☺

So setting way higher than pacifism goals ensures much more ethical actions.

By aiming to praise all beings, to magnify the good in even the least perfect of all,

☺☺☺ We love all infinitely, unconditionally and more easily bring Immortality *for* All. ☺☺☺

☺☺☺ The far future will enable us to shapeshift our appearance every single day, ☺☺☺

So we may choose identical gorgeous forms, much nicer than the 1 color today,

With 100s of shimmering colors that reflect and change with every movement,

☺☺☺ Due to the energy light new matter merging in the Immortal body blueprint, ☺☺☺

Where individuality is in the mind, emotions, vocal tones of our gentle tender softness,

The Immortals' qualities we embody, not the physical appearance of the soul goodness.

☺☺☺ We read a billion times faster, long anthems & *shared mind files* of all we meet, ☺☺☺

☺☺☺ Identifying people from a mile away, without unique appearance, is fast and sweet. ☺☺☺

People read our file with our favorite colors, fragrance, tones and Immortal qualities,

Can even make their form, smell, vibes, tones shift to suit our file's odd preferences,

☺☺☺ So that each meeting is like the most pleasant graceful experience of infinite bliss, ☺☺☺

Like when encountering an Immortal of 5 trillion years, filling us with ecstatic ease,

A bliss a billion times bigger than any encounter in the nicest present area of peace.

How beautiful every nation is, when it focuses on the 100s of qualities of Immortals,

In their anthems, cultures and ethics, so we may practice World Peace rehearsals,

Replace infinite redundancy with efficiency for fastest arrival of Immortal lifespans,

☺☺☺ Replace 100s of nations lacking peace with a peaceful nation of happy Immortals, ☺☺☺

Replace 7,000 primitive languages with an advanced telepathy & language of Immortals,

Infused with the unifying lifespan extending music of Immortality within all humans,

☺☺☺ Replace eons of philosophizing over land, race, language, appearance or dress, ☺☺☺

☺☺☺ With eons of centralization leading to trillion year lifespan technologies progress. ☺☺☺

☺☺☺

►►►►► ☺☺☺ The End of ~*~The Immortalist Anthem~*~ ☺☺☺ ◄◄◄◄◄

☺☺☺ May Eternal Bliss be with You always ☺☺☺

☺☺☺

People can also have a mini-version of this long anthem (the best 20 lines) or 200 mini-versions that *would try to convey* in a rhymed fashion the idea *of "*Eternia*, land of* Immortals*,* we help all human beings to live trillions of years*, emulate* God*'s* hardest to imitate (central perhaps?) *quality,* Immortality*, focusing* in our life, anthem and culture on humility, *one of the* Immortals*' qualities, inviting all to focus on other qualities of* Immortals *in their anthems,* so all humans can be friends and live in harmony and peace*. Oh how* beautiful Eternia *is when it works for the benefit of all nations, is a friend to all,* uses only uplifting lyrics in its anthems, *praising all nations, the* amazing future awaiting humans as one sisterhood of nations, not so much praising their own nation. Wishing and hoping one day, the selfless nature will prevail so *all nations become one nation with one* language *to* avoid wasting our life translating into 7k languages or fighting over languages, working instead on longevity *and* Immortality*" Big country entice small ones with incentives to* switch to big language, bring world harmony. Not by force, but by *universal* loving kindness, teamwork for the sake of humanity, since 5 billion years from now, none of our languages will even exist*, we'll* develop new ones, so why fight *over languages?*

Before going deeper into anthem details, it's worth writing a paragraph about:

5.3.4. ~*~ The Immortalist Flag ~*~

☺☺☺☺☺☺☺

The flag of Eternia or Immortalists would be colorful with this written:

"Multi-Dimensional Immortality *for* All, May All Live Happily to a trillion, World Peace in 3 months on all planets, Eternal Universal Peace, Soul Travel for All."

in the center, on a lavender background, with, smiley faces in between the Qualities of Immortals written on the 4 sides, 1 smiley in every corner, all symmetric, ☺☺☺☺☺☺☺, alternating colors, the 4 corner smileys can be same font and background, but the ones in between a different type that match the opposite; smileys are for the *infinite states joining the infinite civilization* to make it nice; since most flags have stars, ours has only smiley faces to make it different, and on the 4 sides the words: "Gentle Kind Soft Compassion" on the top edge, "eterni*thought* & Speech Tone" on the lower edge, on the left "Nurturing Grace", on the right "Eternal Bliss"; no green, as it's associated with soldiers, death, weapons and war in the human quantum field; no red, since it's too common and we want to be different, to escape historical inertia, and blood is red, associated with wars again; magenta, purple, lavender, orchid (variant of lavender), a little yellow (bright and high contrast with the nearby colors, since otherwise it's hard to see with lavender main color), lots of gold, silver and shimmering gliterry purples, a little true royal monochromatic blue (not the murky grey blue in many flags, but the nice Andorra flag blue) and sky blue (serene) are fine; colors that are calming, peaceful, tranquil, signifying Peace;

my youtubes use some images that are lavender with 5 other border lines, so this idea can be used too to make it nicer, add another thin line of purple at the edge and at the end of the edge writing, etc, then a gold or white line, then magenta; white and black are too plain and not real colors, so minimal, if any, white if any outside fonts on the purple background of the letter on top of lavender background; a few fonts white is OK; white flag is peace so a tiny bit OK; black is the absence of all color, worn at funerals, etc, so no, we want to be less gloomy: too many flags have tons of black, red, green, yellow, white, so to move away from quantum field vibe we need a vastly different flag, that shimmers like the shimmering Immortals, a *lavender* shade as the main color: then we're the ONLY nation with that flag, to stand out and call all to dream in a *different* way, so all know *we're the most different nation on Earth*. We don't follow the crowd. All flags gave us wars so far. Lavenders are popular with moms and ladies, close to sky blue, a very peaceful color, more feminine, the energy we need to bring a healing *gentle tender soft* vibe on our planet of war. It's a girl color, so that's important, for our moms need to be so gentle tender and soft to bring peace. Some countries have white, blue, red as flag colors, which when mixed yield *lavender*, so those guys may like it even if it's girly. *Lavender* is among the rarest colors in clothing and buildings, etc, so that makes it ultra useful, to decouple from quantum field vibes of war. It's also, not like pink, too romantic, it is more blue, so guys can like it too. A good compromise, pink is too common. We can also choose a slightly pink *lavender* that is more orchid like, to be more feminine. *The more esoteric, human biology and basic energy and light physics reasons* for lavender and for avoiding any red or orange in the flag is in the 6th paragraph of the miracles section, dealing with nirvana vs orgasm. That's why this book has purple font too, it helps us connect to the brain not penis, kindness not greed.

The animal of Eternia is Eterni, ☺☺ the alien (Et, extra terrestrial) animal who takes in invisible cosmic energy and *turns it into matter and lives without inflicting pain on other animals in the physical universe*. He's one of a kind, better than even a dove that may eat insects, cause pain. It's Eterni who is calling all nations to wake up from the slumber of Pain, Death, Torture worship.

The *quality* of Eternia could be *nonviolent nontorturing Healing* Gentleness. It sounds redundant, since healing gentleness is nonviolent, but many don't know that. Well, at least 4 words to highlight what is not yet clear to the 'human' brutes: that you can't have spirituality or ethics without nonviolence and nontorture. All talk of healing and gentleness, then next day, support wars and bombing to steal oil and gold. We need to stress what is truly important, a real healing, a real gentleness, one that is *nonviolent*, *nontorturing*. Since nationalists are still there and they want to keep their country, language, etc, a solution to end killing vibes (bears, big cats, etc national animals kill people and these symbols never educate and talk about nonviolent nontorturing and the qualities of an Immortal) is to create 200 immortalist cultures for the 200 nations, each with its national QUALITY on Wikipedia, just like 'national animal', national flag,

national flower. A quality could be longer, but at least contain the UN approved words: *nonviolent nontorturing at the beginning, so even the lowest IQ, most violent guy can get it. Minimum 4 words, but can be even 9: gentle tender soft nurturing loving honest compassionate healing kindness.* All anthems need be rewritten by UN agreement to cultivate *character traits* instead of calls to killing/ war and 0 IQ "nothing is nicer than our hills and plains, our country is so nice tra la la" 1st grade lyrics. We need to evolve past savage bipedal hyena brutes to *gentle tender soft nurturing loving kind* compassionate *grace for All*. US *nonviolent nontorturing* Soft Kindness, India *nonviolent nontorturing* Compassionate Inventiveness France *nonviolent nontorturing* Tender Hypothesis Thinking UK *nonviolent nontorturing* Healing Grace China *nonviolent nontorturing* Nurturing Happy Meditativeness (or Virtue, Confucius, Tao) Brazil … Honest Soothingness, Australia … Magnanimous Ingenuity. The "thuggish crappy" energy of Wikipedia is resplendently and splendidly eloquently evident, as it reflects perfectly our spiritually bankrupt cultures and what is important for 'national identity'. Full of lies, Wikipedia lacks a section for every city, state, on "National, state, city Spiritual or Ethical Trait, Quality, Philosophy". They got 9 sections for cities, *but the most important section is MISSING: the Ethics of Immortality for All.* Look at every city website, spiritually and ethically bankrupt: About us sections of websites, etc have 25-150 lines usually, but not even 2-3 lines in a short paragraph on "Our Immortalism Ethics is focusing on the qualities of 1. education on the universal human right to trillion year lifespans, 2. compassionate kind soft silent still witnessing meditativeness rooted in eternal blissful breathing and 3. smiley happiness.", no section on "Immortalism Ethics: Our company, city, state, nation focuses on the Gentle Grace of Healing Tone." We're training people to be brutes. Then, we wonder why we still have wars, jails, violence. When we never see Qualities anywhere, except killing/war/lust/crime news, with no news on how people were embodying some of the qualities, then the journalists are just destroying the planet like Hitler.

The 'Parliament and government' of Eternia building ought to be wholly different than any in the world. If you listen to the tone of speech and color in all world parliaments, you find a highly noneterni tone and also the same boring colors of red, green, grey, white, beige, perhaps some blue rarely (Germany). The spiritual ugliness within our cultures of eternal violent tones and aggression is perfectly reflected in the spiritual ugliness inside these buildings. Outside UV destroys colors easier (due to lack of clear materials that block all UV) and it's harder to make it colorful, but inside it's easy to make it nice. Why can't immortalists choose a parliament where the Flag of Eternia background lavender color, a very feminine color, is the most used color, with many hues of gold, silver, platinum, iridescent blue, purple, fuchsia, pink, lilac arranged in highly contrasting ways like some words in this book to stimulate intellect and make it more beautiful than Disneyland. The present parliaments look very lifeless and cult like in their similarity, as if all are in a planetary trance of "eternal war and red blood worship". We don't see the universal

gentle tender soft nurturing loving kindness Qualities, Immortality *for* All, Eternal Universal Peace and "May all Live a *Trillion* Years" written anywhere in the most colorful letters all would recall 1000 times easier. These words would replace pictures on coins or banknotes, if the Eternia currency (eterni or imortali) is not yet digital for a cashless society of 0 fraud. The qualities and goals of our civilization are 1 trillion times more important than a person. *Gone would be the days of the king's portrait appearing on coins like in the UK*.

The initial location of Eternia can be any soul who likes to live in this Ethereal Eternia place. So *versions of it may appear* in the new American capital, *on many continents* (Australia maybe too, see the relaxing landscape to escape to, the only continent that is one nation, watch how ideal Australia is for Eternia, 50 times fewer gun homicides than USA even if the Australians maintain US nuclear submarines, a land of tranquility to escape daily stress, oasis of serenity, watch, 60 times fewer tornadoes per square mile than USA, more leftist than fascist USA, etc, truly beautiful colorful Aussie videos: hills, hills2, hills3, river, creek, beach, tiny home for a family of 3 on 32 acres, rainforest, trees, arable land, river farm, roads, highest arable land/capita in the world), *states, cities, towns that span the globe*. USA can allow shallow water submerged Florida areas of the future, (due to sea level rise) to accommodate tethered islands that then expand and are able to cope with hurricanes due to advanced dome tech, one piece structures nothing can break. This learning then can be used to even establish the 51st state of USA, in between Hawaii and California and between Florida and Bermuda/Cuba made of many artificial islands, maybe 10000 per state, the Eternia state of 20000 islands that form a protective shield of the Western and Eastern Coasts. Hawaii has the highest life expectancy (CDC, page 3). Immortalists and dry eye sufferers love the moist climates of Hawaii and South Florida and the new Eternia state, the only 3 areas with one "season", because even temperatures without seasons increase longevity as the body is not subject to wild fluctuations which causes enormous biochemical waste, immunity adjusting due to temperature influence on trillions of chemical reactions and the 60-90°F temp is ideal for human existence, unlike Arctic areas where it is so cold all the time and no seasons. If you go to AccuWeather, type Pahoa and select Monthly tab, then January and July of a past year, you will see America's most constant weather pattern (65-70 lows at night year round, 80-86 highs daytime, more constant than even Fiji which gets to 90-95 in the summer), in total contrast to Miami or other Florida areas where temps go from 48 to 75 in the winter at night. In Central Florida weather gyrates from 30 one day at night (snow) to 62 another night. In Texas, temperature changes can be 50-100 degrees. California has nice weather near the coast in the South, but still winters are not the nice 60s of South Florida, reaching 35-50°F lows depending on the coast. Florida grows a lot of food, see list (blueberries, watermelon, you name it), like California. Its climate makes it easy to grow year round lots of things in the South. Outside climate is not that important today though, as most people live mostly indoors and *can*

set humidity and temperature to a given level (sadly, today, humidity is not an option for most places, as that requires dehumidifier or humidifier, depending on the climate), but today's housing industry is so primitive that it is impossible for 99% of Americans to reach constant temp in every room (each room its thermostat as with Nest set) and humidity indoors even, as we lack the centralized Immortality Building Inc… that brings ventless split AC for cooling and electric sealed heaters for heating to minimize dry eyes, lung damage from AC vents microbes, or from radiating heaters. These new island belts or states will also provide amazing weather, recreation and provide 1 out of 100 islands with missile interceptors to protect the mainland and Hawaii against hypersonic or ICBM attacks. California is sort of dry and cold, so dew point is lower, but one could use humidifier and heater to get closer to the less toxic natural warmth as opposed to the toxic electric/gas furnace warmth that produces many deadly chemicals. Hawaii Pacific areas towards California got nicer weather than most mainland, less energy needed to power the islands, plenty of sun for solar panels that make up every building exterior, window and even street, 100 times fewer hurricanes than Southern or Eastern USA coasts. Islands off Florida would also get very *nice*☺☺☺ *climate.* ☺☺☺☺☺☺☺

Florida and Hawaii get a lot of rain, which helps in case the wells are poisoned due to radioactive storm surge or nukes. In case of EMP caused all electronics failure in WW3, South Florida, Hawaii can make it, since they won't freeze, get cold or die of high heat as in the other states. Not everyone will have access to stuff to burn to warm themselves, like wood, etc. But people would use trees, fights over trees would ensue. Can you survive in your state if all transport ceases, no gasoline, no electricity, no water? How? Rain catching, filtration? Warm climate year round for 3 years? Florida central north inland areas have the least strong hurricanes, see Florida 100 year hurricane *map* with some areas having had only Cat 1-2 ones, in the area east of Gainsville Tampa north of Orlando, as the storm weaken and the paths avoid central-north inland Florida. Most people don't know the area there has the weakest hurricanes. The twister free areas are different, see Florida 80 year tornado map. The government claimed we would be prepared for this or that hurricane, yet damage was 50 billion. Today we're told we're EMP safe, etc, but can you grow water lentils (duckweed) (ω3:6 ratio 2:1) in any state? It's much easier in Florida, you can survive on those, grow them daily. Have some vitamins. Are you ready to continue civilization after 30 EMP blasts above USA that turn off TV-internet, all electrical devices, factories making them, cars, satellites for 5 years? Central grid can be taken out with 9000 hypersonic missile attacks, so without Safe low EMF, low GS Units Solar Inverter and Panels (See why solar tiles are bad except for ultra cold climates) and battery storage, you may freeze to death. EMP attack weapons can be improved to penetrate most defenses and bring a country into the 1st century in seconds. *On Sep 11 2001, 911 hit. God cared? Assuming "God protects you" is foolish.* Only the prepared survive. In war, the first places enemies attack are gasoline

storage areas, so gas cars are pure suicide. Buy EVs so you can charge them at home with your solar panels without the central grid. Live in less dense populated areas, since big fights, looting, chaos, shortages, theft of your garden veggies, rainwater catchment will occur in high crime dense areas of inner cities. The best areas are always away from any major metro area with more than 2-5 million people, especially high priority targets like Los Angeles (near 2 major ports, 30% of container imports, LAX, 10 million people), San Diego (military bases), Miami (military), NYC (stock exchange), etc. If self-sufficient, cold rainy mountain areas are fine if remote, as wood/heat supply is limitless. ☺☺☺☺☺☺☺

The Eternia state islands closer to Hawaii can be within 200 miles of economic zone where there is no vog (volcanic smog from the volcano carried by the trade winds moving vog to west usually, vog has particulate matter and SO_2, which can form sulfuric acid ($H_2O + SO_2 + ½ O_2 = H_2SO_4$), see video on how plants die to understand what happens to people there when they don't have activated charcoal filter inside homes and they leave window open during vog days or months (it can be 30 days in a row in bad years in some areas near volcano on Big Island, but even Oahu due to wind moving it all to Honolulu from Big Island), with the water on our eyes and other toxic compounds with the lipids of the lipid layer of our eyes and damage the moist lungs via sulfuric acid in our lungs, SO_2 in our blood destroying many blood chemicals). USA needs to mass produce some special house air purifier filters for Hawaii to install by law in every house, like we have smoke detectors. Especially in areas that get 20 times more vog than others, at first, to ensure decent air quality indoors for all, since not everyone remembers to close window right away and vog can be less visible sometimes and still do damage before it gets so bad that people see it and they finally close windows 100%. Perhaps, with better split ventless AC systems becoming standard and a better circulation or air purified system able to cope with high levels of vog chemicals uncommon in the rest of the world. People live in a fantasy land imagining Hawaii is paradise, they think Oahu being far gets no vog, but sometimes, it gets 40 consecutive days of it, and you happen to not visit its beaches then. Take a look at Kona, the most popular tourist spot on Big Island with endless hotels: no sun, no blue sky, nothing, just LA metro in 1955 like smog. Ironically, a few areas closer to the volcano get less vog, as wind blows away from them 90% of the time as you can read in SO_2 levels on city-data.com. That's why Puna houses near volcano are cheap: the vog causes dry eyes, asthma, brain damage, heart disease, damage to all organs if you breathe it. Buy a SO2 meter to see levels inside after using air filter.

To prolong life☺☺☺, immortalists need to pay attention to natural *disasters*, even cosmic events such as solar storms that can take down computers and satellites naturally and send us into the 15th century for 9 months until we recover, so if you want to move into a town and build a tiny oasis of Eternia there in your own house, search youtube for "driving on the streets of Town in winter or during floods" to get a feel of the dangers (or watch examples below that

apply to cold or rainy climates). Until the Age of Immortalism when all tornadoes and hurricanes vanish from the Earth forever thanks to neat lasers from airplanes preventing their formation, we need to know a few basic things. South Florida homes at low altitudes of 3-18 ft flooded 4 times in a row inside house, yearly hurricane floods in some towns. Please *tenderly gently kindly* ☺☺ check the topographic maps, to make sure it's 20-40 ft above sea level in case of coastal underwater nukes that cause 30-200 ft tsunami that reaches inland up to 5 miles. Naples FL is 3-20 ft, while Lakeland FL 120 ft. However, even in high altitude 100+ ft cities, poor city planning causes water to flood many houses, so do a lot of research to realize how water will flow when flash flood happens due to 5" of rain in 4 hours, to avoid renting or buying anything in a valley where water would pool or a house that is not raised as per Florida, etc state suggestions to prevent floods. This advice holds true for cities of all altitudes, since even at 3500 ft the same would happen if water pools around your house, causing floods or landslides. Live in the higher altitude areas of town. A well was drilled, caused a huge sinkhole that in other cases swallowed entire houses. Drill without a care? Without centralization of building and well drilling procedures, we have 1 million well drilling companies not knowing what they're doing. Windows computer OS used 1 million programmers, imagine if we had 1 million OS companies, each with 1 programmer, that is the quality of our FLOOD DAMAGE PREVENTION in USA due to decentralization of house, office building; people need to sleep in cars when roads get blocked, so EVs need high ground clearance. Immortalists can't fix every aristocratic government system mistake of 250 years that has built up, instantly, especially, when we have no power as the Immortalist Party, and everything is the fake elections system. Poor people don't have time or money to fix flood damage, so they need info to prevent catastrophe. ☺☺☺☺☺☺☺

Avoid living near military bases, as those can be nuked in case of war. Stay 60-130 miles away if possible, google where each state has the largest bases, some are gigantic, live far away from major ports too, as those can be nuked or bombed. Internet articles are often written by people who never checked a topographic map of the planet and zoomed in on their country, city, street, they recycle old 1990s web data saying "all South Florida is 6 ft on average" or etc, when it's much higher than 6 ft. Visit a city before moving there permanently and choose the higher altitudes in a city and ideally raised houses that never flood vs the neighbors, Ian surge was 14 ft in Fort Myers (altitude 10-27 ft only, watch 1 min of flood at 10 ft there). See how much safer 15-37 ft altitude (2 miles from Fort Myers) inland was during Ian vs 8 ft altitude near the beach flood due to 15 ft storm surge. See how much safer was above the street, 3 ft above, raised no flood at all during Irma need canned food, bottled water. San Diego, 62 ft elevation, also saw some big floods, see 2 min video, for the first time in decades. Now is the time to build higher than street level and get a higher ground clearance car, like some 15" Rivian EV, 10" Audi Q8 Prestige or something to be able to move car during rain to higher ground or escape torrential

rains before the street becomes 5 ft of water in 2 hours, it's a split second decision to go to higher hills in the area where your car won't die and be taken by the rising waters. Know the higher altitude areas of your neighborhood to move there if you rent, to save your car from being wiped out, a flooded car can catch fire later suddenly. You could die too if living on the first floor of a house with no 2nd floor, so you need to be prepared, flash floods now can happen in city areas that never had them for 300 years. Climate change is here, 1000 year San Diego 6 ft high water flash flood. People forget that when wind blows and walls are flat and vertical (as in box houses everyone has in the path of hurricanes due to decentralized policies of 1 million contractors who don't know what they're doing), *the window, walls, etc are 300 times more likely to break* (watch 3 ft altitude houses on the beach, built by mindless contractors in a Republican State of Aristocratic disregard for human life) *as wind can't escape as it can around a spherical dome*; thus many structures break due to the lack of a dome shape. Avoid flood prone areas in all states or even mountains, if they're in a valley vs the rest. Even 112' (34m) altitude Orlovista in Orlando, got 5 ft of water. A street where a creek was, caused ultra frequent floods. See 5 FL tornadoes: Miami, Sandestin, Ft Lauderdale, Fort Myers, Collier County. Cold air fronts from the typical 5 mega winter storms in the Northeast USA go down to North and Central Florida and cause tornadoes due to meeting warm air, as this FL state tweet explains, causing the governor to declare on Jan 9th 2024 state of emergency due to many damaged houses (at least 4 tornadoes hit the same area hit by hurricane Michael in 2018, causing similar damage, so don't move to Northeast or Central Florida as they got way more tornadoes, and far more devastating (up to 235 miles and 4 hours killing 695 people in 1925, instead of 3 miles and 4 minutes in South Florida) in Northeast Florida (called Panhandle). Avoid tornado areas (most Midwest, eastern 70% of Texas (west TX Menard county 1 tornado/25 yrs), entire Kansas, Oklahoma, Alabama, Mississippi) unless you build dome on a 5 ft raised (a ramp, gradual rise to prevent wind pressure building) foundation *(dome 8 ft above street level to allow for water to pool there, not in your dome)* with a concrete dome to withstand 220 mph winds and never drive during rain/overcast sky when tornadoes can form (got to watch weather news daily, big stress, to avoid sudden car collisions). Kindly☺☺☺ read on EV rain safety to prevent death.

Just as the tornadoes moved these RVs and obliterated the RV park, *your* car driving on a street, can be pushed by the tornado into the other lane like this car flying in SC tornado, or semi overturned in Miami area, an 18 wheeler on the freeway, or another car turning in front of a car… in Florida, see it on the news too. Big tornadoes can make cars fly 100 meters in the air. *NEVER* DRIVE IN A STORM OR HEAVY RAIN in tornado prone states, because that is when *tornadoes* form, they can *kill* you; gently recall golf sized hail can hit your head; seeing the tennis ball size hail is believing, watch car being hail hit, if you venture outside, huge hail like this can pass thru windshield and other windows, like here and cause an accident via distraction or

impact. Hail is very common, check out a few seconds here… and people getting injuries, a normal rain turns suddenly into golf sized hail, with no notice, so avoid driving during heavy rains. See a truck turned imagine how risky it is to live and drive on a street in a state where tornadoes and 120 mph hurricanes are common, you could die any day (a tree branch like this one could hit you while driving), with no notice due to having no Immortality Traffic System to instantly alert nearby residents of a tornado caught by monitoring drones. Now you may agree why you need concrete domes in 30 states at least in tornado rich areas, see advantages. There is no notice, your house could be shred and thrown into pieces on a 1 minute notice and everyone inside dead. Are you prepared to prevent that with a dome, or hope "God will protect you when home crushes on you like this guy"? On Jan 16th 2022, 6 tornadoes hit Florida and destroyed 158 homes, and endless mobile or even 'normal' homes are destroyed when it comes, due to a government that prioritizes paper houses, instead of domes. If we want everyone to live to 500, if we want Immortality *for* All,☺☺☺ we need decent shelter. One county in Colorado had 51 tornadoes in 5 years, see national county chart. We need to vote the Republicans out and bring true immortalist reforms. People waste 400K on houses that would be destroyed by a tornado, when for only 200K they could build a dome that never suffers any damage. All due to a government that doesn't inform the people that with centralization, we could make domes as cheap as mobile homes that never break. The Immortality Building Inc can mass produce 250 million of them if everyone wants one in states with tornadoes, strong winds, storms, flying debris, hurricanes, etc, made of stuff stronger than steel, lighter than bricks or concrete, with one piece whose legs go deep underground, so no 250 mph end of the world Cat 6 hurricane can move it, no earthquake can make the slightest crack. It's big business to rebuild using slave labor that will die of exhaustion at 70, big profits for aristocrats who live in thick brick buildings with basements etc and live to 90-99. We hear all stuff about "house collapsed we need workers to build trash". If you had centralization and build houses right, you need 1000 times less "recovery rebuilding". Let's have high tech, aircraft, vanish hurricane formations before they become a hurricane, etc. We need high tech imports, not just same old tech.

Windows can be made of some laminated futuristic plastic 'glass' (plexiglass or new materials invented, besides the more metallized windshield like glass, also called *hurricane windows or laminated glass windows*, that would not shatter and cause eye injuries or diminish wind destruction inside the house in case they do break in the center of a hurricane at 230 mph) that won't shatter or even crack at all under 230 mph winds and injure residents, and be more convex, *a perfect part of the dome half sphere (not lower or higher, 100% flush against the sphere shape),* not like a flat thing that is a few inches under the top of the dome, which causes pressure buildup and destruction of window and dome interior. They don't use those as often as needed (only 100 times less), since they 'are' *more* expensive *than* non-aristocrat human life,

but *50 types of useless businesses* created to vampirize the slaves waste 50 million times *more materials than needed for that*. You would think the endless MIT majors in architecture would have more brains than the way they build houses and domes today. This is 3rd grade physics. If hail hits windows, in an area often, they need stronger build too. At MIT, *students die in alcohol rituals, designing wind proof houses to prevent 200000 homeless during Andrew hurricane is not important*, but hazing rituals in fraternities are important in the depraved decentralized education system. This is thanks to a *decentralized inefficient education system from hell*, that breeds chaos, deaths during hurricanes and crime. Wait, every aristocratic Emperor Contractor, 1 million of them, needs to have HIS OWN architect, since we need 70 million types of useless plans, instead of 5000 really high quality ones for every microclimate. With everyone *majoring in geometry of chimp huts*, to increase aristocratic PROFITS, business majors, accounting/admin, HR majors (for 33 million companies) there is no major in materials science, physics, chemistry, longevity sciences and 'aerodynamic', tornado, wind, hurricane proof houses, windows, roofs, houses that never break even in 220 mph winds. We need a truly pro-life Party, like the Immortalist Party, not one who picks and chooses when to be pro-life, who will protect kids, adults too, not just fetuses from needless abortions born of lack of knowledge about the bliss of happy breathing and universal kindness that can be 1000 times happier than sex. With efficient centralization, destroyed houses from hurricane/tornado would be 500 times fewer. While many builders use brick and tile floors in the entire house to prevent rotting wood and drywall, with a dome structure you prevent window roof wall breaking (look at these wood based box type flimsy houses, easy targets for hurricanes) and can insulate even better than a brick house to keep it cool in the summer. There is so much waste of materials that could have made many houses domes that didn't break at all. In 25 states, many tornadoes or hurricanes exist, so it's odd how people choose box type of ultra weak and flimsy house, with the tacit approval of a government of Aristocrats for Aristocrats. Try choose a house 10 ft above largest storm surge in an area, due to rock fill or natural elevation, and click on the Climate Risk tab on Redfin.com listing to see if it says "Unlikely to flood next 30 years". If you want to check street view to see if house is raised vs street in case of flooding, redfin street view link may not work due to a redfin bug in rare cases, so in that rare case, highlight the address, right click "search google for… the address" and it will have the street view. zillow.com and others also can have some satellite view too, which is easier to get via clicking on the google map you get when googling any address, click on layers to see trees etc. ☺☺☺ When you look up a house on redfin, there is a small rectangle with a map and that's where you can click Satellite to see the actual area from above. Then, you click only once on any house and it shows you that house, and if you click again on that popup window with the house image, it moves into street view and you can see all the houses on that street and drive by mouse thru town, even the White House or any street, business in any town worldwide. Check out Ian at 12 ft Cape Coral flood… or Englewood 10 ft

elevation (3m) near the beach 140 mph winds… or Lehigh Acres flood at 10-37 ft (most flooding happens in any city in the lower lying areas like this one) elevation. Check out Placida at 3 ft in Florida, during Ian, showing the need for concrete domes, not paper houses. Always check topographic map of a town (see how high, 42 ft, some Miami areas are, way above 6 ft) to see which areas of a town are higher, if you build a flimsy house in a flood prone zone, though concrete domes are 100x more hurricane proof, more energy efficient, cheaper to build. Google concrete dome companies and see which one is ideal for your climate, precipitation levels, etc.

Google it to see 100s of car crashes due to ice sliding in case you love "snow states", or due to not wearing snow chains. Youtube allows you to get 1 million more info via real life video about any location, without going there, saving you $. Before youtube, we had a few general books or sites and pics, nothing else. It prevents disappointment as people find out after moving somewhere just how annoying it is, having believed some funny article about "paradise" or "clean air". Ctrl+F "AQI" to see air quality for any US city on city-data.com. Ctrl+F "crime" to see. Try neighborhoodscout.com/fl/miami/crime, after .com type /state/city/crime to get violent crime (the most important one), for all tiny cities city-data doesn't list, or for CDPs, census designated places within a bigger 'town'. Click on any neighboring area, and it will give you the data for each and the price of houses in that subdivision you click on within the new city, to see if you can afford it, then google "new town FL climate" to see if you like it. In the future housing.gov site of the Immortality for All Era, when the mafioso can't flip houses or own 2 houses before all Americans own a home, when we search for a house, we can use 900 criteria, not 50 max as today. City-data.com is even more useful as it gives you city level of specific types of crime, versus national average, so you can see what type of violent crime is the most common in a city, which most sites don't show: simply click on a crime on the main page of a city and the graph will show it: Washington DC for example shows murder rate is 5 times the US average and 400 times the Singapore rate, so go shopping only in safe areas of town or in Alexandria, McLean, Silver Spring (the only safe towns right next to DC). Wear long sleeves, socks and long pants in DC any time you get out for more than 10 seconds, as mosquitos will bite you within 1 minute, especially at night. To avoid carjacking (theft of car while owner is in or around the car), which happens usually at stop signs while car is idle or in parking lots, drive during the day only for shopping or etc, never after sunset. Tint all windows heavily, where legal, since the gangsters can't know if they can overcome all resistance to a car theft if there are 4 huge guys there in the car back seats. Tinting prevents regular thefts when owner is not present, regular car break-ins, and tinted windows don't shatter, they stick together when a carjacking gangster smashes the window while you're stopped at an intersection, making it harder for him to take control of the steering wheel, to punch you, etc. Always drive with closed tinted windows, so they can't threaten you or ask you to get out of car, etc, pretend you don't see/hear them and choose

intersections with no lights, just a stop where you can speed if anything happens. They don't bother attacking fully tinted cars.☺☺☺ Using the Firefox browser and zoom 120% (Chrome doesn't work for this, it will be difficult to get the map of DC (that is shown in the center) on the whole page like Firefox can show that central graph on the whole page), go to crimecards.dc.gov and click on the violent crime with a gun, to select which violent crimes and general violent crime to see very detailed reports of how many crimes last month (updated daily), to determine where you want to live, noting that CIA, FBI, etc can send cop cars to some areas to change crime patterns, dead end or cul-de-sac areas near highways being safer as you don't travel thru traffic lights much and go shop in safe areas. Many rectangles have (if no rectangle exists, it means 0) 1 violent crime (Foxhall Village) last 8 years, a Bloomingdale rectangle got 291, so some streets are 291 times more violent than others, while others are 955 times more violent, since many on the 8 year map have 0 crimes, meaning no color, having had a crime only 19 years ago. Of course, the real crime rates are millions of times higher, because these are reported crimes only, so if spies, soldiers, cops are tasked by aristocratic terrorists (in charge of this nation for 500 years) with assaulting some folks daily for 10 years, 50 times daily, that becomes 500 times 365, or 182500 violent crimes from the CIA torture of one resident alone, so as you imagine, this count is WAY higher than the entire DC count on crimecards. The wolves guard the chicken cottage, so they report only stuff they don't do, because the crimes the government does are way higher than what the entire USA does. *Ordinary folks have no idea what goes on, how* criminal and violent *our government is*. This ought to surprise nobody given that these frauds swear on the evil Bible itself, a manual in how to beat slaves, enslave nations and exterminate nations. This phony oath is to deceive the masses of filif ☺puppy IQ workers☺ believing in the aristocrat made up Bible. Only thru violence can this system of terror and massive theft from the masses be maintained, hence they will torture to death, anyone who is viewed as a threat to their reign of terror and theft, like Brits did and the Catholic Inquisition thieves. The American revolution was a fraud by aristocratic terrorists. We're as free as caged dogs are. These maps refer only to touch based crimes, not to the invisible weapons torture crimes spy agencies, militaries do by the trillions in many nations, plus mind control crimes to suggest into the victims' brains to do all kinds of violent crimes (besides music to create gangs and violent crimes, in line with the Jewish US government goals of maximum chaos for maximum extermination). In 2023 Washington DC gun deaths were 28 in 100000, 560 times higher than Singapore 0.05, showing the difference between evilbible.com scripture and Tao Te Ching. We need less violent folks in DC, so come in, bring immortalism here. We need militant immortalists, dedicated to immortalist tone music, the 11 companies for world liberation, who want to pay locals extra money to buy their house (to give them an incentive to move elsewhere, like Florida with low house rices where a new house is 230K in Ocala area, so we lower DC violent crime rate 1 million fold) and live here, to change the vibe of the White House,

Congress, etc, the surrounding area and the entire world. ☺☺☺☺☺☺☺

Washington and South East Maryland are humid, so folks with dry eyes will love DC versus most Northeast USA or Midwest. Like any dense city, due to ultra low IQ aristocrats prioritizing wars, instead of quiet airplanes, quiet tires that make no noise and quiet electric cars, DC can be loud due to airplanes, traffic, etc, so you can use cheap soundproofing methods or more expensive panels. When sound hits objects or soundproofing panels, the absorption can cause heat, so sound panels can provide free heating of your room by blocking cold air and warming room walls. This only works for the best panels and for high levels of sound. Likewise, medical clinics use ultrasound to warm human tissue or even boil water. You can also google "crime city data cityname" to get the detailed crime report. You can go to maps.com/...diversity-of-cities to find exactly which areas have what dominant races, in case you don't want to be attacked for being different and 'not belonging to their gang territory'. Some violent crimes are fueled by racial hate, even if not labeled thus in the records. You would be surprised to see the level of hate humans demonstrate in their spy agency/military etc jobs of torturing those of different races that their superior (boss) assigns them to destroy or torture: these crocodiles smile and pose as friendly folks, while behind the back, they're killing you. They learned it from the masters of deception/genocide, the imperial (not all) Italians, the imperial Britons, Portuguese, Arabs blowing colonized folks by artillery guns to scare all who resist British, Arab, Portuguese thefts.

In this age of ☺abysmal IQ☺, until violent crime eliminated via the state of national emergency in immortalist states, the easy way to diminish chances of violence against your family is to live in a community of low crime and one that also is majority your race. Florida cities violent crime in 2026 (in increasing order of crime, the rise refers to 2024, before the deportation of the gangsters by the millions): 0.15 Parkland, 0.22 before attempts to kill Trump raised it 8 fold to 1.69 as all thieves heard rich people live there and they can rob tourists: Palm Beach (5.7 million priciest area, where Trump mansion is), 0.36 St Johns (Jacksonville suburb invaded by its gangs, military sites, nuke target in WW3, like Miami metro, doubled due to Biden illegals looking for new looting areas), 0.37 Weston (east of Ft. Lauderdale), 0.44 Punta Gorda, 0.45 Port Orange (90% Fl price), 0.53 The Villages (79K people, avg age 74, houses cheap, see census data vs others, crime was 0.27, double now due to illegals joblessness driving robberies up), 0.61 Odessa (Tampa metro, rose 20% recently, Tampa criminal aliens looking for new rob targets), 1.4 Estero (crime rose 2.2x due to Biden, as nearby Fort Meyers had construction boom for illegals, Meyers in top 2 fastest growing cities in Florida, 1.2 million houses in priciest area, illegals scouting for new robberies, since Estero avg age is 66, easy to rob seniors), 0.66 Interlachen, 0.70 Lady Lake, Cooper City, 0.73 Alva (doubled since 2024, since avg age 53, easy to rob), Palm Beach Gardens, 0.77 Cape Coral (817K priciest area in 2024, to see basic data from census, you can search census.gov; the 370K Sanctuary Estates Drive light blue (crime maybe 0.20) subdivision has

violent crime 100 times lower than in other 370k home areas in USA for example, things you can't find via other sites, Cape Coral is the only mid size (>90000) Florida city with low crime and low housing price, choose more inland areas for any beach city to avoid flood, redfin.com flood factor 1/10 not higher, redfin risk is minimal next 30 years under climate section), 0.78 Davenport (3000 people, 90% Fl house), 0.80 Pembroke Pines & Dunedin, 0.83 Palm Harbor (avg age 51, easy to rob by illegals, cheap houses, safer than 90% of US cities, near Tampa, rose 3.2 fold from 0.26 before Biden brought in millions of "peaceful" illegals), 0.85-7 Port St. Lucie, Wesley Chapel (Tampa metro) & Loxahatchee, 0.94 Juniper, 0.95 North Port, 0.98 Navarre & Sweetwater (next to Miami FIU, crime doubled almost recently, as illegals fled rural areas and went to metro areas where they got many Home Depots parking lots to look for a job, instead of only 1 or to retirement areas to rob old people easier), 1.0 Coral Gables (2.7 million houses in one section that got the most expensive zip code in USA at 17 million, coast of Miami, tourists, so illegals visit to rob), Coconut Creek, Parrish (rose 43% recently), Oviedo, 1.1 Naples (some safe area has houses 9.9 million, other areas 300K, you can see it on the map, but many safe areas are much cheaper, 500K, as map shows), 1.2 Riverview (low house price, Tampa metro area), Groveland, Margate, Doral, Palm Coast, Winter Springs 1.3 Polk City (3000 people, price 70% Florida avg, high construction boom by illegals, so crime doubled in 2 years), Haines (73% Fl avg), Coral Springs (2x fold rise), Sunrise & Wellington, 1.4 Hialeah, Cutler Bay, Port Charlotte (high flood risk), Tamarac, 1.5 Bonita Springs, Aventura, Miramar, Zephyrhills (houses are half Florida average) 1.6& 1.7 Boca Raton, Merrit Island, Clermont, Homosassa, 1.8 Brandon, St Cloud, Ormond Beach, 1.9 Davie, Ocoee, 2.0 Plantation, 2.2 Deerfield Beach, Spring Hill, Winter Garden, 2.3 Hollywood & Lakeland, 2.9 N Fort Myers (rose 10% via construction boom), 3.0 Okeechobee (61% of Fl price, crime rose 3x recently, cheap place for gangs), 3.1 Lehigh Acres, 3.2 Stuart (doubled due to retirees, easy to rob), 3.3 Fort Myers, 3.5 Palm Bay (doubled), 4.5 Miami (rose 26%, as illegals moved in to rob tourists and get Home Depot jobs, as jobs dried in suburbs & rural areas), 4.2 Fort Lauderdale, 4.7 Kissimmee (rose 15%, hotels cheaper than Orlando Walt Disney, so tourists easy to rob, as criminals can rent), 6.0 Jacksonville, 7.3 Gainsville (49% increase in 2 years, as this is the only metro areas with Home Depots and some tourists in the greater area, so all suburb/rural gangs moved in as mafia collapsed due to deportations, fewer jobs, so 'despair' drives up robberies), 8.2 Orlando, 9.3 Riviera Beach, 10.7 Miami-Beach vs 5.2 Chicago, 25.2 Memphis, 7.2 Los Angeles, 7.7 New York, 6.5 Atlanta, 19.0 Oakland, 7.4 Fresno, 4.2 San Diego, 13.6 St. Louis. If you edit the html address or click related reports to select different groups, for a given ethnicity, race and state symbol, you get which cities have the most people of a certain ancestry or country, though the data may be off by 2-3 times, still useful as it shows which cities have people. Zipatlas.com lists the ranking of the city. You can even find cities, zip codes with 60% immigrants from France, or get ranking of immigrants by state, or which states have most Irish ancestry (9.5% of USA in 2024) or German (12.6%), English (8.6% of USA),

Mexican (11.2%), African (12.5%), Italian (4.9%), Polish (2.6%), French (2.1%), Asian (5.8%), Jewish (2%), Russian (0.7%). Census.gov has a 2020 report on the main ancestries. The site excludes Jewish category (see location here) and has the numbers way off for many groups, but it gives a good ranking of cities, even if numbers are off. If you want to learn a language, go to a city with tons of those guys. Nuclear attack on Miami would blow wind towards all nearby cities on the eastern or western south Florida coast up to Cape Coral. ☺☺☺

Before buying any condo/house/land widen the search: remax.com lists 5% of MLS (units they're contracted to sell), redfin.com lists 75% of MLS, zillow 90% of MLS vs 99% for realtor.com, so definitely use realtor.com to see all MLS before you get a realtor and you're just browsing thru 100s of counties or states to find a town with lowest crime and cheapest houses. Redfin and zillow advertise their services and are brokerages, not universal MLS listing services. MLS homes are often hidden by other networks (internal clients first have access to see if they can sell it before redfin etc competitors can) in order to get the full commission themselves, so these 25% of homes are not listed by redfin. Shadier sellers may not appear on redfin and zillow, as they try to create artificial scarcity or "select estate vibe" to dupe buyers by checking off sharing on all sites. Also, try these: 0. use Google or other AI to analyze each PDF along the way, before you even sign buyer rep, by analyzing a 300 page CC&R (ask for CC&R before ever signing any buyer rep or purchase contract, before buying any land, or house in a HOA, avoid all HOAs. The CC&R can be analyzed in 3 seconds by google AI and tell you if they can sue you for anything, for any injury of strangers or fellow HOA using the easement trails on your property with you being liable for it at times (aristocrat makes money, you aid them, this enables Jews to get rich by staged injuries, you signed eternal slavery away) and you're foolish enough to use the listing agent who will side with the seller and hide all the bad info, or force HOA 100K road building settlement that none can afford. Landowners turn a huge land ranch of 1000 acres into a commercial subdivision, to avoid taxes the masses pay, that is for all purposes still their ranch where their animals can graze and do their thing due to acres of easements of trails that give them a 1000 acre area to spy on using remotely controlled animals, recruit spies to mind control, like they say 5 acres in the ad, but 1 acre is easement you can't use to build anything, no fence allowed, so all can spy on you, attack you with microwave weapons or etc. Aristocrats waste US human resources by duplicating and creating 4 million HOAs and CC&Rs, instead of taking care of the first priority: zero violent crime via equal pay, which removes the need for fences as all crime ends. We have no science in US due to these "cabbage IQ" rats.☺☺☺ A purchase contract for any land to build domes on benefits from 4 contingencies (use google search "explain these 4 to me: 1. The Feasibility & Infrastructure Contingency (45 Days) 2. Full CC&R, HOA Disclosure, and Budget Review Contingency (14 days) if you have no choice but to join HOA, due to ntohing else available 3. Clear Title and Boundary Staking Contingency 4. Environmental, Endangered

Species Contingency). Tell your agent you want "fee-simple land that has zero CC&Rs, no HOA association, and no public or private trail easements running through the property, as these "developer subdivisions charge double the price per acre just for some trails and terrorism via HOA (aristocrats deceiving the masses)". Google CC&R mailing address, and if first and last name are Jewish Ashkenazi, Sephardi etc names, and then search google for that name to locate Jewish community and check if listing agents are Jews (evident at times from last and first names, town they're in, values and way of speech of realtors they select (Jewish), they tend to lie to gentiles, part of their religion, avoid all HOA, of any type, America needs one HOA, the America universal city, one HOA for all 350 million, death penalty for any violent crime, so safe, nobody dares do a thing, no fence/HOA needed. 1. crimegrade.org murder rate map and total murder map (scroll down, total map is more useful in dense areas like cities with condos instead of houses, like Washington DC) 2. crimegrade assault rate map and total assault map (scroll down, total will be very red in general) 3. crimegrade violent crime rate map and total violent crime map 4. crimegrade kidnap rate and total kidnap map 5. neighborhoodscout.com total crime maps and crimegrade overall crime maps, property crime maps 6. city-data.com allows you to select 100 parameters to show you map with income, air quality, % of different races (which areas have the most whites, blacks, etc), crime (but their crime maps are lousy, show one color for whole city), 7. racial map (to reduce hate crimes). Scroll to the 2nd map that says interactive, click on it, click on search icon, then enter address from redfin 8. bestneighborhood.org has extra info when the above don't provide info on an unincorporated community. The most amazing & beautiful ☺☺☺ thing is with redfin address, you go to maps (scroll down, then maximize the view to the whole page) on redfin or etc to see the streets by zooming in and out and you see *the exact location between major* streets of a house, and then you go to see that exact area with street names by zooming the crimegrade.org map for the city: google "murder map cityname crimegrade" to get crimegrade.org/murder-city-name.

5.3.5. THE NEW USA CAPITAL: ☺☺☺ ETERNI, THE FORBIDDEN CITY ☺☺☺

Before we talk about the movement of the US capital to another location, let's just introduce our beloved readers to the reality of USA feudal state of eternal *slavery*. Reality is always infinitely more scientifically and 'politically' complex than it seems at a first glance, as the spies section explains, so what may seem like a right wing President, could be a covert leftist, for example, TrumpRx.gov allows the workers to bypass the parasitic aristocratic class of intermediate sellers and buy medicines directly from manufacturers, no more insurance companies, etc. So while low taxes favor rich men (spies using the cover of billionaire at times?), many (how many?) rich folks can be leftists who promote (using this extra wealth) the Eternal Immortalist Anthem World Village of Immortals, Villa Age of Single Family Homes (villa) for All, humans as one nation with 11 companies (not 1 billion today) some far away day. Whether this

is genuine or theatrics (to win popular support) it's not always clear, but sometimes it's obvious if you look for hidden trends. The crocodile infernal aristocrats live in palaces on 1-100 acres far away from the ghetto looking downtowns and working class cities, in select cities that look 100 times better than the dumpster of Washington DC (400 times the homicide rate of Singapore, even if 2 times more land/capita), which symbolizes the US aristocrats' utter disdain for all 200 enslaved nations who have their embassy in the crime capital of the USA, the "state" with the highest homicide in USA: in BLOODSHED THEY TRUST: THE God of Eternal Genocide, Mass Rape and Theft, as evident on their Swearing on the Evil Demonic Book each time they win the Faked Elections. Regardless of whether Obama or Trump is the President, "Left or Right" (both far right), the slaves only see one thing on TV: workers beating workers, workers smashing workers property, never an attack or even protest near the palaces of the elites. The diabolical deception can't be greater, since all protests are incited by the aristocrat run police state to create the illusion of freedom to protest (meaning to be beaten by opposing camp of naive fools). Orwell 1984, pure terror disguised as democracy, same scam in every nation almost, which are 'more like' illegitimate fiefdoms run by corrupt governments. Everything is staged, all we see is Court Proceedings, Crimes, War, violence to keep the masses in a hypnotic trance of "thank God I wasn't attacked/jailed/bombed today", fear, so trillions are stolen yearly, while the slaves are chained forever. The aristocratic cities or neighborhoods also feel 100 times nicer, not just look, since most are in the nicest weather in USA year round, and thus the Arrest-ocrats (aristocrats) never bother, as true selfish atheists who don't give a dime about the future reincarnation or heavenly journey of their evil soul or anyone else for that matter, since souls don't exist for them, except when the rich try to steal trillions by pretending to have a made up religion to amass naive followers to con, cheat and enslave (while the pastor becomes billionaire). Thus, the rich don't ever talk about any science to make World Peace in 3 months, thus a possible planetary shield so call enjoy 75° weather year round like them without droughts, hurricanes and tornadoes, storms, floods and houses that flatten at the slightest storm is the lowest priority. Why? Because the Rich got nice weather, the rest can live as rats, so who cares about the rest? They don't care about the slaves, so in the "democracy" Scam we never hear about in the so called "Equality Platform of the Aristocratic Run Duo political party system of clowns and frauds". Don't worry, the same happens in almost every other nation, the elites live in palaces, the slaves as rats. Everyone copies the US system of Eternal Slavery. Or we adopted it from the former 900,000 other empires, kingdoms. ☺☺☺☺☺☺☺

This concentration camp, Washington DC, looks/feels like Auschwitz, especially in winter, no trees, all snow 3 feet piled on the roadside full of filth as opposed to ever green So Cali, Hawaii, So Florida, so desolate and only 27% are single family homes (vs 100% in aristocrat cities and 70% in 99+% of USA cities), renters (60+%) live in tall buildings 3-20 floors, that look like city jails

from a horror movie, you can see some on the highway even, they sit right next to the highway, and extend into the Pentagon City area 1 mile from DC, Arlington, etc. We might as well call DC the JC, Jail City.☺☺☺ Same thing like in much of Europe, China, etc, Villas for the Imperial Elites, the rest live in cages. The capital of USA needs to have the lowest crime rate in the world, zero, not the aristocratic cities that really are the covert capital of the USA. The diabolical cannibal rich lie to us for centuries that "we have limited resources" (more on that lie exposed in the single family homes section), same lie always, they make endless companies to research war and political power building or maintenance enterprises, but nothing about new materials, 95% majors STEM (not 30% as in "fruit fly IQ" aristocrat☺☺☺ run USA), free education for all, via online centralization, so we have 400 new materials to build homes 40 times lighter and 40 times stronger, via new materials stronger than steel but lighter than steel, one piece for the whole house shell (like a dome if you want best anti-tornado for window areas with "metal like shutters" of the new material), with this one piece having 4-8 pillars going 10 feet under and ending with a plate holding 40 tons of earth that no tornado can dislodge ever, etc. It's all there possible. When masticating cannibals in love with eating blood daily are in power, drunk rapists (electronic rape, see details), swearing on Mass Rape & Beat Slaves with Electronic Direct Energy, Microwave, etc Weapons to Death (as long as not dead today, Exodus 21:20-1, can die in 3-40 months of 'unknown cause') Quotes of Eternal Genocide against Billions, nothing is possible: only buffoons and the like. Even Trump realized how incredibly ugly and ghetto like Washington DC is compared to other areas of USA and tried to beautify the ugly White House.

When glutton aristocrats are in power, we have the same food of pigs for 5 millennia, no eterni powders or real chemical industry, same essential building materials of greedy cannibals (wood, stone, metal and crushed stone or dry wall), lusting for more bloodshed in wars of conquest: they financed Nazis and started WW2 to kill 80 million, they killed 0.5 million US soldier slaves in WW2 to create Israel in 1948, etc. All we learn in history classes are lies: all wars are planned by the rich and powerful, the unkind/mean, who don't give a dime about the best quotes of the scriptures synthesized in the first 2 pages of the Immortalist Anthem☺☺☺. No blame for US pigs only, as the other evil empires of 1935 were fully on the game of murder at planetary scale. The DC-Arlington etc area is the shame of USA, the legacy of millennia of empires and aristocratic clans waging eternal wars on the enslaved masses, toiling to death to increase profits, so new wars of conquest can be started with mercenaries to expand the wealth of each "warlord". How come no "so called ethical" celebrity, Zuckerberg 2300 acres estate in Hawaii (besides the many mansions in Palo Alto, Washington DC, Lake Tahoe, etc), Oprah 2130 acres, Prince Harry (see house), wants to share in the holy presence of Washington Memorial and White House, Capitol that pass laws to favor the 8 million palaces, and borrow a condo to live in winter here to be in the Holy Presence of the White House, in a 25 floor tall building, 300 sq ft studio perhaps? Hard

to see ethical celebrities on TV (except peaceful music composers like Steven Halpern etc who deserves Nobel Peace Prize), making millions while producing what type of content, the one that perpetuates the eternal violence, let alone the tone. No, the rich live in So California, So Florida, Hawaii or huge estates in other states, where to keep humidity/temp nice/constant costs a yearly average salary a month. The frigid weather, the potholes everywhere, each aristocratic gang company making manholes everywhere as we don't have one Eternal Utility Inc as the People's 11 companies system to avoid destroying all brains (the more you shake it with potholes, the more damage) by 50 times more manholes than needed, unkept roads, everything like a "shithole country" Trump talks about in his rallies (yes, we have become a third world nation in some way, as migrants just love acting busy too, as they're not allowed to do anything, more on that later and the immigration chapter), since all money is stolen by aristocrats for their own cities of mansions where not 1 pothole exists vs 1 million in DC.

The entire country is empty and these bastards wouldn't let those freezing in concentration camp of Washington DC, etc to go elsewhere. Nobody ever talks of single family homes for all. The rich placed the poor in big JAILS in the city downtowns, to live like inmates, while 99% of the nations' land waits, empty, you know, we're Americans on paper, we got no freedom at all, we have to live in Siberian weather while the south with limitless solar etc is mostly empty, population density is so low, with enthusiasm of liberation, people would dig canals and build rivers and bring water to the 90% of USA that has no rivers or water, no need for desalinization 1000 mile pipes. Arizona, Nevada, New Mexico, Alabama, Mississippi, Texas, etc have so much solar power, but virtually nobody lives here except in a few ghettos and cities. But no, as long as the criminal 1% got their palaces, the rest can live 90000 in one acre in tall buildings, while they got 5-5 million acre estates and holdings. Nothing gets done (everyone acts busy, go to Nordstrom, see a guy wasting 40 hrs/week interacting with 1 customer each 20 minutes, store wastes 50 times the space to showcase the same amount of shoes, wasting your time going there to find so few shoes vs Nordstrom Rack etc), no new infrastructure for the slaves, no new canal, no new anything, just thievery, banditry and fake ads on TV for poisonous drugs and useless procedures, junk food, fake studies proving a phony product, cosmetic, fake university research, or medical procedures we don't need with good diet, education, early monitoring, prevention. Everyone cheats, copying the aristocrat cannibals. Everything is a pretend game of show and zero substance. The rich don't care, so the poor don't care anymore and the whole nation sinks into the abyss. 70% of college majors are non-STEM☺☺☺, wasting their life redundantly selling junk products (we don't need, except aristocrats to steal trillions a year) as retail, security, lawyer, judge, cop, beauty salon (endless other useless businesses that don't help the workers live healthier and longer lives). No research is done into anything that really matters for the MASSES, the police state's only priority is theft by aristocrats and their palaces,

the rest is a second afterthought. The research to help all have decent constant temp, constant humidity needed for longevity, mold free housing, zero violent crime, achieved by real equal pay and real equality, are only sci-fi writings that nobody ever talks about on TV. Let alone talking about the heavenly world of no money, where every citizen loves the "lowest or worst person with smallest Immortality Credit Score" a trillion times more *tenderly gently kindly*☺☺ than the best mom loved her sucking infant baby last decade (like the Immortalist Anthem explains on the first page), meaning, wise, kind, the citizens know when a need (vs vain desire) really exists, and use all the might of the collective to help that person get that pill or treatment, etc, without them having to wait 50 years when "they get money" while 3 trillion/year is wasted in selfish vanity. They actually don't need money, since intelligence fulfills our needs accordingly, with gentle tender soft nurturing loving healing kindness for all fellow future to be beautiful☺☺ telepathic radiant teleporting genderless shimmering shapeshifting Immortals. The perplexing stupidity of the New England elites couldn't be bigger, they freeze themselves to death in ultra dry Boston etc air that damages lungs and eyes in the Northeast, when they could boost immunity in the South in warmer weather, bring in water by today's tech until we can make the planetary shield via the One Eternal Nation, Eternia for All humanity, with 11 companies and 3 agencies for all humans. They're too busy trading stocks and chasing house flips to adjust to nature's energy. It's dangerous too, a local strike can kill 140 million, half USA dead by one strike thanks to the aristocrats cramming half USA in 1% of USA, who's going to defend those rich pigs? Cow IQ rich can't realize high tech can give even the rich much better housing, lifespan, etc. This is only possible if education is free, everyone is a scientist or engineer almost. The books explains how we get rid of all retail clerks via robots, via self-checkout, end all crime, end all jails, end all violent crime and boost research 100 fold via 11 companies efficiency. ☺☺☺☺☺☺

Due to centralization, and the movement of all power from states and cities to the center, due to the dissolution of all 50 states and their incompetent redundant governments, due to the extremely mission critical importance of the 11 companies and 3 agencies headquarters etc, a new capital city needs to emerge in some present state or perhaps around existing DC. If it's chosen around DC, they could demolish the few homes in the ultra sparsely populated south and east of DC parts of Maryland, relocating those people to the state or area of their choice, even warn Texas weather areas they may want, new homes for them to soften the blow of relocation, same size of the lot for the house, so everything square footage, lot size similar (say 1 acre max to be fair with the 80 million USA slaves living in 0.05 acres, since the new area will be nicer, lower crime and etc), just in another place in Maryland, or in the nearby or far away state of their choosing. These Maryland people often live like Kings actually, having lots of half acre or even 4 acres at times, while the DC folks live sometimes 50000 in one acre, which goes to show the so called fake spirituality of these folks who never protest about that and march about that:

when did they protest that 2 miles away people live 50000 in one acre not 1 per acre? The dismantling of the gangs around here will be another result of the relocation. This Maryland space allows us to build the 11 companies and 3 agencies buildings plus single family houses (a little more dense than 2 acre lots some imperial government employees are used to), all in a gated city where nobody is allowed in, with checkpoints for any trucks bringing food. We need world's largest education department, since all education is centralized, so we have buildings larger than all MIT to house the centralization of eterni tone. We need another MIT size building complex for the immortality tests and MRI scanning of the tourists and other applicants who want to visit USA, to determine intent, how eterni the tone is, etc, having to pass the immortality test. We need another MIT size campus of the Immortality Nurturing Agency for the testing of all millions of product prototypes that want to be imported into the USA or produced into the USA. Anything that fails is rejected, no explanation given to foreign entities due to national security concerns of theft of knowledge and using it to wage war against USA. We need another MIT campus size complex for the monitoring of 10 billion drones that monitor the land and sea borders of USA and all border offices, which have 20 times more staff than today. This will monitor the earth for tunnels of 1 mm diameter or regular 1-2 meter. We have 1 billion underwater drones patrolling our borders and also 9 billion air and land drones, besides fence with all the gadgets detailed in the border wall section. The buildings have CO_2 monitoring as fresh air marker (800 ppm max), negative ion counts, silent electric oil heaters that produce 1000 times less toxic air chemicals (electric furnaces are bad), besides humidifiers or individual window AC as needed, to ensure everything is clean and free from central ducts that get moldy, with hotel like units on outside for every office to ensure 0 germ transmission. ☺☺☺☺☺☺☺

There are no local, city, state courts. No city rules, ordinances, state laws, anything. 1 law everywhere. Everything is central, super-efficient, reducing lawyers and judges 1000 fold by the eradication of the parasites who act as the magnet for the lawsuit. Everyone knows when theft is a fine 9000 times the amount stolen, when aristocrats vanish due to wages being the only source of income and wages being maximum 3 times the minimum, that the incentive to litigate is not there, plus reviews.gov are instantly fining or giving bonuses to people for their good or bad actions. By the 11 companies and 3 agencies being in one place, we help the law creators to make science based laws and update them nationally within days as new findings emerge, without having 33 million rules for 33 million companies. Life of everyone is simple: one set of rules to recall, not 33 million. As people move to online buying more, we save billions in fuel and tire production, as fewer miles are driven. At the checkout, every item bought has a temporary tag associated with the cart you're using and if it was not scanned, it doesn't have that tag and it will beep, since the cart has the ID associated with your immortality ID, a cart can't have an ID on its own, it's your biometric ID, your hand on the card is confirmed as being you the holder of

the card and the person who checks out those items. With self-checkout like this, no *theft* ever *happens*. If it does, it beeps and person is given a warning if one small item and next time it happens he's fined 5 times the item price if small in price. Each time one fails to check things out or scan them, they get fined more until it reaches 9000 times. It won't be in one go, to kindly give older or exhausted people some time to adjust to the new way of 100% self-checkout with the universal "All Help All" system, of ending the entitled feeling of "slaves being checkout clerks" and "we are the intellectual thieves creating 4500 banks to loot all". Burglaries become unheard of, as we fine everyone if they steal, via the 100 trillion wired cameras. The most important aspects of the 11 companies are duplicated in an underground secret location that no thermonuclear attack can demolish, for the survival of the nation in case of nuclear war.

All this "end" of the lawyer profession is explained in the 11 companies 3 agencies 5 page section. Ethical societies don't litigate, they investigate to help people become kinder and fairly give a slight fine, bonus to people and correct what seems like a violation of the immortalist ethos of Immortality *for* All. Any local 'court' is simply the office of the Immortality *Nurturing* Agency, INA.gov, which has the courts and lawyers as 1% of its tasks. A police report is renamed to be an ethics report at the INA.gov. Disputes are solved there, and the Immortality Credit Score and fines for 500 people involved are decided there after research by the intelligence agencies which are part of the Immortality *Nurturing* Agency, whose logo is on every police, FDA, EPA, etc government agency, known or unknown, car, to end the energy of policing, and instead calling it "nurturing eternal lifespans for all', as we try to create a world of 0 death, 0 war, 0 violent crime, 0 death penalty, 0 theft, etc, not via police, via nurturing immortalists. The word policeman or cop has a pretty bad rap due to centuries of violence in 200 nations, so all 20000 police departments merge to become one, one training, one set of rules, one of the 20 departments of the Immortality *Nurturing* Agency. The joke we have today, with the FBI Hoover building is wholly insufficient for centralizing and educating every cop the same exact way, and calling cops nurturing healers or immortalists instead as police section explains. Likewise, the military needs to centralize their stuff more per the immortalist ethics guide as they get renamed Eternium and they become happy soldiers of the Immortalist Anthem. ☺☺☺☺☺☺☺

This enables us to separate the admin from DC proper, and leave DC to being residential only: we give DC to Maryland and take a similar size one for Eterni in the area south of DC with highest elevation, so that if global warming happens we're at 200-280 feet, not 70 ft as White House now. We end the DC and all 50 states. We demolish all DC federal buildings and move White House too into the New Eternal Capital of Eternia, America renamed. First of all, we create the 11 companies headquarters and houses for those guys, then only, after those first 5 years, we slowly demolish all DC gov buildings and build residential in their place for anyone interested in moving there from the areas Eterni takes over in Maryland. Total maybe 15 years.

Come to the DC metro area my immortalist friend and let us change America starting with the capital. Way too much crap in here for a capital, it ought to have the lowest crime of any world town, but hey it has 100 times more murders than many American towns, how can such crap exist? Because our nation was run by aristocratic leeches for 250 years, who gave a crap about the image of America, they just sucked the nation dry, leaving the world to fend for themselves and waging wars when profits affected only, without any concern about 0 violent crime and World Peace in 3 months as in the state of emergency. DC is 1100+ times smaller than West Virginia (2 tornadoes a year on average)-Virginia (18 tornadoes a year)-Maryland (10 tornadoes a year) total area, so it won't get tornadoes every year, but small category 1 ones can occur, and some Florida hurricanes can touch the area as left over storms and do some damage, killing 1 person every 75 years. Buy a brick house or solid concrete block house, not a wood house (so common to see manufactured homes in DC, wood houses, covered in plastic beams that mimic wood, this plastic is there to protect from rain, it looks like wood from far away), to diminish chances of death in case of a tornado. Ukraine and Russia bomb all apartment complexes by design, empty ones, to bring down the world of slaves in jail houses (apartment complexes) and give all single family homes one day as immortalism engulfs with the flames of truth the entire planet. All government employees of the 11 mega companies headquarters, with all government offices and employee houses move into the restricted Eterni or Eternity (Et rein, Extra-terrestrial reign of the Universal Immortalists, short for Eternity, the Eternal Capital of Eternia) area, to make space for more housing in the public section of DC (the current borders) and remove the extreme congestion, lack of parking, extreme crowding (eventually over 20-30 years relocate most DC people to our vast USA, to give all single family homes and make DC the public part of Eterni with areas visitors are allowed to come in to visit the Museum of Eternal Universal Immortality and the Science for All Biomarkers for Foreign Tourists areas. Let's face it, most DC residents hate their ultra dense nasty place of hell, where everyone is jailed in crowded row houses or condos. This relocation will be the best news for them, as no unemployment exists, everyone works for one of the 11 companies city or regional offices. We will be relocating *all Maryland residents in the southeast of DC borders where murder rates are insanely high* (gangs need be broken by relocating everyone to other areas, ideally far away, to other states, better jobs, better pay/houses, to heal and start a new immortalist path), and rebuild everything, all houses for government employees of the new centralism, nice single family homes, domes more able to withstand nuke blasts. Now, any spy can drive by the Washington DC gov buildings, steal all info, program all employees and run our nation and military, courts, everything… *Our national security is a JOKE*. We don't even have a basic border security, so all spies come to Washington DC to mess us up. The 11 companies, 3 agencies replace 20000 city governments, 50 state governments, 33 million companies and are therefore 1 million times more critical than today to be top secret. If they decide to put the 11 company headquarters in 11 different areas

of USA, that's fine, but they all need forbidden cities where all workers live in that forbidden city. Nobody else is allowed in. All in one is greater synergy, so they need to be in one place, and also have some regional offices for the 4 parts: NE, NW, SE, SW of the USA. ☺☺☺☺☺☺☺

This government centralization creates 50 million new positions as redundancy vanishes. These are the STEM majors who will retake classes related to the industry and tech they will be working on, to return to chemistry and physics basis too, because we need innovation, not retail clerks, and ☺filif IQ city/state officials☺ reinventing 20000 times what central government already invented and has software for, permits for etc. Today cities have their own water testing labs, steal trillions in property taxes to waste them by having chemists in city labs analyze 10-20 times fewer samples than private sector and working 3 times less hard for double the pay of private sector. This parasitism and trashing of national resources is due to the low IQ Republicans whose creed is Aristocratic Theft and decentralization first. When we finally end these parasites' grip on USA, with their local mafias running every city and state, by aristocratic bribes to officials from hell, we will end endless gang like networks that run every city and be able to swiftly deport 20 million redundant illegals who're not qualified for any job of the ultra efficient high tech economy. We bring in only super educated high tech people, not random tomato pickers that nobody will need with efficiency and modern agriculture and Eterni Foods that need no agriculture. In 2025 the security is pure trash. Even Russia has forbidden cities for military research. USA has nothing, 0 security for the central government, as if it's a mere decoration as aristocrats rule every company and every city by bribes, bonuses and firing. We have total lawlessness in America, we can't even have one education and one language, one tax (the 0 tax by super centralism), one parent license system. Immortalists will fix that fast, no more fooling around like Demon-crats and Re-pub-licans. The rules for the new capital could be those for world's first Immortalist artificial islands, built right here in the USA. ☺☺☺☺☺☺☺

The forbidden city Eterni (short for Eternity, the Eternal Capital of Eternia) has its own gov, shops, power plant, solar panels on every house to produce energy off-grid to withstand EMP nuke attacks, all walls like a solar panel, windows too, food production (eterni, vegan, etc) and it is separate than the existing Washington DC public city government. This government guards nation's secrets and interacts only with the government employees allowed in the city. The old DC area has Museums and things visitors can go with, some public government buildings for visitors into the History of Immortality *for* All and ~*~Eternal Universal Peace~*~ in 3 months. No satellite images are shown on any maps, it is a green area with hills, showing the old 2020s map. No drones or airplanes can fly over it. Eterni is free from churches, masonic buildings, brainwashing and other comical entities of espionage, due to the infinite violence of the Bible, Quran, Torah, Masonic rituals, Mahabharata. We the capital folks will be concerned with 0 violent crime thru the state of emergency, and World Peace in 3 months, decent housing and

healthcare for all, destroying all gangs in record time. We create a restricted access (government employees only with special top secret clearance) forbidden city called Eterni for the 11 companies headquarters, the Immortality *Nurturing* Agency, nobody able to enter for a radius of 9 miles, gated. As CIA and FBI as dissolved into Immortality Nurturing Agency, and War Dept is dissolved into Eternium, Eternium moves into Eterni too. Here we will develop the centralism of immortalism to a high degree, with one currency, one bank, one permitting for all businesses (no food stores, no restaurants, no gyms, vape stores, liquor etc until we got 80% of buildings research centers of the 11 companies, then the other branches of the 11 companies (food, clothing, etc warehouses can be permitted), one state (all state and city governments dissolved, meaning all policies are federal and elected by people), 0 taxes, one police department (same training), one spy agency (Immortality *Nurturing* Agency, INA.gov), all Federal Departments in one forbidden city, secure from spies. It's a project to remake America into world's first democracy, where aristocrats don't torture us anymore and all have decent housing. A key thing is to educate the average Joe about espionage and the need to be vigilant. ☺☺☺☺☺☺☺

The ☺abysmal IQ☺ in America today so makes it possible for every rat (rats are cannibals if hungry) like filif IQ guy to start his small business from hell, to redundantly waste land, human resources, building materials (that could give all decent housing and turn all jails into healing centers) for offering the same old crap as everyone else and us to become like a pygmy country from Africa, backwards and clueless, when with Eterni we can push for innovation and ethics, instead of the Jewish merchant mindset that ruled the West for millennia. Every sells and resells, innovates nothing, like the trading finance expert Jews of old. Of course, some things will be left where they are, Apple phones in the Apple buildings, etc, but we need some central place to unify all phone products, unify everything as much as possible to free people for research that is far more important than these 0 IQ killer phones. You can have 500000 people in one company, with 3% in admin jobs and 93% in research, 4% in production, or you can have the ☺abysmal IQ ☺ today, with 50000 companies of 10 people each, 25% admin, 70% production and 5% in research and innovation. So, are Americans going to wake up and vote for 11 companies and true innovation, longevity, high tech better housing materials (soundproof, moisture proof, termite proof, mold proof, etc), 500 year lifespan or remain pygmies singing abysmal IQ songs lacking any intelligent hypothesis thinking ☺☺☺ universal *gentle tender soft nurturing* loving kindness, compassionate grace? ☺☺☺ Kebab, Halal shops everywhere, come one and all, cook the same gorilla meat in 50000 gorilla ways. No innovation, Islam for all, backwardness for all, Jesus meat, Jesus wine for all, no thinking, no high tech food (not made from plants or animals) that helps us live 40 times longer as queen bees live due to different diet. Just cave men hallucinations during extreme heat. Don't let cities give permits, let Eterni give all permits as explained at housing.gov☺☺☺. EFFICIENCY: RESEARCH CENTER, not city officials acting busy

inventing 20000 versions of every law to feel imperial. No permits for any food, restaurant, gym, stadium, vape, liquor, etc until all are housed well in single family homes, with 0 violent crime for all cities. Who needs these Republican and Democrat parties that give us empty promises and same old results? By now in 250 years, they should have brought World Peace. Why can't they? You can't when you don't innovate, you're like a chimp masticating carrots. ☺☺☺

Going back to the topic of finding safer places before immortalism wins. Once on crimegrade.org you magnify and avoid anything yellow, orange, red for murder maps, as that is the worst type of violent crime you don't want to live with (burglaries are OK, but not murder, shootings, etc). For example, Venus is 1.53 (south part of Lake Placid, altitude 150 ft, safe in case of sea level rise), Cape Coral 2.76 (not 0.8 as the other site) vs Miami 10.58 (Miami is 10-27 ft). Each country has crime sites, Australia got redsuburbs.com.au where you can expand the map to see an entire state or country and zoom in on any city and click on all nearby cities to find the lowest crime ones (green) like on neighborhoodscout.com, to see all types of crime data for free and you can use the Tor browser to get unlimited searches, since it changes IP, so you get past the 15 free suburb searches/month. Type redsuburbs.com.au/suburbs/cityname and you get all the amazing data. Please note the US data of violent crime/1000 residents won't be the equivalent of other nations, since every country reports violent crimes differently. Thus, within a country, you just choose the lowest crime cities, since cross country the comparison is not exact. Generally, since in Australia and 150 nations nobody has a gun, except cops, homicide rates are much lower than US. The Wikipedia shows 150 nations have lower homicides rates than the land of eternal violence, USA. Australia rate is 4 times lower, being roughly equal to the European Union average. Crime statistics can be false, since some nations report improper behavior as a crime 10 times more than others. Generally speaking, the actual crime rates are far higher, since people don't report sometimes hundreds of domestic violence incidents, due to getting used to the culture of hooliganism that dominates that particular country, its evil music, etc. This means that the actual violent crime rates can be 10-20 times higher, and even 500 times higher, when you take into account the police torture and hidden violence, etc. That's why only homicides are somewhat accurate, since those HAVE to be reported, while all the rest don't have to be. The tone on TV is a perfect predictor of REAL violent crime if you know what to look for, it shows what's acceptable within the culture and government of saints or hooligans.

Research before moving anywhere, so you're not upset by high violent crime AFTER you moved there. You will realize expensive doesn't mean *safe*, places way cheaper can be way safer, though if you compare the 2 maps for every city, the dark blue areas of high crime are always yellow on the house price map (meaning cheapest). When a map has dots on some city areas, it means those subdivision detailed data reports are not free. ☺☺☺ However, sometimes, for the same price (same shade of brown), some are 2-3 times lower crime, so always live in the lightest

blue shades, top 5 if 20 areas or top 20, if 100 tiny areas. The nice thing about Florida or warmer states with nicer winter weather is that you can create a structure outside (due to nice weather) that is 100% protected from outside neighbor or inside wall build microwave laser weapons used to torture people that various spy agencies install or use in houses you rent or own. Never trust any contractor or anything, they're all easy to control and hire by any spy agency to create a torture house, in your so called "new home". In many places, a shed is not even needing a permit and you can heat and cool it with a little heater if need be using an extension cord, thought some climates are so warm, no heat or cooling is even needed. Create a space of 30 ft from any other dwelling in case of being tortured a lot by subhuman beasts, to make it harder or simply leave that nation controlled by hooligans. In such a place it is harder, with aluminum foil barrier, amazing & beautiful insulation, simplicity of devices used (*nothing electronic, except cable for a tiny heater, since 100% of imported or domestic electronic devices can be disguised weapons of torture* or a 10$ device can cause 1$ billion in damage, ground flights, by moving around and not being found), to be attacked by all conmen hired by the various mafias out there or spy military gangsters working for various nations as explained in the torture section. If they continue torturing you, get out of where you're and move to a place with a bigger lot to establish a safe buffer via various methods to block electric, magnetic, microwave weapons. It's stressful, but you definitely can't stop it if you're ultra close to neighbors and other dwellings where gangsters can rent or own and attack, recall, the music reflects the hooliganism.

It's useful to look thru some of these neighborhoodscout.com like sites, since city-data.com doesn't give you violent crime data for all these tiny places and by shade you can infer if higher or lower than average and the general description of each subdivision mentions which languages and ethnicities are there, if you want to live in an area with 30% French speakers or etc. You can also click on each of the blue shades, lighter being safer, to see more info about house prices, who lives there and then search youtube for information on "driving on the streets of neighborhood name city name" or "how life is in this area", many youtubers have recorded driving thru every area, and it's more real than google street view sometimes, as you can hear noise levels, people. Never buy used cars from Florida, as many are full of mold and flooded, buy used cars from dry states or buy new Teslas, since with 7.5K instant rebate, you get a new Tesla, way better and cheaper than many old Model Y on Tesla.com inventory. See the EV section on why flooded cars can catch fire anytime and kill you. Check FBI too. However, FBI covers only a tiny % of cities, mostly big ones. The humidifier section has more on humidity, average temps and related topics, what areas of Florida are nicer, etc. This info allows immortalists to make wiser decisions to maximize lifespan of all and create little ☺☺☺Eternia 'islands'☺☺☺ in certain neighborhoods free from the issues of modern "civilization": smoking, alcohol, weed, drugs, violent music, hooliganism tone, aggressive tone on TV, terror.

WORLD'S FIRST IMMORTALIST ISLANDS and their rules similar to quiet cities policies

Perhaps, they can have 200 (initially just 3) floating artificial islands where people live in nice weather, using stronger than steel, lighter than air techs (or as lighter than water) etc (graphene aerogels are stronger than steel and can be lighter than air). Or choose some other area of the world with nicer warmer weather year round (so all food is vegan, local, organic, fresh, ensuring self-sufficiency, all energy local, off-grid, solar, all water local, from air or wells, all ready for WW3 if need be to continue human civilization, only transport inside is Amazon to a PO Box area for each 20 properties, to buy vitamins online) and establish a city or something with its own laws: no dogs, no noise, no meat eating, no stores to sell meat or animal products, no animal agriculture, no chicken to raise eggs, to make rooster noises, the quiet cities laws implemented (all of the rules), everyone passes the Immortality Test for our city, to become resident, gated with 500000 cameras around the city perimeter, only registered in the city cars can enter (visitors come with a resident only), a 0 crime city, that teaches the rest of that country how to build immortalism with its 0 crime, duplicate it and live it, eterni greeting done, no need of hand shakes. This allows immortalists to have new laws and even a state made of artificial islands between Hawaii and California or etc dedicated to immortalism that is called Eternia, so that the state bureaucrats and Bible fanatics can't stop us from creating an immortalist centralized civilization in our state, with one centralized education, centralized state website for all real estate renting and selling/buying, one etc, with uniform laws (same exact website for all permits in all 'cities' of the state, enter zip code for any amendments, etc), city codes and a new model, unlike any state, so we have 0 violent music, movies, crime, books sold, and the most peaceful music. All ideas in the book would be implemented here, and then, other states, seeing it's better, could copy them, if wishing to do so or if the Immortalist Party wins, we become the national model and make America and All Nations EFFICIENT, 9 billion year lifespan, High Tech as never before. We no longer have to deal with "tradition" and "etc". The distance between Hawaii and California is so big that, one can be in areas with 0 vog. ☺☺☺☺☺☺☺

2024 CDC data shows Hawaii homicide rate is half of US average (2.8 vs 5.9). It used to be 25% or 1.4, but an influx of Latino illegals doubled it after Biden years, thanks to "sanctuary state policies". Being isolated from other states, with super *high tech security* we would be able to create a different culture 180 degrees different than the 50 states. After all, they promote diversity, on paper, but in reality, *it's the same violent culture* everywhere, in every nation/state almost. High security by US Navy means no spies, gangsters can sneak in, since we get special status, *no tourists*, a high tech special artificial state, *nobody with violent crime or drug use records allowed to visit*, visitors will need to pass a security clearance by applying to the Immortality *Nurturing* Agency, INA.gov. *We're a small island state learning to make artificial islands tech more developed, to promote* World Peace *(and defend US from ICBMs) and test*

hypotheses of this book about creating peaceful *civilizations with 0 crime, 0 jails,* so only US citizens are allowed to land on the islands to visit family or friends – no foreigners, this ensures maximum security and 0 espionage: no hotels, to *ensure all have housing*, and resources are not wasted. Since these islands are the planetary defense against *catastrophic supervolcano eruption that would starve all humans to death due to no sun for 5 years, they develop high tech* eterni *food techs* that can use *water and air only* and other techs, microbes, etc to produce proteins, etc; thus, initially, only science and engineering majors will be allowed mostly, as those are the engine of innovation and World Peace *in 3 months thru Positive Methods Only*, people who have the highest proven (by their CIA-FBI file) resonance with the eterni energy of ☺☺☺ universal *gentle tender soft nurturing* loving kindness, compassionate grace. ☺☺☺☺☺☺☺

We are the centralization enthusiasts, who use the same pattern and model for all islands, so no waste of 100000 jobs with "city clerk" and all kinds of stuff, reinventing everything, permits and all kinds of nonsense, our differences are more in the inner and not the house square footage. Since everyone is smarter than 99% of clergy today, they all use online churches of the immortalism vibe that locals can create via youtube recordings in the tone of serenity. Due to limited materials and challenges of producing all materials and food from water and air, we have no churches to take space, but allow a meditation room to replace huge dinner, living, kitchens and make those smaller by design, way smaller. We make each dome home a temple to the Eternal Universal Peace. Everything automated, high tech, quick and easy, all bought from one location, 20 models of domes that resist Cat 5 hurricane, it's the land of those who want to live to 150 and save humanity from violence and war, instead of to 100 with dead corpses of animals diets or stone age vegan food. As Tao Te Ching says "when you're happy, inside, at home, you have no need of vacations far away, when you see Tao, you don't need travel or open the window to see outside". Islands can be 1 mile radius minimum, so 2010 acres, with city Immortality University at the center and all shopping, seeds for growing one's own food, special reactors (top secret until World Peace arrives), etc, if we have 2000 acres, we can have 1000 for residential, 1000 for shops, research labs (since all schooling is mostly online) etc. So 4000 people, each gets 0.25 acre; single story homes only to prevent overcrowding and accidents due to falls during massive storms, since specialized medical teams are far. We're into longevity, so we have geeks, doctors. Clean pools for swimming, jogging, walking paths, on the circumference where the 10 ft fence exist for safety, followed by other security fence with 100000 video cameras/island and possibly electric wire to prevent outsiders from jumping in easily from boats on submarines and doing sabotage or placing spy gadgets, etc. All interested and trained, can enjoy helping with island security with 9000 underwater and aerial drones that patrol the area around the island to detect any intruding objects or people. All islands are 1-10 miles apart, 10 miles from the nearest land at least, each island maybe 1000 people max, so that all houses are

domes (space age materials, plastic etc that doesn't get wet or rotten or termites, etc) that withstand tsunami and hurricanes and nuke attacks won't destroy all people in one blast, so over time, we may have even 5000 islands, depending on how easy it is to be 100% self-sufficient, grow all vegan food on the island, water lentils (duckweed) (ω3:6 ratio 2:1), seaweed, etc. No 2300 acres palace allowed, or 2130 acre estates, while others live 30000 on one acre, due to limited space and equal opportunity for all, as we promote longevity for all, not some having *9000 times* bigger house lot. Max house size is 50% bigger than the average. ☺☺☺☺☺☺☺

War exists because of low IQ and also because of parasites waiting to exploit all and take resources that increase average lifespan by 1 year for 2 million people and use them to increase theirs, if at all, by a few years, leading to tremendous lifespan shrinking of 10 million lifespan years for the collective humanity due to war, neglect, lack of quality food, sleep, torture by aristocracy, etc. Because 2% of islands are purely military missile defense sites, interceptors, etc, they may only have 100 soldiers on them. The new artificial island state of Eternia needs to be 100% independent of Hawaii, California or any state that we expand too off their coast (the Island state), with our own docks, transport, airports, everything, we would not be connected via land or bridge to Hawaii or California. Big Island of Hawaii got 300 miles of coast ☺☺☺, so *50 miles away (in the direction where volcanic pollution or vog never goes) it's even more "coast"*, maybe space for 500 artificial islands each 3-4 miles apart. The ones far away, 200 miles away, can form an impenetrable wall in case of missile attacks, etc. In wars, they're the first line of defense for all US states coastal areas this "Eternia state" expands to, and the most valuable people are moved to the mainland in a special Eternia City, possibly all civilians (95% of people) if there is a specific nearby attack, so inland soldiers can move in and defend the real land from enemy weapons, missiles, submarines, ships, etc. These are among the most peaceful people, so they're a national treasure, their evacuation would be important. Thus, a special agreement exists between mainland California and the new state, in case of WW3. We can even tether islands to the land of some islands (if area gets 200 times less vog) or ocean floor with huge cables or use solar power to turn them into ships that can change location slightly if they drift. With advanced tech, the houses can be 30 ft above sea level, due to chemical aerogels. ☺☺☺

Due to stringent media laws, that make China look liberal, 99.9% of US citizen "singers" would not get permit to perform, since we love our peaceful lyrics, silence, state anthem, serenity and mp3 eterni tone (much better than these vocal and instrumental samples, any clip measured for MRI properties, 100 tests before any song is approved to be released) music, no need of war vibes on our "land". Plus, we love our people, not to make bad singers rich while citizens are homeless, they can create nice youtube music and we listen to it if we like it. It's unethical to make big concerts halls while others are homeless, so there are not many places to perform, except for 200 people at the city (island) immortality center. Fireworks and outside parties are

illegal, if noise exceeds that of soft meditative background music. Smoking inside or outside is illegal anywhere, as is the sale of any weed, alcohol and tobacco. English the only language on any sign. It's the Abode of Serenity and Eternal Universal Peace. Due to our ethics, we will have no homeless. State got the right to fly back anyone that lands without a job or income, in fact, it may require the income check for staying over 5 months. No stadiums on our land, only peaceful activities. True tone can finally develop, true culture. Also, most sports would be illegal, as they bring war and egoism. We build Peace. Dogs are illegal, (2 dogs max/island at the dock of shipments, for drug sniffing (a dog can sniff even 15 different drugs; dogs can smell up to 50000 times better than people; later, we develop scanners better than dogs by 20000 times). Initially we're ultra limited in resources (to create these islands is harder than Manhattan project tech wise) and need super high tech jobs, young innovators, etc, so we really won't deal with service dogs much, as nobody gets to have a high tech demanding job and really need an "emotional support" dog, topic covered in the pet section. Hey, if we want to produce our food locally in our self-sufficient floating islands, we won't have the luxury of 400 lb people and 2 trillion dogs. Dogs create uneterni vibes, sounds, wake people up (no tall buildings to absorb noise, since island sinks with too much weight), dogs promote neglecting humans. Dogs prevent us from finding peace, bliss within meditation, from loving people, not dogs (so nobody is homeless, neglected, many value dogs more than humans). Because we meditate, our cities are ultra quiet, like the quietest mainland USA city in existence, so dogs are incompatible. All walk to work or use some tiny ultra quiet car with speed limit 15 mph, made on one of the islands, a car like no other, without spyware from overseas, the Eternia, the car name. Many can choose to walk to exercise, and most would choose food delivery if they don't grow food in their backyard, since that minimizes traffic noise from these super quiet cars, since with one trip to an area 50 trips can be avoided that create 40 times more noise, driving time and electricity wasting, tire PM2.5 pollution, etc. Food shops and basic stuff are in the island center, to minimize biking, walking distance, and keep all trips under 1 mile. This prevents obesity as people exercise a LOT more daily and we need no gyms, sports facilities then, only brains to dematerialize any scoundrel weapons. The design makes it easy to get immortalist zoning areas in city gated neighborhoods, *nice circles of 1 mile radius that copy the islands* and take America back from the violent historical inertia. Some small cities could make the entire city like an island sort of, since they're new cities and they set their own rules and who is allowed in, etc. The old cities can buy houses to allow residents who want parties etc to go elsewhere, so the city council or county chooses immortalism by *city, county or state* referendum, becoming a satellite city of the hypothethical *island state* Eternia made of *city* "islands" and *artificial* islands. We need to protect the peace loving folks. All backyards will have some use for the island. All pets, people are required to be vegan to prevent global warming, and evolve the DNA to Immortality *for* All *gentle vibes*. Plus, oceans are so toxic these days, taking fish from there would be risky, so we can simply use

solar, filter, desalinize water, or get water from air and then grow much healthier proteins, fats than fish. During war, fish is deadly, as enemy can use drones to poison fish. Islands need self-sufficiency to the extreme, as air or ship transport is not a given. No barbecue or fried foods exists as it kills from the inside, causing early death due to arterial plaque: also, a barbecue restaurant killed 31 people in 2023. Our islands are not able to deal with gas explosions well, so gas use is illegal on the islands. Dogs bite kids, adults and also cause global warming, they eat a lot of food, meat that requires land, emissions, etc too. Cats are smaller. We don't have the luxury if huge access to 1000 MD specialists by a 5-30 minute drive, so everything sold goes thru 100 times more health checks than on the mainland of death. We have the most chemists, physicists and engineers per capita of any nation. No "bars, sex shops, or night clubs", all shops close at 8 pm. Our bliss is meditation, helping others, etc, we don't need parties, loud music, etc. No crime means no jails, some fines and educational courses for theft, if any theft. Everyone allowed to land is so screened, no violent crime is possible. It finally allows America to have a family friendly neighborhood, free from violence. No guns are allowed (the 2 cops that protect islands from drones, and submarines, on each island can have it), we got AI and high tech drones defending the islands way better.☺☺☺ All radio-TV local is eterni. Everyone meditates to bring the Eternal Universal Peace. It's like a monastery of truth seekers who filter out all negativity. We're a model for cities and states to create new policies and neighborhoods. With 5000 similar islands around the US coasts, we can give 20 million Americans a peaceful home, not terror. Because we're immortalist patriots, our island food/building tech can't be shipped out of state until World Peace reigned for 20 years, to prevent thugs from launching endless wars of conquest. Before World Peace having been real for 20 years, only states that join our state by redrawing US state map, living by the rules above, can share our food tech, to prevent theft of tech from spies dreaming war all day like hyenas. This also prevents the soulless aristocrats living on 18000 ft^2 house and 500 acres from living long to start new wars. Let all those who love God, the "Immortality for All" principles, not wealth, receive the food and healthcare that grants 450 year lifespans, not those who create wars and shorten the lifespans of billions thru their greed and depravity. We want to transform America slowly and bring an end to all jails, wars, homelessness. Since not all realize what it takes to bring peace, they won't join the centralism instantly: live and let live, but let us live our way, this is the land of the free.

Back to the Anthem Eternal talk: other anthem lyrics could rhyme and try to say "Immortality for All, Immortality for All, Discerning Universal Loving-Kindness, Gentle Nurturing Grace & Compassion, Bring us *trillion* year *lifespans*, Immortality for All, Immortality for All. Believing nothing without proof, we test every hypothesis, Advance Immortality science for all. Working for Immortality for All in *all nations*, we bring universal peace, Immortality for All, Immortality for All" – like this universal 1 min song that is the epitome of real patriotism, for all nations

develop most when there is peace and the wish for Immortality *for* All is in every country's ethical system, so there is no such thing as overt or covert violence. The country who wishes the best to all in their anthem will be the one lasting the longest. Discerning universal kindness is universal for all, but strongest for the kindest. *This is the application of* win-win*, instead of the win-lose lyrics of many nations* - 'we will restore our old glory, tra la la, etc enemies will be dealt with this and that way, tra la"- what glory? The past was full of violence and killings, recall old soldiers were not immortalist ethics ones, they were very bad. We need to focus on Immortality *for* All people in *all nations*. Anthems would not talk of enemies, for this will create them out of thin air; anthems would focus on the positive future of Immortals, Immortality *for* All . Replace all negative words as much as possible and focus on the most positive planet images. In a democratic future, they can even use holograms that shapeshift and allow President to take on different appearances, races, genders matching those he talks to sometimes, and have a council of the Infinite intelligence of Immortality *for* All. These 20 angelic speakers can interact more with the people and the president can even be a shapeshifting Immortal AI from the Immortality or Longevity party, whoever wins, that represents the immortal intelligence of the people, speaking in the most healing most positive emotions inducing tone ever created. The Immortality *for* All Council can be aided by Parliaments etc and government. This helps the President to remind people that they're Immortal energy beings who will be able to literally shapeshift too, since matter is energy. When everyone is an oval of energy, all are identical. All become more fluid in intelligence, as they see these amazing shimmering lights, and realize trillions of ways to peace without war/violence exist, even if we have not always found them. Having 20 angelic speakers, using holograms sometimes, who go visit or project their hologram, shapeshifting one, to various places, allows a more heavenly and democratic *(no monopoly of one tired voice, have 20 healing speech trained individuals who rest a lot and make the most* amazing & beautiful ☺☺☺ *with relaxing music in background press releases*) energy to radiate from Eternia's President, who is sending the most rested (thus best tone of speech) people or AI to relate and interact, since a human gets very tired and only prerecordings when very rested or AI makes a super healing voice. Thus, the President gets to get better rest, talk less, meditates more, prerecords, to maintain the most amazing *gentle tender soft* healing nurturing vibe *all nations* can love and make the Eternia President loved by all, unifying all humanity. Because the government, Parliament etc interact with public more thru the 20 angelic speakers council, the public is not contaminated by the stress and negative emotions anyone may feel, as the Council may not know every detail either and act as a healing mechanism to elevate all humans.

☺☺☺☺☺☺☺

5.3.6. Creating immortalist cultures of elysian grace: the immortalist *greeting*

☺☺ Observing the Immortals in all humans via Greet, keeps humans in this Immortal vibe☺☺

Quantum mechanics: as we look at the Immortals Blueprint hidden in all, we Eternalize It

The eterni or immortalist *greeting is* the *poetic* expression of the universal *benevolent* wish for the *infinity* ∞ of blissful lifespan to bless *all* beings interested *(it doesn't specify in* what dimensions that eternal lifespan *spreads out on).* This can be done in a silent way or vocal way, or both, in sequence, when you feel the other needs to hear it due to contamination (or prerecord it and play it on the phone speaker); the silent way can be quite simple, as described in the divine ecstatic bliss section, where we inhale God's or the Universe's (for atheists) | Immortality *for* All | Light, Energy, Kind Vibe, Knowledge inside our brain (thru the top of the head) to illumine it (sort of like a sun that illumines quadrillions of stars, a light bulb that is now your head, just a trillion times brighter than our physical sun), Gentle Healing Blissful Compassion for all beings and exhale it (thru the entire body or the entire brain sphere or the 3rd eye or center of forehead to stimulate universal empathy and the frontal cortex, the brain ideal when spy agencies use their gadgets to arouse you thru bitches pretending to love you, to take and keep that energy in the brain, instead of down) to envelop the entire planet and that person (their brain will be entrained into the universal compassion and | Immortality *for* All | *vibe)* from 3-50 feet away without touching them *(no need to keep eyes open even, when doing this, as the other is reminded to meditate for a second and* commune *with* God*, not with human lips, cheeks, hands),* smile a little at least (no huge effort, no need to show teeth) and also, critically important, *envelop all humans on Earth so they calm down* and stop the wars, unify as one Eternia, humans whom we see as shimmering shapeshifting *Lightbeing Immortals* (ovals of energy light) ready to bring Eternal Universal Peace in 3 months,☺☺☺. This is a "visualization and feeling" prayer that can be done with every act of breathing we recall, even 7000 times daily, so you're not restricted by any schedule, direction or anything, no need to pray at a certain time once or 5 times a day, you can do it sometimes 5000 times with 5000 breaths to greet all humans, you simply direct the light, eterni energy of ☺☺☺ universal *gentle tender soft nurturing loving kind* compassionate *grace* to where it is needed, be in your emotional or physical body where healing is needed, or in the world, creating an astral globe with double the radius of Earth that envelops the planet in peace, or if you don't want to overextend, just let the light transform your atoms as you radiate it thru your body to increase your vibe and perhaps, as they joke, make your lowest 'astral body' shine, so all who resonate with it, can reach resonance and heal the planet. However, since the astral body is easy to stretch, it can envelop the whole planet and 1 trillion galaxies, so like in that exercise, expand and flush the whole planet of bad astral vibes, be a light of the world, or, if God wants, for one minute or month of the year, the brightest astral light of the entire planet. As rain removes smog, so can your light remove astral smog, since all human brains are connected to the astral web of information. You're the builder

of a New Astral World, an angel of light whose eterni *greeting* changes all atoms of the planet.☺☺☺ Infuse all humans with the bliss of God, so they stop fighting and bring World Peace soon, realize the brains of many are like those of 2 second old babies versus an Immortal: unaware (clueless, brainwashed by religions, national institutions) of the fact World Peace could become real in 3 months and last forever (as long as humans can inhabit Earth): *so be gentle tender soft* patient understanding (as the most loving mom is with a 2 second old baby who has no clue) *in* radiating this gentlest most loving light of God back to the world, since as it passes thru your head, heart, soul and being, it also transforms you. They know how to incite wars, create strife, operate airplanes, tanks and missiles, but not yet how to love all humans, so teach them, so Peace becomes real in 3 months on Earth. This way of greeting is more universal, and more democratically dispenses the loving kindness to billions of humans from your cosmically expanded astral body that becomes a Light of God on Earth, instead of only the person we shake hands with, kiss etc. This also helps you to remain happier and boost self-confidence, since, when greeting the eterni way, you're bigger in size astrally than all things physical bodies created on Earth, and probably, older too, since the million years old quantum *Archetype* of humanity uses particles *(as individual unit, you're part of the million year old superorganism of the human species)* and atoms, electrons that are so old, billions of years old, regardless of individual soul possible age being different, if the soul exists in your belief system. It's the physics of the species. You don't need wafers or spy priests to connect to God, the simple intent, breathing connects you all the time, God reads intent much better than any priest and aids us in bringing Peace. God needs no intermediates, physical bread matter to bless a nonphysical body.

This eterni greeting activates the higher neocortex of the brain that humans lack, universal empathy, universal compassion, makes us lose belly fat that shortens lifespans, and takes us from mechanical neural activation via moving the lips or hands so much, to higher brain thinking activation: let the brain move, not the hand so much, the lungs and ribs, not the lips, because the brain will levitate us and allow us to move as we telepathically control the lifting gadget some day, or the built in levitation ability far later when we're lighter than matter or even before, as the new matter body is built and can levitate objects and the physical body: let the brain become bigger, not our lip or hand muscles: behold the wonder: the shimmering Immortal human species is arriving, *step* by step the World is *Transformed as we* speak. The vocal way of eterni greeting is easy too: it would be a nice change in culture to introduce a tiny eterni tone speech now and then, until all speak or telepathize that way some century. A simple way to do that, to trigger the move into universal immortality ecstasy☺☺☺ again is to ☺☺*lovingly tenderly gently kindly*☺☺ say mentally or verbally in a (eterni gaze ► the tender soft loving smiley look if eyes open when saying it, though the look can occur even if eyes are closed when saying it for better tone) ☺☺☺ melodious eterni tone filled with gentle universal loving kindness

(the definition of eterni tone) "May you & all so wishing, live happily to a trillion years" or "See you soon and, for all wishing so, very happy in a trillion years" or "May all interested (or wishing so) experience the infinite bliss of infinite Immortality" or "May all interested live ecstatically forever or to a trillion or for a trillion eons" ("may all" is ideal versus "may you", since it signifies we care about all humans, not just the one or few we address, so including all if using you would be necessary in an "[ ] Immortality for All [ ]" culture that replaces selfishness with altruism), which takes 20-30 times longer than typical "see you later or good night or good bye or I love you (eros is limiting, infinite compassion for all beings is true freedom that brings limitless lifespan and happiness)" to say really slowly with the whole brain and being, so as to enable both speaker and listener to enter universal immortalist bliss. The words interested or "wishing so" are key to maintain the gentlest content of eterni speech, since we respect everyone's free will, not imposing by force of wishing our desire for their life length or way of life. It's a form of honoring, acknowledging the innate ability of infinite unity of humanity to attain infinitely ecstatic Immortality, to be that Radiant ever happy gentle Immortal. ☺☺☺☺☺☺☺

In our busy days of incoherent and negative emotions, 20-30 seconds a day of practicing being universally kind would be so good, and very healthy for many who desperately need *some positive intent and emotion to balance their* rather negative thoughts, emotions or downright rude speech tone and/or content. In some cultures they join hands, bow and/or say 'Namaste' or etc to "Honor the Infinite Eternal Immortality Reality within the other or *Universe*", this is similar, except it would change our intent, emotional, vocal tones more, and our beings, since we can only speak about 1 minute in the highest eterni tone % we can emote, radiate. This helps us to recalibrate our emotions, recall what is truly important: life, not $, Immortality, not objects, Eternal Bliss of Immortality, not fleeting joys. $, objects, and joys are fine, yet they all end if lifespan is short; so if Immortalism can make our 'joys' expand a trillion times by a trillion times longer lifespan, then Immortalism is more important in the now; besides that, the joy is becoming '1 million times greater bliss' in the realization of the Eternally Blissful Immortality awaiting the united Gnosis of humanity and available to us all the time by the simple act of breathing with an eterni tone. We see clergy in many religions bowing and holding hands, which can be added to this greeting if wanted, but the point is not to activate the moving neurons, and to waste brain resources with that; instead we focus on creating a 'new neocortex' via a new tone, to link our brains in ways we never did for millions of years, so our speech becomes so different over time, and our civilization, via the capacity of vocal neurons to change all the important others. The eterni (kind, respectful, gentle, tender, reverend) tone is our holding hands in prayer & bowing. That's why, to reach highest transformation of both, closing eyes when saying it is fine, as we use maximum % of the brain for creating the most beautiful song we emanated that day or month; in noisy places, an amplifier can help, since eterni tone is not

loud at all. Naturally, sometimes, we go to places where we meet many people, so stopping for 30 seconds with each would take 20 minutes, so we would perhaps use a shorter greeting; other times we may be exhausted and eterni tone is ultra brain intensive, so then we could be much shorter, 5 seconds instead of 30 seconds by saying one word: Immortalli: 'Immortalli' as in the movie of the one who brings "Immortality for All", the potential Immortalli (stress on ta) in all beings is greeted; we're humanity calling for Immortalli, Infinite Knowledge & Grace in human form, ☺☺☺, to incarnate as the expression of the superorganism wish, and also as in Immortally, (stress on mor) i.e. we shall see each other, love each other, greet each other immortally. To me, Immortalli seems more idealistic as it reminds us better of both the Avatar of Immortality in all and of immortally engaging, in the Eternal Bliss of Immortality. Thus, when tired, or sick (bad voice), when tone is bad and could pollute others, we could say: Immortalli, or or even be silent entirely and either bow and/or hold hands in prayer and/or make infinity ∞ sign with finger or hand for silence and/or perhaps moving lips to mimic gently saying Immortalli, definitely smiling, maybe closing eyes 2 sec to focus on unheard tone that blesses all beings interested with the gentle wish for their eternal wellbeing, saying it mentally; we can also play the most soothing music or prerecorded greeting for bad tone days from an amplifier for a 20 seconds of smiley silence, when we greet a closer friend, to relieve them from the toxic sounds of our stone age transport, if traffic or background noise is present.

My yahoo email signature is the following: "*Thank You so much for Your gentle tender Immortal sweet healing nurturing shimmering universal loving kindness. May all wish & act well to all, so everyone's day & afterlife are the happiest ever.* happyimmortals.com. *Feel free to listen to the 1 min immortality blessing & 1 min soft tone*". I use Windows 10 mail app only to write emails sometimes, web version mostly to check email and read it, since Yahoo mail only allows this color signature, without automatically attaching my signature picture, without purple italic default font etc; so instead of wasting so much time each time to attach, adjust font color, italic, bold, font type, etc, I use the app on my desktop. The signature looks bad in web mail, while the app places space between lines to make it way easier to read; app also allows you to select from 100s of fonts, not just 7, use 100 colors, instead of black only, etc. I collected 25 pages of colorful gifs and pics you can use cheer others up when texting/direct messaging from desktop/laptop. You can find others of other colors, words, themes your best friend likes, make a big one to use as signature when emailing that friend or all. Using the mail app to write emails, also prompts us to think twice before 'writing'/sending, to uplift others and practice writing tone (*tone of overall content, not only tone of each word in speech*) in real life.☺☺☺ *This way, I remind self (when writing emails) and others what is truly important in life, to be positive, make others smile* ☺☺☺, *laugh.* It's a way to replace cruel indifferent uncaring 'Thanks or Sincerely,' with the richness of eterni cultures that infuse all beings with higher bliss in each encounter. With signatures

we're using AI to spread that energy, imagine in the future making people feel how you felt in your best day last 40 years in your signature via MRI, etc'. *That's the beginning of world change.*

It is a waste of time to shake hands, hug people, kiss people on the cheek, cheek-cheek as many do. This focuses your consciousness on one person, makes us more selfish, unable to practice universal kindness. You don't believe me? Watch world leaders kiss, hug, shake hands, etc and then days, weeks, months or years later, they bomb or assassinate millions of people via war or even the dictators they shook the hands of. Sure, you can certainly hug your child, kiss the child or spouse a lot, but the best thing is to teach them self-sufficient bliss and universal compassion, so that you eliminate the hate in the quantum field. When you shake hands, you don't love all beings, only 1 and our species needs love for all humans to prevent the 10 second end of all humans. You know, watch those baboons, chimps, who're often cannibals, and they do a lot of touchy feely shake hands, pat on the back hug equivalent stuff, then 2 days later they snatch baby of a chimp neighbor and eat it. You see, the touchy feely is not a sign of evolution, only of being a chimp. Hitler and various Nazis shook the hands of Russian officials, then killed 25 million Russians. Hand shaking spreads germs and is not a sign of evolution, or a service to humanity. So, nose touching (Arabs do it), hand shaking, pats on the back, hugs, etc done by many are useless, make identification with a body stronger, instead of with the immortal human quantum field. They aid Eternal War in today's world. We see Saudi Royals smelling, kissing, etc, then order Syria cities being flattened. Is that the essence of spirituality? We need to Hug All humans in our minds, via the meditative breathing when we greet people, to recall to maintain the universal compassion, Eternal Universal Peace and Bring Immortality *for* All. It's universal love for all humans that builds Eternal World Peace, like in immortalist greeting, not sword dances after nose touch. Or funny rifle dances after nose touch. Will we replace tradition with kindness for all beings? It's better to kiss, hug only spouse and kids, so that everyone builds the immotalist vibe of sex for procreation only and overcomes his innate animalism coming from genetic memory. We have built in reflexes to shake hands to show friendship, but we don't need to. A smile is better and a noble intent, a little breathing to recall to bless all humans with the sincere wish they develop the science to discover the tech of the teleporting shimmering shapeshifting Immortals bodies of eternal *gentle tender soft nurturing loving kind* energy. ☺☺

Song of Immortality Hypothesizing

(this "poem" is a draft 5% of the Immortalist Anthem in a short version, emphasizing Logic)

Blessed are those who believe nothing we say, without proof,

But test each hypothesis to find how much of it is pure truth,

Perhaps trillions of quadrillions of possibilities exist for God's *Will*,

☺☺☺ Some billions may include living for a trillion years as a human still. ☺☺☺

We can believe nothing easily, We can doubt everything switfly.

We can question things ever deeper, To approach truth much quicker.

We often forget truth's infinite complexity easily, We can approach truth, but never attain it fully.

We make 0 assumptions without evidence, So we test all hypotheses with diligence.

Assigning a truth probability to each hypothesis, We better realize the truth's complex synthesis.

Hypothesis formulation and testing, Will give us trillion year living.

Data may show a strong correlation, But it rarely means a true causation.

Data is often misinformation we get fast, Not facts or ideas we can always trust.

Testing hypotheses over and over, We triple human lifespan forever.

Poem start about Vision Transduction Retinal Lepton-Boson Electron-Photon:

Thanks to Bosons and Leptons I see

The magic of human vision we will present briefly,

So we learn some chemistry and physics quickly,

Enabling us to further appreciate the complexity,

That governs the visual perception of humanity.☺☺☺

In physics, we got 6 leptons and 4 bosons, /Electrons are leptons, photons are bosons.

Visible light is made of these lovely bright photons,

11-cis retinal is an eye molecule with many electrons,

When we see, the photons are causing the retinal electrons,

Situated in a pi double bond between 2 carbon atoms,

To move to a higher energy state breaking the double bond,

The poem can be finished in many ways with the info in the eye health chapter.

The science of Immortality

Sweeeeeeeet Tender Soooooooft Love of Science,

Has taaaaaaaaught us truly, how to develop patience,

The boundless Patience required to live to 9,000 years.

We had all these interesting unsubstantiated beliefs in things,

But then we realized they were hypotheses about those things,

So we set out to find the truth using methods scientific,

Because compared to blind belief the truth is terrific,

Because compared to unproven beliefs the truth is beatific.☺☺☺

We wanted to save 10 million lives killed by Alzheimer disease,

So we set out to test the hypothesis of dietary anti-oxidants,

So we randomly selected half the study people to get more nutrients,

While the other half got the usual amount of phytonutrients,

And we saw fewer disease signs by monitoring the Alzheimer markers,

In the people who ate a healthier diet . / So, when we wanted to test if

By minimizing oxidative stress, / And bringing cellular caress,

We did a randomized controlled study for a kinase, / an observational study for a sweet ATPase

interventional study... to see synergy of 2 genes / Like the synergy of the worm study,

between gene x and gene y mutation, /leading to humankind from aging liberation.

And we overcame oxidative stress and glycation, /Thru the most Brilliant innovation.

We got a hold of telomere shortening, /By applying some molecular reasoning. ☺☺☺

Immortality FASHION

Would be cool to create more clothing that has Immortality quotes, memes, biology, physics equations (Maxwell, Lambeert law, etc), chemical structure of DNA base pairs, vitamins, polyphenols and nutrients essential to longevity, molecular simulations of humans models for tripling lifespan, the 300 zinc enzymes and 1,000 zinc containing transcription factors, or “Did you know that xyz increased lifespan of worms 2-10 times?” ► and the papers quoted. “That some trees live 637 times longer than others? Some rats live 10 times longer than others? What

if all humans could live 10 times longer by discovering the longevity mechanism?" Reading this while seeing others will have a totally different effect than some random T-shirt design. There is a taboo against infusing our shirts, skirts, jeans, blouses, pants, socks, hats, suits with Immortality memes, but it doesn't have to be so. As our clothing gets saturated with knowledge of life extension, we move faster from Ignorance (Living to 80) to Knowledge (Living to 900+ and in some far far future, 70, 000+ and much later maybe physical Immortality). ☺☺☺☺☺☺☺

5.4. Immortality FOCUSED MONUMENTS, MUSEUMS, PARKS

We have a lot of monuments globally dedicated to themes and energies that recreate in our minds the images of the unfortunate past, when humans had civil wars, violence and human-human wars, when we lived short lives. Monuments to short lived people magnify that imprint on the human quantum field and shorten our lifespan, we need monuments to Trillion Year Lifespan future humans *(shimmering shapeshifting color changing (each form is made of 100 colors) Lightbeing Immortal holographic being singing about the qualities we lack the most, like: gentleness, tenderness,* eterni tone, softness, nurturing grace, World Peace in 3 months on ever new planets, and these qualities and lifespan of 10^{27} years or whatever octillion, etc, are also written via plastic letters that light up at night, etc) if we absolutely need 'human figure monuments'. This helps us to think of the future, not the past so much. We get enough insanity of the past repeating in the present. We don't know who helped humanity the most to move us towards World Peace and || Immortality *for* All ||, so it's not fair or wise to magnify the imprint of someone who was not the best on the planet in that age: if we make a monument about some discovery, the person would be a little footnote, the main thing is what was done to increase knowledge, since actually the doer of good (or bad) is not the person even 10% sometimes, it's the environment and many others too who use brain gadgets to talk or 'invent' thru him. Perhaps if we evolve to some Immortality or Longevity focused civilization we would have also more progressive monuments where the vitamin A, B_1-B_{12}, C, D, E, choline, lutein, iodine, zinc, iron, etc are depicted in amazing & beautiful ☺☺☺ holograms of many colors and shifting *rainbows* showing the chemical structures of these vitamins and nutrients, their discoverers, how these vitamins saved millions of lives, which vitamin/nutrient causes which disease we eradicated, same for zinc causing people to die at 25 when deficient, iodine deficiency causing goiter, lower IQ by 100 points and dwarfism, low iron causing lower IQ by 14 points, perhaps the structure of thyroid hormone T4 (65% of molar mass is iodine), serotonin, neurotransmitters, cortisol, what happens when we move from compassion to anger chemically inside of us and why that ages us, how we can defeat aging, and bring a world of Immortality where ignorance has been replaced with knowledge, and man can neutralize or shift tornadoes when small and turn them into rains in drought areas, just as we shifted "bacteria and lack of vitamins" caused diseases into extinction. And with force fields and things we can prevent all

fires, natural disasters, drones with force fields deployed extinguish fires instantly etc. We would have a cultural renaissance that makes art of chemistry, physics, molecular biology, the properties of bosons, leptons, quarks, etc... enabling all people to effortlessly learn a little group theory in math to understand standard model of particle physics better and other physics things, and the chemistry of iodine or dopamine, epinephrine, and how Krebs cycle happens, different biochemical things, how gene changes made the little worms live 5 times or 10 times longer, mice 50% longer, etc, how we can live longer each century, etc, until we live so long that we become able to see other *universes* and go in between them at will. ☺☺☺

See also the Immortality parks/centers ideas in Chapter 4. For example, on 3rd street Promenade Santa Monica, in 1989 they built 6 topiary dinosaur sculptures (some are fountains) that don't inspire compassion, longevity or hypothesis thinking, as would 6 scientists whose lives, discoveries are described with flashing with colorful neon lights enabling all to learn science. The same can be said for thousands of cities whose sculptures and monuments lack any lifespan tripling or disease curing focus. The metal could be very colorful (10-20 colors) and say "Mr. X extended lifespan of millions of people by 50 years by his discovery of etc". We imitate and get inspired from what we see around us, Rutherford discovery of electrons and protons would be more inspiring than a dinosaur, or someone who helped a disease mortality drop 500 times. Getty Museum and many others have so little space dedicated to alleviating suffering of other people thru science. The fountain uses electricity, so with that, one can make an amazing neon light show, a wonder to behold at night, maybe make fountain smaller with nice physics, biology and chemistry processes explained in the pool on the sides via some LCD with 3D holograms showing atherosclerosis, molecular processes that cause dozens of diseases of aging at once to speed up and how nutrition via supercomputers can help us live to 500 soon. Imagine flashing lights letters coming out of the mouths of Rutherford, DNA discoverers holograms saying "Imagine living to 900. It's possible, all we lack is knowledge, hypothesis formulation and testing". It would be nicer than water out of dinosaur mouths.☺☺☺ Monuments dedicated to ideas (not people) like Gentleness Kindness Smiling are going to be liked by all, instead of these boring one color ones, we get some colorful ones with every letter of the word Immortality or tenderness lighted up by neon lights at night and ultra colorful and shiny during daytime, with soothing eterni tone music about the idea depicted in the background. For any guy who gets a statue, someone will have their favorite person not be represented and feel left out. A way to solve that *could be* to ban people statues; and instead focus on ideas (Compassion, Nurturing Grace, Soft Speech, Healing Tone) that build a Civilization of Immortals. Washington DC has some visible buildings as you drive from Virginia to DC, like the obelisk and that dome right by the freeway, which could be replaced with the most colorful beautiful building that measures biomarkers for free for all citizens, or at least, have some neon lights with Immortality *for* All

written from the top to bottom on all 4 sides, shimmering on and off lights that look good both in sunny skies and also at night and the many Washington overcast days when neon lights would cheer up the mood and remind all drivers of the goal of life, Immortality *for* All. ☺☺☺☺☺☺☺

Imagine monuments that emphasize and display the math, physics, chemistry, biology etc knowledge that saved humanity, that conquered death and aging, etc. This would help all kids to become fascinated with the arts (sciences) of creating the pathways to 900 year lifespans, the art of chemical synthesis, the art of the new physics hadron etc particle synthesis, new vitamin discovery, new matter synthesis in physics, the art of chemistry and physics to build Immortal life here and inter-dimensionally. Some might call that a true longevity culture, a truly pro-life culture. When you look at a monument that is static, you get 10,000 times less info and learning compared to a moving holographic monument made of extremely colorful ever-changing sceneries-lessons using light-lasers, etc, that is so out of this world to behold and also explains what goes on, in those physics or chemistry or biological events. When we would go near a future Immortality monument we maybe will put virtual reality glasses if we want and touch with the hand or via simply looking (eye tracking if safe for eye health) different molecules and bosons to learn more about them or math concepts, and it will be like a nice walk in the park learning something about extending life by a few centuries. ☺☺☺☺☺☺☺ Another death conquering monument would be a monument to World Peace, or and defeating death in all its forms, including lasers to deflect tornadoes, nice lessons about laser physics, etc, atmospheric sciences, etc. All monuments could be emphasizing the use of science and positive thinking to overcome aging, diseases, wars, death, violence, entropy, ignorance, chaos. These monuments can help kids to realize that sciences, like physics and chemistry and molecular biology, can be truly arts, sort of like the 21st century nerdy arts, the arts of the nerdy generations, dreaming up and painting the next invention to help us live longer. Why not paint a new molecule with a nice anti-aging effect enabling us to live twice as long? Living to 500 could be done thru diet and machine learning with millions or thousands of markers monitored 24-7, optimized nutrition (nanograms of everything going in and out, etc), histones change, epigenetic changes. As we evolve in science, understanding what's important for people to study and remember, we upgrade the holograms and the upgrade is done at 9,000 times less cost. Everybody will be inspired to become like an angel so to speak, angel-like when people say they met some spirit in their NDE. Imagine monuments about the qualities of an Immortal (gentleness, tenderness, forgiveness, compassion, patience, eternal learning), or ones that raise the IQ of kids and inspire them to conquer death and aging; maybe play very low volume gentle music close to the monument with "Immortalist Anthem", "Living 500 years" like songs above. ☺

We sometimes hear from theologians that God is pure Knowledge. Perhaps, we might ask ourselves “How can we appreciate and understand God if we don't understand the universe God

created and how the clothes our souls wear work and how they can be fixed to last a little longer, a few centuries longer?" If we can't understand how to create a tiny bit of Immortality in this temporary world, how can we dream to understand the true meaning of Immortality in other worlds and be worthy of Immortality in many worlds? One of the infinite possible answers to such a fascinating question might be that we can't have a true co-creation with God and understanding of God without first understanding deeper God's Immortality and how to extend the "Immortality" of our bodies. Death happens due to entropy and lack of knowledge, even the grass is smarter than humans, because a grass in Mediterranean lives to be 0.1 million years. ☺

We sometimes forget to see how little we know about the infinitely complex universe around us. We could put trees too near holographic moving monuments to provide oxygen, etc and overlay huge holograms there, instead of concrete and metal, have Life, trees, nice flowers perhaps and the holograms that are there making the trees sometimes invisible, the tree at the center, but the flowers can be visible for people wanting to enjoy nice smells and also the *gentle tender soft* music while learning latest physics and chemistry stuff and hearing when very close the audio gentle tender soft voice explain on a background of soothing calming music the science at work in that hologram, what happens with the amino acids, or one of the latest mind blowing studies on machine learning or on zinc etc. At night it would be a wonder to behold, as it's like a light show of amazing & beautiful ☺☺☺ bliss. ☺☺☺☺☺☺☺

Freedom means the freedom to choose to live 900 years if we want to live that long here. We all human beings have one common enemy, death, aging, disease, natural disasters that we can't avert or shift so the tornado energy harms no man, etc. Imagine you would be a parent, like God is to us, would you rather have an IQ 40 kid (iodine deficient) who is totally mentally retarded or a child IQ 65 repeating "God help us" every day 1,000 times for 10 hours on end and being antiscience and anti-learning, or IQ 150 genius learning new things and helping mommy or daddy with some things and discovering new things? So, do we think God would want religious fanatics or science fanatics, in the sense that some scientists have made some temporary science models the New Infallible Religion, oblivious of how little we know compared to future centuries humans, just as we today know way more than people from 500 years ago when their models were so hilarious? No, God would probably prefer Eternally Learning people who realize all human "knowledge" is a model and hypothesis until proven otherwise... allowing for progress and evolving. As we become far more advanced in the future, we will probably perceive today's science and some aspects of religious dogma (like "Earth is center of universe" dogma) as false as the science of the times when "the universe was made of earth, fire, metal, air, wood, the 5 elements" is perceived by us today. Most scientists realize this and have the humility to understand what this means for us. Sometimes progress in science is stopped far more by science fanatics than religious fanatics. We have people strongly believing in mercury, while

other nations banned it in all products, in glyphosate, while others don't etc. We had doctors believe lead is OK in dental fillings, as today some say mercury is OK. This happens naturally due to many factors, including dogmatic adherence to tradition, confirmation bias, and related stuff, as the people who killed Giordano Bruno for believing Earth is not the center of the universe, etc. It's really funny, since it means much of what anyone on earth believes in is actually going to be proven to be at least a little incorrect or majorly so. Everything we believe in is sort of a relative truth that will be proven false by future centuries in a way, as truth becomes far more complex, nuanced and vast. Right now we have a molecular and atomic understanding of disease, but when we go much deeper into particle physics, we may abandon these things to a great extent or totally and go for a "immortal*ic*" (instead of atom*ic* or molecular, immortal being the name of a new subatomic particle) understanding of health and disease, using technologies we can't even imagine now as they're based on undiscovered particles, not atoms and molecules. What I mean in the past man treated things via anatomy, medical science did not know much about molecular interventions and processes, why we see etc... Imagine a quantum leap where the methods of understanding our body are so different, as they're today compared to 1,000 years ago when nobody had a clue about elements, atoms, what molecules, electrons, photons cause us to see stuff around us, etc.. 11-cis-retinal in the eyes... Some things people noticed 1,000 years ago remain true today, just as many things today will remain true in year 3,000. But the difference will be so huge... the structure of the photon... light, quarks, leptons, multiple dimensions, photons themselves possibly being emanating from another dimension...

If we do a statistical counting of words like "gentleness", "softness", "tenderness", "sweetness" in world literature and compare it to the counting of "anger", "violence", "fear", "war", we will be vastly outnumbered by negativity. It's a global epidemic of negativity that programs everyone subconsciously to be less tranquil, kind, *nurturing*, healing, graceful, selfless than they would have been otherwise, no matter how imperceptibly small. Monuments can play even nice movies to promote life, Immortality, longevity, gentleness, softness, tenderness. The monument movie heroes could be those who're peaceful, gentle, tender soft and who double lifespan, bring peace and cancel tornadoes and cure disease and fast aging...☺☺☺ Please don't ever climb on any monument or fence, as it can be very dangerous if spies use a laser to inactivate a muscle and you can fall or impale yourself in a fence you climb, like a naive American who climbed on Colosseum fence, the relics of a stadium where the infinite violence of the Roman empire was celebrated in full display with gladiator fights that killed people and other wrestling and violent displays of the vibe of 6000 slaves crucified in 1 day by one emperor. Coloseum is a monument to abysmal IQ, violence, killing and genocide, like every stadium in USA is too, since sports and watching sports turns people into selfish violent brutes. There is nothing to see in Italy, only the Italian Mafia, Italian spy service harassing you for promoting immortalism and aiding the USA

independence from foreign scriptures of limitless violence. ☺☺☺☺☺☺☺

What is the life of a human being, living to 90, compared to the life of a human Immortal living to 90,000 years? It's one-thousandth of that life, or the equivalent of 5 weeks in the life of a 90-year-old human (90 years is 90 times 52 weeks or 936 times 5 weeks). So, in a way, we're like 5 weeks old babies, who sleep all day and wake up to breastfeed and be loved by mom and dad. ☺ All our entire lives we're asleep, in this self-created matrix, of being happy to live to 80-90. We sometimes wake up, and ponder on Immortality, on how it would be like to live in a Civilization of Immortals. And in those moments we do things that probably really help our advancement towards that future world of Immortals. What is the correct way of treating other human beings? How would God say is the right way to proceed, with unconditional loving kindness or what? Well, if you think about it, how would 90,000 years old Immortals treat their 90-year-old "5-week old equivalent" infants? With purest unconditional Love, Kind Forgiveness and Understanding (regardless of their actions, they know no better as infants), so that might be how we're supposed to treat others if we want to bring this Paradise world into our reality, by expanding Heaven's Ascending Immortality to the physical universe, bringing *Heaven on Earth*. It might also be the behavior expected of those worthy of Immortality in another dimension, but these are of course just hypotheses for some "research into afterlife hypotheses course". ☺☺☺

Albert Einstein is said to have authored this quote “The most beautiful thing we can experience is the mysterious. It's the source of all true art and science. He to whom the emotion is a stranger, who can no longer pause to wonder and stand wrapped in awe, is as good as dead,his eyes are closed. The insight into the mystery of life, coupled though it be with fear, has also given rise to religion. To know what is impenetrable to us really exists, manifesting itself as the highest wisdom and the most Radiant Beauty, which our dull faculties can comprehend only in their most primitive forms, this knowledge, this feeling is at the center of true religiousness.” In the same way, to know that what is impenetrable to us, the Immortals' Behavior, yet filled with the most Radiant Beauty and wisdom, kindness and *gentle tender softness* exists, is such an awe like experience that fills us with the awareness of how immense is our ignorance as human beings with respect to the Future Immortals, our grand grand ... children transformed. If we told a Paleolithic man that his descendants will do what we do today, he would not believe us when we explain some of our tech: turning colorless liquids into other colors via chemical reactions, moon landing, skyscrapers, removing mountains with explosives, etc. Same way, for us, it is very hard to realize how it is possible to live to 90,000 years old or even 9,000 or how "outdated" our sports (boxing, rugby, hockey, soccer, martial arts, etc) would be thought of if we were to live in an interstellar Civilization of Immortals who can move objects with their mind, shapeshift into a spirit the size of a skyscraper that shrinks back to human size perhaps, materialize objects, fly, teleport? That brings to mind the civilization that tries to make every sport an act of selfless

service to the cause of Longevity-Immortality, since there is nothing funnier, more exciting, relaxing, healing and entertaining than helping others live healthier and longer lives of 900+ years. To magnetize the future faster into our timeline, we would have to act more like the Immortals of the future, to keep in mind our vision, GOALS thru Immortality Museums, Parks, etc. ☺☺☺ What kind of *gentle tender softness*, wisdom, grace, loving kindness did these future humans develop as a result of eons of evolution and work to expand their lifespan? Some seagrass is 100,000+ years old, some rock trapped some live bacteria that is supposedly 100 million years old. So, what stops people from living to 900? The Paleolithic man thought at times that the gods of fire, thunder, crops, rain, etc are in the shape of goats, pigs, chicken, etc. And they had all these weird explanations for things that did not really help them much. Same way, a lot of our beliefs today are like that, utterly hypothetical, just hypothesis, working hypotheses that help us until we attain a deeper proof based model of reality. A lot of things we believe into are very hard to prove anyway, in a scientific rigorous way. The stone age man was very aggressive and rough, sometimes even a cannibal, and as we became more civilized we became gentler and kinder. So, over time, as we advance we will have the average person be like the most tender angelic soft gentle sweet being there is today and that's why the Immortals are often depicted as very different than us in terms of personality and even tone of speech. It's like meeting an angelic lightbeing from 1 billion years in the future. ☺☺☺☺☺☺☺

How come, if we're the incredibly smart people we think we are, we can't live longer than even a tree? There are many tree colonies that are very old, and some individual trees that are thousands of years old, one of them is in Sweden, 9,550 years old. We managed to get worms to live 10 times longer as Chapter 3 explains, why not humans? Compared to 2 week old lived worms, we humans live over 2,000 times longer, due to evolution doing small changes to the genes over time and enabling us to live to such a long age. We fly with planes at 500 miles per hour, speeds no natural bird can reach, 10 times faster. Satellites and International Space Station fly at 17,000 miles an hour, why can't we create a food that makes us live 50 times longer? Because we have not tried, but things are changing fast as explained at "protein from air and water via microbes" link. Like NIH, we could create Immortality Food Institute or Immortality Park hiring 3,000 machine learning, physics (for biophotons in foods), chemists, geneticists, medical researchers, doctors, etc. They would be cataloguing every phytonutrient compound in nature and discovering in what ratio which mix of anti-oxidants, amino acids, fatty acids, etc gives us 900 year lifespan and then producing all food needed in chemical reactors or "mini-farm" (contained in a vessel) and later inside our nanofactories enabling us to no longer eat. It's easy to see how thru evolution, we can also reach 90,000 years old, by changing our genes, in various ways, even if we do remain the same size human beings. Perhaps we can try to conceptualize or conceive for a second, how an encounter with an Immortal human aged 90,000

would be like, if we would meet them in person. Their technology may be so advanced, that they can shapeshift at will into different form and shimmer like a spirit, teleport, disappear at will, materialize things out of 0 point energy or other dimensions and talk with a thousand tones of healing when speaking in our language as a song of adoration for the Divine Immortal in us, make us float and feel in the most euphoric and most loved state we have ever been, making us forget all about our miserable existence in this body and fill us with the most *gentle tender soft* love compassion kindness we have ever imagined existing, then taking us on an astral flight showing us many planets and other wonders. These Immortals had to much time to evolve, that all they do is infused with the most *nurturing healing* graceful soft compassion we can imagine.

5.5. Sports become exercising in ways that build ☺ Immortality *for* All ☺

(and the qualities of Immortals; replace the *Sports* tab of websites with Immortality4All, *so* that people can see 7000 longevity news and ideas on volunteering as explained below:)

In the US, and many nations, chimps who move a ball make 300 million a year, or 20,000 times the US federal min wage, while people who risk their life every day (pans, copper, recycling) in factories make 2-3 times more. Why should bipedal chimps, or anyone for that matter, make more than the US President? An ethical country needs to be led by the most ethical person and his salary, ideally the minimum wage, should be the highest in the land. What can be a higher expression of British Royalism hooliganism than that, where these British bandits inventing these sports deify the most animalistic bestial selfish nature of man? These beasts (who could care less about 0.8 million homeless who could use their physical energy to build homes or renovate homes) make millions to build a palace, while others die in tornado storms, due to pathetic thieving 20,000 local governments creating the most criminal building codes. We can't have one government of We the People for We the People, only gangs (local gov) working for the Palatial Aristocrats? Why should admin people make 250K, while scientists 35K? How many admin jobs we need in USA? A real mayor of the USA would make min wage, a real president and Congress would make min wage, as any CEO, person of any ethics. Why should we treat others like dogs? Some "City Council Members" and Mayors give themselves astronomical salaries of 20-60 times the minimum fed wage. No wonder these thuggish thieves call for more stadiums, because the youth needs to sit, not exercise and watch a ball, shout like psychos adoring Hitler and inciting by that infernal hooligan tone all to violent crime, instead of building the World of Immortals. After all, San Francisco is such a "safe" city, because Mayors make 26 times the min wage. Immortalists will cap sports income *to* minimum *wage* on day one. Animals are welcome to self-deport if they want to make more. No animal in all galaxies lives 50 times longer by moving a ball. The US culture of "imbecility for all" makes all want to become a basketball player instead of living to 4000 years scientist, since you can become a billionaire, but as a scientist, your chance is zero. Our "fruit fly IQ" gov☺☺☺☺☺ incentivizes imbecility. What is

more ethical? Adding 5 years of lifespan to humanity's total lifespan years by "orangutan IQ sports" or adding 50,000 lifespan years to humanity's total by renovating 5000 houses that are horrible and add 10 years each to those inside? Using materials/labor for kill kids and adults in roller coasters that always malfunction, for stadiums causing traffic jams and people sitting watching balls (zero exercise, shorter lives) or for preventing 2000 deaths/yr with dome shaped houses that withstand storms, tornadoes, hurricanes? 200 Americans/yr die due to box house shapes, in winds, hurricanes, tornadoes, another 600/year die next 15 years after a hurricane or tropical storm via indirect effects of house demolition, with 3 yearly events, so 2000 people dead/year. Of course, the Right, Noble, Virtuous, Ethical, Eterni Action in Immortality *for* All (not just Spoiled Brats☺☺☺) societies, is that of This Chapter, not the Evil Way of Earth today. Fake studies get published that "people who exercise for fun get 3 years extra life, while those exercising at work don't", which are false, since the poorest get the most menial jobs with high stress and exercise at work is a marker for malnutrition, poverty, lack of education, etc. The other stuff caused the early death, not the physical activity at work. If you teach all kids that moving is fun and wonderful, 7 min/hr, it will be so and via 9000 year lifespan lab cleaning, movements etc they add 8920 years to their rat 80 year lifespan. But when fake science is all we got, we get more of the same bullshit, correlation is not causation. With 11 companies and no unemployment, with kindness and free education for all, we get no stress, listen to serene mp3s if we want more endorphins while doing a physical routine task robots don't do yet, everything is designed for low stress and people enjoy their 1 hour daily of physical stuff that is evenly distributed for all, in order to give all a chance to exercise and injure nobody by having them strain physically 8 h/day in jobs that obviously damage the joints, muscles, nerves.

The 20,000 local governments don't care that 2000 die yearly from preventable causes, perhaps we need to dissolve them, so that Immortality Building Inc can build, repair, maintain (all folks will buy/sell houses in 3 days) all US buildings, inspecting them every 4 months, which none of these parasitic governments do to ensure healthy building codes, healthy living conditions, clean air, constant temp, humidity for all house rooms for max lung lifespan, for the 99% living in "crap houses" created by the "cabbage IQ"☺ parasitic aristocrats. The storms force expensive or self-made house repairs too, which then distract a person from fixing their health, causing a stroke or infarct that ends a life, so the death toll can be even 20,000 a year, a genocide of 200,000 a decade, all in the name of 3 Gospel quotes they profess to follow while shouting like Hitler on stadiums. If one is lucky, one could add 8 billion lifespan years to humanity, by for example making all take more vitamin D + MK7 (vit K2) + Mg, which was shown to add 1-5 years of lifespan in most people if no other change is made, but with playing a sport, one adds nothing, he subtracts as materials to prevent deaths are stolen. Nutrition policy changes have a truly amazing impact, not to mention the fetus change of nutrition by 1-4 compounds that

would add 4000 times 8 billion, or 32 trillion lifespan years. So, what should our society praise and focus on in the media? Sport thugs rewarded with 100 times the wage of hard working scientists? Or the ethical use of physical energy, physical exercise and scientific research as explained in the 60 pages below? Thus, the Immortalist Party, gently floating on the caressing soothing waves of the compassionate all merciful graceful☺☺☺ Immortalist Anthem guided New Sports, is recreating America into the Glistening Garment of Virtue Radiating in all *Universes* as The Light of a Trillion Suns, so all can rejoice in the Resplendent Magnificent Bounteous Effulgence of Eternal Immortality *for* All. The 11 companies create the altruist vibe selfless "sports" ☺☺☺☺ of a gentle tender soft nurturing loving healing kind universal Family of Immortals, the radiant teleporting shimmering genderless shapeshifting☺☺☺ Immortals aged a trillion years☺☺☺ who can live on trillions of planets shapeshifting☺☺☺ into the local lifeform adapted for that temp, pressure, ☺☺☺☺☺☺. Science shows stadiums and big sport events act as huge spreaders of disease, besides making people sit instead of exercising. Stadiums are genocide. Sports, walking, jogging, pushups light up don't aid working memory, we need smart EXERCISE, that lights up the WHOLE BRAIN like alternate knee taps (jog in the same spot sort of to increase hippocampus volume the most), alternate elbow taps, etc, all while counting backwards 100, 93, 86, 79...or by 6-8 etc, finger taps, to prevent hyppocampus memory center shrinking. After 30, your working memory declines, and that's the key to science and being productive. We need 900 exercises, a new one daily, sent by email by the Immortality Nurturing Agency, that is challenging, not repeated daily, to create new neuron connections: 10 min daily, each day a new set of exercises to increase brain efficiency, so normal life takes less glucose, so that the surplus glucose can go to the areas in need of repair instead of the same 3% of autopilot life. Neurons die due to lack of glucose & connections. ☺☺☺☺☺☺☺

A few people have allergy to exercise, so they may suffer severe reactions and die. It may be a mental illness called psychotic selfish syndrome to want to play sports that add only 5 years to one's life, while the same physical energy can be used to replace carpets in millions of homes that are literally killing people now as we speak thru the pathogens and chemicals those dust mites, bacteria, microbes produce in the air every single day. Everyone complains that the "landlord doesn't fix anything", yet teens waste eons with street takeovers or useless sports, etc mandated by a chimp IQ educational system, when they could be listening to eterni music and work on "carpet replaced with wood" etc projects that add lifespan years to others, besides allowing for movement that gets the lymphatic detox work better, joints lubricate, heart learn how to cope with physical demands so heart variability rises, adding 5 years to lifespan, etc. It's all about Math: if you play basketball, you only benefit self by some movement, plus damage the joints from all that jumping or ball hitting head shortens life via Alzheimer. If you replace carpets as a sport, you move, live longer by 5 years as with any sport or exercise, but also help

others live longer, so over 40 years (of fixing about 30 medium houses/year as a hobby), you help 5000 people live 5 years longer, so you add 25000 lifespan years to humanity, not just 5. You can even make some extra money, even if a teen, working under adult supervision, etc, or as an adult, to help you improve your air filters, diet, etc. Why is our society so stupid to not understand doing 5000 times more good is 5000 times better, healthier, more ethical than any sports: 25000 lifespan years added vs just 5? Because "sports lovers" are in power and they create low IQ policies, cultures, etc. When watermelon IQ people☺☺☺ are in charge, life expectancy increase is pathetic, 1 month a year, as today. Some mosquito IQ☺☺☺ guy of "Christian ethics" saw kids do drugs or crime so he came up with the idea of playing basketball indoors, as if they didn't have a trillion other more important renovations to do to improve the terrible conditions of the Americans in the 19th century. It's never too late to correct the pathology of adding 5000 times less lifespan years. The amount of stuff that needs to be fixed and can be fixed by volunteering, even paid at lower rate, under staff supervision, with the 11 companies, is huge, our countries' food industry, vertical farms industry, building, shelter, housing need more work than all "sports and gym fanatics" would ever be able to fulfill, yet instead of being fixed, the broken stuff across industries etc sits dead, killing everyone slowly, all because of a cult like dedication to the aristocratic palace dweller obsession of "fitness" needed to load 50 lb artilerry shells to kill in wars those who dare to doubt the fake miracles, fairness of society or its "kind Bible" ethics they hide from us. Endless people got killed or disabled by tick bites due to lawn not being done for 4 months, and they claimed it was a natural death. Others died due to mosquito bites, as nobody replaced the broken window screen allowing insects in, the cruel selfish sports players made a society with lubricated joints, but hearts of steel. Why not have soft hearts, the soft outlives the hard, all the 5000 people you helped live longer could discover stuff adding 40 yrs to your life. ☺☺☺☺☺☺☺

Soccer players have shrinking brains, soccer needs to be made illegal, as well as football and other sports that hit the head. People who play balls sports become bed ridden, unable to recognize anyone (100% dementia) due to head impacts with balls that make them a useless vegetable unable to do anything. An athlete turned into a savage chimp by sports also, killed 5 people and almost killed a cop: the evil influence of most sports is evident, for if that sport was so transforming, how come it didn't turn him from a troubled man into an ethical kind person who would not have committed any violent crime before the murders? Did any sport teach him to not kill animals and people? No, these evil sports are not immortalist breathing infused immortalism building. An 18 year old kid, who practiced boxing, killed a 64 year old using the stuff he learned in boxing. Boxing ought to be illegal, except for cops. The next 55 pages are a wake up call for all kind people worldwide, who're not familiar with the reasons (besides obvious brain damage from rapid brain shaking *when ball hits* head and vision loss) why we

immortalists call sports as they're today, pure evil, egoism, 0 IQ, time wasting. Research shows those who exercise more experience faster cognitive decline in old age. Even the 1896 first modern Olympics, founded by a French aristocrat Baron Pierre de Coubertin (out of touch thug who loved boxing, as the most evil humans do, with the poor, like bastard USA aristoc-rats), after 14 centuries of no Olympic games (ran every 4 years from 776 BC in Olympia, Greece until 426 when the Roman emperor burned the temples at Olympia where unofficial games still happened well after the 393 last official, as he thought these pagan events worshipped fake made up Gods), are a terrible curse, grotesque display of selfish egomaniac psychopathy (lack of empathy for the players, viewers of such violence, for the poor deprived of decent housing that could have been built with the $, time and physical exercise energy wasted). This is natural, given the cruelty of Greeks who slaughtered 2% of world population (1 million) or 170 million in 2026 during the Alex Macedon reign: the rat IQ Greeks believed Gods loved to wrestle, play sick sports. Humans everywhere thought Gods are like them, so they created religions, Olympics in their psychotic violent image. See how the whole planet is brainwashed to watch injuries of selfish cruel people who ski while billions need tp remodel homes to make them add 2-20 years to their lifespan by removing wild temp/humidity changes, flood, hurricane risks, bad indoor air quality, mold, insects, noise, lead. Injuries of athletes cause enormous waste of national medical resources, as millions of gnat IQ folks practice dangerous sports. All it matters is aristocrats brainwashing workers to attend filthy egoistic displays of trash. How selfish one can be to pay to watch chimps wasting their lives with such infantile acrobatics. Running and wild sports daily is a disaster, it is far worse than walking, see the evidence. Ski resorts (8 dead), hockey arenas, ice skating, any sport requiring facilities (walking, pushups, squats at home ok) are acts of genocide, when you realize that all this effort can be used to build single family homes in sealed healing cities for all prisoner scapegoats.

In males, pushups, squats and other simple gymnatics exercises we can do at home (without burdening society by theft of materials for stadium, courts, equipment) add 8.8 years to lifespan (the most of any common sport or exercise), vs 1.5 football, 2.7 basketball (negative -4.5 in women), 2.6 rugby (but neck pain from injuries), 0.2 table tennis (-4.2 in ladies), negative -2.1 handball/martial arts, volleyball -5.3, sumo -9.2, as if God rewards the thief less, as ball sports (requiring theft of national resources for facilities) gain little, while violent sports negative or negligible gain ► GS 2024;47(2):1397-409. However, true nutrition adds 4000 years, not 1.5 of football. Circ 2026;153(14):1009-22 found more plaque in those who exercise too long daily, so too much exercise shortens life ► JER 2016;12(1):42-6 “death (risk)... is 5 to 7 times higher” & MSSE 1987;19(3):187-94. Prison makes people worse, raising violent crime which fuels genocide, war. Why kill animals, eat blood, when you can walk 1 mile in the huge Eterni Foods factories or labs? Just maintaining the lab makes you walk 1 mile, no need of sports courts, and live to 4000.

☺☺☺ Satan, Penta-gram, 5.5. this chapter, is about Satan's sports, the Lord of Death. Science shows that all who lived 110-122 were gentle folks who did NOT exercise much at all, while the haughty infernal music lovers tender to love exercise and die before 105. God graces rock and violent music singers with early death, to limit damage done, none of the demons lived long. Each gets what they worship: self muscles or selfless service to humanity, Satan or God, death or Immortality. Heavy exercise is high body stress, a waste of God's energy for self-adulation. ☺☺

Did you know that walking 30 minutes a day (in service to humanity, like cleaning immortality research labs, etc) was 2.5 times better than calisthenics exercise at preventing the flu? If you love sports, please kindly stop all your spare time activities and read the next 50 pages (with all videos, each needing 1 min to watch or so) in the next few days, so that humans survive. Given that all humans may disappear in 10 seconds soon, given that a trillion violent crime incidents (mostly unreported) happen each year on Earth besides the ***war mass violent crimes***, when only 1 incident max would be acceptable in a real civilization, the only ethical sport until all violent crime vanishes is the use of physical energy to bring World Peace in 3 months and 0 violent crime in 20 years so that we can sustain that World Peace via a culture of 0 violent crime and Long Lifespan for All. Anything else, moving balls etc is unethical, or "depraved" if you want to be more poetic, especially when it uses so many resources that could be used to reduce violent crime, to house all better (crowding leads to anger, crime, war via vibes), to create nicer tones of speech than sports yelling that leads to war too indirectly. A million people died needlessly last 2 decades in the Middle East, while everyone was busy playing sports and not doing anything to stop it, because moving a ball SPORTS as a hobby is OK, but World Peace in 3 months SPORT is NOT. Who said that? The conmen claiming to be Christian who made all worship the ball/Baal. What is war but human sacrifice, burning of babies in fire, like Baal worshipers did? Why not exercise at home to save materials, since today youtube has 1 million "exercise at home" videos for every taste? Humans got Olympics for air rifle shooting. Maybe the Immortal descendants who live to 290 exercise by creating an artificial womb so a new human emerges that lives to 5000, like bees who live 50 times longer when fed a different diet. Human sports shorten lifespan, the Immortals' sports are science that extend life 1 trillion %, vs 5% for sports today. Hitler wanted kids to "terrify the world, a violent, imperious, fearless, cruel youth... trained in all physical exercises" *Indeed, USA* does *that, being a Dictatorship of Jewish/British/etc Nazis.* Go to any gym and it's like listening to Hitler, the music... any grocery store, mini-Hitler music. ☺ Filif cockroach IQ folks☺ believe in the power of violence, war, not of physics, kindness. True to his demonic vibe, Hitler wanted a cruel youth, like his infernal tone of speech. His Mein Kampf is all about war, not peace, as the way to peace. Football doesn't make kind people, it makes thieves. Football and all ball sports don't build homes for the homeless, or develop compassion, they only build selfishness, aggression, meanness and violence. Walking is better than all sports and

running, walk while doing lab work at the Immortality Unis. Many college professors researhed until age 104, walking daily to the lab, etc: no sports/cardio/runs.☺☺☺

This chapter will be a total shocker for many Americans, who have no clue what lesser known savage sports, hooliganism, cruelty, 0 IQ and depravity rule supreme in some areas in the "greatest country on Earth", all in the name of "sports and entertainment". The immense *selfishness, institutionalized lack of universal loving kindness, disrespect for the* human quantum field *(bordering on cruelty)* of our cultures are evident in the way we design our websites and news reports (see more on that here): decade after decade, since times immemorial, we have leveled cities like savage ants, Syria (video) and Ukraine (video) recently. Yet, on most news sites, like Yahoo, etc 2 tabs that stand out are Sports and Entertainment. So, how is spirituality and ethics, while millions are killed and become refugees, compatible with *having no tab for 1.* Immortality4All (*how to live a long happy life, being* entertained *by the amazing & beautiful* ☺☺☺ science *for all discoveries on how to house all, give all 900 year lifespan,* achieve peace without violence, pain, *torture during the mass destruction of millions of soldiers who're tortured to death, brain damaged, compassion deprived, dehumanized almost during training by the inhuman generals who terrorize the human quantum field and delay longevity for all*) and *no tab for 2.* Peace3months to help All get decent healthcare, weekly email on living to 200 for lifelong education on how to prevent disease before it strikes, so All live longer and we reach World Peace in 3 months. Later after Peace is achieved (*may take longer than 3 months, first we need to get everyone informed about the possibility and excited about it, to enlighten everyone we don't need to wait for some sky god to appear),* we replace Peace3months website sections with others. The next tab is 3. Free10Years to end all violent crime and prisons in 10 years (healing centers replace prisons and most people, except for violent crime, do the healing courses at home or by visiting a healing center once a week to raise their vibe and ethics understanding)? Later, they can make 3. Home30Years (replacing all *healing* centers with doing the healing at home). Later, replace it with 3. EternalKindGrace for ever higher eterni vibe. Without the numbers of course. We can finally realize the entire society creates all crime and scapegoating (punishing one guy, instead of healing and educating 500 involved) treats symptoms, while not allowing society to solve causes and move to civilization, with no fear of being robbed or attacked, covertly or overtly, in our home or outside. Another tab could be 4. EternalBliss to help people to be happy (0 suicides, not 700000 as we got now on Earth), relaxed, creative with the best news on boosting cognitive performance, mental health via improved sleep and habits. Finance tab would disappear, just like the savage Sports one too would vanish (sports replaced by Immortality Building volunteer etc articles of the Immortality4All tab), as all banks and stock markets vanish, in the light of Eternal Universal Kindness of the 11 companies or so, with no unemployed, no aristocrats, no stock trading parasitic liars and their evil banks, no

realtor bloodsuckers, no merchant class, no traders, no middlemen class, nobody allowed to solicit, to spam people with ads, trees cut, fund raising, or with any "sell toxic cookies or candy to raise $ for violent brain destroying tone destroying sports of chimps"). All product suggestions sent to reviews.gov and they will immediately work on those, ask people if it's a good idea, etc. Is it not the time we actually start caring about other people too, instead of just laughing and moving balls while others are exterminated in wars and jails? The gov is clever, they keep people distracted with soccer and comedies, fake miracles, while taxpayer money is used to flatten cities in the name of Jesus, Mohamed, Buddha, Krishna, Ram, Moses, communism and others are busy☺☺☺ making 'entertainment' odd videos about human sacrifice simulations (war and torturing people to death slowly in jails is human sacrifice), as if we don't get enough 'sacrifice' at Catholic Churches Eucharist daily 10 min ritual of "eating the body and blood of Jesus", that incidentally, for 2 millennia never brought peace, so why do we still do it? Bad diets accounted for 20 times more lifespan years lost, versus physical inactivity, and bad sleep due to torture even more.

Isn't it odd how we have trillions of TV-radio hours dedicated to sports and 0 to World Peace realization within 3 months, step by step plans? Millions in Eastern EU and other nations don't have electricity and the youth is playing various odd sports (see face) (new sport in East EU, US, Russia after post 1989 amazing 'democratic' values have flourished) when they could help others have a toilet inside the house or solar panel for light, etc. People dance wildly at bad music concerts and waste time in fancy sports facilities and gyms, while their fellow citizens starve to death or suffer due to simple things the youth, adults could do as part of the Eternia Volunteer Network or as employees of the state companies that centralize and bring a sense of altruism. Gyms are full of mold in the shower (go see) and those going there die earlier as such. Why can't we exercise at home (pushups, etc, youtube got 9 million videos on how to do it at home without machines, without weights even) or help all workers get single family homes built by world's most advanced house building company, the only house builder and maintenance company in USA, Immortality Building Inc? This company is so advanced, all procedures so good, some simple tasks, 1 out of 60000 for a house, can be given to volunteers in need of exercising, to save materials wasted with gyms and to prevent back pain from some people doing all the lifting all day long, like compassionate immortalists would do. Just have some nice eterni music (peaceful, to end all wars between workers staged by aristocrats to destroy workers) playing in an earphone and lift some stuff, do something so all can relax and not damage any spine or organ by over exertion. Let all be *relaxed* happy and content in 11 companies, not just the aristocrats torturing workers to death. Why do they need 4000 gym networks? Would one not be enough, one that is truly clean and well done? Tire particles from driving 4 extra miles to a gym of your network means more smog from tires inhaled killing all, short lives for slaves, longer

lives for the aristocratic pigs who exercise at home and own each gym network spewing mold into everyone's lungs, worker lungs, cannon fodder soldier lungs, etc. The aristocrats don't want volunteering, as that undermines the money for everything system used to *subjugate* all.

All nations have ghetto areas that most nearby don't know, due to systemic pathological selfishness and decentralized apathy. Anyone with an issue would ask for volunteers to help via the Immortalist Volunteer *Network*☺☺☺, a system present in 200 nations and run by the government to give people a chance to develop muscles via actions that benefit others too, not just one's fitness or health. Glorifying Sports while never talking about real peace soon can lead to humans disappearing in 10 seconds some day. *Each* act of violence, yelling, torture, threatening is downgrading the human species quantum field and leads to more wars, each war makes longevity, health progress 70 times slower, as it starts another 100 wars and people make tanks not medical tech. Even when people don't care about some war far away, they don't realize that because humans are so alike, any bombing anywhere *destroys* the quantum field of EVERY EARTH CITIZEN SHORTENING THEIR LIFESPAN by pure *physics*. *Will we ever grow up and remove all violent tone and movements in sports, the huge selfishness in our cultures?* ☺☺☺ Is the sports obsession the epitome of ethics, kindness, spirituality, altruism, religious regimes, communism or "evolved" liberal democracy culture? ☺☺How long does one need watch a soccer or etc ball moving or move it and holler about it before really caring about millions killed in wars and/or made homeless decade after decade? Why not watch the balls of cannons, rocket parts, bullets that destroy others to develop some sense of what one's own taxpayer dollars is used for? Are Olympics, stadiums, sports events, more important than ending these WWII like destructions of cities? Teen died due to playing soccer, parents beware, *don't let kids* play violent gangster sports brought by British imperialism and aristocratic leeches. Build houses, for those cannibals don't care about the locals housed ("jailed") in tall condo buildings that fall in earthquakes, about the endless deaths in wars (in 1000 years, no British king talked of World Peace in 3 months, the end of suffering of the poor soldiers fighting to defend the aristocratic and royal family) they only care about torture (to maintain the eternal power of the aristocrats and royals over the rest of nations) or entertaining themselves with sports on gigantic estates, this is how soccer, basketball and other depraved sports emerged, in *aristocratic circles*.

It is wise to move away from *the sheer "selfish low IQ" that defined America for 250 years*, as some of the popular anti-immortality sports show: train wrecks that kill watchers of the 'fun' event: 40,000 plus Americans watched in 1896 as two trains collided on purpose: 2 got killed, many maimed. *This was a popular sport in an era when egoism, 0 IQ & callousness ruled supreme*: who gives a dime about millions living in terrible conditions, when one can waste time smashing trains and collecting the garbage and treating the injured? Even today, *0 IQ* Americans have demolition derbies, where people get crushed, watch the Utah video and also the Montana

killing of one in another demolition of cars "sport" nobody hears much about. Monster truck rallies also kill people, see this one. *How can a kind government legalize such brutality and unsafe stuff?* An immortalist government would be even more against it, since those collisions lead to injuries that damage the quantum field. ☺☺*Lovingly tenderly gently kindly*☺☺ *WAKE UP AMERICA*☺☺. Mexico monster truck rally killed 9 people. A kid died in 2009 in USA due to debris flying at a truck rally. While others are homeless or too old to fix their car or have no car, selfish people watch trucks do lots of damage to front rows which will take time away from building a small house for a homeless, spend 'eons' to maintain these garbage cars before the contest and to prepare for these useless events: again we see the "fun first, maximum lifespan for all last" mentality that teaches kids to be selfish and callous. *What kind of 0 IQ parent would take their kids to such horrific brutality?* Let kids, parents design better railroads, we got 1100 railroad derailments every year in USA alone, why not spend time to learn how to bring that down to 1 a year? It's a kinder hobby for sure. One website claims that USA has 106 times more train derailments per mile driven than Europe, and 383 more than Japan: more profits for CEOs? Or Immortality Capitalism? What kind of "Christian" or humanist virtue is that? *Then they say there is no space for houses, what? What is that selfish "0 IQ" stadium for? Shouting? Trucks?* By the way, horse riding, (google "horse riding traumatic brain injury nih") due to extreme shaking, soccer, football, etc due to balls hitting head can damage brain and *shorten* lifespan, see sperm and egg damage section on why it's bad for offspring too. A *guy who did 0.25 million brain scans* saw American football players have brain damage and a kid who had some depression and anxiety and it was because he played soccer all the time, hitting his head with the ball. In the "nonviolent" America, the priority is horse racing, polo (watch injury) horse games, horse stables that stink and pollute air near houses, not requiring the end of production for FPR 4-10 air filters and making all FPR 12 at least. Horses and their abuse during racing seem more important than humans and kindness. While people are crowded and living in dilapidated condos, we got 678 acres for horse thugs. Nobody ever lived to 9000 by playing sports, yet with eterni diet, we will. Queen bees start from the same genes/larvae: a different diet makes them live 50 times longer.

Before going *into more regular physical sports, this paragraph will mention a few obvious things about intellectual sports.* ☺☺ When we're kids, we're taught to play chess, sudoku, crossword, monolopy, card games, all kinds of things to "stimulate our brains". However, when we do that we waste an opportunity to engage in an intellectually challenging "sport" that would do something good for humanity and take us out of dreamland of a chessboard to the real world of developing empathy and awareness of the insane violence that causes so many wars, the limitless ignorance that causes aging, inability to prevent natural disaster deaths (block tornadoes before they form, etc) and diseases that shorten our lives 10 times compared to the potential 900. For example, instead of random videogames, one could play FoldIt to predict the

3D structure of a protein. Nature 2010;466(7307):756-60 concludes that "Our results suggest that scientific advancement is possible if even a small fraction of the energy that goes into playing computer games can be channeled into scientific discovery" *for 900* year *lifespans.* Science Magazine explains that FoldIt players could do as well or better than supercomputers. Like with these issues solved by wasted mental energy, instead of chess or bridge or other useless selfish games that benefit no others except the players, people can walk the gospel/scripture they believe in or preach and engage in right action, selfless universal love, service or constructive mental energy spending and come up with a better method to deaddict many homeless people to alcohol and drugs, so they can hold a part-time job and pay the rent for the refurbished empty housing (16 million empty for 0.6 million homeless, see below) that volunteers practicing Immortality Fitness (described below) have renovated. A major problem with homeless people is that many of them are drug and alcohol addicts. There are thousands of problems we have in science and society that require more than physical energy, they require a lot of intellectual energy and sometimes emotional energy, as in hands on healing, interaction, making people motivated and excited about building ***Heaven on Earth***, the Civilization of Immortals, instead of alcohol. If all our mental energy is wasted with chess, what is left to help fellow human beings to live to 900 and to develop virtue, or spiritually or inner peace? ☺☺☺

Physical Sports don't develop us as healers, as radiators of healing, of chi (medium infrared containing), as emotional healers, as world healers who bring peace within conflict, as World Peace bringers who end the hypnotic grip of the historical death force on every aspect of our civilization. They don't help us develop empathy, compassion, understanding of the reasons we can't live to 900, etc. However, serving others and doing something useful for humanity, or gentle movements can help us to develop more than physically, to create the mind, the neural pathways, the selfless patterns that bring the world of Paradise. In a world of intellectual sages (Immortals) who can *levitate stuff via* force fields, *where physical strength is useless, nobody cares about* physical fitness. What we care about is gazing, emotional, tonal, healing, linguistic, telepathy, astral fitness more, not about being strong physically. Isn't it funny how we have all these fitness centers everywhere for PHYSICAL, but no center for the 7 types of fitness of the previous sentence? Does that show an unconscious recreation of past "lack of peace" on Earth? The 7 types of fitness don't require more than gentle exercise as in helping others, chores, building a house, Immortality center, in service to the Civilization of Immortals as below:

When we manage to live to 200 or 3,000 years old, and can move objects with the mind, levitate, teleport and materialize things via telepathically controlled picobots etc or whatever new discoveries of force field projection from sunglasses to levitate objects and to even transform in mid air a ball into an inflated unicorn that changes colors and shimmers as it flies and goes up and down, left and right, in spiral in its flight, there is no longer a physiological need

to practice any physical sport or activity or to have strong muscles. Our concerns then are loftier, like how to create the most healing tones of speech and uplift the Immortality Awareness in others thru the most positive content of speech. And people won't have any real interest in the banal moving of balls or things in sports or fitness anymore, as everyone is 100 times more intelligent than a Nobel laureate today. For example, a 5 year old finds hide and seek behind cars or bushes in the neighborhood very intellectually stimulating and exhilarating, but as we reach 30 we find that boring, preferring some sophisticated video game that allows us to do a lot more, like solve protein structure or a game of taking a car apart and reassembling it, or building an electric car or a solar panel system or something far more complex. The 50 year old today is compared to a 500 year old of tomorrow like a 5 year old today is compared to a 50 year old today; his mind is very simple, very toddler like. Monkeys find it appealing and truly not boring to jump in the trees and do some really (boring to us) simple things they do for play; but to us, who only live 1.5 times longer or twice maximum, those things are boring, when we know we can play with holograms and design things and games that are way more interesting. 900 year olds can create wormholes, teleport objects, change elements, shapeshift objects as they travel in midair (i.e. a ball can become a real purple dove that changes its color from shimmering purple to shimmering gold as it travels and back into a basketball ball that then can change shape and color to a moving spiral galaxy like object, or become the most amazing & beautiful ☺☺☺ flock of doves that arrange themselves into a shimmering Christmas decoration saying "JOY" or "World Peace without violence in all worlds is possible" or "Living to 900 or Mind over Matter" - like we have objects lighter than air, a ball can become 100 doves) and objects that fly telekinetically and shapeshift can change the direction 90 degrees or anything, make flowers bloom fast, prevent droughts, floods, help all animals to become vegan and then eterni, to prevent an animal eating another by giving the animal some materialized shapeshifted dirt that becomes a nice cake the "now vegan" cat (or other carnivore) eats in order to avoid the mouse (another animal) being eaten (which would cause suffering and negatively affect the human mass consciousness due to similarity in brainwaves and neurotransmitters), slow down time and speed it up so to speak. A 900 year old goes on a space travel, visits a planet, sees some non-vegan animals (lions perhaps) and then decides to materialize vegan food to help local animals go vegan in minutes via a mind-blowing brain molecular reprogramming of likes (taste receptors, pleasure centers, stomach chemistry, etc), where the desire for meat or violence against other animals (deer perhaps) instantly ceases and he wants only the materialized vegan or eterni food and only to love and hug all animals as the lion does with its offspring; to the space traveling Immortals this sport is more compassionate than punching, rodeo (where cows and horses are often abused) or boxing or somewhat pushy sports with shoving and pushing, as it prevented the suffering of the eaten animal (deer perhaps), more complex and intellectually stimulating, aesthetic, uplifting, graceful, useful to the intergalactic Civilization of Immortals.

We, at our level, can't do this to carnivore animals in 5 minutes, it takes us decades or years of training an animal to be vegan and to turn dirt into vegan or Eterni Food (element conversion is not easy), just as ancient man could travel only at 25 miles an hour, not 200,000 miles an hour as the Helios 1 solar probe could last century. As such, to the future 900 year old humans, our simple games are ultra boring. We see what a gap can exist between monkeys and us, who only live twice as long maximum, not 10 times longer. Right now, moving a little in simple chores at least or walking is helpful and increases longevity, while sitting all day is unhealthy and our minds and science are not those of people living 10 times longer. However, a study found 20% of centenarians don't exercise at all and 40% only moderately, so longevity is way more than moving a little bit, some college professors lived to 102 and they really moved very little. Obviously if people of the future are way smarter than today and can live so many centuries without sports and fitness, they will most likely be interested in living longer not in sports, in helping others diminish suffering due to ignorance and lack of knowledge, in finding about the universe, as their IQ will be also way higher and their idea of fun more complex than the simple stuff in sports, sports which add very little to human knowledge about overcoming death from hurricanes, fires, floods, earthquakes, diseases, aging, violence. However, in the transition period to that World of Immortals who live centuries or millennia, the sports culture may go thru various degrees of transformation and some possibilities are explained below. In the transition period to a world of 900 year old Immortals, some professions (soldiers, law enforcement) do need a high degree of fitness, so for them it's a day job component, whether they like it or not. We have a very primitive neuroscience and we have few activities (divine ecstasy states) that are known to give us a joy far higher than physical activities (the "running high") or even orgasm do thru endorphin release. But people of the future have a much more advanced undetrstanding of these meditation states. For these reasons, one can see how the future humans find current sports ultra boring. We live now 30 times longer than mice, are far more complex in our ideas of fun. People of the future, who live 30 times longer than us, are far more complex, able to do things that are now pure science fiction, element conversion at 25°C.

The skill of sumo, bull fighting, boxing, etc is not really useful in defending a planet against various antimatter weapons that can vaporize cities in seconds either, so the utility of playing certain sports hours daily is reduced even from that point of view, as karate, martial arts, soccer, running 20 miles daily, etc won't take down aliens who can dematerialize our bodies. Eternal World Peace can be achieved soon without anyone learning karate, punching, boxing, martial arts, mixed martial arts. Those who say we need them as like those who say "we need to use turtles or donkeys to travel, we can't simply use rockets to travel to space or 4000 miles an hour vacuum trains". It's important to remove the genetic memory of violence against other humans by removing all violent sports, scenes and references in music and then gradually from all

Internet and literature as violent crime becomes lower. Nobody needs fighting skills, since cops can use the instant death penalty for anyone attacking innocent people: shooting suspects dead. The macho people in gangs, police (one guy lost his legs), military cause millions of injuries each year, to brain and body parts, via their infinite violence, the expression of the evil world disorder ruling the planet via the evil Bible, and highly fueled by the United Satanists of America. Some guy might get excited and try punch an alien, but the alien might dematerialize the guy or turn him into a sculpture made of gold or some other substance. *Additionally, shaking one's head as in punching, boxing, martial arts, jumping in basketball, baseball, volleyball, wild gymnastics jumps, etc* leads to brain damage that shortens lifespan since all body functions are controlled by the brain. No long lived basketball players exist, but tons of 113-120 year old tai chi or gentle stretching exercise practitioners exist. Brain damage also damages the sperm quality, since the brain controls reproductive organs, and those practicing these pass lower quality genes to offspring. It's almost like a karma for violence promotion. The brain is a supercomputer; if you take any computer and shake it hard, it will be damaged, sometimes irreversibly and last half as long. *Car suspension would need to be good for those driving a lot and those who bike a lot could use very good suspension bikes,* if the roads are bumpy, *because biking 30-45 min daily on bumpy roads can shake the head too much over a period of 50 years, providing shocks similar to those in some sports thru cumulative effect.* ☺☺☺ Sports longevity data seems to say that those who practice the most physically aggressive sports (boxing, martial arts, even Shaolin monks who practice some meditation too which may offset the rough handling) with most head impact live shorter than those who practice gentle sports (those who practice tai chi or gentle qi gong). Did you know that one person boxing (no other partner to hit head) is popular even among French presidents, yet could cause some ultra mild shocks to the brain that are not healthy? Let us hope presidents build houses like Jimmy Carter Habitat for Humanity and clean eterni labs by walking there, etc, instead of boxing, which is a bad role model for World Peace in 3 months. Once again, immortalists are for Immortalist Anthem ethics of being gentle kind towards all, etc. ☺☺☺☺☺☺☺

"A history of concussion has been linked to suicide, depression, dementia (Alzheimer) and a chronic traumatic encephalopathy, severe shrinkage of the brain tissue. The concern over concussion has spread to boxing, hockey, soccer, rugby". nih.gov...6 explains "The authors reported that athletes with a high exposure to head contact had lower cognitive function than did those with low head contact exposure.... both the two-concussion (n=50) and three-plus concussion (n=48) groups scored significantly lower on the verbal memory test than did the no-concussion group (n=50)... One study of 37 former professional soccer players found mild to severe deficits in the areas of attention, concentration, memory, and judgment in 81 percent of the players. The authors speculated that this finding could be indicative of permanent organic

brain damage resulting from repeated traumas from heading the ball (Tysvaer and Lochen, 1991). In another study involving 53 active professional soccer players, impairments in memory, planning, and visuoperceptual tasks were observed and compared with those in non-contact-sport athlete controls. Among the soccer players, performance on these tasks was inversely related to the frequency of heading the ball (Matser et al., 1998). Features of Chronic Traumatic Encephalopathy (CTE, from head impacts) include the progressive decline of *memory* and cognition, *depression*, suicidal behavior, poor impulse control, *aggressiveness*, Parkinsonism, and *dementia*... studies indicate that head injury is a risk factor for the development of Alzheimer's disease and other dementias". Hockey, rugby, boxing, football, soccer, martial arts, etc can lead to traumatic brain injury. Moderate and severe TBIs (traumatic brain injuries) increase dementia risk 2-4 fold ► ARN 2012;69(10):1245-51. Former National Football League (NFL) players 50+ years old are 5 times more likely to have dementia than the national average for 50+ men; neurodegenerative disease mortality is 3 times higher. CTE subjects were 3.8-fold more likely to have Aβ (amyloid β) plaques and developed them 10-15 years earlier ► CPHR 2015;19(10):47. Chronic traumatic encephalopathy (CTE) was diagnosed post-mortem in a high proportion of former football players whose brains were donated for research, including 110 of 111 National Football League players, according to the JAMA 2017;318(4):360-70. Alzheimer and ALS mortality found 4 times higher in football players ► Neu 2012;79(19): 1970-4.

Few know that standing on your head every day, as some do in Yoga, may lead to brain damage, increased ocular pressure (blood goes to eyes & gravity increases *glaucoma* risk) just as astronauts get brain damage from gravity changes. Yoga without gentle tender softness can lead to sprains (ligament damage). So, while *yoga* (video on yoga causing femur fractures, spine injuries, etc though fewer overall injuries than running), Tai Chi (not extreme, as that too may cause spinal injuries, etc) or anything 'light' is nice, it can also damage us if done without the quality most of us lack: universal *gentle tender soft nurturing* loving kindness. If you have some back injury, the obviously don't do any yoga, stretch, etc that makes it worse, let it heal, take warm baths, massage area, eat protein, ω3/6, vitamins, zinc. Gently *google* "sports name, *injuries*, NIH" *to get* nih.gov *articles on injuries risk for your favorite 'sport', if any. Safety* first, impressing *others is* never important, be gentle, *aware of the* pervasive ignorance in our society, where people practice extremely harmful sports, or yoga or tai chi poses. *Even when doing simply house or lab* chores, risk of injury exists from repetitive *movements of a* similar type *for more than 5-15 minutes,* so *LISTEN* TO YOUR BODY ALWAYS, stop at the slightest pain, sleep well and do *challenging tasks* when well rested to avoid accidents. ☺☺☺☺☺☺☺

Sports aren't just random movements, *they activate neural circuits in* our *brain* that are shared by other processes such as emotional regulation and expression, ethical behavior, morality, gentleness, etc. For example, if we're in a fight and flight situation, with a mountain lion around,

we run like mad. In this process, thru which we have gone for eons, our *brains are* conditioned to associate *rapid movement sports* with the emotions, behaviors that relate to *fight and flight situations or stress* and make it more likely for our brains, thru the power of habit, to engage in anxiety and panic driven behaviors, emotions. Sports are criminal, they damage the vessels via shear force, the *healthy serenity BP of 105/65 and HR 40-50* rises to 125/85, HR 75-95 that damage the capillaries and the organs they feed. Sports are like bipolar disorder, you go from one exreme to the other. In a world of 9000 year lifespans, we infuse every moment with the eterni vibe of *gentle tender soft healing* graceful *nurturing* universal loving kindness. Everyone is at least as nice as the gentlest nurse in the world today. Tao Te Ching explains this well, by avoiding extremes, the sage removes the need for renewal (vacation), a planet removes the need for war. Content with that which of Tao is born, he craves nothing material, being OK with one universal pay of the Immortality Credit Score or IS, Immortality Score, Score of Immortality, Intelligence Super, or as Jesus Mk 10:25 "the rich go to hell", since material objects/sports don't give us trillion year lifespans, only ethics and the ethical honest true science it births can bring Immortality. Physical Edu teachers deserve jail if anyone does: they're all terrorists teaching kids to be selfish, causing injuries. No athlete ever lived to 110 because of that total destruction of vasculature, let alone 120. 99% worldwide singers, except serene instrumental composers, also deserve jail, if anyone is jailed, as they commit genocide by inciting the youth to destroy their vasculature, brain, etc and to engage in restless emotion, crime, indirectly, which is genocidal given the already hyper violent emotional average & average violent crime rates. Given the violent crime rate is 1 trillion times higher than it should be, 100% of music needs to be eterni, meaning 1 trillion times more serene, gentle, tender, ethical, Eternal Universal Peace and Immortality *for* All focused, knowlege of immortality via ethics building focused, virtue focused, one pay focused, 11 companies focused for building the knowledge of immortality a trillion times faster by research instead of admin, sales, duplicating, HR, accounting, in line with the advent of the Eternal Immortality *for* All goals of the Immortalist Anthem, world's 1st progressive positive lyrics about the trillion times gentler softer love (than the gentlest mom today) we need, in order to reach 80 trillion year lifespan. High HR, BP increase violent behavior, look at how infernally violent is much of today's youth, entrained to high HR, BP by the demonic music. 99.99% of violent crime stems from the genocidal melody, verbal tone and lyric content of 99.9% of music today that defines all culture, behavior of humans: if all music is virtuous in lyrics, very gentle, eterni in melody and emotional, thought intent, verbal tone, it dampens the genetic mind force and turns the cannibal chimp DNA into civilized human DNA. The greatest murderers are musicians, not Hitler, Stalin, Mao, these three are products of our cannibalistic music. Music today is like a slow killing of ethics that devolves into genocide. High BP/HR makes us restless and impulsive, ready to lash out on short notice, see the videos in the police section. They add sodium to foods, to make working class attack each other via high HR/BP, so the rich can steal

trillions. When Earth is the abode of serenity, all wars cease, as we worship Eternal Universal Peace and Immortality *for* All via eterni immortalist breathing, or as Lao Tze says "breathing like a baby". When the macho psychos rule Earth, all learn martial arts and see violence on TV, in the "music", preparing for the next war. Most singers are cops and soldiers in disguise who need a cover for "being in a city giving concerts", that's why the music sounds like artillery, war. Everything is fake in our world, human behavior is learned from music, lyrics, etc.

Watch the toddler IQ of some adults attacking other adults for "winning", as if the score even matters. Instead of helping fellow citizens in jail or homeless, they fight on stadiums. Even in modern life, when we're stressed by a deadline, we tend to unconsciously rush and secrete more cortisol. If we practice a *gentle tender soft* movement (in an immortalist lab cleaning that replaces our zero IQ extracurricular activities that make the *youth stupid and violent,* etc) as sport, such as chores, things below or hands-on healing on others, we activate and strengthen totally different neural circuits, that stimulate tranquility. This means we're far more likely to be *gentle tender soft, tranquil, undisturbed emotionally*, to practice the 20 telepathy habits that improve longevity chances and decision making, to turn enemy into friend, to modulate tone of speech. The tone of movement modulates the tone of *emotion, thought, speech, telepathy and behavior*. The gentle tone of speech described in Chapter 8 does the same thing, it activates and strengthens different neural pathways than those used in fight and flight when we yell or speak in a loud or random way. When a little "panic" arises, due to diligent practice, it's harder to activate those "bad speech and rushed movement" circuits, allowing us to remain tranquil and not go into panic. 1 Thes 2:7 "*gentle* among you, as a nursing mother *tenderly* cares for her own children" Phil 4:5 "Let your *gentleness* (graciousness, *unselfishness*, *mercy*, *tolerance*, and patience) be evident to all" contradict the movements in martial arts, 99% of sports (yoga, tai chi, gentle stretching, chores, etc being exceptions). Some program their kids to be escalatory, aggressive or "even worse" from age 3, by having them practice the Paleolithic martial arts, when it won't help them in their profession or in tripling human lifespan. Motor coordination can be learned via gentle movements that focus on noblest emotions, speech tones, smiles, energies of healing and deescalation radiation, instead of punching and kicking. A saint who has truly coherent capacity of focusing and expressing healing *universal* loving kindness is not made by playing present day sports. If we want a Civilization of Immortals, we have to move beyond the 1890s or 3000 BC invented sports. The hallmark of super intelligence and Immortals is anxiety-free grace, the *gentle tender softness* that is absent in most sports today. Some sports were invented by Christians, Buddhists, but that doesn't mean Jesus/Buddha would approve of them. "Cure the sick" and help others was Jesus' alleged saying, not play basketball, martial arts, boxing, funny to see such violent 'Christians'. Gentle massage or even just hovering hand 1-2 inches (2-5 cm) from the body can lower cortisol, blood pressure and bring tranquility☺☺☺.

Can we redefine sports *on our* planet *to mean* DOING something physical for OTHERS, NOT self, from the age of 4 even, like planting tree, helping cure the flu, cleaning a lab or work 30 min 3 times a week in a lab doing physical stuff instead of a gym, *like college professors advancing* human knowledge *who live to 106 without exercising*, yet living longer than all professional sports players? Would an Immortal Civilization structure all its physical activities around doing something noble for others to ensure the physical longevity (seeming "Immortality" by our time standards) and well being of its inhabitants? Would it build stadiums and so many sports facilities when 100,000 people die daily because of many diseases? Would it not care about many preventable diseases and play sports instead? ☺☺☺ What is more selfless?:

1). Building a house via habitat.org for the homeless or working in a vegetable vertical farm in the city for an hour to help starving folks to eat pesticide free produce or one of the 14 sports below: 1.1. soccer, 1.2. basketball *(see* US parents fighting because their team lost, *40 year olds with IQ of a 2 year old monkey, teaching kids by living example to be thugs, see* another, *why not do something selfless for humanity for exercise that prevents yelling and this thug behavior, as the next pages explain, why terrorize the planet with such vibes?),* 1.3 cheese catching, 1.4 rugby (pretty uncivilized anti-immortality cruel pushing, handling that could damage brain slightly too), 1.5. Russian slapping (been around for a while, UK says since 2015 in USA, since 2009 in Russia, Las Vegas USA still does it in 2024, girls do it too degrading human quantum field, like robotic puppets of sadist event organizers, US got it in 2022 too, *see* California Republican Catholic Arnold Swartz. former Governor watching, thus encouraging it, *like* a true Nazi and like Hitler, though not sure which videos (100s online) are staged, fake, *i.e. video played in reverse with no hit using AI to swell face to make it look horrific, just moving palm away from head and special effects, US has become the land of violence; in 2023, when millions are homeless due to wars, 'American' UFC president* promotes slapping, *like a true Nazi, after* slapping his wife, *and countries* worldwide (EU too) *join in the madness.* How can UFC, boxing, slapping even be legal in any nation*?),* 1.6. football (famous for brain damage, see above), 1.7. boxing (the most evil subhuman violence that lowers all watchers to brute vibe and glorifies the most demonic aspect of humans: heartless compassionless watching of lifespan shortening brain destroying of other humans, imitation of torture by KGB, Nazis, etc; they even like it and cheer it), 1.8. MMA (worse than boxing, OK in USA, the land of 'civilization', we immortalists applaud Taliban's ban of MMA, as it is a grotesque display of demonic violence: we invite *all nations to ban* all martial arts), 1.9. karate, 1.10. kalaripayattu, 1.11. capoeira (maybe world's least contact, "least violent" *martial art, but still* cruel anti-immortality uncivilized kicks (see it here - how gross, to cheer and applaud the destruction of his face by a leg hit, the brain damage done by the leg kick, and idolize such vulgar chimp sport), even if 0 contact in some cases, the mere simulation of a hit *as in the more benign version shown in* USA *to make Brazil look good, of human-human aggression or fight, in*

the presence of uneterni music unbalances the human species quantum field in desperate need of gentle tender soft healing grace, fuels war, genocide, millions of refugees crises, the demolition of countries (see video and consequences *of not making* World Peace in 3 months music and dances a priority and becoming so zealous about stone age sports that pollute the human genetic mind) and is polluting human quantum field), 1.12. sumo, 1.13 super thick muscle 300 lb building (while others starve to death or eat only 1 meal a day even in US, Brazil the kid doesn't go to school to learn how to make us live to 200, whereas body building, sumo can't help us live to 200), eating 2-3 times the normal amount, 1.14. wrestling

They could rebuild neighborhoods with their farm, and all food locally grown by each family contributing 40-90% of hours of physical education at the farm in the city, guaranteeing cleanest fresh high biophoton produce. Or they could have Home Depot sell a kit to create a greenhouse to grow year round pretty much anything, with seeds and instructions, with peels from cucumbers, watermelons, pepper cores, etc composted to provide fertilizer, so if people eat cucumbers, tomatoes, onions, watermelon, carrots, kale, etc they can plant them, besides walnut trees, blueberries, water lentils (duckweed) (ω3:6 ratio 2:1) or seaweed for EPA-DHA. People don't use their backyard, instead they treat immigrants like subhuman animals to grow crops that are later degrading during storage, processing and shipping and lose 10-98% of many nutrients: inhumanity leads to a negative loop of shorter lifespan, as illegals then join gangs to make extra cash, since they use them at below minimum wage as slave labor, no visas, no border wall. When enemies attack, all they will do is go to gyms and their "sports facilities" to eat, as EMP makes all transport fail. True to their religion, basketballs in every religious school, they then will eat wafers for food, and yes, their ammunition cartridges and guns: 1.2 guns/person, and 0.000001 greenhouses /person, absolutely 0 IQ, even from a 'military national defense' point of view. If nuclear strike hits, they will all die, as all are cramped in cities and nobody wants to exercise1 hr daily growing some food easily, they need expensive sports facilities and etc. These things make no sense, since we have green energy, solar, water from air and techs that before were 500 times more expensive, so now we could spread out and eat healthier food, increase our chance of survival in case of wars and natural disasters. In 100 years, we could also develop eterni food kits that people can use in their backyard, like we have microwaves and other things today, feed some raw materials and the protein comes out. Amazingly, these beautiful greenhouses can be very colorful and decorated with names of qualities, Immortality *for* All, etc, like in the section about World Peace in 3 months clothes, etc, more beautiful than all houses are today. We just need creativity and sound for plants, maybe structured water, those allegedly real reports of bigger yields with some water device.

It's not easy to find selfless service activities to engage in physically at 7 am/8 pm close to home when one may want to exercise if one doesn't have a backyard, but things can change as this

"sport" becomes common, just create a website volunteer.gov, people will create community gardens.☺☺☺ We can do tai chi, gymnastics, aerobics, qi gong while doing something for others, by bringing conscious breath, awareness and grace in movement, as one beautifies the house, apartment building, neighborhood to make it the most beautiful place full of Immortality thought forms, shimmering colorful stuff as mentioned above, to uplift the human spirit, bring out the hypothesis thinking, the gentleness, tenderness, healing grace, healing touch (not shoving, yelling, hollering like the chimps in jungle or people in stadiums and many sports arenas; we want to evolve our feeling and speaking tones, not devolve them), eterni thinking-feeling-speaking, healing gentle voices and immortalist music in the background playing always almost, to enable us to hear the Wondrous World of Peace,☺☺☺, of Happy Tranquility,☺☺☺ instead of chaotic traffic noise due to materials wasted on stadiums instead of sound blockers made of current or future discovered materials. Listen to the World of *Octillion* Year *Lifespans*, Its Luminous Magnificent Tranquility. Many churches, hotels, restaurants stay empty much of the time, wasting huge amounts of materials that would make much better housing for 90% of people, allowing people to make their house a quiet place of peace, like a church, free from traffic noise of many churches, where ethics is practiced more often instead of just 1 hour at a traffic ridden noisy church. Why not? Why not make a “sport” event of who can have the most eterni speech and massage therapy that lowers biomarkers of aging, and negative feelings the most in 1-2 hours, that brings out the gentle scientist and healing immortalist☺ in all instead of the more violent primate (chimps do kill their own species, about 2% of deaths, but 500+ mammal species in one study were shown to never kill their own, so we got a long way to go to become a civil animal even) that is dematerialized by hypothetical human immortals of the future and whose primate physical muscles are useless in front of advanced aliens or our immortalist human ancestors? Many centenarians never exercise, their chores, and kindness, made them live to 110. Even if people do 5 minutes of exercise in breaks, is it not more selfless than going to a stadium or facility that requires so much money to be built? A little stretching, yoga, pushups, etc or walking-jogging doesn't require any facility taking materials from fixing the 16 million empty housing units in America that could house the 0.6 million homeless if fixed or rent lowered, etc: in Turkey, 25K people died in 2023 earthquake, with millions of houses not going thru the normal earthquake check; likewise, in USA many houses, etc are not earthquake, tornado, etc safe, so people die each year, but if we had *compassion*, *gentleness*, humility, we would not make an idol of a *ball*, but of Godliness, of compassion for life, so we would unite to rebuild, fix to prevent lifespan shortening, needless preventable deaths, instead of just moving a ball that benefits us only, not anyone else. Think about immortality for all (not just 0.1%) capitalism, it would be more efficient, 800x fewer contractors in each nation, far higher tech, tornado, earthquake standards, same thing globally, 1 nation, 1 language, 1 currency, 1 super high standard, instead of 5 million contractors doing the poorest job usually: we have 800x more

R&D jobs, 800x fewer HR, sales, admin. Where is the *altruistic* loving kindness? ☺☺☺☺☺☺☺

Oddly, Baal in the Bible is the name for Satan to whom some sacrificed babies, so perhaps, you're also surprised how enthusiastic religious people, pastors, nuns, are about these savage activities that completely contradict the Gospel Paul words "*the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, self-control*".☺☺☺ It's as if, we're sacrificing their spiritual angelic vibe, to glorify violence, and the parents have to watch it too. It seems too many politicians, world leaders are forced to attend these sports events, when they're anti-Immortality *for* All ultimately, nobody needs moving balls to develop teamwork while so many things are in disrepair and could build a much better character and nobody will reach 800 years lifespan by moving balls, the present sports delay World Peace and the advent of a gentle vibe; recall the genocides the Greeks did with Macedonians and they gave us Olympic Games too, wildly emotional yelling Parliament debates, so it's not like we really need those, when we can replace them with Immortality *for* All activities, or presenting techs to triple human lifespan for all at these Olympics of World Peace in 3 months, Immortalism like vegan food production, eterni food, water filtration, building tech, etc; why follow tradition? Why can't Presidents be themselves? Why are Generals doing this? Some Presidents promote sports (see them in action: judo, hockey, golf (while these guys live in tents and terrible trailers in greater Los Angeles), ice skating rings while many teachers, professors, scientists are living in terrible or overcrowded housing, while residents that provide 2% of Russia GDP live 10 years shorter and in the most polluted Russian city), billions for Olympic facilities, while Universities, schools in that nation are in disrepair, dilapidated, students overcrowded and could use 13-50 billion funds to give all longer lifespan thru better sleep for students, research, medical innovations, efficient centralized preventive healthcare and education; they also promote religious ritual festivals (soaking in water doesn't do anything beyond placebo attainable with just listening to positive affirmations, except spread germs and diseases sometimes) and role play they're believers, as if all we need is more religion *(that's not the same as ethics, providing decent houses for all, instead of golf courses for a few).* We see a quite odd focus on sports, and fake miracles religions with evil quotes scriptures they swear on, instead of on ethics, education, and kind vibes, tones and educational selfless physical exercise. Who benefits from this? Big Business? Oligarchy? War merchants? Generals who need fit cannon fodder to wage eternal war on humankind? Any *ethical* immortalist government would boycott the Olympics, international sports competitions, world cups, Super Bowl, as they do nothing to promote World Peace in 3 months, don't talk about it and don't address the root causes of war; on the contrary, they exacerbate the imbalance, since all these events have an anti-eterni vibe; we need peace and cooperation to end all violence in 10 years, wars in 3 months, not jumping and moving like chimps: hello, *5 million people die every decade due to violent crime (homicides, + some extra indirectly due to*

injuries), what do these violent movements like criminals make when rushed, running, breaking in, etc have anything to do with ending this *Holocaust*? Super Bowl sounds like Baal, football, basketball, etc a name for Satan, see why this is odd. This 5 million dead in a decade is in addition to the dead due to wars (millions?), directly or indirectly dying 20 years sooner due to no funds for healthcare. These super anxious high pressure ultra fast movements contaminate the quantum field, delay the end of violent crime and war, everything is connected.

Perhaps, you may agree that, physical education classes ought to be optional, if we ☺☺*lovingly tenderly gently kindly*☺☺ honor free will*,* since nobody has the right to force kids to engage in such barbaric shouting (see the brawl videos above) as it happens in many sports arenas in schools, this completely degrades the person, ruins the angelic eterni vibe and brings the entire planet in the stone age, in eternal war vibe: we need to prevent any kid or anyone *(clergy (see examples of shouts:* Christian*,* Jewish*, etc), singers, politicians, etc, teachers, parents, etc)* from ever shouting, as that's how physical altercations start, how wars start, that kill 80 million. Our society has become a 'satanist' one, it glorifies the most 'evil' behavior, while the really spiritual stuff, eterni tone or speech tone that calms everyone is never taught, as a separate subject. The 'devil' or 'd evil', 'the evil', disguises itself as an angel, or pastor, "religious politician, TV anchor, etc" and shouts and destroys all souls who listens to his trash. Unless shouting is a crime, we will probably never have 0 violent crime on Earth, so it is never too late to actually follow the Bible's best quotes for those who profess to follow the way of God and have a monopoly on God and ethics in all *universes*, galaxies. It's better to have 5000$ fines per one shouting than to have jails and wars and violent crime, saves trillions of dollars and grants a nicer afterlife too for believers; it also happens to be a lot kinder, for those who care, after all, about others, not just about looking good, ethical, spiritual or religious. Shouting can be fine in case someone needs help, or some emergency happens, earthquake, or some car is doing something etc, but not in normal life when there is no emergency or no violence. People need to be happy and learn to not be so emotional, just accept criticism, whether valid or imagined. We have to prevent violent emotion before it even arises, and that's thru every activity, not just Sunday school at church. Wars start with bad yelling at school and at home, hence we desperately need centralization of educational tones to teach all, to teach a kinder way of emoting and thinking. We could have compassion, humility, meekness, gentleness, and gently let everyone have a choice, let America shine as the Land of Freedom, no longer allowing teachers to cause injuries in kids thru brutal useless sports, like in a true democracy: service to World Peace in 3 months, ending "homelessness, wars, short-lives, all jails", etc, building the Kingdom of Heaven (Physical Immortality *for* All) on Earth or *moving balls like chimps in the jungle, yelling and engaging in anti-God anti-ethics, anti-civilization, anti* | | Immortality *for* All | | *vibes.* The immortalist government of a nation can't allow such complete abuse of power by physical education PE teachers (students get injuries or

die), the gov needs to require PE teachers to take a 5 month course on prerecordings and using amplifiers with peaceful music when they do group chores for Immortalism Building, eterni thinking, emoting tone and speech tone that calms everyone, going to volunteer with kids with plant trees and place gentleness and kind tone signs in 400000 locations in town, etc, and expand view of exercise to immortalist activities too, aerobics, stretching, gentle movements, *gentle yoga (not dangerous yoga or aerobic moves that send* 2000 people to the emergency room yearly*, (5% are fractures), see* video on yoga injuries), tai chi, etc, gentle stuff with peaceful music about Immortality *for* All in the background, which don't need special facilities that are so expensive, can be done at home watching a video, etc, on youtube and also in the breaks while they do some selfless service to a cause of immortalism. All jails can be replaced with healing centers (first we build the healing places, then we demolish jails) with help from volunteers. Adults can assign kids simple supervised safe to do by 10-18 year olds tasks (planting a nice flower, painting a nice 'Gentleness' sign, etc for younger kids) in this creation of Healing Oases, so they develop compassion during physical exercise, understanding of the scapegoat game failure to bring peace after 1 million years of attempts, all need to try to vibrate like an angel, an Immortal of infinite loving kindness. Same applies to many countries, there are, according to reports, 1.5 to 9 x more empty homes than homeless families. ☺☺☺☺☺☺☺

China has a lot of empty housing units, millions of them in ghost cities, while many live in very cramped conditions (4-8 students/room). Kids/teens (not just "geniuses" who start college at 7, but others too) could have these amazing chemistry, physics, biology labs and help mice live 3 times longer and then rabbits, make discoveries that boost immunity, cure diseases, give healthy food that boosts immunity to people sick with flu and save their life perhaps, create these volunteer programs with all hospitals, etc. Some say kids need to play and have fun, yet many kids, whose parents associated learning with fun, find this very much enjoyable, like fun, and they can move while serving the cause of World Peace in 3 months.☺☺☺ We have kids who finish 2 year college at 11, and they can help out 19 year olds in college courses. *Is moving a ball, yelling, shouting in sports,* a basketball hoop, etc truly more important than "Immortality *for* All"☺☺☺ written in every school, the very essence of nonviolence, nonkilling, the religions? ☺ We don't use computers from 1900 or so, so why do we play sports from 1863 (soccer, England, though early versions may be 8000 BC even, even before Chinese 250 BC cuju, a sport invented by aristocrats busy having fun instead of bringing Universal Peace during warring (aristocrats) states period and ending genocidal aristocratic torture of workers via immortalist justice and economy), 1845 (rugby), 1869 (football, though 1st versions may date 9000 BC, 1891 (basketball). When millions are homeless due to wars, to play these brain damaging (sometimes) sports is a sin, in any religion, ethics or spiritual belief, when we could use physical energy to bring peace via World Peace in 3 months, Eternal Universal Peace signs placed every 100 feet in all cities with

amazing colors to help make cities beautiful (laminate it to prevent rain deteriorating it, etc), until all are imbued with the Qualities of Peace loving gentleness, the mp3 players with peaceful and Immortality *for* All songs. With neuroscience and many things needing to be done (see next 30 pages), requiring efforts of many people, equivalent of playing existing sports for 30 years in the free time, we could recreate our cities to evolve our ethics, science, spirituality, emotional selves and stop brain damage from ball hits, shoving, leg kicking in soccer, the gorilla yelling, etc.

The government created Eternia Volunteer Network☺☺☺ starts a system of beautiful safe sign install by all interested: 3 words max, otherwise, nobody will see it from far away, one word most of them with a quality among the 20 we lack the most like *Gentleness*, etc, put the plastic sign on a fence or a house wall, roof, ultra light so if wind blows and it takes off, no danger exists, for bigger signs, a group of people go to city for approval and volunteers whose job is sign placing help and city inspector ensures it's safe, etc, but anyone poor or rich, can be allowed to place 20 signs even on his property, big ones to make it nice. This offers people a way to be creative, beautify and color neighborhoods, each font can be a different color, so can the background of each sign to stimulate intellect, can use calligraphy even, draw it yourself, to become one with that quality and move that hand *gently*, no boxing please, repaint areas with *Immortality*, Immortals Qualities, plant a nice colorful flower too maybe under the sign, and do things described next 30 pages, true sports that build compassion, or etc. It's a lot cheaper in drought areas to place a sign or 20 than to have a lot of flowers, etc, people waste huge amounts of time with flowers, grass mowing, gardening, but ignore placing a nice sign on the bush somewhere or tree, the most important thing is the qualities, without them, everything collapses. We see tons of signs, sports stuff in schools, but nothing written in big letters seen from 30-200 feet, like one of the following (the fewer the words the bigger the font) 1-4 word (4 words only if a preposition or tiny word, to allow big font) combos: *Grace*, Gentleness, Nurturing Tone, Healing Breathing, Gentle Breathing, Cosmic Bliss, Sweetness, Honesty, Humility, Immortality *for* All,☺Tenderness, Trillion Year Immortals, Eternal Universal Peace, World Peace in 3 months,☺☺☺ Compassion,☺ Eterni Tone, Tranquility, Softness, *Loving Kindness*. Same for streets and cities. So why is using matter to create a hoop so much more important than using matter to build a mini-reminder of the Eternal Character that helps All to live to a trillion?

Buildings have spaces to draw, write in paint these qualities, even cheap plastic and etc can be used, and we can make it very colorful. Why do secular and religious (the eternal spirit) schools prioritize adding 5 years to lifespan by some movement, but not adding a trillion as in ☺"May all live to a trillion"☺☺☺ written in big 2 to 7 ft letters in every campus? *If the spirit is Immortal, a trillion years is only a second that allows us to comprehend God better.* God is Infinite loving kindness and when we need to remind people thru schoolyard background music of the Peace of God & Immortality, of the Compassionate Tranquility of Immortality (or God if theist), when we

can use our physical energies to make every school nicer than Disneyland with the spiritual qualities art, drawings, sculpture or 3D printed things, kids are degraded by being forced to yell and to forget what maters in the long run: those traits, since robots can move balls and stuff. For more physical stuff, they can do a million things, plant trees, clean up litter and beautify bad looking streets, help with small chores people who need it, triple lifespan projects, cheer up streets that need some "Be happy, smile", "Immortality is Possible", "World Peace Forever" "World Peace in 3 months", "Immortalists rejoice"☺☺☺ "Help all Live to an Octillion" (a trillion billion years) signs. When a homeless needed a better tent structure or more permanent plastic roof, etc, that kids could make, the teachers teach kids to yell, compete, waste energy that could be used to provide shelter and anti-anxiety free music (very needed, since traffic noise and other noises are very health damaging and destroy the quantum field of all humans☺☺☺, the selfish will all go down as one planet) to those on the streets or even rich, who, are drugged by a for profit healthcare system using pills instead of free youtube music, pills not needed in many cases and causing endless side effects, and costing society more. "When I was thirsty, hungry, homeless, stress you gave me water, food, shelter, peaceful music", so when these people are desperate, they yell and build☺☺☺ strong muscles in gyms for the next mixed martial arts competition, spirituality at its highest? In the courtyards of even religious schools, they yell and move away from God, from compassion, from Grace, from World Peace in 3 months. Why not create a "World Peace in 3 months thru gentle service" area where they create nice little houses or things people need for tent people that later adults can transport to where homeless are, together with free mp3 players and earplugs for better sleep. Isn't that exercise more Peace building? ☺☺☺ Phil 4:5 "Let *your* gentleness be known to all, the Lord is near". If we would see some Deity or Noble Spirit or Angel or Buddha near us, as spirit, we would be having a much gentler tender softer nicer tone of voice and behavior. Imagine if we would have Gentleness World Contest for the most angelic *nurturing* healing tones of speech, songs, movies, behaviors, ways of life instead of soccer world cup etc. With "Gentleness Tenderness in Emotion, Energy, Thought, Tone of Speech, Behavior, Walking, Exercise, Breathing and & Selfless Service to Others" development centers everywhere as we have sports facilities in all places, schools, etc, the world would achieve World Peace in 3 months with a higher probability soon. ☺☺☺☺☺☺☺

The Gospel says "Let all you do be done in love" and 1 Thes 2:7 "*gentle* among you, as a nursing mother *tenderly* cares for her own children", while Buddha said "Love all beings unconditionally, as a mother loves her helpless infant baby". It's the same idea of being a spring of healing tender sweetness *nurturing* grace and soft soothingness, as when mommy hugs and kisses the baby☺☺☺. It's this angelic music quality that is absent in our sports..., classrooms, school grounds. It's this background soft music to elevate the human DNA from a million years of psychotic violence to civilization that we desperately need, it is this quality we lack in most

sports, the *bounteous* equanimity and magnanimity of an octillion year old Immortal, of a Buddha; to build a world of Immortals, everything has to be permeated by this angelness. Imagine a world of no violence, it's only possible when everyone is angelic all the time to some degree. We can't engage in things that move us away from that gentleness tenderness sweetness, compassion, serenity of Godliness;☺☺☺ if we do, then we won't have Paradise, nor real science.☺☺☺ Real truth, science, honesty, understanding can't flourish where violence reigns, but only in angelic societies where everyone is like an angel. In such a world, there are no guns, no violence, no shoving, punching sports, not even a thought to harm another or to lie to them, as everyone is educated from age 1 month into the values of a civilization of *gentle tender soft* Immortals. A culture of life is one that values 900-year lifespans and does everything from age 1 month to create that world of paradise. If anyone gets a little upset, or something, the "*Angels* of Universal tender soft gentle Love" (specialized healers) are called (or AI plays that music around, that makes us tranquil) and they use the most Healing Rays of Love to calm the person and make them smile and laugh and induce them to relax and become peaceful and stop being agitated. On other less evolved planets, still without any guns for anyone, planets on their way to the gentleness tenderness sweetness and grace of Immortals, they may not have any wars of course and any killing weapons such as guns, but the so called "police" might have rays of force field (not advanced enough to work on consciousness, but mainly this physical dimension mechanical stuff) that sort of "immobilize" (render them motionless, except for breathing and 1 millimeter etc) a person (rays come from their belt maybe from even 100 yards away) who has become agitated or physically aggressive, and then he's lovingly gently taken to a center of healing and reeducation (no need of prisons); there is never any death except death from uncured yet disease and aging. Imagine how far away we're from such planets. And how hard it is to get there given the sports we practice and what anti-gentleness anti-tenderness anti-sweetness energies they create. We could say we might be like little babies or toddlers who, as infants, can hardly understand the concept of Immortality. Who knows? God's Ascending Immortality as a quality, seemingly so present in these worlds, appears to be filled or synonymous with the most tender gentlest softest energy we can conceive of, imagine, etc.

Undergrads do research, help a Nobel Laureate discover something, so one can see how even 10 year olds can invent things, it's just we have created a culture that is antiscience, anti-learning and so skewed towards sports, that never made anyone live to 125. A lab requires cleaning, washing, maintenance, activities, so does creating decent quiet housing for all, so peace can begin from within, if even headphone music can't reduce the noise. We have high school kids build an electric or solar car in competitions; their energy could also be used to discover new neuraminidase inhibitor molecules that are safer better than Tamiflu. ☺☺☺ We could start STEM in kindergarten, building out of lego or molecular models a vitamin chemical formula that

then saves lives, a micro RNA binding to a TOR gene would provide dexterity while showing kids how to alleviate the suffering due to diseases, prevent 8 year old kids from being killed by flu, instill a sense of how fragile life is and how little we know. ☺☺☺☺☺☺☺

2). Using raw materials to build stadiums, movie theaters (Internet age doesn't need them much, can watch online), casinos or to build schools, libraries, universities, healing centers (first inside prisons) replacing all prisons gradually, research centers, housing for the homeless, motherships to stop tornadoes and floods causing tens of billions in damage yearly, fix potholes, build spacecraft to help us go off-planet and ensure no cataclysm wipes us out, researching buildings resistant to earthquakes made of force fields or with shock absorbers? ☺☺☺

3). Encouraging journalists to flood people with SPORTS NEWS daily or to flood people with News about the Latest Area that needs Physical Activity in Service to Humanity, like Aluminum-Lead-Mercury detection in living people's brain or water/food ultra fast with a scanner to help cure Alzheimer in people with heavy metal intoxication by early detection or a new soundproof drywall/window material research to ensure that all have silence in their houses, dorms, or new composite material to replace wood, since wood attracts termites, or electric mower/car to eliminate deadly effects shown the smog section, see California 2024 gas mower ban?☺☺☺

4). Having a "sports" team that hurts people's legs as it happens during soccer etc or having a Research Center Building team (e.g. research into regrowing legs/limbs like Michael Levin research or to cure AIDS/HIV, like the animal study showed gene editing did cure HIV?) ☺☺

5). Removing others' teeth with hockey bats as it happens sometimes or helping build a new center that helps people grow their teeth (using adult stem cells/laser) and avoid fillings that lead to infections, root canals, heart disease, etc diseases from the bacteria in the mouth?☺☺☺ Tennis with rackets was from 1620 to 1900, tennis was a sport only aristocrats usually played. It was the sport of nobility and kings, like golf is often played by aristocrats now. Golf is spreading to other nations, where most folks live in small condos in the city, with golf taking more space and increasing crime, this is thanks to ☺puppy IQ governments☺, ruthless heartless aristocrats who don't give a dime about the poor. The twisted imperial mindset (slave lower rank military officers and soldiers die to expand the empire, we play tennis) has decided to make tennis as a sport in 1870 in England (like soccer, rugby and other anti-World Peace sports from England) giving us endless tennis courts, while workers are living in overcrowded conditions and the aristocrat useless businesses (or "church business") is taking materials and space that could help workers live to 100 like some bankers do. Thus, if you love World Peace, have any ethics, realize how hard World Peace is to achieve, how limited human free time is, you would support the end of tennis courts and associated nonsense, so we do what is critical first: decent housing for all, for 0 *violent crime/war/jails*. The history of tennis started with a tiny ball town from the palm by

bored people doing useless religious rituals 3.5 millennia ago in Egypt, then it morphed into ball throwing of a peculiar type in French monasteries, into rackets in 1550s in the French Empire with adoption by nobility and finally into big stadiums/courts watched by *cruel* soulless people *who have no ethics*: standing there and shouting is more important than ending killings, violence and jails. A spiritually bankrupt value system has taken over Earth, partly due to the British Empire itself. What is our priority? How can you have endless sports facilities and no centers for ~*~Eternal Universal Peace~*~ in 3 months MAINTENANCE? *Why can't ending* "torture, jails, beatings by police, brutality, violent crime, war, etc" *be the sport*? The monks who invented the EU version in 12th century were too brainwashed to act/move for World Peace, since they waited for Jesus to bring Peace in 8 trillion years. People and monks were of an IQ far lower than the abysmal IQ and credulity today. The waste of energy with Olympics, sports is beyond criminal, it is genocide, since if all that energy wasted would be to create beautiful music about World Peace, help high crime areas with decent music and housing, the wars would disappear fast.

6). Killing bulls in bullfighting, *legal* in Spain, Portugal, Mexico, Venezuela, Ecuador, France, Peru, and watching it, watching roosters die in cockfighting (illegal in USA, but some still do it), hunting for sport, torturing fellow citizens (not interested in having their neighborhood become a circus) in fireball (that actually can injure people) fights (a sport most people never heard about) or helping to build empathy expanding Healing Centers within all prisons/hospitals or building amazing labs to solve real world problems? At least, if you love hunting, hunt mountain lions or alligators known to sometimes kill people (7 severe bites every year, 1 death), not 'birds for fun in a forest': have some compassion while you're at doing the most heinous thing, killing, to protect fellow citizens from lion or alligator attacks (wolves kill people even in US once a decade; even the tiny foxes (video), 15 lb vs 100 lb for wolves, can attack). Human "lack of IQ" seems to have no limits sometimes, instead of helping people in need, build a house or hunt an alligator in an area where it harasses people, they harass alligators as a sport of "fun" and then have their heads (video) bitten. It's kind to never give food to alligators, dangerous animals, even stranger dogs, as you could be killed, see video. 5% of people doing wingsuiting have died. Bullfighting stadium collapsed, damaged the human quantum field, bull running 'sport' injures tons of people who fall to the ground and get crushed as 6 ton bulls fall on them, 20 people injured in an evil selfish ☺abysmal IQ☺ sport of cruelty that the Spanish Monarch won't ban, folks pushing, shoving, such animalistic shouting and behavior, see the low IQ of some Spanish, what a waste of energy while others are being killed with Spain made weapons. Recall the Spanish tomato fights being more important than 0 violent crime. Watch bulls escape in Massachusetts, crazy that such filif "bed bug" IQ rodeos are allowed in the USA, what is going on? 6 people got injured at some rodeo event in 2023 in Spain, watch the ☺abysmal IQ☺, *many medics and cops waste time taking care of preventable* (if they ban this barbarity) injuries. IN

Peru, the "advanced" indigenous use fist fights festivals to become more like animals.

In USA we have wild feral pig events where they teach kids to be cruel to animals (see how the poor pig is screaming and running scared, polluting the quantum field of all humans due to brain similarity and indirectly later fueling, co-causing wars of genocide: this barbaric grotesque feral pig (see video) sport is part of USA culture who teaches they follow Jesus and love to be kind to all beings); this needless torture, while others are homeless or live in terrible conditions, is beyond brutal (watch 1 min), it's purely criminal or, if you're religious, evil or satanism... watch a 2 min clip, American cruelty, low IQ in action: pig wrestling, splashing mud into eyes so as to cause infections and oxidative stress. The barbarity of the USA, etc pig torture entertainment is similar, though less brutal than, to that of bullfights, see how many "0 IQ" adults, if you can believe it, watch such cruelty, the "holy" influence of the Mormon Church makes its "grace" loud and clear in Utah too: watch Utah pig torture, eye infections via mud splash values, they pass laws to ban this or that, but not this savagery; WI adults doing pig wrestling seem to have IQ of chicken?☺☺☺ No wonder the state of Minnesota considers it a misdemeanor, for obvious reasons PETA explains; St Patrick Catholic "Church" in Wisconsin even organizes annual, see video, pig wrestlings, unbelievable, watch CBS news showing America's spiritual revival via pig torture to raise money; Catholic values and sports for all, reminding me of casino trips at Catholic churches for all; many people have pigs as pets, so they're horrified by these wrestlings; too bad all other states don't ban it and that dozens of nations do this savage sport too; the FEDERAL GOV needs to step in and classify it as animal cruelty and ban it nationwide and NATO wide; these games also could lead to pigs biting or infecting kids due to the scratch causing mud bacteria, eye, ear mud infections or bite, besides falls that could damage the body, etc; it's extremely cruel for parents to even allow kids to take part in such a risky behavior that endangers kids' safety, not just the pigs' wellbeing; let them ☺☺*lovingly tenderly gently kindly*☺☺ build a healing center instead of torturing pigs, love humans don't harass animals, hug humans not pigs, those destitute homeless and people lonely in jails abandoned by society due to an unethical scapegoat game that treats only symptoms, help your fellow Mormons in jail in Utah the Mormon state, have some compassion, replace all jails and violence with healing centers and peace. The Mormon temples have so many bulls, made of metal, baptismal facility, wild useless materials wasted for a big building sitting empty, while others are crowded, lives shortened by the crowding, crime increasing? Baptize self with the spirit of kindness, not water? Baptism is a psychological crutch that is simply not needed: just provide clean water (lead free) and toilet to 500 million people lacking it and God will baptize you with the spirit of clean ethics. Sadly, the USA has another sport called binge eating, where ☺abysmal IQ workers☺ start eating huge amounts of unhealthy or healthy food, leading to destroying the body & human quantum field, fast rise in glucose, lipids, heart attack risk as stomach presses on the heart area. The

'sport' is taking off and many have died. How can a moral government allow such violent crimes against one's body to be shown on youtube and inspire others to do such self-harm. They need call the cops, psychiatrist for those doing such youtubes. Small kids could die if imitating it.

This pig wrestling 'sport' is unacceptable, for the land of 'ethics' who lectures everyone on human rights after bombing nations into the stone age: why can't these students do something far more intelligent, like developing tech to bring World Peace in 2 minutes via the quantum tech and end all wars, violence and animal abuse, give all eterni vegan food, end all slaughterhouses? Is this what US revolutionaries died for, to replace British oppression with the terror of violence? Sadly, the Queen of Britain, sent 373 pigeons to some brutal racing contest (another cruel sport called pigeon racing) only 44 survived, how is that for universal loving kindness? They use pigeons for espionage, hence the sport. Have things dramatically improved in ethics for the Brits since 1800 and 1870s blowing by gun? Today, spy agencies, etc using microwave, infrasound, etc direct energy, invisible no contact passing thru walls "tasers, lasers, etc", etc less visible weapons to slowly kill (instead of sudden Nazi executions, Gulag, blowing by gun, etc), but essentially, little seems to have changed. The good news is that the UK banned dog ear cropping, a useless procedure popular in USA and many nations. If you thought the French are always kind in their habits and culture, think again (that holds true for any nation, all have some areas that could be made much kinder): they force feed ducks and geese 2-3 times a day 2-4 pounds of grains and fat, so that their liver swells 10 times, in order to create foie gras, some meal using that liver. It's a sport of cruel agriculture. Read about how the French did torture and killings similar to what some Russians did to fellow Russians, Europeans, Asians. How can any ethical person do that, when it obviously damages the human quantum field thru the pain and signaling on all human livers, not to mention, that food is really arterial plaque forming and toxic? Thai folks waste time with water buffalo races that bring IQ to that of a monkey. Instead of helping the homeless in Thailand, they ride animals and build arenas to watch this truly cruel abuse of animals beaten with sticks and stressed/harassed for human sadistic entertainment.

Any immortalist or merely ethical government would make such savagery illegal, not just bullfights that spill the blood of bulls due to sharp arrows etc. *It would also* ban forever *boxing, MMA, martial arts and a lot more later* if violent crime is not reduced 500 million fold (1 incident max on the entire planet per year) within 10 years *via the* new media laws *created by the* Immortality *Nurturing* Agency, *approved* by the Immortality for All Party controlled legislature and enforced by police, FBI, etc; amending the US Constitution to ban forever *all violent sports* (that can result in ANY INJURY TO ANYONE, even leg kicking during soccer can lead to infections or even amputations, as we evolve to a higher level of kindness and IQ, better than chimps) *or* entertainment *that induces fear, anxiety, stress in animals or people.* All sources of negative emotion that drive up crime need to ☺☺*lovingly tenderly gently kindly*☺☺ be wiped out, not

just criminal content depicting crime ideas via international agreement like carbon emissions, related to negative emotion emissions; the use of quantum devices may be the only solution to save humanity from its end if agreements fail. *Peace among all nations is not going to last if there is any violent crime*. It's unethical to play rugby, football, hockey too, people can get seriously injured, it's anti-Immortality *for* All, can't play stuff that shortens lifespan if ball hits, you fall so easily, damage ligaments, teeth, etc, such cruelty is not needed ot live to 100 via exercise, plus the *urgent* need of the planet is World Peace and 0 violent crime before we all disappear in 10 seconds; as each artillery shell hits the Earth, our entire planetary quantum structure is destroyed and we're getting closer to our end as a species. Why so violent? People played it, but that's fine, they don't need to continue doing it, "because the masses play it". Why so selfish? Those huge fields, materials in these gigantic stadiums, etc could house so many overcrowded kids whose lives become trash, due to low IQ music, low IQ sports, and poor sleep, noise from cars driving to soccer games, lungs destroyed by tons rushing to rugby games creating smog and noise, a little break from parents fighting (due to shouting music on TV) at 7 pm to sleep, but no, the rugby players traffic jam is ruining the sleep, they honk, nobody cares, entire generations lost, car accidents from the huge waste of gasoline, we live as caged rats, not caring about the others who could have discovered stuff that helped all to live to 300 by now. Moving a ball? Catching it? The goal of life? Why not allow the spirit of God of Immortality *for* All *humans*, even all pigs, The God of Compassion, to transform the world and your world?☺☺☺ Check this rat (cannibals if hungry) IQ sport, a 16 lb tennis ball size ultra heavy sphere is thrown and can even hit spectators and sometimes kills them. Only the USA macho psychopaths can have such ball sports? Or is your country also having its hefty share of macho psycho sports?

The American depravity knows no limits, being seen in the filif worm IQ bull rodeos where animals are tortured, bulls often jump over the fence injuring people (see below). Every single time, the rider suffers dozens of small injuries, but he thinks he's fine if he doesn't go to the hospital. These sports glorify sadistic violence against the human quantum field and ought to be banned globally. People with "infantile brains" lacking compassion and concern for the damage this violence does to the planetary psyche and violent crime rate, people lacking education by decent parents or teachers, sing "I'm proud to be an American, at least I know I'm free" and then the bull injures Americans. Free of what? Of decency and kindness, concern for the millions killed to steal oil and other things? It's simply unbelievable how savage people are, Proud to be savage, *proud to have no empathy for bulls and* people *injured by bulls*. Oddly, pastors don't condemn such violent sports, since for them Immortalist Anthem ideals are too lofty for their religion. What a mockery of the 'proud to be an American' song, might as well show a movie of killing 100s of people while singing it. Watch the brutality, how they allow bulls to gore people with their horns and trample on people, sometimes killing them. All while people are homeless,

☺filif IQ☺ cruel *(adults who, sadly, due to aristocrats, as kids had no chance to learn from the government centralized education tone lessons on universal gentle tender soft nurturing loving kindness)* Americans watch this violence of fellow Americans being destroyed, human quantum field being destroyed. These "2 year old mentality/psychology" adults don't understand this violence will destroy their life too by the law of physics, as they vibrate now mentally in a much more violent way, lacking grace, which will attract more violence or cruelty/apathy from others. Their tone of speech changes and this will invite harshness. It's the great aristocratic plan to keep workers busy being violent to animals and each other. Wake up, ban all such violence. Bull riding injury rate is almost double that of boxing, (see how many low IQ folks get injured, killed and screwed for life) arguably one of the most dangerous 'sports'. The abysmal IQ *(due to lack of free ethics education since nursery, since aristocrats want everyone a slave, brute ready to fight wars and a* primitive *easy to dupe and cheat)* of Americans has no limits, what kind of government would legalize such savage sport, such a sadistic evil sport like Italian emperors watching people kill each other in gladiator sports. Instead of working for World Peace in 3 months and 0 violent sports, they continue to abuse animals, like spies/militaries worldwide abuse millions. We need the Immortalist Party to ban evil displays of genocide, these "sports".

Sadly, the ☺low IQ☺ and infinite selfishness don't stop at the USA, the bull rodeo violence continues in Chile, Mexico, Canada, Australia, New Zealand, Spain, France, Argentina, Brazil, Latin America. Australia, like other nations, even supports kids who join bull rodeos, so the abuse of humans starts early on. They take kids and turn them into brutes who have no gentleness for self and others. Horse rodeos lead to horses breaking necks, besides 0 IQ (victims of aristocratic educational system) humans injured by horses or gored by bulls. They got pig running competitions, to waste resources and time of the American slaves too, no decent housing for people, but pig marathon competitions are OK. Bulls break legs too. Australia bull injured 15, while Australia has a lot of violent crime going on and has no secure borders either. Hear list of injuries. Venezuela infantile adults chase bulls to pick their tail in a sport in South Florida USA, as the ☺abysmal IQ☺ flourishes and Venezuela threatens to invade USA. US dives deeper into egoism and ☺filif "fruit fly" IQ☺, as coleo, the brutal sport of the lowest IQ people, expands to South Florida, with government doing nothing to stop this. How did these ☺worm IQ ☺ folks even manage to get into USA?☺☺☺ We need some Immortality Test for all immigrants. Filipino 0 IQ savages are not far behind, with more torture of animals being "entertainment". Do you trust a US government allowing such violence for 250 years? Many nations have dog/dog, dog/animal fights that are barbaric, violent. One example is in Indonesia where dogs attack mammals. Primitives watch the cruelty without any concern about the brutalization of the psyche of kids nearby. This is similar to rooster/dog fights that are common in many nations still.

400000 Australians go to some Ekka festival by the *Royal* (see how Royals prioritize things in UK,

Australia, equal justice for all, jailed for a post that may offend the Royals? Or for watching an anti-UK gov protest?) National Agricultural Association, a useless Brisbane 0 IQ festival, where 10000 animals are paraded and 21000 competition entries happen, to laugh, shoot 10000 fireworks that kill people via smog, waste time and be a selfish animal who, (instead of building houses for the crowded or homeless Aussies, infrastructure for these new cities, villages for the homeless, pipes, canals, new rivers, etc,) are just cheering like chimps looking at chimps. This is how UK solves its homeless problems in UK and the *USA, Aussie, Canada, NZ colonies*. Habitat.org shows how we can definitely use volunteers to build houses. This pathological selfishness of people playing in rodeos, seems to often come back to them: former rodeo star (who got cancer from inhaling all that dust from rodeos that sicken people) is homeless. Watch how the kids sleep in a tent with their mom, unbelievable Australia. About 140000 Public housing units are empty, in tall condo complexes, in regular single units areas, etc, yet 170000 people wait for houses. Aristocrats don't care, they just play sports. You know, these aristocrats are far more numerous than 0.1%, they're more like 20%, the mini-aristocrats, but *their Excellency and Highness can't be bothered*... They gamble, drink alcohol, smoke, play violent sports, etc, anything but helping fellow man. Then, they complain that "house prices have risen 3 times more than wages last 2 decades", which is true, thanks to their indifference to real change. The aristocrats setup the chains around everyone's neck, so no change is easy. After 1000 years of UK Crown feudalism, it's not easy to even dream of kindness, of decency, of one national family, where housing is a human right. See, in Romania 95% of people own homes, in Australia only 63%, US 65%, UK 67%, the reason is simple: Romania was the most communist nation of Europe outside of USSR, so things were more fair, to say the least: also, there were no drugs, weed, nightclubs, endless pubs, no casinos, no guns (only cops had them), no gun shootings ever, even today gun death rate is 100 times less than USA. There was more ethics wholly absent in today's world of "everyone for themselves", the ethics of "let's help all, we're one national family", as this list of high ownership rates nations indicates (most are former communist). In USSR, houses were free, so 92% of Russians owned their home in 2022. Perhaps, Aussies, Americans, Canadians, etc need to Declare their independence from the feudal UK to become a real democracy. On paper, US, Aussie, Canada are free nations, in reality, feudal colonies.☺☺☺ Land is plenty, materials are plenty, time is huge to build stuff, yet nothing is done: except drinking, smoking, acting busy at work (nobody allowed to volunteer if job is done), violent crimes in pubs, brothels, gambling, punching bags. An ethical city council raised rent for a gym 13 times, to get rid of the criminal gym built when the city is full of homeless and crime from overcrowding. This council ought to be awarded National Medal of Immortalism. All exercise can be done at home, using exercise.gov videos with 10000 exercise examples. Youtube has 1 million such videos alone. To exercise, you can buy cheap groceries at this place and give them to the homeless (in tents) whom the UK Royals neglect. All councils need raise gym rent

10-20 times and build housing. The hypocritical church, mosque, synagogue, temple goers in Australia and worldwide, who don't realize they don't need the building, since God is everywhere, are like those going to useless nail shops, strip clubs, sport events, etc that all take huge space and facilities, building materials that could give these people houses. Check out the statistics for Salvation Army visitors: many eat out of garbage bins. Check out how NSW government wants to erase houses to build a football field. Imagine that. They certainly would deserve to be voted out next time, if Aussies get the Immortalist Party. You know, all over the world, we find cannibal chimps who pretend to be humans, who spend 10-20 hours a week, playing their evil sports, when all this time they could have eliminated all homeless in the nation. This is due to a culture of criminal selfish capitalism, that is "me, me, me" and doesn't give a dime about the family that is the country, the Family of Immortals of the Civilization. If you're housed, you're simply lucky. People don't become homeless by choice, *but due to the infinite selfishness of the rest of the nation*, who parasitically feed off the system, misusing their free time, instead of helping all have a decent home and basic food, abusing the riches bestowed them by the completely unjust "me first, nobody else cares, I can make 50000 times more than others for working the same amount of hours" money first capitalistic system. Be kind, reform your country, create the Immortalist Party in your nation, bring immortality capitalism. These parasitic free loaders then complain about violent crime. The truth is that 99% of crime is due to inequality like unequal education. Australia has issues with board games, related conventions: look at these fat selfish people playing board games, while they could build houses, cars, stop all imports, make nation self-sufficient, and enable 0 drug entrance into their nation via 0 imports.

Another barbaric violent sport, though far less diabolical than bull rodeos common in dozens of countries, which allegedly started in the 14th century at least, is finger wrestling. Instead of focusing on World Peace in 3 months, people waste eons to drink beer and damage their fingers. Initially, it was a way for people to solve disputes supposedly, in the 15th century, when instead of a duel with swords, they would finger wrestle. It's shocking that Germany, which alleges to be a civilized nation, still practices this finger wrestling. Now one can understand fully well why the Germans were so easy to seduce by the foreign spy Austrian Hitler. The culture that the Jews and Italians have given Germany for 2 millennia was one of 0 critical thinking skills, questioning our beliefs, and mere obedience to the Pope lies about fake miracles. The "drastic lowering of average IQ" of *Germans* by Christianity (which has brainwashed billions that these quotes about beating kids, slaves and slavery are the Word of God: take slaves or beat slaves) has had the same effect as on every other continent where the church of "Peace never can arrive until *Jesus returns in 4 trillion years*" has created an anti-life culture of apathy, indifference, passive tacit support of the aristocratic wars of greed, by never promoting World Peace in 3 months, Eternal World Peace thru real reforms, 1 billion fold lower violent crime, etc. These sports destroy the

human species as they take all energy from achieving the kindergarten level of civilization: 0 killings, no wars, no injuries (that these sports always cause), no violence. Equally selfish, anti World Peace is Oktoberfest devil wheel 'sport', part of a beer drinking festival that disregards the plight of the poor Germans who could have been helped in the time to produce beer and organize these low IQ festivals, kept alive by traditionalists, like the 0 IQ church rituals. Why practice useless 'sports' instead of helping give single family housing to all, so violent crime goes to 0 in order to sustain World Peace. Finland doesn't want to take care of the homeless and those living in terrible jails in Finland, a country where heavy metal music is 100 times more common than other nations, instead, they waste their life with fake horse jumping, because we need "more jumps and less compassion." Sadly, other nations now started to copy this 0 IQ sport, like Australia, where 2 million have been homeless recently. USA and other nations have invented a new sport at the New York 400 acre Falun Gong headquarters (Falun is a fake cult CIA created to destroy China), Shen Yun, where 12 year old girls are tortured to perform wild jumps that destroy the human quantum field, due to dislocated knee caps, broken ligaments, etc, massive brainwashing, like at the Olympics and the eternal abuse of students by physical education teachers, who force kids to jump and do risky things. ☺☺☺☺☺☺☺

Those stadium materials deprive many of medical facilities, decent housing, etc, so one could do gymnastics at home, clean the neighborhood, put up posters about character. Oddly we got way more sports facilities than medical ones. Medicine can help us live to 90000, sports to 100 max. Oddly, in millions of churches, MILLIONS OF house or condo FRONT YARDS, many military bases, they worship basketball hoops and have soccer, etc or basketball fields, etc, but not even 1 big poster about Immortality *for* All, altruistic gentle loving kindness, not even 1% of the church land space dedicated to Immortality research centers and Qualities, in stark contradiction to their so called true following of the Gospel that says in C 15:44;51-3 ☺☺"our mortal bodies must be *transformed* into immortal bodies". What an empty spirituality? "When I was thirsty, you gave me water..." so when they're crowded, they take away all land... for golf courses, huge stadiums and fields... True Gospel followers? Why is the gov even giving free tax status to those who care more about a hoop and 50% of church land dedicated to moving balls, to run than about living the text of their religion, to care for those so crowded, they can't even run or walk☺, the smog is so thick, from all soccer game car jams? *Do we worship the 'God of violence or of death/short lives, Satan' or the God of Life, Eternal Life?* Have some free will? Want to be the light of the world in a sea of darkness and shouting? Why not choose and start a new domino effect? Walk, do *gentle yoga* (video on yoga injuries), stretch, do some pushups or gymnastics, aerobics, while listening to World Peace in 3 months songs you create after 10 days of rest?

Wars start with animal torture; animal cruelty is a part of a step by step indoctrination to create mass killers, it is demonic programming, watch it in '0 IQ' effigy burn (smoke inhale that ruins

lungs) in Moscow too, in the celebration that simulates burning of a human in front of a church, at the beat of violent music *(it is a sin, in this ultra violent world plagued by jails, violent crime, floods (exercise by raising house foundations by 3-8 feet) and war, to play anything that restless as it destabilizes the quantum field and leads to more wars and homicides, violence, etc),* pure satanism, while fellow citizens suffer homeless, Ukraine cannon fodder, or tortured in jails. These same Russians *(or whoever rules Russia and pretends to be Russian)* are happily bombing Ukraine now, and threatening UK in 2022 with 500m tsunami on TV in a 'content' tone (not vocal) reminiscent of Hitler. In 2024, a former deputy commander of Russian military said a nuclear strike on Netherlands, where 55% of Europe's hydrocarbons are, would possibly stop the war, while another host proposed ICBMs in Mexico, Cuba, Caribbean to attack USA and *help* Mexico gangs or Houthis attack US military bases and mainland, which they would do if Mexico wants regain half of its territory it lost in the American-Mexican wars. The attack may not happen now, only in 35 years. The Mexican elite is simply prepared, though Mexico exports most stuff to US and a war would ruin their economy as US would boycott all Mexico made products. Another official said they may use all their 7500 nukes. Medvedev claimed Russia will annex all Ukraine, not just Donbas, fighting even until 2034 to wipe Ukraine off the map. In 2024, Sergey Mardan (a Jew provocateur to new wars of gentile slaughter?) said on Russian TV that "Russia needs to subjugate its neighbors", it's a sign of the lack of filtering of TV content and the lack of interest in World Peace, in motivating a benign civil atmosphere on the Internet, TV, radio; this is pure Nazism, if this is what he really said (I don't know Russian). Hitler *(a Jew who escaped and faked his death in 1945, who helped Jews move to Israel and other nations covertly and to create Israel?)* said the same thing in his Mein Kampf book "Superior Germans, subjugate all nations", in order to incite gentiles to mass slaughters and kill 9 million Germans. Sergey Mardan said *sarcastically* "the West claims Russians are cruel, extremely evil aggressors and I agree", indicating he's role playing to be a Western puppet or not Russian, or he's mind controlled to be very aggressive in tone on TV and that Russians are basically ruled by foreigners covertly, they have no clue who controls them. He may be trying to recruit more communists covertly via such 'odd comments'. *We need* World Peace *in 3 months, such statements ought to never be on any TV*. Watch how this "Russian" never mentions World Peace in 3 months, nor any Russian TV host, Putin, etc. Every year new global war ideas are on Russian TV or press, so far over 50 about nuclear attacks. We're being prepared for a big holocaust of gentiles?

In 2023, more 'Russian' so called 'experts' call for nuking Western Europe or Poland, to "save humanity". Former Russian President Medvedev called for eventually exporting nukes to 3rd countries so they try to attack US and then US has pretext to change the regime by bombs in those 3rd countries both US and Russia hate. They got protests in Russia calling for aiming nukes at US cities. This is a sign of Russian plans for *possible* nuclear holocaust. Get out of USA? It may

be wise if things continue to get scarier in the Ukraine war in 2024-2034. Let's hope sane people prevail by 2030 and nothing happens except verbal war. Russian disinfo is BS. Medvedev may be a CIA asset, like Putin, and he may coordinate with USA how to change regimes in 3rd countries as a result of this conflict spreading globally in small little sets here and there, to achieve their final goals. Why trust anything Putin, Medvedev say in public? Do something kind today, stop playing evil sports, and the world will improve. Even CIA NGO tactics will change (this article presents CIA tactics, while being pro-Russian, instead of pro-Ukraine, not a puppet of Russia or US), as mass consciousness evolves from predatory selfish animalism, to kindness. Sadly, while presenting some truths, the author claims Ukraine loved its puppet pro-Russian government, when in fact all countries want to be free from slavery. Perhaps, the author, while stating some obvious things everyone knows, role plays being pro-Russian in order to enlighten Ukraine about big power interference in Europe and Ukraine. At least be prepared if living in a big city (read all the links in the article, like mushrooms that grow in case of 2 years of no sun, and rats can eat dead trees to provide protein for humans eating rats, insects can eat dead trees and humans can eat insects), because you never know if they're joking to intimidate or being honest. In 2023, a Russian official claimed UK is run by foreigners and may be "destroyed" for giving Ukraine cruise missiles with 3 times the range Ukraine has now. Nothing was done, even if UK sent those missiles. In 2024, the same guy who made tsunami threat said USA, France and UK would be wiped out if NATO sends Ukraine troops. Newsweek (scroll google) reports 50+ threats from Russia about nukes, so maybe they will nuke Ukraine at least. *Someone is planning something sinister again* like in WW2? Unaware of the danger, people torture pigs in joy during pig wrestling sports, relishing in their 'demonic' (if religious) or evil (if agnostic, atheist) urge to inflict pain on innocent living beings so similar to humans, not realizing what a grave sin *(or destruction of the species quantum field and oneself too, if atheist)* it is to torture animals like that, even if not as gigantic as the sin of torturing humans; when angered, *enemies can progress scientifically 100 times faster than imagined by pig torturing enthusiasts*. So much so, that their boldness may cause them to start WWIII and turn *50 US cities into 50 super Hiroshimas* (50 times the blast power, so 100 million dead in 2 years, 50 million dead in 5 minutes, 7 billion dead due to nuclear winter, more exchanges and global famine), see the Hiroshima damage. 80 million dead, see more WWII videos here. The Japanese were going about their daily routines happy and confident, as the nukes hit. On a planet without violent crime and war, playing the less violent sports like basketball, volleyball, etc may be OK, but here, with this insanity going on, half a million dying in homicides alone each year, it is not only selfish, due to violence coming from poor sleep due to no decent housing, etc... but it is bad because it takes us away from creating the peaceful vibes absent in these sports of shouting, and conditioning the neural systems for violence; so we glorify basketball, etc all kinds of stuff, but nobody ever talks of 0 wars, violent crimes, jails, etc, why is that? Is this Baal worship, Satan worship? Few believe in

'devils', so what may help is reading the baboon analogy, they share 94% of human DNA.

Do decent people realize how sinful or evil it is, in the context of *7 billion people possibly dying in a WWIII*, to go about like a robot and play these anti-peace selfish sports and not do what is urgent to save humanity now? *Would you be so kind to allow me to be honest?* OK, thanks:☺☺☺ in high school, the terror like educational system forced us thru the *dictatorial physical education teacher with a scary tone of speech reminding us of Hitler*, to play basketball or volleyball, and I always tried to choose volleyball with the girls when the biggest shovers played basketball and when I had a choice, since basketball has a lot of shoving since guys are a lot more violent and shoving types and it's plain grotesque, to shove like that. I got about 100 times less shoving in volleyball from the 'thug like participants' in the 'evolved' basketball, for real. To pass the class in this satanist educational system so popular worldwide, we had no choice of a decent *gentle yoga* (video on yoga injuries) class, gentle movements, helping build a portable house to send to homeless or people with need to live somewhere 5 months while their house is renovated, etc: all we had as choice is listening to the insane shouts and see/feel the shoving and wild gorilla energy of the basketball players and women being turned into low IQ chimps jumping to hit a ball while others die by the millions in violent crime? If Satan has favorite sports, they're probably martial arts, boxing, MMA and all related stuff. So, the seekers of God or Peace, what could they choose to get closer to God? We can gently think and watch: in my classroom, oddly, the people who liked to play basketball the most, were the rudest, most aggressive, violent and meanest, and I noticed that with other areas too; so is there a relationship between temptation weakness and love of such sports? When Americans kill endless people, some US guy creates basketball and everyone then worships it, does it come from God or from who? Violent crime is the cauldron of hate and of war starting and it happens sometimes also due to poor housing, etc, so we need to take care of humans, not of balls. Let Baal take care of himself. We can have some gentle kindness for our souls and ask: would God or Immortals, when millions are maimed in wars, suggest to create these sports, and very violent football later etc, when a little walk, running, selfless service, aerobics, etc would suffice and build a far Godlier or ethical, longer lived human?☺☺☺ Oddly, we now build gyms every 300 houses, since cities are not that safe anymore, after all these boxing like sports, so we can use more resources that would alleviate violent crime, to train to punch others, build strong muscles and 0 compassion, to be violent in martial arts, since the cities or parts of most of them are so smoggy, dirty, unsafe and filthy thanks to our true "living Christianity": so it all comes to learning self-defense, when they could easily create a vastly different culture where no thought of violence or forcing anything on anyone enters the mind...; how insane, perhaps, they will soon propose, everyone wears an anti-tank missile in their backpack just in case a car might come nearby to vent their anger, better be protected it's a constitutional "right"? ☺☺☺☺☺☺☺

Why are we so easily deceived by Satan or society to believe that just because one claims to be "Christian" the sport he creates is from God, the best choice or ethical in the context of an ultra violent planet? Sadly, a lot of these hunting (Bush), golf (Trump), etc sports are popular with so many famous people and presidents; perhaps, if we scientifically show with MRI and vocal recording how much better the capacity to radiate eterni kind emotion and tone is after decent sports vs these ball (BAAL) sports is, skeptics will agree that it makes sense to ban sports like this that make the human quantum field saturated in those energies that delay World Peace in 3 months and 0 violent crime instead of *half a billion violent crimes a year.* What if Baal turns every soccer player into a sucker, that sucks, as the idiom says, he suckers their soul into following BAAL? They don't realize it?☺☺☺☺ And how are the "eterni tone speaking" US leaders preventing the end of civilization? Continuing burning effigies in the Bohemian Grove if this video is not fake? No, perhaps they will legalize all drugs, continue making body parts toys and fake blood for decorating selling on Halloween legal and etc? We need to be kinder to prevent the end of all humans in 10 seconds some day, since each decade we get closer to that tech, we're SOO CLOSE. Yet, there is some hope for us humans: today we can do in 1 year what others could not do in 1 billion years with their former tech; today, each person can listen to 20,000 eterni music clips that bring peaceful vibes, which could require before 20,000 orchestras for every 100 people to develop the brain in eclectic ways, with instruments, as recording devices didn't exist. Today, via free PDFs, people can be owners of 1 billion free ebooks, and become 1 billion times more understanding intelligent than cave men of 1500s when the print press was just getting started. To give 1 million books in 1500s to many groups of 100 people before would require 100s of planets to grow trees, and ship them to us, but now with tech we can let all have it. Likewise, we can reach World Peace in 3 months, vs 3 billion years before, due to these techs that we misuse to create violence and pig torture. Let's choose Immortality *for* All, not death, World peace in 3 months, 0 violent crime in 5 years? We're one superorganism.

Perhaps we can ☺☺*lovingly tenderly gently kindly*☺☺ revive the American dream, the *dream of freedom from violence for all humans*, be a true champion of freedom, *nobody tortured, in jail, in wars, in any circumstance, animal or human*, be kinder or more spiritual, if you love that. Watching often in person bullfights, rodeos that torture horses/bulls, animal (chicken) fights, pig catching contests, hunting, any torture of animals or people (even sarcasm that makes others suffer, though sarcasm can be gentle and loving sometimes aimed at exposing the cruelty towards animals or people some so called spiritual groups engage in, cruelty that shortens all humans' lifespan indirectly), are shortening the average lifespan of the entire human species (all races, etc); hunting especially shortens human average lifespan due to physics effects, and lead if meat eaten, it lacks kindness and can inflict 2000 times more suffering than a high tech death; thus those doing it for 'fun' *(while not killing of animals who actually kill or harm people, not*

birds that are fun to shoot and left to rot), due to culture, or brainwashing by others and/or not knowing effects, have free will to lighten their souls start repairing bad karma. Volunteer to work for Wildlife control or something, if that's your hobby, so the workers can meditate, listen to immortalist music and have a break from their terrible job of killing so many animals, which taxes their psyche. Show some virtue. Repair of bad karma gives less gravity pull by local astral matter perhaps, so 900 times (900x) faster astral flying *(when we speak with 20%* eternitone 5,000,000x more than others we may fly 8,000x to 10^{20} faster, while torturers (intermediate, if adding unkindness to gadget one or direct) may not fly at all once free from their body, being restricted and having to face like vibe souls (out for a fight or 'torture' session); when we're kind or have intention to be so but are not allowed to by torturers, being forced via brain gadgets or torture to have polluted tone or do unkind things, soul is not affected; God (for theists) can help the soul fly or the soul can exit or erase memories when torturers do their torture, so the soul is not affected (just the body-brain); things we do out of innate soul choice affect astral gravity, not those we're brain gadget manipulated or forced to do; since the feedback of astral matter follows the quantum entanglement link and downloads gravity of astral body unto the brain gadget user,☺☺☺ not the intermediate human they use to *do a 'questionable thing')*; 'weight gain for physical body, for soul is anti-immortality, anti-evolution, anti-longevity'. Talking about cruel hunting sports: Immortalists *would never inflict* pain *on an animal, a drone can get close, help the animal to move into a* relaxed *sleepy* state *(or* even bliss when neuroscience gets there *to* offset negative vibes that may occur even with the least painful fastest death), then inject some chemical for a painless death like a robotic insect, since bullets often make animals suffer 4 days or 70 minutes since owner is far away and is lazy to go there to see how dead it is, polluting all human minds with the vibes, due to similarity to humans, proximity of human at death which doesn't occur during natural death or other animals killing it (because we didn't make all animals vegan yet); it's way worse for humanity when hunter eats animal he killed; bullets are fine when animals attack humans only until we discover painless immobilization, a much better tech. In the wonders of the world high school labs where real sports of kindness are played, people can materialize and dematerialize and rematerialize things, so you can build a classroom, then bring it down and build a relaxation and sleep lab laboratory for 3 hours or 10, then dematerialize it and create a soothing spa with water and nice smells to help people heal (after a bad or tiring day) in a part of the Immortality Dome, then a healing center with something and later change it to something else, so this is a much more intelligent sport than moving a ball, when you can create objects out of thin air and shapeshift them too, it's 1 trillion times more intellectually stimulating, it's helping us deflect all natural disaster deaths, dematerialize the force of a hurricane when it is small, alleviating suffering.☺

7). Going to some stadium to watch/play a sport or starting a road fixing non-profit or company

that would lower the price for fixing road holes and enable the city to fix all holes, and maybe making an app and advertising it for people to mention where the hole is and helping cities fix infrastructure? Roads to new Immortality Research Centers, Universities, housing, etc are needed, have fun driving a fancy machine that removes rock, new tech is sometimes even remote and you can wear ear protection under your music headphones, listen to immortalist music, volunteer, no deadline or pressure, be kind, develop your soul, be altruistic, move some objects and material bags too to fill in the road, machine etc, use exercise to immortalize all and say "I built this University and its roads" and also, have your name in the builders of honor book; show something nobler to your kids than moving balls on a stadium, your university helped cure 100 diseases and prevent 40 million deaths 20 years early; that is kindness, not moving balls in "sports". At least, do your walk, jogging or 3 min stretch twice a day etc without using gigantic public resources for sports facilities when others live on the streets. 47$ billion spent on World Cup Brazil, yet cities are full of road holes, car smog & pipes with lead poisoning people. A company may break even or make some profit (donated to a charity removing amalgam fillings), but it would do something good while playing soccer does nothing good. Or start a carpet cleaning business to lower prices in the market and enable more to have clean carpets; just do it once a week, with the newest machine that heats up to 200 centigrade maybe or something and disinfects better, instead of the old machines. ☺☺☺☺☺☺☺

8). Being a grandma going to watch the latest sports game of her grandson or actually encouraging the kid to instead create a new selfless culture and join her in her catering business and maybe her free vegan meals for the homeless and for the prisoners never experiencing veganism... a business she starts at 70 and is busy with for the next 33 years like the amazing lady cook Mabel Sawhill who lived to 103? Or feeding the homeless who have not eaten fresh fruit recently, if making a raw vegan cake is too lengthy, and don't know what a raw vegan cake is? Building a greenhouse, learning about growing veggies and fruits and producing like this family 6,000 pounds of produce from the 4,400 square feet backyard in the city? Laughing about some science joke about curing Alzheimer, that only a geek would understand and which would excite a youngster about the beauty of scientific research for humanitarian purposes and exercising the heart as much as jogging in the process, or laughing at making fun about some violence in some comedy, or some group of people and offending their feelings? ☺☺☺

9). Playing a random video game or one with some avatar punching others or playing a video game that solves the protein structure for some molecules, helping scientists to find a new cure? Helping humanity to live a healthier longer life can be fun and far more rewarding than playing with an Xbox and having 0 impact on OTHERS. Do a placebo controlled double blind study to test which fat soluble or water soluble vitamin B1 form is the best at removing lead and other metals from the brains of people who live in the 5300 water systems with high lead in the USA? It

would be a win-win since many are B1 deficient even if they don't have sky high lead in the blood. They already used fursultiamine in kids to improve autistic symptoms and remove lead. Enroll 10,000 to 1 million Americans in the study, and get all teens excited about an intellectual activity and exciting discovery that helps all double lifespan, join the Planetary Revolution in Heavy Metal Detox for higher IQ. No more stadiums, have STEM labs, proper on-campus housing, and research centers, start physics/chemistry in the 1st kindergarten grade with basics, ☺☺☺ and the real one in 3rd grade? We can plant trees, build motherships to go to Mars and other planets to terraform them, and transcend our present earthling sports (with the exception of those few that are *gentle tender soft*), moving towards teleportation instead. We did not cure 500 times higher mortality from various diseases by playing baseball. We won't live to 150 by playing sports. Monkeys can play some sports too, they can jump from tree to tree, etc, that is not what makes us human. Child mortality (50-80% of the kids a family had used to die due to infections) came down thru sanitation, science, inventions, the hard work of scientists who discovered that feces transmit infectious diseases, like cholera and the hard work of those heroes who built the dorms, universities, etc where research could take place. Then we got plumbing everywhere and we washed our hands and the bacteria infested feces went far away, no longer infecting kids. Then we discovered new things that enabled us to cure diseases: beriberi with B_1, scurvy with C, etc with vaccines.☺☺☺

10). Play sports or use x-ray fluorescence spectrometers on loan at local libraries to measure heavy metals in objects, other scanners to measure other toxins, dinnerware, products, food? Internet sites say we spend 7 billion on NIH, and 100 billion on alcohol, 50+ on sports, 80 on smoking tobacco, 100+ on illegal drugs, 100+ on casinos and gambling (although some of the proceeds go to education and good causes in state lotteries). Same pattern goes on in other countries, US is number 50 globally in alcohol consumption actually. Inadvertently what some sports subtly create is an undercurrent (however tiny and imperceptible) of ruthlessness, social acceptance of pushing, shoving, violence and insensitive uncaring modes of behavior. It sometimes seems as if we unconsciously brainwash our youth that the pinnacle of humanity "is jumping and moving, kicking or throwing" balls in aggressive sports, not gentleness tenderness in service to healthy lifespan longevity of all humanity, eliminating diseases, and different problems we have (natural disasters, violence). The pinnacle of humanity could be promoted to be teleportation, 900+ year longevity and advanced tech, Eternal Learning, ☺ Altruism, Curiosity, tranquility, happy states 1 million times more ecstatic than orgasm. The longest living people were not professional sports players. It's not very scriptural to say that, while others die of lead poisoning in Flint and of starvation in other places, the goal of life is to spend 24-7 kicking balls (soccer and related sports) or throwing balls, etc. all so some people, a few billion, get distracted from the far funnier and soul-fulfilling activity of helping fellow humans. Why waste hours

weekly watching these "highly intelligent" ball trajectories and injuries happening in sports? Let's study living to 500 so we can travel at high speeds and make it back. ☺☺☺

11). Punching others in the face, as in boxing or shoving and jumping on others as in rugby, or building a physics research center to develop a tech to make road holes without noise? Right now, compassion for construction workers (and nearby residents) would call us to develop silent technologies. When tech is silent and more advanced (requiring less physical strength) anyone can do a lot of pipe replacement (say if lead stabilizer in PVC is leaking, you can replace it with calcium stabilizer PVC etc) as their lovely ecstatic fun activity, since joy is not in doing any particular movement but in helping other human beings live longer and healthier lives thru movement (endorphin release happens when moving in any way, not just sports). It's just a cultural habit to associate fun with "a sport", but the sport of doing something for others that actually helps them avoid getting lead poisoned and living 20 years longer thus, would be more satisfying and rewarding. We would become more active co-creators of the world of longevity and health, instead of always leaving this "physical activity" type of thing to others and if no funds (all gone to stadium building), never doing it. The funniest physical activities could be those that develop altruism, compassion, tenderness, softness, gentleness. What is funnier than helping each other understand the Universe better by living to 200-900? If you look at Jesus, he gave some people healing, he didn't punch and say "I want you to do that and to call it boxing and play it and have others watch it to degrade the quantum field of humanity".☺☺☺ Probably massaging someone or doing hands-on healing to practice radiating good benevolent energies and thoughts would be more of what God (aliens if atheist) would want us to do, instead of rugby or boxing or soccer.☺☺☺ If you watch with horror some cannibals who fight each other, you're horrified that this is going on. Yet in boxing (and many rough sports that have a lot of pushing and shoving) a spiritual/emotional semi-cannibalism goes on where each person eats the core of *gentle tender softness* in others and stimulates others to destroy that spiritual tranquil evolved nature and core of loving kindness. The same happens in other activities, even watching unetermi speech filled movies/games a lot. If we went off planet and saw some people playing a sport with a bat whereby if you accidentally get hit by the bat (as in hockey or other sports) you get decapitated, we would wonder why do these people do that? Yet, on our planet, we also do the same thing, in a lower degree, as with each direct hit to the brain (so common in baseball, football, hockey, rugby, martial arts), there is more chance of that person living 10 years shorter due to the brain damage incurred even if they don't officially get Alzheimer.

We have the amazing hotels, stadiums, golf *courses, etc but we have such poor housing conditions for college students and others;* who needs golf anyway *(38,000 golf courses worldwide, 8% each in Japan/UK,* 42% in US *with 5% of world population),* except supporters of big profits and wars (that kill the poor used as cannon fodder) for the most part, such a waste of

space, while others live in such crowded conditions. Nothing seems more selfish than golf, except bullfighting that sometimes uses a bullring for bullfights only or mostly. Then they say there is no land or materials for Immortality Universities, even France has bull torture, 10% of France has bullfight killings, 1000 yearly; there is even a 'monument' to cruel gladiator watching (no wonder Romans created a religion centered around torture of a mythical God, 14 stations of the cross and other stuff, they loved to see blood spilling as with gladiators and to further pollute human psyche, France keeps that monument to cruelty there, torturing bulls too); France even used the guillotine a lot to execute people (history.com has more, though Assyrians used to behead people in war too, being inspiration for some Quran torture methods), many people have never heard of this, but reading the lyrics of the French anthem would come to no surprise ☺☺☺as it's not like the Immortalist anthem; so, bullrings are in more than Spain (petition to ban it☺☺☺), Portugal (petition to end 4000 bulls killed in cruel bullfights, they die after the fight, due to injuries usually), Central/South America and some African areas. The golf land sits empty unused most of the time, while US citizens are cramped 1-2 miles away, sometimes parked in run down trailers on city streets (11000 in LA County alone) or even *homeless*. 250,000 bulls are killed worldwide yearly in bullrings... read this short article to see the level of cruelty. In the 21st century, we still have boxing (millennia old), mixed martial arts, in most countries pretending to be civilized, and the gentler golf to violently hit inert helpless (they did nothing wrong) balls with a stick and move away from *gentle* healing grace, and *endless other sports that incite violent behavior and cruelty. Then, they claim they want* World Peace. *Who can believe that?* Why can't countries make decent laws that forbid such cruel sports? Unbelievably, dog fights are also legal in some countries still. While UK banned cockfighting in 1835, it was legal in US in some areas until 2007,☺☺☺ and remains legal in many countries. This shows humans often value fancy vacations more than education, sports (or bull torture) more than education, when you take into account the societal benefit one gets from education vs playing baseball 3-30 hours a week or boxing. Every minor injury as when someone's shoe hits a leg increases inflammation and diminishes longevity, so even soccer playing by small kids (as it is now) is not a good idea, unless they prevent leg injuries, shoving 100% by replacing soccer with a more benign foot tennis (tennis ball replaced by soccer size ball, and using the shoe not the tennis racket to move the ball). A Civilization of Immortals instills the virtue of gentleness and tenderness for self and others since early childhood. It can be argued that it is a disgrace that everyone is required sometimes to do even the wildest jumping in some schools (to pass physical education classes), while nobody is required to take a course in gentle healing tender tone of speech and behavior, conscious breathing, meditation, living 500 years, nutrition, happy states. We discourage the gentle refined behavior of an Ascending Immortality World of Highly Intelligent Light/Energy beings, $E=mc^2$, we're primarily energy/consciousness, not matter and mechanical jumping bodies. I recall at 17 the physical education teacher had us do some useless jumping "required"

activities and I did slip a vertebra too, like many did. It's like that in all nations. All toys that emulate swords, and weapons could be banned globally, since as we eliminate all violence from all movies and toys and books, it will become unheard of and killing will disappear. Nobody would even know what those are, except police/army. We can even make all toys/things soft and gentle to the touch and expression whenever possible and instill gentleness tenderness softness into the psyche of people from age 2, banning any simulation of fights among humans, since we imitate what we see around us. Only the planetary army is trained into "defending against invading aliens (if they show up)" or knows about guns (0 human-human war).

12). Punching/kicking others as in martial arts or using this energy to develop conscious breathing and to heal the sick by exteriorizing/emitting/radiating benevolent *gentle tender soft* healing energy, or building a research center to design earthquake-proof buildings that not even the biggest earthquake in known history can bring down. When we watch others punching others, we move away from the center of healing graceful tender soft gentleness and become more like the puncher, losing touch with our soul nature, the Immortal☺☺☺ spark of goodness inside. We might watch people punching, but all those blows cause brain damage and allowing this form of sports to be legal is like allowing people to inflict brain damage on each other without realizing. It's not compassionate. If you see kids harming each other, you stop it, but for adults, we don't. It removes us from the qualities that we need to bring a world of peace, harmony and longevity. We had chariots for eons, but we moved to cars, airplanes and bigger and nobler and greater things, oral transmission with errors and we moved to writing. We had pugilism, boxing, punching in many forms for a long time, but we also can move beyond that. All these things, plus the violence in songs, TV, movies, make it all the way harder for people to recall the tender gentle softness that we need to bring a world of eternal learning and lifespan tripling. Some studies showed that people praying for others works, but nobody knows yet what happens, as we spend 50 billion in North America in sports and probably a million times less doing research on prayer effect or energy transmission effect. Ironically, many of these fans are professing to be followers of Jesus or Buddha and yet New Testament has like 20 quotes about gentleness 1 Thes 2:7 "*gentle* among you, as a nursing mother *tenderly* cares for her own children", etc and ***Buddha too in Metta Sutta "love all beings as a mom loves her helpless infant" (do not kick and punch as in martial arts).*** It's called Right *Conduct* in Buddhism, the 4 Noble truths and 8 fold path. We discovered lead and how it's not good to use it in fillings as we used to do, so no more lead fillings. Likewise, we discover some sports are useless, we give them up. On top of that, those involved in martial arts, punching, boxing, rugby, jumping shoving as in many sports, are deprived of the chance to meditate, consciously breathe, practice gentle exercise, emotionally regulate themselves in the time of wild smashing of the ball with the bat or pushing and shoving others, moving further and further from God's tenderness kindness

softness gentleness and self-control which bring the bliss needed to joyously engage in happy service to humanity, so everyone lives a better and longer life. Each form of aggressive programming influences personal/planetary emotional regulation/peace.☺☺☺

13). Taking people to church to play basketball (it's often near the church) or whatever if they don't want to because it is boring, or working with the clergy to design the most amazing science demonstrations for all ages to entice children in studying the wonders of God's creation? There are so many mind-blowing physics and chemistry experiments, that even 4-year-olds would find truly amazing, and these are manifestations of God's creation. By learning to appreciate the infinite complexity of chemistry and physics, kids learn from age 5 the infinite complexity of afterlife and how we don't really know much about the universe physically, and spiritually even more. This sense of awe at the infinite immensity of human ignorance makes people more fluid in their intelligence and more eager to live the message of their church or religion, i.e. helping fellow human beings to live a better life, with a 500 year healthy lifespan. Maybe build science chemistry biotech molecular biology physics, afterlife hypotheses, happy states, questioning everything study groups ☺☺☺ instead of Blindly Believing Dogmas without thinking by repeating monotonously the same linguistic things without proof. One church or place of worship may focus on molecular biology and biochemistry of cytokines or mercury or lead or magnesium, another on the synchrotron and Higgs particle relationship with God's Ascending Immortality work we're carrying out as bringers of Ascending Immortality Civilization. Double-blind peer-reviewed data, studies, science-based, reason-based not "blind belief" based. Few young people want to go to church much when it is so boring. In Europe 1000s of churches have closed. God is everywhere and thru personal experience one can travel to other planets and Internet has billions of spiritual videos with far more knowledge and experience (youtubes of 1000s of clergy, millions of viewpoints, spiritual experiences) than any single clergy could offer.

14). What is more selfless, going and doing hands-on healing and massage or using bats to hit balls in sports? The massage or hands-on healing would have many benefits for the giver and recipient in enhancing empathy, positive thoughts and telepathy as explained in Chapter 12. There are many premature or on time but a little sick babies in hospitals who don't get enough hugs and massage and play for the needed 20 minutes or more daily, leading to serious impairments in IQ, health, height, etc. People can be trained to become a nurse assistant in a hospital in the hands-on healing and therapeutic touch department, known to boost human cells like fibroblasts, osteoblasts, etc (hence longer bones, taller kids). Why not get exercise by doing a hands on healing or massage therapy session on people (babies is just one example, just holding a baby makes a huge difference in his neuronal development) in hospital ☺☺☺(as long as they don't get infected, only patients who're for minor things, not infected ones, giving them raw fruits and veggies to eat and recover instead of the rather poor hospital diets), or in prisons,

playing with these guys with some amazing new solar panel building tutorials, giving them skills to use once out of prison for example? Perhaps, it would be ideal for bats to be prohibited in all sports, as they're dangerous or in the worst case, be converted to styrofoam bats, styrofoam balls (they won't fly much, but promote gentleness and local interaction) and no touching sports to avoid shoving, jumping on each other as in rugby, football, etc. Stadiums can be all closed over time since styrofoam balls are not flying too far and materials reused for dorm rooms and research centers and meditation and astral travel centers and relaxation, conscious breathing and gentleness tenderness Development Centers where thru gentle harmonious movements, breathing and meditation people can enter states of cosmic bliss enabling a much more effective service to humanity as people are gentle tender happy soft. To promote gentleness using styrofoam makes a lot more sense if people want to play some of these device based sports as a transition mechanism to a world of gentleness. Rules of all sports can be rewritten if we want the most lasting World Peace, since the current versions promote aggression; phase these sports out as we become *gentle tender soft* builders of Ascending Immortality Universities/ Civilization.

15). Have people import some baseball or hockey bats or sports equipment loaded with lead (like this Mercola 14,900 ppm frying pan and 42,800 ppm fidget spinner) and have teens swallow some lead while playing sports and get lead poisoned or have these teens go to the Basic Chemistry in Service to Longevity Internship Program that gives teens a chance to test with a portable x-ray fluorescence detector thousands of products made locally or imported, to screen out the bad ones (loaded with lead, cadmium, etc) and enforce the no lead, no mercury in products future laws, like Sweden/Norway? Imagine us creating with 3D printers in amazing chemistry and physics teaching places amazing lead free products, molecular sets for kids to play to and learn chemistry and basic physics instead of lead loaded fidget spinners. Or have teens do some exercise while testing for lead, etc and 3d printing nice science toys for the babies, and learn the beauty of chemistry and physics and biology too, make lysine amino acid from some bacteria and see amazing & beautiful ☺☺☺ transformations of raw materials into burgers we can eat. Imagine showing kids the nice chemical reaction of NaOH and phenolphthalein and all kinds of cool things and giving them free access to all PubMed articles (like MIT or Harvard students) if they want to hang out and learn more about nutrition, science and making the healthiest burger, etc. These activities will develop empathy (for the people in the 5,300 water systems loaded with lead in US alone), awareness of pollution issues, of how food is made, of how important is to choose lead free PVC, how amazing science is, truly like magic, enabling us one day to live to 500 and teleport. If there are no opportunities to find a physical movement selfless service to humanity activity in the area, one could create a business doing something and using money to start a Longevity or Immortality Day Care, Kindergarten, Primary, Middle, High School, College where everyone learns the wonders of science and of helping people live a

longer healthy lifespan of 100, 170 etc over time. ☺☺ Or a non-profit that solves something and impacts the consciousness of locals towards the Longevity Immortality mindset.☺☺☺

16). Have people play sports or use this physical energy to make with 3D printers toys for kids that are free from lead and other poisons of imported cheap toys made with "slave" or "child" labor in countries with no environmental regulations? Imagine that the sports could actually be doing something fun/useful for other people, like use a 3D printer to make a nice water filter for people in the 5,300 water systems area, or cooking pots, pressure cookers and dinnerware free from lead. One could also have a composter in the garden to create vegan fertilizer from the peels of watermelon, bananas, etc and use it for a vegan greenhouse, or a pool for water lentils (duckweed) (ω3:6 ratio 2:1). Florida got an amazing farm that grows lentils hydroponically. Some water lentil species have 40% protein/dry weight, 40% fiber, while land lentils 26% protein, 30% fiber; ω3:6 ratio 2:1, much better than land lentil ratio of 1:4. You can harvest them daily 10 months/year in Florida. Biomass doubles in 30 hours; 20 days from seeding to harvest.

17). Playing sports or building Immortality-Longevity Departments in every single University as with Habitat for Humanity? Today, we harm so many people by giving them too little and too much of certain carbs, proteins, vitamins, phytonutrients because we really have no advanced nutrition science. Many studies show that while for some people a certain level of supplement is helpful, for others it is harmful as they already got it from the diet, and it only causes heart damage when people get too much calcium as atherosclerotic plaque hardens. That's why it's so difficult and wrong to say to everyone the same thing as far as "daily needs of calcium or whatever", as some people lack some chemical for B_{12} absorption and need 100 times the B_{12} dose, and others are fine with a little. Since exact knowledge of what each food contains is absent, we rely a lot on guessing, estimating and intuition, experimenting, etc. The optimal level of vitamins for each human is different and that's why vitamins can't be mass produced for maximum effect, they need to be produced in individual customized amounts. It's no wonder most people still live maximum to 110-120 after all these centuries of science.

We could develop a scanner that can scan every single atom in the food eaten daily, every single molecule and also scan from toilet the urine as it comes out and the feces and weigh it computationally via scanning based on the atoms found and determine exactly how much of each element and chemical is going in and out, what goes on in the body, by measuring in a huge lab that people would have to drive twice a year to perhaps thousands of things in real time, since the home scanner would be able to test pieces of saliva or tiny drops of blood as with glucose tests (that anyone can do at home for a few cents each) now and indicate every single atom, molecule, amount in every drop of sweat, saliva, blood, hair, nail, etc and input all these numbers and data into supercomputers and calculate recommended amounts of vitamins,

foods, carbs, proteins and give user option to choose among the 50 recommendations based on the 50 models of what goes on and develop a better understanding on how to use nutrition to enable everyone to reach 120-500 year lifespan. ☺☺☺ If such scanners are not able to be developed in the short term, due to low speed particle physics progress, then indeed, we can do something similar by scanning a barcode of every package of sold food and that barcode estimates exactly how much mg of each chemical exists in that food, a little harder for produce, but even that can be standardized, with the moment one checks out, all data goes to supercomputer and then naturally when we eat, the video AI system knows what we ate, saw barcode and immediately starts calculating the suggested level of foods or vitamins to eat next day, and then we make much better informed decisions. Living to 150 with nutrition is simply an engineering and science issue, like landing on Mars is. Living to 900 is the same. The living human beings scanners to see what goes on real-time would be so expensive and hard to build, to simulate atom level processes, see them in real time in every single cell, that it wouldn't be possible to do it as with food at home at first, to monitor 24-7 aging processes and suggest molecular cellular interventions based on system-wide, organ wide prioritization of longevity erosion factors, etc. Not only that, but we would need to input into the supercomputer system the values of the electric and magnetic field at all points around the body, the light level, the emotional states, as these things influence the million trillions of chemical reactions every second. If you don't monitor the emotions, diet will tell a tiny bit of picture of what happens, since negative emotions totally change biochemistry compared to positive ones and magnetic, electric fields, radio waves, etc all have certain impacts on different molecular and cellular processes. It's just a super complex work that requires resources and technologies that we don't have, since you need to test 5 trillion chemicals on atomic simulations of a human being to see which one minimizes aging and leads to 900 year lifespan, or which gene off will extend lifespan 5 times like we did in worms. You don't have a million years to wait for many humans to try some chemicals, man made or nature found.☺☺☺ Just like computational chemists teamed up with bench chemists and they sped up discovery and replaced olefin making from methane platinum catalyst with much cheaper titanium catalyst. All millions of trillions of chemical reactions happening each second are essentially a dance of electrons. If you're able to simulate this electron dance (and to see every electron) and to see it in real time, you can achieve the same condition without ingesting chemicals. If you see a subatomic dance that corresponds to life and one that corresponds to death, you're able to achieve and sustain life, without food, but a new energy that we have not discovered yet, a mix of energies, and subatomic particle jets that come from somewhere, not necessarily a belt around our waist, but the universe itself thru some wild accessing modality, that we have no clue about yet. What is life? Is it not a super complex dance of subatomic particles that we have no clue about? In a way it is so, and when we're able to live on energy, we're closer to becoming energy, shifting into another dimension,

becoming a world of Ascending Immortality, leaving this boring universe, for another. The cave man has a hard time imagining, understanding or conceptualizing 21st century life or tech, even if he sees it in a vision of time travel. Likewise, we have a hard time understanding or imagining the lives of 500 year olds, their level of empathy, compassion, science, gentleness, tenderness, softness, maturity. The future is so mind-blowingly amazing & beautiful ☺☺, that the difference between 500-year-old future humans and us is way bigger than between us and cavemen.

18). Play rugby or build more optometry centers to do meibography, MG expression, build good eye health (for reading many science papers daily, to discover how to live to 200), create new sports like Atheris or, Eyonix, Ocu, where people stretch, practice gentle moving, then meditate, achieve bliss and then build eterni labs where phone attachable gadgets are developed; they will enable all to check eyes, MGs, lacrimal glands, atherosclerosis (carotid, etc)..., endless markers, and the sport is this cooperative discovery – where nobody loses and everyone wins; no competition that divides and brings animosity; certainly more ennobling than watching bull fighting, and our present sports of pushing and shoving that never really help us to live to 150 or 700; new biomarkers monitoring via tears, new atherosclerosis monitoring centers, etc (# 1 killer is heart disease). Or build satellites like LISA (postponed to 2034 due to lack of funds, as it often happens "stadiums first, science last") to determine if there are new *universes* being created all the time so we understand the universe better and can better comprehend gravity and its relationship to dark energy/matter? What if Big Bang was a white hole ejecting mass that black holes in other *universes* trapped? What if there are many parallel *universes*, new ones being created from within the hyper-universe? co-building *universes* with God? ☺☺☺☺☺☺☺

19). Play soccer or build some amazing & beautiful ☺☺☺ new songs with scientific lyrics to educate people about science of 500 year lifespans or some amazing sound techs to make plants grow faster? Make songs about every important topic taught in science. Some plants grow bigger and healthier with sound, so discover the sound that makes us live to 300. As explained in Chapter 7, Sonic Bloom treatment has brought yield increases of 400% for cucumbers etc.

20). Play hockey or help eliminate pesticides and unsafe GMOs (not all GMOs are safe, at least since they increase use of pesticides), as in Chapter 12.12. Don't hit a ball with a bat, just use a screwdriver to promote peace and virtue: lots of homeowners use nails for gutters, when screws do a much better job, no longer having to tap the nails every year as they loosen. Loose nails cause water and leaves to pool and to clog the gutter, as it bends and drips on the concrete, making noise, upsetting people and causing negative emotions polluting the quantum field; a little screw prevents the next big war. So, imagine if people help others to replace nails with screws, do some exercise, super easy for 1 floor houses, with a small ladder.

21). Play martial arts, sumo, rugby or basketball or save lives by building platforms that later are

transported in Atlantic or Pacific ocean to detect hurricanes before they become big and trigger the use of lasers to extinguish them before they kill people, cause huge damage, injuries and millions of lives disrupted from building a better Immortal☺ world? 1000s of Americans have their tap water catch fire due to drilling for natural gas, and having their water supplies heavily polluted when we can have solar and wind installed via a new renewable promotion sport.☺☺

22). Play sports that damage the brain and make people more aggressive, or study more the research showing inner peace and tranquility is related to motor neurons in the brain and the type of sports played? The brain centers for movement are connected and influencing the brain centers for emotions, *cognition*, etc. It has been shown for example that slow conscious breathing will activate neurons that make us tranquil and lead to a world of peace. A recent study found that slow breathing induces tranquility as explained in Chapter 10.1. *When we do a lot of "sports" we move away from slow breathing, and we enter the world of agitation, emotional and mental, and it's easier to lose peace.* We can design an interventional study some people doing a sport and others some gentle service to humanity with aware movements of grace *gentle tender softness* as in telepathy walking exercise, and you will see by measuring the parameters for tranquility, ESP etc if the service to humanity group moving in grace will perform better than the group who plays a sport, or even that a gentle *tender soft* sport or moving is better than a rapid, aggressive, pushing, punching sport. With biofeedback, self-awareness and neuroscience awareness, people become aware via telepathy of the best movements that trigger thru neuron-emotional synapse links the best outcome telepathy and inner peace wise. Another possible clue that the divine telepathy enhancing movement is one that is filled with gentleness and tenderness, is this: ☺ if we were in the presence of a shimmering shapeshifting Lightbeing Immortal☺ of 3 billion years old, who can dematerialize mountains and hurricanes, doing amazing & beautiful ☺☺☺ miracles that blow our mind away, we would behave very gently, move very gently if the Immortal requested a piece of paper. We would go to a place and walk carefully gently and hand the paper to him gracefully, not in the rushed fashion we do things in many sports, martial arts; we would have far more self-restraint, care, attention. In the presence of God or an Immortal☺ Angel we would not hit with a golf bat a ball because we might hit God. If we don't do this with God, why do we do it with people, playing these dangerous sports that harm people? People are God in disguise, so when we hit them accidentally, in soccer, their legs for example, we hit God. Is this the first impression we want to make on an Immortal when meeting him, hitting him? The human experience lacks much *gentle tender softness*, lacks behavior showing God really dwells in others. Some of the gymnastics moves, wild dangerous jumps, are very lacking in gentle tender softness and can expose people to risk of injury and this is anti-Life, anti-Immortality. A wise civilization has gentle tender soft sports without risk of injury. The gentlest is the strongest, gentle sports in serving others create

a nicer civilization. Nothing is stronger than true gentleness, gentler than true strength. ☺☺☺

23). Renovate some of the 15 million plus empty housing units or play sports? America's colleges rely on 30-67% of teaching being done by part-time faculty, sometimes, and these professors, lecturers become homeless. How are we making America great again, by playing sports when these people are homeless? If we're one country, don't we care a little about Education, the most important thing for the future of a nation? Unbelievable as it may seem, it's estimated that about 25% of adjunct faculty (people with PhDs, Masters etc) are on public assistance. It's not clear though how common it is to be homeless though, but the situation seems bad. "7% of families of part-time faculty members receive food stamp benefits. 7% of adjuncts and 6% of their children receive Medicaid". Families of close to 100,000 part-time faculty members are enrolled in public assistance programs.☺☺☺

24). Playing hockey and smashing people's teeth occasionally or practicing conscious breathing while exhaling and radiating out with each breath a wave of universal selfless loving kind compassionate forgiving mercy, until this habit becomes so strong, that one is able to really live the "Love your neighbor as thyself", or "love enemies, pray for them" and turn suffering people (people suffering from anger, fear, paranoia, etc) into happy people willing to create a world of peace? We see how Shaolin monks can do seemingly impossible things (breaking bricks off one's head) to someone who never saw those things before, thru training. Imagine if instead of these violent Shaolin feats or martial arts or other sports we would train ourselves with that same 30-year commitment to become adepts at radiating the most coherent emotion of *gentle tender soft* universal selfless compassionate forgiving merciful love that transforms any negative emotion into the peaceful happiness of infinite compassion, the desire to only help all beings and bring World Peace. Usually a person can radiate a healing universal compassion emotion of "1 watt", but with 30-year training, he can perhaps radiate one of 10,000 watts. Like yawning (which happens when we just read about it sometimes), this tender soft compassion becomes contagious. We develop so many muscles, but hardly any emotional radiation muscle.☺☺☺

25). Doing winter Olympics or soccer cups or doing Immortality, stop hurricanes, make earthquake proof buildings, stop fires with force fields, turn angry people into happy ones with coherent emotion, astral travel to find structure of quarks and far away galaxies, Live to 900 OLYMPICS where people of many age categories spend 2 weeks to research together effects of vitamin D on telomere length and healthy aging (short telomere can mean 8 times more infectious disease mortality if after age 60, 3 times heart disease mortality) etc? All teams competing and the world watching. Imagine what a paradigm change, instead of seeing people jumping or moving balls, people would compete in solving real problems, like dementia in old age, heart disease in old age, etc... You would think we're in the 21st century and we're overdue

to upgrade our sports to reflect the science, the understanding we got now, showing that even gentle movements lead to longevity (no need of dramatic rapid sports which have no practical application other than a sports competition), as those done in science research, or chores, or basic volunteering activities. *People who do moderate aerobic exercise, 3 times a week for 45 minutes*, have telomeres pretty much as long as marathon runners. ☺☺☺

26). Playing soccer or doing Immortality Outreach, engaged in a marathon to extend human lifespan to 500 for all alive today, and making all aware that we may discover a chemical or gene turning on or off via CRISPR which would enable teenagers to live to 500 even if it is discovered when they're 40 years old? Imagine if 1 billion work on building a world of "Immortals", instead of playing sports. The fleeting happiness of some soccer or weed is not even 1% of the joy of living 900 years and having time to learn new sports that lower cortisol, such as building the next generation anti-aging university or space vehicle with gentle movements, joyous thoughts and breathing that induce far greater benefits to the health of the body and mind, visit new planet we terraform and experience amazing cosmic bliss in meditation as explained in 10.1. ☺

27). Playing sports or a much more intelligent game of moving a ball representing particles in the Rutherford (the discoverer or the electron and proton) gold-foil experiment (proving the nuclear nature of the atom) explained in the vision eye section or molecular model components of DNA being deoxyribonucleic acid, a polymer made of nucleotides, while RNA is ribonucleic acid. Nucleotides are made of phosphate, a sugar and a nucleic acid base. (4 for DNA, 4 for RNA). Showing the kids how nicotinamide mononucleotide (NMN), similar to the monomers of RNA, enabled the cells of mice to look 30 years younger (in human terms). Or the particle wave duality explained thru the double slit experiment in a very nice ball game. ☺☺☺

►►►► OTHER IDEAS ON SPORTS ◄◄◄◄

These sports stadiums, facilities, etc take space from City Immortality Parks that promote World Peace in 3 months, measure biomarkers, prevent disease 25 years before it has clear signs and irreversible damage, etc. Right now, the only people who get decent care are the rich; the rest are cannon fodder primitives who buy sports tickets, so they sit in traffic, raise blood pressure and then sit and watch crap, while not exercising at home and not learning anything intelligent to live to 120. It's time for Americans to become free from the sports mafia and realize how unChristian most sports are. We the People can always take back our country from the gangs, cartels, gangster billionaires and *we can raise taxes 9000% on sports facilities, so we have money to build medical facilities, biomarker monitoring for disease prevention.* The highest right of all is the right to Life, to a healthy life, to not being killed in war or due to lack of healthcare. We can prove that these sports delay 1. *World Peace*, which they obviously do, thru the loss of *'resources and focus on that'*, *2. Long Healthy Lifespan*, which they do, as they take resources,

land, etc, for high tech disease and aging prevention facilities, etc, *3.0 violent crime and the war it brings*, which they do, as explained above. Thus, we have all the fuel to argue in all cities, councils, parliaments globally, for the liberation of humanity from thuggish vibes and the advent of *true universal healthcare*, *gentle tender soft healing* grace of *nurturing* universal loving kindness. The French Revolution was quite radical, but we can't use violence to achieve the graceful transformation into a world of kindness and care for all, not just the rich who don't die in wars. Let's change the Democratic Party and Republican, educate all Christians about the depravity of current sports (read this whole chapter to understand why it's anti-spirituality and anti-life, anti-Jesus, anti-God) and to fire up all to fight for their healthcare rights, instead for being ☺abysmal IQ☺ slaves shuttling to watch a ball *move*. Why not do pushups, squats, situps at home, and have a real preventive medical care, good sleep that helps all live to 120? And achieve World Peace too in 3 months first too before we even demolish all stadiums, so we get even more trillions to help all have a healthy lifespan of 150. Because World Peace is way more important than stadiums, sports arenas and shouting. Because the survival of the human species is way more important than chimp sounds.☺☺☺ The billionaires make money off sports teams, while the poor die 20 years earlier due to no medical facilities. A true Christian, Muslim, Buddhist supports Immortality Capitalism, which, as explained, bans any sports player from making more than the minimum wage. What are casinos/gambling for? They shrink everyone's lifespan, China (except Macau) bans gambling, why can't we ban it, so we focus on science?

Acrobatics, as done by circus performers, is a very risky sport that can lead to fatal or other serious injuries, yet some find this entertaining. In a culture of Immortals, where life is far more valuable than seeing someone jump and do wild things, these "sports" (it's not even a sport in a real sense, as only professionals practice it, no amateurs) wouldn't exist. I have never come across a centenarian in the media who was a professional sports player. The main argument we have been given for the astronomical amounts spent on sports has been around the idea "exercise helps you live longer". How did exercise help these sports players reach 110? If we look at the centenarians, their activity was doing usually something useful for humanity, one lady was catering for others from age 70 to 103. She started a catering business at 70. ☺☺☺☺

Most buildings worldwide have very poor soundproofing and are actually substandard when it comes to decent soundproofing, allowing noise to travel from one room to another easily, and America is no exception. The planet spends 3 trillion a year on smoking, alcohol, gambling, illegal drugs, yet there is not even 1 university dedicated to soundproof windows, doors, drywall and building materials. The impact of a little university or department within an existing university discovering a solution to this noise would have on human development would probably be worth 2 trillions a year, since the amount of conflict noise creates is astronomical when you add all negative emotions that pollute the planetary field as a result of this. One sibling wants to

study or sleep, a parent or a sibling makes noise leading to negative emotions. Not to mention, traffic noise causes many problems, already proven to raise blood pressure, mental health problems. An MIT freshman, Scott Krueger, died of alcohol poisoning in a fraternity because even MIT (all top schools, Harvard, too) doesn't have enough housing to house all students who want to live on campus and has to put 2 freshmen in one small room, with one going to bed at 3 am and another at 10 pm or later and not getting good sleep. Because of this freshman death, MIT now requires freshmen to live on campus during the first year, like many top schools do. An MD explains why it is a very bad idea to have fraternities and alcohol parties.

In 2018, 63% of undergrads and 38% of grads lived on campus. MIT Senior House, with a skull as their "Sport Death" symbol, built in 1916, was closed down as an undergrad dorm in 2017, due to drugs and low grades, repainted and turned into graduate housing "70 Amherst Street". East Campus dorm had a 4th floor student die due to drug overdose, the same floor that had hallways full of demon paintings and gloomy vibes. The same satanists ruling USA for 250 years with demonic killing glorifying rituals of the Masonic temples, have penetrated too many schools with their morbid obsession with killing and violence, hazing, alcohol and drugs. MIT, other universities are more like evil intent convents (resident professor in a campus dorm encourages the insane choices of students and takes part in their depraved lifestyles) than universities, where faculty incites students to do immoral things. That's why we immortalists propose a fair universal education to end all private education and this for-profit universities from hell system, that gives better education only to the aristocratic class. Even after getting a single room, later on, it might be in a dorm where walls are thin and you hear much of what goes on in the other room unless you have earplugs (sex outside procreation). The stuff at MIT is typical of all US and world colleges.☺☺☺ Scott died during a "hazing ritual" common in many fraternities in colleges in many countries, which suffer from the same problem as the USA, i.e. lack of proper housing for college students. In other countries it may be called ragging. For a list of other cases see this wikipedia entry. These "hazing traditions" reflect an aspect of our global culture that involves cruelty, violence and inhumanity, exactly like with bullfighting, animal torture in factory farms, boxing and other cruel sports. Far more people are harmed by these rituals, without anyone knowing, since people assume that if they didn't go to hospital or did not die, they were fine, but a simple brain injury during such a ritual can easily mean dying 10-20 years earlier due to Alzheimer triggered by the brain injury. Why are such rituals even legal anywhere? You go to a college to learn, and they force you to drink and basically destroy your body, or worse you end up hospitalized or dead like this guy. It shows just how much we value "Let all you do be done in Love" (Corinthians and other scriptures), "do unto others what you want others to do to you", how much we value our youth, science, education and learning perhaps as a society: very little compared to money making sports, in fact some colleges experienced more growth in sports

spending than academics spending since it's making them more MONEY. If that is not shocking enough to you, then read this: "Colleges spent more per athlete than per student on academics between 2005 and 2010". If you ever saw the best prisons on youtube, they have a much better housing situation in a way as it's a big apartment for a person.☺☺☺ If one does an honest interview with students living on campus or fraternities that offer off-campus housing at any college (not just MIT), one will find students complaining about poor sleep due to noise.

We spend billions on athletics yearly in colleges, yet we don't have funds going to creating soundproof windows, doors and building materials. Hopefully earplugs will help, Amazon has them (without earplugs I could hear students having sex thru the wall, as the wall was thin). We don't even have proper housing for students at the top engineering school (overall, MIT is number one in all engineering disciplines per some rankings), we have 24 times the rape rate of Japan (if reporting is done the same way), 13 times the homicide rate of Japan (if reports are done the same way, not sure if they report as much as US does, a lot of things go unreported; real rate difference could be much lower or even higher), Iceland or Singapore, 8 times the homicide rate of Austria, Switzerland, Bahrain, Kuwait or Indonesia, 7 times the homicide rate of Norway and Madagascar, 6 times the homicide rate of Burkina Faso, South Korea, UAE, Czech, Poland, Slovenia, Spain, Luxembourg, Netherlands, 5 times homicide rate of China, Saudi Arabia, Italy, Croatia. We need fewer stadiums, casinos, and violence filled media? A Wikipedia table shows more than 135 countries have a lower homicide rate than the USA, assuming the reports are done similarly, which is not always the case of course. While many countries under report and this table is not exact for many nations, it does show a worrisome trend. Another MIT student died of nitrous oxide (laughing gas) poisoning *soon after the 1997 alcohol death, and he was playing* rock music at 3 AM waking others up at times. Complaints to the admin meant nothing, so the quiet cities federal guidelines need to bring $9 million fines on all campuses for repeat loud music. This means the student is forced to build roads and work in mines for the rest of his life if he can't pay the fine, in order to bring an end to terrorism via loud music, especially bad music. Nonviolence and *gentle tender soft* kindness first, via quiet enjoyment. This happens due to a lack of centralization of education, which leads to an enormous waste of human resources, when for non-lab subjects, people can learn it online, so then no students need to go to these 'demonic' fraternities off campus and die and become drug or alcohol addicts, in exchange for parents wasting their life savings and sending the kid overseas to the "Great Satan" USA, to be tortured on campus or off-campus on an F1 visa to USA top school. Maybe since 1997 things changed at MIT, but we hear every year about such events. This happens at all top schools, not just MIT, rarely. In 4 years there, I didn't really have any useful class teaching anything about nutrition, sleep, etc, longevity, air pollution, etc. It was a waste of time, since most of my major courses I learned in high school for the olympiad and the electives, humanities

were useless (one could choose more math like electives, that are super easy to pass, like economics, 7th grade math formulas applied and you pass, MIT, world leading money draining university; they paid most of the education via financial aid, but still we had to work part-time on campus for the housing, etc). You hear things like this in the news, but we don't connect the dots that if we built more housing for students (not for stadiums, casinos, liquor stores, tobacco factories for smoking, etc) or have more attend online, and research centers and for everyone with soundproofing technology we would eliminate family/local conflicts that arise when people get angry at noise others make, on campus, or on a street (party noise form a neighbor that windows/walls can't shield from and all this anger builds up in the mass consciousness, making it harder to achieve any lasting peace among nations).

A good ☺☺☺ idea would be for college housing officials to give free earplugs to freshmen while stating "We here have very poor sound insulation, use them to get better sleep. One day we'll have quiet electric transportation (anti-gravity, levitating) and soundproof windows, doors and walls for all". Noise means no quality sleep and without sleep car accidents, work accidents, lower grades and lots of things happen, people lose their minds so to speak. Solar used to be $77/watt in 1977, or 460 times more expensive than in 2020 and nobody used it, yet as market grew, the prices went down. We need a centralized Immortality Building Inc to experience a similar 400 times drop in prices of soundproofing. ☺☺☺

We can build selflessness, selfless service, let kids do selfless things that build character traits not do sports that benefit none, a little gentle stretching with eterni music in background is fine to compliment selfless service to build the World of Immortals, as Radio-TV-internet programs replace sports section and tab with Immortality *for* All ☺☺☺ *Civilization Building.* Kids can do a million things to bring the world of Peace, with 0 jails, 0 wars, only healing centers and peace. Parents and kids teachers and kids can perceive as fun selfless service: they can help create with adults sound barriers, better sound proof techs to allow all to meditate, in peace, turn every street into a peaceful place, teens can co-discover new nanomaterials to create the most sound proof materials, etc, with peaceful music and to turn every home into a temple of peace, not allow people to live in such terrible places while temples, churches, etc sit empty and we got endless sports facilities in every religious and secular school that lacks what is most important, the labs for science and engineering to build the World of Immortals - the learning by doing labs, not the simple chem lab. We don't learn teamwork well by playing sports throwing balls, we learn it much better by doing a selfless action that is the very essence of teamwork, so the argument that kids learn teamwork by destroying their tone of speech and yelling and sports is falling apart. We can evolve and build the infinitely kind selfless Immortals from early childhood, and lead not the youth into temptation. Why tempt the future Immortals to be competitive to the extreme, very aggressive, focused on winning sports, winning always at the expense of the

collective wellbeing, and not on cooperating to alleviate the suffering of others, chimpy baboon shouting aggressive shoving behavior in rugby, football, soccer, basketball, etc... Why not massage the sick person or teach self-sufficient bliss independent of touch that builds self-reliance for infinite happiness, help each other, to have a decent place to sleep in silence instead of aircraft noise, road noise, neighbor loud music due to a violent music culture and loudness culture, so we can walk in quiet neighborhoods and no longer be so stressed and hallucinate we need to jog so much to live 5 years extra or 15, when the science of universal Immortality *for* All☺☺☺ will give 5000 years extra. Why not have space to meditate and astral travel, so we meet Immortals if they exist and so we no longer need temples (online churches with no donations are enough) that deprive others of a decent house to live, sleep well (essential for long life) in due to shortage of materials wasted in stadiums that lower the character of man. We got a big country, enough for anyone to have a decent house free from noise. Yet we have endless useless stadiums and 20 other things and we crowd others, create tired angry people, we destroy the human quantum field, we just don't think about another way, why not? Who needs temples and churches when the temple has arrived in every home by our tone of speech, by our eterni music that teaches a better way to speak, emote and think, act and dream? Why cinemas and movie theaters when others are homeless and we got youtube and internet to watch movies, where is the compassion? Is that the America we build?

Is watching bullfighting cruelty help World Peace? ☺☺☺ So many museums of art, when all can be moved more online and allow more Immortality *for* All science labs and decent housing to increase lifespan a lot more, as all feel a new America being born, where compassion for all, Immortality *for* All infuses everything and everyone feels an American or eterni; as the Land of Immortals, then *all nations* will believe us that we want to bring Peace and Paradise to all, as we would be the most peaceful, least violent, most long lived country on Earth, and then indeed we can be believed when we say we can bring Eternia for all, the dream of humanity forever. Why not dream of our kids being the most sage like philosopher like levitating teleporting genderless shimmering shapeshifting Immortals ☺☺☺who study science, spirituality, need no muscles as drones and robots we remotely control do everything physical, as nanobots and picobots keep us healthy without us having to stress to run, exercise and play chimp sports, kids who help all to live to a billion, instead of limiting their minds to the goal of living 10 years only longer by sports that destroy our higher nature, the eterni Qualities. Why turn churches into rock concerts that create war vibes and religious schools into character destroying sports arenas, when we can do so much better? Where is the Peacefulness when we so much brag to be a world leader protecting World Peace or giving it to all? It's not there, we need to live it on every street and house, to be *able to save the world.* Build gyms muscles to live 5 extra years or the Immortality *for* All culture and houses and labs inside every living room, on every street to add 5 billion

years? What do we focus on? Gyms? Sports, while others die in violent wars? We watch soccer games live while others die due to bombs and call ourselves World Peace bringers of infinite selflessness? How is that in God's eyes? Is it compassionate, kind, do we care, do we feel the suffering of others who're humans and whose life affects ours by quantum entanglement? Does this public display and watching of sports, some quite subtly violent and uncivilized, really end the bombing, we did it for millennia since gladiator cruel sports in Roman times, how has that brought World Peace, can we try something else? Do people really believe karate, judo, our many very unpeaceful lower nature (violence against others simulated and polluting the human quantum field, pushing, shoving, bad tone, etc) stimulating sports, etc will help usher a world of peace, if they did not for millennia? Will we evolve to be worthy to become shimmering Immortals, Physical Light beings, Angelic Beings of Peace, Buddhas, Devas or whatever name?

Studies show those who do things for others, like volunteers, live longer and those who have a purpose in life live longer, like doing Immortality Outreach or building an Immortality University or bringing World Peace by the age of 100 (when they reach 100). The body works harder to help one achieve one's goals probably, which extends lifespan. Even when one works for his own company that is cleaning carpets, doing recovery from alcohol or drug abuse, or fixing roads or something rather mundane in terms of contribution but which offers physical activity and does something good, with profits used for detoxifying people of heavy metals in clinic or something like an Alzheimer research center, it's much more like volunteering than going to play soccer. Imagine if our children would be always thinking about the latest research, way to help humanity and/or refining of our understanding of the universe instead of about the latest score from some soccer game? It would be a real progress towards a more empathetic, kind and intelligent world. The socializing around physical activity can be fun and physical related via all these selfless sports mentioned above or selfless business activities without the need of present sports. Sport starts with S; it can mean S.elfless P.erennial O.mnipresent R.adiant T.ranquility. That would be probably accelerating our movement towards a world of peace and healthy longevity. Here is a nice clip of Lao Tze Tao Te Ching.☺☺☺

►►►►THE NEED TO WAKE UP FROM THE 'DEMONIC' or Evil TRANCE FAST◄◄◄◄

If we want to be truly honest, taking into consideration all the 50 pages (with the 100 videos) above, we can ☺☺*lovingly tenderly gently kindly*☺☺ and compassionately, safely say that only THE LOWEST IQ gorillas and insensitive selfish beasts who don't give a dime that all humans may be dead in 10 seconds soon, watch (out of interest, not because the government tells a leader to go once in 50 years to a soccer match to be polite) today's ☺abysmal IQ☺ sports, the vulgar hooligan like tone of sports commentators and hollering chimp players of Hitler like vibe. Therefore, immortalists would ban all these "Odes to Antisocial Hooliganism or Pure Satanism

and Pathologically Selfish ☺Abysmal IQ☺" that they're in the context of the violent crime and wars on Earth. These demonic displays of ferocious violence from TV-radio suck the planet into a black hole of violent ☺abysmal IQ☺ and ardent egoism and can't be allowed, as they destroy and eat the planet alive from within, like a cancer of cruel indifference for the billions of yearly victims of unreported violent crime. These imported grotesque evil activities have no place in a civilized nation who wants to avert human species extinction which may occur in 10 years if no nation embraces immortalism 100%. Let the sports time on radio-TV be replaced with reports of selfless activities of the immortalist sport of helping others, breathing, relaxing, taking care of one's own gentleness, while being relaxed, happy, and listening to eterni tone music. Thanks be to God, we got freedom of speech in USA, so we hear both sides of an argument. This colorful language was left for the end of the chapter (since at the start people may not have understood), to reveal the immortalists' real opinion about sports, to enlighten and clarify what is ethical. Today we spend 500 times more on sports than on the sciences of life extension. Websites of various nonprofits can tell people about those who need some physical help with moving things, doing some physical stuff and people can drive 1-4 miles to that location and help that person. If one would be asked what is the *most American sport to play, perhaps one could philosophize and argue that it is engaging in some physical activity that enhances the longevity of fellow* Americans, that makes America reach lives of 9,000 years and makes America Immortal ☺ in a more real sense, since if you look at history, countries oftentimes disappeared without a trace, language too. Doing physical activity while helping others live longer or cure a disease, fix a problem and not requiring expensive facilities whose materials could be used to create Immortality and Longevity Universities and research centers, seems to be more humanitarian, more conducive to the best interest of all humanity, but even of America itself. One could also argue that even just standing at your computer desk for hours or walking around house, is better than using a facility, especially when college students don't have proper housing even in the USA as explained above and when half a million are homeless in the USA alone and the building materials of the stadiums could refurb or rent 16 million empty homes. ☺☺☺

Components of Gentle Tender Sports of the Telepathic Immortals, Immortality Fitness:

1. Physical (Massage, Helping, Gentle Movements) Component:

1.1. Heal the sick or those feeling down one day, see hands-on healing section..., the eterni greeting section (happy breathing, the sport of just being kind) or practice relaxed *gentle tender soft* movements to help others (build a house, etc examples above) as guided by the Immortals (our brains are entangled with our descendants who live to a trillion, and they thus are very real beings who can in very subtle ways guide us), to increase ESP, longevity.

1.2. Helping to Build the world of Telepathic Immortals as explained above (kids play with legos

or whatever, but they could be building molecules and simulated research centers (helping plan one's research focus to triple lifespan), i.e. all kids can make a plan to help everyone live to 9,000 in their games and toys; kids can learn about growing water lentils (duckweed) (ω3:6 ratio 2:1) or foods and creating Eterni Foods in the future, about dramatic effect of nutrition on lifespan, about current/future molecular detection methods. Instead of a toy gun, tank (these shorten lifespan, take life), car, animal or etc, they would learn to use a toy GC/MS (+ other instruments) to detect molecules as nutrition studies do when working to create the infant/adult formula that quadruples our lifespan via nutrition alone or some other techs that triple lifespan, that give life. As responsible co-creators of the world of Immortals, all kids are saturated with toys and games about simulated scenarios thru which humans live to 300 or even 30 billion year old, like the protagonist in the movie script example of the Immortality Civilization. As kids/adults simulate that billions of times for centuries, eventually one day it becomes true.

2. Emotional (Empathy) Component ►►► Emotional Coherence training to amplify selfless loving kind tender gentle soft compassion for all beings 5,000 times so it can turn all negative emotions into positive ones and help diminish suffering in the world by being more like an angel. ☺☺☺ Chapter 8 and 10 put into practice.

3. Mental (Telepathy) Component ►►► Thought/Intent Coherence training to bring the most loving intents and thoughts possible. ☺☺☺

4. Spiritual Component ►►► Soul Travel Coherence training to bring the full acceptance of the infinite possibilities of the universe, including the possibility we have an Immortal☺ Soul or can create an AI soul (independent of carrier), like creating a space of open-mindedness to the possibility of soul existing, which is very hard to accept for some skeptics.☺☺☺

5.6. A *serene* bliss culture of gentle tender *quiet* pets: *silent cameras*, *no guard dogs*

☺☺☺ *May all beings be happy gentle tender soft nurturing loving kind* ☺☺☺

May all humans realize the satanic conspiracy to use dogs to kill babies, kids, to sleep deprive billions via barking, for easier demonic posession. More details on this in the next 80 pages that detail the astronomical annual fees for owning a big or medium dog that can kill infants:

The next 80 pages present *95+ dog attack videos, 40+ attack videos by other animals* and some shocking facts most dog/cat/pet/horse owners, animal conservationists (bear, big cat, etc) rarely think about, besides the obvious deaths of people, emergency room visits by millions of

innocent people (who don't even own a dog) and horrific disfigurement (see pics) of people by dogs. The autism section explains why cats, dogs, pets make kids more autistic, by diverting kids from the eterni tone, the higher cortex development (that dials down the reticular thalamic nucleus) via eterni music, via altruism, via meditative bliss, via kid-kid interaction that helps them develop gentle tender soft healing nurturing graceful loving kindness. Some people lose their legs, hands, eyes, ears, limbs due to dogs. Millions of people are being arrested for not "taking perfect care of their dog", so if you get one, you can be arrested any time a neighbor complains about it, as if an arrest record is the last thing you need in your life. Youtube has thousands of videos of false police reports where liars claim someone's dog bit them or harassed the area or scared the victim off a cliff and they jumped to their death before dog touched the victim, etc and the owner gets wrongfully arrested for 40 years for murder via dog attack, etc, when it was some other cause or dog that did it. Dogs are the biggest liability, so millions of people are giving their dogs to animal control. All can be happy via conscious breathing, nobody needs dogs to be happy: drones will replace dogs for tracking and sniffing, soft ultra safe robots will replace service dogs too. Woman almost lost her legs, yet dogs were not killed. LA animal services woman got mauled. Many studies found that pet owners live as long as non-owners. Cat owners were found to live shorter actually. Owning a cat doubles your risk of schizophrenia. Cats carry the brain T. gondii parasite that they give to owners, which severely damages brain function. Cat owners have a high risk of getting leukemia (MSM 2016;22:1547-52), as all meat eaters have also, besides dairy eaterns who get bovine leukemia virus (11.4.64) in milk/cheese. *T. Gondii from cats can kill you*. Australia discovered a test with 97% accuracy that detects when you have been infected by T. Gondii: you're slower, more likely to become drug addicted, be paid less. Infection rates vary from < "10% to over 90% depending on the country or region" ► Viru 2021;12(1):3095-114. "T. gondii is one of three pathogens (along with Salmonella and Listeria), that together account for >70% of all deaths due to foodborne illness in the US" ► FPD 2016; 13(3):109-18. T. Gondii causes schizophrenia, traffic accidents, suicide (watch 2019 video about 500000 deaths that cats may cause in USA alone), as shown also in Schizophrenia 2022;8(1):104. "Damage to the visual and central nervous *system* can be severe... newborns can present an asymptomatic infection and later on develop chorioretinitis, mental retardation" ► ISRNP 2012; 2012:501216. "infection may result in severe and life-threatening consequences in the developing fetus or newborn, including miscarriage, congenital blindness, *hydrocephalus*, mental retardation, and even death" ► PM 2016;9:137. Adult infection via cats can lead to toxoplasma retinochoroiditis (which can progress to legal blindness in *both eyes*), and 33% of humans are infected due to excessive pet ownership. See a 2023 miscarriage study. T. gondii "is one of the major causes of (unwanted) abortion" ► IJFS 2019;13(3):184-9. "Toxoplasmosis increases the reaction time of infected subjects, which can explain the increased probability of traffic accidents" ► JEB 2013;216(Pt 1):127-33. T gondii causes "worse immediate and delayed

verbal learning, language proficiency, executive functioning, processing speed, sustained attention, working memory, as well as global cognition in older *adults*" ► BMJO 2024;14(3): e071513, and it can "affect brain levels of folate (B_9) and/or vitamin B_{12} enough to affect cognitive functioning.. (it) may harvest folate from host neural cells. Reduced folate availability is associated with an increased risk of neurodevelopmental disorders, neurodegenerative diseases, and cognitive decline ► Ntr 2017;9(6):564. T gondii "is associated with cognitive deterioration" ► ADAD 2016 ;30(3):216-22, "is capable of salvaging exogenous folates" ► MBP 2005;144(1): 44-54. T. gondii raises dopamine levels, causing bipolar disorder (variation of dopamine), schizophrenia ► JPD 2021;46(2):337-42. "Odds of suicide in people with T. gondii infection was 43% higher" ► BMCPH 2020;20:766. "Immunoglobulin G antibodies were found in 21 of the 155 suicide attempters & in 8 of the 135 controls" ► CPN 2018;16(1):95-102 or 2.3 times more Gondii infections in suicidal folks. Infected ladies were 2.05 times more likely to commit SUICIDE ► JAMAP 2012;69(11):1123- 30. Please give away cats to a shelter, since shelters euthanize excess cats, because this way, you prevent 80 million lifespan years lost in North America (same as killing 2 million 5 year olds) via T. gondii, useless years with damaged brains. All nations will offer free cat euthanasia one day, especially immortalist nations, to help us reach World Peace in 3 months and maintain that World Peace a trillion years at least. ☺☺☺

The great fallacy of many studies is that pet ownership is a marker for higher income, higher education, higher quality of life, which themselves cause the perceived benefits, all of which disappear once confounding factors are taken into account. The aristocrats burden the enslaved to work on farms to raise corn, soy, etc, raise cows that eat soy-corn, slaughter cows in horrible working conditions, etc, all so these ruthless pigs get a pet, while millions of people die in conflicts worldwide every decade: any ethical person gives all his pets away (unless service or police dogs) and starts working 10-25 hours part-time to help prevent the 10 second end of humans via war, by volunteering for the Immortalists or to spread the link to this website via text, email, phone, social media, flyers to 900 people/month. This illusion that they serve society with pet products is often a grotesque expression of their infernal depravity, as some of the pet owners are super terrorists torturing billions with microwave lasers, many other methods. The dog owners appear to live longer in a study not because of the dogs, but because nobody tortures them as they're the military-industrial-spy complex of the "intelligence" (psychopathic violence) community, the cops. There is another greater deception: they never had a study of a society of 50 million people with 50 million dogs, etc, and one with 0 pets where all resources wasted with dogs/cats (hospitals, food, corn-soy farming to feed cows, then feed dogs with meat, etc,) are used to create free relaxation, meditative rest, diet education, better health, human prevention education biomarker centers etc that would obviously add 25 years to life instead of 5 days with dogs. But when Big Dog, like Big Oil, owns the media, no science is

possible, only brainwashing. This is due to the depopulation agenda shown in the next 60 pages.

Cat and dog owners get ticks biting them, as the dogs and cats bring ticks inside the house. These tick bites can cause encephalitis, Lyme disease, Lyme carditis (fatal heart inflammation), and many more diseases. Dog parks are lethal places full of ticks. Cat and dog food attracts mice and they eat this pet food, bringing another set of meningitis and other diseases, including T. Gondii. The mice feces pellets are rice grain sized, brown, and easy to miss, especially as everyone chooses dark carpets, floors, rugs due to low IQ. Cat people are more intelligent than dog people, so dogs lower your IQ, dogs disturb your creative thought and meditative higher cortex building by their 0 IQ barking, dogs shrink our brains. Cats and dogs spread roundworm eggs, and public parks entrances, frequented by dogs, as well as playgrounds, give people blindness via roundworm eggs dogs so "selflessly" spread around to harm our kids and adults. Pets also spread screwworms, which can kill people, so dogs and cats, who run in the wild a lot, can truly give you a complete destruction of health or even death in 100s of ways. The Big Pet Industry hides all the endless problems of pet ownership (screwworm, etc), since they need "cabbage IQ" people to buy their lethal products that shrink human lifespan, by drawing resources away from 4000 year lifespan and into spiling the bloodthirsty animals (5000 chicken killed to feed a dog). Pet owners sabotage humankind's progress, belonging to the Neatherdal age of infantile religion, in this case the "cat and dog religion". Lenin said religion is like opium for the low IQ masses. We say pets are opium for "tomato IQ" folks. ☺☺☺ Dogs, pets are waging a hybrid war of extermination against the human species, depopulating us, while their numbers grow.☺☺☺ Pets are up to no good, they spread endless diseases. The feces from horses, cats scratching owners, pets, dogs emit 90000+ allergens, bacteria, viruses that damage every organ too, penetrate the vents in the house, every cell in our body and brain, ruin the immune system resources used to repair the body, lower our individual, planetary and national IQ. A new fungus that can make people ill uses cats to spread. A parasite we get from cats decapitates the sperm and makes men infertile, so couples or parents who want kids or grandkids need to avoid cats, ladies too, to avoid infecting their family, since cats want to exterminate us by carrying this microbe. Your cat is a shrewd small tiger predator in disguise, this is what cats would do to you if they would be big: kill you like this tiger did – watch 20 sec. Most zoos are nonprofits that steal billions in taxpayer money, take meat from poor kids who eat too little protein and skip a meal, to waste materials/time in zoos, that could be used to fix homes destroyed every year by tornadoes, floods, etc due to paper houses built by aristocratic beasts. Nonvegan cats are evil, watch a big cat attack a vet, she helped a demonic being drinking blood daily, she got attacked; we lack doctors but we have vets for these monsters?

An ethical country of sages will not have 90 million dogs like USA, but instead raise and train these dogs to intercept all drugs worldwide (via sniffing all mail, packages, worldwide) via the

Drug Free Planet in 10 years Program of the Immortality Party Volunteers, Until Drones can Sniff a 10x better than the best dogs. When nations are led by Selfish Aristocratic Beasts, the Selfishness is Vibrating in every soul with Demonic Intensity: all is "Me, me, Me and Humanity Never": just let us loot all, and waste resources that could be used to bring Zero Violent Crime Worldwide.☺☺☺☺☺☺☺ Drugs and alcohol are the culprit for much of the violent crime. Where is the Leadership to Teach people to not waste 1.4$ trillion on useless purchases, and Bring Zero Violent Crime, Zero Drug Use in 10 years? We don't need any cats, since with advanced drones, lasers and AI, a drone cat of the National Mouse Trap University can catch 10 times more mice per hour than a real cat, without needing to shed so much livestock blood spilled for meat given to cats. The spider crawl robot can look like a random object, cube, etc that attracts mice via smell and then shoots them dead with laser at close range, from inches away. It can then split in two and crawl to pack the rat in a sterile sealed bag, dispose of it in a special location. Cats carry too many diseases, so drones are better. The drone detects where pregnant rodents are and eliminates those first, to remove rodent infestations 900 times faster than cats. With the 11 companies making all houses truly high tech and quality, no rodents can chew their way inside. Ethics☺☺☺☺☺☺☺ and God require us to END ALL VIOLENT CRIME FIRST, BEFORE WE HAVE ANY PETS. Without Peace, all pets, animals, people die in 10 seconds. The Purpose of Life is not to Add 1 year to Your Life (selfishness), but 1 trillion to All Humanity (altruism), to stop violence in 5 years so we don't all die in 10 sec. We need to be selfless. It's unethical to have any cats sold in the USA before we achieve zero violent crime, to have any cat stores, because at least dogs can sniff drugs, etc, but cats are not needed at all. Preventing the death of all humans in 10 seconds is 1 trillion times more important than cat ownership. We only need youtubes of animals, USA needs to demolish all its zoos and aquariums and focus on single family homes for all for zero violent crime, just as we need demolish all liquor stores, vape stores, casinos, gambling venues, strip clubs, and many other evil businesses we don't need that make US citizens waste 1.4 trillion a year on pure junk instead of zero violent crime. USA needs to urgently demolish all pet stores too, and only allow dog food warehouses where cops alone can order the food from online for the 1 million dogs inspecting sniffing every letter, package entering USA, passing thru every post office and the 9 million dogs USA gives to other nations as good will, if we want to do that, to help those guys Bring the Immortalist Anthem to Reality: Zero Violent Crime in a few years. Kindly Read the Plan for Zero Violent Crime, and Dedicate Your Life Now, in the Name of The Eternal God of Immortality *for* All, To That Eternal Universal Peace goal of the Immortalist Youth,☺☺☺☺☺☺☺ Immortality Party & Immortalist Anthem. We cannot allow Bloodthirsty Blood drinking (meat pets eat is 0.5% blood) animals to be worshiped and delay the Advent of Eternal Universal Peace. Don't worry, pets will reincarnate as humans if they have a soul, no need to Help Blood Drinking Pets Multiply. Pets spill Blood, they Commit Genocide of Trillions of Livestock, they are Evil, they Disturb the Quantum Field of Humans via

Bloodshed, they Delay Eterni Foods of Zero Bloodshed, Pets are Pure Infernal Evil, Growling like demons, leading us to Hitler tones. Hitler had a dog, so he became a demon even faster than without the dog, killing 80 million people in WW2. Lenin had a cat, so he became a demon even faster than without the cat, killing 120 million via a fake Jewish communism. Both co-killed 200 million innocent folks. Pets are Pure Imbecility, a Primal Force of Infernal Stupidity, Unable to Avoid Bloodshed, automated killing machines who kill without mercy if left to their own devices. It is the Epitome of Satanism or Demon Worship to have pets while millions are dying due to violence, wars and car crashes caused by drug use that dogs could prevent, but dogs could not, as all are pets. The first duty of any civil ICS human is to do all it takes to bring zero violent crime in 5-10 years, not to get pets. If you want to become hyena like, get a dog, tiger like, get a cat. The more you hang around a person, the more you imitate it, same for cats and dogs. Kids become like the teachers, parents around them. People become like the lifeforms around them.

Horses kill thousands of insects and small animals when they walk. Horse bacteria can cause blindness, see below. All big pets that can accidentally knock or attack 1 year olds, causing injuries/deaths, are a threat to national security, to the *vibration of infinite bliss, kindness, gentleness and grace* essential to Immortality *for* All and ~*~Eternal Universal Peace~*~. Owner got 5 months of coma due to a dog lick. Please avoid getting a chimp pet, see what this woman got out of it, how monkeys mauled her, just as chimps cannibalize their own neighbor babies. See how monkeys terrorize school kids. See what dogs do to millions of people in America today, due to extremely loose legislation and a culture lacking gentleness, where the most evil animals are "part of the family". "Gentle" labrador attacked an 8 year old boy. Dogs mauled a grandma. 81 year old killed by a dog and the owners got 15 year jail and 18 year jail. Owner and his dog died due to a dog fight. Baby killed by the neighbor's dogs: death penalty for owner should be standard in such cases, for choosing to buy a deadly dog they can't control. To get a driver license we need a test, to get a big dog, people need to pass an exam, pay an annual fee to 0 Violent Crime Fund. ☺☺☺☺☺☺☺

Texas law requires the state to return dogs after they bit other people, due to owner negligent gate opening. As a result, 2 years later, same dogs mauled to death and critically mauled another person. That's why immortalists support the end of states so that we have only 1 law, not 20000: instant dog death for any dog biting a human under any circumstance, except a thief breaking in or attacking the owner. Babysitting couple charged with murder after their dog killed an infant in their care. Lady had a dog that killed a baby in her care and injured her daughter, in a filthy home. Moral: don't give your child for babysitting to anyone with dogs. Man allowed dogs to dig under the fence and dogs killed the neighbor. 5 dogs escaped via a hole in the fence and killed a guy who loved dangerous dogs and got his reward for raising deadly dogs. School kid was killed by dogs running around without a leash. Man charged with murder had 8 police visits

for bites of people around the area, before the ninth attack that killed a man. This shows the urgent need to euthanize instantly any dog who bites. A 15 year old girl was killed by 10 loose dogs who have been reported to police many times for being violent: animal control told people to shoot the dogs, but residents' ☺abysmal IQ☺ won over science, so they didn't shoot them. Dog owners should be forbidden from being babysitters worldwide, too many babies are killed by dogs. Besides, dogs sabotage the higher cortex development of kids, ruin eterni tone development in kids and families, prevent World Peace, via inciting and stimulating the fight and flight and aggression low IQ neural pathways that babies can't consciously deflect, as babies/kids are too impressionable. Dogs need to be forbidden in houses with kids due to the risk of death for the human kid. Dogs are only for adults until drones perform smell/service tasks 5 billion times better. Parents with small babies need to be fined 1 million USD if caught leaving child with a dog alone for 2 seconds even, due to an insane amount of infant fatalities by the house dog. All news stations must advise all adults to get dogs only after their kids are 18 year old, unless a tiny 5 lb Shih Tzu or similar size. ☺Abysmal IQ☺ parents were charged for allowing the family dog near the 6 months old killed by the dog. All who got kids under 18, need to pay 100,000$/month extra to help prevent such cases. Many dog owners are charged with manslaughter, "enjoying" 25 years in jail. , so if you want to spend 30 years in jail, go ahead, get a dog: you know, dogs have a mind of their own, if they flip, they can kill a stranger's kid in no time, all they need is to escape thru a fence, jump and cause the leash to come out of your hand or escape via a door barely open and you end up in jail. The lawyer of the victim family will also request 5 million to bankrupt your family. Want to get a dog? Selfish folks who're not cops or need service dogs, buy dogs instead of helping the homeless, jailed to live in healing cities, to bring World Peace. Their credit score needs a 200 point subtraction. Animal control explains no sane parent would leave children with dogs alone for a few seconds. Immortalists say no sane altruistic parent gets a dog before the children are grown up, unless one is a cop or needs a service animal. In our insane ultra selfish society of instant animalistic gratification, children are second to dogs. Mother & son got 14+ years in jail for allowing dog to kill a 73 year old. ☺ Abysmal IQ☺ kid, victim of the false belief that "it's safe to pet stranger dogs" was killed by dogs who escaped from unfenced property. Dogs are like psychopaths, you try to love them, and they kill you, as they interpret it as a threat and invasion of their space, and kids don't know that. Dogs don't read people's minds, as 0 IQ dog lovers claim, they simply love their owner out of self-interest. Any dog owner without fence needs to be forced to have fence installed by the national police department within 24 hours (install now, pay later) or pay $50,000/day fine. ☺☺

All kids need to be educated in school to never pet any dog, unless it's your own dog and you really understand the dog body language, being at least 15 year old.☺☺☺ Here are police methods to stop a dog bite by strangling them unconscious. Only the cruelest most selfish beast

like subhumans buy big dogs, like pitbull, German shepherd and rottweiler, known to kill the most people, unless they're cops. Pitbul owner escapes police to another state and then shoots officer in the leg (severely injuring him) who try to help her demonic dogs: only animals own pitbulls, unless a cop. Any big dog can get out of the house if the owner falls asleep and the dog pushes the door left unlocked by a forgetful owner, then attacks a kid or senior killing them. Thus, big dogs need to be illegal and only a serial killer and psychopath would buy a big dog, knowing fully no human is perfect, the dog can get out and small kid can approach the dog, trigger the dog's fight and flight and cause a child death (see dog attack kid). Only cops with ultra secure fence and automatically locking house/fence doors should have big dogs. Pitbull gets out of house, without a leash, like millions of other dogs, and tries to maul a cop before getting shot: these insane dog owners can't understand big dogs need to be on a leash and their doors need automatic locking since their demon dogs can kill kids and anyone: the criminal aristocrats push dogs to make money off retarded filif IQ people. See family pitbulls attacking the family's baby. See pitbull attack kids at the school bus stop, again, genocidal dog owners and parents who have no respect for human life, for kids, for their own kids even. Check out dog maul a kid for no reason. Pitbull without leash attacks kid and eviction notice delivering person is mauled by dogs. Check out youtube..PitBull channel with 700+ videos of pitbull genocide against humanity. Dog runs with baby in his mouth, folks, your karma will become minus 9 million points when you buy a big dog: a 9 year old was mauled outside her home. The federal law should use only drones for eviction notices, but eviction isn't needed in a civilized society of 0 aristocrats where all own a home. 3 dogs severely maul woman as our streets are no longer safe for walking due to pitbulls and other big dogs. Only insane parents get a big dog with a small kid around: watch this family dog attacking the kid, and another kid attack, millions of them happening due to flatworm filif IQ parents who love to live in 24-7 terror from these dogs. Sadly, these galaxy size ego "people" don't even care about small kids their dog could kill. Please give your big dog away for euthanasia and get a tiny dog or dove instead or a guinea pig that makes a lot less noise. Another pitbull owner harassed many people and had his infernal pitbull shot dead by cops. Another pibull bit a cop, because cops are not allowed by the cat IQ laws to shoot a tranquilizer or bullet and euthanize the dogs when they cause trouble, animal control was coming next day to euthanize him, yet the chicken IQ cop tried to play God with Satan's best friend and got bit instead of shooting the dog dead; a dog is not worth saving if he bites anyone; death penalty for any dog needs be default, the cops already saw how this pitbull bit the fat guy, these laws by demon-crats are pathetic, all dogs who attack anyone in view of the police need to be shot dead immediately if tasing them is not an option using drones, for later euthanasia. Sadly, officers need to waste eons to shoot many demonic dogs who know nothing but violent biting. These people need 400 point credit subtraction. If a neighbor bought a tiger, you would call him psycho or evil and want him arrested. Well, a big dog is the same evil, just on a different scale. Only a

cannibal chimp eating the neighbor's baby (watch an ancestor eat a baby) buys a big dog that can kill the neighbor's baby, only chimps, not humans, buy big dogs (unless a cop/service dog).

Anyone buying a pitbull, rottweiler or German shepherd needs to pay 900,000$ a month, unless a cop: federal immortalist law. When you know such a dog can kill kids, you can't buy one unless a cop or a PSYCHOPATH, a danger to society. This point needs to be made clear daily on TV: look a guy charged with manslaughter after 10 years of neglect by a psychopathic White House full of dogs and a psychopathic Congress full of heartless dog owners. Any decent world leader carries no dogs, only Putin uses dogs to frighten visitors. Big dogs near officials are symbol of murder and death, of violent soulless depravity and demonic selfishness. 1 child is more valuable than all 90 million USA dogs, this is the immortalist ethics that will be taught in every nursery and school worldwide. Hitler had a German shepherd, so do many other PSYCHOPATHs today in USA. Lenin, who called for extermiantion of millions via Gulag, loved cats and dogs. Stalin loved dogs and had a few, and all major USSR leaders had a cat or dog, as they cared more about domesticated wolves and tigers than people who were going extinct due to Gulag, corruption and elitism. Lenin, like most psychos, loved hunting too, deriving a demonic pleasure from seeing animals (and people he killed by the millions) die. The love of cats, dogs, hunting and genocide often go hand in hand. Will USA ever have a President who stands up for the helpless kids and seniors killed by psychopaths? Dogsitter killed by the dogs she was caring for: a godly reward for caring for beasts who kill kids? The current violent crime penalties ought to be upgraded to death penalty shown on TV, including for anyone who owns a dog killing a human, to discourage big dog ownership. Psychopaths love big dogs, as this clip shows. Clip shows pitbulls are the most deadly dogs, loved only by the most deadly PSYCHOPATHs on Earth. Immortalists need to avoid any chat with people with big dogs who're not cop/service dogs. Any chat could lead to an injury to the immortalist family and is not worth the risk. Never date a person with big dogs, as you (girl's nose disfigured for life by boyfriend's dog, never date selfish ☺☺gnat IQ☺☺ people with big dogs, or simply email them this book.pdf and tell them to read chapter 5.6 and give dogs to a shelter first, to show they love you/humanity more than 1-2 dogs) or the child may be mauled to death. In the world of Jewish/British Royal dictatorship, anyone criticizing the criminal laws favoring dogs is 'silly'. The ruthless Putin & Royal family promote big dog ownership, to get .8 million Americans to the emergency room, as if Brits ever cared about blown by guns' suffering at the hands of beasts. Poor girl was almost fatally mauled by a psychopathic neighbor's dog, a ☺puppy IQ guy☺ who is too selfish to help the homeless or the cause of World Peace, needing a big dog instead. Woman lost her arm to an evil pitbull, a reminder to all who lost limbs due to war caused by pet ownership being 1000 times more important than World Peace in 3 months and 0 violent crime in 10 years. Another lady lost both arms to a dog attack. ☺☺☺ Woman was mauled by her own "beloved" dogs. Too bad she was

so abysmal in IQ☺ to buy dogs. Only low IQ folks buy dogs when humans can vanish soon.

☺Locust IQ☺ family goes to a balloon festival, dog bites the eye, because dad doesn't protect kid from dogs (parents need to carry child in their arms if any dogs are around) or avoid going to evil public events such as Ballon Festival which are demonic by definition when Violent Crime still Happens on Earth. This was God's punishment for a selfish family who engages in unethical behaviors instead of Building the Kingdom of God on Earth, Immortality for All, via the painless euthanasia of all big dogs now, except cop/service ones. People will say this gentle euthanasia of all big dogs is psychopathic, cruel and mean, which is totally false, because only psychopathic selfish humans buy dogs that can easily kill kids, seniors and infants. Big dogs normalize violence and bloodshed, since human slaughterhouse workers have to slice often alive 4000 animals during the life of a bloodthirsty nonvegan dog, big dogs make violent crime and war more possible, they take people away from instant World Peace and 0 violent crime, as dog care takes so much time too and that barking for small dogs also kills people causing a silent genocide that needs to be stopped by selling only the quietest small dog breeds for the mentally retarded who still need dogs to be happy. To kill 4000 pigs, chicken, cows is far more psychopathic than killing one dog or cat, so let us think and use logic instead of emotional phrases of "cruelty against animals" that hide the real genocide behind every big dog, small dog and cat. A house cat spills endless blood, killing small mammals, etc. They're murderous hyenas who kill endless animals to get their meat. So, please, kindly don't get the "holier than you" vibe that animal lovers or pet owners are kind. Behind this fake facade, lies a genocidal cruelty far greater than most realize. He who works for World Peace will save all animals and species on Earth from the 10 second blast that kills all life on Earth. The duty of any ethical citizen is 0 violent crime in 3 years and World Peace in 3 months, *pets are # 888888 as a priority,* World Peace *is # 1, 0 violent crime is # 2.* Please ☺☺*lovingly tenderly gently kindly*☺☺ watch the next paragraphs videos to see the genocides dogs do. So the psychopaths are those who buy big dogs in reality, without really needing them for police work or as a service dog. Psychopaths are those who buy big dogs when the same food and time would enable them to bring an end to human starvation, or the mass slaughter of humans via war. What about big dogs causing millions of emergency room visits via their violent crimes against humans done after humans treated the dogs so well, gave them imperial shelter homeless humans don't get, giving them food and protection no wild dog gets: if you want Immortality *for* All humans, you can't allow big dogs in the long run, as they kill people sometimes. Dog souls will reincarnate as humans and become nonkilling nonbiting angels, no worries. If you're skeptical about dogs having a soul or about reincarnation, you can argue those animals who feed on bloodshed, who promote bloodshed, like dogs, deserve the death penalty, for they're not like the immortalist humans who promote 0 bloodshed, 0 plant pain via eterni food. Don't forget: we live in a savage republic run by psychopaths who value dogs more than

humans. Place Ethics first, end all jails, end homeless, end violent crime first. Let your children be the Immortalist Youth, who engage in Ethical Godly activities of building healing centers with adult support in dog free zones, for the Healing Cities. Let the many Corporate evil Rats in Congress get 2% of votes in 2028 so Immortalists can Free Earth from Dog attacks, Dog use by police and any bloodshed, meaning 0 dogs on earth, give all 300 year lifespans instead of Dog terror 24-7 in 45 million neighborhoods via barking/ bites. ☺☺☺☺☺☺☺

Selfish abysmal IQ family decides to visit to buy dogs and then their 3 year old kid is killed during the visit. 0 IQ woman was killed by her own XL bullies in England in God's reward for caring for demons, while ignoring the suffering of endless homeless in the UK tortured by the Feudal Terror. Infant baby killed by family dog, as typical, in families of selfish primitives who get big dogs with small kids around. ☺Abysmal IQ☺ lady went to the bath, leaving her kid and a visiting kid alone with a dog, and the visiting kid was mauled. Another fecal bacteria IQ lady sent her kid to a friend with a big dog and the pitbull mauled the kid, after a balloon popped. Moral of these: never have kids visit houses with big dogs. Ask all to read this chapter, to give up their evil drive and desire for a big dog first, become an ethical Immortalist who helps humans reach 0 violent crime first, by real action, not words. Violent people tend to buy big dogs, avoid big dog owners, for your own safety. Guy lost 80% of his face to a pitbull attack, pitbull ownership legalized by a heartless demonic Congress of devils. The federal demonic government allowed a child to be in a stranger's house with a pitbull, leading to the mauling of the child, watch how horrible. No child should be placed in another house with big dogs that are not the family dogs: that much the feds should know. Pitbull killed man's baby, man probably left the child alone. 0 IQ parents think that being in the same room will protect a child from bites: it won't, dogs can still maul, blind a child even if an adult is in the room, it takes 3 seconds to blind a child. Heartless parents with IQ of a cow, get big dogs before having babies, to risk lifelong damage to the kid. A culture of insane selfishness, infinite depraved low IQ has taken hold of the USA. USA needs to ban any parent of kids under 17 from owning big dogs, even if they're cops. Immortality *for* All means just that, for All, not only some. "Therapy" dog mauled the nephew of the owner, in a clear proof of the selfishness of this aunt who was too uneducated by our evil Congress that the life of a child is way more valuable than her "therapy". It's time all call it like it is, otherwise, this genocide by dogs continues. 6 year old kid was killed by the family dog, showing only criminal serial killer parents get a big dog while having a small kid. In our society of billions of violent crimes (mostly unreported), such parental cruelty is the norm and the aristocratic beasts' law promotes sadistic demonic cruelty. The parent license needs to be given only to couples with small dogs or no dogs. Do you want your kid to have no eye, no ear (watch this guy losing an ear) and half the nose for the rest of his life? Dogs are almost 0 IQ (35 maybe)☺☺☺, vs Immortals' 200 trillion IQ, the beloved of filif gecko IQ people who say "dogs are my babies, kinder than humans, an old

soul or twin flame reincarnated into my dog (who later kills a child and makes her question her twin soul theory)". Watch another kid without ear. With 4.5 million bites in USA a year, the risk of a lifelong disfiguring bite of your kid is huge. Do you really honor, respect and love your Kid as if he's a Trillion Year Old immortal, or do you love dog beasts? A 45 year old snail IQ lady was killed by her own "beloved" filif gnat IQ dog who "was never aggressive" in the ☺abysmal IQ☺ high violence standard of the 2025 definition of nonviolence or "nonviolent music". For 0 injuries, all cop dogs need be used for sniffing only, have childless (or grown adult kids) cops only raise 50 dogs in a place to smell stuff. Thus, we cut big dog households from 100 million to 1000 in the USA. 50 x 1000 = 50000 cop dogs. Cow IQ grandma's pitbull killed her nephew during a regular family goodbye and hugs. Pitbull attacked owner's daughter within seconds of adoption, showing that we need to ban adoption of any big dog, unless they're babies who can't bite new owners. Any big dog donated needs to be euthanized. 1 human is worth 30 million dogs. Learn self-respect, stop being slaves of dogs. A kid was mauled by an adoption dog. A filif bed bug IQ dog of 8 years shall not kill a million year old immortal, basic logic. Dog owner didn't call 911 when his dog mauled a kid severely. Why? Because most dog owners have ☺abysmal IQ☺. Dogs can even fire misplaced loaed guns by accident, killing people. ☺☺☺☺☺☺☺

A 13 month old was killed by the demonic family dog in the presence of the iguana IQ parents. What kind of parent buys big dogs? Someone with the IQ of an ant of course. Even the best behaved and trained dogs can kill kids at times. The immortalist knows basic statistics and won't risk human life for enjoying "playing with a dog". Not after you work 20 years to prepare to birth a kids, raise it and then have it die at 18. Even the best people can snap and make mistakes, kids can't read dog's minds and can do something that enrages the dog, at least an adult can pick up a baseball bat, special items thru the house he placed there in case dog attacks for instant death, or gun if he's a cop with a dog and shoot his dog if dog attacks owner due to mental illness of dog. A kid is too small and won't be able to do that, an adult kick with legs gives him 2 seconds to grab the lethal object to kill dog. You know vets can't know when dogs go insane, nor can owners. Just as kids and adults suddenly shoot people, so can dogs suddenly kill owners or kids of the owner. Use your brain, think twice before buying such deadly monster. This type of parents who're downstairs while the baby is killed upstairs by the family dog. ☺Abysmal IQ☺ mom went to the bath, and then the pitbull bit the baby savagely. Only filif worm IQ parents have big dogs in the same house with kids under 15. Ultra low IQ family allowed the dogs to get out of the basement and this killed their infant baby. A lady was killed by the "beloved" pitbulls she was caring for: God's justice for ignoring homeless people, while housing dogs. Such fiendish women need to watch the mauled faces of kids before caring for such brutes that cause trillions of dollars in medical expenses over decades. Bed bug IQ lady bought pitbulls and they mauled her to death at age 71, as a reward for doing Satan's work: watch this face of another locust IQ

guy babysitting dogs and getting disfigured for life. Big dog ads need to be made illegal worldwide immediately. Only cops should have big dogs. A criminal government of aristocratic beasts provides no 11 companies and jobs for all, so ladies go babysit dogs who maul them to death. Class warfare via dogs and pet companies making trillions off genocide.

Oddly, in the Jewish British colony USA, for a brutal attack, dogs are not instantly euthanized, but are left alone and owners are not fined $10 million, which is horrific for immortalists who would fine owners $1 million for any bite. For a kind reminder of what dogs do to people, see this graphic video. Pit bulls and many dogs simply attack owners suddenly, so kindly watch this video of 100 attacks before getting a dog. Poor kid has his face disfigured by a pit bull. Lady picks her phone and dog attacks, see result. Small kids don't know the limits of dogs and are many times more likely to be attacked. Even after the day of 0 tax for all, we need a global 3 part annual registration fee for any dog: 1. climate fee (every dog 100,000$/year/10lb of weight for taking meat and food from unborn people (families with pets have fewer kids) who make inventions to help us achieve World Peace in 3 months and lower violent crime 1 billion fold within 20 years, as well as, later, once 0 jails exist, 0 violent crime exists, increasing human healthy lifespan to 100-500 years, etc), 2. danger fee (for same weight dogs, the most dangerous breeds more depending on number and severity of bites/1000 owned dogs of that type, all paid to Universal Immortality Inc in charge of all medical facilities, since it takes MDs away from curing disease to treating millions of dog bites; the fee for most big dogs, unless cop/service dogs, can be 9 to 90 million/year, depending on how immortalist a government is), 3. barking fee (breeds of dogs that bark more, will have much higher fees, 10-50 times higher). On top of that, we need the removal of attack dogs for cops, with only the least dangerous smaller dogs used to sniff. This is because all fines for attacking a cop are lifetime labor and police have right to use lethal force if a suspect attacks cops while being arrested for violent crimes. Nobody would dare punch a cop, since they're taken for life to a healing city and center. This ultra low violent crime removes the need for anyone to have dangerous dogs that maul people and most dangerous breeds would be banned forever and euthanized globally. In immortalist societies it's unacceptable that millions of dogs maul millions of people and kill thousands of people globally. This is a pure genocide by the Dog Industry against humanity, a true HOLOCAUST. ☺☺☺

On top of the 3 fees, we need 3 FINES: 1. bite fine (1 million$ for any bite, 10 million for severe bite, 100 million for severe body mutilation bites: owner has to have all pets euthanized and perform 40 years community service in spare time to pay as much of the 100 million as possible) 2. leash fine (100,000$ for any dog that escapes from a fence or car and is seen by anyone, since this is how many deaths by dog bites happen), 3. barking fine (day barking that annoys residents fined 25,000$, and any dog owner whose sleep is disturbed, providing proof (recordings etc) causes instant removal of dog that is euthanized, plus 100,000$ fine for attempted murder of

neighbors by sleep deprivation causing potential car accident during tired driving). We need global protests of millions of people with big signs "Immortality *for* All" "End millions of dog attacks now, ban all big dogs for non-service, non-sniffing purposes", "Human *lives* matter, human *killing* dogs don't". All immortalist nations TV stations must publicize all attacks and bites by dogs anywhere in the nation, in a daily horror show that people need to wake up from self-inflicted species extinction in 10 seconds by distraction from World Peace now, with the most graphic images and videos and huge cop and national resources spent by animal control, cop resources spent on taking to hospitals 1-4 people in families where the dog bites 4 family members, to inform the public on the daily genocide by the domesticated wolves against humans and gain public support for ever higher fines against big dog ownership and barking dog ownership. The daily news must include any bite or attack anywhere in the 0.1 to billion people nation. Its importance would be outsized, as we need to focus people on World Peace in 3 months, not dog worship. World Peace is more important than having pets, please protect humans who're killed by bombs, wars, torture. Pets distract us from reaching World Peace now. When the whole humanity is in danger, people take the ultra dangerous step to destabilize the quantum field by focusing on violent wolf species. It's funny how the US government and others claim the countries with much fewer dogs have governments that are not transparent and who don't report the bad things happening, but how often does our government report the millions of horrible dog attacks happening yearly in our country, the daily terrorism 200 million Americans endure at the hands of dog owners who sleep deprive millions of people thru eternally sleep interrupting barking dogs, shortening human average lifespan? It's a totally unfair system of dog worship, perhaps due to the violent blowing by artillery gun British royal family love of dogs. This is not a democracy, but the dictatorship of violent people (evil Royal laws that mutilated, killed workers or violently stole 70% of UK land for the 200 extended families, the 1% richest of the UK, who're all Royal friends) who love violent species, and brainwash millions of people to get these wild beasts and stress to domesticate them, train them, waste their whole life going to "dog and cat specialists" to tame the wild beasts. The Zion Elders, who depopulate Americans to make room for illegal Jewish migrants from 150 nations to stab everyone's penis too, promote "benefits of dogs, cats, pets", while all attacks are hidden. Below you'll see how often dogs terrorize people and children all over the world. Immortalists ☺☺*lovingly tenderly gently kindly*☺☺ hypothesize that we need to ban LGBTQ/sex propaganda on all TV stations as well as pet propaganda, and instead promote the benefits of having children, of sex for pro-creation only, the benefits of single family homes for all, of immortality capitalism, 0 jails, 0 wars/violent crime, 0 violent pets. Get a tiny mouse in a cage if you absolutely love pets. Pet rodents are vegan, while cats can kill stuff outside and dogs eat meat often.

The next pages got 60+ dog attack videos to help you understand how deadly and bad they are,

see clip on what triggers many dog attacks (moving people) and how to avoid bites. Kid took a step towards a police dog and was later bitten, dogs are filif cat IQ animals that view movement in their "territory" as a threat. Never approach a big dog or let your kids do so, even if owner keeps it on a leash, because it could jump and owner hand grip on the leash may slip. Dogs (except for cop or service dogs) are a national drain, one house had to call cops 45 times to deal with 3 terrorist pitbulls. Such enormous waste *of national police time,* plus courts, bark citations *are a* crime against humanity. Instead of taking care of people, we waste eons with pitbulls and other dangerous dogs. Watch the terrorist dog harass and chase people. An insane man didn't stop his 2 pitbulls from injuring a man and left the scene. This was most likely a premeditated attack where the owner secretly gave a command to the dogs to attack, that can't surprise at all given the savage violence cultures dominating worldwide. Hence, the only safe way may be to wear a 360 camera to alert you of dogs and have a TASER if legal in your area to scare them away. It's genocidal for people who use TASER or pepper spray to protect themselves can be charged with "animal cruelty". These genocidal laws need to be removed. Who is charging the people buying such animals that always kill and mutilate people with human cruelty? Nobody. *The law promotes* violence *and rewards the* 'violent' *people owning* violent *dogs* ("thug like people" in the perception of the informed, who became so unconsciously cruel only due to brainwashing and pet stores hiding the atrocities and genocides dogs do, like the pastors hiding the 1400 bad Bible quotes). Woman was told by doctor to euthanize the dog due to its violent nature and she didn't listen, then, a year later, the same pitbull beast bit several people and a cop, and was finally euthanized. The lenient approach to such demonic beasts is shocking. No civilians ought to be allowed to have any dangerous big dogs. A terrorist pitbull harassed people again, due to being "such a loving companion" and men's "best friend". See how the "friendly" beastly dog attacks a kid in the UK and causes many bite marks that will remain for life. In subways, dogs are allowed, even if they're bigger than a cat; as a result dogs bite people, see one example. Immortalists would ban dogs from all public facilities, shops, public transport, unless they're tiny or service dogs. All dogs would need a leash nationwide. Model was suddenly bit by a "family pitbull" and had her face and nose ripped, watch in horror and support the global ban of pitbulls and 30 other bad dog breeds. See savage pitbulls attack smaller dogs. Kindly watch a demonic pitbull almost kills 6 year old kid. Terrorists with pitbulls turn entire cities into jails where people can't play on streets and have to be in fenced backyards, thanks to governments legalizing such beast dogs. A hole in a fence, led to 4 pitbulls attacking a man and causing serious injuries, before the dogs were euthanized. London dogs attack lady, how can the Royal family legalize such beast ownership? Dogs are an aristocratic luxury often used to terrorize poor workers using public transport. Check out this video, pitbulls are too coward to defend owners when needed, they just bite smaller helpless strangers like kids, ladies, etc. Our nation's resources are wasted on animal control that wastes eons to deal with dangerous big

dogs. It would be 1 million times simpler and cheaper to simply ban all big dogs, except service/cop dogs. Watch another video to get a sense of how the pitbulls destroy the entire planet and have us waste time fighting them, instead of doing longevity research. Check out dog bites lady even after being loved. Toddler is attacked and bruised. Dogs got off the leash and 5 kids were hospitalized. Man in wheelchair bit severely. Please help end the HOLOCAUST. Watch how a neighbor dog attacks a toddler playing in a swing and mauls her back; this same dog, was not killed, even when it mauled other people before. How can the law be so anti-human? ☺☺☺

Lady is trying to help owner bit by dog and is severely mauled herself: and the anti-human law of the land did not kill the dog instantly, the owner simply got away with it. Thus, *never try to save an owner bit by his dog, as the dog may kill you*, let the law of karma take effect: violent thugs (who get such beastly dogs who always get off from their enclosure mauling millions of people) deserve no help, see 100s of videos of dogs attacking the neck of animals and people to KILL them, stay away, as pitbulls and big dogs are like tigers, deadly. Don't risk your life to help thugs, it is unethical to help evil people and injure an immortalist, yourself. A thug gets a big dog to terrorize the planet (no decent person needs a big dog unless doctor gave them one as service dog), an immortalist works to bring 0 violent crime in 10-20 years, World Peace in 3 months so nobody wants guard dogs or big dogs. It's the difference between Satan and God. All clergy ought to explain to people that big dogs are embodiments of demonic evil and are to be avoided at all costs, since they turn people into violent thugs, in very slow ways, starting with the tone of speech, as explained in the 40 pages below. *Getting a big dog* (12-250 lb) *is a* grave sin (or unethical for the irreligious),☺☺ *for it places the* selfish *desire for* hedonistic hugs *and petting above the* selfless *protection of kids and seniors who're bitten, maimed (50 million on Earth at least), or those could be mauled to death if one single mistake happens and the dog jumps with force, escaping the leash*. Owners of 3 dogs were sentenced to 15 and 18 years in jail for failing to secure their dangerous dogs, after many complaints of neighbors, finally leading to the 3 dogs killing a man. Big dogs strain the global resources, as a big dog eats as much as an adult and resource scarcity lead to wars in the current climate of hooliganism on Earth. A dog under 7 lb is kinder than 15-250 lb, and one dog kinder than 2 or 3. Big dogs *accompany* ☺abysmal IQ☺ folks, since a similar size adult can bring inventions to eliminate resource scarcity, help us live to 150 in perfect health, dogs only bring more fights, more enraged residents sleeping poorly because of barking, 50 million bites and resource trashing by hospitals dealing with 5 months of physical therapy in some cases. *The 2024 media ignores the scientific fact that overall pets shorten human average lifespan as a whole for humanity,* they don't increase it, as they take our society away from empathy, brain and compassion development, away from innovation and kindness towards humans, towards selfishness and wars, away from World Peace in 3 months, into infantile mentality, into possible 10 second end of all animals and humans, blatant trashing of

resources and harassment of already stressed doctors (highest suicide of all professions). 6 week old baby was killed by family dog, watch. The next paragraph has another 15 videos of dog attacks, 1-2 minutes each, worth watching so you know how to protect kids and seniors. God won't protect the evil big dog buyer who knows he's doing evil. Dogs already killed about 20 million people in the last 900 years, so they're responsible for a HOLOCAUST that nobody ever dares to talk about. Watch dogs maul a kid to death. Kid fell into zoo enclosure, where dogs get more space than people, and was killed. The Zionist media wants depopulation, so they push ever bigger dogs on ever more nations, ever bigger animal hospitals, pet stores, etc. You can talk about the 20 million HOLOCAUST OF HUMANS BY DOGS, because dogs can cause the 10 second end of humans soon… and all will be left on Earth is roaming dogs fighting each other. Buying a big dog invites 'demonic possession', if you believe in quantum possession or interference by floating thought forms, quantum imprint leftovers from violent dead people, who left junk pre-thought subatomic patterns in the subatomic structure of the environment. You can get 1 trillion times more love from the Immortals and God, from the breathing meditation than from all dogs combined. Even small dogs that bark can harass others, it is a sin to buy them if anyone is annoyed by the barking, so ask all neighbors if they're ever annoyed by the barks or have their sleep interrupted or delayed. Sell dog and help make the law where dogs can be instantly euthanized by simply asking police to do it for NO REASON at all, dogs are creating more issues than help, especially if big. We don't need dogs for policing with advanced sniffing drones (UK already uses advanced devices to detect drug smell), nor for service with advanced robots. To stop the slaughter of humans by dogs, we need to prioritize discovery of the best sniffing drones and best service robotic dogs. No owner can prevent a big dog from getting out thru a gate once without a leash by accident, when tired, and then going and attacking kids or seniors nearby. Kindly realize thousands of people are killed by their own dogs. Never get into an elevator if someone has a dog. Wait. Watch how violent this dog is, attacking everyone and finally killing a 10 year old boy. Check out demonic dogs kill other dogs and not being instantly euthanized as a result, allowed to live and then attack other dogs and terrorize the planet more. ***How can the law be so evil, anti-human?*** German Shepherd from a neighbor mauls little kid again. Pitbull from neighbor mauls a 1 year old kid. Family pitbull of 9 years kills 6 months old. Owner dog kills 2 kids of owner and injures his wife. Lady arrested after ordering pitbulls to attack old man.

Never save your small dog or cat or pet from a dog attack, let them be killed and run for your life inside the car or house. ***One human life is 1 trillion times more valuable than that of all dogs on Earth now***. You could die of blood loss so fast, if they bite your hand or neck. Keep kids in fenced areas, away from possible neighbor dogs that could escape if someone leaves gate open for 20 seconds, until the sadistic government is replaced with a kind government banning all big dogs. Never pet any dog that is not yours, unless he's a very loving tiny dog licking your shoes and legs

and everyone he meets, since you can end up being bitten or much worse, killed. Poor officer gets bitten by dog, taxpayer money goes to animal control, big dogs terrorize the planet, just like small ones who bark all day causing so much anger, the equivalent of Hiroshima nuclear attack, since it's 1 billion people angered, sleep deprived, by dog barking repeatedly, so that becomes over 50 years, about 5 trillion people annoyed once – doing possibly more damage to humanity than a small nuclear strike, because sleep deprived people get angry and anger always leads to war. Keep very safe distance from medium and big dogs. Another dog attacks people. Dogs of babysitter get inside the house and kill the baby. It's so easy, how can the feds allow a babysitter to own big dogs? Father left to work and family dog killed baby, since siblings could not stop it. New family dog killed 4 year old. Family dog raised by kid smashes the kid's skull over a ball. Think again before letting kids under 15 play with big dogs. Dog attacks kids going to school. Watch kid severely mauled by dogs, then people create nonprofits for the "kind treatment of stray dogs". How can this be? Stray dogs kill people and need be euthanized/shot. Watch another innocent girl being dragged and mauled by dogs. 0 IQ officers try to catch stray dogs and waste 100 times more time than shooting them, endangering more human lives. Dog rights activists ought to be placed in a room with world's most aggressive dogs and see how loving they are, if they make it out alive. The genocide against Indians continues with the court ruling that stray dogs have the right to food and people have the right to feed them. Why? Stray dogs need to be euthanized to end the slaughter of people, 20000 Indians killed by them each year. Watch another kid mauled by dogs without a leash. See US kids mauled by dogs without leash. Kid got mauled at a Florida park where children play, reminding parents of the dangers of parks in a country where violence against humans is deified and reigns supreme in every law. Pit bull attacks child again. 3 day old baby was killed by family dog in California. ☺☺☺☺☺☺☺

A decent government would not give SNAP (food stamps) benefits to people with dogs and cats, as these pets drain the national resources, with pet stores, pet hospitals and harass entire neighborhoods via barking, kill babies, seniors, etc. To receive SNAP, gov needs to allow only uncooked high quality vegan foods, free of toxic ingredients, so that they can use pressure cookers to create healthiest meals, low sodium, no hypertension to prevent expensive blood pressure management, since low income means if they get sick, they won't be able to properly take care of themselves and cure mental illness from cat parasites. Too many people with SNAP are rich, having no income except interest and stocks and harass the neighbors with their demonic dogs. The SNAP needs to be used to transform bad dietary habits, to help people eat healthier, stop the violence dogs bring, stop blood eating via meat and make sure the healthiest vegan foods and supplements are given to advance the immortalist eterni food development goals, until we get 11 companies, 1 gov instead of 20000, point at which of course, we don't need SNAP, as all have a job and all incomes are roughly the same, with a part of income one

can't use for anything but food, to prevent “wasting money on etc”. Anyone caught buying tobacco, vaping products, alcohol via their credit card is banned from SNAP for a month or more depending on how much money that person wastes on vices.☺☺ No cash means all purchases are detected by Eterni Bank, any purchase of unauthorized unhealthy products or vanity related products cancels SNAP for x months depending on $ value of leg shaving, eyelashes, eyeliner, mascara, hair dye, nail salon, endless other useless purchases incompatible with a “poor” person who has character and doesn’t support destructive businesses run by evil aristocrats. ☺☺☺ SNAP needs to be used to turn addicts or ego inflated idiots into people of character who care about pain of all sentient beings, including slaughterhouse workers. SNAP can't be used to perpetuate sales of genocidal AGE rich products sold by aristocratic bastards. SNAP may mandate that only Eterni Food Inc products will qualify for the program as we create EFI to slowly bankrupt all these blood drinking aristocratic companies of hell, often led by Jews, who have given us a blood drinking Eucharist ritual focused religion that deifies blood in meat. The purpose of food is to give us 4000, and then 4 trillion year lifespan, not to contain blood. Science, Ethics and Truth first, *bullshit, mythologies, fake miracles based religions* last. ☺☺☺

Humankind deserves a decent sleep, so we need ban breeds that bark a lot. Immortalists would propose legislation to ban all big dogs, except for police dogs used to sniff drugs or service dogs. Check out how many national resources are wasted to take care of violent dogs. Entire teams of cops have to struggle to take a dog away, instead of helping us live to 500. A travesty. This is pure terrorism of humanity by big dog owners and governments allowing this. A stray dog attacks a baby, and nobody says anything. How can any big dog be allowed if there is one attack in a city of half a million even? A human is more valuable than 1 trillion dogs, the human can live to a trillion years with the right immortalist technology. If a dog kills some people, they often don’t get killed, when an investigation ought to *kill* 10000 *other dogs of the same breed who're equally dangerous to prevent a future human death*. For example, with 350 deaths by pitbulls in the 2005-2020, we need to euthanize at least 3.5 million pitbulls who're dangerous in America. Humans are FAR MORE VALUABLE than pitbulls and we can't wait for another 350 people being killed, we need to protect PEOPLE, not dogs. When pest control comes, it kills 10000 ants at a time and ants don’t mutilate us like the videos about pitbulls show. Each nonvegan dog kills 100-5000 chicken equivalent during its lifetime, to eat (meat fed to dogs is livestock) *this blood spilling is a grave* ‘sin’ *by these unethical dog owners*, a thuggish violent crime☺☺☺ worthy of lifetime labor for the dog (smell stuff at least for cops) instead of lifetime slacking around, that destroys the human quantum field and makes us incapable to abolish war, as our brains become ultra violent. House cats kill tens of thousands of rats and birds, further destroying humanity’s quantum field. Chicken are nicer pets, why does a dog get to live, after killing 2000 chicken and 2 humans? Chicken spill no blood, yet they're killed. What a genocide

dogs are guilty of. As it is, dogs already killed 20 million people last 700 years, so no big or medium dog deserves to live to be truly ethical, medium dogs can be very lethal with infants too. *This ought to be the most* lenient immortalist *"animal* welfare*" law regarding humans killed by dogs:* 10000 dogs killed when 1 human killed, since violence against 1 human risks killing all species on Earth in 10 seconds and human killings can lead to all out war ending all species, all dogs included. All blood spilling species will be eliminated, to usher the Eternal Kindness Paradise on Earth. Each time we breathe, we kill millions of bacteria. mosquitos kill people sometimes and we kill them by the trillions, so it's time to respect PEOPLE, not just dogs. A small dog bite needs urgent kill of dog in the future immortalist law and a severe bite and attack, urgent killing of 100 dogs of the same breed and ferocity, to prevent such lifelong mutilation and permanent damage, almost killing of a human. No human should live in fear of dogs, afraid to walk a neighborhood. *Humans are infinitely more valuable than anyone's dog and this must be clear to all would be owners*. Nonvegan dogs kill indirectly thousands of livestock used to make the meat they eat, so they deserve instant death anyway. The Immortality *Nurturing* Agency needs detailed records of all dogs, who would be required to wear a video camera to record their interactions with humans outside the house, or the cops can install camera on the street near every house with a big dog. Today, no such prevention exists and the laws reflect a complete disregard for human life and abuse by profiteering pet stores. Check out beastly pitbulls critically injuring an old guy. Check out pitbulls ripping a man alive and then cops shooting the dogs. Watch how too unleashed pitbulls maul a helpless 67 year old man. How can anyone allow pitbulls for civilians? Any gate left open by an Amazon or food delivery *guy by accident, not locked, could be swung open, pushed by a dog who sees a running child* or senior and interpret the running towards the house with the gate slightly (due to not seeing the dog) as a threat and kill the child as a result. This is not acceptable, the risk is like everyone would carry a nuclear bomb to protect themselves against terrorists. *Big dogs are like* small nuclear bombs *that kill babies at the flip of a switch*, more dangerous than guns, they terrorize and maul entire nations. *Pitbulls drag* America *into a* pit *of hell.* Even their name, like the bull, reminds us of the 'horns of the devil'. Demonic people love bull riding, the horns, bullfighting, as they love seeing humans suffer. Kind people need to take all nations back from the hands of pure evil worshipers. Kind atheists, immortalists and Muslims will join Christians, Hindus in the gentle elimination of fiendish pets who terrorize us. Jesus said to take care of the poor, not of lethal dogs. ☺☺☺☺☺

All gentle civilized tender soft *people* can unite and protest in every nation near government offices or via video postings, emails, phone calls, letters, etc to demand banning of all big dogs, with big signs and emails "*20* million people *killed by dogs,* Stop *the genocide*."☺, "Immortality *for* All, not just aristocrats owning pet stores/hospitals", ☺☺☺"World Peace in 3 months, and 0 violent deaths in 50 months, 0 jails in 10 years", "Human hospitals, not pet hospitals, take

America back from the real and aristocratic dogs", "Each dog kills indirectly 100 to 5000 chicken to eat meat, end the bloodshed, end the genocide of 90 billion adorable kind vegan chicks a year, end all homelessness, end all wars, get vegan pets under 4-5 lb, goldfish (lives 40 years), parrots, doves, mice and tiny birds", "We demand 3 million $ fee for any medium dog (unless a vegan service dog)", "5 million Americans *bitten* by dogs each year, 1 million doctors harassed to take care of it, instead of chronic diseases", "Stop the silent genocide of humanity by dogs", "Make our streets safe again, so all can jog and wear flippers, without socks in warm weather, without being afraid of dog bites from medium, small or big dogs". Small dogs can kill infants too, so new national standards for allowed breeds need to be created. Only cops and military ought to have big dogs, until we ban their use too via new laws on violent crime. We love beasts, but hate people, what a country. I had baby chicks (7 day old, 3 colors: red, black and yellow) as pets, and now I realize we need to have 90000 times fewer pets and start taking care of people to prevent WW3 that ends all pets, humans, animals on Earth. Too many national resources are wasted to defend against dogs. Millions of medical emergencies and resources wasted to take care of these things. Our cops need to catch spies trying to blow entire continents up, not waste time trapping dogs and transporting them, when those dogs deserve instant death for their attack on a human being. It's simply unbelievable. The cancer of big dangerous dogs being legalized (except for service dogs until robot dogs exist) is *eating* our nation *alive*. The entire PLANET is being terrorized, *being held hostage by a few dangerous dog lovers, who're actively brainwashing people about the benefits, without explaining the agony of the* 5 million yearly American victims of these beastly dogs. Anyone promoting big dogs without disclaimers explaining the dangers of kid death etc ought to be charged with terrorism. We have terrorists in our midst, and nobody wants to recognize it. Our laws punish humans and protect dogs and their owners, instead of protecting humans and euthanizing dogs instantly after every bite. We invite all who love big dogs to immigrate to African jungle where dogs eat alive mammals over 20-45 minutes, in a grueling sight, any mammal, until the last bone. Let them enjoy being eaten alive by the dogs (watch unborn fetus being eaten by dogs) and then come 'enlighten' us about the "need to have big dogs near children and seniors in our cities". We shall say, no, thank you. Worldwide, these beastly hyenas bite many more millions. All these videos will be part of the civic education Immortality *for* All classes from 1st grade to 12th grade, to understand the *global terrorism dangerous dog owners have been engaged in for decades without even knowing* (any purchase of dangerous dogs supports the sale and breeding of these boys and their endless attacks on innocent people, so it's an act of subtle terror), see the statistics in this chapter. These videos will inspire the youth to shun dogs, or at least big dogs, get a cat instead at the most or simply get none, or a tiny mouse to learn how to make the mouse live to triple its natural age via wonderful diets of the immortalists who shun bloodshed and carnivores. We want our kind breathing adoring kids to be scientists from early age, instead of barking lovers. We want them

to entangle with intelligence and humans, not wolves and dogs, cats/tigers. In many nations they have a saying "you become like those you hang out with", i.e. the IQ, ethics, tone of speech of cats and dogs. We see that today well, watch dog owners, how they intone. The more the dog barks, the less evolved their tone is, due to unconscious imitation.☺☺ Watch dogs destroy stuff.

It is the most basic act of human and divine ethics, the most fundamental goodness towards all humans to ☺☺*lovingly tenderly gently kindly*☺☺ help and adore the worst human 1 *trillion* times more than the best cat or dog. Hitler didn't get it, so he killed millions, while loving a cruel dangerous dog breed, known to kill infants. We're being brainwashed by the media that pets make us live longer, due to the oxytocin or some relaxation hormone or endorphins we get when playing with pets or walking the dog. This is not actually that true. It's a correlation, not a causation. For example, if better off people got more money, they buy pets and this is because they also buy better foods, have a less stressful better paying job, etc, meaning the extra 1-3 years of life are because of other factors, in spite of the dog, not because of it, with dog/pet possibly shortening your life, as low IQ always does and you acquire IQ of beings you socialize with. *The pet is simply a marker for affluence*. It was shown in 1000s of studies rich people live *10-15 years longer than the poorest on average*. *Gently kindly* read the poor quality of the vast majority of pet, nutrition and MANY other studies on Earth. The point is this: let's say indeed you live 1 year longer due to this stress relief, since you do have a Shih Tzu (a rare breed, the most affectionate of all dogs) dog who licks you 400 times daily for 30 minutes and you absolutely adore it. However, if you spent the same amount of time with the pet with intelligent people (who create the stress free society of the 11 companies and 0 violent crime) who can teach you a lot more things and meditating or simple breathing to achieve instant bliss any moment, even when dog is not around, you could live 15-25 years longer. If you remain clueless, playing with a pet, and not read info like the stuff in this book, you will obviously live much shorter, as *Long Life = Knowledge*. Having a pet is a passing fad, that humans are addicted to in this stage of their development. As soon as we discover drones that smell 1 million times better, and robots doing all service dog tasks, it's all over, the robots will perform 1 billion times better. What happens is a kid is born in a family, he sees a dog or cat, and loves to play, so becomes addicted to it, then wants one too later as an adult. In addition to that☺☺☺, we have a very cruel "everyone for themselves" capitalistic society of fraud and theft, with heartless aristocrats awarding themselves 5000-50000 times the pay of the poorer workers. With 33 million companies, instead of 11 companies in US total for universal caring for all, people are depressed. Parents got only *so much energy* to care for a kid, so pets can prevent true care for kids/house.

People also can dislike or hate themselves, dislike the loveless vibe of our world, where the government and companies don't care about the poor 60% and crave some affection or attention, loyalty or devotion that a pet can offer with their licks or etc. This deep insecurity, lack

of understanding we're always united (never alone) with the human quantum field and people of the future living to a trillion, this lack of self-love via lack of breathing 2 minutes even to release bliss states, complete lack of knowledge about breathing as a source of infinite bliss, this powerful peer pressure to buy pets, this huge amount of fraudulent studies about the exaggerated benefits of pets (Hitler had one and committed suicide after killing 80 million via WW2), are powerful lures, strong baits to get people to buy and then deal with the endless issues that arise: dead 3 year olds mauled by your big dog, 4 people bitten, 4000 people annoyed by the barking *and sending negative thoughts towards you* that ruin your health, etc. There is an escape from this mental prison and slavery to your pets, the realization that you can get the same exact benefits, on a far deeper bliss scale☺☺☺, way cheaper, with 10000 times more endorphins, brain benefits, without any of the pitfalls (being rejected by half of humanity who dislike pets and all the above). You can simply breathe for bliss☺☺☺ and then also give your pet for adoption or a shelter, due to being unable to take care of it or simply euthanize it, as it will be easy to do by going to the vet for free, once the mafia in charge of depopulation via pets is no longer running USA. If we euthanize all pets, 170 million, leave only police, military, service dogs, 0.55 million, we'll have more time to develop our IQ, EQ, compassion by taking care of the 150 million very neglected and messed up Americans, of the 90 million living in terrible conditions. If you hang around cats and dogs of IQ 20-60, then, you will become lower IQ like them.

If you hang out with immortalists, with humans who compose eterni tones, you vibe differently, you become smarter and your tone is way more advanced. The choice is yours, do you want to stagnate, devolve or evolve? *Is it really kind to waste trillions on useless pets when 0.7 homeless exist in USA*? Loneliness is just a concept, you're never alone, the whole world toils to produce electricity, pipes, computers, cars, airplanes, foods, medicines, etc for you. Plus, with immortalism universal kindness, nobody will feel lonely and abandoned by a gangster gov who can't even ensure all got a job at one of the only 11 companies in USA, with "firing" being moving to another department or company. Honestly, science shows that lower IQ folks (99.9% of world's *smartest people*, the real geeks who took us forward from genocides over resources not needed due to inventions, never had dogs, showing they KNOW that ☺abysmal IQ☺ is like, but the demonic media never reveals this), have low self-esteem, dislike themselves, don't have any clue about meditation, breathing and being happy with your brain alone by creating emotional states at will, etc, are in a deeper "perceived" longing of a pet. These people are more suggestible too. The gullible masses believe the fake news, read the 140 page about fake news, Jewish google provides endless false information when you ask millions of questions, research deeper and see how the results given initially are 100% false. It's exactly like the fake DeepSeek Chinese AI engines that are allegedly, as good as Google's or Microsoft's AI. The media keeps telling lies that dogs make you smart, when they don't, it's people who make you smart, helping

people makes you way smarter than hugging dogs, like with immortalist sports. The Jewish media has an ISRAEL FIRST agenda, WAKE UP. Thru a deeper self-analysis and self-reflection, pet owners will very quickly realize they were duped by society, peers and the media, parents, teachers, etc to get a pet, peers implanted a fantasy in their head that "you are happy when you have a pet". Meditative bliss boosts your immunity 50 times more than a pet, did you know that? Some Jews say pets are great to have as they want your brain to be only 2% smarter than "2 dogs combined". This way, the bad type of Jews (fakes posing as Jews or real) can take over your nation, every major business, academia, religion, law, spy agency position, and work hard to wipe out anyone with any intelligence left, so all leading positions are Jews who pretend to be locals. Later, pet owners discover they're not that happy, rarely smiling every hour and not much happier by any scientific test. This desire is a trick that messes their life, as instead of taking care of people who grant you perfect health, 5000 year lifespan, you become a slave of a cat or dog that gives you maybe 10 extra days of life. The reason this happens is because the Pet Industry is CORRUPT like Big Oil, so they fight anything free: breathing, solar electricity as fuel. Big Pharma (75% of Pharma world profits, 4% of population to finance PALACES in Mexican Cartel Style Trillion $ Thefts☺☺☺) wants to sell you medicines for life, Big Oil wants you to pay money for fuel, instead of having it free from the sun and wind. Big Pet wants You to pay to be happy, instead of free meditation at home. Big Pet wants you to buy pet food, toys, beds, vet visits, vaccines, it's all fraud based brainwashing to trash national resources, lower the IQ of our society, depopulate us so they take over the USA.☺

ISSUES WITH DOGS destroying everything: Besides sending to the hospital a billion people every few years and causing untold human suffering by that and fatal attacks, plus killing 70000 human beings via rabies alone, dogs can trash any house in minutes. The following videos will enlighten you about how dangerous dogs can be, besides annoying 5 billion people with *their infernal barking (low IQ, lowers your IQ, is like Satan worship music, total junk* like rap, heavy metal*, etc),* disturbing the sleep☺☺☺ of 2 billion making them tired, anger, irritable next day and prone to workplace mistakes that cause factory accidents, car crashes, divorces, firings at a company, street fights, etc and thus contributing to deep anger that causes wars and genocides. Dogs are experts at messing up a whole house in just one hour, which requires wasting 3 days to clean it and 800$ from a carpet cleaning company. Dogs can also destroy all chairs, walls, ceiling, doors, beds, monitors, laptops, etc costing you 3000$, etc. Kindly gently watch how 5 dogs destroyed the bed 100%, plus many other horrific events. The gangster gov doesn't allow you to euthanize dog when he misbehaves and causes endless damage to your house: say you're a poor guy who can save 4000$ in only 4 years, and a dog you got as a gift from a parasite trying to offload a monster has trashed your house. You can't euthanize it, you give it to a shelter maybe, and then it ruin the next 4 years of other poor people, causing a class warfare situation in which rich

people exterminate the poor via dogs. It's a jail country, so if it barks causing tired people who then crash cars due to being tired and kill people, it's hard to euthanize them. Dogs destroy the souls of mothers to be, by turning females into macho wolf like beings, ready to shred others apart. Because the purpose of women includes carrying the baby for 9 months, breastfeeding for 1-2 years, it's logical to ban any woman with a medium or big dog from getting parent license.

A woman who needs a medium/big dog is unfit to be a mother, she doesn't have even the *gentle tender soft nurturing* loving kindness empathy of a decent guy, how can a woman who is to nurture the future Immortals get a monster that kills babies every year? Would you date a girl who comes to each date with a lion on a leash? No, well, a dog is like a lion vs a human infant or toddler. Avoid any lady with a dog, for your own safety, any decent woman who has read this book will immediately donate her dog and start caring about people. No empath has dogs, no empath harasses neighbors, family, kids with such barks, risks death of kids by dogs via statistics, only empaths can bring immortalism☺☺☺, do don't waste time with brutes. Let the cannibal chimps be chimps. Don't need be their slave. Live and let live. Avoiding people with dogs will save you endless time, and trouble, dog owners are not empaths. Also, avoid people who post trash music on social media, as they're conduits of demonic energy. Clarify to any "person wanting to date you" that they need to focus 99-100% of their social media posts on the goals of the Immortalist Anthem, like 11 companies, for all humanity, World Peace in 3 months, zero violence worldwide in 3 years, etc exclusively, to avoid the 10 second end of all pets and humans soon, not random music, pets, etc. For anyone to be allowed in your "dating list", tell them they must be 100% dedicated, like a true Olympic trainer athlete having to memorize all chemical names in 4 months, to the Goal of Immortality *for* All, to eradicate egoism and racism against humans, which pet ownership is. While they may have been a cat or dog in a former life, if any, we can't allow such racism today while incarnated as a human. End racism now.☺☺☺ Immortality *for* All.☺☺☺ The highly violent big dog owners cry about racism, but many US people (of all races/ethnicities) haven't been to a hospital or check up for 30 years, yet their dog went to a hospital 30 times in that period. It never ceases to amaze immortalists how incredibly racist and human hating, all race-hating some humans are: only dog humanoids are first. Humans are 2nd class citizens. Where is the Protest about Kid, Senior Lives Matter, Baby Lives Matter? Babies killed by Big Dogs, millions killed early by sleep deprivation via dogs from crazy owners letting a dog bark and terrorize shorten the lifespan of 30 nearby people? Nowhere. Double standard. If we have 40 million humans who lose sleep due to barking of nearby dogs, and live 5 years shorter or evven 1, that's 40-200 million lifespan years lost, or sort of like 1 million people shot dead at age 40, losing 40 years each. A Holocaust, yet nobody protests about SLEEPING human lives matter, Relaxing human lives matter. Hypocrites. If they do the killing , it's OK, because it's slow and undetected, if others do the killing, oh, it's EVIL. What about the

infinitely EVIL music they listen to and force on all unwilling neighbors thru loud parties??? Neighbor Lives don't matter, only THEIRS. Well, the Ethics of USA. 50000 laws, implemented 50000 ways each, to yield, 2.5 billion forms of injustice and unequal treatment. They're spies for the dog humanoids perhaps, the 'demons' of Egyptian glyphs, true devil worshippers?☺☺☺ The anti-life anti-human energy of chaos of the universe, that science calls *random unhealthy quantum info* and religion calls "demons" or "satan", takes full possession of people in small steps: a little pop music, then a little rap, rock music, heavy metal, 2 dogs, 2 piercings, 1 tattoo, barking dogs, 2 cats, alcohol, smoking, drugs, etc... step by step until one becomes 98% "demon possessed". Remain vigilant, stay with God. Love people, not demons, be a patriot, love humans, not tigers and wolves. ☺☺☺ Don't be fooled, satanists present to the world a facade of "Christian or religious piety and virtue"... Let all prove they love God more than dog, of God inverted, satan. Jesus says in Mt 19:21, 9-21 is International Peace Day, "sell your possessions and give to the poor, and you will have treasure in heaven. Then come, follow me". Oh, wait, these ladies would not even give 0.1% of their stuff, a dog, to follow the Immortalist Anthem, the closest to the best of Christian ethics. They would not only not give up a big dog, but take the life of an infant baby her dog kills and shrug it off as the kid's fault for taunting dogs.

The most diabolical trick the Big Pet industry uses is to claim that pets make you kinder, when in fact, pets encourage sociopathic behavior of ignoring the millions of people dying due to violence each year, as pets take so much time/$$$. Also, 100s of animals/yr die to feed EACH pet, by cruel slaughter. Demons, spies, enemies laugh as more bloodshed occurs, in the name of "kindness for animals" satanists expose as virtue, to make evil sound good. Big Pet is the great demonic blood spilling factory of Hell, guilty of turning humans into folks who don't care about humans and prioritize miniature wolves and tigers, dogs and cats. Devils/spies pose as angels of light and love, to dupe the naive unguarded fools. The universal security of the human species demands drastic action against Big Pet industry. Big Pet industry, like Big Oil, cares not that war can kill all species in 10 seconds, not just humans. Sociopaths don't understand humans are on the verge of discovering how to kill all humans/animals in seconds, so pets are above World Peace in 3 months, 0 violent crime in 3 years. This is not a joke about selfish people, but the Armageddon Hybrid War between God and satan, humans and dogs, humans and cats, humans and wild beasts, tigers, wolves, bears, reptiles. The other species want to precipitate the all out human war that kills all people in seconds via the 2 capsule scenario, so they can take over the Earth. It's a covert war. Dogs are far more deadly than people imagine, it's like playing with the devil himself. "Me first" is their religion, or "my pets first, the rest of animal kingdom and all humans don't count". Hitler loved his dog... and so does Putin love his 4 dogs and martial arts... for "God said "thou shall kill babies with pitbulls and big dogs and kick people with legs and fists"". Satanists love dogs, they promote pet ownership, as it allows them to kill babies... with

dogs, to terrorize billions with barking, etc. Satan love dogs make people selfish (care about pets, not people), as they don't unite against him. It's a divide and conquer, distract and dupe strategy of genocide by the demon spy. Satan hates us, so to destroy humans, families, nations, he promotes pet ownership. Religious people don't understand the hate of anti-human forces, they're easily duped fools. Wake up from the demonic trance and become free from pet's astral cords to "demons". Try care about humans via the 11 companies, stop blatant demon worship. Jesus didn't say to buy pets. Please, Choose God over dog, God over demons. Thank You. ☺☺☺ Why do Christians get dogs, when the Bible depicts them as bad, as the Quran does too? In the Bible, dogs symbolize less than human, or wicked humans, in the Quran dogs cancel prayers. Jesus calls dogs unholy in Mt 7:6, so why do you have dogs to potentially kill babies, is that noble? Satan has 170 million hard core agents in the US alone, the cats and dogs... Hence violent crime is thru the roof, people never make the connection, they're too brainwashed by satanists. In the world context today, a pet is an open invitation to demons to take possession of you. But you can always regain your freedom, just donate the pet and follow the Immortalist Anthem, the 'scripture of sorts' or prayer that crushes demons inside those who read it often. ☺

C 15:44;51-4 "Our bodies must become Immortal", the body is to be Immortal, not cats, dogs or churches. Jesus' "The kingdom of God is within" (the body is the temple of God, not concrete, not pets). The irony is some poor people with no money for pets never visit a hospital, and live to 100, but the pet owner goes to the vet hospital 20 times in 20 years for her dog alone and 200 times in a life for herself and she still dies at 80, proving how dogs waste everyone's life. You see today, the complete disregard for human life by the aristocrats who force enslaved workers to build huge useless buildings for every Olympic game to deify satanic violence, satanic music, satanic values, while the workers live in dilapidated buildings, just like the World Fair Buildings were destroyed months after they spend 3-5 years building them in an act of display of ultimate mockery of human life, effort and slavery of the masses (or preexisting that hosted the World Fair and then destroyed under the cover of a story of "demolition of temporary"). The Rich have no respect for workers, for living to 4000,☺☺☺ instead they use disposable workers to work themselves to death, to build stuff and demolish it 3-45 years later, which obviously kills workers early instead of 4000, as all is wasted to Glorify the Egomaniacs in Charge, instead of Building Eternal Immortality *for* All, they build Trash Temporary Buildings to Display their Power to Commit GENOCIDE AGAINST THE Workers to Display Power to Worldwide Visitors☺☺☺, as with Olympic Games today, pyramids before. Pure sadism, the same materials and labor could have given better housing and helped millions live 20 years extra. US needs boycott the satanic Olympic and get rid of its horrible housing first. We would rather meet living people 8 millennia old, than see pyramids built by Worker Genocide and a 200 year old building dedicated to Dog Breeds. The God of NATO, etc is violent satanic movies, sex, music, sports, pets, food. Minimize

contact with men with dogs too, they hate what is Godly and love what is evil. Any kind human would not handle dogs, for they bite and injure and that is against the Immortalist Anthem and nonkilling noninjuring principal tenet of immortalism, no civilized country uses dogs to catch criminals, it instead creates the culture that gives no criminal ideas and then dogs to attack anyone are not needed, nor dogs to catch drugs, since all are loved and know happiness via meditative bliss and trust the government of 11 companies and 3 agencies, with one universal pay for all and true equality: ALL BABIES HAVE EQUAL RIGHTS TO LIFE, SO NO BABY CAN BE KILLED BY DOGS. A woman with a dog is A red flag, LIKE NO OTHER... especially big/medium dog. She's a spoiled Tom Boy, with negligible empathy for humanity's suffering and endless wars and violence. She's like lunatic ladies who believe the fake stories on social media, and that only her life is "boring" and needs pets to fill in the void of ignorance of bliss, and pets only deepen her unhappiness in reality, increase her lack of serenity and make the house more of a war zone. The point of life for many is a human insect living 0.005 sec (80 years) worships a 0.001 sec dog insect instead of living to a trillion and allowing dog souls to incarnate into a trilion yr human. She's an ungrateful bitch, who steals billions from the state to build pet hospitals, while humans don't see MDs as waiting time is 9 months. She's senile and anti-science, arrogant and stupid (dogs are not people, they're far more idiotic), living in a fantasy world (even the best trained dog can flip and bite an infant, leaving him blind for life in one eye), she's incapable to understand melatonin and 100s of endogenous chemicals fall 2-20 fold as dogs age, meaning dogs mental health declines and they can bite and kill owners, babies as they get old and senile. We see how easily people commit suicide or shoot family members when angry due to mental illness, so to assume all dogs never get mental illness, only human chimps, is pure insanity. An infant doesn't know dogs view some space as theirs and may approach a dog too often and one time, the dog gets angery and bites to teach a lesson, leaving child disfigured for life, ruining the life of the kid and parents. Only a murderous irresponsible parent would have a medium or big dog with a small kid around, someone with IQ of a dog, who doesn't know any math and probability theory, medical science. Small dogs like Dachshunds and Pomeranians killed babies while parents were sleeping, and the dog attacked the head (happened in Maryland USA too). Thus, any sane parent and government can't allow dogs for anyone with a parent license. Child killers can go have babies in India, where stray dogs attack kids daily with government approval. You're not special, your dog is not God or superhuman, even the best trainer can have this happen. Dogs' ability to process threats, to recall they're not meant to attack infants and family members, falls as melatonin falls and dementia sets in. A dog has far lower comprehension of the value of an infant, than people, a bite is "ok" to a dog. ☺☺☺

She often wears a lot of jewelry, makeup made by men (without insurance or $ to see an MD) who die in factory/mine accidents (for some ladies, women equality means men take the most

deadly jobs, women buy dogs to kill neighbors' babies, terrorize the HOA or neighborhood with barking), so that her imperial ego can feel important with a dog on a leash. Avoid anyone with dogs if you want to have kids, they might kill your infant baby, it takes only seconds of parent taking eyes off baby for the dog to kill or disfigure the baby or make him blind, don't take a chance for an arrogant stubborn "gnat IQ" partner. Let every spoiled bitch decide: God or human eating wolves, God or Satan, Humans or wild dogs. The world has 8 billion people, 90% don't have dogs. You don't need "ant IQ folks" as a partner, to keep you 24-7 in terror and fear of being bitten or of blinding your kids. Let them marry or live with fellow dog owners, stay away and avoid them like the plague, be them small dog or big dog, both are evil, distract, destroy the Peace Eternal of God, the probability of ~*~Eternal Universal Peace~*~ and Immortality *for* All soon. Statistics is what it is, physics/math are eternal, make no exceptions for you: you don't want to be that 1 in 25,000 with a mauled infant. It's your baby you worked for 5 years to have and raise. In immortalism, only male childless cops can have dogs, or, if with kids, only after their kids live on their own, being 18+, to prevent attacks on kids, dogs being for sniffing until drones replace dogs. Males are taller, stronger and this acts as a deter mechanism for dogs who want to bite owners. The weaker, shorter the owner is, the more likely a bite or fatal attack is. Big dogs need to be illegal unless seniors sign a paper understanding that they dogs often attack seniors and kill them. Plus, we want would be lactating mothers to have an eterni immortalist☺☺☺ *gentle tender soft nurturing loving kind* compassionate *grace* tone (dogs make your tone more infernal, violent and thug like via their fight flight barking of hell, since humans imitate tones around them), not the infernal aggressive dog tone that would raise a generation more stupid, more cruel than the one before. The more one hears dogs barking, the more "fruit fly IQ" like one becomes. Unless you're more like baboons or cannibal chimps who eat kids of neighboring chimps, you would notice there is a huge difference between barking and the most peaceful human instrumental or vocal music, much like between the sound of a nuclear weapon explosion and that of nature sounds around your favorite serene sunny beach.☺☺☺ One sound destroys humanity, another one heals it. We become what we focus upon: the chaos of a dog's DNA that dies at 15, or the order of eterni human sound that dies at 98. Think, use what is left of your brain after the daily TV brainwashing about Pet "benefits". The genocidal aristocrat, in love with the red that is all pervading in bloodshed and his church/cruel traditions, comes to various nations brings deadly food and deadly dogs, to exterminate locals, he dresses up as an angel of light, but is merely a demon of darkness in disguise. Satan = chaos and death, like barking, rock, heavy metal, rap, pop. God = order, and life, like the gentlest immortalist eterni music, supercentenarian voice when they were young. We don't want a generation of idiots, kids need to be protected from the vile barking of dogs, reminiscent of Hiroshima. ☺☺ Let satan deceive none, give away all dogs. ☺

If some people are vile, *they shouldn't be allowed to make* the next generation degenerate like them. So, only childless or without parent license people can have dogs, nobody can receive parent license if they don't have their dog taken away. A child or infant is a trillion times more valuable than all dogs in the Universe. Let that be clear to all. Thou shall not terrorize the future generation and make it hyena like. This can be proven in science studies, dog barking makes people more STUPID. *Hence the first thing* immortalists will do is the Manhattan Project to replace all dogs with drones for sniffing, robots for service dogs or police hunting dogs (make suspects stop running), smell track of suspects, etc. The kids are the future and 1 Human Kid is a trillion times more valuable than 8 trillion dogs combined. Everyone else has robots made of soft stuff that can't harm any kid, moving very gently. Dogs are Satan's best friends to distract people from instant zero violent crime and the achievement of World Peace in a few months or years. Dogs are symbols of cannibalism and human child sacrifice (babies dogs kill) for ego pumping and building. We don't need them, their souls will reincarnate as humans and evolve, all carnivores will vanish.☺☺☺ If you were told next life you'll reincarnate as a human who lives to 900, you would love it, so imagine how elated cats, dogs, pets are when we tell them they will happily reincarnate as 100 year old lived humans to live so much longer and evolve as souls. Stop having dogs, have babies instead, be kind to dog souls, clothe them well in holy clothes of longer lifespan. MLK said "I've a dream that all men are created equal", meaning no seniors, kids should be killed by dogs, a dream of Equality, where no parent lives in fear of a big dog killing his 1-16 year old kid, like this poor 13 old kid. MLK said "Not judged by the color of their skin, but the content of their character", meaning Not Judged by the Money they Make (1 universal pay eventually): workers' kids die of dog bites, but aristocrats don't, as they live in gated estates and no neighbors can let wild dogs loose to kill rich kids like that. Why do rich bastards brainwash kids via TV ads, Dog Companies to get dogs that kill kids? Dog bite victims (4.5 million a year) matter, Slave Lives matter, enslaved dog bite☺☺☺ victims matter☺☺☺. Protest about it. ☺☺☺

The hypocritical Christians, who say they believe in the 10 commandments, have turned *our civilization into one of* Dog (idol) worship (Deut 5:7: Have no other gods and DOGS), Sports Worship, where cats and dogs have replaced *kindness* and humanity, cats are treated royally, dogs too, but humans are tortured, beaten and killed. God became dog, God became the inverted God or satan. Cats and dogs are the new God. Krishna told Indians to be devoted to God, not pets, so Hindus must also wake up from the satanic trance and return to God, as Hindu kids are killed by dogs the unjust law allows to roam India's streets. Buddha called for no desire for objects, pets, partners, etc, as desire is the root of all suffering, yet Buddhists now have caught the dog-cat disease too. Not one happy Buddhist is found, as they're slaves of pets now too. Cats attack people. See tiger eats man video. Tiger eats student at the zoo. Watch the tiger eating a guy, and then go right to the store to buy a small tiger (cat)? Another tiger eats a guy.

They communicate, they're not silly. Even monkeys, far smarter than tigers, maul owners: watch this owner being attacked by his monkey pet. 0 IQ governments legalize these circuses that maul people, watch. Flea IQ☺☺☺ zoo keeper goes near tigers, how can this be even legal? We need reduce big cats in zoos 9000 fold and take care of people: leave 2 vegan big cats in one zoo for all planet to watch on youtube, the other big cats can die painlessly, reincarnate in vegan nice deer. Tigers get 5000 sq ft in a zoo, humans get 400 sq ft in a tiny condo for parents plus 2 kids, is that HUMANITY and spirituality, Christianity or whatever? To maintain the ~*~Eternal Universal Peace~*~, all bloodshed must cease, all carnivores wiped out or veganized, all food turned into eterni. Another trainer gets eaten by his big cat pet. Watch tiger eat a helpless man who fell in. Another (among 100s of human on human) holocaust few know about is that of the big cats who killed millions of humans as we evolved, that was your cat's grandpa from the past. Nobody talks about it, since it's not politically correct for people to defend World Peace in 3 months cause, gentle cultures, eterni music values. People spend eons caring for their ultra spoiled dog and cat, while ignoring the suffering of humans around them, who have far more stressful lives than these lazy pets doing nothing except wasting time☺☺☺. Nothing is more hypocritical, they say Sola Scriptura, Protestant, so why the pet? Jesus didn't say get 3 cats, 2 dogs per family to worship God, why is the UK Royal family promoting dogs? The religious complain there is violent crime, but they do nothing to help men sleep by donating their evil dog to the Fertilizer Camp to compost them quick like farms do with cows that are sick.

The Immortalist Party will legalize pet euthanasia at the vet without any reason given, and any animal shelter is required to accept all animals donated, will only keep animals for a short period to avoid drain of resources, with the sickest less desirable pets euthanized first, so in the case of many people donating their pets, no emergency disease spread via overcrowding happens. The reason is simple: we have a national emergency where people starve, but dogs are fat. It's unthinkable, but the result of a country of absolute aristocratic terror. The 2020s laws only protect the RICH and pets.☺☺ Dogs are the Rulers & God in USA and most Western nations. Humans are mere trash who're brainwashed to worship dogs and who don't even deserve a house (0.7 million in US), while dogs live like kings doing nothing all day. What happens is that people will simply call 50 adoption centers and 50 vets to find one who wants to take or euthanize their pet, if they want and then the adoption centers will simply deal with 150 million donated pets per the new law allowing centers to euthanize millions even, to avoid a drain of national resources. This will happen due to the new dog fees that will make it less affordable to have a dog and these trillions will be used to raise money to build new housing, fix existing housing, reduce crime created by dog barking, dog bites, dog issues starting neighbor fights, etc. Vets need to be realistic and realize that people who're refused, will always find another vet or, do little tricks, like trash some chair or 75$ mattress they order on Amazon, take

some pic or video of after, blame it on the dog and tell the vet that they're afraid the dog is dangerous and will bite someone and needs to be euthanized, if not believed, since vets are too brainwashed to understand that "dogs can be dangerous" to the human quantum field via barking or merely being big and capable of biting if an unexpected situation evolves and someone accidentally provokes a dog. People are more valuable than dogs or criminal laws created by aristocrats to oppress the masses.☺☺☺ Aristocrats control the media, they brainwash people to buy Pets, so rich get richer by selling you pets, then you can't get rid of them, since all adoption centers refuse all if all donated 170 million pets without a new law for euthanasia. When an evil government doesn't care about the people, people go around the letter of the law in creative ways to achieve what should be legal but is not, as Lao Tze said 2500 years ago: "When cunning and profit are renounced, stealing and fraud will disappear." ☺

The laws have to protect the poor, the 99%, the humans, not pet dogs. That is why 99% of USA needs to vote the Immortalists so cunning and profit are renounced. The government 5-10 year plan to reduce violent crime a trillion fold needs money, resources, obtained via conversion of pet stores/parks/hospitals into happy☺☺ relaxation, breathing, places, as the 5-10 year plan to reduce pet ownership by 300 fold takes hold: from 170 million to 0.57 (service dogs 0.5 million cop dogs 50000, military 2000, 18000 dogs for rich who afford the huge dog fees, which initially are not that huge but increase every year if violent crime is not 0, though most rich would not waste that money, saving it for a rosy day, as wages become the only income source in the new universal kindness civilization of 0 crime or spy create companies). The reality is far harsher than people realize, dogs are like demonic beings, because they take the Eternal Tranquility of Eterni, Tao, Buddha, of the State Needed to Bring World Peace☺☺☺, of the meditative space of immortalist breathing, of universal consciousness and destroy it instantly with their infernal barking, unpredictability, chaos they inherit from the Lucifer of chaos and war. Dogs are black holes taking people away from ~*~Eternal Universal Peace~*~ to eternal war. Dogs are 'rat IQ', they don't understand the value of Eterni Tone, of Eternal Serenity to prevent the end of all species. Cats are gnat IQ too, though more peaceful. Both are enemies of Peace who will destroy your house vibe, bringing it down from the Immortalist Anthem. If one reads this book and still chooses to keep pets, they don't understand what it takes to bring Eternal World Peace and are best avoided, as they will be wasting your time. Life is ultra short, these people will always place pets above people, above the millions of human victims of wars pet stores, and pet hospitals indirectly create. They simply don't give a "f" about you and humans. Their religion is Their Imperial Ego, they could care less about World Peace in 10 years. Their God = self, meaning the endless bloodshed cats and dogs cause in endless slaughterhouses built to feed for the pets. Pets do this to 1 day old chicks, cows, chicken, pigs, etc, and they let it continue? Is that human? They're too evil to realize that without Peace all dogs/species will vanish in 8 sec. Most of these

folks also listen to the 99.9% super evil music today, you can sense them from miles away. ☺☺☺

ISSUES WITH CATS destroying everything: 17 videos to watch: cat poop makes a mess, vase falls, ultra heavy vase that could kill a baby or disable him for life. A woman was left blind in one eye and severely mutilated after her cat attacked her. Watch how dangerous cats can be jumping 9 times their height, bite the breast of owners (another lady breast gets biten), send kitchen knives flying, in dangerous ways that could injure or even blind people, destroy monitors by knocking them down (glass is broken, video 2) or chew on laptops rendering them useless, how drinks and food are spilled all over the tile, carpet or wood making a big mess, cats break everything in the house sometimes making big objects fall and possibly injuring owners and toddlers, how ceiling panels, ceiling fans, etc fall due to cats and could cause permanent brain damage, facial scar, nose destruction, blindness in one eye or other injuries in small kids or even adults, how vase could kill a small baby by falling with the cat inside, how cats smash glass and could leave babies and adults blind via flying glass, how they tear up ultra important paper document you forgot on a table that may take months to get back, how pet cats kill 390 million animals a year in Australia alone in a evil frenzy of bloodshed and murder, *pain and* suffering, how cats bite owner's friend ass, legs, hands, being just as low in IQ and violent as dogs are to the owner's friends, etc. Newsweek reports more on such horrific events the Zionist media hides on purpose. Any allergy to cats, dogs or dirt/dust mites in carpet (vinyl floor or wood got 9000x fewer allergens), etc can increase IgE antibodies that attack the optic nerve and increase risk of blindness thru glaucoma. 15% of people are allergic to cats or dogs, so it's great to test yourself before following the fad of "having pets", the allergy could cut 15 years off your life, by destroying your immune system. Cats can infect you with parasite called Toxoplasma gondii, which can cause insanity, autism, psychosis in some people. This is not a surprise, given the behavior of musicians who own(ed) cats. Your health is more important, you don't want asthma attacks or blindness. Vacuum your room weekly to remove allergens from dust mites, bacteria, molds, pet dander (chemicals they produce), replace carpets with wood or vinyl, linoleum. ☺☺

You can jog/walk alone, no need of dogs to exercise in service to Immortality for All. *Good sleep* is 50% of longevity, *so quiet pets are a way to* ☺☺*lovingly tenderly gently kindly*☺☺ walk the talk of universal *gentle tender soft nurturing* loving kindness. Extermination and destruction of gentiles by the bad type of Jews (or all ethnicities) can occur in many covert ways, including by *social engineering of fads, like having cats or dogs* that people identify as their kids: the dogs bark and disturb the sleep of neighbors, further ensuring a 0 IQ collective of masses super easy to manipulate by aristocracy. Not only that, but pets increase disregard for humans who're used as scapegoats, such as slaves aristocrats jail unfairly to distract the masses from the real criminals, the aristocrats. We see today the method works to depopulate many nations and bring down birth rate, so as to increase immigration 20 fold and allow Z nations (disguising

themselves as 'immigrants from Y nation' to take over). This is easy to stop with new policies of climate change fees: 100,000$ a month fee to have a cat or a cat size dog. *All money is given to* those who have high Immortality Credit score *and* have *children,* AFTER *attending* new education courses to increase their high Immortality Credit Score by perfect parenting. We defend humans, not dogs. Dogs can't invent new solar panels and cats can't defend against asteroids or atmosphere collapse due to overheating, we need science geeks, children, *not cats/dogs*. Our national security, climate change security, science progress would rather have USA have more kids, than 170 million dogs and cats US got today: it's impossible to rely on cats and dogs to defend a nation. Cats kill so many animals, read the full story. This bloodshed damages the human quantum field. Until smell tech is 1000 times better, we need 10000 dogs, not 90 million in USA. But to have *millions of Americans and others die early due to lack of medical care, while endless pet hospitals litter Europe, USA and the world*, is just a crime against the human species. *Cats and dogs manipulate people to act against the interests of their own species* like the T. gondii parasite manipulates mice to get eaten by cats, or humans to be sabotaged by cats, by deifying blood spilling cats (house cats can kill a lot of birds, etc) instead of nonkilling vegan/eterni food for all and trillion year lifespans for all vegan nonviolent people, and later, trillion year lifespans for cats if you still love cats so much. On top of that, cats may double the risk of schizophrenia like disorders and pets *steal resources from* unborn scientists (guy wants no more kid(s), due to her 5 cats and 3 dogs that push him over the edge with incessant barking terrorism, sleep disturbing by jumping on bed (cats) and pet dander allergy giving dry eyes, red eyes) who also need food, resources, medical *care* taken by pets, cats, big or small. Your cat/pet won't discover how you can live to 800, or how to be instantly happy. ☺☺☺

THE BLESSING of *0* cats *and 0* dogs (except service or police dogs)

If we get 0 pets, we have way more food, time, space and facilities for human kids that help us live to 400 and cure all diseases. If we have veganism, we also can boost kids number by 2-3 fold. Today, cats and dogs cause many to have 0 kids. Who will take care of these people in their old age? Their cat and dog? USA alone aborted 100 million babies last century, so we remained as selfish and dog-cat addicted as ever. People discover things and can help you to live 50 years longer. Pets can't do it, they can't give us all single family homes.

A pet annual registration fee is a must, for large lethal dogs *a million/dog/month*, big cats *5 million/*a month due to eating almost 100 times more meat than a small cat and being dangerous (see how they attack owners). A human is 1 trillion times more valuable than any big cat. Russia and China have promoted doubling the tiger population in Nepal and other areas, which led to a doubling of humans eaten or killed by tigers between 2010 and 2022. Promoting conservation of tigers is an act of genocide against humans, an act of covert hybrid warfare,

since poor countries don't have money for big zoo enclosures or enclosed national parks and this drains the nation of meat used to feed people. 1 tiger eats as much meat as 10 people. The immortalists propose China and Russia, who met in 2010 to promote tigers in poor nations, to give Nepal and all nations victims of big cat conservation propaganda 2 trillion dollars in *damages* for brainwashing them and leading to killings of humans (355 Nepal tigers in 2022 vs 121 in 2009, many people dead), to help Nepal get rid of all big cats, dangerous dogs, snakes and other animals and setup 1000 Immortality *for* All Universities/Research Centers and World Peace in 3 months, 0 violent crime in 10 years, 0 animal bloodshed in 50 years per Chinese Buddhism principles of nonviolence via the high tech eterni food industry development that replaces agriculture with space foods. *We want Russia and China to promote Real* World DEVELOPMENT of *all nations, not slavery to tigers and backwardness*. We appreciate China's effort to build modern infrastructure and help nations develop, but tigers are anti-development. Specifically, we kindly gently suggest to Putin to pay $90 billion out of his alleged wealth of 200 billion to Nepal victim families whose relatives were killed by tigers. See video of Russian president petting tigers, loving human eaters, while bombing and killing thousands of humans in Ukraine: Marinka city wiped out. This erasing of cities doesn't seem like development aid. Gently recall that tigers eat people, see video. Presidents need to choose people over people eaters. The ☺abysmal IQ☺ of people and spies who use animal conservation to terrorize USA and other nations is evident in this article on Nepal tigers: get that, humans can't develop, and ought not to, in order to save human eaters and help human eaters proliferate. The KGB may have used similar tactics to pass a 1973 Congress "Endangered (Human Killing) Species Act" to cause a 50 fold increase in alligator population and human attacks in Florida. Covert efforts to promote conservation of deadly animals ought to be a 500 trillion fine national treason offense of hybrid warfare, as it causes deaths of many humans, severe mental stress, shorter lifespan due to stress of 25 million Americans living near water infested by 1.3 million alligators: lifetime labor to *repay the debt to the US* by all groups of spies involved, plus any 50000 local ☺hyena IQ workers☺ *supporting them, with fine shared, so each American supporting that paying 10 billion at least by 100000 years of labor, picking produce in the* hot FL/CA sun, where snakes and alligators may sometimes attack, because they fought the snake/alligator total extermination.

In 1971, Australia traitors, placed the crocodile on the endangered list, since they were going extinct almost, so now they got 0.1 million of them in one area alone and waste 9000 years of work hours for police and rangers who have to relocate them, educate the public on avoiding the 20 feet monsters known to eat Australians. This is pure terrorism of humanity. Politicians are to protect people, not serial killers such as alligators (which are small crocodiles), snakes, tigers, deadly dogs, wolves, foxes, bears, etc. Bears are ultra cruel and violent carnivores who eat prey slowly, while alive and deserve instant extermination not conservation, as they kill people too

(11 mauled), besides trashing cars. Polar bears are even more cruel, they cannibalize baby bears of random females. The Florida governor, signed a bill allowing people to shoot bears if a threat, which sounds fair to billions of people, especially in areas with lots of bears where they attack – WATCH the mutilated face of a guy. Would Demon-crats love their spouse or kid to have such a face? Why then protect any dangerous animal? Let them all go extinct. 60% of EU bears are in Romania (7000 bears), California got 65000 we need wipe them out to end human mutilations. It's pure insanity that every state decides when and not to mutilate and kill people based on the whims of a few lunatic conservationists who ought to pay 400 billion in damages to all people mutilated by endless species they conserve. We need a federal IMMORTAL ban on any carnivore with 100% freedom for all to hunt these beasts to extinction, if no money exists to kill them gently. Each beast kills thousands of mammals, so they deserve instant death for so much bloodshed and taking meat others could eat away from us. The Demon-crats and politicians who propose conserving any animal that attacks people ought to be sued by all lawyers in the USA, retroactively even, to stop any politician from every trying to propose such anti-human laws like reintroducing beasts in areas where they went extinct. Re-pub-licans and immortalists need to go back to all attacks last 200 years and *sue all conservationists and politicians who caused a rise in those animals that caused the death* and give victim families 10 million dollars at least for each attack (100 million for a death), for their loss, mutilation, etc, all paid by Demon-crats. In the 1930s the California Department of Fish and Game committed a crime against humanity by releasing 28 black bears into Southern California. They need to pay for it. USA is wasting far more resources taking care of bears, wolves and alligators than many people, with entire state "Fish and Game" departments tasked with conserving human eaters and wasting 20000 lifespan years with pure nonsense. In 1974, when a Democrat governed Florida, the Florida Department of Fish and Game decided to protect black bears and terrorize USA, just like Congress passed in 1973 the Endangered Species Act. Whales often kill people, but smacking them with their tails, and they also eat people by eating huge amounts of fish that we could eat instead. By crushing fish and bloodshed, whales are in the carnivore category of animals that ought to be wiped out fast, oncewe get eterni foods, in order to heal the human quantum field. ☺Abysmal IQ officials☺ in India wage war on the human quantum field and on the poor working class by forcing relocation of 65000 people to make space for… tiger conservation. This is genocide. ☺☺☺☺☺☺

Australia 'bloodshed enthusiasts' banned hunting of crocodiles in 1974, so now the crocodile population is 33 times larger than then, leading to human deaths. Same mistake in 1973 in USA: alligators (almost same as crocodiles) became 40 times more numerous as low IQ blood drinkers banned alligator hunting (meat eaters drink blood daily, and have no concern for the fact these carnivore beasts they eat or 'protect' caused endless bloodshed on Earth with every daily meal and that ethics calls us to eliminate all carnivores fast). The same complete disregard for

thousands of mammals and fish eaten by each 20-23 ft alligator crocodile is shown in the utter disregard for human lives ended by these monsters. They even claim that they're hippies, nature lovers, but all they're is ***bloodshed and cruelty lovers***: one alligator or snake hunting prevents 5000 brutal killings by these carnivores and far higher quantum field pollution of all humanity. Hunting is bad, but it prevents 5000 killings by the hunted animals. How come there is no Department of Single *Family* Homes for All in all 50 states (why have so many states too)? Why don't we shut down all Fish and Game Departments and create the Single *Family* Homes Depts? Give Forests to PEOPLE and spread out safe villages of single family homes, not beasts. Get rid of all bears, lions, wolves, let people escape the 5 stories high condo jails, let us build nice roads and live in nature. Are Demon-crats really for people or for bears and mountain lions? Bears attack beekeepers and terrorize thousands of people every month. ***You can kindly stop it by voting*** for the Immortalist Party. 1000 wolves in Germany cause untold misery for sheep farmers and cause a destabilization of the human quantum field by the repeated bloodshed attacks on mammals. Each wolf causes thousands of painful killings and attacks that would be ended with one killing of a wolf. The war against humans by conservationists is genocidal and a sign of the precarious state of affairs in which low IQ folks terrorize an entire planet and its food supply. 3 wolves attacked a lady, who is barely alive, 375 acres of land were wasted with a zoo in Paris. ***Europe needs only 1 zoo***, let us use the land for people, not wolves, bears and tigers. Use youtube to watch, no need to be there in person. What's there to see? Violent thug wolves? Dogs are domesticated wolves. Wolves ate 22 kids (see video), and another wolf pack ate 6 kids.

We need to give humans decent homes, not bears, tigers, big cats, coyotes in our forests, let people live in the forests, not beasts. What kind of democracy is that? Democrats are not democratic, give people decent single family housing, not bear attacks. People living in bear areas need AI cameras that detect bears and make human sounds to scare them at night or day, using flashing lights and the most effective (done via 100000 tests in the wild) sounds to scare bears away, until we get a decent federal government that protects people, not people eaters. Demon-crats who propose conserving bears anywhere, ought to take bears as their pets and marry bears. Democrat policies have caused a human mini holocaust of maulings: grizzly bears went from 50000 to 1000 in 1975, when ☺hyena IQ officials☺ decided to "protect them". What do we need bears for? Let them go extinct. Kindly, gently read some basic tips to protect bear invasions in your home. Yelling at them to go away scares most bears who're startled by the human voice (sounds intimidating to them), watch clips to understand what to do if any bear charges at you or climbs your fence and breaks a window screen to get inside your house. Bears can kill people while people sip their favorite juice or tea, especially in homes or front yards with no fence. Lady was given permission to kill a bear in California and she didn't do it, so 2 months later the bear that came to her house regularly killed her, removing even the bars on her

windows. Playing nice with bears gets you killed. Never hike or camp in small groups (10 people at least to scare bears) in areas with bears, lynx or wolves, always carry pepper spray and travel with at least 3 friends who have guns, since bears can attack by surprise even groups of people and we need World Peace in 3 months, not hikes. Endless people get mauled by circus bears. Horses also can fatally kick trainers who waste their life "with horse shows". ☺☺☺☺☺☺☺

The federal government needs to finance a *joint volunteer* extermination *of mammal or reptile animals attacking people*, as these animals shed blood daily contaminating the human quantum field. We got too many horse stables that pollute the air and suffocate nearby residents. This is called *HORSE* TERRORISM, *horses* above people. A new horse *fee* needs to be created, 1 million a year, to reduce the horse number 20,000 fold at least. Horses don't create living to 9000 years inventions, they're just useless. Their souls will reincarnate as humans if they got one and God allows it, no worries. Horses give asthma to endless people, with their endless stables that create aerosols full of bacteria and viruses (like cholera spread by human feces in 1848 London) and racing tracks that make people homeless by theft of space, resources. Horses destroy the immune system of children nearby, pollute the AC filters of people nearby, their furnace filters with provable bacteria load and deadly horse pathogens, lung destroying pathogens. These filters in furnace and AC need to be taken by lawyers, sent to labs to sue aristocratic horse owners for trillions of dollars in damages, so that once and for all we end horse terrorism of the poor by the rich or middle glass filif "mosquito IQ"☺☺☺ rednecks of Texas, Florida, California and other places with tons of useless horses. Horses can give people blindness and other diseases, (leptospirosis or uveitis which can lead to blindness, rabies, salmonellosis, ringworm, anthrax, West Nile Virus, Eastern equine encephalitis, lyme disease,☺ MRSA, glanders, vesicular stomatitis, rain scald, encephalomyelitis, hendra virus infection) so please grow up, donate horses and help fellow humans instead. Fines for those with smelly horse stables near houses would be $5 million per house affected per air quality tests. Horse ownership fees would be $1 million/year for environmental destruction of air quality. Horses are a curse for humanity. The aristocrat places his stables near the poor to poison them, while his house is far away on the 10 acre property. Such genocidal behavior ought to be rectified with steep fines.☺☺☺ It's due in part to such "filif worm IQ" people that America lives on average 6 years less than Singapore, even if USA got 225 times more land per capita (2023: 37 vs 8331 people/km^2).

They push "horse feces bacteria on every neighbor", kind of like, look, "*inhale horse feces vapors and viruses daily, as a gift from Jesus*". *A horse defecates 4 to 13 times/day, meaning 35-50 pounds of wet manure (feces plus urine).* How would you feel if your neighbor would come near you and use some drone to release *fart or urine smell* gas to your window every 3 minutes? Not nice, since that gas also carries bacteria, viruses from the rotting meat in his intestines. Yet here we are, pure feces lying near houses and making everything smell like a restaurant bath that has

not been cleaned in 5 months. "Country life" is fine, as long as nobody gets the smells. If someone plays loud music we tell them to stop, but the smell never stops unless it's raining, which in most areas happens only a few times a year, for 1 hour a day, if that. Instead of using the land to give decent housing to all scientists and everyone, to build Immortality Universities and 11 decent companies that are high tech and triple human lifespan, these 0 IQ '*riding fanatic hamsters*☺☺☺ *or little* rats' terrorize the whole nation, holding it hostage into the 1st century, like the British Royal Family horse traditions. Horses cause endless injuries, 66000 visits to the ER that drain national medical resources otherwise spent on longevity, undetected injuries to the brains of horse riders, their eyes too due to sudden jolts that affect the optic nerve too, and make people very macho and insensitive, very harsh with themselves and others, the very opposite the immortalist☺☺☺ *gentle tender soft nurturing loving kind* compassionate *grace*. All those rodeos turn people into monsters who yell like Hitler. Horses attack people: video 1, video 2, video 3 (brutal mauling), video 4 (7 attacks), video 5, video 6 (UK guard), video 7 (dogs got what they deserve), 8 man killed. Horses often kill people by cracking their skull with a kick or hitting their chest causing heart attack. Horse riding deaths are very common, only selfish "shrimp IQ" people ride horses when we don't have World Peace yet. Beware. The horse mania makes people terrorists who waste thousands of acres for horses, while humans live in the most dilapidated condos. Horse mania means *7.2 million horses in USA take* huge resources, millions of acres able to house 20 million people, while World Peace in 3 months and decent housing for the 0.5 million homeless to reduce crime that leads to wars and violence take a back seat. These hypocrites even claim to be spiritual. The same genocide of humans, idol worship of horses happens in Australia, where 122k are homeless, while 1 million horses are given the homage and space of Gods, the space to build big backyard houses for 2 million people. Why care about 1 million people, *if you can waste lives caring for 7 million horses*?☺☺☺ A man died because of horse owners who let 30 horses roam the streets. How come owner is not fined $90 million? ☺☺

China gave Australia pandas as a sign of friendship, but the Chinese leaders need to see this science paper on the horrific attacks on pandas on people who fell into the panda enclosure, which can happen even at the zoos with loving kind zoo keepers who loved the pandas for years and interacted with the zoo animals daily (many zoo keepers were eaten or mauled to death by big cats). A panda almost ate a zoo visitor hands, watch. One guy had his leg totally screwed when he went into the enclosure and woke the bear up: severe damage to legs. Pandas are usually vegan, eating bamboo, but they can attack people if provoked or angry, a lady got her right middle finger top bitten as seen in the red area at the top of her finger in this youtube. Animals are low IQ, don't pet bears, since some feed on people and kill them. Never try to pet any big carnivore animal, dog or even herbivores. Always stay 3 feet at least from any glass, fence to prevent the paws of a bear, monkey, tiger from dragging you and chewing on your

hands or head. Zoos are a waste of taxpayer money, a *gross theft from the poorest taxpayers living in cages smaller than animals get, a* genocide against humans (we need 900 times fewer zoos), why do we keep big cats in zoos? They're too dangerous. Kindly never allow kids to try to make faces and taunt animals in glass enclosures, since big gorillas, lions etc can get mad and break the glass if they really want by launching all their weight against the glass and smashing it and then kill the person taunting them. Not all zoos have glass thick enough and zoo keepers can leave sometimes a brick behind as seen in many videos where the animal uses the brick to try break the glass. You could die, since bamboos can kill people by biting their neck or hand arteries, especially kids, chimps routinely eat fellow chimps by cannibalism. Zoos are the most dangerous places, especially in Brazil and many nations where big cats are not sealed by wire and can easily climb the fence: this leopard could have killed 3 people if he only made one extra step at the zoo to climb the fence. Look at how low IQ the people are, to still be in that area, just 3 feet from the potential killer. Only 5 big cats ought to be left on Earth total, in one zoo that people can watch via youtube. The media portrays bears as kind, but they're evil. Traitors of EU want to protect bears who kill humans and create bloodshed daily. ☺☺☺☺☺☺☺

Decent people need to encourage everyone to overturn these laws, and pass new laws to GET RID OF MANY human eating SPECIES as fast as possible, in 2-3 years before the next election cycle, in the least painful ways. Everyone needs to understand it's perfectly natural☺☺☺ to have a world free of carnivores, snakes, alligators and tech will enable us to manifest that heavenly world of 0 bloodshed. It's not just rich princes, but even more regular Brazil (see bite marks on his legs and lack of self-care due to being slaves of these "pets"), or USA (the family are slaves of the tigers, wasting hours daily with the animals), guy getting 400 stitches from his big cat "pets", zoo keepers being injured, see 34 US zoo workers killed by cats. The lunatics say "my pet is an angel from heaven, an older soul, etc", but the pet is acting in its self-interest. If you give her food and care, she is nice to you. The proof animals are not special and zoos are destructive is that the "holy divine presence" of a zoo is unable to prevent people from acting in a *nurturing* healing *gentle tender soft loving kind* compassionate way, since this eterni quality is not in any zoo: a family went to the zoo and the zoo animals were unable to transform the family, on the contrary, the quantum information from the zoo animal world of pure violence has taken over the family for an afternoon leading to them assaulting a senior who didn't punch them and ended up in jail. This is the law of karma: family went to the zoo to pay money to support the theft of materials and land for animals from fellow people who are victims of violent crimes due to overcrowding via endless zoos, pet stores, pet parks, pet hospitals. They fed the demonic energy of tigers (cats) and wolves (dogs), of zoos, so they got a gift from demons: possession, for an afternoon, to go to jail. If they went to habitat.org to build a house, they would have helped fellow humans instead of punch them. The media never makes the link

between quantum transfer, when you stare at animals, you enter unto entanglement with the whole cat line, all tigers, all wolves killing innocent deer 24-7, you remove yourself from God, from the End of Bloodshed via Eterni food, you enter into pact with demons to continue the Bloodshed, the nonvegan pets, the Murder, the Genocide. Some people refuse to think, to embrace logic, pets are their religion. It's like the idiots believing in Eucharist: endless murderers got the host and then killed people, so how come the "God" in the wafer didn't prevent that? If animals are so holy, why did Hitler's dog not stop the murder of 80 million? Because dogs want humans dead to take over, as simple as that. They play friend until they can wipe us out. Under the Immortalist Party crafted laws passed by the US Congress, big cats in zoos would be reduced 5000 fold or to 1 cat and *owning a big cat pet for 10 years would imply a fee of 50 million at least*: 12' (3.7m) long, 4" (0.1m) claw, 3" teeth. Big cats (up to 860 lb) cause huge suffering daily by bloodshed, damaging the human quantum field, being a true insult to traditional Buddhist Chinese values of kind compassion and Taoist virtue that the Chinese government tries to protect worldwide. Trying to conserve big cats is an act of terrorism of folks mauled/killed by them. New laws defining terrorism as trying to feed/conserve wild tigers, other carnivores need be established. Another couple wasted their entire life raising a big cat, instead of having a child. Climate change requires us to stop cutting all forests to raise beef. If we wipe out carnivores, we let people eat organic meat of herbivores eaten daily by wolves, foxes, bears, tigers, etc. Snakes kill 100000 people and billions of animals, yet some feed mice to their pet snake, only to have the snake bite them (many youtubes of the actual bite). The brainwashing of USA is complete, watch how many victims of "pet industry brainwashing" waste their entire life collecting snakes and getting attacked, instead of helping us live to 300. Many die due to snake bites. Americans have become slaves of snakes (see bloody bite), reptiles, dogs and cats. Thousands of stores sell, store snakes, wasting the lives of endless people who almost have their eyes bitten. ☺☺☺

When we search youtube, we find 1000s of videos of cops and animal control cops, in groups of 2-7 cops, wasting eons to get some dog, alligator, etc into a cage, lake, or shelter, after the animal killed or severely mutilated a HUMAN. Congress decided in 1973, possibly spies trying to destroy America from within via hybrid warfare on the American people, when alligators almost vanished from Florida, to add them and other carnivores to the endangered species list and now we got 1.3 million of them terrorizing the state. Why? We ought to kill all alligators with drones, etc, since they destroy the planetary quantum field, by shedding animal and fish blood daily to feed, causing wars among humans due to quantum interference with the humans. We can treat them with caustic solution and what's left is a powder used as fertilizer, for what is caught and not sunk by underwater drones. Cities waste enormous resources to catch and release, quarantine animals, with special animal vehicles, etc. This is a national travesty. The laws of the USA, India, etc are unacceptable: monkeys, alligators, dogs kill or severely bite 1000s of people,

yet they're not instantly euthanized or shot, we have to waste millions of work hours of police to “kiss the anus of dogs” as if the law rewards dogs for killing or mutilating/terrorizing people. What happened with the Americans? Have they completely lost their minds? Instead of having science jobs to help *ALL NATIONS TO LIVE TO 800*, we have endless animal control jobs and police wasting time with dogs and dog calls, instead of real national dangers from wars and spies. When we buy a pack of cigarettes, we get a warning label with some scary pictures about lung damage and the basics of 6 million people killed yearly by the tobacco industry mass murdering CEOs, who're free to roam and killing more than Hitler types. When we buy food it lists how much sodium, fat, sugars it contains. But when we go buy alcohol or pets, we get no warning, so something needs to be done. Immortalists☺☺☺ gently propose a new federal law in all immortalist nations: alcohol, tobacco, weed *and deadly pets (reptiles, dogs, etc) can't be bought in grocery stores or private breeders anymore, animal shelters, nor in liquor stores, but in* very few special locations owned by the federal government *called “Genocidal Drinks”, “Genocidal Tobacco”, “Genocidal Weed” and “Genocidal Pets” stores* where everyone has to walk thru an educational area for 25-50 feet that have many panels, videos on gigantic screens, sounds on left and right, displaying the most horrific effects of smoking (lung damage, hoarse voice, red eyes, short lives, orphans) and alcohol: disfigured people, 3 million dead a year, a true holocaust, with endless people without limbs as a result of drunk drivers and endless orphans, millions of families destroyed by daily domestic violence never reported to police. Anyone caught selling alcohol, weed, drugs or tobacco, dogs or reptiles, in other areas or black market, is sentenced to lifetime labor in a healing place with gentle music and plenty of self-sufficiency. Folks will argue that Shih Tzu tiny dogs who always lick people are too adorable to be called genocidal, but the reality is if everyone had those, they may get so much barking and sleep quality destruction, leading to 1 billion lifespan years lost over 100 years, which is like killing 10 million children. We have to take the whole effects of dogs view, not just the TV glamour. Not only that, but millions of people die in wars or early due to pollution and degradation of cities, etc that happen because people don’t dedicate hours weekly to World Peace, but to dogs, cats, pets, so it is a HIDDEN *GENOCIDE*. Endless pet hospitals and stores take away resources to build human medical issues prevention centers that would prevent 100000 human deaths a month, so then we get *1 million* people killed indirectly yearly at least by dogs/*cats*. This is in addition to the million killed by barking sounds interrupting sleep. Dogs kill directly 35000 humans yearly, snakes 100000 globally each year, so the story of “love reptile pets” or snakes is false, all snakes need to be banned as pets. *Over 100 years, this is* genocide *of 3.5* million *people by dogs alone*. The number may have been higher before rabies vaccine was discovered. When did TV ever tell you that? To get more explicit, all pets are genocidal in today’s context, when genocides happen daily against humans and the risk of 10 second end of humans is huge. It's a choice: peace or *war*, people or *pets*, life or *death*. Why hate/bomb humans and love/adore dogs/pets? Do

Americans understand that they're supporting a species that kills 35000 people yearly?☺☺☺

Likewise, to buy a dog or dangerous pet, people will need to go thru an area of the *"Genocidal Pets" store* with pictures, sounds and the worst videos of dog and cat violence against people, so they know they will know they not only kill people *(900000 humans killed so far, 35000 each year globally today, a true Holocaust nobody mentions, plus equivalent of 2 million killed via lifespan years lost due to bad sleep from barking)* if dog misbehaves, but incur $1 million fine for every bite, 10 million for severe bites. It doesn't matter if the bite is because someone maybe made a little remark, startled or taunted a dog lightly or pet him as some kids or adults may do instinctively or etc, while wearing thick pants (or newly sold by the Eternal Clothing Inc (shoes for dog infested areas because *people's legs are more important than dog lives*) special boots with steel caps and steel exterior (discrete not visible) and even lower leg stronger than steel carbon fiber reinforced pants, jacket, etc to prevent any dog bite of feet and powerful self-defense in dog rich areas, that are safer when dogs are around in a neighborhood terrorized by dogs) that prevent severe bites and allow lethal self-defense leg kicks to defend HUMANS not dogs. Any human attacked by a dog escaping a fenced area or a car, has the right to lethally kick (or shoot) any dog with such a shoe, since the owner failed to keep dog on leash. *Our world has equipped cities with millions of devices, parks, shops, hospitals, etc to protect dogs* and none to protect poor PEOPLE. It's time to care of HUMANS, their sleep quality, longevity, *freedom from bites and lethal injuries.* Dogs get endless parks, but poor people live 10,000 on an acre, hearing the eternal barking of terrorist dogs, sleeping poorly. What an irony, so little compassion for humans, so much love for dogs. How can Eternal World Peace emerge then? Isn't it *time* for real democracy to begin? These special boots, pants, shirts, gloves will only be sold to people certified to be avid dog haters, who're terrorized by living in an area registered to have high dog count (2+ dogs/30 people). The Immortality *Nurturing* Agency and police will provide ample support to dog attack victims and the law will be 100% skewed against dog owners, not victims who kick dogs. Even the smallest bite as pictured by medical staff would trigger the 1 million $ fine, avoidable only if person convinces 5 relatives or friends to have their dogs euthanized to free national medical resources. All pet shop visitors will be reminded of losing 1-8 points off Immortality Credit Score with each purchase of 10-80 g of alcohol and 300 points for purchasing a big dangerous dog. The entrance to these "Genocidal Pets" shops will be so *horrific to watch*, with such scary sounds and scenes, that nobody would want to ever go back again and nobody almost will want to buy the dogs or alcohol inside. Worse than the worst horror movie ever made. Anyone has the right to shoot without any explanation any big cat that doesn't have a leash and/or approaches any human. Any big cat would cost 5 million a month at least to own, a special fee to the government. Only big cats under 150 lb would be allowed, and only if kept in enclosed areas where they can't escape easily (20 ft fence no big cat can climb), with 24-7

monitoring and RFID of location, alarm going to local police when it exited the backyard so a drone is automatically dispatched to kill the cat. Max 1 big cat/100 million people. Watch a big cat, weighing 250 lb being allowed to roam freely in Saudi Arabia and mauling kids. Tigers on a leash is pure insanity, no human can hold a leash if tiger wants to jump, same for huge dogs, weighing 150-250 lb, which have no place in public places. This ought to not surprise anyone, since in Saudi Arabia, instead of giving decent homes to Palestinian refugees bombed by Israel, the Jewish Saudi Royal Family encourages strip club style adoration of poles in poles dancing.☺

"*Brain* shrinking cat" (not called "*Genocidal* Pets" *store* as with dogs) stores need to depict all negatives and horrific attacks described in this chapter and other books. *Consumers deserve the right to know*☺☺☺ about all diseases and mental health issues *cats cause*. Dogs are carnivores (except for a few vegan ones) who cause the slaughter of billions of chicks, pigs, cows to feed their bloodthirsty nature. Anyone who is against war/bloodshed is against dogs and cats, because they're all carnivores for the most part. Any true immortalist supports eterni high tech food and is against any animal bloodshed. A video explains why all animal pets can be lethal. A youtuber asked her cat to give her kisses and the cat caused blood to come out of her eye, always be careful with cats, they're not that smart or kind: naive kids or teens believe *"cats understand them", but they don't, cats and dogs are incredibly low in IQ, just like big cats mauling their zoo feeders*. Another youtuber got her eyes attacked. Wear safety glasses if close to cats, they're not to be trusted, they're exactly like tigers eating 436 people. *Never pet or play with cats or medium/big dogs that are not yours*, as you don't know how they react, stay away from cats and dogs and work to end wars in 2 years instead. To save the human species, before it's too late, the 67% of American households free from small tigers (tigers eats woman, watch video) can kindly not get one and the 33% households who have cats can choose to not renew when the cat dies with new cat purchases, it's a Big Business. To earn a higher dimension in heaven, to fight off 'Satan', to save the *thousands of human babies mauled to death by dogs*, (youtube got 1000 such videos: video 1, video 2, video 3, video 4, video 5), please ☺☺*lovingly tenderly gently kindly*☺☺ postpone dog buying for until all violent crime has ceased thanks to the Eternal Reforms of the Immortalists. *13000* pet shops, *900* pet *food* factories, *23000* pet hospitals, *6000* dog parks *are taking land, resources, etc that prevent humans from living in decent conditions, in environments full of love for people, free from war, jails, violent crime*. This is detailed in the single family homes section. **We need to end all pet parks in the US,** end all city, state gov. **Give people homes first.** 50,000 kids are disfigured by terrorist dogs. ***What kind of parent would get a big dog?*** Why not be kind and wait at least until the kid is 15 or 18?

No pastor consecrates the wafers in the presence of cats or dogs (or snakes, parrots, reptiles, birds). Why doesn't God or Jesus share wafers and fruit juice in the presence of pets or human killing tiger sisters cats (one big cat killed 436 humans) or human eating (watch how they eat

while causing so much pain) wild dog brothers dogs, both blood spilling carnivores (unless vegan pets)? Isn't ~*~Eternal Universal Peace~*~ in 3 months via a billion fold lower violent crime far more important than having a pet? We have only so much time in a day, achieving World Peace is not that simple. Isn't being kind to humans, having 0 jails, stopping scapegoating poor people for aristocratic crimes more important than tigers, cats and dogs? Of course it is more important, and it is arguably a huge sin to have a pet in a world of immense torture and killing of people, because it teaches Americans and others to love pets but hate, destroy, torture, exterminate others thru their taxes supporting the wholesale genocides, known and unknown, by soldiers, spies. Pets are thus, if you want to be religious, "Demons' best tool to distract and tempt people to love pets and hate people, to ignore the suffering of people and continue the evil world order of eternal war on the human quantum field by torture loving militaries". "Pets first, World Peace last or never" is a motto of our societies. Many beat the hell out of people (or support the atrocities militaries do), shrink lifespan of people 25 years by torture or jails, and they love the cat (tiger) and dog (wolf) species, thus undermining the human species (if you're agnostic/atheist) or, if religious or spiritual, acting against the spiritual principles, God and the Immortals. HUMANS first, *0 violent crime, 0 torture first, then, once that is done in 20 years,* domesticated tigers and wolves are OK. It's the epitome of hypocrisy to call oneself "spiritual" or "religious", and support the treatment of humans worse than dogs. Billionaire spent more on dogs than on his co-national servants. Most dogs in USA live in safe concrete block or brick houses that don't become flat with a random storm or hurricane, tornado. However, 20 million Americans live in wood or mobile homes that are totally destroyed after some major tornado, hurricane, etc. Mobile or manufactured home residents are 20 times more likely to die during tornadoes, *so we value* dogs *more than* people. People don't even get the treatment dogs get. ***How can most dogs get better treatment than 80 million people?*** The same materials used in the shape of a dome would reduce house destruction by 95% at least. The low IQ of decentralization, the callousness of the current system know no limits. Nobody gives a dime about anybody else, everyone for themselves, slaves of the aristocratic bandits. ***Why are houses so low tech, decrepit and expensive?*** Due to decentralization, 20000 companies that feed the aristocratic class, instead of one company that mass produces way more high tech houses at 3 times lower price. Why do we have 4500 banks? So that everyone is looted in ever new ways and aristocrats have these useless jobs of CEO, manager, etc to prey on people. ***Having a dog,*** when every year, endless people die in storms due to the callousness of the system and the aristocratic terror ***is not spiritual or ethical, but simply a wasteful aristocratic like choice that ignores the human quantum field*** and betrays the human species while making humans slaves of dogs. It's the epitome of aristocratic disregard for human life. Hitler had a dog, many emperors and queens had dogs and yes☺☺☺, these same queens and royal families supported the blowing by gun of endless innocent people in their own country. So much for the "spiritual

effects of the dogs and cats”.☺☺☺ Today, they do the same, with new invisible guns, the bullet is the microwaves, the infrasound, ultrasound, UV, etc… When all wars ceased for 5 millennia, when all have decent housing, when all violent crime ceased and all jails are gone, 5000 years from the moment of the Immortalist Party winning elections, then, one can think about dogs, but now people die left and right in ways no dog dies, due to tornadoes and bombs. *Humanity first. Pets* second.☺☺☺ *We have created a godless* ultra *violent* “humans treated 1 billion times worse than dogs” *society* full of *dogs*, when we can create a divine 0 violent crime God full society of 0 dogs, Immortality *for* All, of Human Quantum Field Resonance of the entire Family of shimmering shapeshifting Immortals, *no* dogs, *since drones detect smell,* etc 90,000 trillion times *better*, 3’ tall rubber soft humanoid robots being 8 million times better than service dogs.

The next pages show *dozens of videos of tigers killing 100s of people each*. They're a wake up call to those who profess to love all HUMAN beings and be spiritual, to be pastors, clergy and spiritual healers. That’s how we ought to think about PRIORITIES (humans first) if we WANT TO BE CLOSE TO GOD or defend the human species against its 10 second end. Human killing dogs and tigers can reincarnate as vegan animals or even humans, no worries, we don’t need help them reach 5 trillion population. Due to the impending risk of total annihilation of all humans alive, buying pets can wait, getting pets can be postponed 20 years, but Peace never can, decent music never can (not dog barking like music). Love yourself and fellow humans, breathe happily and you will be happy, no need of pets. End the suffering of humans eaten and bitten by dogs (wild dogs sometimes eat HUMAN KIDS), sleep deprived by dogs, end all human suffering. Love your neighbor more than the dog slowly killing neighbors thru sleep deprivation. Sing of Eternal World Peace in 3 months daily, and be thus happier than ever. Crimes emerge from a lack of love, nobody teaches them happiness thru happy breathing, (only torture based religion), nobody loves them, people love cats and dogs instead. World Peace requires us to love PEOPLE first. Why BOMB people and love pets? Take care of people, achieve 0 violent crime, 0 wars, then get 100 cats if you want. Tigers, craving human flesh and other mammals, may communicate secretly with house cats to manipulate humans to protect big cats from extinction and use big cats in circuses (*need $90* million *fee a year on all* animal *circuses using elephants, big cats, etc to improve* HUMAN healthcare), instead of building meditation centers (happy folks don’t need pets, don't commit crimes) and free biomarker centers for humans. Animal circuses waste taxpayer $ paid by the subjugated poor, with training and stealing humans from doing healthcare or longevity innovation, to do 0 IQ acrobatics, abuse of animals, keeping everyone a filif own IQ☺☺☺ 0 empathy person, which increases violent crime.

We can't easily decrease violent crime a billion fold as is needed for ☺☺☺~*~Eternal Universal Peace~*~ in 3 months, with this brutal lack of empathy of circuses and promotion of blood spilling nonvegan pets. The state needs *$90 million* compensation (annual fee) for that use of

public facilities to drain the nation into a hell hole via animal or animal free circuses, *strip clubs $900* million *a year fee at least until they're banned like in* Iceland, the only European nation to do so (give them 5 months to learn some new skill in the 11 companies, the only employers of the land). Let that become the global law in 2 years by international treaties. We also need sanctions on all nations who don't agree to stop torture of sentient animals (bull rodeos, lion circuses, pig wrestling, horse riding contests that injure animals, people, like *some* Australian 'savages' (the culture of chimp sex, violent 'food', violent 'sports', violent pets, violent 'music', makeup and violence deified (no real laws against it, just programming to expect it daily, like USA), macho bravado that defines Aussie main website for news, and other nations' similar sites) enjoy, together with other *"human looking chimps"* worldwide) or torture of women used as enslaved sentient animals or sex objects. Circuses are a *genocide* of humanity, as well as endless useless animal focused hobbies, because they take people away from the urgent task of preventing the end of all humans within 2 years, in a mere 10 second event due to a tech, people could discover 2 years from the moment you read this. All music that is not talking about World Peace in 3 months is genocide, since we're reaching the moment of species end, current tech and some physics knowledge is all that's needed. One simple invention and we could all be dead in 10 seconds. We need World Peace, not torturing animals. *How can people be so selfish to waste an entire life with circuses, supporting them, when fellow humans are* killed and tortured daily? No uplifting elevating music, spiritual, etc is recorded with cat and dog sounds. As you see today in USA and many nations, millions love pets way more than people they bomb into the stone age to get oil for their gigantic SUV or pickup trucks; 100 million Americans then become more of a callous brute (for a while, until a book like this jolts them out of their comfort zone) who won't even buy a 54% of the average gas car price car 48K, a 26K Bolt electric vehicle (7K tax credit too, so 19K, meaning 40% of the price) to care about PEOPLE (we are all one quantum field, ☺filif ostrich IQ folks☺ *think that damaging Iraqis has no effect on Americans, even* if it completely destroys the quantum field of Americans too, but the aristocrats don't care, only $, one life, be merry now, even if USA disappears tonight and human race too) who're literally killed by oil wars or car smog: the enemy laughs, as people worship cats and dogs and kill via smog millions of their fellow Americans. Oil money will then be used to stage terror attacks globally. Will your cat and dog protect you against these mind control gadgets in trillions of products? Who will defend your nation or the human species from a 10 second end of humanity? The cats and puppies?☺☺☺ If anything, cats are like tigers, small ones, who, even if domestic, kill and spill blood and disturb the human quantum field by their killings. Dogs eat meat and that implies more bloodshed in the factory farms. It's anti-eterni to have non-vegan pets. Everything in the media is ads about dogs and cats. It's not by accident, pets act as a distraction from our abject slavery. The world morality collapses, as dogs and cats are way more important than World Peace in 3 months and actual PEOPLE. As people get pets they have fewer

kids. This then invites more immigration because aristocrats need 'slave workers', open borders and sometimes even crime. The sweet 'love of pets' can be deceptively used thus to literally wipe a country out off the Earth, to strengthen the tight chains around world's slaves who're too brain dead to meditate, being harassed by their own dog barks daily without even realizing.

dogsbite.org says 35 Americans were killed each year on average between 2005-2019, with a PDF showing: 66.4% killed by PITBULL, 9.8% Rottweiler, 4.2% German Shepherd, 3.5% Mastiff & Bullmastiff, 3.1% American Bulldog, 2.7% Husky, 1.9% Labrador, 1.5% Boxer, 1.3% Doberman, 0.4% Malamute, 5.2% mixed breed (about 34 mixes). So, if you get a dog, avoid the top 10 at all costs, they're big and more expensive to feed and maintain, insure, etc. Get a lovely, ever licking never biting 8 lb tiny Shih Tzu if you absolutely need a dog, they were bred to be a royal companion dog, so they're affectionate. Big dogs are a bad choice, they're expensive, they can cost you now, before the 90 million/year immortalist fee, $75,000 over the years and waste eons of your time, harass neighbors with barking, invite lawsuits from neighbors, bring endless nightmares. Never pet or move fast near a big dog as they can get angry and bite you, only pet if owner gives OK and dog is cat size. Be calm and avoid eye contact, let it sniff you if an unleashed (escaped from a car, etc) dog happens to be nearby, don't startle them, don't run. Pitbulls are "satan's best friends, straight out of a pit of hell", so avoid them like death itself.☺☺☺ They also bite the most, not just kill the most, they bite unprovoked the strangers the most too. Mixed breeds bite almost as much as pitbulls, but this category is a mix of many breeds. ☺☺☺German Shepherds were the 2nd most frequent biting individual breed (about 17% of all bites), so avoid them at all costs. Please absolutely avoid all 10 above, death is not worth it. The 2 most intelligent dogs are border collies and poodles (which can be only 4 lb, saving money for food and being 0 risk of knocking, scaring small kids), *none of the serial killer dogs above*. If you want to lower your IQ and kill people, get one of the 10. Pitbulls, bulldogs, mastiffs, huskies, boxers, etc don't even make it to the top 20 smartest dog breeds. Intelligence is contagious across species, so your newly ☺abysmal IQ☺ will become more evident to peers, people whom you date, bosses, etc You become as violent, psychotic and intelligent as your dogs are; if you have 3 kids, you become far smarter, kinder than if you have 3 dogs, so you choose.☺☺☺ Golden Retrievers are far smarter than Labrador Retrievers. Even pretty short and "small" English bulldogs can become very bossy and aggressive, injure toddlers, by knocking them down, scaring them, terrorizing them. Avoid all bulldogs, they're incredibly low in IQ.☺ Statista has a chart for 2005-2017, confirming the same % for deaths. 26% of fatal attacks were infants, would you like your baby infant to be killed by your dog? *The CDC* explains *that* "The annual number of deaths ranged from 31 (2016) to 81 (2021). From 2018 to 2021, deaths more than doubled for both males (from 15 to 37) and females (from 20 to 44)." The chart shows at CDC that from 2013 to 2021, female deaths tripled almost. What did USA do to stop it? A 2024 USA today chart shows

the dog fatalities rose from 31 in 2016 to 98 in 2022. Thank Democrats for it. ☺☺☺☺☺☺☺

The dead victims are mostly kids (owner's usually) in many years: 0-2 years 26% per 1 lawyer, 1-4 years 29% per Forbes, 0-16 57% per Forbes, 16.1-130 years 43%, mostly seniors and 16-18 kids for the 43%. Data shows the 0-5 years may be 40-45% of deaths, though numbers may vary a lot by year. Bad big dogs are coward 'abysmal IQ' killers, they kill helpless tiny people, or old seniors too weak to fight back or escape. "Of the 13 children killed by dogs in 2019, 77% (10) were ages 0-2 years old". In 2005-2017, 48% total human deaths were ≤ 9 years old. The shorter, thinner and weaker the kid, the more certain the death as they can't escape. That's why, a loving parent can't get any pet heavier than 5 lb, so no cats, no rabbits, no chicks (since they grow to be tall and 15 lb), no guinea pigs, no dogs, except tiny 4-5 lb poodles, etc, so they don't knock down by accident any baby and injure him by a rooster or hen attack. A fall hitting head of some concrete could cause lifelong loss of 50 IQ points. A baby is a potential trillion year old Immortal and is not to be injured by beasts. A baby is worth more than all dogs on this planet, than all pets on Earth, so a truly kind parent who respects the soul of the kid, who doesn't injure the kid, who is not a military psychopath injuring people and kids to "make them tough and insensitive like the military", won't get such a pet. The gentle parent knows statistics, that anything can happen, that a human deserves no conscious or preventable injury and kindness is his religion, not Christian and Jewish psychopathy that calls for entire cities to be burned with all pets and people in them, with all animals killed, *and entire nations exterminated*. "The majority of (facial) dog bites occurred in children 5 years of age or younger (68.0%). Almost all (89.8%) of the dogs were known to the children". Why would anyone with toddlers have a dog of any size then? To disfigure their child? An honest parent who knows math of 4th grade, knows than any dog will increase the risk of injury and of permanent damage or even death. Thus, the honest parent, with a still functional brain, who values his child more than all pets on Earth combined, as "ordained by God (no dog idols)", can't ethically get a dog, or even a cat, until the child is at least 18. Cats are too big. Let the child decide if he needs a cat or dog, when an adult, don't shove it on his soul. Same for religion beliefs in fake miracles and stuff, basic ethics of kindness is enough. Chicks can grow big and knock a baby off the ground if a mean rooster irritated by a playful kid, or use his beak to attack the baby's eyes. You don't want a baby to hit his head of a concrete piece and crack his skull, be careful with big hens and roosters that can startle babies and make them fall. Never leave babies alone near any pet heavier than 4 lb. Chicks are fine only until they're 4 lb, after that, they need a cage or donation to a farm. Safety first. ☺☺☺☺☺☺☺

Let all immortalists unite as one, create the new pet of 4 lb max for babies, or use little mice, for all who want a dear pet. Let all immortalists unite, create a drone in 3 years that sniffs 5 trillion times better than the best dog today, and deliver that tech to cops of the United Eternia of Immortalist Anthem. We have endless lawsuits and court proceedings about "designating a

biting dog as vicious or not" and 50 state laws about this and that that allow us to decrease number of physicists and chemists able to create such smell drones by 100 fold. This terrorism of Americans by the lawyer industrial complex, by the useless duplicate redundant state and town officials industrial complex (creation of decentralization) establishing 20000 rules about dogs, cats, reptiles make a mockery of the United States and keep us backward, low IQ and cruel. We legislate and spend months to decide if we need to have 20 million people dead in the next 8 centuries due to dogs, or maybe only 2 million. So, let's waste eons debating 2 vs 20 million. Last 100 years, dogs killed 3 million humans. One single law, efficient and mighty, for one nation, makes sure that number will be 0 killed by dogs. A human is more valuable than all dogs, a human's decent nightly sleep is more valuable than 50000 neighborhood dogs, and let that be clear to all people, that humans are above dogs. Meditation or simple breathing can make all 10-900000 times happier than any dog interaction. You know, our laws protect dogs and infantile brain adults who need "dogs/cats to be happy". The victims of 5 million dog bites, of incessant dog barking by all sizes of dogs, etc don't matter. The hedonistic selfishness of wanting to rub the anus of his bulldog with tissue to wipe it clean and his pleasure of having a dog in his bed, is far more important than the altruistic love of not annoying one in 70 Americans bitten by dogs and one in 3 harassed by dog barking. We have become the land of selfish ☺abysmal IQ☺. Ethics doesn't exist and *virtue is a thing for science fiction movies*. Why can't the government ban dangerous or ever barking dog breeds, instead of telling us we have to do 900 things to prevent dogs from biting or killing, sleep depriving us? Why not ban bad cell phone brands instead of telling us to be careful to not get cancer? Why not ban WiFi in school like in France/Israel, instead of pushing 2.4 GHz everywhere to destroy every organ of all kids/adults using WiFi even if not needed? All we get is 20000 cities, giving us 20000 rules, sometimes each city with 500 rules per 500 condo complexes or house HOAs, so a total of 2 million rule/law sets about how to be terrorized by dogs, instead of one federal law to end all dog terror of humans, have more science jobs, instead of "dog rule making admin staff, defending lawyers". With science you can make gadgets to help people meditate, relax, achieve brain health faster, without dogs, for 10$, not 75000$ a dog over 11 years, with *more health coming out of it, 900 times more per $ spent.*

Kindly gently have kids, not dogs, meditate to be happy.☺☺☺ Infants don't know how to stop provoking a dog, can interpret an angry bark as a call to play, kids squeal and startle dogs, their cries or stumbling on dogs can cause lethal attacks, that alone is a reason to NEVER HAVE a big dog, most attacks are by family dogs whom victims "love and play with". If you love "evil beings", welcoming them into your family as another "family member" as they call dogs, you get killed. Lesson learned.☺☺☺ Unneutered male dogs were 2.6 times more likely to bite people than neutered dogs. Dog bites are the 7th reason kids ages 5-9 visit the emergency room. Because of these numbers, immortalists would ban federally these breeds known to kill people,

to bite people often, to knock babies down and injure them, to bark and harass neighbors. All such existing *MONSTER* pets would be euthanized immediately. 1 human is more valuable than 80000000000000 trillion dogs. *Democracy means the basic human right to LIFE, without life all other rights have no meaning.* The right to have a pitbull doesn't exist, since pitbulls kill kids, seniors unprovoked☺☺. As all people get a nice house with walnut trees, useful vegetation, the need for forests disappears and then no more wild animals will exist, so zero fatalities. ☺☺☺

Kindly avoid the 10 lethal *dogs,* unless you're a cop trying to avoid shooting gangsters (who're serial killers) by using mild dog attacks instead, *but even such use of dogs will be banned after the new legal system revamp with* lifetime labor for slightest slap, spank and violent crime, and the obvious reality that nobody would fight cops as a result, since slightest punch or shoving of a cop ends one's life as he knows it (lifetime labor penalty, plus cops can use lethal force if attacked, to prevent dog use, with this being explained on TV to all so they know before thinking to punch a cop). We need to ban these dog breeds from the entire world, and use new noninjuring policing methods, end all jails. The chance is 1 in 120,000 for an American to die of a dog bite within his 80 year lifespan. See mastiff video whose bite force is 3 times that of pitbulls. We need to make all dogs vegan immediately (all animals too), to protect the human quantum field, watch how savage wild dogs are and how they cause their prey to die extremely slowly vs other predators and pollute the human quantum field more than lions who kill the same prey fast (though these dogs kill small animals too faster). It's this cruelty that causes many to support immortality capitalism, since this makes all food production centralized, efficient and discovery fast, so we can bring eterni food to liberate all species from suffering and end all bloodshed, war forever, in the human and animal kingdoms. Due to quantum entanglement with domesticated dogs, the wild dog effect on humans is strong. An Eternity of Peace can reign on Earth, so all sentient beings live without fear of being killed, tortured, at least mammals initially due to huge tech obstacles in veganizing every species instantly. WHO reports *"Dogs are the main source of human rabies deaths,* contributing up to 99% of all rabies transmissions to humans... Infection causes *tens* of *thousands* of *deaths* every year (*unacceptable for a world of Immortals*). Once clinical symptoms appear, rabies is virtually 100% fatal... Every year, more than 29 million people worldwide receive a post-bite vaccination. This is estimated to *prevent* hundreds *of thousands* of rabies *deaths* annually." 44% of households got a dog, so for these people, the chance of dying from a dog attack is much higher, possibly 1 in 52800. This is an ☺☺☺unacceptable risk for a Civilization of Immortals where everyone has the right to live to 400-80,000. 95% of dog fatalities are due to 10 breeds which need to be banned. Getting a small dog (those almost never bite or if they ever do, it will be a small issue), the most docile and peaceful breeds or a cat seems like a better idea, given that there are 4.5 million dog bites a year in the US, more than 0.8 million Americans receive medical attention for dog bites; at least half of

them are children. Why don't they just euthanize dogs that bite to lower the frequency of bites and hospitalizations? Just give people a meditation class and retreat of 10 hours a weekend for free for 3 years, so they deaddict from these 0 IQ 'evil' dogs. Biting dogs are a national curse, dogs killed 20 million humans so far: when was the last time a pet store told you that? ☺☺☺☺☺

Kindly give vegan food to pets, cats need taurine and arginine, though the amino acids are added to all vegan cat food. Free roaming cats can kill 180 animals a year, and owners don't know it as cats don't bring back the hunts. Thus, Australia proposed to enclose cats, as they live 10 years longer due to no disease catching, no risk from cars, dogs, etc and help the human quantum field evolve. Please don't allow kids to kill cats, animals in contests like in New Zealand, adults need to do that with high tech painless stuff, not shooting, as this makes kids more likely to devolve into brutes later as adults, once again, we need to educate all kids to love all beings and inflict minimal pain on all living beings. "pitbul-type dogs and Rottweilers were involved in more than half of these (1979-1998 human) deaths" ► JAVMA 2000;217(6):836-40. 28079 people *went thru plastic surgery as a result of dog bites in 2015* alone ► dogsbite.org...t.pdf. "In 2008, about 316200 Emergency Department visits involved a dog bite. Approximately 9,500 hospital stays involved a dog bite.☺☺☺ The average cost of a dog bite-related hospital stay was $18,200, approximately 50% higher than the average injury-related hospital stay." With advanced tech, *anything police dogs smell,* trace will be done 1,000 times better via portable devices, walking robots and drones. Probably in the future, as they bred dogs for dog fights in 1800s, they will breed the most *gentle tender soft* 4 lb dogs that never bark, never bite, to facilitate the spread of universal *gentle tender soft* compassionate loving kind merciful soothing healing grace. They made blue tomatoes, etc. Britain banned dog fights in the 1800s, we can see how society has moved towards gentler softer more tender expressions in that area. We get drivers license for a car, maybe give a dog license test to ensure people train their dogs properly, so they don't bite. With hands on healing being more common, with physical exercise being done to help others, with tone of speech radiating more compassion, *gentle tender softness*, kindness with more meditation to envelop all in compassion, forgiveness, peace, understanding, there is less of a need for a companion dog that is big and is more likely to bite, and jump on kids and harm them unintentionally during play. ESP, Telepathy, turning enemy into friend, sadness into joy, compassion etc develop better with more meditation, contemplative prayer, so then there is even more of a need of a peaceful dog who doesn't bark.

Many people need affection, and in a Civilization of Immortals people can practice hands-on-healing or 6 inches away healing on human beings, it can be even far more fulfilling than doing it with dogs, because it increased the lifespan of people, sometimes completely changed a life and prevented someone from doing bad things if those people were from a healing center within a hospital, school or even prison. The continuous development of infinite compassion, for human

beings, is essential for the increase of human lifespan. When we're aware of the human suffering, the countless people in prisons, hospitals, homeless places, with 16 million empty housing units and only 0.6 million homeless, we become more willing to consider the gentlest least biting least barking smaller dog breeds, or tiny dogs and cats. Even with ample love and such, some breeds are more jumpy, loud and biting than others. It's known that animals respond to peaceful gentle music and hands-on healing filled with universal loving forgiving compassionate healing *nurturing* grace, so with bigger dogs, it's even more important to fill them with these energies and qualities by living example.☺☺☺ Just like we focus on gentle peaceful music and gentle people to promote peace, it makes perfect sense to promote the gentlest dogs/pets too. Guinea pigs are about 10 inch long and 4 inch tall and they're not barking, not disturbing neighbors; they need no vaccination, but they do bite and most pets are ultra dangerous. We go in many countries and we see how people have dogs chained to or placed in a cage outside the house, or let loose in the yard in USA, and are used to act as some kind of alarm to prevent thieves, etc – but today there is no need for that, since one can get a motion sensing camera that makes a sound and turns light on to record (if dark) when someone approaches within 10 feet, instead of a dog barking 4 minutes each time something moves within 200 feet. This would be a lot quieter for the neighborhood than a dog sitting outside that barks at random hours from 9 am to 2 am; outside dogs bark out of instinct/reflex due to perceiving a potential danger, *moving its brain into that brainwave and causing the neighbors relaxing states to dissipate, and the more angry negative emotions of fight and flight* to emerge, mostly due to the sound, and also due to the quantum entanglement between human brains and dog brains, especially for dogs that are outside only part of the day and then they go inside to interact with the owner and contaminate owner with stress hormone releasing brainwaves and causing not only owner moving away from tranquility, but also the neighbors who're woken up from sleep or disturbed from their meditation, concentration, homework. So, while owners may get some stress relief from petting a dog, there are negative effects in the case of barking dogs shortening of the lifespan of the human neighbors around whose distress caused by the barking contaminates all around (they're too polite to complain to get $90000 in monthly compensation as they would in a civil world, for all the annoyance dogs cause for neighbors trying to go to bed early, meditate with window open), including the owner, on top of the subtle shift caused by dog barking which is bad, unlike the meditative instrumental music. ☺☺☺☺☺☺

After all, do you sleep/relax/meditate well with dog barking or with this meditation music? Which one is truly relaxing?☺☺☺ Out of 1 billion meditation clips on youtube, none use dog barking; nor does the spiritual ceremony, service in any religion, like prayer songs. Dog barking also entrains owner brainwaves with those of the dog who is barking quite often when not very happy; dogs often bark to threaten, scare in a sound that's 100% anti-eterni in tone, the very

antithesis of *universal* loving kindness☺☺☺; the more we listen to that "dog as alarm" barking emotion expressed, when it's that type of barking, the more aggressive and threatening people around become without even noticing it, the more anti-peace we become as passive listeners even if we don't have a dog and we hear the nearby barking for hours as window is open at night – so the society has to bear those costs coming from war, from negative emotion dogs program, dogs don't know how to express in a loving refined way their fear or disagreement, like humans do, when the humans use eterni tone of speech. We need silent security cameras, not dogs in the yard barking 9 pm to 4 am to destroy the eterni vibe of a town. Laws need to be set, at federal level, to ban outside dogs used as 'alarm' since we want to create eterni vibration in our world, not the opposite: dog barking (especially the security 'alarm replacement' dog type that barks all day and pisses all neighbors around) lowers people's IQ (we entangle a lot with dogs when we hear their barking, and *start emoting and thinking ever so slightly more like dogs, hyenas and related species*), ruins people's eterni tone essential for really long lifespans and *terrorizes or annoys* possibly up to a billion people who want a *quiet* neighborhood.

A government that cares creates Immortality Building Inc, as explained in 11 companies section, so that people can report when a dog harasses a building or neighborhood, so barking stops within 5 minutes. The complaint goes to the Washington DC and state office of INA, Immortality *Nurturing* Agency, enabling the National Cop Department (that replaces all 18500 departments) to make sure people are above dogs and euthanize within 1 hour any dog that the owner can't bring to silence due to violating the muffling device rule after 9 pm. When owners know their dog will be killed if no silence, as long as evidence is brought by neighbor via recording of video, everyone will keep their dog quiet. Too many terrorist dog owners exist in USA, guilty of semi-murder via barking that kills people slowly. Sadly, today's law doesn't care about people's sleep and deifies dogs, shortens thus the lifespan of the people - where is 'We the People'? Do we need *dogs.gov* for a fast reporting system of dogs harassing people and disturbing their sleep 9 pm to 8 am, so a system of bringing loud dogs (that bark for hours daily) inside or minimizing barking can be implemented to make people feel the government cares? If you ask everyone in a very private global survey of thousands of cities, villages and towns globally, 1 in 8 people (or more in some areas) may admit they have been annoyed by dog barking once in their many residences they lived in, though the problem may diminish as people learn how to train dogs better; it's politically incorrect to say so in normal conversation, sometimes, if they think some important public or neighborhood figure likes dogs, so a very anonymous private survey is key, to remove fear of retaliation from dog owners. Governments need to protect *all* citizens, not just dog owners. All dog owners need be given security cameras to use 24-7, with only 5 hours, noon to 5 pm allowed for outside barking (dog walk noon to 5 pm allowed only to avoid the risk of attacking kids if owner lost control of leash). We need to address the causes of 'bad area' not

patch it, treat symptoms with dogs. Breeds that bite and bark need to be banned, and only allowed for use by cops or military; this reduces health care costs from dog bites, so we use medical staff for longevity not dog wounds. Over time, we can ban more breeds until only the quietest and least biting breeds, top 1%, are allowed as pets, to reduce dog bites by 90,000 fold, while also requiring dog license for learning how to train a dog to not bark or bite, just as we have drivers license training. The government can give free 24-7 motion sensing security cameras saying "here's police" using fines collected from owners who get loudest dogs (sensors can detect that on every street) and fines of people who have loud music parties after 8 pm.

We need a national (one federal system, no cities or states can change it, no 20000 cities creating 20000 different systems to waste national resources) dogs.gov and pets.gov to report issues with dogs and get a dog/pet license, due to the extreme danger dogs pose to society. Dog owners have become a real threat to humanity, because many of them routinely yell and contaminate the human quantum field, like politicians do at rallies, leading to a generalized violent vibe. People yell at dogs a lot, so they will get a microphone to speak in a very gentle tone to call their dog, that is linked to a LiFi (not WiFi ideally, though, you could turn it off 'airplane mode' via a button, so microwaves only happen for 4 seconds when you collect to the collar, then turn it off to prevent damage to your body from 2.4 GHz) device attached to the dog, so when they go out and dog runs away, they don't need to yell and disturb the peaceful heavenly atmosphere. The truth is dogs are super dangerous and Amazon workers can leave a gate unlocked, the dogs can get out and maul to death a kid who ran in front the house while playing in a way the dog took it as an attack on his space. So, we need owners to be able to call dogs from 100 feet when they play without leash in the garden, since one escape when owner is distracted, could mean a kid is killed. We can't allow that, since owners make mistakes. In dog parks, their private garden, they allow dog to roam leash free, which poses real risks, especially in dog parks. A new law needs to make sure no dog can escape from dog parks by better fencing and no small kids ought to go there, to prevent any death. The dog calling voice transmission and collar amplifier device needs only be worn outside, if leash is very long and some city background may tempt people to yell a lot. People imitate emotional tone around them, so the more we hear dog owners yelling and people yelling on TV, with fines of $50 million never given to politicians/musicians who yell in the presence of 100 million TV viewers, the more we morph into a very violent society of hooliganism (we already are that, USA in 2020s). Our music is very much like dog barking, not like a soothing civilized eterni tune, due to this systemic aggression pervading every human society. Our society is highly violent and psychopathic, everyone has become desensitized and yells like a mental institution escapee at dogs, "Dog name, come here", which normalizes this Hitler tone in interactions with family and people. We need to create incentives to speak in kinder gentler way, and the reviews.gov system allows neighbors to

reports yelling that happens when owners shout at dogs/humans, so cops can install recording devices, see the extent of abuse, fines, require enrollment of people in free courses on speech after getting microphones. The AI will establish the fine based on how loud, mean, aggressive, unhappy the sounds are, from humans yelling, dogs barking in the yard, how often. If this yelling abuse continues, the parents need to be notified that fines go up with each course taken and can result in kids being taken away for adoption by a kinder parent. We can't raise psychopaths.

Dog owners are happily given a free security camera to guard their house, if this is a guard dog mainly, whom owners don't love much, don't sleep with, just use for terrorize the neighbors. The cameras will be sending signal to alarm in the house to replace dog barking, and everyone feels people love their neighbors more than dogs left outside or in the complex to bark 7 hours a day. Immortality Nurturing Agency sends automatically, knowing the intelligence agency profile of the person what he likes the most, the most amazing & beautiful ☺☺☺ colorful email and video, in the most eterni tone that the person loves the most (using colors they love the most for email fonts, video colors, etc, see AI section for customized voice used to interact) with stories of people whose lives have been transformed by kindness of dog owners who gave their security dog away in exchange for a free security camera system freely installed by the government with money from loud music and bad music ($10 million fines for certain celebrities who create music that destroys society) fines. By donating the dog to a shelter or moving it inside, they got many new friends and improved their health and IQ. Human friends are a lot more valuable than dog friends anyway. Knowing what each dog owner loves the most, the INA can send via email real life stories about how people lost that object, job, hobby, person 'which the dog owner loves the most' due to someone being so tired due to bad sleep (and making a mistake) due to barking at night by dogs or during the day for day sleepers. These stories can end with one final one, designed to develop people's IQ and intelligent empathy for humans☺☺☺, explaining how for example, in some future, a little 2 lb dog caused a power plant to explode and kill 10 million people, in a city of 30 million, since the guy who went to the fusion plant to work was very tired due to dog barking and made a mistake at work that led to explosion of the fusion power plant. Gov can give dog owners a dog mini 'house' that uses perhaps brainwaves to induce sleep 10 pm to 8 am or even during daytime, so dogs sleep when owner is away. It's not a good idea to talk to the dog owner to ask for resolution, due to risk of lethal retaliation from mentally unstable folks, the best thing is for a report to be made anonymously so that cops can drive by 5 houses away, unseen, let some dragon fly size drone be installed and detect where the noise comes from and record the noise for a few days to determine the criminality, rudeness and violence of the dog owner. Then, after recordings, the police can go to the dog owner and tell them they got 2 choices: fine them $1,000,000 to keep the dog, or fine them $900 to give the dog and dog license away for life. The current fines of 500$ for noise in many nations are a joke and comical

☺, given how much a dog can terrorize a neighborhood for 9 years, 5 hours daily almost. The one reporting it to dogs.gov can also get a device and record the sounds, or ask police to record sounds for weeks, in order to fine the owner a LOT more. The dog barking reporting person anonymously gets half the fine, or 500,000$ to increase incentives for quiet neighborhoods. We thus create a decent society, where everyone, not just thugs, are respected. We can't allow macho hooligans to terrorize the city. These things need to be explained to people in civic education classes, and in the dog license classes and tests, so we finally arrive at decency. Bad sleep via dog barking = irritated angry people prone to violent crime. Dog owners fuel violent crime. The dog owners will be given a free course on meditation and how to be very happy, with free visits to a relaxing rejuvenation center where no distractions exist and they can learn how to be happy, smile and generate bliss at will. Tiredness at work (due to barking dog at night) leads to mistakes and car accidents, irritation, conflict, tension in family that leads to wars when compounded, indirectly, so to be kind to people via not barking at them daily with a dog is to save the world more than even going to church twice a day. Be kind, give barking dogs away. ☺

This is not about dogs only, but thousands of other things that disturb public serenity, order and bring conflict, waste huge amounts of time for local police now, due to a decentralized system that wastes 500 times more time to deal with an issue, not allowing USA to evolve to higher tech, kinder tone and angelic police methods, the end of all prisons and their replacement with education, healing centers, etc. With high tech, they can replace dogs for all sniff and etc, as drones become 900000 times more effective and people discover meditation and loving other humans will be 100 times more fulfilling than having a dog who barks, bites and can often send people to the hospital. Bad dogs are due to bad dog training too, but why do people need dogs, if they can have human friends and take people of so many people who need help, to build an extra room, refurbish their house, replace that old appliance or water heater or whatever? Love people, stop wars first, the most basic form of love for all humanity, create that nice music, so different than dog barking, that brings World Peace. End all prisons too, love people, not dogs, God is more in people, than dogs. Look how much hate for other people exists in the world (prisons, wars), and how much love for dogs that harass so many neighbors, isn't that a contradiction of spirituality and all | | Immortality *for* All | | ethics? We don't imprison or attack with rockets, etc dogs, but we do that to people, how is that Godly? We see families with many pets where kids and/or spouse get little care, love versus the pets. In a world of Immortalists we love people so much more than dogs that no war and prisons exist and when a neighbor says they're not able to get nice sleep because of their barking dog, the dog owner would immediately, without a report to dogs.gov, bring it inside and spend 50$ on a security camera if they keep dogs to prevent thieves. Until that world, we need dogs.gov and noise.gov for all noise complaints. When we interact with people, help them etc we develop our intelligence a lot

more and a lot faster, we can even discover how to cure many diseases and eradicate many of them, like we did already and live to 700; but a dog won't tell us how to cure diseases and live to 1 billion. ☺☺☺ Talking about symbolic fines for bad music, it sounds extreme, but today, due to centralization of information via internet, one doesn't need to be rich to have spare time and money to travel to all nations to see how alike we're in our inner emotional and spiritual ethics and life, every human can access a trillion times more info at least than in 1991, and can see the tone of body language and hear the tone of speech, music and culture in every country and realize how alike we (the average TV-radio tone, not all tones, since some people have very nice tone) are in our 'shallow spirituality', 'lack of awareness of how strong of a gentleness tender grace it takes to cancel historical inertia and bring peace, longevity', 'spiritual weakness' or 'complete spiritual bankruptcy' depending on your take, i.e. in the lack of gentle tender soft healing grace in the way to intone and modulate content of speech (not just radio-TV, but even in more spiritual settings sometimes); this is because it takes 50 times the level of rest, brain alertness, cognition performance, etc to produce such a tone and people prefer quality over quality of media emotion-intent; the Internet allows the average citizen to realize the enemy is not in 'one country or group of countries' as politicians have us believe, but within all nations, it's in our lack of eterni tone of thinking, emoting, acting, speaking, singing.☺☺☺

The good news is that unlike before 2004, we got youtube, where we can select for the most uplifting 20 voices of 20 trillion youtubes, to evolve our tone, the top 100 recordings that got what one doesn't have, which we can't do on old style Neolithic media of TV-radio, so we can evolve now 1 million times faster if we choose the right tones, youtube can save the planet before we disappear, etc. Since we talk about God and dog a lot, we could say that we would achieve long lifespans faster if we educate people to love the worst human more than the best most adorable pet; this seems the beginning of civilization and the end of violence and war, i.e. to place silence for neighbors above 'the love of a dog so weak that he's outside all the time to bark', to love human neighbors (who want a quiet sleep) more than one loves their 'dog who is left alone all the time outside to bark', which is a sign of weak love. We need to educate all to treat people better than dogs, show some respect and value silence, so people get good sleep and have a nicer tone that brings peace, since good tone requires excellent sleep quality. Isn't God supposed to be Infinite Love for his special kids, humans? A good way to educate people to be more loving may be to remove violence from 'scriptures' (where 'God' tells people to treat other humans far worse than we treat dogs today; even old or cruel dogs are euthanized, painlessly by cops etc, while the 'Word of God' in religions says to burn entire cities with people (today nobody burns dogs, but "God" wants it) in them as 'offering to God', to torture and inflict pain on others, because back then they didn't know any better). To bring peace, teachers could allow small kids to play with lovely chicks, adorable hamsters, kittens and understand that they

need to be kinder to the worst humans than to these adorable pets, and to realize that every human is like a 2 day old baby compared to an Immortal and deserves to be taken care of more than pets some are absolutely in love with or even sleep with; yet behold reality: humans are homeless, and even pets have homes; so, does the immortalist government feel it is ethical to allow the unedited versions of some texts, movies, scriptures, etc? For many, the texts (or parts of it) containing such quotes seem hate texts to be banned, as the instigate people to conflict and war, to all that destroys humanity. We don't use century old oil cars, they pollute with smog a lot, why use millennia old texts, that pollute the psyche a lot vs this? ☺☺☺ Many historical, present people who were involved in genocides (Hitler, etc) or killings had a dog and it didn't make them an angel. Some say that if we get a dog we will get close to God, it can have the opposite effect, depending on what activity dog care replaces, what they do with the dog. ☺☺☺

We unconsciously imitate emotions and tones we hear and are around, from pets and people; to reach the highest eterni tone expression and evolution, we're hindered by the negative emotion barking of dogs or their reflex of barking, so it's better to get a dog that barks least as these effects desensitize us to our own speech tone☺☺, which unfortunately, sounds slightly like dog barking sometimes when we lose eterni quality (well, for me, I think even my youtubes, etc, due to torture by soldiers, sound sometimes like a dog barking ever so slightly and that was my better tone in those times, so you can imagine how Immortals may perceive average present human speech: like we perceive the angriest dog ready to bite). The healing nurturing melodious speech of some of these 50+ youtubes is vastly different from dog barking, but when we talk fast with negative emotion we become more like a dog who barks in anger at some stranger. In quiet areas with no traffic noise, a loud dog (often times small ones) can turn a nice area into hell from 5 pm to 5 am, so highest barking dog breeds need be banned immediately.☺☺☺ Nations could *ban some* barking *breeds, as they ban* biting *breeds*. The holy atmosphere of a monastery is the holy atmosphere of every street and alley of the world of Immortals, so different than our world of dog or human 'barking', since the worst tone there is like the 1 in a million best most monk like, healing angelic tone here normal people have only 1 min, if that, in their entire 80 years. It's the world of the highest Grace expressed, the utmost *nurturing* healing *gentle tender soft loving kind* compassion. A gentleness and love so total, intelligent, custom to humans, so divine ecstasy inducing by understanding human brains 7,000,000 times better than the smartest dog, so astral projection inducing, so amazing, that is wholly different than what a dog can express. In spirituality they often say we become like the people we associate with, their IQ, emotional IQ, vibes, and that's due to us imitating their tone of speech, which conditions our brains to the same emotional and ethical behavior since they're co-creating each other; likewise, the pets we have create our personality and tone and life; as humans evolve, so will the pet choices evolve and so will genetic and biophysics, acoustic nutrition engineering evolve dogs they may use.

Dogs live to 10 years, monkeys for 45, dogs entrain our quantum field to shorter lifespan than monkeys or humans we love, so humans who have good relationship with humans outlive those who have good relationship with dogs; it's also because it's 1000 times easier to get along with a dog you love and raise from birth than with humans – so the intellect and survival capacities are far more developed when we take care for all, as in Immortality *for* All humans, instead of only relatives, friends, co-nationals and pets; so to live long, we need to expand our universal loving kindness, love beyond dogs and cats, to include orphans, homeless people, all humans in all countries and long-lived animals we neglect now, cows live to 20; dog lovers need to love all humans at least as much as their beloved dog, cat or pet, and that is the kindergarten stage of spirituality in the world of Immortals. So, if you don't injure or bomb or kill your pet, why would you support any war on any human? Is that not a double standard? ☺☺☺ Why is *one* short-lived species dog getting 1 million times more love than even 1 million exterminated humans? We have limited free time, we can use it for Eternal Universal Peace in 3 months or dogs, our lives will be remembered for *saving* trillions *of people*, instead of one dog. As we expand in space, we will reach 2 million trillion inhabitants, so if wars don't stop, Eternal Universal Peace *would save trillions of humans.* So, if you want to be efficient in your service to the Universe, do you want to save 1 dog or cat or 4 trillion humans? What will be your legacy as a human? You pet one dog or cat and don't pet, massage, take care of millions of Americans, fellow humans who're neglected by society too busy with casinos, gambling, strip clubs, sports? *In 2021,* Americans spent 110$ billion on pets, and maybe 500$ in their spare time to promote World Peace in 3 months, $2 billion on fireworks, so indeed, human lives are far less important than pets. Due to the media, most don't realize that 110$ billion well spent could 1. prevent Syria & Ukraine cities being wiped out entirely & 2. bring Eternal Universal Peace in 3 months. ☺☺☺☺☺☺☺

Hitler had a dog too, died at 56, had a German shepherd. Did that dog make him the most healing speaker? No. Same way, you see the social engineering at work, some of the most popular celebrities have many dogs or cats and that is done (by those who remotely control said celebrities artificially made popular) to encourage all to get more pets (or use weed, etc, if a singer promoting violence) and have fewer kids perhaps, *in order to exterminate the host nation they vampirize and feed* off. They have 3-7 kids, while for the host nation, they promote *3 cats or 3 dogs as kids*. To completely destroy the host nation, they will also hide the number of kids they have via secret relationships. To further terrorize the nation, they remotely control animals to attack people. Dogs are domesticated wolves, see attack. Check out the lions allowed on TV near a kid, attacking the kid. How can humans become so brainwashed to love cats, lions and tigers? And yet bomb and kill human beings? Immortalists are for the end of wolves☺☺☺, as they create needless bloodshed. T gondii parasite manipulates mice to fear no cats, and get killed in the process, in order to spread itself. Likewise, parasites and viruses manipulate

humans to have more cats and dogs and incite people to love cats, dogs, not humans so an all out war will kill all humans, but not the cats or dogs who will then multiply 50 times faster. Dogs may plot together better than superpowers. If we're not careful, we will be exterminated even by these parasites, who keep us as short lived molecular machines (flying saucers) for them to spread thru the galaxy and sabotage our goals to develop technologies to live to a trillion or quantum devices to end all parasites, bacteria, viruses and carnivores in 1 minute to cure endless diseases. It's a fight between parasites/pets and humans, will you betray the human species? Are you a traitor? A spy for cat-dog-bird-reptile-pet head aliens? In espionage, agents of the same enemy country will take on many roles: friends who try to gain your trust, and hidden undercover enemies destroying you. Likewise, cats and dogs wage a war on the human species: they try to be friends and fill the empty void inside people who never meditate to be happy loving all human beings by eterni breathing, but indirectly help fuel wars among humans to end us in a war that uses human only killing weapons. ~*~Pets are the enemy of the immortalist state~*~, they distract us from the core goal of the state: zero violent crime now. With 170 million USA pets, the distraction they cause is mind blowing: if all the time to feed, walk dogs, stock pet stores/hospitals is used to bring Peace, nobody needs dogs to guard anything (no violent crime, drug trade, no sniff needed). Everywhere you go there are dog parks, not humans who want to live in ~*~Eternal Universal Peace~*~, free from war, violent crime and barking.

The odd thing is they got these domesticated tigers and wolves (coyotes eat people, watch) and are absolutely in love with them, and those who fear dogs are obviously afraid, since dogs are on a leash to prevent them from returning to their wolf self biting and mauling endless kids. Big cats, wolves, wild dogs kill endless mammals and pollute the human quantum field. For one big cat to exist, they kill thousands of big animals close to humans and cause 1 billion times quantum field of humans pollution than vegan animals. Thus, to stop the bloodshed, we need the painlessly get rid of carnivores fast, to help bring the heavenly Earth of Immortals.☺☺☺ It's imperative for all pets to be vegan and for cats to stop killing 2000 species because owners let vegan cats outside and they attack endless birds, etc and cause so much suffering to drown the human quantum field. We need better management of this bloodshed, any ideas on how to stop vegan or nonvegan cats causing so much bloodshed even when they're not wild cats owned by nobody? Buy a guinea pig that bites, if you're anti-World Peace in 3 months and think we need guinea pig or cat pets instead of end of wars, the size of a cat instead that is naturally vegan and attacks no birds, etc? *Where is the compassion for the 100 adorable sparrows killed and tortured to death by house vegan or nonvegan cats* as they ruthlessly masticate them to death? Kids play violent video games, simulating attacks on people, an evil action, instead of gently protecting fellow humans by kindly guiding some drones, under adult guidance, to get rid of all carnivores on Earth so no blood is shed. Drone *shoots* darts or sprays with cyanide from 1-10 ft away or

something in animals to help them die painlessly, 500000 times faster than traps or dangerous cyanide traps, faster than bullets that sometimes have lead or heavy metals and accidentally kill or injure people or vegan animals not seen due to shooting from 2000 ft away. ☺☺☺☺☺☺☺

Why do trillions of vegan animals have to suffer at the diabolical hand of these beastly 1 billion *carnivores*? Is that kindness, spirituality or democracy? Let those aristocratic carnivores die to end the cycle of eternal war on decent vegan sentient beings. As God's kids, we need to protect the many *vegans* killed and enslaved by the few vampiric parasitic carnivores. Finally, our cities, villages, national parks will be free of wild or biting dogs, bears, tigers, lions, coyotes, wolves, big cats, mountain lions, bob cats, foxes, reptiles attacking, mauling or eating people, mostly kids. The new law to protect the human species, not the dog one, could be: any bite by any dog means dog is euthanized, no matter how tiny the bite is; same for cat bites or scratches. You know, Nazis should exterminate dogs and cats, for each nonvegan dog and cat is exterminating 1000 animals to feed their demonic lust for blood (see the extermination pets are guilty of: 1 day old chicks, cows, chicken, pigs), and chicken and pigs, cows can live as long as cats and dogs. We gave death penalty to Nazis at Nuremberg, but what about dogs, cats who kill 1000 other animals via the meat, dairy they eat? As stewards of God's creation we can't let bloodshedding beasts thrive. Pets commit a Holocaust 1000 times bigger than the Nazi one each single year, they kill 10 billion animals. Pets are the biggest Nazis of all. A new website pet.*gov* will ensure all terrorized people can report bites and scratches instantly, barking and other behavior, so the Immortality *Nurturing* Agency☺☺☺ cops can come and euthanize the animal instantly. Finally, husbands, kids can call cops on wife's dog and have him euthanized, while wife won't know who called, the cops will say "a neighbor complained of incessant barking last 4 years, at pet.*gov*/2467128471982.htm is your recordings from the distance of the neighbor house (we put it on a pole to record) for the past 5 months of pure terrorism of the entire street, which is a crime normally punished by 2 billion fine, but in this case we waive that since you can't pay it, to comply with the ethos of *gentle tender soft nurturing* loving kindness and will euthanize the dog and provide you with 100$ to get a hamster who doesn't have a dangerous bite or bark if interested". Finally, *humans live and dogs die*, not the other way around. *Humans first*, let humans live to 900000, and not live to 1 because of a lethal dog attack (see 1000s of human deaths below). A dog barking can cause a lot of stress in some people who're on the verge of immune collapse, leading to bad sleep that brings immune system down and causes fatal death from the disease: all due to a barking dog, so dogs can KILL in many ways, never forget that. Incessant barking can do more damage than beating the hell out of a guy, BUT BECAUSE IT'S DONE SLOWLY, it's undetected. It's a PURE VIOLENT CRIME, ALBEIT A VERY SUBTLE FORM OF CRIME. Not America first, but HUMANS first. Immortality *for* All *Humans* FIRST. ☺☺☺

See how sad it is when cops release dogs on a compliant man "by accident". It's frightening. If

we have decent music, kindness, soft gentle vibes, we have no need of police dogs to attack suspects. The immortalists will ban all dogs from police use and use our brains instead to create the satellite (or police car) activated shutdown of any car and locking of doors of any car via the Immortality Traffic System. A drone comes out of cop car and goes to suspect car and tells him to get out without weapons and can be used to remotely fire if the guy shoots the cops. It's imperative to remove dogs, since angry cops will pretend they "accidentally" released a dog, when it was intentional, due to anger for chasing a guy for 1 hour. We need to ban the use of dogs by cops and simply reform the entire system based on no jails ideas like this. Watch how cops release dog on another surrendered man, black this time around. These dog bans need to be done to prevent the *transformation of USA into a terror state* where cops use dogs to attack people via unleashed dogs they release (undercover cops, FBI remotely controlling people to temporarily release a dog or releasing it themselves) to attack people they hate. To prevent dog bites, the immortalists require total control of any imported car in the USA via the Immortality Traffic System, from the central headquarters of the Immortality *Nurturing* Agency which is the national police agency. One bite, let alone millions as today, is unacceptable to immortalists and all decent people. Action needs to be taken to protect the public against dogs. ☺☺☺

Poor workers have no money for dogs, so they may afford a cat that eats 5 times less stuff, or 10 times less. The richer people have big dogs that bite off the poor people. This is not fair, it's an act of class warfare. As such, to ensure democracy and equal human rights, we need to set a fee for big dogs of at least $9,000,000 a year (5 million for medium dog) and use that money to give grants to people to take time off and attend online and in person free happy bliss meditation classes, free supervised fasting retreats to lose fat gained via pet ownership and to have some extra money in exchange for their dogs. Gradually, we can reduce dog ownership from 90 million today, to 0.1 million, mostly cops sniffing drugs. We teach people how to be a happy person without dogs and cats and instead love other people, or simply breathe and meditate, be happy, wish for World Peace, surround all humans in kindness. It's important to also offer people free blissful breathing classes away from their toxic family and neighborhood, to learn to be happy and relax, thru state intervention and mandatory vacation if the worker wants to attend the classes in person to get away from psychotic wife who has 3 dogs barking all day. How can anyone be relaxed for a week or month and learn to be very happy breathing and learn new skills, perceptions in a toxic house with a yelling wife or husband and barking dogs? We need to humanize people, have them love all people instead of "love dogs and support war and killings of fellow people". *The* dewolverization of humanity *is imperative* for our collective evolution. The national police reform will mean all drug sniffing dogs would be the least dangerous types. Also, all service dogs need to be very safe for all people nearby and minimized via new high tech enabled by new scientists born, as people have babies instead of big dogs. Gradually, thru more

human babies, we discover drones that sniff 1 trillion times better than dogs and we become free from wolves disguised as dogs roaming our streets to kill infants. We can take USA back from the wolves. How can releasing wolves into the wild be legal? They did it to prevent elk from eating all grass, trees, etc, but they could have just used elk or deer meat (eaten by wolves) instead of beef, a lot healthier, with ω3. Elk can be killed by humans in a painless instant way, versus the wolf painful ordeal. It's thus unethical to release wolves and deforest to grow beef. This is low IQ, we need good drones and high tech to control deer if it eats all vegetation. Deer meat is vastly superior in health outcomes than industrial beef, for those who still eat meat.

Living longer when loving all humans, not just pets, is true not because God created humans, necessarily, since atheists don't even believe God created our souls, but due to the simple law of physics of species quantum entanglement – if all rise, we rise too, if all suffer in wars, everyone lives to 90, not 1 *million*; plus we entangle and *become and live as long as the species we love*, we become as long lived as those we love, be them pets, Immortals, humans, God, etc; ☺☺☺ this is true for body lifespan, (when all other confounding factors are equal, i.e. not killed slowly via torture by spy agencies etc), and for our souls lifespan, the trillions of years souls may, sometimes, live for? People say that we need dogs to sniff drugs etc, but with 170 million scientists instead of 170 million cats and dogs in USA, we would have achieved by now 0 crime and also the tech to sniff via drone 9000 *times* better than the best dogs. When you focus all national energies to bring Eternal Universal Peace in 3 months and 0 jails, 0 violent crime in 20 years, that implies people move from loving the dog and cat species to loving the human species, not just our biological family. This love transforms our societies. We don't need pets, but if some do, the need for loving some sentient being can be fulfilled by opting to volunteer to mentor some of the millions of those who get less attention, like explained in other chapters, the orphans or those who got into some kind of enrollment into a healing course, every adult can volunteer to be mentor of younger people and help them to be more eterni in tone of action or speech. In 2023, there are 89 million dogs in USA and so 0.5 million homeless, many orphans, etc or even kids with parents that are so neglected – allowed to play in very aggressive ways and to become so anti-eterni and mean in behavior, without realizing. Many often treat dogs better than humans, look at the wars and torture, etc, covert and overt, etc. For those who love dogs there are the gentler smaller ones like: Beagle, Pug, Border Terrier, Bolognese, Pomeranian, Pekingese, Bichon Frisé, Mini Lion (Shih Tzu), Norfolk Terrier, Havanese, Cavalier King Charles Spaniel. A good idea would be to play very soft gentle music where the dog is, so it becomes very serene, evolves its DNA, brain, etc. Pet shelters need to evolve dogs to understand human emotion better, by having them listen to such music of eterni quality and emotion and express it. Chapter 7 explains dolphins and fish love peaceful healing music. 4.5 million bites/year, 78 million dogs means 1 in 17 US dogs will bite someone once a year. This may be due also to a lack

of proper precautions (strangers going near dogs), dog training and peaceful energy radiation. Big dogs can destroy furniture too, so having a cat or tiny dog is a big plus.☺☺☺

A CDC document that shows similar numbers: 0.8 million Americans needing medical care, 334,000 going to Emergency Room. Dogsbite has the fatalities numbers and some of the deaths of children. Dogsbite nonprofit believes family dogs inflicted 45% of all dog bite fatalities, with family pitbulls accounting for 86% of these deaths. You can read about 3 day old babies killed by dogs, sometimes with the parents on the bed, because mom coughed and caused the dog to bite 3 day old Sebastian Caban. About half the deaths are those of the dog owner or primary caretaker. "Infants were more than 4 times as likely to be bitten by the family dog and more than 6 times as likely to be bitten in the head/neck region. Pitbull bites were implicated in half of all surgeries performed and over 2.5 times as likely to bite in multiple anatomic locations as compared to other breeds." ► CP 2017;56(4):316-325 (pdf). Over 1,000 U.S. cities have adopted breed-specific laws since the mid 1980s, just after pitbulls (fighting dogs) began leaking into the general population. Many cities banned pitbulls: Aurora (0.3 million), Miami-Dade County (2.7 million people); Maryland Prince George's County (0.9 million), Wisconsin: South Milwaukee. In a Civilization of Immortals, 500 year old people are more valuable than dogs. Rio de Janeiro, Ontario, Malaysia, Norway, UK, Puerto Rico, Denmark, Ecuador, Cyprus, Venezuela, Turkey banned pitbulls, etc.☺☺☺ Ireland, Portugal require pitbulls, etc to be muzzled. Poland, Spain, France restrict them. Germany, Israel, Australia, Romania, Taiwan, UAE, New Zealand banned imports of pitbulls varieties, other breeds. ☺☺☺☺☺☺☺

A rather useless option (that some proposed) for the dog species known to bite humans is genetic engineering or breeding to eliminate aggressive traits, teeth (eat with the tongue a liquid with all required nutrition, a liquid that helps dogs to live to 100 while humans live to 900, giving dogs freedom from being bitten by other dogs and from the stress of being police or army dogs, because new tech will be 1,000 times better at smelling and sniffing than any dog) and paws, so dogs can't scratch or bite anyone, and changing barking sound from high to low soothing gentle song to avoid polluting public airwaves with annoying sounds of high entropy. Bites are an unacceptable risk for a civilization of 8,000 year old Immortals. It's illogical for a 10 year old dog to kill an 9,000 year old Immortal. The more aggressive a dog/cat is, the more influence it has on the owner and nearby people in making them so too, by virtue of quantum entanglement with the genetic mind of wolves (ancestors) or big cats that eat people (video). Wild cats kill 900 mammals, domestic ones about 150 if left to roam a little. Thus, it seems logical that if we want to live to 900,000, we support the more tender softer gentler breeds, that have moved away from big cat and wolf behavior by domestication, veganization for 20+ generations to eat a vegan diet and not bite attack any mouse, person (see thru breathable tents for cats, besides inside). Pets allegedly lower stress of owners who love them, so to live to 900 instead of 870, it

will help to have a 500 year lifespan cat or dog instead of many short lived cats or dogs, because the molecular pet system that ages rapidly and resembles human a lot can influence human organized system in ways that speed aging. Thus, it becomes all the more important to focus on longevity and the nonviolent ways of Immortals and their pets. The therapeutic effect of pets will be enhanced with one per living to 500 instead of 50 pets over 5 centuries. It will be a deeper bond and pets can develop new sounds, upgrade sniffing capability 10x by brain enhancement via diet, etc. The near end of humanity via war means that if 5 people are left in a village with wolves or big cats, there is a chance lions are hungry and people will die. So we see the advantages of domestication of all wild life, of placing "Immortality *for* All" nonkilling species on a higher priority than lifespan shortening circuses that shorten lifespan of acrobat jumpers or stressed animals. Humans need to eradicate all animals that would dare attack people if we return to stone age due to some cosmic gamma ray explosion. Do it now. ☺☺☺

Instead of 10,000 worldwide (2400 in USA alone) zoos, we need Immortality and genetic upgrade centers for all killing lifeforms or euthanasia/turn to fertilizer centers if no funds exist yet (they don't since all funds will go to zero violent crime zero wars first), so they get used to an eterni liquid diet, vegan par excellence, and not ever scratch even anyone, nor kill any other animal to survive. People starve and some use more meat than to prevent 10 human starvation deaths, to feed a tiger pet. Is that Godly? Perhaps, the universal compassion for the souls of cats and dogs, enslaved in these short lived bodies calls us to prioritize their longevity and transformation into angelic Immortal humans by reincarnation. So we have the freedom to liberate them and us too. The win-win situation enables humans to make dogs gentler, give them more time to meditate, play without being hurt by other dogs, live longer happier lives, develop their souls. It's an expression of the Holy "Immortality *for* All" Spirit's desire to *transform the world into the Paradise of universal* loving kindness *where no animal is killed,* via genetic engineering, veganism *and simply* loss of habitat for 100s of carnivore species thankfully going extinct soon, as humans expand and turn forests and parks into green cities merged with firests, etc. ☺☺☺ Any big cat, snake, wolf, hyena, crocodile, etc who kills at least weekly a big animal to eat, creates a quantum entanglement cross-species disturbance that shortens the lifespan of humans, by making it more likely for humans to also die suddenly in painful violent ways, so while some may like tigers (tiger eats humans, see clip, see the tiger who ate 436 people, and leopard who eats men) and feed them big meat while humans starve to death elsewhere, they forget big cats (that pet cats entangle with via DNA resonance) kill humans too, as video shows; it's better to replace circuses (with big cats requiring *space* to house, while humans are *homeless*) with compassion for all humans: have a festival *(to replace cruel to animals circuses) (and humans attacked by animals rarely, and to acrobats suffering injuries)* where you make homeless people happy, sing them an eterni song, give them 50 biomarker

measurements to help them live to 200, make them a house assembled on spot. Compassion for humans, World Peace festivals are more valuable than circus entertainment, circus big cats can even attack humans; thanks to PETA, taurine and arginine supplemented vegan pet food, etc we got lots of vegan cats and dogs today. 16.3 explains why Immortals would not eat animals. Even birds can be trained by the Immortals to live much longer, eat only "artificial" thick liquids made in the eterni food industry of the 21st century (quark and molecular assemblers eons later, which would triple their lifespan), so as to avoid inflicting pain on animals by big birds or on insects.

The world will become the abode of Infinite Gentle Tender Loving Softness Kind ***Compassion***. ***Nobody would be able to witness any killing of any animal by another animal or human***☺☺☺, besides no human-human killings. Since (possibly only 2 left in a more wasteful zoo) big cats (tigers, lions)/animals will be *vegans*, the lion can lie with the lamb without biting it as the Bible "Word of the Lord" says; lions/animals may be toothless and clawless (drinking a thick liquid with all nutrients needed, no need to have big muscles or claws) and have no memory of attacking any prey in their genetics, being raised vegan liquidarians since birth, yet many doubt people will need such gigantic pets who could accidentally kill weaker people by falling on them or knocking them down. We took violent human shredding wolves and made them into cute little adorable puppies the size of a cat; the same can happen with "big carnivores" way faster as we got tech we never had before: lethal injection and let only small cats exist.☺☺☺ Give people the meat, not big cats. All animals being vegan is in the interest of human survival, because all out war may leave 7 alive, weak and irradiated, unable to flee from wolves, bears, hyenas, wild dogs, big cats and ending human species forever; physics plays no favorites "those who promote loving kindness will get loving kindness, those who promote violent music will get violence, not individually, but long-term as a society, down the eons", in a far century when that war happens; perhaps, species who were kind, cared about little animals, wiped out big carnivores and saved their species when all out final war left 10 alive only; their kindness for the helpless little animals has paid off, ***a little compassion***☺☺☺ ***for others saved them too***; as true heroes against Holocausts of trillions of animals by pets, they saved their planets. But when they did that, the rock and roll fans were unhappy and fought hard against it; sanity prevailed perhaps, so a somewhat eterni tone and music rhythm prevailed, helping the kindest to survive and bring a civilization of Immortals out of the ashes of the final war, with truly eterni tone and music. Lions will be happy as nobody will bite or kill them in lion-leopard or lion-hyena fights, they will live much longer and find a new spiritual development path: reincarnating as a human when all cats vanish as humans neuter them all☺☺☺. Naturally, we flew 38,610 mph with Voyager 1, 161 times faster than the fastest bird. We can see how we will also reach a level of gentleness and nonkilling 161 times deeper than 500+ mammal species that don't kill their own or other kinds. The Immortal☺ Lord of Ascending Immortality will infuse everyone with the tender soft healing

grace of *the* Holy Spirit (spy rite?) of Immortality *for* All. ☺ If you think about octopus being able to shapeshift, humans shapeshifting 161 times deeper, or about the fact everyone will eventually get all nutrients from cosmic energy after eating liquids (maybe thick liquids) over first few decades, then one can see how on some planets that adopt this liquidarian diet first, they may evolve to smaller and smaller teeth, a bigger brain (smaller mouth), as they prioritize learning, intelligence and Immortality-longevity, over chewing and having teeth. So it might happen naturally even in humans over periods of time without any genetic intervention of people out of desire to maybe have a bigger brain or something. It's likely our stomachs and digestive tracts will change over time to become smaller, as nutrition is more packed. So, while at first this idea may seem pure sci-fi stuff, over eons, it may come true on some planets at least. To many, being able to live to 4,000 on a peaceful planet of liquids eating people with kindness is a plus, way more valuable than having teeth to chew on solid foods on a planet of warfare with short lives. Having teeth gives us no huge advantages. Pureed liquid like almost foods are gentler, they don't need such hard grinding, they're softer. The liquid nutrition frees us to do smarter things than chewing, to discover how to live on energy as explained in 11.1, do human molecular simulations to avoid animal testing, space/astral travel, be happy and Immortal.☺☺☺

Immortalists kindly gently argue that having big dogs that are NOT service dogs is an act of genocide, ethically speaking, because dogs have a genetic memory of mauling people and they can kill small kids, small seniors, etc who obviously don't have guns to defend themselves. It's a selfish irresponsible act to have big dogs, because it forces America to have 48000 gun deaths yearly. Do you know why we can't ban guns? Because of protests from people who want guns to protect themselves against big dangerous dogs owned by cruel Demon-crats who want gun control, but no protection for those killed by "Democratic" dogs. It shows how hypocritical some so called "kind" Demon-crats can be. How can USA be civilized like UK, New Zealand, Ireland, Norway, Botswana where cops have no guns? It can't, every brute has a pitbull or other lethal dog that can attack cops, so cops need guns to shoot those beastly dogs from hell who're often without leash and jumping to kill the officer. Oddly, we got these countries with 100 times fewer pet dogs, yet, their homicide rate is 100 times lower than USA, 0.074 for Qatar vs 7.5 for USA. The dog fanatics would ask: "how can this be? Dogs are man's and God's best friends, dogs make people kind", and other lies. If anything, dogs (at least the big and barking breeds) are Satan's best friends for reasons covered in the 50+ pages above. Only monsters get such big dogs, but in USA, monsterism is mainstream. Huge cars, huge living rooms, huge kitchens, tiny rooms though since dogs get to live in a gigantic living room, huge dogs and space for dogs but tiny space for some humans in a room 4 times smaller than dog's living room, huge everything: Dogs first, humans last, Satan first, God last.☺☺☺ Soon, elephants will be America's favorite pet.☺☺☺ Immortalists don't even believe in religious myths like Satan, but it's just a word some use to

signify a danger or threat to humans when talking to people who may recognize that word from the times when they believed in religion. So, if you're non-Christian, don't get offended by the use of the word Satan, it's just a way to relate more to those who may be slightly Muslim (who believe dogs as pets is a no no) or Christian or religious (since some religions have similar concepts, they call those beings demons in Buddhism). The only thing I have in common with Islam is the fact I dislike alcohol causing 3 million deaths and that I dislike dogs barking sounds, the uneterni sounds, their incessant evil disturbance of peace, tranquility and gentleness by their barks, and their incessant murders of babies, seniors or even adults. As dogs take lives of humans who could be Immortals, they're true devils, as Mohamed explains in one verse. Logically, Mohamed etc saw the deaths coming from rabies infected dogs and wanted dogs dead, so in the Quran he once ordered all Medina dogs be killed, a common thing in China today, when rabies epidemic exists and they killed 5000 dogs in 1 day in a town. Immortalists would ban anyone except cops, from owning pitbulls or any very dangerous breed (that's about 40 breeds). This would help USA move from ghetto stage to civilization. Today, nobody can feel safe on any street, as you see 1000s of youtubes of neighbor or visitor dogs without leash attacking kids, teens, seniors, etc, even huge big muscular cops. How can we have no guns if border is so easy to cross by gangsters and criminals and dogs kill babies always? Are Democrats insane? So, before people complain about guns, we need to realize the dogs and the border need be fixed. Nobody needs a big deadly dog, unless a cop. People bash police, but they don't realize they're like Hitler who had a German shepherd lethal dog. *To bring true Peace to this USA Land of Violence we need to painlessly kindly kill all wolves, bears, tigers, lions, alligators, snakes, etc* that could kill people, stop "low IQ Democrat" efforts to conserve coyotes, or animals that sometimes kill people, so nobody has to have guns anymore and institute some 10 million dollar fines for certain crimes, and lifetime labor and death penalty for ALL violent crimes. A carnivore kills 5000 animals (livestock used to feed him, or wild herbivores he catches, etc), so one killing of a *carnivore or reptile who eats mammals, prevents 5000 killings, so it is actually pure kindness* for the quantum field of all life on Earth, especially for humans, God's best friends per religion.☺

Do you have *empathy* for *48000* people killed by guns each year in America, for *the 400000 injured by guns each year, for their families?* Then, please get a small quiet least barking dog, cat, guinea pig or hamster and your immortality credit score will go up 20 points.☺☺ No pet means score will go up 200 points. *Isn't it time to have compassion for others?* Thus, for immortalists, anyone who doesn't support and work passionately daily for 0 violent crime, 0 guns and World Peace in 3 months is a terrorist of the human race, of the human quantum field, a terrorist who supports the wholesale destruction of the human species in 10 seconds. Not only that, but the day will arrive, maybe 3 months after immortalists win elections, when, in order to reduce gun crime to 0 from 48000, we may ban all big/medium dog breeds known to have ever

attacked humans or babies (that's 99% of big dogs, 80% of medium dogs and 70% of small dogs who injure humans or attack them via endless barking from neighbors: only quiet nice dogs allowed to breed on Earth), causing serious injuries (not a tiny scratch, but serious). *The fight against dog terrorism is only starting*. This is needed to avoid dogs killing people who don't have guns to shoot the dogs. As drones sniff better than dogs, no police dogs are needed, they maul too much needlessly, wasting national resources, since nobody would dare to attack a cop if on camera (all cops would have to record everything as only 1 policy and one police department exists in the entire nation), as police will be given the right to enact DEATH PENALTY (shoot dead) on the spot for anyone attacking a cop unprovoked (without the cop attacking first, none have the right to attack, punch, etc a cop just because a cop asks a question or wants to search a car, etc) in order to end the endless chaos, hooliganism that reigns supreme in the US. After we eliminated all gangs in USA and gun crime is down to 0, cops won't need guns if violent crime, punching of cops etc are also 0. It's only fair, as cops deal with life and death situations from various psychos daily. Nobody wants to be a cop, to risk their life daily because of terrible laws that protect gangs, aristocrats, not cops, not workers, and promote total lawlessness and crime.

We can't allow dangerous or barking dogs to terrorize our nation because of a few hooligans who simply don't care about 48000 killed by guns, 800000 emergency room visits from big dog bites, 40 million sleep deprived by all types of dog barking, 1 trillion in healthcare costs every few years to deal with the diseases made worse by sleep deprivation, bites, gun crime, 400000 gun injuries, etc. *We as a nation have to decide: humans matter or only* dogs.☺☺☺ HUMAN LIVES MATTER, and are 1 trillion TIMES more valuable, each, than all Earth dogs COMBINED. *What will it take for* Americans *to have compassion for fellow* Americans*? World War 3*? Blacks, please organize with same enthusiasm for HUMAN LIVES MATTER, Protests against all humans who have dogs. Don't people realize the obsession with dogs takes them away from helping neighbors, from helping others and promoting kindness, from turning all jails into heavenly healing centers, from turning all bad areas into decent areas as we demolish useless businesses, useless sports venues, pet stores to build decent housing for all? Companies peddling pets and useless products are part of the global program of turning everyone into the most selfish person possible who supports any cruel aristocratic war, the military elites of every nation (real government, not public), who doesn't care about millions of people dying in wars, but loves HIS or HER pet. The rich cause the poor of nations to fight among themselves, so that the slavery is eternal. *The purpose of war is theft and enslavement.* We either love people or small tigers or small wolves, cats or dogs, we have only 24 hours in a day and a given income, energy, etc, and World Peace in 3 months is not that easy to achieve. Such terrorist pet companies ought to pay $2 billion annual fees, since it's pure aristocratic habit to have pets that are not service animals or sniffing dogs (while the poor live in terrible conditions fueling violent crime), while others are

being bombed, maimed and amputated to death by the taxpayer money misspent by the low IQ folks in power. These companies, promoted by fake celebrities (living in mansions) from hell, do all possible to brainwash all to place pets above people, to promote slavery to pets above the basic human right of all to life, as in Eternal Universal Peace in 3 months, written every 100 yards everywhere until it manifests, instead of these materialistic signs and useless businesses that show the utter depravity of the American and world cultures. See how many nail salons (even at home kits waste resources, shorten lifespan, don't waste your life ladies, men don't care if your nails look colorful, on the contrary, some men view such women as selfish and ☺abysmal IQ☺, not just low IQ), endless time spent with removing leg, arm, etc, hair, making nails look great, for low IQ women who could care less about the destruction of the human quantum field done by war, dogs, cats and violence. Who looks at the leg hair, nails? Only the lowest IQ men. Is that why we waste so much energy with that? What about the depraved card games, chess, sports of men, how is that bringing Eternal World Peace? Can humans stop being animals? ☺☺

Incidentally, nobody listens to barking sounds on mp3 portable players, since it is not relaxing or pleasant. On the contrary, barking is for some very annoying, because barks are a stress call usually, meaning the dogs we hear in cities are dogs acting out their 'bark at strangers' reflex, which is contaminated by their fight and flight emotions of anxiety, anger and threat and are thus not facilitating relaxation, healing in humans, being anti-longevity and obviously annoying for those trying to relax with the window open. Bells can exist sometimes in some mp3s, especially the gentler types using crystals (Tibetan, etc) or special types, but not barking. Life is *Peace*. It's a subtle effect, since the restless barking takes us from the serenity we need to bring World Peace, and with that arrives the less eterni tone which leads to more wars. Dog lovers don't realize this effect, since they love their dog and get used to the barking, which, with the owner, it can be a sound of joy associated with positive emotions. In India, they have a saying "you become who you associate with", Satsang, if you sit or you sat with a dog and listen to how he sang, his brain and barking, you become more like the wild dog and his ancestors, ancestors that are still alive, relatives of those, in many areas as wild dogs that we delve into next page. We see how people spend 25 hours a week at times with their dog and 0 hours a decade to bring World Peace in 3 months, this is because dogs, especially wild ones, don't really stimulate our compassion for all mammals killed by wild dogs who chase mammals and eat them alive in the most cruel way in the animal kingdom. Dogs don't have Internet, to perceive and understand the vast suffering of all mammals on Earth at the hand of carnivore predators, or war loving humans. They only understand their immediate surrounding and narrow our perception too. They seem loving and such, to the owner, because the dog has that natural selfish self-preserving love, i.e. it is in its survival interest to love the owner and be nice and ultra easy, as owner is nice to it. But a dog doesn't have a universal loving kindness, it cares not about the

tremendous suffering of 10,000 chicken, 20 pigs and 20 cows killed and tortured for the dog to eat, so dogs will be limited in their capacity to understand the universe and limit the owner too, in ways that are subtler and much harder to detect due to the bias of the owner sleeping with the dog. Since for many, the dog is their best friend, they can't see the faults of the dog, because the dog is loving, licking them a lot, barks to signal its appreciation for the owner.☺☺☺

Yet, the dog is also often leading humans into temptation, to inflict suffering on many species around, without caring about it, as the non vegan dog (or cat) eats meat that damages all. Cats even kill small birds and mice, shedding blood and degrading the human quantum field too by that, unless they're kept inside 24-7. The dog, unlike the cat, is way more destructive to 'spiritual progress', as it can interrupt meditation states far more, so oddly enough, in Islam cats are the happy worshiped pets, while dogs are not. It's natural, if one seeks to create a quiet place to pray, they wouldn't bring dogs in. In the war against nations, one of the most effective tools of DNA degradation is to increase the amount of dogs per capita, as it will certainly stagnate those nations to a level of consciousness. We can see today, various forces, who hate certain groups, use their military and spy agency resources to push dog ownership to undermine those nations and slowly exterminate them. The predatory wild dog like humans, wait patiently like a snake or big cat before it is ready to crush, disguising their evil idea as the healthiest idea to embrace (stress relief, etc), using every means to destroy their enemies, from birth to old age. They strive to create incidents, habits, etc to undermine. The evil spy will blend in as a local, promoting everything that will destroy that nation. Beware of brainwashing, the kids immune system can develop a lot by simply meditating and being ultra happy, being loved by God, the Immortals of the Future, the Quantum Field of the Species. One doesn't need dogs.☺☺ Adults can take a nice bath and shower, get more circulation and benefits than dog licks, and one can meditate, relax, listen to serene music that lowers blood pressure a lot more than having a pet, outlive dog owners by meditating. Talk to God and Immortals in your head, no need to talk to pets, if you're lonely, or volunteer to help fellow humans who want to end all human suffering, all jails, all wars, etc. Don't be so naive to believe all the fake news stories about the immense benefits of pets, they don't compare that with people who meditate and are not tortured by the militaries or spy agencies. USA got 90 million dogs, yet 50 million humans are ultra neglected, no massage, help, etc, so all lower the IQ, as a result. People need help, but nobody can help, as the 'would be helper' wants dog licks, barks, petting a dog, "God forbid to massage a human or, better yet, give them a youtube or ebook link to a video on how to meditate, or help them buy a $20 mp3 player to listen to music while taking a shower or bath to achieve more healing effect than massage, give them a 20$ inflatable pool if they have no bath, let them relax, sleep well".

The cruelty of people is incomprehensible, they treat a cat that often kills 150 mammals a year much nicer than 1 million people they exterminate. All cultures deify being macho, cruel and

manly, to protect the "country", torture and war, the spy agency, military do it on all recruits, humans have become insane as a species and this may be our end in the century of quantum weapons. We literally undermine our own species, which can live without inflicting pain☺☺☺, as *vegans*, to support a cruel species, big and small cats, that kill and inflict so much pain on endless mammals, rats, birds, etc. We're not even mentioning dogs, who when wild, inflict 100 times more pain on prey than big cats, as they die 100 times slower, being chewed alive from the back. So, when was the last time you meditated or wished all lived to a trillion as transformed angelic beings of shimmering eternal light and universal compassion? The TV has barking dog tones, too often full of anger and aggression, so, any sanity that's left is hidden in a spiritual program that nobody can find, the only decent eterni tone that sustains Eternal World Peace is found in 0.1% to 0.001% of TV-radio (depending on our MRI emotional filtering scan of certain gentleness, empathy, etc regions thresholds, this slows speech as you modulate everything to do the brain equivalent of 100 pushups for body exercise). This is because the military industrial complex imposes a certain training on TV-radio folks via remote control, that doesn't develop those brain areas that are developed in the people who live to 5000, so we're more like wild dogs are versus the most saintly humans, today, versus our descendants. Realizing that the paranoid brain of serial killing or most "serial killer brain signature" military people, trained into the ways of killing and terror, always looks for spies and enemies, and can't love others well, it helps us to move towards a kinder world. It's very rare to find an honest person who admits they may not speak with the ☺☺☺*gentle tender soft nurturing* loving kindness☺☺☺*, as it is not normal speech, but one that* requires tremendous focus in brain areas normally not activated during speech, to create a new brain, a new DNA. ☺☺☺☺☺☺☺

Most people, me included only spoke 4 minutes in a barely somewhat eterni tone☺☺☺, in our entire lives. Eterni is the most loving tone, a trillion times kinder than that of a most loving mom with her infant baby. We normally speak more like brutes, or hyenas, emotional content ones, like wild dogs: watch the brutality of the dogs eating the cow alive, and watch carefully how many on TV do the same, brutally eating the core of *gentle tender soft nurturing* loving kindness in the listeners, lashing out like a nuclear attack happened, with not even 0.001% of the gentleness of an Immortal, destroying the listeners' brains, bombing their souls, turning them into brutes. It's shocking how anyone can become a journalist, politician and speak in public without any truly angelic tone, any science of speech effect on human brain centers related to World Peace maintenance. Check out the street dogs, trying to kill the baby cow. Check youtube, they got 50 videos of wild dogs eating a waterbuck and her unborn calf. That's how vampires (unconscious, if used by others, or conscious of their evil acts) do it on TV, they incite people to negative emotion, and then the whole world becomes a war zone, for maximum looting. Watch the wild dogs and see how humans behaved for millions of years, groups of people attacking one

person, or group of people or country, tearing it apart, not realizing they don't need to do that, due to infinite resources and the benefits of building a nonkilling immortality for all, torture of none culture. Most of us are so stressed usually, we can't even approach eterni tone once a month, sometimes not even once a year if tortured by the vampires holding the planet in hell. This requires a brain orchestra, a whole resonance of separate brain areas, a melody, an effort, like that of composing a song and solving some science puzzle, it's not just being the chimp we're usually in speech. This tone is that of the average human who lives to 5000, when violent crime rate is billions of times lower, and ultra minor violence *(non physical, just bad words or using the brutish language in this torture section of this book, which is there to make sure nobody misunderstands the meaning, even if not evolutive)* that today is not even thought of as 'crime'. In today's brutal world, people won't understand what you refer to, if you make it too soft and it will take 10 times the words, time to write the same ideas, so people will only get 10% of content, since we all have minimal time for writing stuff in our spare time. We exchange letters billions of times faster: telepathy, speech tones will be billions of times kinder too. ☺☺☺

Every day, we're bombarded with news about dogs and cats☺☺☺, bombs flying in many countries, mean things done and never anything on Eternal Universal Peace, the combined quality of universal *gentle tender soft nurturing loving kind* compassionate *grace* or about living to a trillion in peace. An agenda plays on TV, as if a parasitic vampiric force intentionally wants to keep the conflict, chaos, cruelty, war going – so why do people believe in Zion Elders stuff as being done by some bad Jews only (when 100s of empires and states employed the same tactics), yet make no World Peace in 3 months youtubes, things about Immortality *for* All (instead of only one country) or TV? Where is that tenderness gentleness they have in petting their cat, dog in dealing with the worst humans on Earth, who became so due to lack of education and attention (too busy with cats)? Hardly ever, if once in 1 billion articles, we find ideas like these on military. "Too busy for healing centers that could replace all jails and heal the people, we need endless useless businesses… whoever doesn't follow our "rules" is sent to jail to become worse than before… We love dogs, cats". It certainly shows, for to love big tigers, that crush animals (or people) to death and suffocate them mercilessly, means we become more like them. House cats kill birds and mice when they go outside, even if owner doesn't find dead mice or birds often. This pain contaminates the human quantum field, creates war, we feel the pain of mice, birds, etc just as you feel the joy and love of your cat, but we're not keenly aware of this contamination. So, please, keep cats indoors and keep all pets *vegan*. My dearest Immortal☺ friends, quantum weapons will eliminate instantly any rats, bacteria, viruses on the entire Earth ***once***, so we won't need small tigers roaming around to crush mice ***trillions of times*** for a million years *(meaning in the long run, as a primitive primate, we kill far more mice than if we killed them all at once, and we contaminate the universe far more, just as primates did with coal fired*

plants before IQ gave them solar power, etc) and unwillingly cause endless quantum field contamination, let's bring World Peace in 3 months thru *gentle tender soft nurturing loving kindness, and gently stop all* mice killings. Ever so ☺☺*lovingly tenderly gently kindly*☺☺ recall the greeting of the immortalists, the Eternia flag & animal, the soft healing anthem of immortalists. The world of Peace is imminent, when we choose. *Thee*, in whose soul dwells the Ever shimmering, Ever Happy☺☺☺, *Eternally* Blissful, *Infinitely Gentle*, *Tender Compassionate* Immortal who loves all sentient beings a trillion times more than the most loving parent loved his or her infant baby, can bring that world of *infinitely* soft grace and peace. With each breath in, you can draw the *Eternal* Grace of loving kindness and breathe it out, pacifying all. Your car, home, mp3, can play the music of Eternal Universal Peace, and you can tenderly love all.☺☺

Too many want to make more money, no volunteering, nothing to unite us as Americans, everyone for themselves, egoism out of proportion. Some want "1 sex doll, 2 cats and 1-2 dogs, no kids, and please no helping any humans, only dogs, cats: humans are lower than pets, so they will be bombed with high tech weapons, tortured with hidden gadgets, enslaved in secret ways". We see that all over the world, pets above people, pets way above World Peace in 3 months. The human quantum field is degraded, as selfishness pervades our society to the core globally: dogs and cats to have fun, while the humans are totally neglected or sometimes exterminated by wars or jails created to scapegoat. Oddly, people choose mostly carnivore pets (unless fed vegan food), no vegan guinea pigs or hamsters, etc. This created a destructive effect on the human species, as if we have become the slaves of dogs or cats. It's odd how people seek bliss in pets, when it is inside their brain. It's not in sex either, it's all in the brain. Oh, they want to love sentient beings, what about millions of humans your taxpayers have killed recently in wars? Why not love 90 million Americans living with poor housing, diets, etc? The 2 million Americans in jail? 1 billion people love pets more than certain people, this is a result of our complete failure globally to create a culture of universal loving kindness☺☺☺ for the human beings, shimmering Immortals to be, to have some basic respect for the human quantum field. *How can people love pets more than humans?* It's illogical. It's cruel and unethical too. Tigers can inflict a lot of pain, as video shows, as cats do with mice, mammals, birds. *Wild dogs chase for eons the prey (see below), then* eat prey alive and inflict *far* more *pain* than big cats. Street dogs kill people in India too, check out how vicious the street dog is, killing hundreds of people. So, American cats and dogs are connected with all street dogs, aggressive dogs, wild dogs all over, by DNA, while humans can be vegan, kind, etc. Nobody bombs cats or dogs, attacks them like we attack people, so why do that to humans? People can become eterni, vegan to save all animals and plants from suffering, and inflict pain on nobody, and dogs, if left in the wild, will kill and inflict pain. To be human is to be having a chance to end suffering of all sentient beings, even the worst humans can thus have a chance to become infinite love, and are *worthy of more love*, yet

oddly, people love pets more than humans, and I mean pets who, when owner lets them go out sometimes, shed blood and cause suffering. What being of infinite compassion does that? Love a being that can end suffering? Or one that inflicts suffering? Let all become vegan and end suffering, let dogs and cats reincarnate into eterni humans and free the universe from bloodshed, *let all evolve. Let all pets go vegan too meanwhile, later eterni. Let no plants suffer. Let all beings be happy*. Let all live in eternal bliss. Love people, bring World Peace in 3 months and eterni food in 30 years. *Focus on the Love, that universal love*, not a selfish love for one pet, but a love for all mammals eaten by cats, chicken tortured by factories to feed your pets. ☺☺☺

Dogs terrorize the neighborhood in Los Angeles metro area. Humans first, dogs second. All dogs need to be treated with 24-7 peaceful music in all dog shelters, to reduce aggression 100 fold. Check out this report, normal US dog (not street) kills baby, and again (these dog news reports may not be fake news, youtube has thousands of deadly attacks on adults and kids). Guy gets bitten by pitbul. These videos show that they need to restrict ownership of dogs, who're not tiny small dogs, to people who go thru extensive background check, peaceful music near dog check, extensive dog training check, etc – so that no incidents occur. Try increase fees on dog ownership each time an incident happens, thruout the planet, so that our health care and national budget is not spending billions to treat dog bites. This would drive people to get lovely guinea pigs whose annoying bites are not deadly like for dogs or cats, who're vegan too and attack 10,000 times less. We got millions of neglected people and we don't love those, why do we need pets for? *It's a* sin to get a pet one doesn't need *(service dogs are OK) when we have millions of people* in jail, due to a callous society that loves dogs and cats more than humans. How can we love animals more than jailed people? This is why our world has no peace. We're so selfish. Any dog > 1 lb means owner pays $200,000 if a barking dog (99% of small dogs bark a lot, so 99% get these annual fees to cover barking and bites), > 3lb (when adult) $300,000, > 5 lb $500,000, > 10 lb means owner pays $1,000,000 a year, > 20 lb $3,000,000, > 30 lb $5,000,000, > 40 lb $6,000,000, > 50 lb $7,000,000, > 60 lb $8,000,000, > 70 lb, $9,000,000, > 80 lb, $10,000,000, > 90 lb $15,000,000, > 100 lb $20,000,000, > 120 lb $50,000,000, > 150 lb $90,000,000 to cover for climate change, water resources, food resources, veterinary doctors training, wasting lives instead of treating people, medical bills for all bites, for all accidental shootings of people due to cops or people trying to shoot a dog who bites or attacks, etc, mental health issues due to ever barking *dogs,* MDs wasting lives treating bites *instead of helping us live to 400, chicken and pigs killed and polluting ground water so dog can bark and drive anger up in 100s of neighbors…, which leads to high* blood pressure, more stress caused arterial plaque requiring new medical treatments, meditations interrupted by dogs leading to poor emotional evolution, polluting human tone with barking sounds, fights *among spouses over dog issues* and dog barking, etc, calls to police when dogs torture entire neighborhoods and harass or bite people, etc. People

starve to death and don't even get the protein dogs get, so this destroys the human quantum field, so huge dog fees are needed to undo the past damage. Do something for PEOPLE, *Make America kind for the first time*.☺☺☺ Vote the Immortalist Party. Defend your rights from the minority of dog fans who love their dogs more than people, have made dogs more important than the quantum field of humanity, public health, 0 crime via meditative peacefulness in every town via good quality sleep, DNA matrix, God, ethics, they're more zealous than Islam. Death penalty for serious dog injuries for owner is needed, because dog owners can have a silent way to issue commands to dogs and to train dogs to attack certain images and kids, and etc, they can let it loose to kill target people, while pretending they forgot the gate open, etc. Nobody goes to jail sometimes when horrific disfiguring happens to delivery workers, etc, and normally, owners would be executed or at least lifetime labor, but such psychos wouldn't even pass the test to be a dog owner of such breed or have millions to pay the annual fee before first year. Criminals and spies can get a dog, have no incidents, then suddenly issue silent command to kill, from miles or continents away, as some random kid is controlled to ram into the locked gate, open it, dog comes out and kills the target victim who passes by the gate. Today, spy can escape any penalty. This dog crap is a hybrid war against USA to cause 5 million ER visits a year, deplete the nation instead of using drones and dogs to secure borders and sniff every package in USA to reduce drug use to zero. The top secret KGB plan to destroy USA includes promotion of small dogs that deprive Americans of sleep, so we're unable to think straight next day or for years. Hybrid War. Those annoying small dogs bark like WW2 aircraft all day at times, designed by Stalin himself, Stalin is like SatinJ, Satan Lover, hence millions executed via Gulag etc. Dogs are the first step towards the transformation of USA into a Gulag labor camp with KGB at the helm. Small dogs without leash can bump into a kid from behind and he can fall and crack his skull and die, even if mom is around and teaches him how to walk, she can't stop the fall, 3 seconds she looked elsewhere or was 2 feet away not seeing the charge from the back. All dogs are a big danger to humanity. We need sniff drones not dogs, dog robots not service dogs. Dogs cause endless divorces, as the barking sleep deprives neighbors who then become irritable and divorce. Dogs disintegrate human society, filling all on streets with fear of being bitten, attacked, etc. All it takes is one jump that makes owner lose leash control and the rest can be lethal. In immortalism, eterni tone is essential, as it creates nonviolence and that is destroyed in barking. We don't allow lions as pets, but a dog is like a lion for a small kid. Why endanger kids? Russia needs 70 changed cultural norms (dogs...) to take over NATO without firing even one shot. Each norm destroys society in one peculiar way, that is so hard to notice at first, until it's too late.☺

The Big Oil denied climate change and the irrefutable smog genocide. Using similar tactics, the Big Dog denies climate change by dogs, that dogs contribute to subtle human genocide (read below), that all "emotional support" from 'service' dogs can be achieved in much better ways by

education, meditation, neuroscience gadgets, peaceful mp3 music, just like Big Food poisons millions of people and denies it's coordinating with Big Surgery to perform endless surgeries to remove plaque that would not be there in the first place, were it not for the Big Dog, Big Meat, Big Fried Food ads and all junk food ads. Let's face it, people are crammed and angry because of dogs, who need huge corn and soy fields to feed tortured cows, pigs and chicken, so they make meat, since most dogs are NOT vegan. We need more dogs, yeah, and then they complain about lack of space to house people, give all single family housing and quiet cities. The Big Dog has become a Gigantic business, Big Cat too, so it has become their life purpose to brainwash millions that pets are essential, or so amazing, when it only lowers people's IQ, because you don't get to meditate, to develop higher neural connections, visualize being loved by the universal field. Anyone can experience 1000 times more love than that from pets, via their brain's connection with the quantum field of all humanity (you get to experience the meditators waves of loving kindness that form a planetary field, they're real and subtler, far more evolutionary than dog barks and licks). Big Dog/Cat *promote everyone remaining an infantile emotional being who depends on pets* (or physical partners of 'one night sex') and is unable to develop their IQ, higher cognitive centers that regulate, generate emotions, bliss and happiness on demand via lifelong meditation or conscious breathing, they simply hold humanity hostage to the hyena energy that is so evident in wild dogs and deny our spiritual development. They argue that dogs are so loving and sweet, but the reality is they're still very much connected genetically to wild dogs and their sounds, IQ, brain patterns, etc are holding humans back.

The quantum field of all kind meditating humans (millions of them) is a superorganism, a billion trillion times smarter, more powerful, loving, kinder than any pet on Earth, it's like a universe vs Earth. The meditators have already created the vibe, the human frequency, of infinite universal *gentle tender soft nurturing* loving kindness, *emotional* support that is 10^{27} times greater than any pet offers. The Immortals, or our future descendants who live to 5 billion, also create a field, subtle as it is, that is 10^{80} times more loving, emotionally supportive, than the present Earth human meditators quantum field, and 10^{9000} times more so than all pets combined. Pure math, breathing, logic, thought that creates *happy* emotion. The immortalist government will start regulating the dangerous claims made on TV by Big Dog, which lower public IQ: they have to state different things too or the state will make its own studies and ads: relaxing with eterni music while breathing consciously proved to decrease stress hormone 9 times more than playing with dogs 40 times longer. Easy, science first, PROFITS LATER. We want science and universal kindness based decisions, not starving and depriving people of sleep to death *(dogs interrupt sleep, bark, annoy family members* (too polite to say anything to the volatile parent who will throw a huge fit), *neighbors: sleep is when body repair* happens*)* in the name of Big Dog/Cat. Con pastors preach kindness, but where is it? How can you waste so much food to dogs when

other starve and go to food banks and food stamps? Where is the Godliness or ethics? It has become so ☺comical,☺ that it's like *dogs* are *Gods*, *world's* newest religion: no *logic*; 'nobody' cares about people or even aborted 6-15 week old babies, all is about dogs. People are killed in the millions 10-50 years early due to dogs taking resources, and nobody says anything; people abort endless babies and destroy the quantum field of humans, all because of dogs sometimes: "we got a dog, our 'kid', so humans are to be killed at 10 week old, no more babies, 3 dogs and 4 cats please". So why do they have sex and have unwanted (aborted) babies to destroy the human DNA matrix? Because Big Dog/Cat hide that meditation that all can achieve 500x more bliss than from any pet or orgasm ever: they want people to be exterminated by more PROFITS. Dogs can't invent new tech to produce food from air that triples lifespan, PEOPLE can. If everyone is so happy and evolved, nobody wants sex, except for procreation, so no rape exists. There are so many other benefits of happy breathing, smiling and emotion creation habits.☺☺☺

Only 1 in 4 Americans really owns a dog, so we're the majority, 1 dog per every 4th American. Change USA before we become like wild dogs ourselves. To prevent dog species devolution, 1 dog per family is enough, since 2 per family would cause the dog to become more like a dog by interacting with the other dogs too much, barking and being aggressive: if you place a low IQ guy with high IQ guys (people), the low IQ (dog) evolves; so, if we create a loving peaceful house with peaceful music and human energy and dogs are minority, only 1, he will evolve and produce a more human compatible offspring than a dog that is surrounded by ever fighting barking dogs, polluting all species quanta on Earth. It's important to take that into the fee structure, too, i.e. to have 2 dogs, the fee is that of 4 families having 1 identical dog only, since it regresses the human quantum field and the dog species too. It's time to take our country back from the dogs. As a kid, we kept running away from stray dogs. That's my experience with dogs in Eastern Europe. Any dog that attacks anyone, needs to be euthanized if serious attack (unprovoked bite) and sterilized if a minor one of barking type that almost got to a bite. Humans first, *dogs second*. *The fee can be decided by correctly calculating all losses from dogs*, and dividing by the dog *breeds* and sizes that drain USA the most, these are just some basic ideas to give us fee *money* to turn all jails into healing centers and renew America, not the dog species. World Peace only lasts when no jails exist, as violent crime fuels wars, so we need a huge reform, after we reach World Peace in 3 months to sustain this peace. In families, humans need to be first and dogs 9th. World Peace leads to 500 year lifespan for dogs 500 times faster, since longevity tech evolves fast, so dogs win too. Americans are so empty inside, due to no meditation, no universal *gentle tender soft nurturing* loving kindness for fellow humans *(*evident in the sports section*, after you read it all to understand the "kind" US culture),* that they need cats/dogs to fill that loveless place inside. *When all* animals and *humans* may be gone in 10 seconds due to World War, we need Eternal *Universal* Peace, not dogs. ☺☺☺☺☺☺☺

While dogs and cats can extend our life due to our playing with them, etc, they can also shrink it in countless ways, such as the quantum degradation of human field via slaughter of livestock, the lack of concern for people who die in useless wars or suffer due to 10 billion violent crime incidents each year, which with real kindness for PEOPLE would go to 0 a year. Always try to be objective and see both sides of an argument, not only fake papers on pets: you may live 20 minutes longer, but the slaughterhouse worker has the highest injury of any job and he nourishes your "kind pet". When was the last time you massaged, kissed and gave a vitamin or something to a slaughterhouse worker? How well would you sleep at night with your lovely cat or dog, seeing the "least painful regular killing of chicken worldwide" daily that slaughterhouse workers have to do daily for your nonvegan *(they kill old egg laying hens the same way, causing huge quantum pain vibes that bring war)* pets if any, seeing this pig treatment and pus 8 hours a day? Is it fair? Kind for cows? Godly? Is a worker not more valuable in God's view than animals? So, how is that for kindness? In cat or dog nonvegan food often goes egg protein, etc, obtained by crushing to death billions of 1 day old male chicks. How is that for the human quantum field? Physics plays no favorites, it is OBJECTIVE. It's science. We can ☺☺*lovingly tenderly gently kindly* ☺☺ walk the talk of our spiritual path or religion or ethics. 2000 years ago they talked of atoms and nobody paid attention, today we know. Be kind, be sweet, *love people more than barking breeds*, allow all to meditate, sleep in peace, since even listening to soft music is not enough to block barking sound in condo, apartment complexes with thin walls where a small dog barks 1 hour daily in 200 sessions, and breaks the meditation of many, thereby holding humanity hostage to hell, literally, for people who don't know of meditation can't imagine a world of peace, and all these happiness 'boosters', all these mind blowing add-ons to bliss. Earplugs can work for many newbies to meditation, but not all, as they need to play music too on top of meditation to block all distracting sounds with eyes closed, to quiet the emotional storm. As people become better meditators, deep sleepers (who wear earplugs and still hear some barking at times) and breathing bliss practitioners, they can just ignore barking if in 20 years they become deep sleepers, but all that barking of anxiety after each move and sound of many dogs is destroying the human quantum field too, the even serene emotion frequency of infinite *gentle tender soft nurturing* relaxed grace, *even if nobody hears the barking...* So, if one really wants 0 violent crime (recall that all crime comes from 1000s of factors, and everything contributes, even human tone of speech from dog barking being polluted), all to meditate and be happy, they need to choose quiet dogs or cats that nurture a world of peace. ☺☺☺☺☺☺☺

The people who're bothered by dogs in condos need to immediately be able to go to *dogs.gov* and file a complaint, so the cops gently find a solution, so that the human beings' sleep and meditation are given priority over the "right of a dog owner" to disturb naps and sleep of 50 neighbors or 400 for outside barkers. Humans first, *dogs second.* This encourages people to buy

quieter dogs (yes, there are breeds that bark 100 times less, so just have a tiny *tiny* little bit of compassion for *humans* and do that) or move to the country where no close neighbors exist like in a condo. After all, "dogs are more important than people", so they can relocate for their beloved "family member" to be able to love human beings too. In our world, about 2 billion people have been bothered at least once, slightly, without complaining about it, by dog barking. We got a shortage of doctors in USA, *so,* we got 90 million dogs and many dog doctors too for that, *who could have majored in preventive medicine, etc and provided better healthcare for all. We're* acting against the interest of our own species. All these people working in pet stores, raising animals, crops to feed to animals who eat corn, soy, so dogs can eat meat, etc, use a lot of resources that could give us amazing free biomarker of arterial plaque monitoring for everyone and much more, adding a lot to human lifespan, possibly 50 years with more prevention, high tech, etc. Frankly, few realize some dogs visit doctors more than remote rural people, yet live 5-10 times shorter. Some centenarians never went to see a doctor, ever; dogs, often get to see MD 5 times. It's indeed, a highly 'efficient' use of our resources. We need dogs to catch drug packs, when with meditative bliss, all would be happy and not use drugs. Meditation, silence are low priority. Cops use dogs to chase violent thugs, when with meditative mp3s all violent crime would vanish. People buy guard dogs, when with World Peace and 0 violence, no need exists. Nobody dares to take a step to manifest the future of peace, i.e. fewer dogs. To manifest something, you need to act as if it already happened, yet 0.2% listen to only very peaceful music to prevent violent emotions in human quantum field, to upgrade the human emotional field. We spend 90 billion a year on bypass heart surgery, yet with meditative vegan eating, and serene music that reduces stress (a cause of plaque), most of these would vanish, as its low fat, low AGE, 0 trans-fat, high fiber, high antioxidant diet would prevent it. No to kindness, yes to barking, meat and rock and roll. This is our world, a little inefficient perhaps? ☺

Hybrid warfare of extermination *is* undeclared *war disguised as just another* "fashion or fad", such as smoking, weed legalization, cocaine in Bern (Bern Germanic Jews, or Germans in the German part of Switzerland?), alcohol legalization, assisted suicide (legal in Switzerland, the spy agencies torture people and then implant in their head to choose this by causing a lot of pain and sleep deprivation etc, in a way of outright murder, disguised as 'victim chose it'), promotion of LGBT (it's one thing for people to be aware some are born as hermaphrodite or etc and another to indoctrinate and induce millions to become gay to lower birth rate and IQ from male/female reproductive liquids drain), promotion of pets (to *lower birth rate and take over the nation, reduce peace, promote barking breeds to disturb sleep, create chaos, anger, all things enemies need to take over*), etc. Look at Austria, a government that encourages people to get tattoos known to irritate skin, shorten lifespan via oxidative stress, cause bacterial infections, etc, possibly bad type of Ashkenazi Jews pretending to be German (Austrians are

Germans) want to stamp German “cows” to sicken them. People can wear clothing with those words, not skin damage drawings. It's no surprise that the alcohol banning Saudis have some formal or informal ‘banning of dogs’, or even cats at times, perhaps also due to the fact people can start loving dogs a lot more than people and become genocidal psychopaths like Adolf Hitler, the dog owner. While the use of dogs for police until we get 9000 times better drone smell machines is ethical, since they sniff drugs or dead people (earthquake) or fugitives, the over emphasis on dogs can create a lack of incentive to have kids and interact with people, to develop one’s IQ and brain. Pets essentially stagnate the DNA matrix into a touchy feeling pet dependent state (pet and affection dependent people, those who want physical affection can get some massage done on them or massage others via the Eternia Volunteer Network), instead of evolving towards the ever ecstatic Immortal who loves all human beings via every greeting or 300 times a day even if he wants, instead of only one dog or human. I didn’t know until 2023, many years after I wrote this chapter, that the Muslim clergy discourage dogs in houses, but allows hunting, farming or protection dogs. Obviously, today people no longer need any of these, except cops who use dogs for smelling narcotics, until we eradicate all violent crime 5 years after the Eternal Universal Peace arrives in 3 months from the awakening of the brainwashed masses. Naturally, it is not kind to use dogs to hunt anymore in our modern high tech era, due to the ability to use darts and other instant death and 0 pain methods, or at least 50,000 times less pain. Dogs will have no use for livestock protection or service dog as tech (neuroscience of eternal bliss without hugs, robots) advances, since tech will allow carnivores, all predators of livestock to be instantly killed planet wide if so decided by the Immortality for All Council, which will happen in 1 or 20000 steps (small areas at once), to abolish bloodshed, slaughterhouses from Earth forever, as all eat only eterni food. ☺☺☺☺☺☺☺

The Hadith (post Mohamed) idea that dogs ruin spiritual progress is interesting, since dogs barking is lowering our ability to have a truly gentle eterni tone as explained above. We can ☺☺ lovingly tenderly gently kindly ☺☺ recall that in the neighborhoods of many nations, stray dogs who attack kids exist. Thus, the early life experiences of Mohamed (besides the obvious discordant low IQ sound of barking, that lacks the universal gentle tender soft nurturing loving kind compassionate grace of spiritual music) or people who're told by all kids to run away or stay away from stray dogs, can define their perception of dogs as dangerous, barking brutes who bite and shed blood, like wolves tearing deer and innocent sheep apart. Around Mecca, with temperatures super hot versus other cities he visited as a merchant later, there were no dogs, so he probably got attacked by dogs in other cities he visited, having little experience in dealing with dogs (since none in Mecca) and saw the horrific lethal attacks dogs do on people that youtube lists by the thousands and naturally told people to avoid dogs. It wasn’t anything too complex to arrive at such a logical conclusion, that's why today Saudis got 2 dogs per 1000

people, vs 250 in USA. It's nothing prophetic, just saying the obvious like millions of people wary of dogs (who don't know anything about Islam) write articles online to convince people to buy cats or mice instead. Stray dogs kill kids in India (see previous videos), since they roam the street. Likewise, dog training was very poor in 650 AD, so in 650 AD dogs mauled kids and friends of Mohamed daily, interrupted their prayers, etc,☺☺☺ mauled small girls like the ones Mohamed had as concubines, so Mohamed was angry and may have wanted all child human sacrifice done by dog owners to end, just as today, decent people call for the end of satanic ritual sacrifice of children by satanic dog owners. ☺☺☺☺☺☺☺

A satanist doesn't need to kill children in a ritual, he can simply buy a dog to unleash it on infants, thus, the demonic aspect can't be discounted. The satanic US law allows this "ability to deny one's intent to murder" and just escape justice. For a baby is more valuable than 1 billion dogs, thus, no dog is OK, unless a tiny Shih Tzu who can't kill babies or infants, as that breed only licks people, having been bred in China for centuries as emperor companion dog. Only a demon possessed person buys a big dog without needing it for cop or service, because no dog is perfect and any dog can bite and maul for life a baby or even kill it if escaping and running into a child who is 10 feet from parents. Mohamed as a practical warrior who wanted his militaristic community to be free of needless chaos dogs create, especially disturbing the sleep as they barked at 1 am to 9 am daily randomly. Because dogs normalized child human sacrifice by murdering babies due to lack of training in 650 AD, dog possession was viewed probably as satanic, as simple as that, they thought it's demon possession, and it is, if you define demon as anti-human violence thought forms of quantum physics, if atheist. Dogs don't understand people, our task is World Peace first, zero violent crime, but nobody cares about it, see how all drugs enter USA, when with 10-20% of all US dogs, we could sniff all mail, containers, trains, ships, cars, etc worldwide efficiently via the 11 companies for all humans, not just USA and end all drug use in no time. But egocentric animalistic bastards, who only care about themselves, not babies killed by dogs, don't have any empathy for others, only for their cocaine killing millions worldwide… They would rather have dogs than prevent the murder of all people and another 5 millions species via the 2 capsule scenario brought about lack of focus on zero war, zero violence instead of dog shows and dog hospitals and dog worship. It only takes a dog bite on the hand or neck and bleeding too much. Any rational person values life of people, above dogs, but because dogs may invite demonic possession, via resonant primal holographic entrainment of wild dog, wolf hyena killing predator bloodshed energy of associated cannibal blood shedding primitive species of ultra low IQ, all rational thinking stops and they act as empathy-less cruel serial killers of endless people mauled by dogs. They love fierce domesticated wolves more than people, having possibly been wolves or wild dogs in prior incarnations if they had one. Their ego is so huge, they refuse to consider meditative bliss might give them 10-1,000,000 times happier states

than any dog ever would. Mohamed didn't prohibit alcohol initially, the complexity of the alcohol thing is explained in the Mohamed section. Since many pagan cults worshiped possibly 'beings with dog head' (or so they thought from the pyramid pics), advising against dog worship may have been a way to protect locals from the foreign influence of Egyptian spies who may have been a threat to his monotheistic ideas or to the Saudis, so to steer people away from excessive adulation of dogs, he may have written less rosy stuff in the Quran about dogs. The ancient times had less science into how to diminish bites, barking, so given the huge amount of wild dogs, the Islamic writing makes perfect sense, they simply wanted to protect people from bites and from emulating the wild dogs who barely got domesticated.

This Islamic dog perception is truly rooted in reality of their ancestors and of farm dogs killing wolves, of wild dogs causing endless pain (watch the poor mammals) by slow killing prey: big cats first kill the prey and then eat it, dogs simply eat it and it takes far longer (watch it) to die. Not only that, wild dogs, in tight entanglement with all dogs like them (most dogs, except tiny adorable ones), don't "*camouflage, hide and suddenly attack*" (like big cats do) to make the ordeal short, but chase the prey a long time, further destroying the quantum field by generating maximum amount of fear vibes globally, anxiety and despair. While we humans are far less entangled with wild dogs vs regular dogs, we still are even if we have no dogs as pets. However, small non-barking dogs don't kill anyone directly if carnivore, and can help some people feel less lonely and cope with stress, when the government has not taught kids via emailed videos that God or the Immortal Eternal Bliss of the future Immortals, the Immortal Quantum Field Species Archetype is with them always, that serene music makes people happy, and the meditation is there to enjoy infinite eternal bliss regardless if you're atheist or theist. God can be perceived as the future Immortal humans quantum information field guiding us or as the quantum field of all present humans for atheists who don't believe in a separate entity, but one doesn't need to call it God if atheist. The human quantum field is degraded by the slaughterhouse bloodshed for animals fed to non-vegan dogs (no matter if we have a small or big dog), so would you be so kind to gently allow me to say that it is ethical to ☺☺*lovingly tenderly gently kindly*☺☺ change all dog diets to a vegan one, since these days they add extra vitamins, especially for cats who need taurine and arginine additions to the vegan food? You now can understand why the quantum field exterminated certain groups of 10 or more people, whose main hobby was terrorizing and torturing other nations and ethnicities like wild dogs do to mammals vs big cats or vegan animals. In the long run, all terror, torture based empires will vanish so that all beings are happy, kind and nobody suffers at the hand of wild dogs. Some people are far worse than wild dogs, since they torture others for days, weeks, months or years, to vampirize and feed off their enslaved status, and they do that in a camouflaged way sometimes, killing anyone who finds their methods. We know that history repeats itself if we don't become aware of their tricks. For

humans it's worse, since they know there are infinite resources with tech and space. Dogs don't know they can be eterni, but humans know and are thus, soul wise, far worse than wild dogs if they torture others like most military spy staff do in their job. So, when you see thousands of pet stores and 0 stores for Eternal Universal Peace (all planets) World Peace in 3 months, you could ask yourself: who do they serve? Humanity, God or aliens wanting eternal human bloodshed (or demons as religious may call those quanta of information that emanate from violent lifeforms)? The poor workers or the rich aristocrats who want max war, chaos for max easy looting, preying opportunities and enslavement of nations? Aliens and even human enemies want us to love dogs and shrink our population, replacing kids with pets, to remain callous ☺puppy IQ humans☺ stuck to this planet. When World Peace exists, love and bliss are huge, no pets are needed. If you feel infinitely loved, why would you need pets for? You would try to save the millions of human 'pets' killed and maimed each decade by wars directly or indirectly, due to resources and time diverted to war, torture. Let's create a world of peace and ☺☺*lovingly tenderly gently kindly*☺☺ stop the torture. Love the people, not just pet. Choose vegan food for pets. Don't worry, after World Peace and 500 year lifespan for humans, we'll make any pets live to 100 too.

Mice of certain types weigh 20 g max, while cats weigh about 4400 g, dogs 18000 g (40 lb), so one can have 900 mice for 1 dog. This enables us to love these 900 mice and to give them 90 types of multivitamins to each group of 10, to pet them, etc and to figure out which diet is making the mice live 5 times longer, thereby achieving a quantum revolution in earth species, which one species tripling its lifespan in record time and giving us insights that often apply to humans too. Right now, we're very selfish, we simply exploit the cats and dogs to get some licks from them or smell jobs for dogs, but we don't really work to help any species, dogs or others to live 5 times longer. We don't help their species much. That all changes with the new mice longevity culture. We help one species to live longer so we can fast realize how to make all the rest do so. At least, if you love a pet, get something 900 times lighter, using 900 times less food and login the diet into a database, the IR waves, the areas you pet the most, to help Immortality *Nurturing* Agency to cure diseases and figure out the best ratio of vitamins, nutrients, protein, carbs, fats, etc. Sign up for your mouse, get birth certificate and let all food come from a special pack with all mg weighed exactly, so you do at least something to help humans too, at a fraction of the cost. This gives you a chance to cozy up and pet the mouse, develop empathy, biochemistry knowledge, and take part in the new global culture trend of having mice pets to help triple their lifespan and that of humans after understanding what worked. In biochemistry millions of diet modifications have the SAME EFFECT, in mice and humans, so the chance of us figuring out lifespan tripling easily increases with 1-5 billion citizen scientists each with 1 mouse or even 20, and different love methods: petting on back, head, music of this or that type, infrasound and ultrasound, electric, magnetic, etc fields known to have a healing effect on

humans in small doses, etc. They will be more pampered and well fed with high quality food than any dog or cat today. They will help all species later live 4 times longer, so if you love pets, consider it, contact local longevity lab at universities and start the citizen science project now, while voting for Immortalist Party. If you're such a touchy feeling selfless type, touch your mouse, but don't get their diseases, so do proper research and keep it well caged, like those lab rats. Make the cage gigantic though, 20 times bigger than what they have now, so it's the equivalent if you living on a 5 acre property with many trees, amenities, etc. Since nobody likes to live in a 100 ft2 area all their life. Let him be like a king. Let .NA.gov provide cages for those with dogs and cats, to provide science education to kids and teach them how to measure many biomarkers, enter data in the .NA.gov account for their mouse, order new food supplies and become a medical biochemistry biophysics guru since age 15, knowing more about longevity than top 1000 experts today by age 25. Change different things in that huge cage and see what effect it has, or order a different setup from the .NA.gov, then play with him in your lap too 20 min daily, to see different forms of love, Qi emissions, human touch effects, etc. Place in the cage, the mouse palace, an IR mat of various frequencies that turns on only sometimes, and this and that and see what he likes to use the most and what effect it has on longevity, mice choose organic food naturally when given a choice, so they can tell us a lot of things about what works and doesn't to triple their lifespan. All this knowledge then can be used to treat human diseases, prevent age related diseases, since we can measure once a year many markers of 100s of diseases. Mice are naturally vegan, so that's great. ☺☺☺☺☺☺☺

Conclusion & Final Ethics Lesson: Having seen the 100 horrific deaths and maulings videos above, kindly watch how a 17 year old got 120 bites, looking horrible due to an infinitely cruel American society who places rescuing dogs on a much higher priority than rescuing millions of people bitten by dogs and victims of violent crime. Our infernal society of Dog Violence Worship prioritizes finding homes for dogs, while people are homeless when 20 times more housing units sit empty. Humane Society and etc are terrorist organizations that fuel the Genocide and Genocidal Mutilation *of Humans* by Bastard Dog Owners☺☺☺, who shorten the lifespan of people by 5-10 years by mauling and terrorizing the rural and semi-rural city areas where dogs roam and bring fear. Not to mention bad sleep from barking dogs at night causes irritability, car accidents and violent crime next day, so we have 10 million USA dogs☺☺☺ that need instant euthanasia, due to them being dangerous or barking too much harassing 50 million people too poor and neglected by the criminal government to say anything anymore.☺☺☺ In a civil USA, all unleashed dogs are instantly killed by law, as a just penalty to the genocidal owner who risked the Life of a human. People are above dogs and we can't wait 3 minutes to find the owner. It's Attempted Murder to let dogs out.☺☺☺ If owner is a Psycho who can't make a good fence or leash, he ought to pay for it: dog killed and $500,000 fine. Anyone owning a > 150 lb Dog needs

pay 90 million/yr to the 0 Violent Crime Fund, since Rescuing Human victims of Dog Owner *Genocide* against 5 million Bitten Humans and Violent Crimes by humans is 1 trillion times more important than the Spoiled Life of a Soulless beast who spends $1.4 trillion on useless garbage instead of on ending violent crime in 3 years. It's clear that these Dog Owners *(unless they're cops who sniff drugs etc or people who own service dogs)* have not Attended or Internalized any Lesson on Altruism, for if they Did, they would have no dogs, but be active in ending violent crimes and dog bites in 3 years worldwide. The millions of bites, each shorten lifespan of Americans by 0.2 to 10 years, meaning, when you add the lifespan years, you get about 10 million lifespan years lost each year. This is the equivalent of killing 500000 people 20 years before their normal death at 80. It's a GENOCIDE each year, a 5 million HOLOCAUST each decade done by the Dog mafia that runs a $ trillion/decade business of MASS MURDER AND NATIONAL DESTRUCTION that is 80,000 times MORE DEADLY THAN ALL Islamic Terrorists in the USA. Each year terrorists kill 5-10 people, but dogs, 800,000, when the correct calculation of all barking sleep loss, bite damage is made.

5.7. *Gentle* QUIET CITIES☺☺☺ – 14 pages on vast reforms to reduce noise levels (because sleep is the main helper of longevity, body repair happens during quiet sleep). Dirac was the quietest physicist and Nobelist and he helped physics discover antimatter. Silence as fuel for 4000 years lifespan discovery is needed for 10^{33} year lifespan innovations. Thus, Immortalism mandates:

1). 0 fireworks (see how bad fireworks are), 0 mosque calls (hear mosque calls in US from a "religion" with 550 quotes on how to commit every genocide and atrocity known to man: Quran: sex slaves, mutilation, beat kids, beat wives (see all Religions of Genocide), 0 church bells from a "religion" with 1450 quotes (click each category) on how to commit: genocide, mass rape, human sacrifice, arson, alcohol drinking to beat all around you, kid beating, slave beating.

2). 0 loud *parties/music during the day by requiring* all auto manufacturers *to* make the maximum car volume inaudible from 20 feet, make it impossible for anyone to play booming music that vibrates the car of nearby drivers and distracts them, so perhaps 3 times lower than today, same for boomboxes, etc, everything much lower volume to save billions in hearing aids and hearing damage treated *due to high volume music at concerts or home-car systems,* (many play booming music loud and nobody can complain between 7 am-10 pm in 10000 US cities. The law protects the aristocrats, terrorists and gangsters. Fools they terrorize entire neighborhoods with loud booms, rap, rock, metal and other garbage. Losers play loud music at the incitation of Hollywood Jews/Brits/Nazis who often write the lyrics for pop, rap, rock, music to destroy all gentiles as the Bible teaches. This loud music terrorism is fueled by concerts of most US music celebrities who promote a macho hooligan like music, so a federal ban and 1 million $ fines for very loud music (booms etc) need to occur, the end of city and state governments and the

implementation of indefinite national state of emergency until violent crime is 0 ☺☺☺

3). 0 loud car or motorcycle acceleration ($90000 fine required for all people in nations doing trade with USA: outlaw biker gangs) or racing/tire screeching/following people like biker gangs,

4). 0 motorcycles and 0 mopeds (only cops have them to catch criminals in stuck traffic, all made in USA, stop imports of foreign bikes that make so much noise) as they're used by serial killers, thieves to run away after crimes. Mopeds can reach 30 mph, which allows thieves to rob all in NYC, etc. Mopeds make noise, can kill small kids, seniors if they're run down by accident. With self-driving vans + drones making all deliveries, there is no need of deadly mopeds. Mopeds violate the new US Constitution ethos of Immortality *for* All, based on the Declaration of Independence from the Vampiric Aristocrat and our future new Immortalist Anthem. It's unacceptable to have the kid or senior head split in 2 as it hits the concrete sidewalk. We can't have random deaths for the poor and the rich live in gates palaces of remote zip codes. E-bikes need to be limited in weight and to 8 mph, to prevent theft, robberies, similar skull cracks. CDC shows 1,000 bicyclists are killed by cars in US yearly, 120,000 bicyclists visit ER for car injuries, bike trips are 1% of all trips, but 3% of US car crash deaths. Immortalists will lobby for 0 bicycles/ebikes, for 0 scooters, for 0 mopeds, since these are stone age transport that causes cumulative decades long brain damage via excessive brain shaking, organ and ocular damage. We can't have these people be killed by cars or killing pedestrians. Immortality for ALL. NASA knows all astronauts suffer brain/ocular damage from brain hitting skull, and etc. That's why pilots, who're the healthiest people to be able to pass the test, live only 2 years extra vs average, because normally they should live 10-20 years extra, but the brain damage is killing them fast. The brain shaking from riding scooters, bikes, mopeds, cheap cars is genocide, so they will be illegal. Not to mention, we have an obesity epidemic, these scooters make people even fatter. Let's walk. Turbulent flow causes strokes, infarcts and is facilitated by excessive shaking, that leads to microvascular damage, like rock/metal singers die decades early due to destroying neck vessels as they (or fans) shake heads in demonic concerts promoted by genocidal singers worldwide. Immortalists will arrest and sentence to lifetime labor anyone who teaches others to shake heads. Repeated tears in body vessels from shaking create arterial bumps causing turbulent flow, which then creates 20x more clots causing 2000 mini silent strokes leading to vascular dementia. All sports that shake heads a lot, especially martial arts, boxing would be illegal. All yelling, shouting, sudden excessive laughing, holding laughter create turbulent flow, clots too.

5). 0 loud *roosters* or loud *birds,* 0 coqui frogs (Hawaii, Florida, Puerto Rico) making noise at night/mornings, citric acid and laser program to get all of coqui frogs out of USA with AI drones. We need to get rid of coqui frogs that the state of Hawaii has struggled to get rid of, since loud sounds prevent good sleep for those not using earplugs. Mandate all Puerto Ricans in USA spend

3 months a year to get rid of all coqui frogs in USA (in order of income and assets, richest first), Florida, Hawaii, etc, that they brought to Hawaii, USA until we're free of this anti life sound of hell. *In 3 months, we send 10,000 Puerto Ricans to get rid of all Coquis and* Free Hawaii forever. Anyone caught with one, 5$ million fine and lifetime labor *for* genocide via sleep deprivation. Everyone volunteer to fix USA, violent crime rises with bad sleep, to remain in USA, all richer Puerto Ricans will have to either go there themselves, or pay 3 poorer people to go there for 3 months each. The subjugation of the poor American (live on 15K a year income in poorest areas where coquis live) workers by "worm IQ" Puerto Ricans needs to end. These frogs prevent sound activating light of security cameras from detecting big cats, animals, thieves well before they're detected by a motion sensor, giving home owners 5 times more time to get ready or to activate the low level alarm: "We heard you thief, back away, we see you with night vision". Property values crash in areas with these 100 db sounds, be shocked of the Hawaii forest sounds. Cuban frogs can be bought to eat the coqui and eliminate them in the entire neighborhood. In Hawaii, house sellers need to disclose coqui sounds. Hear it inside with windows open. *Thieves and criminals* love these frogs that they bring to many states, since it allows them to break into homes easier without being heard by people or dogs. Tasmania got Tasmanian devils, odd animals who shriek like 'devils'. They disturb the peace in the country folks, so we need replace them with another species that's quiet. ☺☺☺☺☺☺☺

6). 0 helicopter tour noise above residential areas + replacing helicopters (90 dB @ 100') with cyclorotors (59 dB @ 100') for all purposes as cyclorotors are quiet and don't tilt: Hawaii, other tourist areas, watch youtube for 'tours', no need to fly 200 times over houses to shake them; Long Island forced all to fly offshore, but the FAA allows 27K flights over the poor in the area; 120 flights in one day causing high blood pressure, low academic scores, mental illness, 24-7 365 days a year, lower reading comprehension, if it was rich people living in those areas, it would not happen. See the public meeting complaints. The US aristocrats do tours, China takes over the pacific, watch how they wake people up at 5 am 3 helicopters at one time, all day long in some Hilo areas, tours for cow IQ folks, too selfish, too retarded to think and do something for USA instead of 'tours', a government *of* murderers *(FAA pigs) who give a dime* about the working class), 0 small airplane noise *(used by* genocidal aristocrats *for their business of looting the 99%, they don't need physical meetings, this is endemic everywhere),* the filif fruit fly IQ mainland folks who come to do tours don't realize that noise actually destroys every cell and organ thru biological entropy the sound creates, but in our redneck country of rat IQ clowns, this doesn't even register as few read the Chapter 7. Hawaii legislators proposed bill SB 2474 to conduct a study for Puna district noise. India's gift to USA: terrorize US citizens with copter noise because Indians can't watch the Hawaii from youtube. Americans, Hawaii tourists, don't be demons, do you like helicopters flying 95 times a day above your house (lower Puna citizens are

hyper angry), 5 am-8 pm? No, then don't harass others. Be kind. The Governor of Hawaii needs to be impeached, he's a fraud for allowing such terror. Helicopters, aristocrat planes fly recklessly at all hours of the night in Oahu, people can't sleep. Every so often, 7-8 people die as their tour helicopter crashes, don't tour, you risk your life. The leaders of Hawaii are kindly invited to stop committing genocide by helicopter noise and replace $ made by helicopter tour companies with fees at the 10 museums of Eternal Universal Peace and Immortality *for* All that showcase their Ethics☺☺, Anthem, 4000 year Science & Culture. Just turn Hawaii into the Silicon Valley of eterni powders via Eterni Food Inc, the 1st of the 11 Incs. Make Hawaii US's 1st self-sufficient state with the most advanced food production on Earth. Since Hawaiians believe in 'reincarnation', they agree to build the World of Immortals, so in the future life, they enjoy immortal shapeshifting lifespans born of the chemistry Unis of Big Island. Make Hawaii the highest IQ state in the nation, since it's the lowest IQ now. ☺☺☺

7). 0 ice cream trucks: a truck injured 29 children, ice cream is poison, no beeps allowed, *no such* poison *trucks allowed to destroy our youth*: far worse than milk; no tire noise, no such crap, order everything from Amazon, don't pollute the neighborhoods with noise. We're not India.

8). 0 loud pressure *washing* (105 dB instead of 77 dB quietest models) ☺☺☺

9). 0 loud bush trimming, 0 loud grass mowing, 0 loud street cleaning (mandate quieter tech)

10). 0 loud *barking* (barking dogs get euthanasia or muzzle, see pet chapter on rules)

11). 0 loud *music after 7 pm*, all stores (except grocery/Walmart type of stores which can close 10 pm to 6 am), clubs, venues close at 9 pm, to ensure good sleep, no night concerts, events, parties ($*1,000,000* fines for violations by even 1 house), nothing open so all go to bed at 10 pm,

12). 0 pubs and bars alcohol banned, legal only to drink at home until all are educated over 1-2 years via TV-radio-web, until fully banned with lifetime labor for anyone distributing it, as all are taught happy breathing on TV-radio to achieve bliss, bars cause fights among drunks, domestic violence noise that wakes neighbors up, crime, car crashes that cause sirens past 9 pm

13). 0 vape/liquor stores because intoxicated people get into fights, sirens come ☺☺☺

14). 0 loud food processors 50 dB max, 0 loud humidifiers 22 dB max, 0 loud vacuum *cleaners* (60 dB max, today 1 in 100000), 0 loud washers and dryers for less organ damage by infrasound, low frequency audible sounds, 0 loud room heaters replaced by ultra silent 1 dB max electric heaters, 100% renewable electricity for 0 combustion engine noisy cars, 100% EVs ☺☺☺

15). 0 loud air conditioning units: split ductless AC for almost everyone, ban central AC for single dwellings, as the unit is far too noisy causing bad sleep (strokes, Alzheimer, short life

come from bad sleep) for those neighbors or tenants annoyed or disturbed by the compressor unit right under their window, vents spread germs, ducts are always a filthy mold colony,

16). 0 loud house walls, windows, roofs, doors (poor sound insulation) in areas with high background noise to ensure decent quiet single family housing for all citizens, 0 loud sirens by implementing the universal AI LiFi Immortality Traffic System (any car shut down remotely).

17). 0 combustion engine cars, all natural gas, biofuel and combustion engine cars banned globally due to engine noise shortening lifespan of drivers and city dwellers,

18). 0 tattoo shops (tattoos spread disease, infection, lead to hospital visits, *ambulance sirens*), 0 body piercing shops (infections result, more ambulance, more traffic, tire noise, reduce sleep quality) they steal materials for single family homes for all, they destroy national health, shorten average lifespan, making people pierced like cows). Japan has somewhat quiet cities. ☺

19). 0 door knocks ☺☺☺ (*unless mail* requires signature, *so* that *all get* good sleep *and thieves don't use knocks to scan houses, disable* cameras, etc; interrupted sleep is as bad as getting drunk, let missionaries stop preselytizing, all religions proselytizing becomes illegal as it is a forceful invasion of others' privacy and personal space, an act of pure *terrorism* (religions were made as a disguised spy base to loot all nations via fake miracles) to promote violent genocidal psychopathy disguised as Judaism, Islam, Christianity. The amazing & beautiful ☺☺☺ ethics.*gov* will educate all about gentle kind Immortalist ethics and the ethics of 0 donations religion; these filif frog IQ people (compared to aliens who live 30 times longer than us, as humans live 30 times longer than rats) ☺☺☺ , who steal trillions of dollars from the US government by tax free status for their business empires of looting gullible people, can simply demolish their depraved churches, mosques, synagogues teaching genocide of 8 billion people and build single family housing for the homeless and condo dwellers in USA 75 million of them, *whom* they wake up and harass all the time with their door knocks. *Violent crime and all crime is due to* aristocratic theft *and poor living conditions, noise, crowding:* when others make 10-50000 times the hourly pay, theft will exist, so will violent crimes, robberies, etc. Why harass sleeping people and shorten their lifespan? They can explain their savage Bible-Quran-Mahabharata beliefs online, via youtube or a website and if anyone wants to believe, *they* will. All donations for churches are illegal, unless they prove 100% of their beliefs and statements are true, which they can't, as no physics of afterlife exists; otherwise, it becomes fraudulent marketing, deception (give you eternal life in another dimension in exchange for your donations and following cult rules) and theft by fraud). Door knock fine is 100K for any religion missionaries or company salesmen *knocking at a door*, with house owner receiving 50K of the 100K (all houses will have federal wired camera at entrance by federal law to use AI to detect (AI sends email with picture of intruder who knocks, if face is not the owner and family) those who knock or touch the door and

fine them 100K, to reduce violent crime a trillion fold. Missionaries have to *pay* 100K on their own and *their church* 90 million dollars extra fine (which is used to retrofit loud houses, reduce noises, replace noisy cars with silent electric ones, etc). The same holds for salesmen, company *pays* 90 million. Missionaries are forbidden from approaching people in public, as most are not interested and become angry, plus it wastes everyone's time when a 3rd grader IQ guy is stopping people to deceive them (read the first 2 pages here, to understand why only a 0 IQ guy promotes the Bible) and spread global terrorism via global rape, genocide, theft, cannibalism, blood worship. In the "holy Word of Satan", the Bible, in 2 Kings 6:28-29 a Jewess *boils, eats her son*. People will find a website or youtube of a 'church' alone, no need to harass strangers on the street. These are the state of emergency rules to bring Order to All Cities for 0 Violent Crime. Churches, Synagogues, Mosques are spy bases of the Italian (if Catholic, or country of origin of the denomination), Jewish and Saudi Mafias: they got only 1 goal: theft via lies and ultra violent scripture that lowers IQ 5 fold and kills humanity. Low IQ people are much easier to enslave, with all resources stolen, everyone destroyed via microwave weapons. Places of worship provide a good hiding location for gangsters, terrorists, serial killers, spies and thugs, to do their illegal actions, while putting on a cover or face of a spiritual or religious staff or clergy. ☺☺☺

20). 0 loud video game, phone, computer noise after 9 pm (federal law makes it impossible for tablets, phones of minors (ages < 18) to work after 9 pm and before 8 am (all screen frozen except a physical side button pressing 3 times for 1 second each time, for 911 calls), so all kids go to bed instead of shouting, yelling, playing video games that wake adults up and cause power plant explosions due to mistake by tired adults living next door (whose sleep was interrupted) or parents: loud spoiled disrespectful (for parents, neighbors) violent kids addicted to tablets, phones, needs better sleep, so they become kind, peaceful). Adults 18+ living with parents fined $30000 for noise made that annoys neighbors, parents $20000, while 30+ adults fined $50000, with half money given to the victim neighbors annoyed, yet triple to the hero who reported this act of hidden genocide (body repair done while sleeping, *bad sleep from* cheap appliances made cheap and noisy by trillion dollar palace dwelling aristocrat theft *is* GENOCIDE, is like intentional murder, killing *people, causing heart attacks, strokes, diseases;* bad sleep = irritation, more noisy fights, more police visits, more sirens, etc). The violent thug culture that dominates Earth turns youngsters into violent adults who will blow Earth up. When someone sleeps, be quiet. ☺☺☺

To create a restorative deep sleep (50% of longevity) nap for all poor workers of the world, nap or day sleep essential for 2nd & 3rd shift workers who deserve Love like in a true Immortality *for* All Walk (not just talk), to create respect for meditative silence, so all can gently focus and breathe to connect to God (or happiness if atheist) personally, we can ☺☺*lovingly tenderly gently kindly*☺☺ OUTLAW witrhin 1 year in all 50 states and later *all* nations:

1. loud barking, 2. loud parties *(day or evening parties and barking that are louder than 60 db to any neighbor sleeping with window open to avoid AC noise, etc; excessive barking being banned via sensors monitoring sound levels via anti crime cameras,* tenderly *bring loud dogs indoors),*

3. church bells, 4. mosque prayer calls, all pubs, bars, liquor/vape stores, strip clubs, brothels, 5. loud grass mowers, spray painters, pressure washers, bush trimmers, etc (ban noisy types)

6. night clubs, casinos, sports events after 9 pm, and related businesses (all must close at 10 pm to avoid disturbing poor workers trying to sleep to toil as slaves for aristocrats, nearby, because sleep is the most important thing for longevity; our priority is Immortality *for* All, let all be the teleporting shimmering genderless shapeshifting Immortals living to a trillion, not just a few aristocrats: too many bar fights and police calls cause sirens in cities after 10 pm and this must stop now; all bars, pubs are temples to 'demonic' violence that cause high violence, sirens: at 15 L alcohol/year, Darwin became punching capital of the world)

7. fireworks *(on New Year or holidays, simply watch a nice hologram show with* peaceful *music on youtube or city* hall; a 3 page section explains fireworks are anti-immortality, criminal (damage of those forced to inhale poisons, wake up), because they damage lungs, ears, shorten lifespans in complete disregard for the need for World Peace in 3 months instead of parties and $2 billion/year (USA) explosions). Instead, those who love *church bells, BARKING, fireworks, super loud music and moderate volume calls to prayer*, can listen to them even 200 times daily on their mp3 player even until all hearing is lost if they so freely choose. ☺☺☺

Lawmakers in all capitals would create such laws if Quiet Cities Citizen Enthusiasts *played* barking *sounds 5 hours a day* near their house *to mimic a neighbor dog*, from 9 am to 4 am, like some dogs did near my house for years. Let's see how Muslim mayors and city council officials would enjoy sleep if we play the "*World's Workers We Unify*, Immortality *for* All *We Deify*, Workers *of the World Unite*, Against *the* Muslim Rapist Parasite, *To Bring All* Eternal Trillion Year Life"☺☺☺ near their window at 5 am as they did in 200 cities worldwide in infidel nations. We don't go in Muslim nations to play the Immortalist Anthem, or we're dead as Saudis don't allow any religion but Islam, why do we allow them to play wake us in NATO? Let's see how they love hearing Barking Sounds and Rape Quotes from Quran, Mutilation and genocide Quotes from Quran, play it 5 times, 11 pm to 8 am. All North and South Americans, Europeans, Australians need to play these near every city official, no sleep, until the playing of prayer call is banned in all NATO, Americas, Australia, China, ASEAN. Why duplicate, create a federal law. None shall interfere with one's freedom to enjoy silence. Let the World know the Quran: RAPE of nonMuslims is their religion, like we Know the Torah (Old Testament): genocide, mass rape.

Today, there are already 100s of such Muslim apps for Android etc for those needing 5

reminders to pray or who enjoy loud music or bell sounds, you can use these apps in airplane mode to avoid RF pollution. It's the epitome of low IQ to waste so much time shouting like 'gorillas' in Congress sometimes (they role play, just theater to pretend they're enemies, at least a few times a year some big circus) about nonsense, when the *ELEPHANT IN THE ROOM,* DECENT SLEEP, *the single most important thing for longevity,* doesn't get any space for debate in 100 years: how can anyone have decent sleep if poor if these dogs bark for 7hrs/night? The wealthy aristocratic Congress people are so disconnected from the harsh reality of the 99% poor, they have never listened to these insane dogs for 5 hours daily 5 years in a row and to the wild parties. America needs the Immortalist Party. How can anyone get some decent sleep or nap if the violent music fans blast their evil vibes for all the world to be bombed due to the quantum string vibrations? The poor *is so used to a dysfunctional bankrupt selfish* America *where too often nothing is done after complaints*, that they don't complain anymore: so they live like rats and slaves of *dogs, animal dogs and aristocrats*☺☺. Why would they? The city won't do anything about it, we got 20,000 villages and towns, it takes eons for the message to get thru. Then people have to do it all over in every village, since we have no centralized reviews.gov to enable all to complain about stuff, so that once an issue exists in one city it's fixed in all the other 20000. We got 20000 Americas, so nothing is done fast, efficiently and kindly for those who deserve a better life. *Let us not wake others up*, for it is a big sin☺☺☺ *that rouses world anger quantum vibes, brings War and makes the bell or call to prayer useless*. We can ☺☺ *lovingly tenderly gently kindly*☺☺ discreetly subtly *quietly connect to God*, enjoy our party, dogs, etc, without making others angry with our choice, without intruding into others' space, homes (loud sound enters 100s of homes), etc, that is the key to World Peace too. One can connect to God via breathing 5000 times a day, not just 5 times. This way we prevent people from abusing alcohol, drugs, nicotine in their futile attempt to feel good and happy, happiness ☺☺☺felt easily by ecstatic immortalist breathing while listening on their mp3 earphones to moderate volume ultra peaceful music. This serene music brings World Peace in 3 months 50 times faster than bells or prayer calls, 3000 times faster than party sounds or *900,000* times faster than barking. So, it's a matter of the level of one's kindness, after all, when you see the MRI data of all people in an area, as a result of various sounds. ☺☺☺

In Nepal the young people protested about the corruption of the government that banned all access to youtube and other gold mines of information and the prime minister resigned, ban was reverted. In Morocco, the students protested the building of stadiums, which are used by the aristocrats to drastically lower the average IQ of the working class while they steal trillions and educate their kids at private schools. The young people can protest nonviolently in America and all nations too, for the changes needed in their nations. The issue is the same everywhere, there is no universal free education and universal free healthcare, universal healthcare-ethics

education on TV-radio, continuing IQ/ethics development. The young globally have to deal with the same exact aristocratic criminal murderers killing billions of people via sports (everyone is killed globally at 73 on average, when with education/healthcare we live to 150) and 1.4 trillion$/year in USELESS Products Sold via TV-radio Brainwashing, while Education-Healthcare to Live to 500 doesn't exist for these Mutant Glutton Pigs whose main hobby in life is Stuffing Themselves at 5 trillion restaurants (meat has blood and animal feces, so most are blood/feces stores really), that shrink lifespan by 9 years due to AGE caused brain damage making USA a 3rd world country of 0 IQ chimps. Why do these feral pigs (domestic pigs who become like wild pigs within 4 months, just like politicians become more aggressive once elected and serve the system, not the people) allow so many restaurants, when we don't have any preventive free biomarker clinics, free education universities and healthcare? The feral (just like fe-de-ral ones with ☺abysmal IQ☺ projects) local/state gov pigs approve the permits for these "blood-feces stores disguised as restaurants" (joined by night clubs and bars to terrorize the cities with noise after 8 pm), they create the evil rules, they claim they're different than the federal wild pigs, but they're not, the push Bible foods of bloodshed, not eterni foods of the 11 companies. No sports ever allowed any society to reach 150 year lifespans, college professors have lived to 105 without exercising once in their life, except moving around the lab to further knowledge, the only thing that grant World Peace and Trillion Year Lifespans for all. Moving a ball will never enable us to live to 130 even. We need universal free education and universal free healthcare, high tech Eterni Foods for the workers who're always employed in one of the 11 companies.

We can gather and protest at the offices of the ruling aristocrats (mayors at least) who mismanage every city, country and state in the USA, we PLAY the worst heavy metal, rap, pop music in USA at high volume between 6 am and 10 pm, or whatever the hours in a given city that are legal and when mayor returns home (early morning 6-9 am and late at night before the cut off time especially, 7- 10 pm for example when pigs are home), when these filthy pigs said that it is legal to play sound at any volume. Best times would be just 1-2 hours before cut off time or early morning when they try walk their dog or meditate etc when people enjoy a walk outside and this horrible music is played to ruin their day like terrorists ruin many house/condo dwellers with noise. Only when the rich city officials (that's why everyone wants to be mayor and city council, you get astronomical salary) are served the poison they give us will they change the laws. Shielded from the bad areas, they're out of touch, as they give themselves big salaries, like the phony university presidents stealing 8 million while students can't sleep due to noise in the dorms. We PLAY the music they hate the most or even better, PLAY☺☺☺ for Democrats Mussolini, Hitler speeches that sound like HELL, like their Depraved Music they play in every city in the Genocidal Illegal Stadiums, built Via Murder and Subjugation of the Working Class. Make protests with these demonic lyrics these infernal demons have legalized in USA, pick up the most

infernal 20 seconds of the most infernal USA songs and play them Loud until they resign, PLAY for Republicans who Shoved a "Religion" of Murder, Slavery and Slave Beating at Gunpoint the hollering tone of Hitler (who called for enslavement of nations), of clergy (pastor, rabbi, Buddhist, imam, Hindu) these infernal demons have legalized to brainwash the masses and loot via illegal donations, PLAY the loud hollering by sports commentators, the fights, murders on stadiums glorified by Republican Monkeys, to see how they like to hear that noise in the human quantum field that creates murder/war that they falsely claim to "fight against". This sound would immediately force these subhuman crocodiles to change the Demonic Laws of the USA in 20000 demonic cities with the Holy ONE Federal Law that dissolves all city, state, county governments and establishes ONE Version of any Law for all Americans that ends Demonic Violent Music, Melody and Rhythm and Brings the Era of 0 Violent Crime and Justice for All, i.e. either arrest both aristocrats and workers, or end all jails. Nobody can arrest us for acting (loud music) within the framework of their demonic Laws of Human Sacrifice Republicans love/simulate in California Bohemian Grove where Al Gore visited too.☺☺☺ Protests must have no violence, no shoving, no rock throwing, since otherwise they call us Violent and arrest people, be aware FBI always uses infiltrators to do violent acts to then justify ending a protest, using undercover cops that hide the eternal genocides of the ruling class against the workers. Just PLAY the Satanic Sacrifice of Care Republicans and Democrats attend, and These Beastly Monsters approve AS LEGAL, THE SHOUTING ON TV, CHURCHES the beasts OK. Another easier (online) way to protest is to No longer Post on Social Media for 5 years, with last post being, "please read chapters 5.7. and 4.5.6. of the happyimmortals.com/book.pdf. We're joining the worldwide protest against the aristocrats in charge of US/most nations. We protest the facebook 2300 acre palaces or 2130 acre estates plus other aristocrat estates." ☺☺☺

The street cleaning they do every week to harass 300 million Americans to move their car between certain hours (sometimes between 8 am to 3 pm in some cities even) accomplishes almost nothing: 95+% of the dirt, tree branches, leaves, papers, etc remain there, since these machines are very poorly designed. We have become obsessed with making huge noise and causing enormous stress that ages people (sleep disturbance ages people) to clean a little dust, when, with a kind culture, citizens can pick up trash and litter themselves and we don't need any of these stone age machines to come weekly, maybe once every 2-3 months, with a much better truck/drone to do a job that is 75 times better (drone sucks dust and debris, brings it to big truck parked 1 km away), since we centralize and ONE FEDERAL Immortality Building Inc cleans all streets. If you're mad about anything any of the 11 companies does, any store, any business, you go to reviews.gov and complain, make suggestions, vent your frustration there for the whole world to see so we improve the machine, drone, truck that cleans and you can be anonymous to the public if you choose to. You notice how these street cleanings don't do much of anything

except wake people up, make a lot of noise, spew *dust* into everyone's eyes and houses, etc. They're more of a revenue generating source for corrupt cities, who give tickets to people who try to bring quiet cities. Tell me you're not mad about the tickets you got and time you wasted all your life to do these things so often for nothing. We clean our streets, but our houses are full of mold and filthy air, as explained in the Immortality Building Inc section about the *ONE* Federal Company we lack that is 1 million times more important for a healthy long happy life (living to 9000 some day) than removing a paper from the street. Our priorities are low in IQ, at best. It's like those folks neglecting their health and sleep and spending all day to clean up, fix, play with their cars in the garage. The current street cleaning tech is primitive. *We need a real reform: we need to clean our music first*, the dog barking like music, the music that makes everyone so mean and unwilling to pick up some litter sitting on the street and needing the truck to harass weekly, before we clean the streets with such stone age techs to bring less lifespan years. The whole world has become an insane artillery field, due to the Hollywood movies, glorifying war and machine gun sounds, so nobody is even bothered by these war airplane sounds of these useless "cleaning" machines. It's important to do this, to avoid the 10 second end of the human species. If we clean 10 times less often, we have more people *(10 times fewer drivers needed, so 9 people major in science)* to do RESEARCH to develop quiet electric drones or trucks, and to do in that 4-5 times a year cleaning a much better job than the 52 times a year now. We need to think, to centralize and bring high tech to every neolithic noise from hell industry. We don't even need noisy trucks, they're 1st century devices: small modern ultra quiet drones nobody hears are OK, why harass so many people? Let towns be a meditative space. The garbage collection trucks are too noisy and new tech needs be created, ultra quiet.

Likewise, it is *compassionate* to stop the harassment of billions by today's primitive mowers, trimmers, pressure washers. America's immortalist future *government* will ban all landscaping equipment making more than 55 dB noise (*just as all parties making more than 60 dB (noise of a normal conversation) would be illegal*), later, when tech advances, even 50 dB. *56 dB is the level of quiet cordless electric push mower, 55 dB is the noise from a quiet manual push reel mower you can buy today.* They also have cordless hedge trimmer, which is quieter than corded, quieter models will appear after Immortalists win elections. Makita (founded in 1915) makes possibly the quietest current hedge trimmer, hear it. Likewise, some gas pressure washers (ought to be illegal due to killer smog) make 105 dB while in use, vs 75 for a house vacuum (unless it's 58 dB ultra quiet ULPA, better than HEPA) or a typical Amazon electric pressure washer with 93 dB as written on it. It's essential to use a 5/8 inch internal diameter hose when pressure washing, not a 3/4 inch internal diameter hose, because the lower water flow will damage fixtures and valves, pipes and such far less (there is less pressure drop thruout the house, and you should never use any faucet, shower, toilet during pressure washing), and a 3/4 will lead to water hammer NOISE,

that weird noise in old pipes full of air, etc. Thus, no pressure washing business ought to be allowed to use 3/4 hoses, as they can cause pipe noise in homes they clean. For highest safety, use a 1/2 diameter hose while pressure washing, which is even safer than 5/8. The longer your *hose, the less damage to the plumbing system and you shouldn't open and close the pressure* washer more than once as each time you create water hammer and increase the pressure in the plumbing system, *do all washing by turning it on once and let the water flow continuously for 10-20 minutes*. Many people press the water flow button 10-20 times, but this creates enormous shock waves in the plumbing system; don't do that, otherwise, you get leaks in pipes or valves.

In Australia Victoria state it is illegal to vacuum between 10 pm and 7 am weekdays and 10 pm to 9 am on weekends and you can be fined about 19000$ if you disobey police request to stop vacuuming (the same rules are for noisy air conditioners and heaters, which shows how much more egalitarian and fair Australia is (even if far from immortalist in 2024), versus the Nazi Feudal USA where silence only exists in aristocratic neighborhoods). Buy $290 Sunjoe SPX3500 (founded in 2004) pressure washer with 70 dB (scroll to see 70 dB table), not 200$ AR Blue Clean AR383 with 82 dB by a company from 1958. Sunjoe uses far quieter induction motors, as you know from Cuisinart induction food processors for smoothies and wear earplugs and earmuffs on top of the earplugs to protect ears. Spend 100$ extra, to save 400000 in ear fixing costs, make a huge return on investment, like a true capitalist. $140 Wholesun (other colors cost 150) pressure washer makes 73 dB, is 90$ cheaper than Sunjoe. For just 15$ extra, with Wholesun, you get *20 dB lower* than typical *93 dB* Amazon trash.☺☺☺ 70 dB is far less anger causing in neighbors, stress, DNA damage, etc, than the 105 or 93 dB typical. 70 dB hurts no neighbors from the destructive sound that makes so many people lose some of the hearing by age 70. The criminal enterprises don't care about the worker's health or hearing, only profits, the aristocrats living in pompous mansions or 2300 acres palaces or 2130 acre second home estates don't care noise shortens lifespan of workers or make them deaf. We say criminal because no label exists there to wear earplugs and earmuffs to prevent hearing loss, they just sell it and people destroy the quantum field, and your body too, not just ears, due to biological entropy that sound creates. The greed capitalism means every company who has no clue, simply starts making bad products to increase sales, profits and revenues, so many newcomers will produce trash versus a company from 150 years ago, as you can see the quietest models are usually old companies with many engineers, the new kids on the block make trash. Boycott most brands of mowers, trimmers, spray painters, pressure washers to help make our cities quiet: only 2% are really quiet, due to a rock and roll culture of hooliganism disguised as music. Recall concerts that make these people rich destroy the brains, bodies and ears of millions of people. CNN says 1 billion are at risk of hearing loss due to loud music that destroys the human quantum field. ☺☺☺☺☺☺☺

If you spray paint, you can try a regular 268$ at Home Depot Graco system, and keep it 25-50

feet away (extension cable is extra 60$, 25 ft extra only allowed for this model, due to low motor power, they all come with 25 ft cable by default), in a closet or something so no neighbors gt mad, or get the next level 379 one that allowed a 50 ft extension cable to get 75 feet even. If you got cash, you can buy for $1700 *the 58 dB* (quieter than 60 dB normal talk) 20 feet from turbine (place it in a room so no neighbor hears it) Fuji Q3 (Q is for quiet, special tech), 3 for 3 stage. Many homeowners buy 36$ sprayers without a thought to noise level or wearing earplugs. For 200$ you can get some airless electric cordless spray painter that is the quietest of all types: always search for "brushless cordless airless spray painter" on Amazon, some brushless cost 40$, much better than regular Home Depot/Amazon junk. Brushes make noise, corded are louder. Air compressors make noise. Airless is the best, but costs 200-2000$. Google for quietest brushless types under 100$. Police agencies can implement immortalist siren system inside cars, to keep cities quiet. California banned all gas lawn mowers (90-99 dB), but electric ones (except cordless, battery operated), even if quieter, can also reach 85 dB (can damage ears).

Manual mowers only work for very short grass. For tall grass, cheap battery ones don't work well either, as they run out of charge in 20 minutes and the battery can die fast, take 9 hours to charge or start fires. Only a corded electric mower like LawnMaster MEB1216K can do a tall grass lawn; this model is far superior to Sunjoe common Home Depot brands since it's quieter, it never gets jammed, wheels are never falling, less noise, wear earplugs and earmuffs just to be safe. You also need a 50 ft 13 amp extension cord for 24$ or 40 ft for 18$. If your grass is short, to save the serene vibe, you can simply buy the highest rated (on Amazon) US made, 5 year manufacturer warranty, manual mower (Germany made one, 10 year Warranty, is 16", 19.6 lb, 160$ with bag, folds to fit in cars easier, 4.4* rating, 50 bought last month vs 900 the US brand), that takes the same energy to push, due to being half the weight, having 2 wheels only, not 4 and having no ground friction on uneven lawn for the mower base between the front and back wheels, the 4.3 star 144$ 14" 18 lb, 1"-2.25" adjustable height (better for uneven terrain than German 0.47"-1.65", but not for super short grass) that comes with bags (saves you 2 hours of gathering the grass) comfortable ergonomic hand grip (unlike German one), optional sharpening kit for some sizes or order 19$ kit separately, from a real USA company, from 1895 vs 1961 German one. US has 15% German ancestry citizens, so they may give more stars to the German product, even if it's same 4.3 stars or 4.2 stars in placebo controlled studies with people not knowing country of origin, Amazon reviews don't show ethnic background of reviewers, German one got 14 times fewer reviews. We need a National Lawn Mower University to design ideal mowers. The German one wheels are very bad, like Sunjoe electric mowers that break the wheel because it doesn't have enough grip and friction force to go over a bump, you need a groove every 3 mm, not every 30 mm. Sunjoe type wheels tend to slide and put pressure on the wheel center, grooves are very spaced out and not deep either and plastic wheels slide, so you need

many deep grooves. US company sells rubber wheel mowers too, for 164$. Amazon carries some of these rubber wheel, real wheel mowers: For just extra4$, you get real ball bearings and rubber for far higher friction and durability, not cheap plastic German wheels. Sunjoe (2007 company) have low grip force wheels that come off and break all the time, while German wheels groove is deeper but still sliding and coming off on uneven terrain due to spacing them out too much. Oddly, Home Depot sells those Sunjoe electric mowers. Amazon has fake Chinese made or China design mowers sold as 'Made in USA or overseas' etc. The real US company has 3 year Amazon warranty plan too, in case wheels come off 2nd day like with the Chinese ones (see 1 star reviews of Chinese ones with no US website address or info on what town they started in USA in the About section, they try deceive all it's a US company). The Chinese companies sell same product via 20 Amazon accounts and some have 3.0 stars, 30 reviews, others 5.0 stars, 1 review his wife made. Unlike these accounts, the US one has almost 20000 reviews, the most of any Amazon reel mower, so you know 4.3* is real. The reel mower is *the* safest *quietest* (45 dB) mower that ought to be promoted more, to create a pleasant *meditative* space in cities, that relaxes people, lowers cortisol, promotes inner and World Peace. The manual ones weigh 14-18 lb, vs 28-35 lb the powered ones, and take 7 times less space in your car if you move. Many people (unaware that half water is wasted on lawns), have a "slave lives don't matter" *fueled* selfish *obsession* with watering daily copiously *and mowing the grass every week (the 'company" does it while owner or renter is at work, so nobody gives it a thought, the price is* $5/week) and, the poor slaves, use the loudest gas mowers one can build with our "porn first, quiet gadgets later" society, since profits trump silence. This is madness: the key antiaging aids are relaxation, low stress hormones, frequent meditative breaks to rejuvenate the body, naps, decent sleep (sometimes at 11am-3 pm when they mow it) for odd schedule folks. But nobody cares, the aristocratic landlord owns more than 1 property, which would be illegal in immortality capitalism until all people own 1 house to live in, and hires some company to mow weekly 5 to 200 properties and make a hell scene of smog (chemical poisons and acoustic). They don't care, have no culture except "money first, longevity never: slaves are to die 40 years early", who cares if someone wants to sleep? Excessive grass cutting in areas with no ticks is a genocide. ☺☺☺

Short grass helps to keep ticks away from your house (ticks such blood and infect people with disease carrying bacteria) since they love tall grass and shade to enjoy a warm wet place (they hate dry areas), if you live in the Northeast USA or California where some Lyme disease deer ticks exist. We need centralization and to have Eternal Utility Inc, one of the mega-state companies, produce electric mowers 20 times quieter. For examples of quiet mowers, happily gently read the Eternal Utility Inc short section… on *how the* aristocrats *kill the landscapers* and torture entire neighborhoods, due to our culture of "appearance (short grass, etc) not longevity", and how the workers can ban loud mowers. They could use artificial turf and manual

mowers, use less water via drought resistant plants. Those water jets often spray cars, create white marks on cars and make extra noise, extra 'worker killing' coal smog required to power the plants to filter wastewater that becomes tap water. The aristocrat lives in a quiet area, 0 traffic/crime (nobody steals from fellow aristocrats, only from the poor indirectly), so he could care less that workers are woken up by the slaves he hired to mow 3-10 times more frequently than needed, for the sake of "ultra short grass, 0 sleep", *as if a war is waged on workers' lungs, brains, organs via chemical smog, acoustic smog*. Disposable slaves have no value. How about win-win thinking, everyone wins? The win-lose system today ensures no motivation to innovate.

CHAPTER 6 - Immortalist Parties, the New POLITICS

6.1. Renaming USA & Republican and Democratic parties to Immortality and Eternity parties

6.2. Immortality test for teacher, professor

6.3. Immortality test for doctor, nurse

6.4. Immortality test for lawyer, judge

6.5. Immortality test for police

6.6. Immortality test for soldier

6.7. Immortality test for psychologist

6.8. Immortality test for student

6.9. Immortality test for scientist

6.10. Immortality test for visa, immigrant

6.11. Immortality test for leaders & media

6.1. Renaming USA & political parties or creating the Immortalist Party

Introduction: evolution of Political Parties to Compassion: immortalists hypothesize that the trillion year old descendants of humans (and even the 200 year old more near future descendants) have eclectic beliefs and online churches, don't need fake political parties, only true compassion. In the US-EU, politicians are members of NGO, law firms, consultancy firms, boards of big companies, etc and invest in stocks, making $ millions besides their salary. Our thieving politicians own buildings they rent to the gov and made 7 times more money between 1989-2023 than the average American. These side activities of senators in EU show these phonies don't deserve to represent the people: none of the vampires have donated it all to the Eternal Universal Peace center☺☺☺, or to House all homeless in 3 years foundation via housing.gov that buys sells any house in max 4 days. Not even close, these fake Democrats, who're not leftists at all, steal billions thru 1000s of "nonprofits" that siphon taxpayer money they don't pay to give themselves 1 million $ salaries as they "help end homelessness" by charging cities, counties, states, 10 times what it would take if we had 1 national company doing it and housing them all in 1 year, per the immortalist 11 companies system that does 100 times better job, 1000 times faster too, in eliminating homelessness in USA, as all have a job and death penalty for drug transport and 1 million dogs (later drones, since US has 90 million pet dogs anyway) to sniff every package and letter are placed on all mail facilities and border points. We don't need 2000 nonprofits to steal billions while role playing "they help the poor", we just need one real company, Immortality Building Inc, that buys sells all US houses in 3 days, builds, repairs, maintains all buildings in USA. The 20000 local govs allow the 2 parties to get rich, while US collapses. CEO of nonprofit makes 26 million/yr. Helping the poor? Same for labor union chiefs who're the ultimate bastards, making 300-1050K, when any nonprofit (or tax exempt entity, churches, etc) salary should be capped at avg US salary, via the new US Constitution the Immortalist Party writes as they take 70% of vote from these cannibal chimps called Republicans

and Democrats whose main activity is theft of government and private money from We the People, using phony lofty schemes, companies, nonprofits, labor unions (top 5 members of a union used half the dues for 27 million in salaries), you name it. Hospital CEOs make up to 26 million/yr (1700 times the federal min wage), yet healthcare costs are double those in nations with longer life expectancy, we're the most corrupt. CEO pay needs to be max 5 times min wage or equal to all other salaries, one salary for all. Tax exemption cannot be used to loot the US, We the People, the treasury with phony organizations, be them nonprofits, labor unions, churches. ☺☺☺☺☺☺ These dogs would never agree to one universal pay with longevity products as reward, but that's irrelevant, We the People decide how the nation will offer rewards: money or health products and management positions. Nonprofits loot $50 billion of taxpayer $, to enrich hot air talkers who fool around and waste time since 11 companies would do a much better job and none of these scam artists would be needed. When the gov takes care of We the People we need zero nonprofits to loot the masses. $50 billion is enough to build a small house for all homeless via mass production. Churches sit empty most of the time☺☺☺☺☺, but hey, they loot taxpayers of $80 billion a year too, 130 billion total, 80 is enough to install 10 billion cameras to bring zero violent crime, never mind, pastors only care about villas. We have become a nation of bandits. Everyone in USA is a fund raising specialist☺☺☺. But when bandits are in power, nothing is done, except con artist nonprofits. We have the ultimate liars and bastards on TV talking nonsense all day about equality on Foxnews, CNN, etc but they make an unequal salary of $0.5-40 million (33 to 2,652.5 times the federal min wage, for radio 90 million, or 5,968 times) for bullshitting the whole world with fake news and incredible value of small businesses, 9000 banks/CUs and stock markets and other crap. In 1800 a computer was 3 million x bigger, did less than a small powerful chip today, just as tomorrow, with 3 million times fewer companies we will achieve 4000 year lives as The 11 National Unified Companies replace 33 million. Why on Earth do we need to spend 2 million HR people to waste their whole life on different pay instead of one universal pay and focusing on living to 4000 and zero violent crime in 3 years? Because Thieves run USA, they think only of money, not on how to add to USA the max million lifespan years. Via guns, they impose the Monetary Sharia Law: for money you shall do all unethical or ethical things. Do we need 16000 radio stations, 2000 TV stations saturating us with violence when people die daily due to violent crime and due to none of these presenters going to unsafe factories to make processes safer so no workers die? What if we chose to actually do something instead of playing toddler games: fake elections, political parties, mind games, after 9,000 years of bullshitting around? 99% of TV program us to chase money, be lustful, violent, stupid. We don't have any decent TV-radio station on Earth that aligns with the Immortalist Anthem. ☺☺☺

"Cabbage IQ" folks say we need nonprofits to "help with certain things", but all nonprofits do is what the gov's duty is to do, but govs don't as they are thieves. In an ethical society, if you have

a complaint, you send it via reviews.gov and then you get a professional human reply, with 100 page PDF (and a nice 1 page summary, like a paper abstract, written using the scientific method with 500 references at least), cowritten by AI and staff to explain your concerns' solutions and a plan of action to address your concern, in case it isn't addressed and you indeed pointed out to something for which no resources exist, etc. with these 3rd grader governments we have, nothing is serious. Every citizen will ve treated like a billionaire is today, with utmost professionalism, by immortalist govs. The service is 20000 times worse with 20000 local govs. It's like having 20000 Windows OS with 20000 fewer programmers for each. 20000 gov produce infinite waste. Everyone is treated like a VIP of a special billionaire club, instead of like a piece of trash today. We create world's first Virtue Based government, where everyone learns ethics daily from TV (10 hours during the state of emergency to lower violent crime 1 trillion fold) and the Immortality Credit Score shines thru as the Guiding Light of Civilization. Everyone feels like 1 gov does 200 times better job than 2 million fraudulent nonprofits today and 20000 childish local govs today, that duplicate and are unable to pass the most basic laws to protect the citizens that other gov passed (see examples: quiet cities, smog free cities, etc). We have unified all classes, groups, ethnicities into the Immortalist Identity of Universal Family of Immortals, ready to bring Eternal Universal Peace in 3 months, and Zero Violent Crime within 3 years. This Unity rises the motivation of the masses dramatically, with only a few of the 5% that vampirize the 95% being unhappy they are no longer masters of national and global terror, keeping everyone ignorant, sick and in the stone age, and with that, the entire society, that cannot focus on any real progress in science, ethics, research, as all was about money making, sales, duplication and pretending to do something. The people wasting their lives with nonprofit jobs and local govs can finally provide 1000 times better service born of efficiency via The 11 National Unified Companies, no unemployment, all are employed, all work to build the World of Immortals. Everyone is excited, we get 1000 times more effort into process improvement and better service instead of on production and sales bullshitting, sales of horrible service and products. The anthem spark of progress is ignited. 4000 years lives becomes the daily topic of discussion, as we have achieved World Peace, Zero Crime. Imagine all those people wasting life with useless nonprofits and local govs working in the 11 companies to provide 1 service for all citizens, service that's 20000 times more scientific, accurate, with centralized reviews for all and accountability like never before via the universal pay to deter greedy bastards from trying to become certain professions and ruining those fields.

Why can't churches be online, everyone does online learning, science classes for free, online academies, etc. What has religion anything to do with profit and donations? Ethics is ethics, you live it and that's it, no need to loot the Treasury. Ladies and guys spend 1.4 trillion $ on pure crap a year, and then they say we need "nonprofits" to help etc. Laborers make little, but the

labor chief 800K, nothing more criminal, they are supposed to help the workers not loot them. Professor of theoretical physics explains USA is about to experience the immortalist revolution. In the US, 150 billionaires donated $2 billion, or 18% of the election brainwashing ads $, as much as 60 million Americans, showing how powerful billionaires (who create Tesla EVs and other gas cars that destroy everyone via RF) are in installing puppet Re-pub-lican, Democratic govs to loot all so more palaces for aristocratic families can be built. USA is a concentration camp run by the military oligarchy America's most left wing politician talks about. Muslims follow Mohamed's way to steal via fake day cares. That's why we need to unite and expose the Bible thuggery promoted by Republicans, the fraud of the election system (campaign finance law passed by right wing judges allows the rich to spend 70% of election ads money to install their puppets to loot the masses), etc by sharing via email, text, social media, this book. Let's prove We the People can overcome 150 billionaires with 50 kind mouse clicks or phone taps. Nancy Pelosi, after doing little to free the 95% from the aristocratic terror, had her net worth skyrocket 50 times while in Congress. So, why do we exactly need elections every 2 years, wasting taxpayer money with that instead of eliminating violent crime and the homeless? It seems elections are a scam to enable parasites to award themselves huge salaries, 3 times that of hard working scientists who actually make a real difference instead of shouting or role playing all day in Congress in uneterni tone. Why do we need presidential elections every 4 years? Why can't we have presidential limit 7 years and have elections every 7 years for legislators, President, Senators, Governors, Immortality Education Agency Chief, Immortality Nurturing Agency Chief too? Democratic & Republican TV hosts loot America by making billions or millions… while others are homeless. USA is still a feudal colony, where the rich own 90% of stocks (stock market doesn't need to exist to give World Peace and 5 century lifespan to all, nor do we need 4500 banks) used to loot all nations, where Congress Democrats amass $120 million in wealth, like Nancy Pelosi, via stocks. South Australia banned donations to politicians, while USA spent 20 billion on elections in 2024. The genocidal US system enabled CEOs to move from making 20 times the average worker wage in 1965 to 389 times in 2021. Thank the ultra corrupt Demon-crats and Re-pub-licans. History teaches all empires and nations who became oligarchy dictatorships collapsed soon after. This is due to Democrats doing nothing to end the stock market and the fraud, gambling, low IQ, looting wars it promotes, except being best allies and fake enemies of the Republicans (controlled opposition for decorative purposes, to fool people democracy exists, that voting for Democrats ever changes anything). The gambling ban is essential, in all areas of society, for us to evolve to true democracy, kindness and intelligence. People are so brainwashed, they wrongly believe we need stock markets. The future people, who live to 9000, probably make decisions based on the 100000 scientific proof (double blind randomized controlled studies adjusted for all confounding factors) studies showing the best choice to maximize the healthy lifespan years added for the entire USA (not just the palace

dwelling aristocrats) and the planet. They don't decide because we get these useless parties based on the platform if you can worship a cannibalism genocidal mass rape text or can have sex with cows, morph into a crocodile, female, male, have plastic surgery to look like males, females, cats, dogs, hippos.☺☺☺

Pentagon satanists rule USA, that's why they flood the media with infinite violence and give all guns, so the workers fight themselves and shoot each other instead of going after the Pentagram satanists at the top, who love the Pentagon shape and decorating themselves for killing more people than others, awarding themselves salaries 10-15 times the minimum wage, since they are holier than the people who kill and injure none, instead of 1 million. Pentagon controls all courts, agencies, parties, elections. Everything is USSR 2.0. Democrat and Republican names share one word: care, or race. The Democrats, Republicans meet in California Bohemian Grove to "simulate" the human sacrifice (video) of a girl called "Care" in a "ritual" called 'Cremation of Care', whose Wikipedia was changed recently to make it look like a "movie production". Inferior gentile "races" are human sacrificed in eternal wars without any cares. Isn't it obvious USA is run by Murderers, they never take any real action in media to stop the spread of violent content, which is the first step towards zero violent crime. Do we need 16000 violent radio stations and 2000 violent TV stations? 10 total would be enough with eterni tone and content. They all parrot the main news, duplicate what others said in a horrible tone, and add a bunch of local garbage and violent content. Instead of solving real issues, they spread violence. The Grove is close to the gay capital of USA, San Francisco, another satanic element. Our elected satanists swear on the Bible of mass rape, arson (like Care is burned) of cities with animals and people. Here are the quotes US "elected" (fake elections) officials swear on: genocide, mass rape, human sacrifice, arson, alcohol intake to beat to death all around you, kid beating. That's their real ethics: death, war, violence, rape, death, war, short lives, human sacrifice disguised as war over "resources" or etc. This is an ancient Baal Israelite ritual of human sacrifice of all gentiles who're worth 20$ each (see 11 Talmud quotes), have mortal animal souls and demonic souls vs Jewish eternal souls, per some Jewish texts, in perfect alignment with the satanic Bible quotes calling for the genocide of trillions of gentiles in Deut 7:16. Now, all can truly appreciate the game Jews play by brainwashing all to print the Jewish Bible of the Jesus scam. Your hospital CEOs make up to 1700 the minimum wage, 15% of US MDs are Jews, Jews 2% of population.☺☺ Perhaps, you can see why we want to change the political party names. Blacks would agree with this too, as the Care thing is like a KKK ritual slaughter of Blacks by Jews, Whites, etc. If idiots still want parties, we can create the Eterni, Eternist or Immortalist Party. Christians forgot their scripture prints the Horrific 1450 Old Testament quotes and too proud to realize the Quran is nothing but the Bible recycled, rewritten, Islam was possible by Christian actions only. Sadly, every nation is more or less a copy of the US fake freedom society, where military rules with fist.

The section on how elections are faked by the military in all nations of the world explains why it is time to dissolve all political parties, political science departments and start immortality sciences departments in all universities, elect policies, not people, with 0 money given to elections, *0 donations for elections, everyone votes depending on the policies version they want every 10 years*, as we make policies for the next decade. We need no political science majors or civil administration majors, we got too many of such "3rd grader IQ"☺☺☺ people who simply learn how to con and dupe the masses for the aristocratic liars. We don't need 20000 governments, we only need one efficient government of USA with 11 companies for all. 0 mayors, 0 bureaucracy. Why not have a "Shelter, Food, Healthcare, Transport" minor for STEM graduates, for these so called "leaders" to create houses, transport, medicine that last. Today, 200 million Americans can die instantly due to living in paper houses that can't withstand a tornado like domes can. Shape power, so much math and physics knowledge for these managers of states and cities we don't need. 100 million can die in a flash flood due to houses not being built slightly higher than the road for Flood Zone # etc. Where is the ONE Federal Standard, instead of 20000? What did these "adults" study in political science that made thousands of Americans die in tornadoes? During the 2026/2028 midterm elections and the 2028 presidential elections, the silent majority, the enslaved 95% can win, the American people can win, via the first party (the Immortalist Party) representing the American people's interests, not the interests of aristocrats living in palaces who control the 2 parties that debate "rich people deserve 10000 times the pay of the average (Democrats) or 50000 times (Republicans)". No talk of max salary being 3-5 times the minimum salary is allowed. Today, we have a one party communist Jewish TERROR system, run by the Aristocratic Terror, Torture, and Daily Beatings Party that makes Hitler look OK, the "Communism for Palatial Aristocrats, Slavery for the 95%" Party, who masquerades as Re-pub-licans & Demon-c-rats, who swear on the unholy bloody Bible deifying beatings (kids, workers, sex slaves) or unholy bloody Quran deifying beatings and torture (sex slaves, mutilated infidels, kids, wives). Gentle tender soft healing nurturing graceful loving kindness will win in 2028.☺☺ The miracles section 5th and 6th paragraphs got more fake debates of the Republican/Democrat. Democrats often make billions or millions by stealing from the poor, so they're more of a Demo Rat, a Demo Aristoc-rat, not a leftist as they tell us. This satire song explains the 1 party con system: the Party of the Rich. The Democratic Party was hijacked by aristoc-rats.☺☺ The Republican Trump doesn't care about anything, except the power of British aristocrats, so the rebuilding with steel of 100 million houses and creation of 30 million new houses and infrastructure for those in condos is not a priority. Instead tarrif wars shut down steel factories in China, that could be used to make steel for USA. Importing steel for construction is not going to shut down our steel plants, since we produce 100 times less than what we need to make America safe first time ever in its history, as aristocratic genocidal building codes are wiped out by Immortalists. Let's see, will America import 100 times more

steel from other nations or simply be used as a slave dog to attack China when London feels their reign of global terror is ending? Why can't we use those stronger than steel nanotubes and new oil based materials if we don't want to import? Because the rats want oil for cars, not oil for new nonsteel materials. The same depraved Republican party of genocide via smog destroys now any chance of proper shelter for 70% of USA. Of course, they live in the best mansions, so why care? Create a nice dome of new materials that is anchored 10 feet into the ground and has a big "foot" to prevent going up in wind, and that frame will never be broken by world's strongest tornado even if light. ☺☺☺☺☺

The daily uneterni talks recorded for the nation to see in Congress give too much info to our enemies and they destroy the human quantum field, as well as the national information field, due to the activation of neural pathways related to deception, role playing, aggression, contempt for others who're "too low IQ and to die at 80" to get the truth that the whole shenanigans of Republicans and controlled opposition "Democrats" is a staged scam. This fraudulent show on TV teaches people to be dishonest, slows scientific progress and increases violent crime that often emerges from dishonesty. Say 1000 times less stuff, but let it be truthful, educational for all humans on Earth, be the Light of the World, not the laughing stock of the world. This neural activation of dishonesty, fear, anxiety, yelling, aggression, etc neural circuits is contagious and leads to less innovation as brains are taken from the hypothesis thinking to the reptilian brain of extreme negative emotion, paranoia, etc. Think of Tao Te Ching, "the sage does everything without display, without acclaim, without taking credit, with 0 words". Now, compare it with the street market vibe of all world parliaments almost. Our politicians talk a lot about 40000 useless businesses, economic development, this and that business, but they have not yet created the 4 essential businesses USA needs: Immortality Building Inc (decent housing for all), Eterni Food Inc (decent food for all), Universal Immortality Inc (uni. Healthcare) & Free Education. All they talk about is how to enrich the ARISTOCRATIC PALACES MORE, just covertly. Pure Fraud and Scamming of the American people. They don't talk about 90 times more research to ☺☺*lovingly tenderly gently kindly*☺☺ make everyone in America in live to a trillion as a teleporting telepathic shimmering shapeshifting physical Immortal, wishing Immortality *for* All. This outcome, never talked about in Congress, means everyone has such a high living standard and universal healthcare, that even aging stopped, imagine that. Why do all people have nukes today? Due to this ethics of Showing Off, Publishing too much in Journals, on TV, before everyone has 0 violent crime and a truly "May all live to a trillion Years Old Wish" type of culture with no harmful intent in any citizen. The foolishness of our leaders meant that we failed to achieve World Peace in 1945 as it should have been. The whole televised Congress, Courts etc debates is so dishonest, because the people pretend they try to help us, etc, yet 250 million Americans don't have safe indoor air quality, safe food, safe

healthcare, safe education. The standards are low and the only people getting slightly better are the top 5%. The insane amount of senators and representatives makes it hard to find people or speakers for legislators to produce high quality immortalist tone and content. We need honesty and gentle kind tone. The only thing we need to share with the world is the "Eternal World Peace in 3 months and 0 Violent Crime in 5 years" Journal articles. This shows we're serious about World Peace, instead of just talking about it forever. Actions speak louder than words. Any other tech can be misused to hurt others. Everything else should be kept secret, as a protest against crimes of torture and violence in other countries, while making sure we have the lowest violent crime on Earth.

Do we study chemistry and physics from 3rd century BC , 1st century AD or 18th century? No, we study from the latest textbooks, way more advanced than the trash of 1st or even 18th century. So, why do we believe, without any question or doubt, that the genocidal Greek Empire and genocidal Roman Empire created system of "democracy" (Alexander the Great was an alcoholic who killed endless civilians to expand an empire that later collapsed and became 50 times smaller), from 1st century or 3rd BC is the "best" system☺☺☺, with their incessant assassinations in Roman and Greek Senate and endless killing campaigns? Why do we need the balance of powers to be 1. Congress, 2. Courts and 3. Cabinet-President, the 3 pillars and not the 3 pillars of immortalism: 1. Immortality Education Agency: the educators of the country, teaching ethics 3 hours weekly from age 1 to 30, create angels not killers. 2. Immortality *Nurturing* Agency: EPA, FDA, product safety, cops, spies, judges: courts are 2% of the new balance of powers, not 33% as today, as we fight a lot less, and educate a lot more, making the system way more fair so no fights ensue, since all incomes are wages and 11 companies exist only and all reviews go to reviews.gov which leads to instant bonus and fine depending on what happened. 3. Executive Immortalist Congress: President, Cabinet, Legislators are the Executive and Congress Merged, as 2 Congress chambers merge: 1 Senator for 5 million people, trim Legislature to 68 Senators. The so called rule of law in USA is a mere scam, since the rich create 20000 versions of every law, as each city violates the most basic rule of democracy: equal treatment of all, meaning one law for all USA, 0 taxes and one law, no states or local governments, only 1 central government with local offices. The fact all make similar wages and you got 11 not 33 million companies, means no lawsuits exist, since a guy can only get a small amount of money, 30% of the fine placed on 500 people, since gov fixes all cars and houses and all got health insurance that covers all basic stuff and work injuries product use injuries etc anything anyone does will be covered and fixed by the government, nobody needs lawsuits (no rich people exist and you can't sue a company with 20 million employees, since every product is approved before sale by a committee of 10000 PhDs, not 1-10 as today, and thousands of objective safety studies are done, meaning we have 1000 times fewer products released a year, but of much higher safety and quality) everyone reports

issues with products at reviews.gov (good reviews can cause small bonuses) or crime.gov and then 50 people are fined if an error was made and the complainer gets 30% of fines, with 70% going to the best investigators, workers who fixed the issue in the best ways. For real mess, fines will be huge, 50000. If *Nurturing* Agency notices 500 complaints deal with 1 product, then they know the product causes heart attack for example and product is pulled off the market, with 50 million fines after investigation and also, payments to the affected pill takers. Immortality capitalism or immortalism creates a system that removes all incentives to create bad products, and rewards/pays those who complain about product quality (real issue), in order to make sure those product designers are not just playing golf while America goes down the drain. This is diametrically opposite to communism, where nobody is paid for reporting issues, but instead, they're tortured a little or to death by the KGB who ended up killing 20 million USSR citizens alone, while in former Warsaw pact nations, torture was very big, as CIA today does. 2025 USA resembles communism, like most nations do, since no central reporting system exists and no proof that someone investigated every complaint and improved the products. See, with 3 million sites, 500 review sites, Amazon, yelp, etc and "Contact Us" forms, and no central system, FBI can't know if a complaint was investigated or not, product improved or not. ☺☺☺

Today oligopolies and an army of 1 million lawyers mean the criminal 1% can produce the crappiest products since they make 20000 times more money and have money to win any case. You go to endless review sites, Amazon etc and write something but nobody investigates, *they play golf and waste their stolen (from the masses) billions in depraved activities*. The 'courts and lawyers' are the Immortality *Nurturing* Agency product improvement experts who review each complaint and fix the products. Crime.gov is for reporting more serious product complaints that verge on criminality or covert violent crime (genocide via bad products or service). We have 1 million courts and lawyers, instead of 2 million physicists to improve products. USA was ruled by lawyers, actors for 250 years. We need 250 trillion years of scientist/engineer presidents,☺☺☺ 0 lawyers/*businessmen*. The rich only care about their family... So, we will solve that issue quickly with the Immortality Credit Score, max pay 3 times min pay. USA will finally become a democracy and for the first time in world history, nobody will have 2 houses in a country, as it has been that the wealthy pigs have 9000 (capitalist real estate magnates, who make sure renters live in hell) or 2 (top communist families in Russia especially, dacha). No more vacation homes for the criminal thugs, as this removes any incentives to make all cities quiet and amazing and creates aristocracies that start wars out of boredom *after so much* exhausting *golf* that took land from the workers living in flats. These scum of the Earth crocodiles,☺ who have sucked the blood of nations forever as nobility and imperial "do nothing all day" clergy, will become regular citizens. Since all their wealth was obtained by conning millions, some of it will be returned via fines to the agencies that will obviously find endless issues, as with food processors, humidifiers,

heaters and other 10 huge issues mentioned in the 2nd paragraph of the 0 taxes section. The political system of the USA is 100% corrupt and designed by the rich to maintain the chains around the neck of the 99% very tight: 0 freedom. If you want to start a new political party, there are so many barriers, they make it so hard, instead of just having a website and people signing a petition or form they want to register with that party and want to vote for that party's candidates automatically, even 3 years head of elections. Like with everything, they make it ultra hard, so nobody can do anything, without the aristocrats blocking any real change via torture. US is like China, on paper USA got 2 major parties, but it's only ONE: Aristocrats.

The President can be in charge of Cabinet and Congress, all 3 branches united via the Immortalist Party majority in elections which makes the President a symbol of national unity, with the first 2 branches supporting the Executive. The *current* courts are a scam, invented by aristocrats, to pass criminal laws that protect their theft of trillions from the American people and state, to make people believe the elections are real when they're faked, laws that simply subjugate and enslave everyone for the top 1%. This is as far removed as democracy as it can be. We need 500 times fewer lawyers and see how we will achieve it in the first 5 pages here. We need a united nation under the *gentle tender soft* Immortalist President, not one where everything gets paralyzed and we waste 4 billion years in courts, where each president undoes what the other party did via 50 executive orders on day one, and confuses the planet with their ☺abysmal IQ☺ swing of the pendulum from one extreme to the other, instead of getting things done, like 900 times more research via centralized education. We, the fans of the US peaceful nonviolent Revolution, new Declaration of Independence, Immortality for All can bring this change via voting Immortalists 90%, Democrats 5% and Republicans 5% so we can change the Constitution and begin to bring real democracy to the planet and USA. Why not just reach 1 trillion year lifespan first and then we have more than 1 political party? Save $$$.☺☺☺ Today, the Zion Elders who run the Democratic Party try to create as much conflict as possible between Muslims and Christians, to facilitate the theft of trillions of dollars by 170 Jewish billionaires from the Americans. How do they do this? Easy: bring in 50 million Muslims to USA, and start the fight. Bring in 50 million Latinos to attack the locals, so Jews control both camps. Conflict ad infinitum. The bad type of Jews already brought 50 million Latinos in USA. You see why we need a New party, instead of the Jewish One Party system? The bad type of Jews (not the good type) run both Republicans (promoting Jewish Bible) & Democrats (promoting Zion Elders Protocols strategy covertly). When will US be free from the "bad type of Jew" Scam? The "bad type of" Jew full time job is to create conflict among gentiles in any way possible, be it political, religious, ethnic, Christian/Muslim, Dem/Republican, Arab/Caucasian, Gay/Straight, Protestant/Catholic, Latino/Black. USA is slowly destroyed by religious/Zionist Jews, who may need receive lifetime labor or to be deported to Israel for inciting 4 billion people worldwide to genocide, mass rape

of innocent people thru the Bible and Quran they created, Quran is the Torah rewritten.

Just like Trump deports criminals, all "Genocide Inciting" criminals need to be deported unless they pass the immortalist test of faithfulness to USA, not to the evil genocidal Bible/Quran of mass rape, slavery of all, infinite violence on kids. All nations may soon become like Ukraine (forced conscription in the 700 Zionist wars of Zion Elder world chaos to establish the World Hebrew Language, Rabbinical Court of Torah Cruelty). No freedom may exist, the Violent section of the Bible will be the Only Allowed Text, the Torah. See the Future of US/all nations, gentiles forced to fight Israel's next 5000 wars of World Conquest? The 'bad type' Jews already had us spend 20 trillion on endless wars for Israel last 80 years. Why take care of Americans when we can help Israel conquer 30 square miles via 30 trillion USD? Like Gazans are treated like dogs, so are Ukrainians treated like dogs by the Jewish Zelensky who is too holy for frontline, but holy to make Penis Comedies in 2016 while gentiles died in Ukraine. Watch: Israel deports any illegals from Somalia, but in the US they bring 50 million illegals, who don't pass the more difficult than GRE test of immortality ethics and sciences and the English test. Double standard. US can be trashed, but Israel can't be trashed. If we had real policies, World Peace, 0 crime would be real by now. Respect USA☺. The whole political system in USA is 100% fraud: these pigs, claiming to be Democrats, are often Republican aristocratic fascists who do everything to dilute everything Democrats do and propose, so as to keep Democrats as the little fascist aristocrat terror helpers, who pass no real reform. They lie that these elected officials, masters of global brainwashing, are somehow representing the people, the 35% who own no homes, while in many nations 95% or higher own their home. These predators and parasites lie to the people they're leftists, when in fact they're hard core subjugating vampires who love subjugating the 90% in all nations. Only a brain dead person would imagine real Democrats would support the criminal system today: low IQ Brits, Jews, aristocrats who committed endless genocides, own 2-30 houses or 1 that is 10-80, while the hard working people, scientists etc live in rental studios or cars. This is also due to the extreme naivete of the Democrats who allow all frauds to take over their party. No person ought to have 2 homes, until all own a home, no home ought to take more than 4 days to sell or buy. These wolves in sheep clothing don't represent Americans, only the rich, not the 55% living in rentals or in terrible homes they own, full of mold, banging noises, leaks, unhealthy conditions. Only the immortalists represent the masses, the Democrats have become mini Republicans. Wake up slaves, have you ever seen Democrats talking about the 35% who own no home, are drifting around in rentals, filthy places the millionaire landlords never fix so they can buy a 3 million dollar car to impress some millionaire evil bandit creating infernal music from hell? No, all they do is become lawyers who suck up the tits of the Big Realtor companies who make buying and selling a home a 2-30 month process and get more $ for elections lies cycle.

Why can't Americans say via their 2026 votes that "starting this decade, rich people will earn a

maximum of 3 times the minimum wage"? The Immortalist Party is the party of the American people, of the Earth people, enslaved for 500000 years by aristocrats. The Immortalist Party can help humans evolve beyond political parties by changing our constitution eventually, when everyone understands this book in the 2030s. In the transition period to civilization, a good party can be useful. ☺☺☺ Some British vampires invented political parties to further enslave local populations, "divide and conquer", like enemies of various empires created religion fights for easy domination "Republican/Democrat, Left/Right, Shia/Sunni, Protestant/Catholic (both fictional), Hindu-Muslim, etc". Brits learned it from the Greek, Etruscan, Italian Empires, among others, as explained below. In the transition period to 0 political parties, we will remind all Christians that the Immortalist Party, like the Gospel itself, calls for Immortality for All, and that we deserve every vote from all Christians worldwide, plus other believers in some form of immortality, so common in all other religions. The government needs to give 0 dollars to political parties, so that money is used to create better housing and universal healthcare, not to waste money with empty talk about whether we should pay some 10000 times (Demon-crats) and others 50000 (Re-pub-licans) times the average age. Brits create endless divisive labels, classes, groups like "Spanish speaker, Chinese speaker, Vietnamese speaker, etc" for maximum conflicts, hence the Brits/Jews encourage 99 languages to achieve maximum ignorance, domination. Brits never talked of World Peace in 3 months, they never did that in 1000 years, only thru genocide and wars they expanded the Empire to 25% of Earth, so for them Peace was viewed as a bad idea, since at their IQ level they didn't realize an empire can expand without any violence, torture and bloodshed, by people liking something so much, they join without coercion. It's time for us to think of a peaceful way for all to agree to one language we create or adopt, instead of using wars, to agree to one education system or even 11 companies worldwide, so we have 2 billion healthcare-longevity high tech research jobs, instead of 2 billion trade, retail, bamboozling, translating, spying, sabotaging, war fighting jobs of gorilla vibe. Immortalists are neither leftist nor rightist, they're both, the center, the one thought of global unity: Immortality for All. Kindly watch a video by a Westerner who went to China, showing the wasting of national energy, money, time with electing candidates, instead of policies to make all live to a trillion, without any donations and money involved, simply websites alone and social media posts. Discover the Great American politicians gifts to the people vs China's 0 politics system, the Chinese action vs USA empty talk,☺☺☺ the Chinese orderly legislature debates vs Western style disorder in Taiwan (Brits sponsoring chaos, as they tried to drug with opium every Chinese to enslave them all, again divide and conquer, Re-pub-licans and Demon-crats shouting like Hitler at each other, see Jewish parliament too, or British one). Chimps? ☺☺☺☺☺☺☺

Separation of church and state means separation of education and church. US politicians promote the most violent text as a text of ethics and kindness and this is a crime against

humanity and the very basic common sense that ensures a society free from violence and war. It's unconstitutional for states to impose a scripture, much less a violent psychotic scripture calling in Deu 7:1-16 for the extermination of all nations Jews feel like exterminating, in any US school. It's unconstitutional (due to depriving others of the right to life, the most basic right without which no other right has any meaning, since you're dead and can't enjoy your right to "evil religion") for any entity to get tax exempt status if their scripture is violent and calls for genocide of infidels or anyone who is not Jewish, as the Bible and Quran call for. America *is not a Jewish colony where* gentiles are to be killed at the slightest Jewish whim. We see today, the Re-pub-licans promoting the infinite violence of 1400 evil quotes all pastors hide from church goers, via the forceful imposition of the Israeli Bible in Texas (read details), Oklahoma, Louisiana, Ohio, etc, which is mostly the Jewish Bible called Old Testament or Torah, on the mind of little or grown kids, for the creation of 0 IQ masses, easy to loot and enslave. Re-pub-licans can relocate to Israel to experience the joy of the God of Israel they make us hear about every day at the Catholic and other churches. These demonic (or let's say dishonest clueless, to be kind to the clueless pastors who're brainwashed ☺filif IQ folks☺) entities called churches promote alcoholism after alcohol already killed 1 billion people since Jesus promoted it, since after all, Jesus was the charlatan Son of Alcohol and of Satan☺☺☺, via the promotion of the fake turning of water into wine (read how Jesus faked it), a fake miracle Jesus Jewish conman staged, and via the wine at Mass, the lowest IQ ritual in the universe, as explained in 30 pages, similar to the cruel circumcision and other violent rituals that have become, hear that, "a fact of science leading to 80% American male children being stabbed in the penis by brainwashed doctors". The greedy Re-pub-licans, all 'filif toad IQ' puppets of Jewish Israeli gangsters, demonize foreign dictators for having a mansion, then send brainwashed fanatics to kill said dictators, but these same Rethuglican bastards have 1 million mansions in USA, these same Republican bastards who steal everything and boldly declare they work 50000 times harder than others, so they deserve 50000 times more money per hour. Why are these phony demons not killing the aristocrat dictators in USA? Because they're Republican Mafiosi who control the US government. These liars call dictators torturers and abusers of human rights, but the aristocratic Republicans and aristocratic Democrats do the same torture and abuse of human rights too, they got no ethics of 0 torture like the Immortality Party. Why aren't they getting killed like they kill others overseas? Faced with this demonization of those who abuse power and steal/torture overseas, we must also demonize the very Republican *parasites* who're do the same in USA, who loot not foreign peoples but the American people itself. Democracy means the rule of law, but when each city has its laws, we have the rule of 20000 law versions and treating people unfairly. Equal law is democracy. We thus need centralization to bring democracy to USA. Let us dissolve all states and city governments and bring the universal planetary government. Equal justice means equal law, equal education, centralized education, centralized law. ☺☺☺☺☺☺☺

We need a breath a fresh honest air in US politics, after 500 years of Jewish genocidal scripture forced on North America by Jewish/Spanish/etc gangsters posing as "missionaries" who came to shove their unholy ultra violent Torah on everyone's throat on 7 continents without our permission. Thanks to the evil Jewish energy of the Torah (Torah is 80% of the Bible), we could not be free for 2 millennia, and develop decent scriptures, with positive energy like the Immortalist Anthem, so we got a very macho energy of punishment and violence instead of the immortalist *gentle tender soft healing nurturing graceful* loving kindness. Compare the Bloody Bible/Quran psycho trash with the short *Tao Te Ching* or the *Buddhist Dhammapada*, violent hell vs *serenity*. The West has become a Jewish colony unable to create anything eterni at state level. Thus, in response to 2 millennia of '*religious* Jewish terrorism' (*the terror by the Bible fanatics*), it is our birthright to declare the Bible, Quran (see why Mohamed was a terrorist) nonscriptures and manuals for global (calling, like the Torah part of the Bible, for killing infidels) terrorism. In contrast, we can consider the Immortalist Anthem like positive kind 15 page max scriptures (simple and to the point, so all know it well) as some of trillions of acceptable scriptures for humanity going forward, created by millions of kind sweet serene people interested in spirituality. The unholy Quran is 99% Jewish, Bible recycled, as explained here over 70 pages. Do you dislike, or even hate the Quran or Bible, the alcoholic or alcohol drinking Re-pub-licans and Demon-crats, the sex outside procreation Demon-crats and Re-pub-licans? Then, kindly vote the really pro-life Immortalist Party. Re-pub-licans are the party of pubs, depravity and theft, the party of war eternal for aristocratic plundering and theft, the party of anti-peace, anti-life, anti-sobriety so anti-life, since alcohol killed 1 billion last 2 millennia. The Immortalists are the party of the real God, not the "god" hallucination of "malnourished heat struck cave men from year 1000 BC, fighting each other forever". It's every human's right to sign the Universal Declaration of Immortality for All, to free ourselves from royals/governments promoting the Bible/Quran. Isn't it funny☺☺☺ how Demon-crats, who claim to be pro-workers, get all these TV hosts who get 25 million dollars a year pay packages, while others live paycheck to paycheck?. Isn't it funny how they managed to fool 4 billion humans that Demon-crats are leftists? It shows how fascist, right-wing and out of touch the Demon-crats are, their main concerns including "sex outside of pro-creation" and "small business, making many Demon-crats millionaires and billionaires". A sinking birth rate will require imports of 100 million workers from countries that want to wipe USA out. Such patriots, promoting LGBT until 5 people are left on Earth. How about having a real left wing party in American politics, the Immortalist Party who defends the 95% for real, who calls for real democracy, not demon-cracy? You know tons of Demon-crats are millionaires and billionaires by theft and support the most comical☺ policies that are the lowest priority: first we house and feed all, give all right to life (meaning 0 violent crime, Eternal World Peace), give all good healthcare, then we talk about nonsense: no rights have any meaning, if we have no World Peace, since the killed by torture and war have all their rights taken from them, via death. So we

got *two* parties *of thieves* (the guys who design the democratic party social engineering mechanism to prop the aristocratic parasites, not the average clueless voter who has no idea how both parties are controlled by the rich), who promote the mass theft of labor from the average people to give it to millionaires/billionaires affiliated with these thievery *parties*. The two *parties* of psychopaths (the *psychopaths are not the majority of voters* but the top serial killers who run the social engineering game from behind the scenes) are run by psychotic sadists whose hobbies include torturing millions of American citizens for fun and imperialistic feelings. Take that in contrast with the immortalist ethos of banning torture, violence, war and the like. It's the difference between beasts (Republicans and Democrats) and humans (the Immortalists). You don't want to be associated such such serial killers, demons incarnate, who preach love on TV or even to their congregation of gullible believers, and then go torture and kill others slowly. Believe it or not, most USA government at the highest covert levels, is run by such "humans".

Perhaps the most comical☺ thing is that the two *parties* of alcoholics, (refers to the devils who run the show, not the 99% of clueless voters, 35% of whom never drank alcohol) Re-pub-licans and Demon-crats, have no qualms to promote the wine promoting Bible (and its 1450 cruel genocidal quotes) and the 1 billion Holocaust the Jewish unholy Bible caused in the last 2 millennia thru the fake staged miracle of water into wine that promoted wine. The two *parties* of murderers and rapists (refers to the top devils who manipulate the parties, not the 99% of registered voters) diabolically induce billions of people to believe in the Bible lies, in *Moses/you killing 3000* in Exodus 32:26-9 at the drop of a hat, in genocides of all non-Jews (Deut 7:1-16) Jews feel like exterminating on a Sabbath day with Deut-erium tritium rich thermonuclear weapons, in mass rape (D 20:10-14, D 21:10-14, J 5:30), mass theft, mass burning of cities, mass killings of all animals, cats, dogs within said cities, by even swearing on the evil Bible, as servile dogs of the Zion Elders. Re*pub*licans, lick the *pub* glasses of beer and wines, like whores from hell, like addicted drug heads with no compassion for the 1 billion the Bible killed so far via alcohol promotion. Kind gentle ethical Americans, we have a nation run by alcoholic drug addicts (nicotine, alcohol, weed are drugs) with 0 knowledge of chemistry, who don't realize 100s of foods have 50-500 times more antioxidants than red wine and 100s of methods exist to improve vessel dilation, etc that small alcohol amounts do *(the alleged cardiovascular benefits of alcohol that come at the expense of damaging other organs or other aspects of endothelial vascular function)*. Why can't America have a Party of Sober people, who promotes banning alcohol and the end of America's rule by *Republican/Democrat* drug addicts at the top of these parties?

The Demon-crats and Re-pub-licans who run these parties from behind (not necessarily the public folks everyone knows) *are drug addicts*. Nicotine is a drug, the two political parties allow all *alcoholics and smokers to join their depraved* parties (without any suggestion to meditate and deaddict for the sake of World Peace and 0 violent crime, 60% of it done by drunk people) run by

thieves who brainwash Americans that evil is good. These parties are used by the hidden gangsters to promote the British strategy of drugging USA with nicotine, weed, alcohol, etc (like Brits destroyed China in 1840 with opium). The *drunkard* parties have no meditative bliss program (it's simple, relax at home, inhale and exhale the bliss towards all beings) to rid USA of nicotine, alcohol, weed in 3 years. This drugging of USA ensures Brits/Jews run our 4500 banks and keep as chained like wild dogs on a leash. We can ☺*lovingly tenderly gently kindly and patiently*☺ take America back from these "mental asylum patients" with the only ONE Bank, Eterni Bank and declare our true independence from Jewish British Mafia flooding our nation with alcohol and tobacco, gambling ads/venues/casinos. Smoking and alcohol fuel world wars that could end everyone life, as explained before, so how about USA having some *civility*, *compassion*, mercy and protecting 8 billion people instead of pampering 40 million spoiled "Jew/Italian brainwashed" Americans who never knew what missing 4 limbs is as a result of Republican-Democrat policies of global/internal theft, 0 IQ via Bible fanaticism that caused endless wars? The ☺abysmal IQ☺ 'God of Is-rael' (the name doubts if Israel is real, if their God of Is-real is real after all or a fake made up entity) we hear about in every church, the 'dog'/"goD" of the unholy Bible supports genocides of all non-Jews "God gives to Jews" (Jews feel like killing to the last man), when in reality, the real God knows a trillion ways to peace without war, torture, violence, threats. We can ☺☺*lovingly tenderly gently kindly*☺☺ allow all to stop using chemistry and physics, ethics (Bible-Quran crap) books from 1-2 millennia ago, to evolve humankind towards the Modern Century Light of The Immortalist Anthem, a more civil ethics text for our screwed up West. If we would study physics from 2 millennia ago texts, we would be savages, and yet, we remain savages, as our ethics remains in the Bible thuggery stage of infantile development thanks to unethical pastors hiding the bad quotes, like Communist China hides all bad from China and posts only the nice things on youtube. These same charlatans criticize China, while hiding all filth in the Bible, Catholics don't even have the Bible anymore in pews, only the select quotes that whitewash the "Christian horror fantasy cult of torture".

We can finally become free in America and ☺☺*lovingly tenderly gently kindly*☺☺ let every human be holy☺☺☺☺☺☺☺, be viewed as a potential holy teleporting telepathic shimmering shapeshifting physical Immortal, (the soul is that already, if it exists) let nobody want to kill, punch, harm etc anyone for any reason, but wish Immortality *for* All. This is the ethics we need, like in the Immortalist Anthem, not the pathological Bible/Quran crap. So, these hooligans (from Italy, Israel, etc) came here and imposed their violent thug scripture and brainwashed our kids on 7 continents for 2 millennia with their war creating evil ideology. We don't need it, send it back to Is-rael. It's a crime against humanity to recognize any church based on the Old Testament or Quran, Mahabharata, Book of Mormon as a religion and give it tax exempt status. It's not a religion, but a sadistic global genocide cult of death and violence. All bliss from

nicotine, alcohol, weed, etc drugs can be achieved by good sleep, meditative breathing as the eterni culture greeting section explains. The "fluffy please all depraved anti-life hooligans" system of *Republican and Democrats* (con parties run by bad type of Jews, Italian Mafia, unethical Brits) ensures we're all "slaves of British values", cruel Brutes wallowing along intoxicated to the brim with nicotine, weed, etc and alcohol, with no empathy for the poor abused by the *Republican and Democrat top hidden gangster thieves*, never able to get rid of the scourge of tobacco that kills 6 million people globally thru our depraved support of nicotine, while we take no real action to ban alcohol, tobacco and weed (minus medical weed when 700 other methods were tried first). Death penalty for any violent crime/drug selling will be implemented within 6 months of Immortalists winning elections, to rid America of violent crime in 10 years. 10 million $ fines for distributing nicotine and alcohol will be implemented after the 6 month 20 hours out of 24 on all radio-TV state of emergency education. *To take America from the hooligans, we need a 70-90% landslide, making* Demon-crats and Re-pub-licans *minority parties*, so come one and all, give up your silly addiction to alcohol and nicotine and let's bring World Peace in 3 months. Grow up. It's very easy to get rid of addictions, listen to the meditative music section while you breathe consciously. So, having understood how the 2 parties of hidden top gangster *psychopaths*, *thieves*, *drunkards*, *drug addicts* have screwed up USA for 250 years, it is time to vote them out. ☺☺☺☺☺☺☺

The *candidate for the* Immortalist Party for midterm elections will use a very soothing calming eterni tone with serene instrumental music in the background to relax everyone. This speech will be done against a beautiful colorful background, with happyimmortals.com or whatever will be the web address for the Immortalist Party, and Immortality *for* All placard in every public speech or event, the Immortality *for* All *mantra* of Immortalists, in colorful huge letters clearly seen (they can shimmer and glitter even), besides some nice qualities seen on the sides, like gentle tender soft nurturing loving healing kind. The Immortalist *President* Candidate will make twitter, facebook, youtube posts with a short URL for the 10-500 references for any topic he covers to create an honesty based society of proof based posts, like 1000 companies that poison billions of people (as explained in the 180 page section on the 11 companies), decent free shelter for all that is fixed within days of a disaster, without people waiting for years or more, sleep quality (quiet cities policies and how important it is for longevity and national security), decent food (all topics in the unsafe food processors, unsafe pressure cookers and Eterni Food Inc sections, besides chapters 11-12 presented in 500 youtubes or references to youtubes and some science papers), religion reform for maximum honesty and elucidation of donation free policies of immortalists for ending the business religion connection of stealing trillions from the gullible masses (all topics of chapter 14, like online churches, everything with references to the ultra violent quote from a reputable online Bible or scripture website with exact quotes, to enlighten

all about popular 'religions' via 3 social media posts daily to boost critical thinking), etc so that this is the most amazing & beautiful ☺☺☺ *president* who posts daily amazing science paper references in every social media post, to link science, religion, ethics, sleep quality, nutrition, centralization of the 11 companies and free things we all get in a society of universal immortality credit score. The Immortalist *President* Candidate will use the old adage "Do unto others what you want done unto you" or "Love your neighbor as yourself", to explain that the foremost duty of our citizens and governments worldwide is the end of violent crime and wars immediately, since *civilization and culture only exist when there is 0 torture/violence*. We don't have monoculturalism or multiculturalism on Earth, only 0 culturalism, pure cannibalism disguised as culture. The dominant religion on Earth is pain infliction on sentient beings and blood drinking, as obvious from the fact the majority of human chimps are drinking blood daily, since 0.2-0.9% of meat is blood obtained via maximum animal pain. This 0 culturalism is evident for anyone watching the content of media, literature, movies and lyrics, which violate 100% the immortalist guidelines for 0 Violence. Everywhere you go, you're flooded with images of violence, on purpose, since aristocrats steal trillions only by force of puppet cannon fodder who're used to attack the group/nation that rebels at any given time. Violence makes people stressed and only junk cultural products of 0 culturalism emerge in that stress, as seen in the bad scripture quotes versus the Immortalist Anthem, the ethos of our philosophy of life. ☺☺☺☺☺☺☺

You, Immortalist *President* or Mayor-Senator-etc Candidate, don't want to be attacked by thugs, so then you don't want violence for your neighbor that you love as yourself, so you support 0 illegal immigration, free centralized education to give all the decent eterni tone since age minus 1 and ethics education that prevents crime, you end aristocracy that fuels enormous crime waves via 50000 times the salary for similar work that enrages all and makes everyone feel like all is a scam and cheating is the way of life, and also create decent single family housing for all to reduce crime, offering better soundproofing and free lifetime repairs for all citizens done by the one and only universal house building and maintenance company, which is eons ahead of the low IQ low tech contractors today. To prevent punches on neighbors and gangs appearing during people's unemployment period of "looking to waste time", you end unemployment via the 11 companies that employ everyone. Gangs appear due to genocidal aristocrats who steal trillions and who fire one and all, without mercy, not realizing unemployed people are going to join gangs. Thus, You, Immortalist *President* or Mayor-Senator-etc Candidate, end banditry, end all banks but the One Universal Eterni Bank, all hard currency, all cash so no theft can occur, no gangs can operate, no spies can sabotage USA without being caught, as receipt for any product sold exists as proof of ownership, you end all lotteries, all gambling, stock markets, and all scams aristocrats invented to subjugate 200 nations and steal the labor and resources of 8 billion. All income is wages alone, to end the infernal reign of the criminal vampires who steal trillions from

the state and the gullible they defraud. Everyone is paid to report anything wrong with any service and product, with money being paid to the complainer, coming from those fined, if an issue exists and 50-500 people were fined of course, not just one, for everything is caused by many, not one person. The reviews.gov site is for all, the one and only review site, to centralize all reviews on a product by UPC code, to enable product managers to improve products 1000 times more than today. Every product is tested for safety first, not like today, when it is not. Thus, product innovation and improving is 1 million times more feedback oriented. You, Immortalist *President* or Mayor-Senator-etc Candidate don't want to be jailed, so you don't want that for your neighbor you love as thyself, so you support the GLOBAL STATE OF EMERGENCY plan to reduce violent crime by a trillion fold by radical reforms, so that nobody spends time in jail, only in healing centers for violent crimes and all the rest pay fines, take classes in ethics, meditation, happiness, deaddiction. Let all do some community service if no money to pay fines now. The number one goal of immortalist candidates will be the end of thousands of criminal businesses that delay the birth of 0 violent crime in 5 years, by the swift action of Providence or God if you wish, via justified gradual fines and mergers into one of the 11 companies (fines explained over 200 pages here), as also presented in the long list of aristocratic terror businesses used to support the global terror state of aristocratic eternal violence against the working class, as with beatings deified in the Bible/Torah (kids, workers, sex slaves) or Quran (sex slaves, mutilated infidels, kids, wives). The world's first honest political candidates, meaning, those of the global Immortalist parties, recognize the "powers that be" have never been campaigning or talking about End of All Violence, Jails in 3-5 years, since the very System in Place functions by Violence Only. Only thru endless terror and beatings can the aristocrats award themselves 50000 times the hourly salary of the workers, and continue royal and aristocratic families of theft for thousands of years using banks, etc, even scam religions invented to loot the masses. ☺☺☺☺☺☺☺

It's unfair, UK occupied by genocide and unjust war an area about 50 times bigger than South China sea (100 times bigger than Tibet) nine dash line, yet all we hear about is South China sea, Tibet and how evil China is for working so hard to provide cheap products for all, making 98% of solar panel ingots in 2024, 90% of endless products in 2024 the world is too lazy to make (too busy playing depraved British sports), with some Chinese workers collapsing from 72 hour work weeks. See the double standard? Brits live off Chinese labor, and then Brits condemn China for not being a slave good enough, Brits try to drug them with opium and subjugate all Chinese. Walter Delano, grandfather of President Franklin Delano Roosevelt, became rich by genocide too, buying opium from Turkey and selling it to China, causing addiction and death. This was done by other US traders too, who followed the 'evil' human quantum field destroying methods of the British empire. Don't forget the fact USA joined the unethical Brits in the 2nd opium war.

Today, the drug trade is controlled by various well-connected families who use the government for their own ends? Why is the CIA building called after Bush family (accused to be involved in the drug mafia) and not after a quality (gentleness, tenderness, ingenuity, true innovation, kindness, Immortality *for* All) that USA lacked for 250 years of foreign wars? Sort of like the youtubes about CIA dumping cocaine in black neighborhoods: this cocaine scam (CIA admitted they obstructed those fighting drug traffic) is called "democracy" and thru brainwashing people are taught all our wars were just, etc and we ought to not be worried about Mi6 spies running USA from London. China makes fentanyl these days allegedly and sends it to Mexico. Is it true or does CIA catch all fentanyl that comes in by having more clues where drugs go to, via Chinese help of where fentanyl is sent? Colombia, Afghanistan, Bolivia, and other narcotics making nations need to stop making drugs o, torturing people or facilitating drug transport or delivery using spy agencies to destroy "enemy nations", to prevent the planet from asking 50000 trillion in reparations for destroying the human quantum field. Turkey committed endless genocides with British help, by growing the opium used to destroy China. The same diabolical technique used by spy agencies/militaries who torture folks and then say "after endless years of no decent sleep", that they didn't do this right and etc and continue the 'beatings and torture' with their weapons. Pure sadistic satanism, feudal terror of *all nations*, like Nazi guards shooting or beating until unconsciousness the inmates because of not saluting the guard, or telling leftist they jailed or pacifists who didn't want to invade endless countries, to carry big stones, until they collapsed and, with only 2 slices of bread a day, became skeletons and were mocked and beaten by the fat Nazi guard that they didn't bring enough 40 lb stones, beaten so badly, they lost a leg and had it amputated, recall the Nazis and look at USA today (many Nazis were brought to USA after WW2 as scientists, go figure), Jewish/Russian guards in NKVD, etc did similar things to gentiles in USSR. Washington, Jefferson, many revolutionaries, were all British aristocracy spies, slave owners with similar, though not as violent, disregard for human life. China probably simply made a deal with the Asian neighbors to create the South China sea issue to get the Brits/USA out of their neighborhood or to spy on new US bases in the area jointly. Back to politics, this parliament "*shouting, raising voice*" tradition ruins every family too, as all imitate this hooliganism in the US Congress in every TV station, family, group interaction. We immortalists propose a new tone of speech and also public speakers trained to do that, to avoid these 3rd grade shouting episodes. It's like they're paid by UK to incite people to fight, instead of bringing World Peace in 3 months and 0 violent crime in 5 years via the global state of emergency.

What *do we need* political parties for? For aristocrats *to divide and* enslave *us all?* We can perform a nice 2nd American Revolution, with Constitution changed, so no more political parties one day, no more division, hate and incitation to violent crime by hating the other party. We simply focus on delivering good health, longevity, immortality and well being of all, and jobs for

all to implement a policy people elected based on the virtue score: several apply and the best is chosen based on score and qualifications. We debate without political parties. The most important things are healthcare, food, shelter, having a job and being alive. Being alive is above everything, no human rights matter if you die in war or violent crime. Thus, the most important thing is 0 violent crime and 0 wars, so how did the 0 IQ political parties serve that? Never ever, all they talk worldwide is how rich people will make wars to loot the poor in other countries. Which party talked DAILY via all their tweets, facebook posts, social media, united as one voice, about 0 violent crime in 2 years and World Peace Eternal in 3 months? Which party talked of vast reforms to ensure anger and violence don't rise? Which party talked of destroying all these predatory banks? None, they're all phony parties of terror of the military-police state run by genocidal aristocrats. Wake up, the political system was created by the rich to *con and enslave the masses.* The *so called democracy is nothing but* demon-*cracy*. The gangsters attack anyone who threatens their profits, thru endless torture. The parties are a phony deception to make people believe they choose anything, they always choose the same thing: eternal war and slavery of masses to the aristocratic class. No peace is possible, one party passes a set of laws, they're undone by the next party who wins and we go from one extreme to the other, like the lowest IQ primates, the laughing stock of the world, no coherence, no stability and political tranquility, lots of hate among citizens/workers that aristocrats stoke by the 2 political parties that run the show, no consistency, no role model of peace, all while shouting USA is the banner of World Peace. The system is only fomenting division and war, hate among citizens who now identify with this or that party. The people are mere cannon fodder and useful slaves, ☺pet IQ workers☺, guinea pigs. The Immortalists' policies are mostly the opposite of both Republican and Democratic policies, a third choice absent today in US politics, the alleged land of *freedom*. The aristocratic *parasitic* Brits/Jews/etc, disguised as "patriotic Americans" bamboozle everyone that we have "democracy" and "*political* debate", while China doesn't. What kind of debate? Demon-crats say they're OK with aristocrats, CEOs being paid 10000 times an hour the average or minimum wage, Re-pub-licans say *50000* times an hour, the billionaires. The debate is a phony debate between "*we propose most will be slaves making 10000* times less an hour than *the* aristocrats" (Demon-crats) and "*we propose most will be slaves making 50000* times less an hour than *the* aristocrats" (Re-thug-licans or Re-pub-licans), a debate between *10000* and *50000* instead of *10000/50000* and *2-4*,☺☺☺ as immortalists are not allowed any TV time any media time, with their idea of maximum hourly rate (no millionaires or billionaires possible) two to four times the minimum wage. Democracy doesn't exist, demon-cracy flourishes. The debate is hijacked and a fraud, they stage every debate, so the real reform is never talked about, eternal World Peace in 3 months is forbidden as a topic as is 0 violent crime in 10 years, because it is via violence that all are subjugated, enslaved. No country in the world will trust the USA, or these phony fake political parties, Demon-crats and Re-*thug*-*licans*, for they're engaged in murder of

the workers, grand theft of all labor of the workers. As the bastards do to Americans, with the 8.5 million mansions, so will they treat, as disposable slaves to be worked to death, all the other 200 nations. So, until the Immortalist Party wins, remakes America's image into one of a caring country with 0 violent crime, 0 homeless, 100% home ownership, free basic housing for all, free house maintenance for all, free food for all, guaranteed job for all, education for all, free healthcare for all, nobody in the entire world will be low IQ enough to trust anything America says, much less to trust us to be the Leader who unifies the Planet into One Eternia Nation. Since all food is high tech, non-agriculture based, eterni, powders dissolved in water before ingestion, they're customized, personalized for 400 year lifespan and shipped weekly (all work so all get free food, these portions based on their energy needs, weight, etc) as biomarkers change to improve them. You see these billionaire or millionaire Demon-crat TV hosts (3 million a year or 30 million some of them, for telling us lies or some truth mixed with lies), CEOs, etc, it's the party of thieves as much as the Republican Party. Thus, to liberate America from the parasitic Demon-crats and Re-pub-licans, an easy solution is the Immortalist Party wins 70% of votes, so we can change our constitution, happily sign the Universal Declaration of Immortality for All.

They create gangs to terrorize nations, and *big wars to destroy the worker rights movements* in *all nations*. *The wars are a way to* distract the slaves *from the 50000 versus 3 debate, do you get it*? Another example of *fake* useless *political* debate is Demon-crats say "we need to use 10000 airplanes and 500 ships to attack this and that and 2000000 sanctions, and maybe some aid, like 2$ million to feed the 4 million homeless after bombing caused $1 trillion in damages☺☺☺" (massive theft of life and property and genocide), while Re-pub-licans say "we need use 9 million airplanes and drones, 1 million small drone ships and 40 billion sanctions and pay us $20 billion for the weapons used to bomb them into the stone age ($8 trillion damage)" (super massive theft of life and property and super genocide). The debate is like Demon-crats "we chop their legs", Re-pub-licans "we chop their hands or head", for the crime of not having received centralized education via the UN international agreement on one language and one education for all nations, for the crime of not receiving peaceful music clips and help to develop Immortality *for* All societies. US exports violent music and then blames Iraq, etc for being violent. What a gangster behavior. US sowed the seeds for others' behavior, they taught it daily via 900 insane violent movies broadcast worldwide. No peaceful movies to deal kindly with violent scenarios of invasion or etc, only tit for that, max evil programming. Others get bombed for doing what the US has always been doing. Is it democracy or hypocrisy? The real debate is absent, as it is between 1. *SLAVERY*, or the status quo of Eternal Warfare, and 2. *FREEDOM* of the masses, the World of Immortalists, Eternal Universal Peace in 3 months. The 3rd view of the Immortalist Party, using peaceful methods to achieve Eternal Universal Peace, is not presented, only the war options that feed the aristocrats and their need to enslave all. It's a 1984 Orwellian

society, where a cult like thought opinion is imposed on all, no alternatives. ☺☺☺☺☺☺☺

Chaos makes the vampirization and subjugation of the world masses so much easier: *wars are the aristocrats' food*. *The media is a fraud,* it is all controlled by the rich *who want eternal wars*. The rich have no ethics of national self-sufficiency for nonkilling or anything, just theft via all means, even genocide, simply because only slaves fight wars, the rich can avoid it by bribes or by not enrolling in volunteer armies, *as they're not poor and don't need the military benefits for becoming amputated or screwed in combat*. You never hear any eterni tone on TV, about the immortalist anthem values of creating a nation where everyone loves every fellow citizen a trillion times more than the most loving mother loves her helpless 3 week old infant suckling baby, with infinite grace, tenderness, gentleness, patience. If we're a family, would you give one child 50000 apples and another child 1 apple? Why? If we're family, we speak one language, what kind of "lacking in empathy" or "heartless" leaders do nations have to not focus on this immediately or to fight against such a kind gentle tender soft ideal of all understanding each other and being one family? The past is gone, we can't change it, our first priority ought to be 0 conflicts/misunderstandings and 1 language is essential to making everyone understands everyone, have access to the same centralist education and tone, reduce violent crime a trillion fold, wars 5 trillion fold. If EU is one family, why not adopt one language, English? Why aren't Brits kinder and shouting less in royal change of guards? Build houses for the homeless, not for horses, wake up UK, USA etc. Why can't these 'family men' calling themselves leaders make one language the first priority so we all get along and are one family like the immortalist anthem says? Why can't they adopt or make a new language from all languages? Murderous aristocrats love many languages, since 4 million wars started over different languages, endless genocides of workers against workers, which makes them powerless in uniting against their common enemy, the rich vampires in *all nations*, who make trillions by wars, arms sales, etc. So, today, those with compassion, character and mercy, the leaders worthy of being called *gentle tender soft nurturing loving healing kind,* will immediately support moving to 5 then 1 language, to 1 political party worldwide: 0% politics and 100% Immortality *for* All. But no, today, the forces of aristocratic vampirism and tribalism are wanting to have 7000 languages, 3000 political parties.

Some hypocrites *defend minority languages in other nations or 5 political parties, but suppress* minority langauges or 3 party system in their own country *or have max 2 parties at home (*Demon-crats/Re-pub-licans*), this is the same people claiming to protect "international law and rules based order".* Why do we have such pathologically hypocritical politicians, with 0 character and integrity? What hypocrites, the same liars that talk about World Peace never talk about the need for one language. At our current chimp DNA (watch all clips), World Peace is hard without one language, so is 0 violent crime, 0 theft. The media is controlled by rich bastards whose main hobby is the destruction of the worker class, for maximum slavery, including via things such as

7000 languages, 3000 political parties, wars over nothing, religions, etc. We the immortalists, the lovers of life for all world's slaves and workers, dream of immortalist republics worldwide who dissolve all *political parties, which don't do anything, except perpetuate the state of eternal shouts and yells in parliaments* and eternal war status quo, as disposable ☺puppy IQ slaves☺ of the military-industrial complex run by British or other aristocrats to start conscripted workers-conscripted workers wars for their own laughter and entertainment, and banking profits of course. You hear all about wars, about conscription reinstated, etc, they're afraid of losing powers, all these aristocratic clans, royal families, of many centuries. These phony liars pretend to believe in the religions, staged miracles they use to dupe and enslave the masses with. Have you ever seen a parliament with decent eterni tone? Never almost. It's all Hitler imitating to a certain ultra subtle or very obvious degree, like a psycho military training camp, devoid of universal *gentle tender soft nurturing loving healing kindness.*☺☺☺ All civility is lost, look at USA music. We're for the dissolution of political parties globally eventually since Immortality Credit Score gives us an idea who're best candidates (after 4 days of tests for filling jobs to coordinate the elected policies reflective of people's will), but are fine with an immortalist party to accomplish that, changing the constitution via the Declaration of Immortality for all that turns USA into an immortalist republic, not an Italian (Roman)/Greek republic it is today, and electing policies that help increase average lifespan and health the most. We can debate how to live to a trillion years old without political parties, how to prevent *disease, housing ruined easily by disasters, etc*. For example, we have a position for biophysics methods of tripling mitochondria health. We take the highest Immortality Credit Score people with a background in biophysics and biochemistry and give them all a 5 hour test, to eliminate 90%, or 900 out of 1000. Then, the remaining 100 (10%) do another 5 hour test, to eliminate another 90%, so we're left with 10 out of 100. The final 10 will do a 3 day 7 hour/day test, to determine the best. After 31 hours of testing, we kept secret our final 3 day test to the most intelligent, and found the 1 out of the best 1000 who can take that key position for the next 5-15 years. No more silly "President fires people left and right based on political opinion, irrelevant in science". If someone makes a lot of mistakes etc they're replaced via a new exam, or if they fail the recurring test every 3 years every position goes thru to make sure they're still sharp. A supervisor can subject the incumbent and 1000 new candidates to a test when he's wondering if a better person might exist for the job in the pool of interested applicants. This system is 1000 times more intellectual, *fair* and science based than the political *nonsense* system today.☺☺☺☺☺☺☺

Our descendants, who live to 40 trillion, like all intelligent people, who're spirit, don't need physical buildings for places of worship (for religionists, Luke 17:21 says the Kingdom of God is within, not in physical buildings, Tao Te Ching 47 says it too, (2nd translation clarifies better that via quantum resonance, one can see all locations without going there), physics agrees) or

physical buildings for political parties, due to the universal *gentle tender soft nurturing loving healing kindness* that is the very core of the happy Immortalist Party compassionate ethos so well described in verses 8-40 of Immortalist Anthem. "The Immortalist Party won elections" can be replaced with "immortalists won" to be shorter, save energy. In the end we need no parties, only an immortalist republic where all is done to help all live a trillion years, so no need of parties, we just elect policies to live to 8 trillion years. The *Protestants* realized that *God is not in icons or fees to avoid purgatory*, and immortalists realize God is not in brick and mortar buildings (churches, mosques, temples, etc) people worship today. After all, the real temples are not of this world. Due to the call for embodying compassion, the Immortalist Party uses building materials to give *single family homes* to every American, true temples of God being each person's house, to end slavery (of the 95%) once and for all, so the entire party is online, a first in world history, as a living testament *of* minimal *bureaucracy and* maximum compassion. The churches don't need be in a building either, but their ethics is lower, as the quotes reveal. It's a sin to waste materials for useless businesses, churches, mosques, etc while others suffer in terrible housing conditions, so, to teach ethics, immortalists favor online churches free from donations. In our greed capitalism system in places with houses that cost 20-50 times more, crime can be 15 times higher (50) than the safest villages, in the so called "safest mid size cities of California where every house is 5 million or higher". The city-data.com high crime rates in 2020 are 953, 797, 898, 909, 735, 731, while for cheaper places 300 times lower. Can God guide immortalists to those safe places? AWD is safer in all cities, not just ice, rain or snow. Immortalists want ~*~Eternal Universal Peace~*~ in 3 months, sustainable only by violent crime 1 billion times lower. Thus, immortalists love a world of ONLINE parties, where the Immortalist Party becomes so popular, that nobody votes for physical building parties. We realize crime happens due to poor housing, poor sleep, poor nutrition, violent music. All top crime cities play a lot of violent gangster music (the bad type (70-99%) of "rap, pop, rock, metal") which the Immortalist Party would outlaw, since it was created on purpose to drive people (not just blacks) into jails. The most evil people include some of the music creators who caused genocides. ☺☺☺

Ethics is only possible if you're 100% self-sufficient, since then you don't go start unjust wars of looting to steal resources by force or get access to them by trade if a nation doesn't want to sell it to you. We see thru history, again and again, how phony criminal empires have abandoned any ethics and resorted to wars of looting and theft. The only way out is innovation, meaning the creation of 100 million high tech jobs by moving from 33 million redundant companies that produce endless retail, selling and reselling, marketing, reinventing jobs to make aristocrats rich, to 11 or max 20 companies to increase efficiency and reduce jobs needed by half so you get 100 million new innovation jobs to stop needing any imports. Britain went to war with China because of greed, blatant genocidal intent, to sell opium instead of silver to China, after opium

destroyed China fully. Such genocidal actions, born of a typical aristocratic (like Ottoman Empire) killer royal family, with 0 ethics (blowing enslaved people by gun), with no dedication to 0 torture, to Immortality *for* All, no dedication to Nonkilling (like Turks and endless empires, Christian or Muslim, Hindu or Buddhist, etc invaded, killed and looted everyone), no dedication to the Immortalist Anthem ideals of Trillion Lifespans for All as United Nations Declaration of Immortality for All, with the same comical☺ rituals and tones today as we see them at change of guards, etc, and the evil music UK exported to many nations, have created endless conflicts for 170 years. We have to all become advanced, prioritize science and kindness, not religion and sales jobs. Behold the emptiness of religion and how many states with present religions have engaged in unjust wars of killing, looting and theft, in torture and genocide. We don't need it. So, are we going to follow the aristocratic model of enslave and outsource, start wars, make 500 enemies and collapse as a nation due to wars coming back to you, or simply become world's most efficiency economy with the highest innovation and highest fairness, no longer having some act busy and work 5 hours a week, while others die after 8 years of 80 hours a week?

Thus, to achieve and maintain Universal Immortality ☺☺☺☺☺☺☺ or Immortality *for* All and ~*~Eternal Universal Peace~*~, the immortalist nations will adopt a policy of "self-sufficiency (no imports for many reasons, some explained in the humidifier section) and no trade with killing nations (those that are ok with killings, torture, etc) refusing the join the Universal nonkilling and World Peace *Alliance*". National security is only perfect when one never imports anything from a nation that has no 0 violent crime, so the aim of all immortalist nations is to become 0 violent crime in 10 years and break all ties with any nation whose violent crime is higher than 0. The centralized education system means that this education is for citizens of USA who also can attend the immortality labs, according to their immortality credit score and national security threat level, the more sensitive labs only for the safest students with highest scores on nonviolence and faithfulness to the Immortalist Youth Ethos of Global Immortalism. Only those who pass the immortality tests will become citizens, and renew their citizenship and have acccess to the higher tech labs of the 1 million network. No university education, no science and tech taught to any nation that doesn't implement the immortalist guidelines for immortalist content of media, music, sports, TV-radio. No student visas to any STEM major given to anyone from nations without 0 violent crime or without the agreement to implement English as the only language and join USA as part of the Universal Eternia, the 11 companies nation of Immortalist Humans. If anyone is a super genius and wanted in USA, he comes only after he passes immortality test and remains in USA for life, otherwise, can't join STEM, gather a lot of physics or whatever dual use knowledge, run with it to create weapons in another nation. The wild human beast must first learn nonviolence and this we will assist them with, it is very simple, as chapter 5.1 on the end of aristocracy explains. The gorilla human needs to evolve out

of its depraved nature. Skeptics say we're angelic creations of God, hey, watch these videos of cannibal chimps. The number one goal of any nation who wants to deal with the immortalist Alliance is to achieve 0 violent crime and immortalist TV-radio, scripture, music, literature tone. Without this condition that USA should have deployed in 1850, science and tech will be used to build weapons, threaten, intimidate, torture and destroy the human quantum field, blow up planets, start star wars, as we have seen from the ☺abysmal IQ☺ of the USA who transferred knowlege to those who didn't have 0 violent crime and 0 violence in music and culture. The first priority of the Immortalists is Ethics Evolution, so that we can achieve ~*~Eternal Universal Peace~*~, freedom from violent religions. USA freely gave knowledge to all and now they're using it to build endless weapons instead of Eternal World Peace and Immortality *for* All. We can't make the same mistake again, unless we want to disappear without a trace in 5 years. Due to the risk of all humans vanishing via the 2 capsule scenario, Peace is the # 1 goal of all. Ethics and kindness, eterni tone and music first and foremost. The only 2 majors for non-genius foreign students are Immortalist Ethics and Culture, creating a World of 0 Violence and 0 Theft at special universities where only foreign students attend. These can be taken online too. Low IQ people say this is radical, but what about all humans disappearing in 10 seconds in 2035? We're entering the age when it is possible to kill all humans in 10 seconds, so new rules will exist.

Importing electronic products (anything that plugs in) that can write your brain via hidden devices is national suicide. Another form of national suicide is importing Israeli religions. Just as we all protect our jobs and industries by buying loca, so can we buy local religions made in USA, such as the FREE, no donations ever requested kind religion of scientific immortalism of 11 companies, 1 language, 1 bank for all humanity, a nice pseudo religion of "scientific proof first, nonsensical beliefs never", forget mind destroying cults of Jesus, aristocratic Mohamed and aristocratic Moses: let the 11 companies be the 11 prophets replacing the profits of the blood drinking aristocrats who're too grotesquely evil to give a crap about literally eating blood daily. These blood soaked animals have waged eternal wars on the slavering masses and it is time for us, the slaves, to put a stop to it and end their reign eternal of terror thru their bastardly 4500 banks in USA alone and other genocide entities. Impose a 75% tariff on every donation made to a non-American religion, meaning pretty much most today, except the Religion of Immortality *for* All thru Online Churches for All, which are real churches of 0 donations. Don't import religion from Israel, it destroys the intelligence of all nations: Judaism, Islam, Christianity are religions of 0 IQ coming from Israel, religions of national destruction, aristocratic terror and stone age violence, pure nonsense. Let US unite into one wonderful song: "we're not slaves of Israel, Vatican, Saudi Islam, we can think for ourselves". ☺☺☺☺☺☺☺

The "Civilization of Immortals" (any newly immortalist nation, like USA) could even add the word Immortal☺ or Eternal to the name, say their name is America, it would become America Eternal.

America and Eternia share 4 letters: eria. However, it's easier to keep our name 7 letters, like America by changing to Eternia. We can rename USA from 4 words (United States of America) to 1 word: Eternia for a happy peaceful vibe of one country with one state and the end of 50 states and all local governments, Immortality (meaning healthcare, longevity for all, not just aristocrats who enslaved millions of nonItalians and *killed many to impose via violence stone age ideas* and crucified 6000 nonitalian slaves at once for demanding better rights in the Roman empire) or Eternity *for* All vibe, not just Italians, a vibe of true freedom, not an empty promise of 'eternal life in some realm and utter slavery here' but a real plan and civilization that ensures trillion year lifespan for all some day, not in a fiction heaven of a made up religion of fake miracles, but in this real physical universe or others we discover and/or create in this or other dimensions. Name changes are not as important as vibe changes from war to peace. *Without self-sufficiency, one can't have a new ethics that is different than the rest*. If a nation exports killing weapons, it can't be called immortalist or ethical. If a nation imports solar panels (they can generate 5000 watts, a lot of power that can be weaponized), cars (can generate 2400 watts easily) or anything that is plugged into a socket, it exposes itself to its citizens becoming robots (whose brain emotions, thoughts are written by foreign cars and solar panels) and exposes itself to tiny devices hidden in these panels, cars, etc that could act as satellite data download machiens once a year, after they listened to the stuff around or filmed it. Anything that use electricity can have hidden spy or weapon devices. The number one priority of any immortalist nation is to import nothing that plugs in or anything from countries that export weapons, which aids killings. Avoid imports from the top 30 weapons exporters. The ranking changes every year, so look for the lastest update to avoid top 20 at least, otherwise, the Immortals will wipe your country out, in the end, as they're the trillion year old descendants who see all we choose, the real God that no atheist can deny. Especially avoid those with high exports/capita, like Israel, world's number 1 exporter of violent quotes + weapons per capita. France is #2 in weapons exported/capita, which comes to no surprise given their Anthem, which is not like the positive words filled anthem of Eternia. As Italy promotes violent text as scripture, it is under real threat of vanishing when peace rises. Promoting genocidal texts as Word of God is a crime against humanity that may end Italy, as the real God will find that offensive and insulting, totally misrepresenting God.

The Italian or Jewish Italian behavior (enslaving Lybians) in the 20th century seems to be the same with Italian *(or Italian Jewish if many still Jews, recall many 'Italians' are Jews actually)* Vatican promoting "take gentile (nonJew) slaves or beat slaves" as Word of God at every mass, so in the 21st century we still praise torture, beatings and violence when we go to any church claiming the Bible with its 1500 horrific quotes (Old testament mostly) is the Word of God: beatings deified in the Bible/Torah (kids, workers, sex slaves) or Quran (sex slaves, mutilated infidels, kids, wives). This is "Devil and idol Worship", not God, *decorations, trees, Christmas*

lights worship, not kind nonviolence, rituals, not spirit. Cutting trees to sustain a 0 IQ tradition, is more important, per the "Almighty Representatives of God's Infallible Wisdom", the Pastors who torture trees and inflict pain on plants which is against the Immortalist Principles (we won't eat plants or animals, but molecular printed food) of non-killing foreign to the Bible, more critical than reusing a tree every year 80 times, a smaller tree. Trees experience pain, just as we do. The Pastors don't care about the slaves who cut, transport huge trees, but we Immortalists care, we aim to develop high IQ, to use our brains not muscles to cut trees, to develop food that kills no plants, to never kill or torture anyone. The emissions kill people, do we really need trees? Others are homeless, but we waste millions of tons of wood, how kind, and truly Bible like☺☺☺. Jesus did not say "*When oxygen is low and we need more bigger taller trees (that can't grow when you cut them yearly) than ever to stabilize climate, cut all trees and waste wood while others freeze on the streets or die of heat*", Jesus did not say "buy a 10 ft tall tree" and "waste eons with transport and setting it up", instead of helping others. It's OK to just decorate the house without a tree, using garlands, globes, etc and nice lights of the Qualities we totally lack. I know, it's very beautiful, the lights, the streets with lights (the lights make cities beautiful, not the bare green tree support in your home nobody sees, you can use 100s of existing structures in your house to decorate, nice cups, etc to put globes, garlands, etc, no need of a tree) but longevity is more important, real happiness every day. How big does a tree need be? Oh, we're all Jewish slaves, we need to worship Green, the Jewish color, we need the Tree of Life of Kabbalah to worship, but never kindness and World Peace in 3 months. Isn't a 3 ft small light plastic one enough? Let it be of many colors one wants, white, purple, pink, blue, etc. Let people live long, not have trees and drop dead at 55. Worship the invisible Tree of Life, the eterni music so different than kindergarten IQ Christmas Carols. Everywhere you go you see the total spiritual bankruptcy of the Americas, Europe, coming from the Bible itself. Just nice decorations, no light strings saying "Universal (not for Italians only, a religion, gender, etc or one's ethnic group or race only) Gentleness", "Nurturing" or decorations about the Qualities totally absent in our world, as explained in the online (0 donations) church section about the *gentle tender soft healing* grace of *nurturing* universal loving kindness qualities on every street and house eternally decorated as reminders of the ~*~Eternal Universal Peace~*~ building and sustaining traits, living to a trillion years old lyrics eterni tone city background music. ☺☺☺☺☺

Renaming our country is declaring independence from the Italian Mafia, the Vatican, the deifying of violent quotes, it is focusing us on | |Immortality *for* All| |, the most important thing in a civilization, the most important and central quality of God that no human can emulate, eternal life itself, and gives us freedom from the worldly mundane focus on Amerigo Vespucci merchant navigator human full of faults, the freedom to focus on the transformation of USA into a holy nation, focused on the holy property of God, Eternal Immortality,☺☺ freedom from the Italian

Amerigo Vespucci name and his faults, which brings a memory of endless genocide perpetrated by the Italian Roman Emperors and the Catholic Inquisition, the Catholic Church, who, to this very day, forces its church goers to repeat the most improbable beliefs (Nicea creed) and miracles as fact in the absence of any scientific honest man approvable set of truly peer reviewed unfakable evidence regarding the ascension, Eucharist and all other miracles, as explained in many pages in the fake miracles section. Freedom can't coexist with fraud and we know that we have no evidence that the "proof" that Amerigo went to America at the time of Columbus is valid, since the proof is just some easy to forge letters... and Spanish and Italian spies were very well versed in making up stuff, with Amerigo being a spy himself most likely too, besides being a businessman and explorer with a good science education, as wikipedia explains; additionally, we know the immense brutality and dishonesty of the Roman emperors and we're likely to find that many Popes, bishops, priests, people had confused self-healing (due to suggestion) with miracles, have invented things to bring peace or expand the church or empire.

To be honest is the first step towards scientific and spiritual truth progress; to be fair is to focus on a quality we desperately lack as a species, the virtue of nonkilling, which is the basis of long lifespans and Immortality for All, not to make an idol of a supposed visitor of USA; we could ☺☺ *lovingly tenderly gently kindly*☺☺ hypothesize that is is wiser, more prudent, holy to idolize *gentle tender soft healing* grace of *nurturing* universal loving kindness qualities implied in Immortality for All in our name, whether you see this as spiritual or physical immortality or both, than to idiolize a mortal, who, was probably engaged in taking over the African slavery business of his successor Berardi and in many shady things that are incompatible with universal kindness, peace, honesty and ethics. We need to evolve spiritually and ethically, to be able to achieve Immortality for All,☺☺☺ long lifespans and there is nothing more useful for preventing self-destruction of the human species in 10 seconds, than focusing on Immortality for All, the human right to life of all, a life free from torture, intimidation, threats, violence. The 1.3 billion Catholics and Italians may be a litle upset by such words, but if they read the fake miracles pages, they will understand that not all is what it seems and that Eternia is very spiritual, since many scriptures talk about immortality Eternal Anthem. Catholics will recall miracles were made to expand a little empire by men thirsty for God and confusing land mass with wisdom, space with inner space, horizontal expansion in one dimension with inward expansion of the soul towards trillions of dimensions, possessions with longevity and immortality, wealth (they became the richest landowner in Europe and biggest financier of wars) with knowledge, brutal Inquisition murder with healing *nurturing* loving kindness as in this music, lies with real miracles of knowledge to grant 5000 year physical immortality to all, killing in wars of looting and slave taking (and then crucifying 6000 at once for rebellion) with granting Immortality to all as God wants to give all physically and spiritually; for God forgives all, including crafty miracle inventors.

Humans will evolve past all this and become free, whether our name becomes Eternia or not. ☺

It just so happens in English we say "I want to become immortal" more so than "I want to become eternal" and we refer to spiritual or physical Immortality not to spiritual, physical Eternity when talking of spirits or bodies, but they're similar, e-ter-nal 3 syllables, i-mmor-tal, 3 too, ending in tal, e-ter-nity, i-mmor-ta-lity, both end in ity, pronounced like ET, extra terrestrial, the quality of any Immortal☺ species is it goes beyond its original planet, etc. So, let us become imbued ith the quality of Eternity, and become so ever more alien to human vibe, like a true ET, ET-ern-ity, ET-ern-ET, ET yearns ET, Eternity yearns (years) to be an ET, ET yearns Eternity, ET earns Eternity, extra tranquility earns Eternity, so yes Eternal is beautiful and if you don't like Immortal world due to mortal in it or Italy-rome stuff, just use Eternal in this book or your book where I wrote Immortal☺ since Eternal is kind of odd in English today to use as often as we use immortal or immortality, but not in the future maybe, since change alone is constant. Eter is like etherial astral spiritual world, so the ether is the hyperspace, the thing that scientists hypothesized to be there to explain for the unexplained. We could say *'I want to be an Eternal'* and it would sound like *I want to live forever*, but when we say 'want to be an Immortal', it can mean live to 900 years or billion, but not maybe forever, so the word Eternal is associated in English due to the trivializing of Immortal☺☺☺ in language of sci fi movies, with a longer, much longer Immortality than Immortal. For these reasons, many would favor Eternia, Eterna and Eternals, but anyway, this can be decided later after the formation of Eternity and Immortality parties. We can all forgive all, end all revenge, vendettas and fault finding, and start building a better future for all humans, and move on, give amnesty to all, even religious conmen, all in prisons go to healing centers we create to replace all jails, make World Peace in 3 months USA number one priority and to show we really mean Immortality *for* All, human right to trillion year life for all, we rename USA to Eternia to show focus, dedication to freeing the human quantum field from torture, violence, war, crime and we allow any nation to join us, as a new state with English for all, within the *Universal* Eternia. This way we show gratitude to the eternal Immortal ☺ God or universe, not to one guy: USA is not great because of Vespucci, but because of every American (eterni in the future), because of our collective, *vibrant*, shimmering, Radiantly Beautiful, *all consuming*, *universe transforming*, all graceful, holy desire to have only *noble kind gentle healing* compassionate benevolent intent and treatment of all beings, as lines 12 to 37 of Immortalist Anthem explain, giving all Immortality to perfect their character for a nicer afterlife if any exists, regardless of their ethnic or belief background. We need to worship the good of all, not one guy, so we can ☺☺*lovingly tenderly gently kindly*☺☺ let our country name reflect that and remind us of what is important, life, peace, giving the chance of living to a trillion years old to all humans, the gift of *Everlasting Life* to perfect one's virtue, until one is polished enough to enter the higher dimension of truly Immortal☺ Life, the realm of Immortality that transcends

the death of our universe. This allows all American states to rename our continents to North Eternia (or Eterna) & South Eternia, to change the history vector towards Immortality *for* All. To be a human is to go beyond limitations. ☺☺☺☺☺☺☺

To be an Immortal *human being is to not* kill *your own*, to reach the stage of civil animal at least, to abide by nonkilling, the fundamental basis of all ethics, civilization and progress. 500+ mammal species *don't* kill *their own, so "planet of* Immortals*" (not Earth today) humans may say "to be human is to not* kill *your own"*. Even some animals are superior to humans in some ways? To kill is to take Immortality or the capacity to emulate Immortality away. ☺ It's the biggest "sin". Not compromising on Immortality, nonkilling and nonviolence is a way to escape death from historical inertia coming back on oneself, the karmic force that would destroy the USA or any *Civilization*. We can dare to free all humans from war in 3 months. Proponents of 2-10 political parties say we have more debate of ideas, instead of only 1 idea, but that's not true: in our system today, we hear 2 sets of ideas: Democrat and Republican☺☺☺☺☺☺☺. In the system of Immortality one party system, we can hear 700 sets of ideas on ~*~Eternal Universal Peace~*~ in 3 months and Immortality *for* All and 0 jails/violent crime in 25 years, we allow 100s of ideas to be presented by the public speakers whose job is to intone in eterni ways, presenting the updated, corrected ideas of the people (small mistakes of phrasing, writing tone removed). So, having 10 offices of 10 political parties and the inefficiency that brings may not be ideal, since the focus is in staging only 2 sets of ideas or 10 to keep IQ low, instead of 100 sets as with the centralized immortality capitalism system of the universally known suggestions.gov. Not to mention, we see today in 100 legislative bodies occasional shouting matches, fist fights, runs, head falls. Ironically, nobody cares about anything, due to the representatives simply imposing their views on all and shutting off 100s of better ideas, simply because they're representatives. This unfair system of militaries installing puppets in courts, parliament, government is just like 1 set of ideas. In every nation, the spy agency creates the 2-10 sets of ideas, platforms and how that plays in public, in a very well staged game, reminding us of USSR methods of staging everything. This is nothing like true democracy, but the dictatorship of the spy and military agencies, which can *often be one family or group of families who run the whole show, pretending to be the "people".*☺☺☺ Why do we need bicameral parliament? We don't, let's have only one legislative chamber, with 1 rep for 1 million people. Dissolve states too.

The phony Re-pub-licans claim they're pro-family and yet, their policies ensure the family of the nation is the most neglected. We're all one family, meaning we share the same company, we're efficient, have 1 million times more healthcare and research, science, tech jobs as we love our human family 1 million times more than Republicans, we got 11 companies instead of 33 million, we share, everyone ought to be kinder than the most loving mom by a trillion fold factor, to create a lasting world of Immortals as the Immortalist Anthem explains. In the future, 5 trillion

parents can create 1 baby, via materializing a few atoms each, as we evolve to teleporting (at least part of us, the electronic astral body we create) shimmering shapeshifting physical Immortals. Re-pub-licans live as chimps from the jungle, far in their la la land from a bygone cannibalism universe, unable to realize one day every person will be the parent of any new child in some worlds, or even Earth too. For them, at their level of science knowledge, such a concept is against the ant IQ violent Bible and its tenets from the jungle cannibal chimps. The Republican logic/ethics is chimp cannibalism: aristocrats feed on the work of the rest, get paid 50000 times more per hour, work others to death, eat them alive slowly by torture or overwork, use them as cannon fodder. Loud they shout, "we need freedom of religion, so we simulate cannibalism at every Mass for Jesus." In the world of the Immortalist Party, each citizen creates a nice atom or even 1 billion, and blesses it with their best 'eterni greeting vibes', and sends it to the template to be used to create the new child, grown to adult size, who then gets infinite knowledge uploaded in seconds. You can use even a modern machine fed random atoms as source of subatomic particles, to materialize an offspring, if you know how to assemble the atoms in 1 second or the subatomic particles (say from the parent's hair) fed into the 3D printer or molecular assembler using a 5th state of matter, not plasma, to speed up this precipitation. An adult got many atoms, maybe a trillion quadrillion, so imagine, what a complex DNA with each parent giving a hidden DNA of future science, to this molecular wonder of 1 trillion parents. Demon-crats and Re-pub-licans live, without realizing, like proud chimps from a bygone era, always praising the Bible, its atrocious evil nature, to score political points, talking about family, yet doing little to centralize, to share, to unify, to make this planet one family free from war and violence, a truly warm and caring family full of *gentle tender soft healing nurturing* loving kindness for all 8 billion humans. How can any ethical politician call for the bombing of other humans, other members of one's family? It can't be, ethics is a theory, we need to teach true family values, not Republican family values or Putin family values or any other bombing enthusiast family values. Peace arises *when all view all as their family and act as one village.* In our debates at elections we will show how both Demon-crats and Re-pub-licans have been faithful slaves of the aristocrats, supporting the 4500 banks, their 33 million slaving business clients and other things and have delayed scientific progress for 200 years by their feudal policies. We will use 2000 quotes from Demon-crats, Re-pub-licans who support "small business" for a 0 IQ 0 progress America, redundancy to the extreme, 0 true family values, 0 cooperation, 0 planetary or national family values. The Immortalists are the *science, progress, family values*, the rest lackeys of aristocratic stagnation, of blind money worship, adulation of stock markets and trade. As more people realize the chimpness of both old parties, they quit in droves and embrace immortalism and the Immortalist Party. We'll appear as the progressive party, the Demon-crats as a mere shadow of Republican values, though not as regressive, yet both backward chimps, disposable puppets of the aristocrats who promote redundancy,

inefficiency, stagnation and pleasing the banks. ☺☺☺☺☺☺☺

There is the possibility of Republican and Democratic parties renaming or the platform including Longevity, Infinite Lifespan or Immortality ideas (the name is not that important, as it is the content of the platform, indefinite lifespan extension). Throughout the US and other countries' history, party names have changed a little bit, so I see no reason why the Republican (or many other parties in other countries) party can't become The Eternity Party and Democratic party become the Immortalist Party or the other way around or any other word that hints to Eternity, Immortality, Trillion Year Lifespans and Eternal Universal Peace. Eternity has a more trillion year lifespan vibe to it and a more inter-dimensional vibe, of Immortality extending beyond the death of this physical universe, which, like stars, may die some day, whereas Immortality is something that can be interpreted in English not just as Eternity, but also as a more science fiction concept of living to 900 (which is more down to Earth and acceptable to atheists and agnostics or realists of the political spectrum) and they call it Immortals, or 900 billion year lifespan and they call it Immortals or Immortality, without necessarily meaning FOREVER and spiritual nonphysical Immortality, so Eternity may go well with religious enthusiasts who may be more prone to believe in afterlife, though it's all semantics; either way, Republican renamed to Eternity and Democratic to Immortality is perfectly fine, there is a big difference in some way on the approach of each party, Eternity Party would focus more on the strategic qualities (honesty, not fake miracles, gentleness, kindness, eterni tone, etc) we need and far our tech, while the Immortalist Party on the more tactical short-term actions we need to get to 500 year lifespans first, so we can dream to 5 trillion year lifespan later, before we dream of a trillion to the power of a trillion life to escape this physical universe death. For countries with 2-7 parties: World Peace in 3 months Party (this could be Democratic Party, while Re-pub-licans aim for Immortality *for* All Party name change) that aims to bring World Peace on a Trillion planets within 3 months of deciding to do so if wars exist there, Eternal Universal Peace Party (in all *universes* we expand to), Immortal☺ Peace Party, Universal Peace Party, Timeless Bliss Party, Octillion (10^{27}) Year Lifespans Party, Perennial Joy ☺☺☺ Party, Immortal Life Party, Eternal Joyous Life Party, Life Extension Party, Mitochondrial (molecular biology of power plants in cells techs) Immortality Party, Biophysical Immortality Party (biophysics technology), True Pluralism of the Immortality Federation or Civilization. ☺☺☺☺☺☺☺

The Republican and Democrat parties have failed America, why not try the Immortalist Party? Millions of Americans suffer needlessly every year due to preventable causes and government mismanagement of national resources, such as $50000 water damage in a house because the government didn't provide a 200$ hurricane tornado proof window, while wasting billions on stadiums, strip clubs, nail and leg shaving businesses, vape stores, liquor stores, lotteries. The most important purpose of a government is to ensure decent shelter and food for all. This is

where they failed as the Immortality Building Inc and Eterni Food Inc sections show. The US government approves the mutilation of our youth, with nose, belly, penis, vagina, lips, eye brow, ears, holes to "beautify" the outer person, while these "nose, ear, etc" rings can cause deaths or serious infections that lead to TSS and amputations, thereby draining national medical resources. This metallized powder material in a laminated window would prevent $50000 in water damage repairs in a house. Likewise, millions of houses were damaged because of a lack of federal mandate to use the dome shape, 100 times more resistant to tornado or hurricane. Nations that don't wear rings at all live longer by 5-15 years than those that wear a lot of nose, belly, ear piercing rings, showing that rings don't help you to live to 100, let alone live to the 5 billion goal of immortalists. It's all placebo. Ear candles are another 0 IQ tradition, that does no good and only damage, besides wasting your time and energy. The US government has no fee for cats and dogs, huge national resources go to pet hospitals for example, billions of dollars. 0.2 billion could have given 1 million hurricane proof windows to 1 million water damaged houses that shortened the lifespan of 1 million people, due to mass production by Immortality Building Inc. We need ethics classes on all TV stations in eterni tone, to help people think: 200 million for dogs and cats or 1 million human lives vastly improved? Is having a dog ethical when millions of fellow Americans live in the most dilapidated or mold infested houses due to failed US policies of decentralization? Humans can offer the same affection or better than pets, and meditation, relaxed breathing☺☺☺ can too when humans are not around. Once again, the government ignores people and deifies metal objects, breast implants, penis enlargement, rings and cats, dogs. Why are breast implants legal anyway? This lady could not get out of bed after breast implants. Another lady got so sick, she removed her natural breasts too, search youtube for more horrific stories. Breast implants only give cancer, sickness and/or shorten lifespan. Only ☺ puppy IQ people☺ care about the size of breasts. What compassion is this for our youth, to lead them into oblivion, death and infection, into callous indifference to the lack of hurricane resistant windows, by the metal they mutilate their body with? That gold they adorn the body with is not needed, it can be used for medical devices that monitor 400 biomarkers in the city Immortality for All centers. We have nice colorful clothes today, can make the most colorful ones we ever made, we don't need metals to appear more beautiful. People can catch stuff with their rings, injure themselves too, it's insanity. Not to mention dogs ruining sleep with barking.

Another idea to enhance immortalism, give decent concrete block (impossible to demolish by hurricane or tornado) or concrete domes or metal (or any material stronger than steel, some have been discovered, made from carbon nanotubes, etc) structure (one piece covered in stucco or something with the 4-8 metal/new material legs or pillars deep underground to prevent being flown away, so the legs have a huge round thing that would have tons of earth on top making it impossible to get moved by the wind) domes (100 times more resistant to hurricanes than

square box houses not made of concrete☺☺☺☺☺☺☺) houses to all via efficient cost effective mass production by Immortality Building Inc, is to eliminate endless city county state admin jobs by remapping USA into 8 states with 300 counties of maybe 1.1 million people each, which adds up to 330 million people, the US population today. We don't need 50 states. Today, due to redundancy and lack of national policies (about strong cheap mass produced buildings that are 100 times more resistant to tornadoes, winds, hurricanes) of centralist Immortality Building Inc, we get endless people go thru home demolition (see video of flimsy houses, left as such by greedy low IQ folks who waste millions of tons of concrete on sports facilities, while people die because they don't have a dome shape more concrete rich home), sudden death catastrophes.

The End of 50 states, of 20,000 state, city, county local governments, via 100% centralization

Do we need 50 states, 3,200 counties, 20,000 towns and related 23,250 govs? What if one gov is enough for all these cities, artificial entities, a gov that focuses on helping We the People instead of the best politics for looting the treasury via contracts? With 22 million local gov employees, the redundancy and waste is astounding, as each invents unique rules for the 9 km^2 of cow IQ idiots of IQ 80 who have some IQ 90 mayor. Shouldn't the decision be made by IQ 200 people for all USA? Everyone knows why people want to get a local gov job that wastes trillions vs 11 companies 3 agencies: MONEY, benefits, job security i.e. everyone is fired (except local gov employees or CEOs who remain usually for life) in a genocidal system of changing company 90 times vs 0-1 times in the 11 companies system of no unemployment. We got a 2 class USA: aristocratic local gov employees and the slaves in private sector who often bear the brunt of stress, or 5 times more. Imagine we had 20,000 Windows, Apple or Android OS, instead of one of each, you would have 20,000 times fewer programmers for each, leading to a super low quality product, possible 50,000 times lower quality. With 23,000 local governments, where officials often give themselves 53 times the $15,080 minimum annual federal wage, 800K (like those bastard fake leftists who're "labor union presidents" making 1000-26,000K; nobody make that in a real democracy, as there are no unions, since there is 1 pay, no protests, no negotiating bullshit; we just help all USA, the end of games), the safety of housing is clear: water reaches rooftops, because the city, county, state staff are too busy looting We the People, to actually have a unified national code (Immortality Building Inc) that prevents house building in an obvious valley with no 10 ft elevation. Potholes are too many, as looting is the religion, stadiums the philosophy. With one government, we can achieve 20,000 times better results. Today 20,000 towns/villages create 20000 versions of various codes and laws, 3,143 counties and 50 states have other sets of laws, and everything is a complete madness. This creates friction between federal, county, state and town governments, which is unacceptable and suicidal for our nation, enemies will exploit it to destroy our country. It's time to practice United We Stand, Divided We Fall, instead of talking about it only. Why have 50 DMVs? The Eternal Travel Inc will issue all

Licenses. This insanity and wasting of human resources and time costs us trillions in the long run, so we need to be real, efficient and develop for every type of issue a one and only law, The National Unified POLICY. This centralization and replacing of 50 states with 8, 4 or 1 state would vastly increase efficiency, dissolve all state and city governments, as states are merely for mailing purposes and make no decisions, as we're ONE Individble Nation of 1 Policy/Law and all local 'government' are federal offices, increase material science research jobs to enable all to have a tornado EF-5 resistant homes (only 1% in USA can resist that today, in the age of depraved sports), and enable us to move from the past energy of war/violence to the age of ~*~Eternal Universal Peace~*~ and Immortality *for* All of Eternia with 8 states named like: 1. Eterni (the biggest Eastern state, sharing 5 letters, as colors indicate, with Eterni and 6 with Eternia, made of 13 states + DC: MD, VT, NH, NJ, MA, RI, CT, NY, PA, ME, VA, DE, WV easy to recall, east ete, Eterni is unisex, while Eternia is feminine, Softi is unisex so it is more democratic), 2. Whisper (biggest western state by population, made of 7: CA, NV, UT, CO, NM, HI, AZ: easy to recall, to help all people worldwide stop shouting like dogs during speech, and to employ eterni tone), 674K mi^2), 3. Nurturi (*Nurturing* Immortality, a gentle quality of grace we lack, similar to Northern most state, 4 common letters, ntrr, Alaska, 665K mi^2), 4. Pacifi (Ocean, World Peace in 3 months, OR, WA, MT, ID, WY), 5. Softi (soft speech, emotion, concept, made of central Southern States of TX, MO, OK, AR, KS, LA), 6. Tendri (South East: FL, MS, AL, GA, SC, NC, TN), 7. Gentli (central: KY, MI, OH, IN, WI, IL), 8. Kindli (MN, IA, ND, SD, NE). This, in conjunction with renaming many things, and posting qualities everywhere, leads to an ethics boost in a callous jungle like world of shouting and hollering disguised as music. This move from 20000 administrations to 1 central admin with 8 offices in the 8 'states', eliminates bureaucracy, gives all a healthier longer lifespan. Obviously, as mentioned below, this would be a temporary move, since we would eventually move to one state with the 4 regions of USA called NE, SE, SW, NW to make mailing stuff easier.☺☺☺☺☺☺☺

We can also begin vast centralization, via the Eterni or Eternity new capital of USA. Present states are run by mafias who don't care about the people. For example, USA has the most tornadoes of any nation on Earth and we don't have any state with frequent tornadoes where houses can withstand 300 mph winds or 400 psf (pounds per square foot) pressures. However, Monolithic Domes that existed for decades can withstand 2000 psf pressures, 5 times more than the strongest tornado winds, so the criminal genocidal governors and useless trash aristocratic terror legislatures have not required any state to build domes to withstand these 400 psf winds via efficient use of shape, meaning a dome made of the same materials as a box will be 10 times more likely to survive intact and not kill its residents during tornadoes. This led to a genocide of innocent people losing 5 to 80 years of their life during tornadoes, via stress of storm damage, or outright death. With trillions of pounds of materials wasted on stadiums, 400,000 churches

dedicated to spreading the Word of 'God' i.e. of Mass Rape, Endless Arson of millions of innocent Animals, trees, insects, Smashing Kids against rocks, casual boiling of one's kids to eat them as part of scripture, Beating Kids with Rods, genocide and Beatings until Death, as long as death is not immediate (delayed for years) and obviously caused by your beatings of legalized Slaves, and useless businesses selling 1.5 trillion worth of junk each year, you would have enough for at least the center of the house having a dome shelter bolted into the ground with 4 pillars ending in plates that hold 1-2 tons of earth each, made of steel or other material stronger than steel, so nobody dies or is injured by the wind. In the Millionaire Pastor Ethics, to steal all materials that could be used to prevent deaths and lifelong disability of many, is Godly and just, because it helps spread the Good News of Genocide, Mass Rape, Slavery and Slave Beatings. What about fireproof homes? Domes of concrete are very fire proof. They can be very EMP proof in case of solar storms or nuclear EMP attack. The gangsters could care less if all civilization ends due to a solar storm EMP surge taking down all electronic devices. What about millions of flooded homes and lives ruined by the states trying to save 5 billion to not raise foundations by 6 feet, when US spends 0.5 trillion/yr on smoking, alcohol, gambling, sports, illegal drugs, 0.7 trillion on totally useless businesses covered over 30 pages? These "officials" are living in a sci fi reality of aristocratic wines and parties that killed 2 billion people already. So, what did these criminals do except lie in the fake elections? ☺☺☺☺☺☺☺

Isn't it time to dissolve these parasitic gang infested entities called states and have only one central government? The states can't ensure even the most fundamental human right, that to shelter that doesn't kill you during a storm. Thus, they need to be dissolved. There is plenty of concrete and materials for safe houses, as explained here in 30 pages. City Council officials often give themselves salaries 3-20 times higher than the city average, and they just loot the city via property taxes of money that could hire 500000 border agents to inspect every package coming into USA and reduce drug use 50 million fold in USA in no time. Millions are unemployed, half a million new border agents is just a tiny amount. Bring in a trillion drones to inspect all land and sea borders. These same thieves then create sanctuary cities to allow criminals, spies and serial killers to setup gangs and poison our eterni vibe with their macho hooligan songs. All city and state governments need to be dissolved immediately so we have a 0 violent crime fast. The amount of mafias at the local government levels and local police departments is huge. You know, USA is good at civil administration and city admin jobs and wasting time, with such low IQ majors, instead of being 100% self-sufficient via physics and chemistry majors that build molecular assemblers to make everything we need inside USA and stop any imports from those who try to destroy us completely with fake poisonous products, hidden weapons and drugs. It's time to take America back from the aristoc-rats and their macho bought mafia local governments. Nothing gets done, these pigs just Create Sects of Guru Worship, everything in the

media is About their Name and how they Sign it, on every city/state office their unholy name is there, they can't Place the Qualities of *gentle tender soft healing nurturing* universal loving kindness Immortality *for* All on flyers and Immortalist USA first, all is about them and their mafia gang: Me above the nation. This encourages egoism, the collapse of ethics and the fanatical deification of monuments dedicated to people, instead of to the Qualities we lack or Scientific concepts that helped us live to a longer healthier lifespan or to cure diseases: altruistic efficient service to the Immortality *for* All Cause, in the spirit of *gentle tender soft healing nurturing kindness.* These grotesque "officials" are America's demise. They need to be fired by DOGE. All states vanished. All policies unified. One Law everywhere. Some of them even promote the most Violent Grotesque Sports, like Slapping Contests. America's demise is clear in the fact we have Weight Building people as Governors, instead of Physicists and Chemists, Engineers only to make us 100% import free in 30 years. It's truly useless to have mayors and city governments. We just have 340 counties for 340 million people and the offices of the 11 companies and 3 agencies in there, in every say area of 2500 people, and some more regional bigger offices for each 100000 people and 1 and 10 million. We're One City of Immortals, USA, no need of cities, get on with it, let everyone belong to the One City: Humanity of Eternal Immortality *for* All, with the happy Immortalist Anthem shimmering in every heart in gentle tones. Check out Vietnam is already doing all it can to become efficient, fewer towns, merging things. States are illegal, since Constitution says all men created equal, meaning SAME LAW for all areas of USA, not 50. ☺☺☺

Far more efficient than 8 states is creating 4 "quasi-states": NE, NW, SW, SE, Northeast, Northwest, Southwest, Southeast, with Hawaii being part of SW, Alaska part of NW, or of N, if Canada joins as 5th state renamed N. Canada announced in 2025 the One Canadian Economy bill to create 1 market, not 13, in a step towards the dissolution of the Canadian states and all nations, as humanity becomes Eternia. USA will do the same, dissolve all states. These 4 "states" are only for mailing address, for increasing mathematical thinking, with people saying "I'm from NE NE". They don't have different laws, or separate governments. They're just for regional federal offices dealing with some things, warehouses, hubs, etc. There is only ONE real STATE: USA, regardless of how we divide USA into 4 or 8 mailing regions. The 8 states above or the 4 NE, NW, SE, SW are mere geography designations. States, whether 50 or 8, are often used by aristocrats to subjugate the working class, manage different ethnic groups, via different laws on abortion, etc. In USA, we spend all energy in creating 50000 abortion laws: city 5046 aborts at 3.004 weeks, city 9002 aborts 3.19 weeks, etc. We need one law in every field of human activity, one police department, one everything, for maximum research and innovation, 0 aristoc-rats. With meditative training, nobody has sex outside of pro-creation, why do you need all these different laws for? For example, the rich crafted 0 state tax in Texas and Florida and other states, so they can go there and live in nice weather (in some 100 million mansion on a private island,

for example) or on 2000 acre ranches. The aristoc-rats also hired 900000 lawyers to steal trillions in tax dollars, by paying less than the average. This enables the creation of unequal treatment, resentment, as some have to pay taxes, others don't. We're for efficient short names that identify us as Americans, from SW, SE, etc, to end all ego building and divisions of Californian, Texan and other names. If people want names, the 4 states will be the most important of the 8 qualities, meaning: Gentli, Softi, Kindli, Tendri. USA new name is Eternia *and the 4 states are the most important* qualities: *gentle tender soft kind*. Everyone wants a city job, local county job, a local state job, the 22 million parasite jobs, that pay 2 times the money for doing 2-10 times less work than in the private sector most stressful companies jobs, like analyze 10 samples a week instead of 200, drinking water instead of soil samples which means 20 times less maintenance and even that maintenance of analytical instruments is done by contractors, so you slack all day and then get the pension equivalent to double pay during work years. So, some gov employees end up being paid 4-30 times more for the same effort they exert. Then they say they want equality, Let's see equal stress and equal sample load: the 1 minute equality video. That's why everyone wants a local gov job, to con the taxpayer, who pays the property tax to make billionaires and the local gov parasites filthy rich. That's why everyone waits 4-100 months for a local gov it's the lottery ticket. Real equality only exists with 11 companies or very few, so we distribute stress and job burden, physical, etc stress far more evenly, as explained over 300 pages here. Took 7 years to get a title for a car in California, for me at least, due to a government of "mouse IQ" folks, their insurance wait is 9 months to see a doctor, and they call this gov services. That's why all state, county and city governments need dissolution. ☺☺☺☺☺☺☺

All countries worldwide, smaller than Australia, need to have one state only, for minimal bureaucracy and the big countries (US, Aussie, Brazil, Russia, China, Canada) can have 2-4: NE, SE, SW, NW or E (East), W, C, if horizontal long, N, S, C (central) if vertical long to prepare the world for global centralism of the 3 agencies and the universal 11 companies for all humanity. This naming reform is essential for the creation of a new cultural trend, to simplify our geography, so that our brains know physics and chemistry terms, not names of country regions and 100000 conjugation forms for millions of verbs of 7000 languages, for we value peace and fast learning of a universal one and only language (end all languages within 20 years), so we go with simplest grammar, like English/Chinese, not most languages, simplest pronunciation and writing like Spanish/Swahili/ Hindi phonetic languages, not English, most logical word creation to minimize memorization and built in from pieces, like the morphemes and words in Chinese. By taking the easiest of all languages, we create the universal language, fastest to learn of any language ever created, to free brain resources, a happy language that unifies all mankind and brings ~*~Eternal Universal Peace~*~ within our lifetime, implemented by UN agreement to replace all languages as all armies become One World Army with one central government for the

entire humanity. We know the cities and general area of where they are, like SE or SE state, so that's it: no more stuffing brains with useless names of 50 states, get on with it, efficiency for World Peace in 3 months. If I say Texas, it can be in a lot of places, but if we say SE SE SE, it means south east of the southeast of the SE state, and with this you can 4*4*4 = 64 exact zones if you want to be more exact. No more names, we're one country, Eternia and we're all eternians. Imagine, no more stuffing your head with 50 names for each country, which is 10000 names for the planet, simply the country name and SE, NE, SW, NW, N, S or C depending on country shape. Pure math. The joy of 7000 language learners who find the new language has no conjugation of verbs for person, etc and is so much easier and uniform in its writing, sounds, grammar, unlike any language. The joy of math, physics, chemistry saving the low IQ folks from the 1st century ☺abysmal IQ☺ and their 4 million wars over which useless memorization based (instead of logic) language to be the one some speak. Why dissolve 20000 local governments? Because some have 2 jobs, 210K one, milking the taxpayers, others give fake licenses for 200$ to illegals, without them passing any driving test, and endless other frauds that can't happen with one central gov of 11 companies, one central department giving all licenses called license dept of Eternal Travel Inc, all cards vanish, there is only 1 card in USA, all discount cards gone, the card is the Immortality ID, that functions as the only legal way to buy anything due to the One Bank only existing, and functions as your ID, health insurance card, as only one universal insurance company exists, Universal Immortality Inc, as driver license if you got a test to pass it. The end of $ worship, the start of intellect, ethics, honesty, compassion, universal family ethics.

Even the 4 or 8 states can be later eliminated, and they can only be used as names for the 8 sections of the nation, like you would use "XYZ neighborhood name' for an area of Los Angeles, etc. *A state within a state has no place*, so the ideal thing is to end all states and call them 8 areas, to signify we're one indivisible Eternia nation, not a union of states, but one organic unity, indivisible, without labels like "Californian", "Texan" etc. *United States is a bad name, it signifies we're many states, we need to remove that concept and rename ourselves*. We need one national identity, not many, like "Texan" or "Californian", but Eterni. USA wastes huge resources with state flower, flag, state this and that, flowery garbage, UK monarchy style bureaucratic nonsense similar to Vatican ritualism,☺☺☺☺ while people are homeless, borders insecure, drugs pouring in and killing millions 30 years early, in the equivalent of 300 Hiroshima strikes on US soil by the cartels, while people celebrate their selfish urge to have a big ego and call themselves "Californian", "Texan" and other junk names, when they have not even achieved the human stage we have talked in the music section. Isn't it comical☺ that Alaska is 430 x Rhode Island? Why are the smallest 8 US States even a state? The biggest of the 8 smallest US states is 70 times smaller than Alaska. Why not get 8 comparable size states, or better yet, 8 comparable areas? Why not make all cities run by federal employees using the federal templates for 100

times less staff, unique laws? We got 3143 counties in the USA. Why not have 300 run by 300 federal offices with almost identical regulations, except minor changes related to climate? If people come up with ideas to help all live longer, healthier lives, they can just be voted, even if there are not political parties, since the entire society works to help all live to a trillion years old. The risk with political parties is creating division and hate within society, with one camp hating the others. Elections without parties can exist, everyone independent sort of. States create division too, via these useless political parties, as Texans are red (Republican), Californians blue (Democrat). We're all eternis working to for 4000 year lives, one day even a trillion years long life and that's our national identity, we welcome all to join. What better way to distract people from immortalism building than inventing new labels, like Oregonian, Texan? What you speak brings about that of which you speak: abysmal IQ/80 year lifespan or trillion year lifespans. Why is it so hard for our 0 IQ culture of violence, division to get it? ☺☺☺☺☺☺☺

End of Local Gov is End of inEquality in Local Gov Jobs run by Jewish and other Mafias, Companies & USA Covered in Equality Section too:

Small businesses are like tribes, they often have some guy of an ethnic type (not just Jews, a lot more) who hires 90-100% of people of the same ethnicity (tens of thousands of companies where all are Jews for example). Then, some Jews and others talk about Equality, when they're the ultimate Nazis. Same 'bad type of Jew' games like in 1933 Germany and USSR. With 11 companies instead of 33 million and 1 gov instead of 23,000, who can play these games? Nobody, there is only 1 government of 11 companies and 3 agencies, not 800000 agencies. In USA a hotel worker with high school education (possibly illegal alien doing drug dealing) doing his own small business on laptop 90% of the time or phone, or a security guard, doing the same, gets better pay than a guy analyzing 300 soil/wastewater samples weekly and working 55 hours a week under extreme deadlines to help clean up contaminated sites, sludge, wastewater dumps. The citizen working until collapse 70 hrs/wk lives in 100 sq ft studio, while the drug dealer making twice, owns his house. All legal in USA. Equality for all, see more in the Equality section of 15 pages. These same guys then go engage in violent crimes and acts in protests demanding Equality, with no arrests or lifetime labor ever happening, that's their definition of Equality. The issue today is that there is a huge reason why people wait years for a government job, and that's Unequal Pay, Unequal Stress. Minnesota $8 billion in fraud is only part of a larger 100+ billion fraud nationwide. Why should anyone be paid the same or even allowed to slack all day and contribute nothing? Let AI and camera do it and let everyone be a "security guard" for 1 hour, to be equal in stress load. It's ridiculous, because they talk of Equality, but practice NONE OF IT. In a civil society of zero violent crime, there is far less need of security guards, maybe 50,000 times less, as theft is 9000x the amount stolen and nobody steals from stores, etc. A society collapses if unequal pay exists or equal pay exists, but some work 20 times more than

others for that same equal pay. To prevent such collapse, to ensure a fair distribution of stress, we need Effort Equality, no just Pay Equality. Some people work 4 times harder in the same pay restaurant job today, which is genocide. It causes disease, waste, a country of idiots, with no tech and Neolithic Food Industry. Check out 1 min video on California discrimination disguised as fairness (30% have to be minorities), to see why the aristocrats distract people with DEI, instead of getting to the bottom line: sky high income inequality, 33 million companies instead of 11, etc. A little DEI won't do anything, but encourage everyone to slack and try get a gov job to promote their clan, be it Mexicans, Germans, Italians, Brits, Jews, so they can create 600 states within USA. It's pathetic, look at the equal pay section to get what I mean. The 'bad type of' US Brits (who care about DEI as you care about hairs on some rainforest ant leg, see the British mass torture, killings, rape of blacks, etc) and their Mass Rape Quotes of the Bible pushing 'religious' Jewish friends are clever, they create bad music to incite all groups against one another, 2 political parties to divide and conquer, to fuel violent crime 1 trillion fold higher than Decent Music Would Create, so the Brit, Jew, etc aristocrats can steal trillions using the British CIA, FBI, Pentagon to create endless violence under the guise of "Musical and Movie Freedom", yes Freedom to be 100% Destroyed. All they talk about is DEI, never about Equal Pay for ALL, Jew and gentile, Brit and gentile. The rich (not just Jews) inflame the flames of hate among workers using DEI, gay rights and endless other distractions to CHAIN US ALL. ☺☺☺

Read the Bible folks, the Mass Raping Covertly 'Religious' (Religion of Rape) Jew (thru the demonic music and media he saturates all nations with besides His Infernal Demonic Bible) wanted (some still do) to enslave the Gentile: Lev 25:44-6. The aristocrats are the ultimate demons, they learned all the Bible tricks of others, Jews learned from and wrote. DEI is one of many ways to distract attention from any real reform, to divide and conquer, all gentile fools, like the fake Demon-crats who propose max pay = 5000 min pay vs 50000 min pay Re-pub-licans, instead of All Pay One Pay, proposed by Immortalists. It's a scam, don't you get it? Did the Jewish "Education" tell you Moses, killed 3000 folks in one whim, i.e. 10 commandments don't apply to Jews, nor DEI, nor anything, all census is about other groups, never the Jews, Jews are exempt from DEI rules, they can hire all Jews in companies and it's never in the Jewish TV-radio stations: the rule is Jewish MD, Lawyer, owner, CEO makes 50-50000x the gentile federal min wage… that works… True Equality, Jewish style: in Berlin, the % of Jewish MDs in 1933 was "52%… attorneys…51%… judges 28%" like in many US cities now run by Jews (details here, history repeats), 1% of Germany 1930, but in charge of up to 60% of economy (page end). Jew Theodore Kaufman, President of the American "Peace" Union, says openly in his 1941 book "Germany Must Perish" whose highly anti-German first 11 pages are here that 80-100% Germans are beasts, and need to be exterminated. What if we said that about NATO Jews, or at least need "be deported to Israel"? It would be a Global Outrage.☺☺☺ He was upset that Jews no

longer ran Germany in 1941 as in 1932 and turned every German into a slave and shadow of himself (as they did to USA in 2020s since 1940s, where most youngsters are totally screwed, 10 times the obesity rate via Jewish Capitalism Food, full of tattoos, 30 nose, penis, vagina, belly, ear and toe rings, 30 pets, childless, listening to infernal music made to land him in jail any moment). Kaufman has the same hate for gentiles we see in the Demonic Bible Genocides Quotes posing as "Religion" Jews imposed on half humanity via deception via Islam (Judaism recycled, Old Testament rewritten) and Christianity (Judaism recycled). Kaufman's book says to kill not just Nazi leaders, but 80-100% of Germans, talking about bigotry and racism: whenever a nation rises against Jews trying to enslave every citizen of that nation as they did to USA 1945-2026, those gentiles become "beasts" and racism against them is OK, but against Jews it is NOT. Isn't that hypocrisy? Germany became violent due to Jews and the satanic religion, Christianity, they imposed on 7 continents by the takeover of the Roman Empire via the 10% of Rome Jews. Jews made Germans violent☺☺☺☺☺☺☺, how can then Kaufman dare call Germans violent, to be exterminated? If Jews had given Germany a decent Immortalist Anthem, not that sewage filth, Germans would have treated Jews with kindness. Stalin's personal physician was a Jew. USSR Jews, 1% of population, were 16% of physicians, 10% of writers, journalists, 11% of artists destroying all ethics as in USA today. Watch how history repeats itself in Persia, etc millennia ago, in USA and NATO today: Germany and USSR all over again, this time in USA. The bad type of Jew controls both US political parties and uses them to destroy every US gentile covertly. ☺☺

All decent Jews have free will to become genuine Immortalists and revert this alarming trend in USA over the last 150 years. 'Bad apples' exist in each ethnic group, sadly. Antisemitism or antigentilism (anti-gentleness) must never define a person. Let us all Oppose all Hate, in all its forms, be it from Hitler, all Mosques, Churches and Synagogues publishing calls to Genocide, or Jewish lyricist songs who engineer "US culture". Watch the Jewish "Music and Vibe" "rat IQ" Jews (a subset of Jews) are proud of: 1. rabbi 'prayer song' 2. Jew dance 3. dance around Fire, 4. benches & rabbis sing 5. "gentle" "music". At gunpoint the bad type of Jew (not all Jews) defile every culture and make it violent and like these 5 clips. They control Europe too now and turned their Music into Gorilla shouting Jewish Matches. Eurovision Song contest is Jewish Gorilla Yelling Rabbi Song Contest. Anyone who opposes This Filth is "antisemitic", all music must be violent, no decent music allowed. Mossad is just like KGB and Gestapo. Brits want to be the HR people, to spend eons to decide how much each gets paid, highly efficient indeed, waste 1 million people with HR and payroll, what a society of "giraffe IQ" folks. Who needs payroll, cow IQ Brits, when all pay is universally identical and we're One Family of of *gentle tender soft healing nurturing* universal loving kind Immortals? Your goal in life is Theft? Why not take a loftier goal, such as Research to help all humans to live in peace to 4000? Isn't it ironic, the people who get the easiest jobs, least physical, least dangerous, get paid 3-50000 times more?

This we're told is Jewish or Brit ethics. No product, nothing can happen without the toil of the 99%, no sense of fairness exists, only stupidity and pride, redundancy and theft. Brits, like Jews, don't care about Any DEI, Read Ch 28.. Imagine how upset many would be if Blue Eyed Blondes set a March that "Blonde Lives Matter or Blue Eyed Killed by Jews, Latinos, Blacks matter" Or "30% of blue eyed people (minority in some states, Equality in DEI, wait Jews don't have that many blue eyed people, so the rules don't apply, they, like others, hire their own ethnic ggroup, no merit, in local gov too) in every company, like with others, since blonde blue are < 1% of US, the most minority of all, especially in CA, etc, check out True Equality". ☺☺☺ Live and let live, but don't be naive about the "genocide ways of some Jews". Let us all rise above the cave men mentality sewer scriptures, and consider adopting the Immortalist Anthem as a guide, not the satanic Bible.

The 'bad type of' Jews take over national, local governments to promote things that destroy the local people, just as they took over USA a long time ago to promote the absolute depravity thru music and etc. Some Jews, worldwide, are often creating and promoting the most carnal and stupid literature to destroy all. The Berliner Tageblatt, at the time a purely Jewish newspaper, wrote: "Obscenity is absolutely necessary for the youth (now you understand Hollywood movies and US music, as well as other nations' movie/music industries controlled by Jews). … the fantasies of young people going through puberty are rather obscene, and these fantasies need obscene literature" (B.Z. of 1.12.1926). Jews (and others like them who target nonBrits etc) are behind LGBTQ, it's a way to shrink birth rate of locals, so it's half Jewish birth rate, as in USA, they work at their goals of total destruction for centuries: Jew Willi Haas wrote: "Two men speak in one scene about a lesbian drama that presumably takes place behind the scenes. When will we see finally see a play in which this love itself... receives serious literary treatment... That would certainly be new material for our theater" (Literarische Welt, 1926, Nr. 24/25). Bad type of Jew Goal is Destruction (as in the genocide quotes) of gentiles via LGBTQ sex. Jews run the Democratic Party promoting LGBTQ sex. Jews run USA so all are circumcised almost. The worst type of Jews are behind much of the destruction of WORLD youth with sex outside procreation, and "beauty salon procedures" by Jewish cosmetic MD (big breast, penis, gender change, etc for which they make 20-40x the minimum wage, for this genocidal mutilation), piercings, tattoos, etc. The debasement of the host nation is a prerequisite for Jewish parasite rule, Jew Münzer says: "We Jews are not the only ones debased... our spirit rules the world. We're the masters; what has power today is our intellectual child. We can no longer be driven out, we have overcome the races, corrupted them, broken their strength, everything is worn out, rotten and decayed because of our culture. Our spirit can no longer be exterminated." (Kurt Münzer, Der Weg nach Zion, 1910). US Jew Samuel Roth in "Now and Forever" book says "Socialism and Christianity are abiding, irritating symbols of Europe's mental enslavement to Israel. When the

Chestertons and the Bellocs talk of race purity and patriotism they lie in their throats. They know that we're racially purer than they are. They know that we're better patriots than they're (i.e. Jews are never loyal to host nation, only to Judaism or their own interpretation of Genocidal Bible that calls for the extermination of trillions of nations, planets, galaxies Jews think God gave to them). The Talmud says in many places "Kill the best of gentiles" (e.g. Talmud Aboda zara 26b, Tosafot), because the demonic rabbis writing that Rubbish were connected with 'demons', not God. The "worm IQ" rabbis were incapable to Love the Worst human a trillion times more kindly and gently than the most loving mom loved her infant baby, as the world's simplest "scripture" explains, in the Immortalist Anthem, anyone can write a "scripture" 10^{45} times kinder than the Bible, just avoid negative words of violence. The Talmud is all full of hate, like the Tanakh or Old Testament. The low IQ 'sages' didn't realize God knows a trillion peaceful nonBible ways to peace in any Context. So, each time gentiles criticize the 1500 violent Jewish quotes that gave 9000 wars, the 'evil type' of Jews say "it's all about ConText." Then, these Jews go on to talk about nuance of genocide and why it 'was alright to do it then' (same for Christian naive folks falling for this), etc and why after all, we should ignore nonkilling, the core of Immortalism and follow Moses killing of 3000 people in one flash, based on his "divine cosmic whims of rage". ☺☺☺Gentiles = 2nd class. Jews lend money to gentiles, but they don't want to take loans, double standard? Jewish Shulchan Aruch 266.1 teaches Jews can steal gentile's stuff: this explains why 5-9 million Ukranians died in 1933, their food was taken to feed Jews in USSR? This genocide was co-created by Jew Kaganovich, who lived as a prince until age 97.

Midrash Talpiot, published in Warsaw in 1875, allegedly says (explained in the Zion Elder Protocols too): "God created the Gentiles in human form, although they're the same as animals... However, he created them for no other purpose than to serve the Jews day and night in never-ending toil. It's not becoming for Jews to be served by animals in the form of animals, but rather by animals in human form (p. 255)." Conveniently, Jews never translate it to English to be widely available on google searches as PDF or html, because, you know, it shows more of the Torah genocidal "nuance", since all these Jewish "literature masterpieces" are commentary or debate on the Word of Genocide of All Gentiles, the Bible Old Testament, meant only for Jews. This is not strange, the Bible already commands enslaving (Lev 25:44-6) and beating the gentile, raping endless gentiles, killing 1000s of gentile children, racism in Shulchan Aruch. Well, let's see how Jews explain context now. The Talmud and Bible is a sewer garbage ethics useful only in the context of 8th century BC Jewish situation, not modern man. That's why Context Matters, because the Jewish scriptures Don't matter in Modern Era and Context, they're Genocidal Rapist Cannibalistic Texts written by Conmen, so ConText. They're Irrelevant Trash, the whole Bible is too. That's why every honest human supports the banning of publishing of any violence containing scripture like Talmud, Bible, Quran, Mahabharata, Vedas (animal

sacrifice Upanishads, sections, etc), etc. The devil type of Jews are the phony bastards promoting the Demonic Bible, the Infernal Jew Word of Global Subjugation, Rape, Holocausts, Violent Crime, while not believing at all in Jesus, except as a Fraud staging miracles to spread the Jewish Bible: it simply perpetuates the demonic Tanakh (Old Testament) they brainwashed Vatican Jews to include in Christian scripture. Do you see why some Poles helped Germans to kill 3 million Polish Jews in WW2? Recall many of such believers migrated to USA, which can explain part of the reason for USA decline last 100 years. The primitive mind of the Jewish Bible scribes (Old Testament) could not imagine or comprehend the reality of Civilization, of a people where all love the worst member of their civilization a trillion times gentler and deeper than the best human mom, the most loving mom loved her infant last decade. So, century after century, millions die again, adding to the 1 billion toll from the Bible and the Quran it created… (which, according to one guy, killed 0.27 billion alone, 90 million Hindus, etc) while Jews say it's "Holy" as it killed only 1 billion… Is that Kind? No, it isn't, and sadly, many want to keep humanity bound in this Eternal Hell of Bible-Quran energy☺. But we, here, the migrants who ran away from all nations, fleeing Jewish Bible-Quran Gestapo "religions", in the free USA, still have Thinking Brains and We can Choose to Break with Savagery. For the 1776 Revolution was fought to Bring Freedom from Jew 'Religions' imposed on EU, etc. The Jew run Vatican killed endless people for not believing in the Jewish staged miracles of Jesus ministry, for Protestants translating the Bible in local languages so all see the evil quotes the Vatican Jews hid for 15 centuries, and financed a 500 year Protestant-Catholic war that killed 20 million gentiles, causing many to escape their Gestapo like nation to USA, be it Protestant or Catholic which was persecuting the other group, that's one reason US became a destination, freedom of 'religion'. Skeptics say Vatican is/was not run by Jews, but the Bible is/was their Guide and that's Jewish, so all Christianity is covert Judaism, deeply unAmerican, deeply undemocratic. Plus, to hide Vatican was Jewish, Jews or any smart group would have to pass some anti-Jew law sometimes, when they felt like moving elsewhere, and needed an official cover for the mass migration out of a nation that "expelled" them via Church law or king's decree using some religious phony "justification". Martin Luther realized the Fraud… The Pope and Cardinals are Torah Jews, in behavior and attire, wearing Kippah, they promote the Jewish Bible, they're pure frauds, pure evil, because the Old Testament has no place in a Christian or civil scripture. And now, the 'bad type of' Jews turned the US into a Babylon of Depravity and Infernal Violence again. As Tao Te Ching says, when terror reaches unbearable levels, people overthrow the bad type of Jew who poses as gentile to enslave all people of the host nation he vampirizes and destroys. "Of the 147 board and committee members of the Berlin (stock) exchange, 116, or 80%, were Jews… Of the 3,400 attorneys practicing in Berlin, 1,850, or 54%, were Jews.. Jewry made up about a third of notaries. Of the 33 members of the board of the bar association in Berlin, 22 were Jews. All the offices of the association were in Jewish hands. The officers of the highest legal association, the

Reich Bar Association, were also all Jews… 68% of school doctors were Jews, as were 68% of welfare doctors. About half of all Berlin hospital directors were Jews, and about 38% of the dentists… Every day, thousands of sources around the world spread the most poisonous horror stories… that thousands of Jewish men and women had been slaughtered… all this was occurring at a time (1934) when Germany had yet to take a single measure against Jewry... a boycott of Germans and German products began on 20 April 1933." ☺☺☺ Why? Because Germany dared to be as protective of its nation as Jews were of their international nation.

Don't be fooled by "affirmative action", "amazing gay freedom", DEI, 1865 or 1965 "liberation", "end of empires", here is the version MI6 Brits and Mossad Jews don't want you to know, as the same tactic is applied to every other ethnic group, to destroy all, except themselves. 1865 overt slavery becomes slightly more covert. 1965, no more segregation, etc, apparently all amazing, but secretly, efforts underway to create a new "black culture", as in 1870s, to jail them via the new "amazing music styles pushing alcohol, drugs, violence" to get them all in jail, push gun rights to have blacks shoot each other nonstop, all promoted as "freedom". DEI is another 'bad type of Jew/Brit/etc' covert extermination technique to destroy minorities or countries (divide and conquer) for easier plunder: promote the incompetent to run local cities, etc, to make the manipulation of their decisions, etc far easier, so they harm their group they run, because that way they don't get same services of the 11 companies and one government, but the "lower IQ" run system. You don't believe me? Go to Rancho Santa Fe Brit town, 0 potholes, go to DC, 1 million manholes and potholes, like driving on 1770 roads, non-Brits get sewage towns, aristocrats 1st class towns. There are companies serving aristocrats, way better quality, and companies for the 99%. Not just roads. The same Brits entice secretly the minority "mayors officials" to buy useless things, do unethical stuff, waste public funds… via little online ads, youtube right side suggestions, etc to take the exorbitant salaries they gave themselves, for the British palaces, via products these officials buy, or for regular folks, to engage in crime by mind programming via artificial social media and youtube suggestions, comments, etc. Then they work at 1$ an hour in a jail. Perfect slavery. Affirmative action: promote the less competent fast, praise them, give A+ for a C, make them appear visible, so easy to dupe when low IQ promoted, to pretend USA is so much love and stuff for blacks/etc, as resources in Africa/whatever target ethnicity (country) are great and need a PR image of "how good those guys have it in USA, what a great democracy, USA is our friend". Behind every "official version of events" and "great event, cultural trend, etc that aids whoever" is the real far more sinister reason: perfect slavery of one who thinks "I am free". The slave who doesn't know he's a slave, though, you don't need a PhD to figure out the scam so well explained in the Immortality Credit Score area. Having people of "various colors" on TV or "official positions" means nothing, as they can be remotely controlled in ways these guys have the least understanding of. Gay rights is just to lower IQ, as sex outside

procreation does and sometimes lower birth rate too, it's not about freedom. All these divisive topics are there, like the 2 parties, to set one group of gentiles against others, while the bad type of Brits, Jews steer both crowds to collide in staged protests and reap trillions in profits as a result. Any decent society needs no political parties, for what, to divide? They're so good to put on a face of "Godly Christian" but behind the scenes are ultimate gangsters, psychos, torturers, rapists, using all technology to terrorize the victims of their planetary empire, as Bible teaches: beat the hell out of the slaves… genocide, mass rape, human sacrifice, arson, alcohol intake to beat to death all around you, kid beating,... the list goes on, The Judaism Ethics. Know the Rich.

The Brits are clever, they promote some "no more hereditary Lords" in Parliament, but that's PR bullshit to make UK appear so democratic, a small little nation, never doing anything wrong, except flooding the world with violent music since 1960s (among 500 other "good" things) because the aristocrats can control thru endless front companies, networks, people, parties, etc, money, bribes everyone in UK without even wasting time to show up in parliament. Media is all aristocrat run, so they present the Victory of Aristocrats (no more showing up in that stupid Parliament), as the Loss of Aristocrats. This is Classic Rich Gangster Technique. The 1% still owns 70% of the UK land. The illusion that empires died is even bigger, they didn't: today, Brits don't need Consuls, army on the ground to completely control a country due to the amazing Internet, etc techs of mass control. Don't be so naive, the Brits had 1000 years of Empire, they know tricks. The devil appears as an angel, talking softly, of peace, putting out a false pretense of small power, while behind the scenes, he wages all out genocidal hate based war on everyone. Think. All they give us is DEI crap, instead of SEI (Scientific Engineering of Immortality, pronounce as say) Knowledge of 4000 years lifespan, Chemistry, Physics, SEI stands for the Pillars of Giving all 4000 year Life via Eterni Foods. Why is SEI not talked about? Because the rich want all to be slaves fighting to death, 0 education. They won't talk about 90% of majors being in SEI. Wake up, they want us dead, demand the Knowledge of Life, join the Eterni Powder Movement. DEI is crap because it's only one billionth of True Equality in these 15 pages of Immortality *for* All. Real Quota are 100% get college degree for free, and 95% are STEM majors: with SEI quota: 25% of people have college degree in Biochemistry, Chemistry, Nuclear, Quantum & Physical Chemistry, Chemical Eng, 25% in Physics, Chemical Physics, Material Science, Nanophotonics, 25% in Particle Physics, Lasers, Biophysics, Electrical Eng, Robotics, 20% Genetic Engineering + the rest. The Trio, Particle Physics, Chemical Physics, Physical Chemistry are the Purple Ones for the Royal Jelly, the jelly made from powder plus water to give all 400 millennia lifespan via the Reactors, and 4000 year lifespan with present tech and a little biochemistry understanding before the reactor. SEI provides a clear half a million year Plan for the genderless shapeshifting Immortals. You know fellow Immortals, when you can change your race in 2 seconds 1000 times daily, you don't care about DEI, but about SEI, the Eternal Immortality *for* All shapeshifting semiImmortals.

Because then, You're not White, Black, Human, Alien, but the Cosmic Immortality Itself. Your sense of self is not in the skin color of your human (of 1 trillion possible forms) shape, but in Eternity, you perceive self as an Eternal Shapeshifting Globe of Energy if you will, as the first page says. The biochemical nutrition path to 4000 year lifespan is a bridge tech (like natural gas before renewables), to give us 4000 years to develop physics so we create Million Year Life tech, and later billion year shapeshifting Immortals tech. ☺☺☺☺☺☺☺

The end of all states is the end of all reservations too eventually, since natives will understand that living to 125 is a lot nicer than living to 50 as in some reservations. Then, we all benefit, win-win, from having 1 language for all, not 7000. Reservations often have the highest amount of alcoholism, suicide and human traffic around, with US Natives living to 65, or even 50 years in one place the size of Delaware (11000 people there). If natives join USA, they will be able to live to 80 on average, not 65, just like Africans lived to 50-65 in Africa and now to 80 in USA. Natives claim some are racist, but aren't Natives racist to use 9,000 times more land/capita than many crowded people in USA? Singapore uses 3300 less land per capita than Native Americans, yet they live to 87, having far fewer violent crimes. No animal will be killed, no bloodshed of any human/animal will occur in the Age of Immortality *for* All, as eterni foods replace all demonic foods of today, to give all 3000 year lifespans. We can't tolerate violent crime anywhere in USA after the state of emergency, so reservations will have to be dismantled, there is only one Nation and one government, not 574 tribal governments or 20000 city governments. Reservations are 227,000 km^2, Alaska tribal lands 178,000 km^2, total 405,000 km^2 or 4.1% of USA, for 1 million folks vs 424,000 km^2 California, bigger than Germany's 357,000 km^2. Tribal/local governments have much corruption, they steal tax and federal funds by giving themselves high salaries or by clever accounting/kick backs. Win-win means we all become one Family of Immortals, there are no more 574 tribes. Tribes, state/city governments are for "filif mollusk IQ" bastards who have Galaxy Size egos, can't compromise, can't make one national law, love to fight and be violent, or love to be puppets of the evil aristocrats who want to divide the working class into endless camps, so that workers fight like hyenas all day, Democrats vs Republicans, while the rich steal trillions. Democracy is Equal Law for All Citizens, in all locations. This is efficiency, compassion, Godliness, so we can take care of all citizens and enable all to live to 120 one day, then 200, then 500, etc. 0 violent crime means reducing it a trillion fold, when taking into account all unreported minor events, and you can't do that reduction with 33 million mini governments of our 33 million companies, or 20000 city govenments. 50 states and 20000 city governments have proven to be corrupt and unable to lower crime even 900 fold, let alone a trillion fold needed for eternal 0 violent crime. A police department of 200 people can't compete with one with 3 million, where all redundant admin were replaced by high tech research to make 0 crime possible. We can't get different results by using the same system of government,

policing. Kindly look at world history: 7000 languages and a million wars over language, land, fake religion, 90000 "cultures" of ☺filif IQ workers☺ who sing and fight like animals have not brought World Peace or even 0 violent crime in one single nation. Wars and violent crime can end when one language reigns, one currency/bank reigns, one education, one food company, one transport company, one house building/maintenance company, one police department (just as we have one War Dept, not 20000 for 20000 cities), etc, one universal ethical immortalist Life Focused (not profit) Goverment of Immortality *for* All, not 20000. When the parasitic middlemen *(Bankers who get money from the Central bank, Native Chiefs,* Religious Clergy Bandits *claiming to be the Only Middlemen to God, Bloodsucking Royals/Aristocrats)* are gone, we have True Equality/Technology, 11 companies, not 33 million, or 3 million times more Ethics/Technology. Europe used to fight all the time, English is now the official language of politics and science, euro the currency, etc, no more wars among themselves. We're all eterni, citizens of Eternia, the template for all humanity, unity in diversity, as the Immortalist Anthem explains, "May all live to a trillion"☺☺☺ Years, instead of like chimps, to 50 years in USA reservations. All humans will one day eat eterni foods, no longer killing animals, since that diet helps them live longer, just as we stopped using chariots and use planes, cars, instead. All humans, even natives, will end the bloodshed worship of animal murder via the realization of quantum physics destruction of humans via such abysmal IQ rituals: the Great Spirit is Immortal, and to understand It, all humans need to live to a trillion years, to comprehend its nature, like the real Immortals. There are no real nations, cultures or religions, only humans discovering real Culture (no war/violent crime worldwide), and real spirituality (emulating God so perfectly, we get to live a trillion years to understand better what God is and how to thus emulate God, we become Immortal like God and the other infinite number of Immortals). Religion was created by aristocrats to expand their theft based empires, hence all immortality was in some other dimension, unprovable, to deceive the people, when 1 trillion years is 1 nanosecond for God and physical immortality can be verified by the masses, while heaven *immortality (if you join the fake religion) is unverifiable*, a lie aristocrats create to trick the naive workers to die as cannon fodder or to work 80 hrs/week as slaves of a fiction God the rich create. Native American aristocrats in Aztec empire brainwashed people they need to sacrifice people to please fictional Gods, Native Americans had aristocrat equivalents that took 5-10 slaves, they killed prisoners of war, ate them sometimes, they burned forests (killed lots of deer, animals, other tribes), killed slaves. Check out the violence of some Native American 'nations'. The clever chiefs deceived natives that chiefs alone are the link to great Spirit or God and behaved just like most aristocrats and kings of history, true despots of bloodshed and eternal war. As natives realize the ☺abysmal IQ☺ of the native American rituals and all religions, they join scientific immortalism, world's first 100% proof based, honesty based, evidence based spiritual or ethical life path.☺☺☺

Democracy (demos cratos) means power of the people, but if people live short lives, and have minimal knowledge of nutrition (not even required in college), the "power" to live to 150 or 300 disease free isn't there. Renaming Democratic to Lifespan Tripling Party is thus very democratic. It gives people the power to live disease and aging free much longer. At first glance, Re-pub-licans are more religious and Eternity can be thought of as referring to Soul Immortality and God's Immortality. Immortality could be the name for Demon-crats, since many atheists believe in Physical Immortality. Yet, at the same time, Immortality can appeal to Demon-crats who don't believe in Immortality of body as being possible or that of the soul, since Eternity is the really eternal, while Immortality is a term used in sci fi to refer to long lifespans. Similarly, Life Extension is a more conservative and down to earth, less progressive thought than Immortality, so it could be used by those who're into immortality of the soul, but not of the body so much. European Union could rename itself to *Im*mortality Union or European *Im*mortality Union. Even Tajikistan could choose Tajik*im*. Then these *im* name ending countries can declare the Galactic Federation of Immortalists with a new Constitution with a common language that guarantees the human right to live to 900 and triple lifespan forever, besides forbidding any violent crime, war and overt, covert enslavement, threat, intimidation, torture, coercion, violence within and between Federation members; good bye to fights and welcome to "*gentle tender softness*, dialog to find a win-win solution that doesn't involve violence, helping each other to triple lifespan forever". With the renaming of parties, the "500+ year lifespan aiming" planet's political discourse changes and every website can have a section on how their work enhances Longevity or Immortality of humanity. If you think about it, we can argue that "Republican" has little to do with *Heaven on Earth* and God's Kingdom on Earth, but "Immortality" does have a lot to do since God's first attribute or one of the most evident qualities of God, that humans don't have. The one easy quality anyone can think of that makes God or some Universe Builders different than humans is Immortality; immortalists and eternists, instead of Re-pub-licans and Demon-crats, sounds more exciting, 2 approaches to the same goal: one focus on short-term transition techs to short immortality in sci fi and one on long haul techs to achieve Eternity lifespans. It unifies our planet under the same goal: a longer, happier ☺☺☺, healthier lifespan, even if they have different approaches, "Immortalist Party" and "Eternity Party". *The political debates would be about lifespan tripling technologies instead of the boring stuff today.* Other names could be: demlongratic party, the power of longevity of the people, of gratitude of the people to Immortality. Imdecratic could work too, Immortality *for* All, the power of granting Immortality to all, to the people so all can become angel beings of *universal* loving kindness. ☺☺☺

There is a huge difference between democracy and Immortality *for* All, democracy implies power to the people to do both good and evil, to wage wars against other nations, and to create strife and bad tone within their country, whereas Immortality *for* All is eterni tone of speech,

thought, emotion, action that grants freedom of 50000 year lifespan, not slavery of power to live to 75 to all; our world needs bridges to bring unity, and nothing unifies people more than the desire for World Peace, which is only possible in a world of Immortality *for* All ethics, since war ends lives; these bridges can also be created by renaming political parties after qualities that bring that amazing & beautiful ☺☺☺ lifespan for all, such as Immortality, Compassion, Gentleness, etc – things that we all relate and bring the best in all, because power to the people doesn't necessarily bring the best in all, being a power to do both evil and good. In the section on which quality of an Immortal is hardest to imitate, we see we can argue that it's not a single one we hear about often, like gentleness, tenderness, etc – but Immortality itself which implies all the others are mastered, Immortality being the central nature of God like beings and God, if you accept God as real; Immortality *for* All is a natural evolution of current democracy, since it focuses on power to do good in the hands of the people, not just power; we evolved from 25 mph running to *200,000* mph solar probes, so our democracies may too evolve from GOALS of living to 75, to living to *600,000*. How much better (*600,000*/75=*8,000* times better?) Immortality *for* All is (immortalist democracy) vs the current system (*present* democracy) is *subjective* perhaps, but a few basic ideas in this and other Immortality themed books create new ways of perception. How can the US make itself world's most loved nation, adored for its 'World Peace *for All*' ethos, 'human right to live in peace *for All*' focus via Immortality *for* All *(Immortality means no war or killing can exist, via a culture of* filtering negativity*),* how can it unify all into one planet of Immortals? If we want to end eons of wars, what do we offer other nations to join the Universal Immortalist Alliance and entice more nations to choose English as another official language to speed the advent of Immortality *for* All? Or the Galactic Federation of Immortals? It probably has to be more than the 'historical inertia' tone (insults, etc) of existing political parties that many are fed up with, including even names that inspire hope and happiness in all, that relate to all people, in *all nations*, something enough to inspire the switch, to trust the US as a grown up civilization that can bring humanity out of adolescence into adulthood, from the old (that everyone is so bored of, especially young people) goals of our political history all over the world, to the GOALS of 'billion year lifespans within 2 billion years for all beings, so all can develop their angelic nature and dream to better understand God's and Immortals' nature'. ☺☺

Names like Republican are not relevant everywhere: in 26 monarchies for example; to build bridges and unity, Immortalists choose names all can relate to, so all can adore and dream of joining the Immortalist Alliance or the English speaking world or United States of Immortals; same for democracy, it's a word many don't care much about, but Immortality, anyone can relate to, same for Compassion, Kindness, Peace, Grace, Bliss, etc. For nations with 5-15 parties, they can choose names related to qualities of Immortals, like Immortality Compassion Party, Infinite Immortal☺ Tenderness Party, Eternally Gentle Party, Perfect Health for All Party, Eternal

Youth Party, Universal Compassion, Life Extension Hypotheses Party focused on Hypothesis Thinking, whereby world parliaments, politicians etc discuss in an eterni tone on TV-radio the trillions of ways to Immortality, ending the rude tones, inspiring billions to talk tenderly gently. To relate to the masses and the ideals of immortalism, which make Immortality Credit Score the most important thing, and money totally secondary, our headquarters may be online for a long time with a PO Box, and win elections via the social media spreading of news and forums, via online methods, as we're against money, donations for elections or religion. The young generation believes in equality, free stuff, everyone helps all, in online churches, donations free spirituality or religion, etc, so they will vote for the modernist party of the masses that breaks all traditions and launches the era of progress and ethics, free from endless buildings that simply perpetuate the status quo of genocide against the working class. ☺☺☺

People make huge signs "Biden 2020" or "Make America great again" whatever the president may be, or some temporary slogan that is wholly removed from the 500 qualities of the Immortals and Immortality. Imagine if it would be signs like "Live to 900", "Trillion Year Lifespans", "| |Immortality *for* All| |". "Gentle 2020" or "Gentleness 2020"; instead of the name of the candidate is the name of the quality of the Immortals a specific administration embodies and wins the election, since people deemed that quality and platform of 'ways to bring Immortality *for* All' more important in that moment of history. Not a Biden or Trump administration but a Grace, Tact, Sweetness, IQ or Gentleness administration. It can even be called "Gentle Kindness", "Eterni Tone", "Question Everything", "Science Discovery", "Gentle Tenderness", with Gentle for 4-10 consecutive administrations or "tone" in the name of 4+ administrations "Gentle Tone" "Tender Tone" "Sweetest Tone" "Healing Tone" for 20 years. It's not about names of people, but about what qualities of Immortals we need to bring the world of Immortals fastest, timless qualities that last eons, independent of fleeting technologies that change, things that remain as true 2 trillion years from now as today, where phrases like "Fast TechName'" would be irrelevant 700 or 30,000 years from now. This allows a faster syncing of our beings with the future Immortals who think not of techs that don't exist in their reality, but of these qualities. This is the era of youtube, TV, there is no need to pollute with airplanes so much and have people drive to see the President, when they could drive and volunteer 1-2 hours at the Immortality Research Center building team and help people live 20 years extra. The local representative can meet people (and President can join sometimes too, if closer to capital, to volunteer cleaning a lab or glassware, devices, etc) at the new Immortality park building area to talk about Presidential Plan for Tact Quality. This gives the President time to prerecord something for youtube in a much better tone, speak less, do some exercise in service to happy Immortality *for* All and see for himself the bliss of moving while serving a greater cause. ☺☺☺

It helps also to be perceived as an honest country of the people of the world, instead of one for

aristocrats. A centralized immortalist country is more likely to serve as a role model for others who join as states later and bring World Peace, such as the 20 nations of Eternia. The dumpster of greed and violence USA is today, where torture and violence reign supreme is not in any way any time soon, ever going to be the real (not faked) ideal people love to emulate. NATO nations choose US as ally by mere force and having no other choice, against other bullies, not because they really love the depravity that has become of the USA. The reason we immortalists want a 3rd party is that we perceive the Republican party as a fraud created by British Aristocrats in order to destroy the intellect, brains, bodies of nonBrits (like they tried to drug all Chinese with opium wars) by lowering their IQ as much as possible with the Christianity nonsense fake religion of fake miracles and blowing yourself up like Jesus gave his life in the fictional religion, to make British aristocrats rich in wars of plunder. Re-pub-licans *are the agents of UK aristocrats who fight any real advance of* USA, by promoting 33 million small businesses and no real research coming from efficiency, so Brits can keep everyone low IQ and steal everything. Likewise, the Democratic party is created by British aristocrats to destroy nonBrits with weed, alcohol, smoking, sex outside procreation, fake religions, to keep the slaves ignorant of English, science and nutrition, etc, so they can be manipulated by the British and subjugated fully. Both parties achieve the eternal subjugation of nonBrits. This technique of many empires is now copied by many nations leading to a total collapse of ethics via systemic genocidal policies. It causes a destruction of the human quantum field. The political parties are mere extermination tools used by the most cunning bastards known to man, who never talk and act to achieve World Peace in 3 months, only to maintain the power of the aristocratic elites in charge of that fabricated nation, or other nations they control via the same system (say a big power, not necessarily Jews, controls 35 nations thru fake political systems of enslaving and exterminating the locals). In public they say one thing, in action they do the exact opposite. As other nations see thru this, it is inevitable that peace becomes impossible and the 10 second end of humans more likely. The hypocrisy and banditry today are astounding, in public they say they protect human rights, behind the scenes they abuse all rights for billions. It's thus imperative to free America from British terrorism, and aristocratic terrorism in general, a disease that affects many nations, not just the UK. The Immortalist party presents the kindest nonviolent centrism that merges ideas of the right and of the left into one unified ethos to bring Universal Peace. We immortalists don't protest taxation without representation, but any taxation at all. As Macron wiped out France's 2 main political parties on the left and right, so can immortalist parties worldwide, wipe out the main parties and bring the Era of Eternal Universal Peace. The goal of immortalist Parties worldwide is to move the workers from terrible conditions into the same as the wealthiest 0.1%. This is only possible thru innovation, science and engineering, that develops mass produced new techs that amaze all. This means, all our election, government candidates have a major in science and engineering, unlike Re-pub-licans and Demon-crats. We're the true

party of the masses, unlike the "for aristocrats" Demon-crats and Re-pub-licans. We're the party of solutions, not empty talk and complex laws, banks, retail and useless businesses.

Additionally, we could easily argue that "Immortality" is a much stronger protective force against decline (many countries, empires have gone and their language too, completely gone from history). *Immortality* can perhaps be perceived as a stronger protection than even being a multiplanetary civilization since full Immortality is able to go between this and another universe via inter-dimensional translation. Going to Mars, etc and having a place there can be thought of as a weaker protection against decline compared to being an Immortality focused CIVILIZATION, since Immortality Focus creates a different energy within a civilization that prevents decline or inner conflict to appear. Besides, such a newbie civilization who stands for peace will probably be helped by other dimensional "Immortal☺ angels, beings" more. A fully developed Civilization of Immortals is one that could use time-space wormholes and establish itself probably on many galaxies and possibly 2 dimensions at least. An Immortal or Eternal World is a Civilization that adores or deifies the nature of Infinite Knowledge (another name for God), nature of which includes Immortality☺☺☺, that "worships" Infinite Eternal Immortal☺ Learning, which is the way to approach Immortality, God's Central Nature, whatever God is for you. Immortality Tests are ways to remember the purpose of our lives, helping others to live longer and happier lives. Every profession has some sort of exams, so the Immortality Test is the same. ☺☺☺

As immortalists meet at the future national Washington DC headquarters of the Immortalist Party, we will get to test with my meter and others the 500 phones of all visitors willing to see how evil their brand is, in idle mode to show how they KILL everyone, even in idle mode and only in airplane mode they're safe, meaning, never used. Why do people need phones for? For emergency only, use wired internet at home, installed by 10 trillion dollar fines given to Google, Apple, Motorola, and other companies that make ultra lethal phones and WiFi laptops, devices, all WiFi card makers and computer makers. Read the RF section on the genocides via WiFi, phones and connected devices that cause mass infertility, Alzheimer, memory loss, brain disease, brain dstruction, blood poisoning, etc. It's time to take America back from greedy corporations that kill us all 40 years earlier. Let Eternal Utility Inc produce safe phones for all. ☺

6.2. Immortality Test for Teachers and Professors

The changes to education are explained in detail in the Merger of All Universities and Schools into One Centralized Tone Education, of 1 language, 1 accent, 20 quadrillion courses and 1 million Immortality Labs. The future depends on what teachers and professors present as possible futures to the kids and young adults who come to them to be inspired, so naturally, the knowledge of Immortality Civilization and Sciences has to be well mastered by teachers and professors. From day care to kindergarten, primary, middle and high school, college and

workplace, there is a great missed opportunity to cultivate positive thoughts and emotions, positive GOALS, positive visions in the memories, habits, minds, hearts, spirits of the people. A civilization is the result of its education, and more exactly, the result of its thoughts and emotions. The world is a product of our GOALS, expectations and subconscious desires, expectations, thoughts, emotional patterns, etc. If in a civilization the goal is to get a job, this is what teachers will help students to do. If in a civilization the goal is to bring a longer healthier happier lifespan, a world of peace, with gentleness, tenderness and softness for all, with no prisons, no violence, no crime, no lies, then naturally one would start to think about ways in which the educational system is focusing on that reaffirmation of those goals (explained a lot in the sections below that deal with the subconscious mind and positive thoughts and beliefs). One of the many ways to do that is thru new movies, songs, lyrics, books, contests, etc. Another way is thru the expansion of an existing tradition, the tradition for meditation in some schools, of quiet prayer time in others, of Pledge of Allegiance. ☺ The PACI, like Peace in English, pace in Italian, pax in Latin, or the Pledge of Allegiance to the Civilization of Immortals is really an expanded version of the pledge of allegiance which right now is super short and says "I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all." In a Civilization where the goal is a world of peace no crime no prisons and 900-8,000 year lifespans, naturally, the pledge of allegiance can be a little bit longer, as people got a little more time, a few extra centuries and they know how important thoughts and emotions are, especially in the morning or start of the day, for a daily reminder of what is important. So, it could change to become a 15 minute or 10 minute contemplative prayer or meditation (name doesn't matter) and affirmation of the goals of the Civilization of Immortals. Say kids come to daycare, kindergarten, school, adults to their job site by watching it in the Silence Halls described in Chapter 4, college students to the Morning Pledge Halls done in available classrooms (so they don't need to do it for every classroom) and then the first thing is this Pledge process. ☺ There are many ways it could be done, one being: kids come and enter the class, soft music about Immortality Civilization is being played in the background in angelic soft soothing tones (eterni speech), they're given the tastiest healthier smoothie with polyphenols and nutrients to keep the brain healthy, rich in ω3 and low in AGEs, oxidative stress (see more in Chapter 11 on nutrition). Since many kids have not eaten, this would give them enough calories to pay attention during the Pledge. ☺ Like we would drink a juice, this could be like a puree and people can sign up again to receive it daily or not, free will. Everyone would sign up as it would take eons to make it at home from all the ingredients... Eat it fast with a spoon for maximum brain health and some fiber too. Then, after the 1-2 minute eating of this nutrient rich smoothie, the kids would be breathing consciously while listening to very uplifting Immortality Lyrics songs for 1 minute with eyes closed. Then, the kids are reminded by the most angelic voice recorded for 20 sec to prepare to enter a deep relaxation

state, a deep theta-alpha brain state.

Then the students listen to the guided PACI preparation that says with very soothing music in the background in the most angelic gentle healing voice (alternating male and female for every sentence) "We are now going to enter a deep state of relaxation, perhaps the deepest ever, as we close our eyes and breathe gently relaxing every part of our body from toes to head, shifting gently into a state of cosmic happiness, of being loved by all beings, the state of *Heaven on Earth*, where all beings love and help one another, a state of absolute happiness and tranquility, a state of grace and maximum wellbeing unlike ever before perhaps, similar to the divine ecstasy states of saints, a state of total oneness with the Divine and the Infinite Intelligence, Wisdom, Compassion, Kindness Ecstatic Joy ☺☺☺ and Grace of the Future Immortal☺ Humans who live to 900-9,000 years old in perfect peace, with no violence, no prisons, no disease, no war. We connect our souls with the Elysian Magnificent World of the Future, this Heavenly World where all beings love one another and everyone is like an Immortal Angelic Being infused by the most tender gentlest softest compassion kindness mercy forgiveness imaginable, a world where there is no violence or negative emotion and thus no crime. As we breathe gently and listen to the music, we try to enter a state of deeper and deeper happiness (smiling a lot is fine while eyes are closed). As the human voice stops and the music continues, relax, rejuvenate, experience cosmic ecstasy states or listen to the ideas from the Immortals of the future, whose reality is merging with ours now, as we tune into them." After a few minutes of soft tender gentle music the recording continues "We will now prepare to infuse every word and facial expression (gaze if eyes open, your choice to open, closed better for more visualization and focus on the tone and Inner Images from Heaven) with beautiful emotions of universal loving kindness towards all human beings and to visualize the bright world of Immortals as manifest, the world of peace as we start singing the PACI in the most eterni tone, manner, fashion:

"We ☺Pledge Allegiance☺ to the Gentle Civilization of Immortals Lifting the *Universes*,

The Ever Learning America bringing Eternal Immortality to countless Humanities.

Using only Nurturing Healing Bliss Causing Methods to Bring Peace *and* Immortality,

We *heal all beings* and *bring* Peace in ways *that* increase *the lifespan* of all *humanity.*

Emulating the Infinite Unconditional Love of motherly Immortals for all humanity,

☺☺☺ *From now on we try to love, like Immortals, even the 'least perfect' human being,* ☺☺☺

☺☺☺ *A trillion times more than last decade's world's best mom loved her infant baby,* ☺☺☺

With a love far gentler, softer than the graceful love that mom had for her baby,

☺☺☺ *Without diminishing the* happiness*, bliss, comfort, wellbeing of any human being,* ☺☺☺

Without humanity quantum entanglement field | |Immortality *for* All| | vibe lowering.

Many Immortals live trillions of times longer than us due to using the healing effect,

☺☺☺ *That comes from deifying tact,* diplomacy*, eternal praise for even the least perfect.* ☺☺☺

Softly offering our own living example as the silent teacher of right action,

☺☺☺ We gently inspire even the 'least perfect' to embody universal compassion. ☺☺☺

Magnifying and deifying Immortality and Healing Subtle Quiet Graceful Ingenuity,

We tenderly Bring Ecstatic Freedom, IQ and Peace to those longing for Liberty. ☺

Fulfilling serenely with Soothing Healing Gentle Grace Her Inter-Galactic Destiny,

☺☺☺ America lives as the caressing song of Teleporting Telepathic Telekinesis, ☺☺☺

☺☺☺ Ushering *blissfully* the shapeshifting *Immortalizing* Matter-Spirit Synthesis. ☺☺☺

☺☺☺ Thru *gentle tender soft healing nurturing* universal loving kindness, ☺☺☺

☺☺☺ *We softly* bring *the* eterni *vibration* of a deeper loving kindness, ☺☺☺

We *act* ☺☺*lovingly tenderly gently kindly*☺☺, instead of only *gently,*

So we *bring* the ☺☺happy *world*☺☺ of | |Immortality *for* All| | fully.

Eterni *actions* are much gentler, kinder, softer than pacifist (nonviolent) *actions,*

They radiate the Immortals' infinitely tender grace, universal loving kindness vibrations.

Just like the eterni tone we use is often 100 times gentler than everyday speech,

☺☺☺ Eterni *actions* are 100 times gentler, kinder and more healing in their reach. ☺☺☺

Pacifism is a millionth of the *infinite kindness* of wishing and giving | |Immortality *for* All| |,

Of its infinite tenderness*, most nurturing compassionate gentle* ecstatic *sweet softness.*

By setting our pacifist immortalist ideals higher than nonviolence, we make it harder,

For our human nature to take over, allowing the gentle Immortal within to rule forever.

The above is the essence of ethics, of PACI, the minimum. How we will manifest it could be 1 billion ways, including the teleportation, levitation, shapeshifting *in Immortalist Anthem. So*

more of that can be added, but the important thing is the Eternal Way of Grace.

It ends with an unsung short sentence to make them used to this eternitone while not singing, but speaking: "We thank the Eternal Infinite Wisdom and Grace of God and the Immortals for guiding us this day, as we bring the Heaven of Immortality on Earth as it is in Heaven. Everyone is an Immortal☺ angelic good being inside who brings World Peace and the Civilization of Trillion year old Immortals. Everyone on Earth, around me or who thinks of me is filled with the gifts of *the Holy Immortality for All Spirit*, which are the miraculous transformation of negative emotions, intents and thoughts into positive ones, gentleness in tone of voice and behavior, *precognition*, divine ecstasy, tenderness, softness, kindness, forgiveness, meekness, patience, compassion, understanding". This is not being naive, but infinitely compassionate and understanding of the good spark within all, while also infusing mass consciousness field with good vibes, as explained below in the next Immortality Test sections dealing with the subconscious mind interactions and telepathy diffusions. After this sentence begins the second guided meditation or contemplative prayer in which people listen to soothing background music (no words mostly, to make sure that any movement or background noise kids may make is taken out and people continue to focus on this meditation) that guides them "We will now conclude our Pledge of Allegiance to the Civilization of Immortals or Invocation of the Heavenly World of Immortality and Peace with another short guided meditation for more telepathy, empathy and altered states of union with the Immortal☺ Bliss of God, Greatest Oceanic Delight. We will relax our body fully, from toes to head, and listen about ways in which we might be able today to bring the world much closer to the Heaven of Immortals by extending healthy human lifespan and radiating every more beatuiful emotions from our beings during speech and tender smiley gaze at all beings, since our speech vocal pattern encode our emotions, noble intentions and people unconsciously imitate these patterns they hear and our tone of speech acts as a ripple that sustains or hinders Immortality, Positive Future, Peace, Joy for all beings. Peace and *PACI* depend on human relationships (we relate to others by speech) and crime starts with negative emotions, so to bring a world of Paradise we need to transmute our tone of speech and act as healers on a mission to create the most healing symphony thru our tone of speech that teaches by living example. We thank you once again for being the Bringers of *Heaven on Earth*, the Bringers of Peace and Immortality." While many people will find this long, we can at least add add a few words or sentences to the Pledge, like Eternity, Immortality, "Liberty, Justice, *Gentleness*, Immortality, *Compassion*, Perfect Health, Trillion year *Lifespans* for All"☺☺☺☺☺☺☺. At least keep "Billion year lifespans" ☺☺☺☺☺☺☺ if not the other stuff.

The nice advantage of this pledge ceremony is that it can help people to relax, learn proper speech, proper behavior daily and act as a buffer against the unbalance energy of parents, who often times have no time or capacity to teach proper speech and emotional radiation, intent

formation, etc... Teens are thinking coffee, alcohol, smoking, weed, sex, etc are mind blowing, but these contemplative prayers can actually help them to experience something wholly different and 1 million times happier, solving 10 things at once, 10 types of addictions. And then it naturally becomes easier to obtain the meditation results of the Visitacion Middle School. The reason PACI is so long is to give more ideas from which people can pick. But it can be much shorter, just need people to decide what's important. Obviously the stuff about teleportation, levitation, flying and living on energy is less important. If one wants a world of paradise to emerge, one can use even the Pledge for that. Many schools already have some music, singing, meditation or prayer time or classrooms, so they can use those times to promote positive affirmations and concepts, even if they don't go full blown to daily process. Think about how much time kids spend 10-15 minutes on so many things, that are less useful, like playing "physical aggression" filled movies or video games, or aggressive sports, restless music clips, or watching the TV filled with uneterni *tone* of speech and random mumbo jumbo emotions, and no coherence of radiating noble good gentle healing vibes. If kids don't get even 10 minutes of an ideal positive thought and graceful gentle healing speech example to hear a day, how are they going to learn to radiate good emotions, essential to reduce crime 100 fold? Eterni speech, covered in Chapter 8.1, is like lifting weights for the beginner, very hard, as it turns every inner negative emotion or intent into a positive one and modulates that energy into refined tone infused with noble vibes. eterni speech (coherent speech, emotion, intent, thought, energy) is totally different than gentle tender speech, as it adds gentle tender healing intent, emotion, energy radiation, thought, visualization, etc. to the *gentle tender soft* vocal tone, leading to a difference in vocal tone harder to perceive that is then providing a positive example for others to imitate, since we imitate those around us unconsciously emotionally thru imitating their vocal patterns, which then tell our brain what to feel: compassion or anger, desire to heal or "desire to torture, be cruel and harm or cause pain", forgiveness or revenge, kindness or meanness, etc...☺

6.3. Immortality Test for Doctor, Nurse, Policy Maker, Farmer, Nutritionist

The changes to the medical profession are outlined in extra detail in the Universal Immortality Inc section about the merger of all hospitals and medical companies into one. They have to pass the most stringent ethics, MRI and tone of speech tests to determine overall ethics, since they can kill people covertly via their decisions. So, all tests that immigrants have to go thru, they have to go thru too, to make sure they're not 8th generation fanatical covert killers or terrorists disguised as MDs. The oath MDs take to do no harm is more of a formality, since many are loyal to the Torah, Bible, Quran and the violence they imply. The second paragraph on health centralization, hints at these issues. People have to pass a test to get into medical school, graduate school (GRE), college (SAT), TOEFL if not a native speaker, etc. The idea is to create an Immortality test or section within existing tests, and whoever scores very high in that section,

even if scoring lower in the rest, can still pass, same idea as with bypassing a grade, since these people are studying Immortality non-stop and are passionate about it and drive civilization forward towards the 1,000 year lifespans. The Immortality Test for the Angelic Heroes we call doctors who have very stressful surgeries to make at times, would gauge the knowledge that would prevent disease, to use minimal intervention and maximum prevention, to minimize side effects and use minimal pills (since many foods can lower blood pressure or glucose better with fewer side effects than common pills), to provide complete nutrition so the body heals itself when possible, to cure temporary disease, discover how to regrow limbs (see how we did it in frogs first time in Chapter 3) and regenerate humans from within, organs, etc and to aid the Immortality scientists in finding the best way to extend human life and to ultimately defeat aging, for example simulating a human being and seeing what effect each food or substance might have before trying it etc. The doctors do their best to make medicine 95% education about prevention and 5% intervention, intervention only when really needed and when natural disasters or whatever cause people to need help, etc. Medicine is far harder than simple few reactants chemistry, as millions of trillions of chemical reactions happen every second, and one symptom can happen because of 1 million causes. Aware of this the Immortal☺ Medicine uses advanced machine learning to see which of the million possible causes for a certain serum, hair, nail biomarker or symptom is more likely to be the one. Databases are built, and new studies made, leading to better diagnoses, to prevent the medical mistakes that happen due to our limited knowledge. Mistakes happen in any field, but diagnosing something is ultra difficult, given how complex the body is. Doctors hold a key to understanding how we will live to 900 since they will help build the knowledge base used by life extension, anti-aging, medical scientists and Immortality scientists, but nutrition will discover how to live to 3200, ending the monopoly of doctors on longevity ideas, as chemists truly can increase lifespan 40x. ☺☺☺

Many people are deficient in certain vitamins and phytonutrients and these deficiencies would vanish if the cultivars of agricultural plants are the healthiest ones. For example, purple carrots have *9 times* more polyphenols and *2.2 times* more α-*carotene* and β-*carotene* (pro-vitamin A) than orange carrots. Purple potatoes (purple flesh not skin) have 20 times more antioxidants and spike blood glucose a lot less, decrease blood pressure, etc, while white potatoes create inflammation (peel 3 mm of potato to remove alkaloids if you eat them 1-2 lb/day) , "Phenolic content and antioxidant activity of *purple-fleshed potatoes*, after baking, were comparable with those of anthocyanin-rich berries" ► JAFC 2012;60(44):11088-96. Many people wear glasses and develop poor vision due to low vitamin A. Many diseases, such as Alzheimer, atherosclerosis, etc develop because of lack of polyphenols. Those eating more polyphenols live longer. The idea is that if purple cabbage has *2830 times* more anthocyanin polyphenols (shown to lower mortality by 37%) than green cabbage, 54% more vitamin C, etc then obviously, the Agriculture Minister of

the Immortals would *prioritize the plant varieties that prolong lifespan* and are easier to eat. In 2023, I tried some Aldi brand with red cabbage, apples, etc made in Poland and it was much more pleasant to eat than the regular canned beige one from $ store, which costs the same almost; glass means 100x less metals from cans leak (the lid can be leaking if overfilled) and destroying our arteries, organs, but also light can degrade the anthocyanin polyphenols, so the Immortality *Nurturing* Agency needs to surround the glass into purple paper 100% (now it's only 30% purple) to drastically reduce high blue light, UV, or some opaque paper with some tiny bit of reflective paint on inside or use very brown glass. It's important to maximize benefits and not let light degrade fats and things there. Healthy foods are useless if nobody eats them due to gas or food industry not soaking them 8-16 hours, changing water twice; so cultivate the bean and lentil (lentils are easier to soak and render gasless by people and food industry (lentils use 30-50% the soaking time, electricity and warm water of beans), more nutritious, have way lower trypsin inhibitors and the bad type of lectins compared to beans, so can be given priority over beans) *varieties that contain the least* raffinose, stachyose, verbascose, etc and list raffinose, etc on USDA database, so people can make informed decisions about methane and CO_2 bacteria food sources; if someone wants to eat beans for the first time and chooses the variety that has 7 times more gas producing sugars, then he will think all beans or legumes are like that, when with soaking they're totally different. *People don't know canned pinto beans are 25 times more gas producing than soaked lentils.* The immortalist Minister can require (if proven safe with long-term daily use) companies to put *α-galactosidase* in unsoaked legume (or other *galacto*se saccharides rich foods) products and all dairy products (that contain lactose), so this absent from humans enzyme can hydrolyze galactose and prevent these 3 legume oligosaccharides and the lactose oligosaccharide from dairy from reaching the large intestine where they ferment and produce methane/CO_2. Protein powder industries, a semi eterni industry sort of, can learn the wonders of soaking to make powders that have prebiotic fiber, but no gas producing trypsin inhibitors/dubious lectins or sugars. Teachers need to include these things in class, to make teens more interested in chemistry, hey they can have less gas, feel less socially stressed after eating food made by less chemically aware mom. Butternut squash has 27 times more vitamin A, thousands of times more β-cryptoxanthin and α-carotene (many are deficient in these) than acorn and other types of squash. Purple onion got 2 times more polyphenols than yellow onion. Black beans have 10 times more polyphenols than white beans, lentils got 47 times more antioxidants than white beans. *Purple* grape, *purple* cactus *pears, purple* kale/cabbage, *purple* flesh (not skin) potatoes also have beneficial anthocyanins almost absent in green/white varieties, and low in red-orange grapes, red cabbage got 2830 times more anthocyanins than green one. Among *chia* seeds, the darker color ones have more polyphenols☺☺☺ than the white ones. Black or dark indigo plums got 10 times more polyphenols than yellow-green plums. White carrots have very little vitamin A, yellow carrots have a bit more, but orange carrots have

a lot of vitamin A, while purple double the vitamin A and total polyphenols of orange carrots. We're engineering purple tomatoes that have anthocyanins. Purple carrots are so healthy, yet so hard to find. This is due to decentralized lawlessness, what we call for profit capitalism, we plant like ☺abysmal IQ☺ folks the crops that don't maximize our lifespan. All done for aristocrat profit. Likewise, among watermelons, some varieties have 10 times more lycopene, the main reason for eating watermelons. So why is the government allowing the other varieties to be cultivated? Nobody even knows the benefits of lycopene and using food to achieve better effects than 50 trillion worth of pills by Big Pharma, and we misuse water, land, fertilizer.

The Government of the Immortals can promote electric pressure cooking, since a pressure cooker uses clean electricity from the sun and wind, not natural gas that destroys water supplies during drilling and creates earthquakes, killing people or injuring them during earthquakes and natural gas pipe explosions. Pressure cooking minimizes the creation of AGEs that destroy our brains and bodies, since it uses very little oxygen versus the stove or microwave and all cooking is water based. A pressure cooker can replace 9 appliances and do pretty much everything, gas stoves could be banned, as frying is very dangerous for health anyway and gas stoves emit carcinogens for hours after use, being worse than 2nd hand smoke. Pressure cooking allows cooking faster, at higher temperature, killing more bacteria, destroying more lectins and trypsin inhibitors and creating 90 times less odor, leading to more harmony between members of a house/dorm where cooking is done, as the upset over cooking fumes is diminished, leading to a higher mass consciousness elevation and longer lifespan, as negative emotion is eliminated. Nutritionists of the Civilization of Immortals would know these things to prolong lifespan in the transition period to super nutrition, since we're not yet at the stage to make powder mixes for food that contain all these polyphenols we discovered to be really mind blowing (see chapters 11, carrots section, and 12 with 40-50% higher mortality for those lacking a certain vitamin, mineral or phytonutrient). Chapter 11 explains that an anthocyanins pill lowered total and bad cholesterol as much as statins (can cause hemorrhagic stroke, cataracts, blindness), without side effects, while increasing the good HDL cholesterol. Lipophilic statins (like atorvastatin, that cross the blood brain barrier) can lower brain cholesterol, which is a bad idea. A high fiber low fat vegan diet where only fat is in veggies, legumes, 1 walnut and some DHA-EPA pills, will keep cholesterol low, 100-150 total, without the blindness, stroke causing statins. Hydroxytyrosol doubled HDL in rabbits, the lignan complex in flaxseeds cut 73% of atherosclerotic plaque. Eterni Food Inc will sell these phytonutrient powders or protein shakes with these polyphenols and other compounds, for busy people who don't have time to eat 90 different foods daily. ☺☺☺

6.4. Immortality Test for Lawyers, Judges, etc

All details are in the section on the merger of all courts as Etis in the USA. For Lawyers, the

Immortality test could focus on the evolving need to Promote the Ethics of an Immortal☺ Civilization of 500-90,000,000 years old people so as to manifest that future by acting as if it already happened. Clothed in the garments of Compassion, Mercy, Gentle Tender Softness and Infinite Grace, the lawyers are the Angelic Instruments to Uplift and Heal all whom they encounter by their role model, tone of speech, divine angelic soft healing tones, so that God's Infinite Mercy descends and heals the Earth and we can move to transforming Earth to a place of no violence, no prisons, just healing centers, where lawyers decide to what healing center or Immortality University people might go to heal when a mistake is made. With this vision, united in the gentle grace of *nurturing* transcendence, helped by policemen, prison personnel working for same goals via angelic healing gentle music, meditation, prayer, positive thoughts, these people have the amazing destiny to bring a world of nonkilling, no prisons/violence on Earth, they're the most pro-life people. So, we call them the Bringers of Transforming Grace. ☺☺☺

6.5. Immortality Test for nontorturing nonshouting honest Gentle Police achieved via the merger of all 18,500 police departments into ONE

(see 5.1. on 0 jails/arrests (unless a violent crime) via 5 trillion CCTV & 0 crime via martial law)

80% of the next 45+ pages focus on 0 police violence, showing also via 50+ videos how the aristocratic social engineers have created a super violent youth via violent music, with lyrics often created by Jewish "song writers" whose main goal in life is destroying all gentile cultures. The other 20% are some basic common techs and policies to eliminate deaths of suspects, cops, car drivers/pedestrians. Singapore has 280 times lower gun homicide rate than USA, due to having 280 times fewer guns per capita and only One national police department, made of US born US citizens only with high Immortality Credit Score. They got 2 Isn't it time we end having 18,000 police departments and only 1 ultra safe one, free of corrupt gangsters. Imagine we had 18,000 Android OS, each with 18,000 fewer programmers, the quality and tech support would be horrible, well, for policing in USA, that's the reality: no real crime drop. One cop department means cops fired can't go work for another city to injure civilians, they can never be a cop again, and they can get lifetime labor if beating a civilian without a cause. Some main reforms of The National Unified police department, called Immortality *Nurturing* Agency, are:☺☺☺

1). POLICE CAN STOP ANY CAR IN USA from even 2500 miles away and we install 4 trillion cameras in USA, mostly wired (some LiFi) on buildings, car exterior to prevent theft and violent crimes, collisions via self-driving AI taking over car to prevent hitting something, homes, trees, utility poles, road signs, etc for real time monitoring (to deter thefts too) of spies or thugs: one car company, Eternal Travel Inc to retrofit all existing cars and make in US all cars on US roads (ban all car imports for national security, all foreign cars banned from US roads) and enable ALL

CARS ON US ROADS to be stopped instantly, by police, remotely and parked remotely by police in a safe police chosen area, so that no car chases occur which always kill innocent bystanders and even the car drivers due to car crashes and shootings by cops who get rammed into by drivers or cops attacked with knives or guns by drivers due to lack of centralized education, etc. Police knows who made a police call, nobody can call anonymously anymore, to use a payphone, one enters the universal ID and then calls; to get a phone in USA, one has to be a legal resident and any visitor in USA gets a temporary ID if he wants a phone. This prevents strangers from calling cops at a house 50 times, as in this video. The national police department knows exactly who the caller is, recognizes the phone user by the AI file of his voice. Only when they match the cops take serious action when on site.

2). VIDEO OF CAR OWNER TO START A CAR: No driving without a valid license will be possible (today we waste millions of court hearings about these), since it scans it after you place license over a reader to confirm it's you the owner, besides your iris (unique to you). No carjacking/car theft will be possible (today, endless kids drive their parents' cars and kill people by accident, that's why we need this too), nor the associated shootings and violent crimes (30% of carjackings lead to victim injury: Washington DC medium city (0.7 million) got 958 carjackings in 2023) in the struggle to steal a car, since to start or drive a car you need video of self (car always takes video to stop car if driver falls asleep) and any car jacking would force the driver to allow the thief in the driver seat, which would stop the car automatically, since to start, drive car you need to match the one designated driver voice repeating one sentence the AI says (voice proves driver is well rested (no blood red shot eyes, terrible voice from lack of sleep), calm, with normal heart beat (measured too) and blood pressure, so he is ready to be alert and won't have an infarct while driving) and face at all times. This acts as a second doctor for the driver, to notify him of health issues ("your BP is 10 points above average today, be gentle"). In 2025, 0.7 million cars were stolen in US due to decentralization, the lack of 11 companies, of one drivers license issuing agency, Eternal Travel Inc. Anyone who drinks alcohol or buys alcohol in the family needs to have breath analyzer installed. Anyone who purchased alcohol last year, verified via the no cash Eterni Bank 5 year history, takes breath analyzer test or is subject to lifetime labor if caught drunk if no analyzer installed. No arrests for DUI if zero alcohol at breath test (cops arrest 100K sober people due to genocidal alcoholics running USA: if those bastards would forbid alcohol sober people can't be arrested by "nematode worm IQ" cops, since autistic people can fail the alcohol test and all cars will be equipped with breath analyzer so none can start car without it. This way, car crashes fall a million fold, as we use AI far more to take over the car when driver falls asleep (video sees that) or makes obvious mistakes, making use of 4 trillion cameras on cars, poles, houses, buildings, road signs. Today, self-driving cars make too many mistakes and we need 2 backups for any circuit and computer and camera, to ensure correct AI and also for

the battery, to have AI take over car with the emergency small battery (lasts 1 mile only, not 500) to drive the last mile to a place on the road and then call automatically the road assistance to the rescue, if battery is dead. The TRILLIONS wasted on bullet/stab injuries and car repair, buildings damaged by cars will be redirected to longevity care and research. We need to replace the demonic aggressive rock, metal, rap, pop music in cars (banned until 0 violent crime emerges), because it increases the risk of car crashes, via adrenaline spike. This crap music causing endless car crashes was approved by freemasons whose temples are worthy of demolition, together with all mansions of demonic celebrities who have destroyed USA for 100 years. The cars need a soothing music to be played to calm the drivers. Likewise, police cars can play soothing calming music on speakers, during tense encouters to defuse fight-flight catecholamines, as violent offenders may be kindly taken to healing city for education or lifetime labor, etc if a violent crime was done and the person didn't voluntarily drive self to the police station. In 2050+, when technology is created, we will take a picture of the blood passing thru the fingers, using IR (that already replace finger pricks for glucose) and other devices (sort of like that oxygen saturation with the finger clip) in the wheel, in order to measure the alertness, tiredness, glucose (to prevent fainting and collapsing into a human 3 minutes after driving due to low sugar), sleep quality and 5000 biomarkers to help prevent car crashes and prevent car starting if tired or if one needs to go to the doctor immediately, so we prevent issues 50 years before they happen. Today, most people do 3 blood tests a lifetime, for 30 biomarkers at the most. Thus, we die before 150.

3). BAN ALL KNIVES, except 1 per household, until knife crime is 0. A teen is stabbed and killed by a guy over a seat at a sports game. Knife attacks can be stopped with central education and if the only allowed knives are 1-2 knives per household of 4-8 people, kept in a safe with video camera linked by wire to the national police department and an AI that sends cops to the house within 2 minutes, if knife leaves the kitchen or is not in the safe once people left the kitchen, to indicate when knife is missing and nobody is home or detected in the kitchen where knife is used, from the wired camera outside the house to stop that person's car via the automatic national car stop, and via the kitchen IR sensor of motion linked to the knife safe that no kids have access to. Likewise, nobody does house maintenance, all is done by Immortality Building Inc, so no saws, landscaping materials, no tools, no sharp objects, no screwdrivers, no wrenches, no baseball bats, no hockey bats, those are illegal sports, nothing that can ever be used to attack or kill others, not even a hammer. Ambulance was called to help a person on the street, the EMS is not a national one that checks the criminal history of the person, and then this lady, released on bail for 10,000 for assault on a cop, stabs and kills the paramedic during transport in gratitude for being taken care of. She may have had a deep hate of police and wanted to revenge, suffering from some anger management issues. Thus, all EMS calls are linked to the

screening by national police to ensure those 911 callers are not a threat, before they enter an ambulance. This also means ban all guns for civilians to prevent shooting over "not sharing 2$ worth of french fries", or "the proper way to cook chicken" (violence happens due to lack of centralized education, people need to be educated that any human is more valuable than all material objects in the galaxy by a factor of a trillion and so is any human free from injury, so that kids know from age 1 to value life and to not engage in violence or stupid pranks that might injure others (small kids don't understand consequences well, what an injury means and what it could lead to, then a habit forms and they do it as adults – education prevents all jails, we have no education), prevent the executions by people with 40 arrests/violent crimes who're free to shoot others again or the violent criminal (who should have served lifetime labor sentence) guy who shot 9 naive careless cops after a fake 911 call. If we implement 5.2. we remove all violent imagery from all media and people who never see violence never engage in it, nobody would have any concept of violence, since all kids listen to the same eterni tone video on ethics (daily ethics via video) we mandate all kids ages 0-18 to watch daily (1 video daily until age 18) and parents to watch (to receive parent license) it videos too during pregnancy to know about ethics, vaccines, vitamin K2 injection, how to prepare for lactation, and health issues of babies. The fetus ethics is influenced by the tone heard in the womb, so parents need listen to 100% eterni. Music, TV, radio parents listen to is heard by the baby, and starts to shape his psyche.

The made up lie by Republicans that you need "guns to defend against bad people" is coming from their unwillingness to educate all, to remove violence from videos, movies, music, since educated people never attack anyone, never rape anyone, since sex is taught as a boring unpleasant chore done to procreate kids after parent license is obtained. 'Bad people' are made by murderous criminals who create murderous content, kids emulate what they're taught and see in the media. Nobody will attack anyone if all they're taught is to love all beings, to be kind to all via the daily ethics videos till age 18, like with the immortalist breathing they can practice whenever they want. Singapore got 280 times less gun homicides, due to 280 times fewer guns. The criminal republicans refuse to unify education, instead promoting the genocidal Talmud Yeshiva Universities and genocidal Bible universities and schools. Australia (strict gun laws) had 1 mass shooting (more than 2 people shot) since 1996, USA had 9000. The total weapon ban would extend to any machete, sword, and related items, besides martial arts training (unless a cop), which is how violent assaults are done by people without weapons. Evidently, we need ban crime amplifiers, like alcohol, weed, smoking and vaping to prevent brain damage that causes traffic/violence events, as most violence/traffic injuries involve these 4. As we have eterni foods, all food comes as powder from food.gov, custom to our DNA/issues, no knives will be legal then, as nobody needs them. No plants or animals are eaten. We need gun control because millions develop vascular dementia which can make them kill others, since this type of

dementia diminishes blood to emotional control and people can get into a rage faster. 7 million US kids live in homes with guns that are not properly secured, meaning the kids can shoot random people in a fit of rage. We need to ban all guns too. Death Penalty for any violent crime if injury doesn't heal in 2 weeks, so no more 20 year for murder of innocent strangers by psycho Sikh religion knife, which often gets later reduced to 5 for "good behavior" due to a new "program". Sikhs in the UK can carry knives called Kirpans, nonSikhs get jailed if wearing a similar size knife. Insane Sikhs say carrying kirpans is an "article of faith". The UAE tough laws made most UAE Sikhs stop wearing kirpans. All nations need to ban all knives/guns.

4). DEATH PENALTY FOR ANY SERIOUS injury needs be instated, lifetime labor for slaps, drug possession, shoving or bruises that vanish within 2 weeks, death for rape and drug traffic. For example, this violent punch would mean death penalty, suspect caught in 10 min via the 4 trillion cameras, executed within 2-3 days (or instantly if cop is around for unprovoked attack) and shown on TV to deter others, and ultra fast one police department nationwide, because it was so powerful, it knocked the lady down, so it won't heal in 2 weeks the cell damage. A guy who killed a guy, ate his brain/eyes, was released from psychiatric hospital, free to cannibalize others: this is America's justice and policing system, simply claim insanity to get out of jail free to kill more people, eat their brains and eyes. 16 year old & others broke into 121 cars in one night and was released 5 hours later due to "being a juvenile", instead of getting lifetime labor to pay for the damage times 9000 and doing 121 violent crimes that hurt nobody. In the US, judges release very violent thugs after 2 months, and they reoffend, putting more lives at risk. The instant Death Penalty is explained in further detail in the 24th Equality item at the start of the Immigration Section, the 24 Items of Equality All Cops Shall Know. The issue here is judges often sentence people of the same race, beliefs, politics, etc to minimum, which can only be prevented by universal lifetime labor for any violent crime, and death penalty for injuries that don't heal in 2 weeks, by vanishing the bruise and pain. It's highly hypocritical to say Black Lives Matter and then a violent black is arrested 20-40 times for violent crimes before he kills 1-2 whites/blacks, after already injuring, permanently mutilating, damaging 10-20 people by punching and assaults. All lives matter, all violent crime needs lifetime labor in a sealed healing city, to work and have a nice little house, contribute to society, instead of sitting in jail wasting taxpayer money and entertaining negative thoughts. The same crime gets 2 months or 10 years, depending on the judge, so this system is totally broken, watch these 11 videos to see how violent criminals reoffend as jails fail to improve people: 1. guy did 15+ violent crimes in 14 arrests, 2. 13 year old arrested 19 times (many violent crimes), 3. guy arrested 39 times before killing 22 year old, 4. boy killer released after only 7 years, 5. ATM robberies, 6. unsafe malls, 7. people breaking into houses get released, 8. street takeovers that kill teens, 9. guy robs endless places, is freed after violent crimes, then kills a couple 10. federal fugitives who committed

violent crimes were arrested without warrant (illegals don't need warrant) and then released to do more crimes, 11. Honduras illegal deported and arrested for violent crime multiple times, stabbed a black guy (death for 2+ week injury violent crime would prevent these) 12. 60% of violent criminals were arested before and a 15 year old had 111 arrests in 2 years 13. Lawrence Reed, 50, got 72 arrests since age 18, before finally setting 26 year old Bethany on fire on Chicago trains 14. violent criminal was released and then stabbed a guy 15. guy stabs woman 22 times and then is released on bail (could stab others) 16. Seattle guy who stabbed others 8 times, had multiple assaults on record is released from jail to blind a woman in one eye, breaking her nose showing that they need to give all violent crime offenders lifetime labor 17. teens (Hispanic, Black) break rib and nose of white (yellow shorts) Malba (Whitestone area, Queens) homeowner who asked them to stop at 2:30 am (the Bronx (Hispanic 55%, Black 30% in 2025) teens punched his wife too (one was arrested), dressed in white) during Malba street takeover (this shows why we need 5 wired cameras around every house to deter/identify criminals) 18. Mother of violent kid who tries to drown an autistic kid gets no punishment, when in a fair society her kid ought to be taken away, given to a kind family of much higher credit score, and she forbidden from being a new mom for failing to prevent the attempted murder of an autistic kid by her son. Potentially, 10 years community service too for failing to educate her kid to not be mean to any human, to not try drown any human. Instead, the court jailed the mother of the autistic kid who also committed attempted murder of the aggressor kid, by trying to drown him. US justice only punished one woman who involved in attempted murder directly or thru her son, an extension of her depraved self. Punishing 2 mothers and dads seems fair, the 4 can't have any more kids and 10 years community service each at least, with lifetime labor for mom submerging the aggressor kid in water (risking his life), but it's much cheaper and takes 1000 times less energy to invest in proper 1-4 hours ethics centralized education daily, so all kids become angels, such crap would never occur, because every kid would know America's national Anthem, the Immortalist Anthem and Its Ethos of loving the worst person a trillion times gentler kinder softer than the most nurturing loving mom loved her only baby last decade. 19. evil lawmakers incite people to attack police stations in order to arrest or shoot those disadvantaged uneducated youth. This is what happens when you have city, county and state courts, instead of one court system for all USA with one simple system of sentencing that reduces crime 1 trillion fold fast. Civilians, cops, paramedics, judges all get killed by thugs. 20. physician punched in elevator by guy arrested for violent crimes many times before. 21. guy kills lady during burglary after being released 12 times for violent, etc crimes. 22. guy killed 2 people being released on parole, then killing a third. Only in an insane nation is a killer released. They need lifetime labor and education. For 100s more such cases, visit the Blue City Crime page of Fox News where cases from 100s of local stations, news agencies are centralized in one easy to find location. US needs lifetime labor for violent crimes, death if serious crime. One law for all USA. 23. guy with 50

arrests punches 5 Asians in one day & Chinese punches Asian, gets deported. 24. 41 arrests later, he kills a guy to steal 100$. 25. Guy attacks guy with sledgehammer, but gets no arrest, then cuts throat of a kid. Need more proof that no violent criminals can be released from the lifetime education and labor sealed healing city? 26. Animals push people in front of the subway trains (attempted murder) and don't get death penalty or lifetime labor. Perhaps, opening borders wider would let in more serial killers to push 50000 people unto the tracks each year. 27. after a hit & run, guy fakes his injury and gives 25 punches to a good guy who stopped on the highway and tried to help him (never help roadside folks, they can be faking it to attack naive helpers, steal their car/$ or kidnap them: they got a phone and can call, don't stop, don't die, too many insane psychos out there) 28. Guy (who committed rape before) got released to rape 94 yr old. 29. deported illegal gets mad, attacks gas station clerk car, she comes out to ask what is going on, and is killed by six hits to the head with the hammer (see full 20 second video of murder), but hey, they say he will just be deported (to come back and kill more?), no other penalty. 30. lady almost kills guy as she steals gas station SUV, hits many cars, flips SUV causing major crash (one more reason to buy EV, charge car at home) 31. guy did 30 crimes (many violent), killed gal upon release. Never open any door, unless you made an appointment, because many get killed this way. Street takeovers in almost every state (MD, CA, IL) show that a new law of instant execution of anyone blocking a car like in a street takeover should be the law, i.e. cops can gun down all of them using a remove drone that hovers above them or from his car, for attempted murder of innocent civilians by blocking traffic, potentially causing 9 car pileups. Check out drone removing knife from a criminal's hand. Robots will wirelessly make suspects hand open, using this type of tech, to make suspects drop the gun or weapon. All violent crime will cease with 50 trillion cameras. We'll need 1 billion fewer "trials" as evidence closes cases 1 billion times faster. In any advanced civilization the slightest act of violence, like these thugs beating people during their street takeover is equivalent to today's active shooter killing people, so it would invite immediately execution by drone, as it would be a million times worse than what is acceptable or defined as evil today, since society had 1 million times less violent crime. Instant Death Penalty, just like cops already do when shooters point a gun at them (a car ramming towards a cop is the same thing today). This wouldn't even happen, because the TV would explain to all wild beasts what the consequences are for blocking traffic to screen tires and create chaos: lifetime labor minimum. This happens due to covert incitation by those who allow the gangs, bad music to exist, to incite, give reason for arrest of the naive youth who fell into the trap, etc, like all violent rap, heavy metal, etc music created after 1965 "black liberation" is suspect and possibly done to jail them. A guy blocking intersection, vandalizing things is the same as an active shooter, he's attempting murder and just as cops kill active shooters, they will be able, after emergency 20 hour/day ethics ducation, 6 month training period on all TV-radio-Internet sites, to do so, as the max pay min pay and new laws of crime are becoming effective to

bring all violent crime to zero in 2 yrs. Aristocrats need max chaos to loot us, so 'crime, bad music are on all radio-TV'.

6). NEW UNIFIED NATO POLICE SPECIAL GEL LIKE RUBBERY SUIT lightweight, protects officers from fists, kicks. As suspect kicks and punches, his fists sink into the suit, that is not 5 mm thick, but 12 ft thick, enabling the officer to become 7 ft and to immobilize an attacker in seconds, as the fists are surrounded by this foam gel and hold on to his hands and legs, then another officer takes him and ensures nobody gets hurt. And they play nice immortalist music, to calm suspects who're violent. No injury ever done to officer or suspect. Jelly suit can be programmed to become 8-9 ft tall when dealing with violent 6.5-7 ft folks, to deter violence that may cause small injuries to his fists that land on this gel like suit. As none can have guns, no big injuries happen. The suit can be Kevlar reinforced too, to prevent injuries if some have undeclared guns. An officer's hand becomes 50% longer and the officer controls an exoskeleton that has these rubbery hands to grab the suspect with these soft robotic hands. These long hands prevent any fist reaching the cop head, which is protected anyway, by a huge 12 ft diameter gel anyway, in case 2 people attack and one tries a blow from the back getting his hand immobilized. As suspect tries to pull his hand away with the other hand, the other hand is sucked and immobilized, and the as he kicks, his legs get stuck into this glue that sucks them. As the one police department sends at least 3 such cops per violent call, there is less chance of injuries to anyone by a factor of a trillion to achieve the immortalist goal of a trillion times lower violent crime in NATO and USA. These cops can eventually become fully robotic, reducing cop injuries to zero. All handcuffs are very soft, meaning the metal is covered with a soft gel like thing so nobody can ever get injured or pain from the cuffs, though in a universal pay society violence becomes zero fast, as there are no more aristocrats as with USSR elites, or modern elites in all nations. Nobody is jailed, only fines, the violent get lifetime labor in a healing city or death penalty. There really can't be theft, because all have similar assets and salary has special amounts designed for food, shelter, health, clothing, basic needs, so none can buy drugs so then have no money for basic needs, which would cause them to want to steal. All have money to survive and all work at one of the 11 companies and 3 agencies of USA, the NATO as all NATO + Aussie = one nation. All progress towards reaching IQ 10^{70} as etlif IQ genderless shimmering shapeshifting Immortals.☺☺☺☺☺☺

6). DRONES ARE USED TO DISARM ANY SUSPECT, 5-10 DRONES BREAK ALL WINDOWS of the car or house if he refuses to step out of the car (because suspects hide the gun during traffic stops and can shoot officers), shoot balls at the gun to take it out of the suspects hands (so he doesn't shoot the drone), then taser him many times until the other 3 drones can retrieve the weapon, drone will also feel the suspect to see if any weapons are present using an advanced hand like device and drones will also handcuff the suspect if he cooperates and even if he resists, drones can use artificial hands to handcuff him, roll him over, pull hand from under him, etc, NEVER USE

COPS to disarm/handcuff anyone due to risk of being shot or stabbed by hidden weapons, as they're shot too often, see these 2 cops hit in the head, see the blood dripping from the head. If suspect shoots at anything, drones, etc, they can be tasered or shot by the drone, to prevent stray bullets hitting innocent people around. The cops can be even quarter mile away and have a special healer unit of 1 person trained in deescalation, soothing voice who can deescalate and convince suspect to cooperate, using the drone sound amplifier that is even miles away from this healer who can be at the cop headquaters even and helping the cops who hear him speak. Cop cars should never be visible from a suspect's location to prevent any cop injury. Drones can play soothing music and use recordings (cop pushes a button on his laptop to play a preset thing, customized for that situation) in eterni tone to deescalate, calm the suspect and invite him to kindly drop the weapon and come out of the house handcuffed by the drone who does in front if easier initially. The current standard tone "drop the weapon" etc is placing both the cop and suspect in fight and flight mode and creates needless shootings and is happening due to distance forcing shouting that is connected with the reptilian brain that shoots first, thinks later. Lasers/tasers to disable suspect can be used by drones remotely if resistance to handcuffing by drone appears. 5 drones per car at least in the trunk. If a suspect sees 1-3 cops, he can easily think he can kill them all and run away later, but when 25 drones come, the standoff will be much shorter, as with 25 machine guns mounted, nobody dares a thing. We need one cop department with FPV (front person view☺☺☺, like Ukraine) drones, armed with auto rifles, that go around houses or buses if suspect is there like this case of cop injury, remotely controlled and ask suspect to drop the weapon and, if no compliance, kill the suspect, instead of cops shot (see clip). These small police departments are stone age, even Ukraine has better tech to take shooters. The life of an officer is more valuable than a house blown by an FPV drone, though, that's not needed, drones can detect where the guy is by breaking the windows via special drone devices or blow them up if boarded, and entering the house, from 4-8 different windows and killing suspect if he doesn't surrender without blowing the house. The suspect who fired already 50 rounds is already worthy of death penalty, since these could have hit civilians and the windows should have been destroyed by 4-8 drones at once, before the cop was shot in the leg. Use a bee sized drone, disguised as an insect to determine where shooter is and then send FPV drone to kill, while you distract him with another drone or 200$ humanoid robot from the opposite direction. For small cabins without windows, if suspect shoots at the officers, blowing it all up is an option if no intelligence can be extracted from the drug dealer. Any violent crime, drug, alcohol conviction or bipolar, brain pill taker shouldn't have a gun. Only cops need guns, look at this crazy gun rights fanatic with a big rifle getting shot by cops due to refusing to put the rifle down. The incredible abysmal IQ of these officers is evident, as well as the cruelty of the generals, who avoid the frontline of wars and of the US streets and don't help at all the cops with FPV and other drones. Look at 5 officers shot by a drug dealer that the military created, by

its 80 year policy of open borders thru the fake parties it controls, Republicans and Democrats. 150+ nations are a dictatorship of the military elites who evidently, never have to deal with gangs, street shootings, or frontline dangers, only faking elections for fun via social brainwashing and social engineering and deceiving the working class split into 2-5 camps, so aristocrats are never attacked. The military approves all infernal music that incites millions to crime, approves the 50000 educational systems that give no equal decent peaceful education to all except the Brits and others going to special private schools or Ivy leagues, and places society in an eternal civil war state clearly seen in the million youtubes about what police deals with which is evidently preventable by decent music, TV, education that nobody has access to, being flooded with the most violent stuff always. The cops go thru hell, trying to achieve the impossible, 0 shootings, when the military arms the most dangerous thru total control of every US power branch covertly (like militaries in all other nations). They could care less about 50 states becoming one or 18000 police departments becoming one and reducing officer injuries 1 billion fold, they simply are not at risk of being dead, so why care? Cops die, so Generals don't care. Absolute gangsters. Any warrant for suspected drug dealers need be served with an FPV drone that talks to the suspect who is instructed to come out of the house with hands up. The military releases criminals, no education and healing in "jails", they don't get lifetime labor in a healing city, so crime never stops, they reoffend. We the People need to call on the freemason military to stop deceiving, treating all as slaves and centralize free education and treat all like a Family of Immortals with 11 companies. The US military seems to have been taken over by foreign spies.

The existing policies are genocidal and kill and injure endless officers due to the cruelty of the generals who doesn't give a dime about the working class being decimated by the general aristocrats' (15x the minimum wage) policies of GUNS FOR ALL CRAZY PEOPLE they set to protect themselves in case of some attack on USA.☺☺☺ Such coward criminals put the whole nation of slaves in danger to protect themselves, without caring about any real reform to get violent crime to 0. The cops and the gangsters or suspects are working class, Generals are Aristocrats who could care less if the workers shoot each other. General Washington was an aristocrat from the UK. That's why USA can't get rid of violent crime, everything is a scam. Patriotism is a scam they use to find cannon fodder to defend the 8 million palaces. The military needs to be reformed into Eternium. Unless Generals can die like cops can, generals got 0 incentives to remove violent crime, violent music, decentralized education, the 50 states of terror, 20000 city governments, etc. Militaries control all TV networks in every nation, so cops and the country are mere slaves of the military aristocracy who don't care that the cops go to guys with guns who could kill them, like 400 cops shot yearly in USA by the military dictatorship and 50000 civilians dying yearly due to the evil military policy of guns for all, 58% being suicides. Suicide happens due to no happy.gov and no 11 companies to reduce stress for the working class and driving people insane

with 35 job changes and unemployment. Any decent person would use megaphones on a drone, to get suspect out, without risking officer lives, this has to be federal law to have 10 drones go into a house, not officers shooting a house or suspect from 300 ft, as that risk stray bullets injuring or killing others nearby. Drones first and always until suspect is found and gives up his gun or is shot by the drone. Cops interact with suspect only after drone confirms gun is down, so suspect is taken for lifetime labor for shooting at others. No such respect for cops, they're working class slaves of the Generals. This is not democracy, but subversion of democracy by Generals for 250 years, like British Royals did for 1000 years. If Generals would have to serve in the Immortality *Nurturing* Agency (national police department replacing 18000 police agencies) as a cop for 2 days a month, they would reform the pathetic police departments into a national one like the War Dept is one. Generals can't defend the nation unless they know what goes on inside the nation, what open borders do to USA and can be shot at by the very gun policy Generals created for 250 years to defend their palaces. The military imposed US gun policies have killed already 8 million civilians since 1776 at least, all in the name of satanic worship of guns, far more than all wars combined. Not kind at all. USA was always a dictatorship by the British Generals, disguised as some "democracy", via courts, congress, executive branches they covertly kept 100% control of for 250 years, like in all nations where military rules it all, so might as well be honest, first honest government, turn a new page and centralize and reduce crime a trillion fold by real patriotism and care for all, instead of allegiance to the freemason lodges they swear they're loyal to, like George Washington. Centralized police prevents local Muslims from becoming cops who protect only Muslims. It introduces AI in all cars to alert officers when they left car on railroad tracks or some dangerous area where trains or trucks could hit them, as in this clip where the cop car was smashed with suspect inside on railroad tracks; with one department, they can replace admin and reception jobs with research jobs to introduce 5000 checks in the procedures to avoid fatal mistakes and injuries. Without drones, cops go to the wrong house and then a big shooting starts as house owner thinks some intruders came, comes out with a gun and then cops shoot the innocent man dead. From a distance, at night especially, cops may think a suspect may have a gun and shoot him, but a drone has perfect view of the house door and can be remotely controlled from the car or police center by calm staff who won't overreact and shoot people. Cops don't check guy's ID via the system and confuse him with a suspect with a similar name and a whole circus ensues. Cow IQ cops didn't follow the SOP and arrested the wrong guy. Rat IQ local cop shoots federal detective that he mistakes for a suspect, showing what happens when you don't have a national police department, but 18000 departments of tapeworm IQ. ☺☺☺☺☺☺☺

In China (like USA too) truck drivers are exhausted, treated like animals and have to memorize 90000 rules about restricted driving on certain days of the week, or times, for each 5 mile

section of the roads setup by a decentralized government of low IQ folks treating truck drivers like criminals, a gov who sends young people to USA to learn ☺abysmal IQ☺ in USA from the for Profit Criminal Universities in USA who taught them how to create Terror Based Feudalism in China instead of the 11 companies replacing 33 million companies and 20000 local governments. In the US, due to gangsters ruling USA for 250 years, we got 50 states, 50 drivers licenses, 20000 sets of rules for 20000 towns, that all home owners/drivers need to memorize. Pure torture of the working class, since aristocrats have drivers/slaves who go to city to "deal with bureaucracy and 6 billion rules". We need end all states, local/state governments and federalize everything, to get one Family of Immortals. Check out what happens in USA: cops sleep in the car (doze off or sit idle) waiting for a call in 10000 cities, while in other cities, 1,000,000 calls to police are not answered. This is reality folks, gangsters become cops to sit and do nothing while America becomes a 3rd world country of infinite lawlessness and banditry. Just like with chemical testing labs: city labs get 10 times fewer samples. We need only 1 cop department and cops are moved, so that the calls (for violent crime)/cop ratio is equal for the entire nation, not 90 calls in one place, 5 in another. Otherwise, people will stop calling cops and gangs will take over 99% of cities in USA. We also can't have people become cops to get a nice retirement package while city violent crime is essentially the same over decades. We're one City: America. Another issue is domestic violence calls, where wife and husband fight: the issue here is sometimes both are insane, agitated, unwilling to cooperate, open the door, etc, so sending only 3 cops is a recipe for disaster, as you need 2 cops per person to avoid falls and smashed skulls infarcts, etc like in this case of 2 rat IQ whites fighting like dogs. The issue is deeper, we need lifetime labor or tomato picker job or related sewer clenaing job for up to 99% of producers, movie directors, script writers, actors, singers in USA for creating the most vile violent trash and broadcasting it globally. The so called "peaceful country music" is nothing but chimp violent hollering because to reduce violent crime 1 trillion fold the standards for music level of eterni tone (*nurturing* healing *gentle tender soft loving kind* compassionate tone) is raised a trillion fold. Pretty logical right? These archdemons making millions destroy humanity and USA and out of mercy, they don't get death penalty, because immortalists believe in a 2nd chance.☺☺☺ Without these demons, nobody would know what violent crime is, what a fight or punch is, as we implement 5.2 to a T, no crime depicted in any song, book or movie, article or news, instead good noble qualities must be included in every article, music, movie, song, at least 8 per page. The time for slacking and having fun sitting like a filif IQ primate in a traffic car would be over, since we get 1 trillion automatic ticket cameras to remove all need for traffic cops except for drug interdiction, though with 2 million dogs to inspect all packages and mail, containers, etc in ports, airports, borders, we won't have even 1 mg of drugs used in a few years since the state of emergency is declared, since penalty is lifetime labor or death depending on amount trafficked. Cops of the one department of the one City, America, move where calls happen (relocation in 4 days, since

houses are bought in 4 days max, and wife changes job at the 11 companies in thew place and kids change school), to execute the arrest for lifetime labor for all violent crimes and transport these 10 million animals (the demonic music since age 1 has turned them into animals who will need years of education with immortalist music and ethics and learning to build one's own food and shelter in the new city that is 10 times nicer than most neighborhoods in USA today, since any violent crime in this healing city means instant death penalty, so it's crime free) in the new cities to house all violent criminals (create some factories there and allow them to be trained to build houses like Habitat for Humanity, for themselves). We create 30 megacities, for 30 levels of violence and each shares city with those of similar violence. Stabbers go with stabbers and slappers (parent slaps kid) go with slappers, etc. Today, they place the least violent ones with pretty violent thugs, so that's not ideal at all. In the new system, all get fines, 1-9000 days of community service in one's area of expertise (at one of the 11 companies) and education courses to complete online or in person, except for violent crimes. This system focuses on turning animals into humans, screwed people into ethical humans. The present system takes animals and leaves them animals. With national "healing city" (the jail replacement) system, you have a much happier system, where everyone can work their way out and improve Immortality Credit Score measured by MRI, tone of speech, behavior. Many illegals are cops, so we need one police department that hires only legals. ☺☺☺☺☺☺☺

Why do we need a national cop department and ending all cities and states and the mafia system billionaries setup to avoid taxes? Because there is redundancy, and thousands of sites and ☺abysmal IQ☺ things going on, at a scale that is wasting $8 trillion. In 1970 90% of murders were solved, in 2025 only 50%. Every zipcode in US pays the same tax rate, has the same exact laws, for a given level of income. Every zipcode has the same police department. 11 companies eventually replace all 33 million, so taxes are 0 basically (pay is adjusted to make up for it, though there is no private sector, as we're One Family of Immortals, we own the 11 companies), nobody files anything. Because corrupt cops steal money from traffic stops and plant drugs in cars of people, harass people with injuries, and yet, these gangsters in cop clothes, are not given lifetime labor or death penalty for such violence against the guy with stab wounds. We need to implement death penalty or lifetime labor for all police violence too, not just slaps and punches by civilians. The murderous scumbag didn't get penalized at all, not required to pay 1 million even out of his money to the 0 Violent Crime in 3 years fund. The criminality of the US policing system is unbelievable: some cops try to have sex with minors too. That's why we need a single police department for all USA with much tighter tests for becoming a cop. Check out ☺abysmal IQ☺ cops causing paralysis of a man, requiring lifetime care and huge drain of national resources, by brute force. This is due to decentralization and the existence of 18000 police departments, instead of only 1, much more efficient, much better with real kind people, and 0

animals calling themselves human. We got 200 million utility poles, 300 million vehicles, each gets 4 cameras at least in the 4 directions on the outside, cars get 4 inside too, that's 3.2 billion cameras. Add all residential buildings getting 10 cameras, so 1 billion cameras, plus commercial buildings 200 cameras each (see all areas on the out/inside), so 4 billion, for a total of 8 billion. All road barriers, train containers, subways, trees, 50 million road signs, 1 billion, for 9 billion (most wired to reduce RF) installed in the first 2 weeks of the state of emergency. We add 300 billion trees, 5-15 cameras per tree depending on size, 2 billion bushes units that can receive 10 cameras each dicreetly to monitor crime (all wired around homes, properties, stores, etc), so 2 trillion cameras in the first 2 years of the state of emergency. With 2 trillion extra cameras in another 2 years *in top secret locations, wind farms*, solar panels, *border walls, ports, ships, there would* be no need of any arrests (unless the guy in a violent altercation refuses to go (no handcuffs to avoid injuries) to a healing center, when asked gently, to calm down and sleep there until the evidence is shown for his crime) and millions of injuries during these brutal arrests. For traffic accidents with violent drivers, they need to be very gentle with the guys and handcuff people in front to make breathing easier, no slamming, to prevent 100s of deaths due to rough handling that causes via stress of arrest, shock and despair a high heart rate and infarct that kills the person later. For nonviolent drivers with 0 violent crime history, they can be kindly driven to a healing center or asked to report to it next day, since all cars that don't go home can be stopped via the universal car stop system, if he doesn't go home first, then to healing center after a good sleep to prevent cardiac death from the shock of arrest (can happen due to asthma, etc). The pain of the handcuffs prevents good breathing too and heart rate can rise fast, leading to infarct, stroke, death. Thus, only those resisting arrest need be cuffed in the back. With 4 trillion cameras and 5 on each car interior/exterior and each home, etc, nobody can flee.

Fines and education the only penalty, no arrests, no jail, unless a violent crime against other humans and suspect not reporting to the cop station to be sent to lifetime labor city of healing. Check out how brutal these cops were, causing severe injury in a guy (blood came out and amputation happened) due to a simple remark that made cops decide to arrest him. The training is catastrophic, nobody should be slammed on concrete by cops. This is due to celebrities and actors, infernal demons and brothers of Satan who create music to incite all to violence against police, to resisting going to a healing center, to lawlessness, which causes cops to want to use force to handcuff people, etc, which in a civilized world is not needed. Funny how they arrest or even shoot innocent (not the suspect) people, but none of the celebrities who commit genocide by their music, causing millions of such incidents in USA alone. Where is the justice folks? The murderous singers live in palaces after they kill thousands indirectly. Is that justice? A guy is abused, he falls during transport, leading to the amputation of his 2 legs. The criminal US government is too busy making 8 million parasites rich and building palaces for them, to care

about homeless, so instead of ensuring a decent shelter for all, even the 0.6 million homeless while 15 million empty housing units exist, they amputate people due to police mistakes. Looks like nothing has changed since the slave owner Brits founded USA in 1776. Cops want to force guy out of the car, without allowing him to use his wheelchair, breaking his back, even if he says he needs help due to being paraplegic. Strangest thing is a black officer pulls the black paraplegic. Oddly, these cops, who commit what is attempted murder, which any violent throwing and pulling like this for paraplegic would be, get no real punishment. They don't get lifetime labor for violent crime. First of all, cops know who the person is usually, if they got a wheelchair or not, via police files for a car, so it's strange they slam people like that. Watch the cruelty of 3 cops assaulting a disabled guy who did nothing wrong. Watch this video where the 18000 police departments have no unified AI checking of records of the alleged "victim" who makes false police report to try arrest a guy in a wheelchair. If they would have checked the database automatically, his drivers license, car tag, etc they would have known he has been in a wheelchair for 25 years automatically, that she made a false police report before and stole stuff, etc and that a guy in a wheelchair can't kick a door up the stairs, chase a woman, choke her. The youtube comments indicate the complete failure of following a set of standard procedures or steps, like AI check, to make sure the AI gives them the exact info about the case before they even call the guy to the police. How can these cops be so ☺abysmal IQ☺ and the woman not be fined 90000$ at least for this incident leading to injuries to the wheelchair guy? Wait, they get paid 2 times more than scientists often, and retire at 55, great benefits, for aresting people without any evidence, as in this other video of another crazy woman making a false police report. Oddly, the penalty for these things is often 0 cents, not even 1 dollar. Cops and the public believe anything women say, watch another lady lie like a demon. They forget 20% of violent crimes are done by women, so women can lie too, just like men can. In most cases CCTV videos save men from false reports by demonic women, so that's why we need 4 trillion cameras. Also, we need suspects to be behind some bars in the interrogation room and searched by metal detectors, since many suspects injure and kill cops during interrogation.☺☺☺☺☺☺☺

With cameras inside cars, the AI detects when a violent crime is committed, and this stops the car slowly (AI takes over the car control, pulls on the side), flashes the Violent Crime Car Locator (safest frequency found by science) and lights of the car☺☺☺, the cameras on poles and trees detect violent crime light patterns and alert nearest police drone or car, helicopter to come and see what is going on, guy jailed for life in healing center for slapping the spouse/kid, the drone downloads the video that triggered the alarm, even if car is not connected in real time to the Immortality *Nurturing* Agency (national police department) due to driver microwave sensitivity or health reasons. See, even without connected cars, we can create the most advanced system to prevent crime, since 0 violence is the start of real civilization. All cars required to install this

radar, light and camera system. This prevents criminals from taking a person to a forest to torture/kill them, from doing any abduction of any person, even if using his own car that he could start by the eterni phrase and biometric activation of car owner credentials and scanning for criminal intent and tiredness when reading the ethics sentence before car start. We want to avoid giving people cancer with radars of 33 GHz or other traffic lights radars used everywhere, even to turn light red for speeding cars (EU uses it) to prevent accidents. For example ambulance, fire, cops use 433 or 434 MHz to turn traffic lights green, wireless sync (2.4/5 GHz of the WiFi (brain damage) or VHF 0.03-0.3 GHz, UHF .3-3 GHz) hence when you drive in cities, RF meters go off charts to 30 mW/m2, wired radars 5.8 GHz, IR Strobes (10 or 14 Hz), cop radio 806-824, 851-869 MHz. All cars need to have maps memorized to recognize roads from the AI cameras on the car exterior, indicate speed limit from the map, set car speed automatically ≤ limit, to prevent cancer via too many radar RF microwaves or from having the car connected. This prevents criminals and regular folks from causing high speed car crashes or police chases that injure/kill endless people. All old cars can get the 4 cameras and AI and speed limiter and save endless lives (see one drunk driver chased by police, still going fast after police ended the chase and killing 4, injuring 13, all due to the primitive system of policing we got: police needs to be able to remotely control any car from behind during a chase, to slow speed gradually, park it and override any manual driver commands to prevent any such accidents that kill millions). The AI needs to stop cars when a school bus stops with flashing lights, so we don't have to recall. All cars will have a button to turn off RF/WiFi/cell 100% to fight cancer, so RF is only turned on when needed for a call. We can't allow RF to cause 50000 new forms of cancer to emerge, plus autoimmune, dementia. ☺☺☺☺☺☺☺

The 4 trillion cameras will reduce crime 100 fold fast by the very knowledge they exist and even more once cops monitor and take preventive actions, showing that everything is known. There ought to be no secrets when all try to help all live to a trillion, the privacy advocates are aristocrats who don't want the workers to see how the aristocrats chain and enslave the masses. As one Nation and Family of Immortals, max salary can be 2-3 times the minimum salary initially. ☺☺☺ No cops ought to be able to turn off cameras on their uniform either, just like civilians in cars. AI detects turn off and sends drones to arrest officer, after the universal system stops the car. Any cop car has a sensor to detect camera off or blocked by cop, though all cops/civilians have 4 cameras inside that can't be turned off without police arresting the person soon via drones and automatic car shutoff. Because Life is more important than "privacy of aristocrats, gangsters and thugs". Immortality *for* AAALLLLL.☺☺☺☺☺☺☺ Violent crime leads to wars, which can end all humans within 5 years via the 2 capsule scenario of weapons 1 million times scarier than thermonuclear war. Thus, only goofballs place their "☺puppy IQ self☺" privacy, above the interrest of the human species to survive, 1 person above 8 billion is insanity.

Honestly, do you think the Milky Way Sized Immortals are really worried about our abysmal IQ bacteria car conversation, we're a nanosecond lived particle to them, one of quadrillions on a grain of sand called Earth. Why do some think their self so much more important than ending the genocide of millions of victims of violent crime? *Isn't that a super diabolical ego the size of Satan himself?* People will have the freedom to turn off RF, as it causes cancer, but the thing is 4 Buttons Will Exist in each car, that once pressed, stops the car fast by AI taking over and *car will never start until police* comes with the drone, reviews video of incident and talks to the victim who pressed the "Violent Crime" button (on the car door) due to a violent crime being committed by someone inside or outside of the car (attacking the car passengers, while driving, that the road or other cameras missed). This way, any car is a fortress against crime, as We need Real (not just reported one) Violent Crime to go down a trillion fold to create Eternal Universal Peace that lasts trillions of years. However, since not all press buttons, cameras are needed, so psycho parents, teachers, bus drivers, friends, folks, etc can be removed from society forever (healing city lifetime labor) or until All Violent Crime is 0 for 5 years in the entire USA. All these measures will act as Nuclear Weapons Like Deterrent of "Mutually Assured Destruction" of the person daring to hit anyone in the slightest way, the final lifetime labor away from all family, all contact forbidden for life as a DETERRENT MECHANISM for Animals to not hit any relative or human. All citizens should gladly sentence to Lifetime labor all Violent Thugs, be them parent, spouse or kid, by ethically pressing the car button, so the slappers live with slappers and hitters for the rest of their lives, unable to take advantage of suckers who tolerate their terror and violence. The immortalists will find a perfect new parent, teacher or kid, spouse or friend for the victim of the violence. Violence in any form leads to star wars and is thus the ultimate genocide and Hitler like behavior to even slap a person. After 15 years of thousands of ethics hours and help, no human should hit any human. If violence is severe, then death penalty ought to be implemented, as a deterrent for the evil ones who dare to do anything after this State of Emergency to Humanize all Animals, millions who roam US roads daily. The 20 hours ethics on TV-radio in the first 6 months of the state of emergency will do everything possible to turn these animals into humans, so as to enable the next years of 16 hrs and then 10 hrs of ethics daily to create a civil society of behaved folks smart enough to avoid Death Penalty. Media will remove violent movies, music, scriptures, to avoid desensitizing all to violence that now is normalized by trillions of youtubes, movies, songs. The cameras inside and outside the cars need to be a special tech to prevent their damage, like encapsulated in the strongest alloy known to military science that no normal object can destroy, so when the drone arrives, it will have the intact video of the entire time of the crime, with batteries to still record the removal and other events until drone lands nearby, in case the whole car part is removed by superhuman feats of the thug.

Alcohol drinkers shouldn't be cops (80% of inmates abuse alcohol/drugs), be them former or

present drinkers. Studies show ω3 pills lower inmate aggression by 30%, and alcohol lowers brain ω3. If malnourished cops/folks take drugs and alcohol that lower brain ω3, they will be 10 times more violent during police stops as a cop than well nourished high ω3 cops who drank last weekend. Due to having 18,000 police departments, ethics is poor in many and cops behave like Gestapo and NKVD, with revenge beatings on people who made cops look bad, cops picking up a fight with one person they found at a bar or remotely suggested to go to a bar to drink and then behave wildly, so the cops have a reason to beat her. Some cops act like private sector people, who move to work for the redundant city/state gov to analyze 10 times fewer samples and far cleaner samples that require far less instrument maintanance work, because you get huge city benefits for retiring at 55, etc. They don't become cops due to being the most qualified, but simply because of perks, check out wrongful arrest due to confusing hibiscus with weed. Instead of America's cops doing hunger strike to end all alcohol sales, they suggest via undercover cops to people to go for a drinks session at a bar, so they can beat them. This KGB style genocide means half of cops are brain damaged due to alcohol they drunk in their first few decades of life too, further increasing their aggression as shown in the alcohol section. The idea to arrest people and cause endless injuries and 4 million settlement is insane.☺☺☺ They shouldn't arrest anyone eventually, especially for nonviolent crime, but email them the crime they committed and leave an AI voice message about it, with fine and classes to be taken or call to show up at the police for lifetime labor for violent crime. Cops who commit violent crimes, like this worthy of death penalty cop dragging a teen out of a car aren't even fined 150000$, that in the future would be given to the abused person: total lawlessness rules in USA due to 18000 police departments and any ☺puppy IQ workers☺ becoming cops. Nobody doing violent crimes receives any big penalty, except for murder. Cops know this, so they're 1 million times more violent than in a society with tougher laws. All cars need to have 4 cameras, front, back, left, right and inside the car so criminal cops who turn off cameras or pretend they didn't know it didn't turn on, can be executed for violent crimes done for simple stops over speeding and other junk, like the lady could not find her ID and registration in 30 sec. Only when these animals receive death penalty will they stop from being like Hitler. They need to be tough on all violent criminals to bring violent crime down, including cops. This is exactly like NKVD killing 15 million. What kind of demon would not have any understanding that someone may have moved, have a big mess in the car, slept badly due to a barking dog or crazy neighbor party, etc and could not find her ID/registration in 30 seconds? Such scum of the Earth are found in every demonic state of USA, violently dragging people out of car within seconds of ID requests, causing endless injuries. USA is a Terror police State. These violent draggings out for ☺abysmal IQ☺ reasons can cause death by stroke, shock or heart attack and are attempted murder. Nobody ought to be arrested or stopped for traffic violation, since they get message or max speed is the speed limit by federal law when not passing, by installing proper central communication (see below about

the unified traffic system, electronic tickets). Any speeding, car AI notifies the driver, Immortality *Nurturing* Agency sends text to all people registered to drive the car that the light is not working, they're speeding, without any need of drama, injuries, infernal cruelty like Washington treating humans like dogs. We need one police department, due to local cops having abysmal IQ: 20000 cities playing President and setting rules is inefficient and downright wasteful, if we'll live on 4 million planets. We grow up, start acting like one US family, one cop department.☺☺☺☺☺☺☺

Without one national police department, Immortality *Nurturing* Agency, well designed and thought out, we have a need for 5 times more cops, due to inefficiency and then they hire the lowest IQ most violent trash. So, before people protest centralization, let's THINK, and realize what GENOCIDE (via police brutality) decentralization DOES via inefficiency. With wired cameras in every area of a house or building, outside, inside, that can be retrieved after a crime happens, every telephone pole, etc, nobody can do anything without being seen, so all crime stops, but Zion Elders want TERROR not the end of violent crime. To enter a home, one has to use the Universal Immortality ID card with the code for that house and also pass the video biometrics for facial recognition for that home, to ensure higher security, essentially any stranger around a door alerts the owner and police, unless it's the mailman AI detects or a delivery driver from eterni.i (universal online shopping for all 11 companies) for the stuff you ordered online, food or whatever. Wired is 1000 times safer, so no foreign or local criminal hackers can hack wireless cameras from 9000 miles away to discover routines of crime targets, feed their AI, gather intelligence. All cop cameras need to be on all the time, cops should never be able to turn them off. If they go off, then the department sends a new camera instantly, by dispath of a car or calling someone back to station. All houses and buildings, built and maintained by Immortality Building Inc come with pre-installed wired cameras to deter 100.000% of burglaries, ultra visible and high cameras, 10 of them per house at least. Have *you ever* seen a President talking about *0 violent crime* in 3 years? A video shows more people dying due to cop errors and one cop dying due to heart failure during an incident of police brutality against a guy who didn't even understand English well. Check out cops shoot a drunk pest control guy for moving slightly to the right, while being drunk. How can cops be so abysmal IQ☺? Lack of training. Poorly trained cruel cops restrained a guy so badly, they killed him. ☺Snail IQ☺ filif folks propose having 50 states and 18,000 police departments. Guy called 911 in a prank call that led to a stranger being shot dead by abysmal IQ cops. How did the nation change its procedures after this? You can't change 18,000 departments, but one national one you can change in 2 minutes. That's the advantage of centralization, change happens 18,000 times faster, so gnat IQ☺☺ mistakes never happen again via new smarter policies. Silly cop kills unarmed man. Genocidal cops beat the hell out of a college intern who was 'believed to be someone else' (they didn't verify any ID, etc). Talk about Nazism: walk on a campus and get beaten to death because USA is a country ruled by genocidal

aristocrats who have no interest in 0 violent crime or 0 police violence. Dogs are smarter than American cops many times: cops got a 911 call about domestic violence, without asking who attacked the lady (it was Angela, her lover) and when cops got there they saw a guy nearby and shot him dead, even if he had nothing to do with the domestic violence. This is more like a staged Nazi killing disguised as cop mistake. Is USA a police state that uses phony "cop mistakes" to do extrajudicial killings? In the UK, cops carry no guns. US cops kill endless people, due to every civilian having guns too. Cop planted drugs in 12 cars during traffic stops in order to jail innocent folks: got no death penalty or lifetime labor, only 12.5 years in jail. That's why 5000 cops do the same thing: cops plant drugs in cars they "search". USA may need fire 50-80% of cops due to issues like this, besides violence, until the better ones are trained well.

Cops went to the wrong house and killed the resident. Cop chased the wrong person and pushed him, sending him into a coma. This is genocide by actors, singers who incite all to aggression. It's genocide by NRA who gives guns to all. It's genocide by Republicans supporting NRA, aided by Demon-crats who open the borders for all gangsters with guns to come in too. No civilized nation needs guns in the age of nuclear and other weapons. No civilized nation has open borders for all thugs to come in. No civilized nation allows so much violence on TV and allows people to run out of money to pay for shelter, clothing, food like the genocidal Republicans/Democrats do with the unemployment system and people having to switch jobs all the time an aristocrat's greed dictates it, sometimes have 50 addresses and 50 jobs, 3 part time jobs at a time, to make the bills come out.., while the evil aristocrats like in the same palace built on GENOCIDE. The murderous Congress doesn't ensure all have a job at the 11 companies and that a portion of one's salary is only usable for food, another for shelter, another for health, to prevent the issue with people DOING VIOLENT crimes to get money to survive, due to running out of cash spent on drugs, alcohol, etc, since they didn't manage to get a job yet, the aristocrat murderers didn't hire them and begging didn't work well. All alcohol places need to disappear too, as they fuel violence, drunk or semi-drunk people commit half the violent crimes. You look at many cases of murders (some done by those forced by the Big Aristocrats to be small business owners who fail to make a profit) and you see money is at the center, not just anger or some complaint about fumes, noise or something a neighbor does (biting kids with a dog, etc). Since some people are low in IQ, they can't manage finances and then crisis appears, they will betray USA, kill people by drug dealing or whatever, violence erupts. The guilt is 99% on the aristocrats who intentionally create the system like that to give aristocrats an imperial lifestyle at the expense of societal chaos they never care about, since the slaves live in other cities, away from the gated estates and posh neighborhoods of the masters of eternal genocides on Earth. That is why the only solution is the third party to replace these monsters who're mere puppets of the rich. The filif panda IQ☺☺☺ guys say we need "free market", there is no free market, it's all a scam

controlled by the rich. The prices and salaries need to have similar inflation or we get Eternal Pricing, salaries. Without that, murders will happen, as low IQ folks will run out of moeny and the criminals in charge of the nation will let inflation for food, shelter go out of control. We need price controls, to ensure nobody runs out of money for food, shelter, basic expenses. If all get free house once 18, then obviously, there is no mortgage, as explained in the housing section.

In other videos cops shoot the tires of a car and hit other passengers who did nothing wrong. This is why we need to dissolve all 50 states and 18000 police departments and merge them into one. Efficiency brings far less violence. The cops need a national system where nobody is stopped for small traffic violations, but given a ticket once they get home and an over the air notification while driving, via the national emergency takeover of any car's audio system, that they got a ticket and will need pay a fine when home, and to drive safe (see below). All these useless arrests creating drama and such for people who did a traffic mistake are terror like KGB/Hitler. The escalation, injuries, etc that come out of this system are wasting so much time, instead of going after violent crime, they waste endless hours to arrest people who "didn't give them the ID or something fast enough", 'obstructing' the cruel cops who then slam them against concrete or car and cause lifelong disability. Many died of heart attack too during arrests, which make no sense, unless there is a violent crime and suspect won't peacefully go into the cop car: putting handcuffs is often times leading to endless injuries, falls, lifelong disabilities that arrests need to become illegal, handcuffs too, unless someone was attacked. With 10 hours of ethics on TV, nobody would dare throw a fit with cops, when 5 trillion cameras record all streets. All cars need to have cameras to read speed limit signs and disable any car's ability to drive more than speed limit, unless one is passing and even then only a certain amount. That way, all these endless dramas about speed turning into arrests would be avoided. No kindness, only brute force. No surprise, just read the microwave, and other forms of torture. This is nothing short of genocide in the name of policing. How is US so much better than Nazi Germany or Stalin's NKVD? ☺☺☺ Many cops waste eons with non-violent crime arrests, 'obstructing the ego of a cop', while violent criminals are free, as nobody reports it, as nobody trusts cops or the government who caters to aristocrats creating 1.4 trillion useless businesses instead of 0 violent crime, the gov allowing all violent criminals to enter via borders to subjugate migrants. We had criminals in charge of USA who didn't have any efficiency/priority to end violent crime first. Of course, rich bastards live with private security, and palaces, gates, estates, they don't care.

In 2021, US police shot 995 people vs 2 in the UK, or *100* times *more* *per* capita, due to the fact *USA is more of a third world "dumpster"*, where every violent insane guy has a gun and as such cops need guns, since every toad IQ primate has a dog too, a very dangerous dog that can often only be stopped fast via a gun before it kills a senior or kid. USA needs huge reforms to be able to have police without guns like UK, Norway, Iceland, New Zealand, Botswana, Malawi, Bhutan,

Fiji and a few tiny island nations. USA is bragging about being the leader of the world, and it truly is, in terms of police violence. The FBI, CIA, etc are engaged in an all out genocidal war against various groups, via the music, film, industries designed to turn decent people into violent criminals easy to shoot. Demon-crats have protected so many dangerous animals, that it is hard to kill lions, bears, etc with a 'taser', so huge reforms are needed and mass extermination of deadly animals, before we can remove guns in USA from cops, it's just not easy without removing guns from the worst 10% too. We need to ban all violent dogs known to kill or severely injure people, that's about 25% of dogs needing to be replaced and donated. Anyone who proposes removing guns in US police without other reforms is inviting total chaos. US is not Singapore where gun homicide rate is 300 times lower (and gun ownership is 300 times lower too), it's a totally different culture with a lot more violent lyrics designed for genocide. These numbers, *100 times more people killed, are an indication of* US military *values*. That's why immortalists will replace FBI-CIA with Immortality *Nurturing* Agency, War Dept with Eternium.

With one police department, you can send cops to any city where they're needed. Today, in some departments they act busy and waste time, in others, they work 3 times harder and deal with 90 times more violent crime. This is criminal, since the city with 50 times more violent crime may be low on funds too, and then the guy having fun gets paid twice as the guy with 60000 times the chance of being shot. This is genocide. We're one nation, efficient, discovering ways to reduce injuries 5 trillion fold, reduce arrests 1 billion fold, violent crime 1 trillion fold, etc, we make that the priority and we do it. It's pathetic to have 18000 different police departments, and each sets up rules, making instant transfer hard and dealing with violent crime 100 times slower. Same crap happens in 1000 other industries, we got thousands of trash companies, when with merger, they would produce way better products, with 5 million PhDs in a company, not 2. ☺☺☺ This is why all citizens need support trillions of cameras in each nation. Everyone who steals, or commits some traffic speeding, etc can get a nice video with his crime recorded, via his email, phone link, etc and is invited to pay fine online, enroll in class to avoid fights, handcuffing, injuries from that handcuffing. Not to mention, *in a decent society, handcuffs would have a very soft rubber or cushion material to avoid damage to the blood vessels, since cops don't even know if the person arrested really did anything wrong sometimes*, arresting the wrong guy as we have seen it happen many times with cops going to the wrong house and injuring with cuffs innocent people, or with throwing them around as the guy is shocked by them arresting him. Watch how Bongiovanni Mike (Italian last name, friend of Roman Emperor who crucified 6000 slaves in one day?), punched a complying driver for recording the cop, called code 29 (fight he initiated) and then got no jail time. The second cop was fired next day for kicking the driver in cuffs after code 4. Both cops need lifetime labor (or death penalty) to deter such cop behavior. Yet these scumbags got only "probation" and bar from being a cop in Georgia.

GENOCIDE. That's why Georgia, or any state, has no right to be a state, it's run by clowns. One cop department for the whole USA is needed, to end the millions of violent crimes during traffic stops. Cops routinely lie in police reports to justify many arrests in order to get raises based on torture, terror and false arrests of people who did not drink. This is silly, we need to ban alcohol. Many cops are pathological liars who claim a person resisted arrest (when video shows he threw a girl on the ground for not finding her license/reg instantly, arresting her in 5 seconds without any resistance – another genocidal behavior shown above for which he got no lifetime labor). The criminality of cops in the US/and worldwide is so high, that the Immortality *Nurturing* Agency needs to install 5 secret cameras on the inside, 5 on outside of every cop car, 5 on cop uniform, whose videos can be retrieved later as needed, without cops knowing, to determine why cops turned off collar cameras (to hide?) and the have 10-90% cops fired if they violate the new rules of the unified national Only Police Department, the Immortality *Nurturing* Agency. When trillions of cameras exist, no cop can lie in reports and such, they need to know that. We clean up USA of bad cops in 4 years with such a system. These hidden cameras are not WiFi, they're not connected, otherwise, they can be found easily. Always on and for later retrieval when an investigation of cop conduct is made. All officers interactions need to be taped by official camera to make sure nobody tells lies, civilians or cops. Cops, who're meant to be the most honest, are lying all the time in some cop departments, it's a national catastrophe.

~*~ URGENT: All arrests need to be done while playing on megaphone a soothing calming melody of the immortalist tone singing of the Immortalist Anthem 8-40 lyrics of the Call to be a Trillion times more gentle tender soft nurturing healing graceful loving kind compassionate than the most loving mom last decade. The officers need to handle each arrestee as they would their pregnant wife giving birth. They must be like the *nurturing* healing *gentle tender soft loving kind* compassionate Immortals of Chapter 2. Lines 8-40 this will be played on TV 100 times a day, during the 20hrs/day ethics education during the first years of the State of Emergency to bring Violent Crime to 0. ~*~ Let all nations hear God has taken over USA. These lyrics remind the cops and the people they interact with of their citizen duty to be kind to each other. Cops need to deescalate, so the music is used to do that, with prerecordings, as explained later below. There will be 100 times fewer arrests, since all cars/poles/homes record via the 50 trillion cameras every traffic/street/entrance door event from 99-8000 vantage points and there is no more time wasted with courts, lies and pretending. The facts are clear for all to see. No cop will dare hit anyone. Everyone will lies 100 times less, as fines for lies will increase 9000 times. Every street will have the Qualities written on poles, placards: honesty, Immortality *for* All Grace Bliss Gentleness Tenderness Compassion Nurturing Kindness Humility Serenity Magnanimity, Diplomacy, Softness, Healing Tact, Acceptance, Fluid intelligence, Adaptability, Patience. With 1000 times more education on TV, in ethics of Immortalism, we have 1000 times fewer arrests.

We focus on preventing crime, not reacting to crime after it hapepned. We take over the media.

Today, youtube and online websites have billions of movies and articles about how to defend yourself from an attacker, how you twist their hands and "teach them a lesson", often replying to a threat with an injury far worse than the threat (this teaches subtly police violence and people escalating and getting into a fight with cops). Everything is about violence against threat or violence against violence, the responses that simply never end any crime in the long run, which helps the aristoc-rat-ic vampires to maintain their palaces and 400-50000 acres ranches. The tone of these "rulers of USA for 500 years" is very similar to Chapter 28 tone of British Parliament laws to beat until blood comes out, mutilate and kill slaves (99.9% of UK, everyone who is not the top 200 aristocratic families) unfortunate enough to find a job that the imperial pigs could not provide by the 11 companies model, the same tone of mass murder of blowing non-Brits by gun. These alleged representative of God's blessings or divine law of eternal beatings and violence, or Bible as they call it, phony spreaders of the cults of Islam, Christianity, Judaism (beatings deified in the Bible/Torah (kids, workers, sex slaves) or Quran (sex slaves, mutilated infidels, kids, wives), simply perpetuate the status quo of violent crime being 50 billion times higher than it would be in an immortalist state of fairness, kindness and compassion. Ironically, we can't find anywhere some "former CIA officer with a 300 acres ranch" who teaches how to use gentle healing music, breathing, divine ecstasy state to induce others into a compassionate state and deflect a threat or scary situation where someone attacked you: no nonviolent methods are presented, even if Chapter 6.6. on the immortalist soldier shows 0.01% of such methods as a guide to the immortalist cop. Why would they think about it? They can't, since they behave like robots trained to be quick and disarm someone etc. Nobody gives a thought and makes 1 billion youtubes on to how to end the bad movies, literature, music lyrics and tones, educational tones that create these "violent" criminals, simple slaves brainwashed by the aristoc-rat-ic super infinitely more violent criminals who conveniently, never get jailed for stealing trillions of dollars from the masses and the state. On the contrary, watching the self-defense experts, everyone buys more guns, pepper sprays stun guns, tasers, etc, knifes, clubs, etc, while becoming more and more of a monster, a slave of the diabolical aristocrats brainwashing everyone to fight the other members of the worker class, instead of the aristoc-rat criminals creating 50000 educational systems, 4000 denominations and endless divisions on politics and etc to subjugate the masses. The more you watch these "cops", the faster you become a psychopath, a violent thug who has no qualms about injuring others who may just have been a victim of aristocrat brainwashing. Instead of focusing on having 0 violent crime by the 11 companies and one education and schooling system for all (what is there to steal, when all have similar incomes? Theft will decrease very fast when fine is 9000 times the amount stolen too), 0 violent crime by the *nurturing* healing *gentle tender soft loving kind* compassion tone and

values, we're being brainwashed to fear enemies and to fight, by the same aristocrats who use fear to enslave every American and citizen worldwide. ☺☺☺

When Russia took over Siberia, they organized false flag events to scare people about some fictional enemy, and then posed to offer protection, in exchange for fur that was an expensive resource they wanted. The same tactic is used by aristocratic regimes worldwide today to get wanted resources cheaply and by the British and other aristocrats within USA today: they create the enemy, the gangs (like all terror groups used to justify invasions, gangs are created covertly *by the government to* subjugate various groups and generally to enslave everyone in fear-terror) and then they teach people self-defense against the criminals they create by the criminal system of 50000 times salary for criminals at the top with 5000 acres ranch or island. Blacks came to USA as slaves without any knowledge and education, mere peasants centuries behind the British, and were infinitely easy to dupe and manipulate in every way, into creating various gangs etc so that the British can keep the blacks enslaved. The faster gang members realize they're all victims of British and other imperial social engineering, the faster gangs end and we bring democracy worldwide. Who needs self-defense if everyone gets the education to become a gentle tender soft angel, via education.gov? With immortalism, everyone becomes 1 billion times gentler, even our music too, so the worst thing that happens eventually is a slap once a decade, leading to one death penalty. All violent crime ceases in 1 year or two, since every slap brings death penalty. There is no need of jails and fights, self-defense and any of this banditry on youtube, Hollywood movies, cinemas and literature. By brainwashing everyone to fight and arm themselves to the teeth, they justify endless federal agencies to spy and jail everyone for the smallest infraction (instead of talking all day about ending all jails like immortalists do) and end up enslaving everyone, while keeping violent crime 50 billion times higher than it would be in an immortalist state. Don't fall for this crap, we need unite ourselves in the immortalist vibe of one nation, one family of *nurturing* healing *gentle tender soft loving kind* compassionate Immortals (souls are immortals if you want to be poetic) to be (some day), not in buying guns, etc to kick, injure humans and degrade the human quantum field. The devil comes as an angel of light, he talks of God bless you, but teaches you how to be a vile satanist in reality, one who replies with higher violence to a threat, one incapable to even discuss about making your car painted in nice colorful "*nurturing* healing *gentle tender soft loving kind* compassion" or having 30 devices on or inside the car or yourself to create the most healing music and, brainwaves or immortalist greeting that make everyone reach ecstatic nirvana and not want to harm anyone, a music that makes the most vile brutes become compassionate. Why study that in police academies from hell and *infernal* military colleges, if all they can do is be devils claiming to be angelic defenders of the "faith of hell". Notice how these depraved rats never say in one out of 50 billion of their evil videos that you could even create such music and devices and put them on your car to

defend nonviolently, against the criminals they created on purpose to loot and subjugate every citizen of this planet. Who do you think created all gangs? The rich, they got brain control tech to make everyone do odd things incrementally until they program them. Take the media from the rich and in record time, with 20 hours daily of immortalist tone and education during the state of emergency, we change the brainwaves, emotions of most brutes into angelic emotions and bring tranquility very fast, like never before. The cops need to be revolutionaries, a little like the fans of the American Revolution of 1776. Nobody needs guns when everyone has a job, no rich to steal from exist, everyone is loved by the government. Our criminal government doesn't give people even the most basic needs: a decent eterni tone education, a decent single family house, a decent diet, a decent job. No unemployed exist in the 11 companies model of universal family of immortalism for all universal humanity. With proper education on happiness, everyone views sex or rape as undesired pain or draining ultra boring activity nobody is interested in, except for pro-creation between parents wanting to raise a child together.☺☺☺

The police immortalist test would focus on prevention and elimination of crime and the building of Immortal Civilization Character and Values, like with doctors preventing disease, instead of so much intervention. The immortalist cop is proactive, preventive, not reactive. 99% of his job is done by the immortalist culture reforms of the virtuous government of immortalists. No cop can donate alcohol gifts, nor use weed, alcohol or cigarettes. See a youtube channel that shows why we need fire endless cops, state, city, village government employees who smoke or drink or who have done that for more than 1 month in their life, since there are many bad cops. Alcohol and smoking are markers for criminal parents and damaged brain. The entire government (because all local state government is dissolved, retrained if a person is allowed to remain, as taxes go to 0 and states disappear as separate entities) needs to be made of militant immortalists, health freaks and ultra sober people. In Australia's style, we fine any sellers of cigs or alcohol millions of dollars before the state of emergency to bring Eternal World Peace fast. No cop agency is independent, all are branches of the federal Immortality *Nurturing* Agency, the only policing agency and police department in the nation, One for All, All for One, to keep it simple and efficient, maybe eventually 11 companies and 3 agencies only one day not 33 million today, not 900000 companies doing bad real estate, not 20000 police departments, but One Immortality Building Inc with houses sold/bought in 2 days and single family housing for all, One Police Department for the entire USA: the end of inefficiency looms, as all police cars look the same (way way nicer, more beautiful than today) with the happy blissful | Immortality *for* All | on all of them: "May all live to a trillion"☺☺☺ Years on all cars, ultra colorful too. Today, the criminal aristocratic terror government and the brainwashed Demon-crats and Re-pub-licans setup 20000 police departments and 20000 crime report forms, some of which take 10 times longer to fill out than it should take. In centralism, you enter your one and only ID, the Universal One and Only

Bank Card (ending all parasites) with your picture that acts as drivers license for all states and as ID for all needed IDs everywhere, and fill out the report at crime.gov. If you're new in town, state and you don't have on your browser all your phone, email, address saved etc you have to enter so much info, that it takes so long, that a tired person who was just punched may give up. Same for the slow phone prompts, they make it hard to report crime in seconds, with one ID number, a check mark for violent crimes (take priority) and a brief description. Everyone is housed, so ID indicates house, email, phone, etc on records, and the records are 100% up to date, not like today: they're instantly updated when moving to a new house or rental if living 3 month job contract outside of house. A guy is tired, postpones reporting by one, two and 3 days, sometimes even weeks before recalling to do it and by that time, the guy who planted a quantum weapon that kills all humans on Earth or a given continent fled the nation to the enemy underground capsule. So, the spies leave without a trace and nobody can find them. Tips.fbi.gov takes 90 times longer than it should to report a spy. ☺☺☺

Cameras give all speed tickets, and other tickets, so no need of traffic cops that much anymore, wasting time sitting in cars to give tickets to those speeding; in fact, since 2024, all EU cars come with speed limiters that notify drivers they're going above the speed limit. The human ticketing system is simply outdated: in France for example, anyone going over speed limit gets tickets via cameras, in USA, everyone goes 10-15 miles above speed limit and doesn't get tickets for 10 years. Instead of designing new logos for each of the 20000 departments, we focus on 1 billion lower violent crime by new media controls, via better housing for better sleep, quieter cities, fewer dogs (ban all police dogs to avoid needless injuries (see K9 attack cops or people who're not the suspect, since drones are way better, they can fly fast, tase the suspects, etc), ban 95% of music as it is violent by immortalist standards, nobody will attack any cop), better food of the Eterni Food Inc. We can't have cops yell, torture or beat anyone, a much better federal training is needed. When you have 20000 departments or real estate companies or companies in a given industry, they don't share one SOP (standard operating procedure) with 900 steps, checking only 10 things sometimes, since it's a small informal thing. This leads to a poor quality product or service and more problems. With all departments having the same training and *everything, it's one country, one equal* opportunity for all cops and citizens, one equal treatment of all. Policing is a federal job, it is too important to immortalists to prevent violence, to leave it to poorly funded cities. So we need to merge all police departments into one Department, Healers of the Immortality *Nurturing* Agency, to avoid needless sheriff county or cop caused deaths as this article talks about. For immortalism, the key thing is that there are trillions of ways to achieve an end (World Peace, 0 violent crime, 0 jails) without any torture, killing, yelling, violence, intimidation and threats. This concept will be the reality and the central part of all training from kindergarten to PhD in all areas of society. Likewise, in the EU, policing is a European job, as is

continental defense. The EU superstate becomes efficient at giving a trillion year lifespan to all. As a crime is done, the central and only site in USA used to buy and sell real estate, housing.gov, updates the indexes on all houses for the crime in that area, so people know what goes on. Though, that data will likely remain secret, vague, as the foreigners will know where the most important people live, in the area with the lowest crime and bomb those cities.

All cops become federal employees *and the 'police' word, so much associated with violence, can be replaced*, with either 1. healers (not cops or policemen), 2. gentimen (everything done gently) or 3. etimen (eternity men) to create a wonderful immortalism vibe. Healing Departments not Police Departments, a gentler kinder vibe. The immortality test for police would measure tone of speech, to make sure they don't habitually shout (easy to detect) or yell and they don't torture others, as the savage police, spy and military forces of 2023 often do, due to not understanding this destroys all humanity and their own nation too. Torturers have a different brain than others, that perpetuates psychopathy and terror. We want to treat the causes, not the symptoms of violence (or disease for doctors). Sometimes it can be even "tenderness serenity universal healing grace" lacking music and the habit of blasting it out loud and annoying neighbors that leads to violence. Low taxes or fees on cigarettes, alcohol, wine, beer make it impossible to fund noise blocking drywall or gypsum or sound insulating materials which would prevent so much anger and crime coming from anger. Making alcohol, smoking, weed, etc illegal and its distribution rewarded with lifetime labor, is a sure step towards reducing violent crime, since 70% of such crime if done due to alcohol and drugs. No lyric or book can ever mention alcohol, smoking or drugs, to prevent crime before it arises in the brain via suggestions psychopathic aristocrats place in books, movies and music to destroy the working class. ☺☺☺

Someone tries to sleep and the apartment complex neighbor or condo or the house next door makes so much noise, there is no way to sleep, even with earplugs, and not everyone knows about earplugs. Same in colleges, families, room walls within a house, etc, parents making noise that makes it hard for kids to study and appreciate the beauty of science instead of doing other things. Angelic Heroes that we call police guys, sacrificing their lives to maintain order in our insane world where guns for civilians are shockingly still allowed, are truly courageous brave men who will work with the lawyers and judges to create the heavenly world where prisons are no more, but only healing centers, making their jobs transform from current stressful "fear of being killed filled" ones into the more pleasant jobs of the healers of the future, over time of course, not in 2 years. Like with the lawyers, etc, the healing *nurturing* grace of Immortality and God come from a nice gentle almost whisper-like at times tone of speech as in this immortality themed youtube. But to get to some place, one needs to have the vision firmly set in one's mind and work towards it, even if obviously this is not going to happen overnight. Studies showed one can cut violence by 35+% via ω3 fatty acids (see "ω3 and behavior" section) and suicide rate by 8

times (those with low ω3, DHA, EPA in blood were found 8 times more likely to commit suicide). With earplugs, silence healing halls (see Chapter 4), nutrition to cut misdemeanors even because people who eat more anti-oxidants from fruits and veggies have less brain inflammation and are happier, gentle tender soft music, negative ions generators (see Chapter 12.10, negative ions lower anxiety and fight and flight chemicals, calm people down, make them happier, less likely to fight and overreact; mice die in 2 weeks of no ions in the air), meditation, etc to cut crime and negative emotions, the future will bring the end to all violence. We could add to that more optimistic beautiful visions of Immortal☺ America and Earth in the media, a Heavenly place that we're manifesting and can manifest really soon, radio programs of reaching to community to help everyone to work together on this future, where all civilians work for the heavenly Earth where nobody harms others and amazing & beautiful ☺☺☺ New Movies are Made about this Angelic Future, "America's Got Talent" contest could Include people who make Immortality Longevity progress stronger, "America's Got Immortality" could be a new contest. To speed up innovation, we can have 1 police department training for all police departments, so research jobs into preventing crime appear, instead of reinventing the wheel like school teachers do. With one standard and recording of police training, every cop in USA, like every kid, hears the same tone that teaches them to be kind to all beings, etc, and be peaceful, etc. One nation, one tone, eterni tone, that brings World Peace in 3 months. The tone we hear today from cops, movies, is indicative of how broken the system is, and how much the psychos at the top focus on torture and sleep deprivation and destroying the brains of subordinates, so they're mere robotic slaves doing killings for the aristocratic elites hungry for more wars among workers.

If the prison experience is much more tranquil and healing than at home, people can replicate that at home, use soft healing music, earplugs, ω3, negative ion generators (use light poles and electrical utility poles to install neg ion generators to increase neg ion concentration to cut crime), etc all these things known to make people more tranquil to help them overcome the negative emotions that got them into trouble. Maybe their place is not quiet and lack of sleep increases iritation, earplugs and gentle music would help. Maybe moving to a quieter place, if they join a program to retrofit the 17 million housing units that are empty and many uninhabitable, while half a million people are homeless and millions live in bad conditions as far as sleep, quietness level goes. The more people see a place, movies where no violence exists... the more people no longer feel the need to have guns and they work to bring God's Heaven here, instead of the reality today. So, this will be really the most wonderful manifestation of God's or Universe's (for atheists) Ascending Immortality as it transforms people. We all think about these people will live 300 or 900 years or anyway longer later, so we will help all heal, transform and become the shimmering Angelic beings of the future. ☺☺☺☺☺☺☺

There is a saying that to bring change, we need to focus on creating the new, not on fighting the

old. To change the bad situation into a good one, or bad people into good ones, there would be 2 ways: fighting the old (bad guys) using some of their methods and in the process creating some bad due to using some of their methods and making it impossible to fully replace the bad with good, passing the ball to the next generation who has to fully eliminate the bad. The other way would be creating the new culture, education, role models, movies, etc that are good and inspire all to practice conscious breathing, service to Immortality or longevity and wellbeing to all causes, contemplative prayer/meditation states of cosmic bliss maybe to replace drug highs, service to humanity and compassionate actions to eliminate suffering to bring genuine joy not found in drinking alcohol or whatever addictions exist that support the bad guys (say drug dealers). As the ethical and moral level of the civilization, of the good and neutral people increases, they help more "bad" people quit their addictions and starve the drug dealers of customers and cooperate more with the police, whose actions in emulating the saints, their tenderness, infinite compassion, kindness, tone of speech, etc win the public trust and support and cooperation to a much greater degree. Then, as the new addictions to holiness, *gentle tender soft* speech (Chapter 8.1) and meditation, prayer, service, are created, they replace the old permanently, without creating bad via side effects. So then, naturally, many will say we need to use mostly the new creation method, while others will say a mix is best or the fighting of the old. But perhaps, real R&D of this science would provide answers in the future, a lot of these things may be already known. When people have a gentler tone of speech, they're trusted more, can inspire others more, radiate focused positive emotions better, heal others better, even obtain more information from others with which they can heal others. So as more people in the village talk gently kindly, trust replaces fear and mistrust and love and compassion prevail.

If a police officer yells in a situation to a stranger who believes is the suspect (but is not) "hey come over here", the stranger may have had a traumatic childhood in which after yelling came beating or something, and then his brain misfires or moves into a state of panic, assuming "beating is coming after yelling", so he runs away and the police guy starts running after him or something and soon it ends up with an injury or death of an innocent person (stranger shot by police maybe) that could have been prevented by *gentle tender soft* speech. If a civilian uses ungentle speech, he doesn't radiate that same loving respect, kindness, one radiates if one would speak with a shimmering Immortal☺ angel materializing in front of him and naturally, people innately feel this and trust the person less. Gentle speech can help people to transform the village far faster. Police can gather more info by gentle speech as gentle speaking people are trusted more. When police raise their voice instead of using these gentle voices (due to habit of millennia of yelling to make sure people are heard in danger situations, habit no longer useful now when we have microphones that can amplify healing deescalating soft tone) they shift their signals into brain areas that share neural pathways with fight and flight response, people imitate

tone they hear (activating fight-flight neural areas more) and escalation from both sides is more likely.☺☺ For police or soldiers, repetitive hearing/using yelling (instructors) removes the ability to remain calm in all circumstances, to make better decisions in high stress situations.☺☺☺

If we have a village with 10 bad guys with guns robbing people etc, we have 2 choices in getting rid of them: 1. the traditional way of catching the bad guys: police goes with weapons 2. the Immortality Ethics or saints' way described in many stories of sages: a saint or healer (or trained in Immortality Ethics "police" of the Civilization that is on its way to 500 year lifespans) talks to 1 villager, transforms him into a "holy" man or healer, then they go together to transform a 3rd guy, then they go together as trio to transform a 4th one, etc... until all are transformed into saints/healers, gentle tender lovers of the healing way of *nurturing* soft grace and at a gathering of 200 villagers, they use telepathy, healing, saintly behavior, words, etc to transform the first bad guy (least bad maybe) in the village, and he loves the new way, the amazing & beautiful ☺☺☺ bliss experienced in meditation, prayer, no bad stuff, no gun wearing, etc... so as to enable *the Holy* Immortality *Spirit* of the Immortal☺ Lord of Ascending Immortality to fully inhabit him and heal others. Then, they organize another amazing "party" and invite another gun guy that the new healer knows, and transform him. And then they do it for the other 8 bad guys and the whole village is transformed into a village of healers who then volunteer to visit other villages to do the same as the visiting healer who has freed their village. Soon, the whole country is changed. The traditional way doesn't change the society, its movies, its literature, its habits, its educational values, its casinos, its tone of speech, it just catches bad guys, without changing the village, without changing the real cause and producer of negative emotions (lack of happy meditation, prayer states, lack of nutrition, sleep, educational emotional regulation ethics courses). So, then over time, as people move or life goes on, new bad people can pop up in the village where all bad ones were removed or another village, as the process of catching the bad guys has used some rough methods that via side effects have created some more bad and have taken police away from the time needed to change the root cause of the bad people popping up: the entire culture, education, movies, music lyrics, maybe lack of ω3, maybe poor soundproofing material, etc. Same way, a healer heals a drug addict, the drug addict heals the drug supplier, the drug suppliers get healed one by one in a small network and then they heal the big guy, and then this repeats and the whole network crumbles as *the Holy* Immortality *for* All *Spirit* of the Immortal Lord of Ascending Immortality overcomes evil, without traditional mortal civilization methods. As new "saint within" programs pop up all over the country, the TV airs out developing the qualities of a healer, of an Immortal of Infinite Compassion, Gentleness, Tenderness, Softness, Mercy, Forgiveness, Serenity, Altruism and the Virtue grows in the land, the work of the healers becomes easier, evil groups disintegrating by the Grace of God. ☺☺☺

The same artificial intelligence camera system talked about in Chapter 4 (to help one improve

habits and to detect negative emotion to prevent crime) can, when deployed in public places, alert officers on duty when a beating happens on a street at 5 am or whatever, sort of like in this video. The scene appears on the monitoring screens, the 50 LED around the screen are flashing to alert officer (and the system says "apparent beating/assault/robbery on 54th East Street") and officer goes at that screen (say watching 40 screens with suspect activities) to confirm if AI correctly identified a beating or crime, and if 10 screens flash, officers confirm if they were crimes and activate the drone system (89 mph big drone and 160 mph (256 km/h) drone) to follow the car and then start the chase, possibly with helicopters too over the highway and even, in the far future, lifting the car via levitation off the street sealed in a force field. This lowers or eliminates violent crime and allows officers to focus on subtler crimes, like big companies making a food color, flavor that kills millions of people 4 months earlier, or aluminum additive doing the same. 7 out of 10 murders solved by cameras in some places in the UK (a person can appear 300 times daily on cameras in London). "At Firthmoor in Darlington, where 11 cameras were installed on a large housing estate, a reduction of 46% in reported crime was recorded." NYC has 50K cameras, London 500K solving 6 crimes daily with their cameras. ☺

The textbook or video training for this exam would talk about things like how to make police work more lifespan extending, in every possible way: for example, today we get these sirens blasting thru cities whenever vehicles go to some place, waking people up from sleep and disturbing each day billions of people from Immortality enhancing thoughts, polluting their awareness with fight and flight, “death is inevitable or coming for someone” thoughts. Instead, since all cars will be electric and internet connected, it will be easy to only notify cars in the path of the emergency vehicle (ambulance, fire, etc), since if all cars and trucks are connected to the Immortality Traffic System, it knows a ‘siren’ vehicle comes from the right and it can notify drivers in their own cars, by overriding the sound system and the dashboard console to explain “in 25 seconds a ‘siren’ will come from the opposite lane or Happy Immortality Avenue”, etc. This system shouldn't allow any driver to enter their car unless they pass the brainwave and alertness test, to make sure driver is not too tired to be on the road, until driverless cars are 100.00% safe (centuries away, since computers break and you need endless backups for any computer that breaks); additionally, wind can roll trucks over, unless they got the new roll over feature, where driver remains on the road – this can kill people too and there is no easy solution to prevent deaths of people who live in a house or job near the place where trucks roll, or just happen to walk there or jog. When they don’t get good sleep, drivers make mistakes. Youtube 100s of videos of careless accidents – require every new driver before they get license to watch some scary ones and drive more defensively. This way, only 1% of people are polluted with ‘disease and emergency’ thoughts, creating a stronger culture of prevention and longevity. With many lights, like Christmas and taller above these emergency vehicles or around them, the

vehicles can be made more visible in case computer chips or sound systems inside cars don't work and console is dead, so the need to blast sound would not be there. The 'smog check' would be replaced by the 'Immortality check', to see if sound, console, inside vehicle lights that flash when a 'siren' is approaching are working well, and the 'low EMF' of the internet connection system, be it WiFi, LiFi, is a reality. With this system, all cars being connected, there is no need to chase after a suspect, because the cameras and car connection would let cops peacefully catch the person to send to a healing center later. Car chasing is risky, damages other cars quite often, and can cause horrific crashes and deaths of innocent civilians the fugitive may run into during the chase (some enter the opposite lane at 80 mph, causing big crashes). Thus, a better system needs to be developed, via education from early life via eterni tone for all students, so that nobody wants to run away from police when they're asked to stop. The rap music of gangster type incites people to fight and run away from cops, so that's a problem too.

As tech advances, in 2500, all electric and radio connected cars will perhaps be replaced by something more longevity enhancing to reduce electromagnetic smog. This system has many advantages, it can be used to notify drivers of a tornado or tsunami or any disaster or cosed road, etc due to a traffic collision, etc and enable even notifications in case of other events, flooding of a street, wars, earthquakes. The trucks and emergency cars would flash beautiful inspiring words like "Immortality *for* All" (LEDs taped to the cars, that later also project 3D holograms in space around the car) and the sound system would say in a nice eterni music tone and rhythm "Immortality *for* All" with nice smiley faces and ultra colorful artistic letters appearing on the screen to improve people's mood, to counteract the negative effect the knowledge of 'an emergency' has on people, since in an eterni world, there are no emergencies, only prevention and everything is calm. This way police, fire, medical cars are not associated with panic or fear, but with the Infinite Bliss of Immortality *for* All. It's a public relations project that brings more joy, citizen cooperation and silence in cities. Pedestrians see the trucks and get notified by the AI system, since in the future, all pedestrians will probably choose to have the AI translator that converts anyone's thoughts or voice into the most eterni tone so people no longer need to yell due to traffic noise or background noise; this is explained more in the microphone amplifier section; when someone wants to ask something, they say it slowly on their microphone and the other person AI sound system will play it to them, amplifying it in the most soothing favorite music background and eterni tone that magnifies positive emotions and makes every human human interaction of a verbal or telepathic (future) nature 30 times more positive on average due to the tone being changed. Thus, pedestrians will hear it too, as the Immortality *for* All ... truck comes from Immortality Highway on right, don't walk on green light please' etc will be played and the AI trucks also have drivers of course that can avoid pedestrians whose sound system failed if they didn't see the car. This is the epigenetic shift of human from a

panic addicted brain that craves war and violence to solve issues, to the tranquility of civilized Immortals with tones 24-7 more beautiful than the best we have, our best 3 minutes in 100 years, of the best voices on Earth. We would thus use simple available tech to diminish fights and crime, by helping all calm down and be happy, thru tone that evolves the emotional brain.

Police got a bad rap over millennia of an agency that uses force to 'en-force' laws, when in reality it would be more a healing department in a world of Immortals without prisons, but with healing centers. While cities could rename the police department to Healing Department or Immortality *for* All Department or Happiness Department, the very idea would be to change the tone of speech *(use the same universal soft AI tone to relax the guy checked for drugs since tickets are usually with cameras, customized for that person's voice and likes, as AI knows his ID via facial recognition and license plate, since nobody can drive a car without being the designated driver, as voice to gauge waking state and if too tired to drive, biometrics only turn on car engines)*, emotion and thinking too, not the title only, so that everyone feels like they call the healers, the motherly angelic nurturing soft spoken angels, not the 'overwhelming force, minimal grace and IQ' yelling cops, friends who can help in solving a dispute or whatever it is. If people perceive police as friends, healers, they're more likely to secretly call the healers to help a person get off drugs etc – since there is no punishment, only healing. But in our world, everyone has such a strong taboo against calling or informing the police, that the police etc need to use negative role playing methods to infiltrate gangs and eliminate them. With an angelic tone by government officials, to create Immortality *for* All, appealing to all involved in drugs to move to vegan vertical farms, water lentils (duckweed) (ω3:6 ratio 2:1), be self-sufficient, sell food/healing techs and turning police departments into ☺☺☺healing☺☺☺ departments and promoting a world of healing, nonviolence, nonkilling, nontorture, nonpunishment, then we have the Grace of Infinite Intelligence of God showing us how to achieve the end goal, without negative role playing, without 'force, guns, threats, intimidation'. When someone does evil acts, they're in the highest need of healing, and that's when society offers the least amount of healing, playing the scapegoat game. Hence, it would make sense to rename policemen to healers and have their training include that part, not 1% of the training, but at least 50%. ☺ A cop may role play neutral or positive person who is just interested in making money temporarily so he can grow vegan food because government gives subsidies and you can get tax free treatment for producing solar energy and vegan food locally, and sell it and no longer have to deal with the stress of violence since you're united with the healers who work for the end to all violence; so he suggests "Hey, aren't you fed up of living this stressful life, always hiding and being afraid of being caught? Why not gradually move out of this business into growing vegan food, producing solar energy with 'solar windows, panels, exterior wall paint', and lead a happy life of serenity, which increases lifespan 90%, see all on TV-radio-music is about Immortality *for*

All , gentle tender soft grace, *so we might as well go along with the new healing vibe of the era?*". We often see some odd exchange between cops and people, and how far most cops are from eterni tone, as well as most media-politicians, which creates a world of 1% love vs 100% love in a world of Immortals. This is not easy, because you need speak 50 tmes less to have a 50x higher quality tone, since brain resources required for healing tone and content are 50x higher.

Some day cops can use prerecordings in the most eterni healing soothing calming tone for the most common situations (like someone drunk, unaware of US rules of always remaining in the car if stopped by police, etc) and press a button to play that over the amplifier so they don't need repeat themselves. Likewise, clerks at grocery sores can press buttons for saying "Next Immortal being in line please", *"Thank You so much, Have a most eterni day" (after customer leaves, in the tone the AI determined the person will like the most based on credit card on file linked to his personality, genes, etc*). Or Some AI detects humans entering store and says in the most angelic tone 'Welcome to the *store* that helps you live to a *Trillion* some day', or detects closing time is approaching and says in the most angelic tone with eterni music background 'the store will be closing in 20 minutes, please bring your items to the front soon' to avoid polluting people with negative emotions of tired workers. This saves the vocal chords of poor clerks yelling like nuts 'Welcome' and 'Have a nice day' 2000 times daily – allowing them to instead use it to create prerecordings and evolve everyone with the eterni tone ads, etc. Same for cops, teachers, professions who may repeat same things often. An amplifier is very cheap and the cop can play it by selecting one of the 90 preset recordings. Obviously, when all cars become electric and internet connected, we can create the ☺World Immortality *Traffic System*☺ that takes over the sound system of any car and has the recording play☺☺☺☺☺☺☺ in that car to avoid any miscommunication (like guy gets out of the car or something, and cop gets scared and violence ensues), using the most angelic tone possible. "Welcome to the World of Immortals, We're sorry to have stopped you, if it's even the right decision, we want to check 2 things, due to alerts the AI system provided, and to kindly ask you to remain in your car while we're relaxing a little with the peaceful music, prepare your drivers license, insurance, etc" – played automatically in world's most healing angelic female voice that matches that guy's idea of 'world's most amazing female tone'… healing nun etc…No cop would need talk at all during routine traffic monitoring, just give tickets thru the video cameras… like in Germany, etc. For drunk drivers, the AI system plays something like "Welcome to the World of Immortals, please help us save lives and if you have been drinking try to stop the car soon on the right side and you will only pay $20,000 (not $200000) if alcohol is high and a human operator will become involved after I, the robotic AI, send a report on 'potential drunk driving'. If you're not drunk, please lovingly stay awake, since the self-driving system is not working yet 100% autonomous, especially not paying attention to increase distance if behind trucks with stuff inside where the locking gate could fail and cause a

10 car pileup if one swerves to avoid impact, with some dying as metal flies thru the windshield. But will be in 50 years, computers and batteries still break, so *driver needs be awake*. Thank you for your cooperation, we won't stop you this time now, but Immortality *Nurturing* Agency data shows yesterday you bought beer and video camera number 5 trillion saw you drinking 30 minutes before now at that bar… (bar name) before driving, so please help us to lovingly kindly save lives in a smooth kind compassionate gentle tender way that is drama free and works best for all. Once stopped due to you honestly believing it's alcohol influence, press "Immortality Help" car button and, we will send a car to transport you home and provide healing therapy, if you think you're a little drunk. We all make mistakes, we just don't want traffic collisions. Let's do this in a kind responsible way that saves lives. The World Immortality Traffic AI system is watching lovingly your compassionate being to protect you automatically and provides updates on whether you will be stopped or not, if a human operator will become involved, depending on the driving performance, so please drive safely and be kind to all beings, using eterni tone to heal all beings, while driving with eterni quality… Welcome to the 21st century traffic policing (healing that is) system, the beginning of the World of Immortality with 0 traffic injuries. We thank you sincerely, ☺☺*lovingly tenderly gently kindly*☺☺ affectionately, for your infinitely magnanimous ever bounteous cooperation, *so we* May all live to a trillion *some day*." ☺☺☺

In a world of Immortals cops are the most *healer* like people, so then, everyone wants to talk to them, vent and share their fears and frustrations, work with them to eliminate crime or lower it 900 times via becoming like sages. ☺ However, in our world, that's not so – people don't perceive cops as the healers or the most loving people. Why is it so? It's due to the history – everyone lacks an eterni tone almost (since it's not in our genes, requires big effort to have that always), so, when dealing with 'bad people', cops, like everyone, are not used to having the most angelic tone when it is needed more than in the average person interaction, so then sometimes the escalating tone cascade begins *(due to 'bad people' using bad tone that irritate the cop, plus the sometimes dangerous situation due to cop not knowing what may happen next, etc)* leading to 'rude exchange' that often could have been prevented with the use of mic/amplifier tech to heal. So, we can develop a universal compassion for cops, and everyone, we're all hypnotized by the same historical inertia of conflicts and fights, etc stemming sometimes from miscommunication or lack of *universal* loving kindness. It's a process, but to create a healed happy society, we need a healing vibe in gov, police, politics and family, meaning everyone can contribute, care about people, etc, see the healing chapter. ☺☺☺☺☺☺☺

A prerecording in world's most angelic voice (this voice is selected among 900 voices, depending on the license plate and knowledge about the native language, genetics, likes, personality of the driver, to create the most trust and healing) could say over the Immortality traffic sound system "*Welcome* to the World of Immortals, everything in this interaction will be *pleasant*, healing, full

of compassion, kindness, sweetness and infinite *grace*, as an Immortal God or alien would want us to have for all beings. We even have a little puppy in our car, who loves to say hi to anyone interested in playing with him, he's the size of a cat and like to lick people's shoes, we trained him so he loves all strangers and never barks at them to make everyone feel loved. We're healers, not cops. Cops in our police department go thru infinite loving kindness and gentlest healing tender grace training, we're different, we got ☺smiley☺ faces on our cars and uplifting loving for all beings quotes on our cars… everything to make everyone love the police (healing department was our city calls it) and feel like they are, perhaps, world's nicest people". The cops can have a headset that reads their thoughts when they press a button for 'linguistic thought broadcasting' and then an amplifier can say their thoughts they want to vocalize, but in a tone no cop can have in a tense situation, to heal very quickly the angry person confronted with his own mistakes or faults. Or the AI can hear any call to police and any info the cops hears or reads and then address the Immortal to be human (note, it's not a criminal) who made a mistake without the cop having to think much into the headset; the cop may only need to correct or add something via thought broadcasting, with AI adding words and things to make the cop improving of the AI content more healing, like AI would say "Please healingly gently lovingly (words cops don't say due to impatience or etc, that AI adds to cop thought broadcast) (more words if it detects anger in the human speaking) understand the World Immortality *for* All System of Ethics Learning has determined you need to pay a $900 fine in 4 days and take a healing center class in 10 days. We're not police, we're enablers of the 900 qualities of Immortals, so we all learn to be Angelic Immortals. We love You and wish you the most pleasant healing day, we have many faults too, we're just like 2 day old babies compared to the Radiant Beauty, Goodness, loving kindness and Grace of the Immortal You who will be a trillion years old some day if immortality tech takes off next 20 years. When 1 makes a mistake, it's the result of all humanity's mistakes, not 1 person; so we help each other to build the eterni Ethics within us, discover what went wrong, heal the trouble spot in the consciousness of our planet; we're all one family, helping each other achieve Immortality *for* All, trying to evolve and help each other embody the healing infinitely compassionate grace of the present and future." ☺☺☺

The AI relies on the most amazing & beautiful ☺☺☺ voice and emotion recognition to modulate tone and neutralize negative emotion, relax, soothe, deescalate in ways a human can't, his vocal chords can't make such gyrations when tired, etc. This reduces violence against police and by police 800 fold. This reduces negative emotion globally 700 fold and wars 500 fold too. Just a few amplifiers, tones, AI identity recognition for best tones, and some mics, headsets, etc – no need of thought reading even initially. This will enable every employee to avoid talking, and to render into the earphone of coworkers in the most amazing AI tone that the interlocutor likes, and optimized content and tone from the raw 'thought broadcast of the other' – based on MRI

reading on the interlocutor emotion too, making every human-human interaction so pleasant, allowing all wars to disappear within 3 months and all violent crime within 10 years, so we no longer waste energy fighting each other, using it for longevity instead. Speaking less allows our brains to develop much more the areas related to eterni content and tone of emotion, and since in the utopian world of Immortalists Eternal Youth *is deified*, we get the cool possibility of creating AI with the most healing angelic voice of a 12-28 year old soprano who is the world genius, at tone rendition, like a college professor of 28 years old, able to imitate her tone at 12, etc and enrich it with the bigger brain, knowledge, etc of a 28 year old. The Wizard of Oz, the ever youthful immortal human of the future loves young voices and truly, the angel voice of a kid singing a spiritual or immortalist song is less threatening than that of a 60 year old yelling cop – so it would get priority in the police of Immortalists AI voices. Recall, we're trying to Heal, not to intimidate and yell. News are read by AI giving us the best tone and the best brainwaves of young people which come from AI based on youthful voices, not old. This reinforces the brain patterns, and speech, emotion regulation (much better) of younger people who, when rested and trained can achieve a perfect nuance and tone far better than a 60 or 70 year old. The Immortalists worship Eternal Youth, not eternal old age, barely being alive.

Today, due to the fact we got 20000 police departments of poor quality, like 20000 companies instead of one in many fields, there is no efficient use of resources to develop new kind procedures, drones, etc. Watch the violent tone the cop uses with the violent tone (and intimidating, driver should never approach a cop and remain the car) driver before the cop needlessly unleashes the dog on the pediatrician who may have been drunk or upset by the previous 1 million instances of police violence. The doctor was extremely rude in his words directed at the cop (the MD insulting swear words are not heard in most videos now, but audible in some online versions of the video). Civilians need to understand fear runs very high in a cop when people approach a cop after a traffic stop (which 99.999% of people never do, they remain the car, this MD was maybe tired). The whole idea is that cops get training to keep cool when people swear or belittle them, via one national police department, not 20000, so they use gentle eterni music background with a drone coming out of the cop car and the Immortality *Traffic System* telling people from inside the car to remain in the car, etc and there is no need of dogs, as lifetime labor is sentence for any violent crime or assault on police. Due to dog biting him after he was already on his knees, doctor tried unconsciously to protect his leg from the dog bites with his hand and officer sadly reasoned that the MD was resisting by 'not putting his hand behind his back'. It's instant reflex of anyone bitten to protect their leg. It's an unfortunate event due to lack of training, educational standards for both doctors, civilians and cops. From the get go the cop uses ultra violent tone and normally he ought to never be a cop again in a civilized world. It's possible the MD was mind controlled and the cop too, by some FBI guys watching it

unfold. Sounds like a setup to me, to teach the MD a lesson, since no kind MD would behave and talk to a cop like that, you should have seen the video where the MD words are audible, shocking. How in the world did that guy become an MD to take care of kids is a mystery. The fact that guy is a child MD is equally scary. We need real reforms for the MD field too, not just police. Sadly, cops sometimes release dogs against trooper orders when there is 0 need for a dog attack. Dogs need be used only in life or death cases.

USA has 46% of world's civilian guns and 4% of its population, plus 600 reports of real? and possibly mostly FBI staged fake? mass shootings every year designed to make people aware of proper gun use. Oddly, over the last few years, in states that allowed anyone to conceal and carry a gun without any training, any background check, etc, they got a spike in violent crime. It's unbelievable that a politician would allow anyone to carry guns, like DeSantis and other Re-pub-licans, when we have so much violent crime in USA. Australia is more civilized, concealed weapons are not allowed, so gun homicides are 60 times lower than USA. Oddly, Washington DC gun homicides were 27 in 2023, which is 540 times higher than Singapore, all that Hollywood music must have helped. UK gun homicides per capita are 100 times lower than USA, while gun ownership 26 times lower. *Romania* gun deaths rate in 100000 is 0.16, the lowest in the entire Western World (EU, Americas, Africa), UK 0.24, Poland 0.27, Netherlands 0.48, Hungary 0.55, Moldova/Spain 0.64, Australia/NZ 0.91, Lithuania 1.0, USA 5, Argentina/Somalia 7, Philippines /Costa Rica 8, Iraq 10, Uruguay *11*, Mexico/Haiti 17, Belize/Honduras 20, Brazil 23, Colombia 25 (be careful around them, they make all cocaine in the world almost, many gangs), Guatemala 33, El Salvador 36, Venezuela 37, China/Japan/South Korea 0.08, Singapore *0.05*. America is the land of the Wild West, pure gangsterism, I didn't realize that until 2023 when I read some statistics and laws they got. Check out how many nations are loaded with guns for civilians, it is unbelievable. *Our planet is so violent*, it has *860 million civilian guns*. Some Americans don't know that mass shootings don't exist in many countries, that is in 30 years 1 vs 8000 in USA, *8000 fold difference*. Most of these countries are not that known. Why would anyone need that many guns for civilians? It's insane. It shows how empty and useless these churches, mosques etc are for ending violence. Can we ☺☺*lovingly tenderly gently kindly*☺☺ ask why? Of course, we can. 1 reason is that no existing major place of worship focuses on nonkilling, World Peace in 3 months, the urgent need for that to prevent species extinction and the qualities we lack in our society: gentleness, *tenderness*, *nurturing grace*, softness which are actually nonexistent and not part of any discussion in *daily services in any group*. They're too feminine for our brutal savage world of violent thuggery. The map for cop, civilian, military guns is here, click on any nation and it tells you. The UK police (armed cops are only called in dangerous situations when tasers, batons, pepper spray don't work) shot about 70 times fewer people per capita than USA in 2010-2020, because UK/New Zealand police almost never wear

guns and civilians in those countries have far fewer guns to attack cops with. *USA cops* are about 60 times more likely to die on duty than UK ones, due to the gun culture of Re-pub-licans. *Is USA hell? Yes. Why on Earth does everyone need a gun for and why do cops need guns for? Because the music is* ultra violent diabolical incitation to genocide. In 2021, USA police shot 995 people vs 2 in the UK, or 100 times more per capita. *Vote Rethuglican? Or* eterni? 18 other nations lack cop guns:☺☺☺ *Botswana*, Malawi, *Norway*, 75% of *Ireland*, *Iceland* *(even if 33% of population has guns for hunting, but hey they don't have bad music)*, Bhutan (Buddhist), 12 island states: Fiji, Solomon Islands, Samoa, Vanuatu, Nauru, Tuvalu, Tonga, Kiribati, US Virgin Islands, Marshall Islands, Niue, Cook Islands. Total is 20 countries worldwide. US will only change the gun culture via the Immortalist Party reforms to bring nonviolent music, literature, movies. So, on Earth, among bigger countries, as far as guns go, *UK is the only really civilized nation, with far less deaths of criminals by police action than the rest of G7*. Let us softly wish that the *rest of the world, will one day,* ☺☺*lovingly tenderly gently kindly*☺☺ *stop being THUGS*. Anyhow, the cops are sometimes bad because CIA-FBI are 1000 times worse, and reform is needed.☺☺☺

In medicine, etc we try to treat the cause, not the symptoms, and even better, to prevent disease, instead of treating the cause. However, when you look at policing and peace making globally, humans treat symptoms – for example giving fines, community service hours or jail time to the 'bad people' (or bombing into stone age or sanctions (that don't work much at all) etc to bad regimes) without an actual way to address the cause – which is not one individual or country, in case of war to 'punish a country'. Say for example, people drink alcohol and they get a ticket for driving drunk etc – that's not a very good solution, a much better one would be to enroll in a healing class that develops the universal compassion for all beings and lives in a simulated virtual reality scenario the drama (or by seeing a video of devastation a drunk driver caused) a little alcohol can do, plus all the studies on alcohol. Likewise, when someone gets a fine or worse for more serious things like domestic violence, the doer is not going to be happy the spouse reported it and after that this will build tension perhaps without proper healing classes. The couple needs healing and the doer needs serious therapy in a healing center, simply placing one in a cell for 2 weeks or a day or fining doesn't do anything, actually it can make things far worse for the couple. It's not out of fear that we want to motivate people, it's out of infinite loving empathetic understanding of the suffering they caused by driving drunk, etc and that only occurs by enrolling in a very serious healing course so the person truly understands from direct experience and develops spiritually, becoming unrecognizable saint over time to the terrorized victims (terrorized by his lack of grace and good upbringing, etc), instead of just act out of fear or even worse, redoing it hoping it won't be caught. ☺☺☺☺☺☺☺

The course *may take* 12 months to complete, 5 hours weekly on weekends, if a minor thing (yelling, verbal abuse, psychological terrorism, etc), so about 260 hours of healing, meditation,

the 20 emotional evolution habits, etc – and way more if anything violent (not just talking in a bad way, but something physical, like slapping a child or student or anyone or a 1 minute spanking of a kid/sibling first time ever which are signs of total misunderstanding of parenting, need of 2 year educational course, 2 h/weekend, and 100K fine), i.e. 12 hours daily, 20-200 days in a row minimum away from home, plus the 1-5 years weekend 5 hour weekly continuing education, healing, evolution sometimes. Maybe half of the daily 12 hour program is passive relaxing listening with eyes closed to peaceful music and meditation and teachings of conscious breathing happiness independent of circumstances, eterni tone healing affirmations (we are loved by the Immortals of the future, we create a world of peace and love and Immortality for All, etc), etc to not overwhelm the brain with so much learning – and some hours can be light physical exercise *to help maintain the facility, grow or prepare the food, to ensure a balance life and optimal health.* They can even include classes where the party who did something funny apologies to the affected persons and a healing occurs, they forgive each other, tension dissipates, when both parties want to take part in this type of reconciliation so people are free from negative repressed feelings or etc. This obviously is not going to be more expensive than the current system, but the society is 99% responsible at times, due to the music, news, literature movies depicting criminal behavior – and they use scapegoats – and police fulfills the wish of the masses to scapegoat, having not much of a choice on media, TV etc content, tone. Of course, the more serious events would require a healing class that is in a secure facility, etc.

We love to blame and find one group or country or etc that is the source of issues, but all cause it. It's true that some people intentionally induce others to do bad, but if society wants to remove those instigators, it can't be just only some, it has to be everything that instigates, even tone of millions in schools, jobs, media, TV, literature, etc – so it's going to take a while, not 1 year. People say 'reform police', but are they willing to reform the tone of vocalizing even nice stuff? People can't blame police or bad people for things that happen, everything is created by all. Police sometimes works in a situation where they can die any moment, unsure if the guy has deadly weapons or not, extreme stress, so before blaming bad people/police, perhaps we can be more compassionate and understand. Immortalists understand if we want real change, everyone needs to contribute to it. When was the last time many people used such a tone in addressing closer people (spouse, kid, etc), or this 'angel of infinite love' tone, in honoring the Immortal angel in them, helping them to feel loved, better, to heal, etc? If God or a potential trillion year Immortal is in people and police, this is a tone we could employ towards all beings – so how is ours? People don't even realize how much they terrorize and torture others with their tone of speech, let alone actions that come out of it, but they're quick to blame "terrorists" for etc. Parents etc don't realize world wars and genocides all start from very minor things, like bad tone, that becomes a slap, then a spanking, that teaches violence and that creates ever higher

violence over time... *(not necessarily physical in nearby people, but via the ripple effect by creating negative emotions that contaminate all around and add to world emotional garbage that becomes perfect ground in habitually violent people to take it to world wars)* and they get mad at 'bad countries' but they terrorized their family for 50 years... with their tone, etc. Tone creates and reflects all our intent, emotions, actions, way of life, etc... It's the first place to stop evil before it becomes a trillion times bigger and leads to world wars, not just a minor event. Parents etc complain about this and that group being violent, but were they always the most angelic beings who taught infinite loving kindness by living example, were they ever angelic in tone with their kids, even if they didn't ever spank them, etc? Now every cop/person can do prerecordings on a better day and play it when feeling down or anyone around is down, to help everyone feel better and make the world a more compassionate loving place. Police violence is a perfect copy or reflection of the average individual family dynamics – bad tone, yelling, etc. as well as everything in our media that is a little escalating in tone, etc.

A new culture in policing/military emerges: just as there are trillions of ways to Eternal World Peace without war, that we can discover, there are *trillions of ways to 0 Violent Crime and 0 Crime without any karate, martial arts, fight skills* training, and without even the real death penalty (which can be faked, but everyone will be told it's real, see details here, to understand that the 'death penalty' below may refer entirely to the fake one where the person is forever disappeared into a healing center for life, without a trace, no ashes given to family). The focus changes from muscle building to eterni tone building, healing ability, anger deflection ability training. The One Police Department for the entire USA or EU or any immortalist nation, like the general training for soldiers, is efficient and uses the same exact 900 steps for the main tasks, all well designed to prevent stress or the need for punching or hurting anyone. Every prisoner of war is also treated kindly, so they feel loved for the first time in their life, not brutalized by the culture of hazing, destruction of subordinates during training, who're too smart and a potential rival for the psychopathic boss, amputation, genocide and mutilation that rules most militaries today. Such prisoners also can provide 1 trillion times more useful labor, info and support, than if treated as in 2020s. No torture is allowed by any police or military, since there is no use for it. The info gained is usually false and inaccurate, as the torture changes the memory slightly, etc. The torture destroys the human quantum field and will disintegrate the country doing it, as the human quantum field will work to wipe that nation out and support the more species building military or police department. No torture of any gang member is allowed as that destroys the human quantum field, they simply are executed or given lifetime labor (work in a healing center and be treated nicely, and if kind enough towards him, he will naturally love Eternia and tell us what he can, via positive motivation, without torture. After the 6-12 months of national TV 12 hour-20 training on ethics, all gangsters are executed if violent crime committed, like selling

more than lethal dose of a drug as explained in the "0 jails" section. If the government has an area to take over, it can notify all residents to get out and go thru a check in area, where dogs or drones detect traces of drug use, 1 billion times faster than today, 2 trillion times better, so then those guys who smell of drugs are asked some questions, their guns are removed, as are guns for all civilians after we wipe out dangerous animals and nobody needs guns anymore. Then, a special device kills all within 10 miles radius who did not check in by the deadline, because they didn't want to surrender the weapons. There is no need to use any torture or interrogation, any urban combat skills (whole town filtered and then blasted with a device that wipes out humans only). Torture is a waste of time and does more damage than a painless death (since they can't know if it was lifetime labor away or death). "Fellow Immortal Soul,☺☺☺ we want you to be happy, and we appreciate if you can take these classes, understand immortalism, and then give us any info if you want to help us spread peace and make everyone feel happy, blissful, like you will feel for the first time ever, after going thru the meditation classes." No torture based interrogation is allowed, as forceful energy destroys the nation, when applied to people who will still be alive for more than a few days or weeks. Allow criminals to rest, heal, sleep well for 3 months, first time ever, feel loved first time ever, they will gain cop trust, help cops know all about their gang. The cops today get 1 million times less info and they destroy the human quantum field 1 million times more than by killing 10 people painlessly for violent crimes.

☺☺ Low IQ ☺☺ *cops and soldiers don't understand force doesn't yield any useful info, only destructive* stuff, since it creates infernal vibrations that will *eat those subhuman cops and soldiers alive slowly, and the whole nation too.* Torture does far more damage as it entrains the living humans into a state of negativity that fuels eternal wars. Thus, intense torture of one gangster to extract false info, is actually, destroying the nation more than even executing 100 violent criminals. Once people understand the fact all living brains are tuning forks that communicate, they realize torture never works, since gangs appear ETERNALLY, as violent crime does too, as a reply to aristocratic gangs subtle violence of subjugation, the gangs who terrorized humanity for 50 millennia, so police is busy bringing the happy end of *aristocratic gangs FIRST, of aristocratic royal families of militaristic terror and genocide, cult adulation, guru worship, personality cults and 33 million companies*, instead of just 11 for decent food-shelter-sleep for all, before beating the workers, who don't deserve any torture and any beatings [deified in the evil Bible/Torah (kids, workers, sex slaves) or the evil Quran (sex slaves, mutilated infidels, kids, wives)] as they're mere victims of the royal and aristocratic class criminals. The immortalists don't want anyone to suffer, are the antithesis of Jewish Bible psychopathy and obsession with torture, crucifixion, etc. The violent crime gangster soul will happily go to the next growth phase, to his purgatory or nicely reincarnate as a new human taught from age 0 in eterni tone in 2 billion times better ways. Nobody will do rape once death penalty is the

punishment, penalty shown only once on TV, for each typical violent crime committed so all know it's real. As old generation dies, the new one is raised without any scene or knowledge of rape, without knowing what rape even means, so it won't happen. All kids/adults will be explained sex is for pro-creation only, after you have lived with that girlfriend or boyfriend in a house ideally for a while and by default all beings are taught since age 1 the principles of personal space, free will, of the evil of forcing one's will on others, of the need to immediately report to parents or authorities when others try to force thoughts, ideas or actions upon oneself by dialing the emergency number, all contact during pro-creation attempt needing to be ultra gentle, pain free and soft. Thus you don't need to show any violence on TV to "educate", as that reignites the genetic memory. All are taught the value of gentleness, of not forcing others to do your will, etc, of being ultra soft, tender, graceful, etc so there is no genetic memory of rape or punching or any violence being created, as with the demonic Bible, the evil literature today. Many so called "cultures" today are a sick joke from a hell of chimps. Thus, we build the new Eternal Bliss ☺☺☺culture, for all and within police and military, of Immortalist Anthem. The phony "science" of torture/interrogation is as useful to civilized people as would be talking to cannibal chimps who teach us the "science of stealing a neighbor's baby and eating it".

Due to the risk of all humans dying soon, via new quantum weapons or electrophotonic simpler tech that alters all matter, we can't spend 50 hrs/week to reeducate a 50 year old serial killer, as it drains the planet, so we simply give them the videos to listen to if we decide to implement lifetime labor, or execute them if the planetary emergency demands we have no cops to make sure they're not going to do bad things, sabotage the work assigned to them, attack others. If we protect life, we can't allow them to live, as someone who did such a genocidal act as a punch, could do it again and kill someone, a kid even, or a senior. We do EVERYTHING possible to reeducate 12 hours a day on TV-radio everyone, so that nobody has to be executed again, or breaking the quiet cities rules, or only a few mentally insane ones. This requires a State of Emergency for up to 20 years if we can't bring executions number down fast enough, for continuous 12-20 hours a day, mandatory TV-radio-Internet education in eterni tone to prevent punching, kicking etc (punch, kick, etc lead to execution). We need total takeover of all movies, TV, radio, Internet to inform all that Death will be the consequence for any attack of any human, so that death penalty is only applied in 1 not 10 million cases, by reducing punching, violent crime incidents 10 million times. *We take death penalty seriously, but punching acts lead to nuclear wars down the road. Road rage is not justified. People are tired, make traffic mistakes, this is no reason to punch*. Real life is different, when WW2 happened, people did kill prisoners when afraid of sabotage due to lack of staff to supervise or feed the prisoners, so in a planetary emergency, death penalty will be used for punching etc. We're in a planetary emergency, so USA may change its laws one day. The 2024 police, military, culture standards today are criminal,

genocidal, psycho and suicidal for our species. The broadcasting of punching on TV, via boxing, endless crocodile IQ sports like slapping, martial arts, police training and other hideous sports is more dangerous than Hiroshima blasts. Karate offices are more dangerous than the Nagasaki blast, as that is one event, but these demons perpetuate human on human violence forever. We refer to kicking arts, not to energy cultivation or gentle movements as in tai chi or qi gong, just stuff where you hit others. These grotesque demonic "martial arts" need to be banned globally as they perpetuate the belief and genetic memory that humans will be violent forever and we will need to remain forever in the 1st grade of human development: chimp violence daily on TV and daily in our society. It's never too late to grow out of our psychotic infantile violence, and its deification via ultra violent psychotic scriptures. Now we can begin bring Eternal World Peace.☺☺☺ All "weapons and gun" toys and killing devices replicas banned from all toy stores.

Cops, soldiers, etc are the ones that need to lead by LIVING EXAMPLE the general public to the Era where Nobody Punches Anyone. All dog use (except to sniff until drones are 5 trillion times better) are forbidden as that is brutality of the highest order. Everyone needs to be educated via the 1.4 years training about the New Police Methods which Ban All Martial Arts Training Globally. These new methods Ban All Punching scenes in all movies, TV, etc and from all music, etc. Then, the new genetic memory emerges, free from the worker beatings of 5 million years of chimp energy, deified in the evil Bible/Torah (kids, workers, sex slaves) or the evil Quran (sex slaves, mutilated infidels, kids, wives. Anyone who still attacks police during arrests or etc will receive the death penalty for dragging humanity into the infernal energy of child beatings, so eloquently deified in the evil unholy Bible. This death penalty is instant and rare, only for the mentally insane people who, abusing the infinite kindness of the New Police Culture of being Ultra Kind *gentle tender soft*, are attacking regular people or even the cops themselves. Since nobody is required to build Muscles, only to build Kind Tone and Ethics, Compassion and Gentleness, Healing and Grace, the cops have to travel in groups of 5 at least in more dangerous areas, so that if anyone is attacked, instant death can be applied fast without anyone else dying. This won't be shown on TV, to avoid reigniting a genetic memory of chimp violence in the human quantum field. The most important thing is that nobody is arrested, except those engaged in violent crime who're taken to a healing center. Fines and educational courses for other crimes ensure a huge decrease in arrests. While some view death penalty for punching, kicking as cruel, we need to gently kindly compassionately understand that a punch/kick has ripple effects that lead to 100 homicides over the next trillion years at least. So by one quick painless killing, we prevent 100 homicides that will happen if that guy is allowed to punch over and over again, as he would normally do. The thing is with many cameras and death penalty, nobody would punch and attack others, as they know DEATH is certain. We can't tolerate violent crime if we're to bring Eternal Universal Peace. It's out of love for the society that we kill

punching enthusiasts, so they can't terrorize the rest anymore or lethally punch a kid or senior. Only when a punch is viewed as murder will we achieve Eternal Universal Peace. In 2026, homicide is the USA religion, as seen on TV, where the homicide equivalent, punching, is deified, shown over and over, in martial arts classes, UFC. ☺☺☺ The planet knows really well what "Christianity" means: Ukraine and Syria cities in ruins, the "evil Bible/Quran in action". Qatar homicide rate is 100 times lower than USA almost, what a "World Leader" USA is.☺☺☺☺☺☺☺

WRONG PRIORITIES OF POLICE WORLDWIDE: sarcasm leads to arrest, but violent crimes, in the trillions, get un/reported and no arrests... thanks to the Word of Violence, Bible-Quran:

This section points out the criminality of many governments who practice 100000 violent crimes 1000 times worse than an internet sarcastic post, (10 years of torture of those who expose government corruption/abysmal IQ, theft of taxpayer money, treason of national interest) via torture, and not securing the borders from criminal illegals who rape, punch, injure, beat, torture, terrorize, keep as slaves locals or other illegals, yet fine or arrest people for the "potentially offensive question on Chinese food contents" or whatever. All Christians, Muslims and religious Jews commit offensive speech, instigation to genocide, rape, theft, arson, cannibalism, via promoting the evil Bible/Quran, with Jewish Torah being the worst Bible part. Thus, before arresting or fining anyone about offensive speech or sarcastic meme about an ☺ abysmal IQ☺ German government minister, the chimp IQ EU governments ought to close down all churches, mosques and synagogues, and fine these clergy retroactively, like with Holocaust payments 80 years later, for all damage done to the human quantum field for 2000 years, with Jews worldwide paying the rest of the planet 500 trillion in fines, for creating the violent Islam (a rewrite of the Jewish Bible) and violent Christianity, made so violent by the Jewish Torah inside, the determining vibe and tone of the Gospel too, as explained here in detail. Christians, Jews, Muslims Calling for genocide of 8 billion is far more offensive than posting a sarcastic meme about the low IQ German or UK or any EU government, almost all equally ☺filif toad IQ☺ puppies of the Brussels mafia. US has way more freedom of speech, but still US is somewhat like the UK, where 12400 arrests were made over "making online comment" in 2023, the real news is buried, while fake news is allowed and they don't fine people for sarcasm online, they simply torture them covertly with invisible weapons. Anyone who wants to sue someone for defamation is able to do so, even if it's simple free speech of one's opinion, that's comical☺, no improvement of society happens if people can't express their real opinion of others, no spies, traitors and criminals are found if nobody can offend anyone. Everything comes crashing down in one month, like USSR, where everyone praised the leaders. It's funny how making false claims is illegal in the US, but what do aristocrats do by the millions with their fake ads making ☺ abysmal IQ☺ statements like "Our product is number one for DC", without any science studies of high quality to prove that claim, without any % or numbers to indicate how they're better

than competing products etc. It's a defamation too for Big Pharma (75% of Pharma world profits, 4% of population to finance PALACES in Mexican Cartel Style Trillion $ Thefts) to claim with no evidence, like 5 million other companies, that they're "the best company at making product X", which defames the rest and provides no data about what is better quantitatively, in a real study. US got 2 standards: slaves who defame and aristocrats who never defame and can't be charged for false advertising. In a fair society, 99% of ads on TV-radio would be banned, as the 11 companies section explains. You have to provide strong evidence for your ad claim of "better than others from one measurable parameter point of view, with large randomized blind controlled studies and also interventional if possible," with exact numbers, huge studies covering 10 million people ideally. That alone eliminates endless trash companies started by 2 people who have no clue. While US has more freedom of speech, since the UK monarchy would end instantly if people exposed its corruption like this book does, it's still very limited, as criminal militaristic aristocrats can tell thugs (and the entire FBI-police-military they own) to torture people. So, we need a real democracy born of real data while you broadcast something for 3 billion people on TV, and total freedom to post anything online, as long as it's not a call to injure a person. UK however, against whom US rebelled, is on a whole new level of terror, as an article explains people get arrested for asking if Chinese eat bats, which is a normal question, since bats are rats with wings and in Asia 1 billion folks eat rats/mice. The UK or other nations arrest people for asking basic questions, or for sarcasm, but never arrest the royal family for 950 years of genocides, for stealing, together with 200 aristocrat families, 90% of UK wealth and hoarding 70% of land (owned by the 1% in UK) too shortening the lifespan of others due to overcrowding by 3 years each, meaning murdering (the equivalent of 210 million lifespan years lost, 70 million residents, 70*3 = 210) or about 5 million killed and losing about 42 years of lifespan (5 million times 42 = 210 million lifespan years) at age 40, while the citizens live in cramped condos and row houses. This is a Holocaust by the Royals against UK citizens. The cops, instead of building single family housing for all UK and the homeless, waste time arresting people 8 hours for asking simple questions that only some may find offensive. Isn't it 1 million times more offensive for cops to waste taxpayer money, arrest people when they could build homeless shelters? Or secure the borders to bring illegal migrants to 0, given in many cities in the UK, half the violent crimes are done by Muslim migrants and after 1 year 11% of violent crime cases are solved only due to no cameras and real reforms to prevent that by education, border security? Too much alcohol goes to the head of all these UK cops, who, instead of ending criminal violent illegal entries (UK cops give minor penalties to Muslim rapists who destroy endless Brit girls, allow all gangsters to come into UK, so these cops need to be fired, together with the incompetent UK government: same story in USA and most nations: cops are told by low IQ higher ups to do X, Y, Z, while stuff 40000 times more dangerous is never dealt with, all due to decentralization). Cops worldwide ought to stop brain damage by bars and pubs by a massive

ban on alcohol ads and also on alcohol production and education campaign about its organ damage effects, not arrest people over simple meal questions or posting an online meme (any sarcasm about a minister in Germany will get you a big fine, etc, or maybe more: the ☺puppy IQ ☺ German government can't stop intake of rapist and stabbing (see the concentration camps with cremation on US-Mexico border and all decapitations and murders illegals do in the US), punching Muslim migrants who attack German police with firecrackers 500000 times a year, but they fine anyone for a simple sarcasm at the 0 IQ of the German government, unable to secure its borders, slaves of some filif rat (rats are cannibals if hungry) IQ folks in Brussels where now the most common child name is Mohamed, as the Muslims flock to Brussels to influence EU policies). Meal questions (like the Chinese one above) cause evolution to a kind nonviolent world of 0 bloodshed of animals or people and 0 torture by Mi6 and UK army. Why arrest anyone for a question on Chinese food? Stop Chinese illegals entry into the UK instead, that's 100000 times more important, they use disguises as coming from Nepal, India. It's more like a war on the working slaves than a real attempt to bring justice, when UK aristocrats live in palaces like US Brits do too. Isn't it offensive the aristocrats make 5000 times more/hour? Not to mention, the genocides via laws the royals passed for centuries to subjugate the masses. It's funny, the sheer hypocrisy of the UK who never prosecutes the 950 year old crimes of the royals. The US feels like a UK colony, where all who criticize the US Brit aristocrats are tortured.

6.6. Immortality Test for The Nonkilling Noninjuring Holy Soldiers

The next 20 pages detail some of the peaceful billion trillion methods known to God and all decent people to bring Eternal Universal Peace (without violence) and 0 violent crime worldwide, some of the healing nurturing ways the kind soldiers defend the universal human right to physical immortality, via interdimensional and quantum means, plus basic common sense methods of the 260 page World Peace in 3 months chapter. The biggest lie is that God wants war, so entire scriptures were written to argue this fiction. God knows and favors a trillion octillion ways to peace without war or violence. The most important for soldiers (or police) is the development of eterni ethics, that makes them healers, not killers, singers☺☺☺ of angel of light like tunes, not yelling to intimidate, provoke (with or without realizing) and threaten, kinder and less animal like, in direct contrast with most historical programs of military nature that made (*most still teach tons of torture and cruelty, to extract false info, etc, destabilize enemy, etc, which harms the doer country in the long run*) men more brutal, hyena like and barbaric. The eterni soldier makes all enemies feel loved, if possible like never before, turns them into friends, he makes all beings feel loved, part of Eternia, the land of Immortals, so they want to switch sides. He's fully aware of his soul and can provide intelligence even if killed by low IQ mortal militaries, who don't understand the concept of nonviolence, nontorture, nonkilling; thus, the *eterni* soldier, inspired by God, clothed with the Radiant Beauty,

shimmering shapeshifting *light* of the Immortals and of the one God of World Peace in 3 months, can ☺☺*lovingly gently* help the development of artificial multiple layer light body ONLY (God would not permit otherwise and he can't go against God's will, as info comes from God) for those 100% eterni cultures (music included) and "0 torture, 0 jails, 0 violence" that are interested, a backup of the brain even that can provide real data (video recording of everything, using unknown physics particles, since the individual lightbody is in control of INA, not of the physical brain or body and is 100% independent of the body, providing true inteligence into the treatment of humans etc) to Immortality *Nurturing* Agency, INA, in charge of helping all to reach trillion year lifespan, since the backup mind survives physical death or any injury, torture, being like a drone that penetrates all physical matter and provides video of any location in the universe to verify the implementation of the precondition for joining the Eternia Alliance: eterni music, culture, 0 etc (see above). A planetary device (similar to the capsule device) can make all human brains move into a happy state by a "heat seeking missile" like tech that seeks the lepton-boson signature of all alive brains and causes a *state of infinite bliss and compassion, of wanting peace, of wishing for instant* Eternal World Peace*, instant ceasefire, 0 guns/violent crime in 2 years*. No need to pain, annoy, torture, terrorize, injure or kill anyone to achieve World Peace. A complete "higher brain functions related to compassion" destruction happens in all armies worldwide at the rate of millions a year, leading to a yearly mini-holocaust of the most essential part of the human body, Compassionate Emoting, Intoning, Speaking, Thinking brain areas, so the immortalists will end all that by unifying all. ☺☺☺☺☺☺☺

Clothed with God's or Immortals' (if atheist) *Infinitely* Tender Gentle Grace and Mercy, the immortalist educates all, even immigrants, into the way of nontorture, by replacing terror based armies with Eternium (details here) ones: to be human is to not torture and terrorize anyone; to be human is to sing only the most eterni melody, lyrics, vocal tone military hymns like verses 8-40 of the Immortalist Anthem. Aware of this, the ethical soldier is vastly different than the typical one forced by superiors to torture others. The 'roughest' or worst soldier (or any rank) or cop of a Civilization of Immortals is far more angelic and holier than the most saintly being of the mortal civilization. We, immortalists, want to help others become gentler, more compassionate and that is not done via arousing their anger or personal attacks, punitive measurements – just healingly humbly lovingly☺☺☺ sharing of how bad life was when wars left all without food, water, shelter, etc.. - this healing and 'education' needs be done decades before a conflict can arise, via cultivating content of speeches, media etc that focus on the nurturing feminine healing gentle tender qualities absent in our world. If we don't even talk of these things, imagine how much harder it is to even make them goals, to make them our actions, our qualities. If we read the nonkilling chapter, we see a different set of ideas, one in which the illiterate peasant with a machete soldier of the past is replaced with the amazing & beautiful high tech healing presence

of the Immortalists whose aim is to transform☺☺☺, inspire, uplift and heal the enemy, without killing, torturing, injuring him, at the most taking him to a healing center if the nearby the shield levitation and teleportation didn't work 100.00% of the time (due to attacks) as the eterni leader talk 1 year before World Peace arrives explains. The angry fight and flight panic of the 8th grade completed soldier of the past is replaced by the calm, tranquil management by the college professor (postdoc type education) of seemingly sci fi nonkilling, noninjuring, nontorturing techs that enable the transport of the enemy behind the shield or to special healing centers where no torture happens and they're transformed from robotic brainwashed killers *(2 day old babies vs Immortals, clueless babies who deserve infinitely compassionate universal loving kindness☺☺☺ from the motherly nurturing immortalists, babies who grow into most productive builders of Eternia, realizing their native country was evil and Eternia is the savior of humanity)* into angelic healers of the immortalist peace corps. One of the main areas of training is the ability to convey to enemy troops the infinite compassionate kind grace the immortalists have for the enemy and the desire to not fight and not have any casualty, but to bring a world of Immortality *for* All, i.e. no war or fights, so that the enemy soldiers join the immortalists overly or covertly to reduce casualties 8000 fold or more and have a chance to reach physical Immortality. ☺☺☺☺☺☺☺

As the enemy soldiers approach the land, air or sea of Eternia or Eternia Alliance, the shield around Eternia conveys via divine ecstasy state and feeling loved that they mean much longer than present country and even, if lucky, Trillion year lifespans for all enemies who defect to Eternia or surrender, infinite forgiveness and 3 choices: joining Eternia *(they show him what it is like, on a gigantic holographic movie projection in front of the plane, tank, ship, with clear words in enemy language and sound sent to the person, etc, and, if possible, by brain immersion into the virtual reality (the movie projected where you feel 1 million times more than just watch) visit to the welcoming center shimmering palace* where 1000s bow to the Immortal Radiance of the soul within every defecting soldier and thanking him for choosing life instead of death, etc and filling him with infinite bliss and love, letting each rest on an amazing & beautiful ☺☺☺ chair while they experience *nirvana; a welcome not even the leader of his country gets from those running the show behind)*, via the shield gate (shield is impenetrable to any enemy weapon, it's around Eternia ☺☺☺ and Eternia can move it unto nearby countries if they invade, taking over those nations that dare invade) into a loop within the shield whereby one is surrounded by the shield for safe transport to Eternia healing center, run away to native country from the shield or be fried by shield if you run into it or get too close attacking the levitation machines that try to move you away from it if shield is moving. Eternia policy is not to take prisoners, due to their love of free will, only those who really want to be there or who were not pushed fast enough to avoid being killed by the shield. However, due to being a little ahead of the enemy, 99% of those who didn't flee the shield and had a chance to hear Eternia speak into their brains, defect,

realizing they were tortured all their existence since birth, having never felt such love. Once safely disarmed, etc, and relaxing, eating, sleeping, they're welcome to Eternia with happy music and more meditative bliss, plus a 2 week vacation to rest, relax and heal from 20-90 years of terror in enemy state; they may, if healthy (no virus, etc) even receive a little massage from healers there (if sick, an AI robot could do it in a sterile room) and be kissed on the cheek by the happy smiley kid teams who welcome the new Immortalists with sweet eterni songs.☺☺ Even if the shield is not there yet, Immortalists can develop a gentle AI cloud *that* musically, *(*eterni anthem perhaps*, or something like this 2 minute song, just a lot better, since I was sleepy: Immortality for All), gently, tenderly, healingly* turns all enemy tanks, artillery, weapons, planes, vehicles into a powder enveloped into a gel to prevent inhalation and toxic effects, while leaving the soldier intact surrounded by this material – even leaving clothes intact – to enable peaceful surrender and nonkilling for the avoidance of human entanglement field disturbance and easy transport to the healing area. This tech also helps save lives during earthquakes, since some people get stuck in concrete parts that can't be removed without killing the person – so this tech can be adapted for that too to create a bubble of air around people so all powder falls like a liquid that doesn't wet the clothes, ultra light and the people are left standing surrounded by a 1 or 10 inch layer of powder coated with the gel, that covers their feet. This tech allows rescue in many other machinery human trapping cases or even underwater, for ships with people in them, by creating a big air bubble around a ship or person and then this lighter than water enclosed gel would force the air bubble to rise with the ship or person; or even rescue in zoo cases, when the aggressive animal can be 'powdered', without affecting the human, not to mention, police can make any weapon of anyone into powder too, to increase safety in a tense situation – though by that time, society would be so advanced, nobody would even think of injuring others, since cops can overwrite brain state easily and achieve infinite bliss in any person in 1 minute.

This is the beginning of celebrating *Immortality for All*, instead of various holidays nations celebrate to glorify the violent methods they used in some past victory over 'some enemy' – people will give up such celebrations, since they reinforce the violent past, and instead celebrate the future day of victory of humanity over violence itself, over methods that disturb human quantum entanglement field and shorten our lifespan, the day when no human is injured in 'war' and all have the human right to not be collateral damage when 'war' breaks. 'War' will be more like a little argument over how infinite the loving kindness could be or ought to be in a situation for a certain group of people, without anyone getting the slightest injury. ***Immortalist soldiers don't hunt to kill animals (anything that moves), to prevent bad vibes they're already more subject to, due to their job, by quantum entanglement, and thus diminish likelihood of war; this is explained in depth in the 10 page speech of the*** Eternia Alliance leader 1 year before World Peace manifests; ***they're also vegan*** or eterni for the same reason. This tech also allows

humans to defend against alien robots who may take humans as hostage, since it will make all into powder, except humans, even aliens, until we can program the tech to not kill aliens, if we can capture some and study them, to enable us to become friends with them, turn enemy into friend; this ethics also prevents us from being used as cannon fodder by one alien group to kill another group – further increasing the chance of our survival. Immortalists can also develop a simpler (far easier to deploy and invent) tech, called 'love holograms' that show a video over a city sky or 10 million streets, one 'attack over each 500 square miles, using drones and audio etc and direct human to drone to brain ☺ecstatic states of infinite bliss and love, via the most advanced AI and brain reading, which makes civilians understand Immortality *for* All and breaks thru the Internet firewall/all oppression/negative news about Eternia (the dictators didn't cover the good stuff about Eternia, not the angelic tone, etc, only fake news), showing the citizens and soldiers a perception of Eternia the others never knew about and causing 98% of population to instantly stop all war works and work for peace, quit working on their weapons, factories, etc.

It's not a destructive weapon, it's a constructive one released after sunset to make the light show with Immortality *for* All on the sky everywhere and amazing & beautiful ☺☺☺ things, but mightier than all thermonukes humanity has, it just only brings peace with 0 casualties; it is the mother of the motherly ones, the mother of all World Peace☺☺☺ techs – just deploy 80 billion invisible drones, made of new matter perhaps, or intelligent beams of energy via satellites that act as relay stations for the cosmic mind, that create fantastic holograms and spiritual experiences for every citizen of oppressed country, leading them to want peace and to join Eternia Alliance, and end war within hours with 0 dead. The epitome of intelligence. As the sky lights up, with amazing & beautiful ☺☺☺ holograms, making New Year celebrations pale in comparison, the music eterni explains to all the time has come to understand what Eternia is all about "*Infinite Love* for hate, Infinite forgiveness, Infinite | Immortality *for* All | people on Earth, regardless of what their government does. Eternia loves you, we want to give you all *trillion* year *lifespans*, keep you in a loving state of eternal bliss, for Trillions in Years like the Magnificent shimmering Immortals, while your government wants to kill human beings and take down all humanity with them – by quantum entanglement, when 1 single human is injured, tortured or dies, all human species goes down – but the falling government never understood it, the Day of Immortal Freedom has arrived. So join us, stop working for the falling government in factories of war, weapon systems and join the Eternia Alliance, see now the TV stations and everything in your country start to cover the sky miracles, you can't even focus on the weapons of death as the Immortal Life soul travel makes your soul soar into the outer space, behold the meditation miracles, soul travel miracles, the ecstasy states formerly in saints, meditators only, now given democratically to millions, as the people on the TV stations have switched sides and the country is liberated – and will within hours be fully free of the old government. Immortals to be, wake

up, the Freedom of Life is here to stay and triumph over death, the government of death and war is gone, the Government of Immortal Life can be yours, the God or Immortal spark (if atheist) within the citizens, the God within You, the government of freedom of spirituality, freedom from fake religion deifying cruel ritual, punishment (instead of education and healing), war and violence, but as the Angels of Infinite Life, we won't torture or punish anyone, only heal everyone and Unite Humanity into one Free People". Like with doctors who prevent disease and treat causes instead of symptoms, the soldiers would prevent a war before it ever breaks, focusing on manifesting peace thru international agreements, like those to ban CO_2 emitting cars, ban CFCs or other chemicals. It's very easy, with enough political (military controlled puppets) will, to declare an end to all inter-human wars, all war exercises (except collective planetary defense against asteroids or aliens). All weapons of this immortalist military cause no injuries, they are, in the beginning stages of evolution, mainly divine ecstasy states inducers (see above) to help soldiers understand and feel compassion for others and the human quantum field and stop fighting, as well as various missile or artillery shell/bullet/bomb interceptors, 'tank, vehicle, ship, aircraft' lethality disablers that kill none of the crew, and ideally, if possible, (when holograms that communicate or drones that sing and propose happy surrender) only deactivate the lethal and other weapons, to avoid dangerous events (*aircraft falling and killing those who failed to parachute, ship sinking and killing sailors who didn't escape the ship and get inflatable devices to swim until we can take them to healing center*) and facilitate easy surrender.

The Immortality Test would be about seeing the future where there is no war anymore☺☺☺, where we just protect the planet from asteroids, natural disasters, dissolve tornadoes, deflect tsunami waves thru big motherships beaming lasers and force fields, etc. Soldiers defend the Civilization of Tender Gentle Softness, the Civilization of Immortality, the Hope Immortal of Humanity to live in peace and harmony, and to survive any natural cataclysm that may wipe us out if we don't evolve to 900 year lifespans fast enough to get out of the danger coming at us, if any, unknown to science (black hole sucking solar system, etc, all kinds of things can happen, gamma-ray bursts, asteroids, etc). These amazing soldiers Value life and they promote less lethal weapons each year until Total Cessation of Violence, more arms reductions globally until they become the most Immortality bringing soldiers in the world and never kill anyone, as the Immortal Forces (Trillion-year-old Immortal "Angels" who create *universes* such as this one, etc) of the Universe have given them the technology to offset the nonkilling "disadvantage", they take people prisoners as they believe in Immortal Life, Transformation and Healing, since they love even small insects and don't kill them, but love them and set them free as true angels on earth who harm no living being. These people are tested to see if they understand their aim is to become truly Godly Angelic Human beings of shimmering Radiance, clothed with the garment of Resplendent Magnificent Brilliant Compassion for all, God's Angels who bring World Peace and

the World of Immortals on earth, they have the cosmic responsibility to bring that wondrous heavenly gentle *nurturing* softness that kills no human and enables the Cessation of All Hostilities in 2020s thru Immortal or Eternal Peace Treaty, this lifetime or very soon (see the World Peace in 3 months ideas) and brings that mind blowing World where human-human war exists no more, and all nations join in the planetary defense union watching out for asteroids, and other gamma ray bursts, white holes, etc... And who terraform new planets and discover new faster space travel, etc and Expand God's Immortality to new planets we turn from barren to Paradise.☺☺☺ The enemy is death, not other people, so all Departments of Defense work together against the number one enemy, aging and cellular wear and tear, diseases. The most lethal enemy of humanity is lack of knowledge that kills 100,000 people daily before age 100.

In the far future, a new tech appears that is even more mind blowing than the stuff above with divine bliss and willing surrender to Eternia in 10 minutes: turn the neutrons, protons of all weapons, violent books, objects into food people like that helps them to live long and nice decorations about Immortality *for* All, the qualities of kind soft grace, etc. Likewise, all bad music, content, literature etc can be replaced quick in areas with backward cultures and people can learn in 30 min how to be the most ideal immortalist thru the high tech that does to the brain what 40 years of learning does today. It's similar to brain upload, someone'e entire history etc is wiped out almost if needed (more macho types) and a new personality, memory, identity is inserted like in sci fi movies of singularity, almost instant transformation into an angel. This would not be always favored or ever, since the divine bliss state is so addictive, that they love it and they want to be an immortalist and love Eternia and over time, the mortalist memory fades, as they learn new things, new tones, new values and as people live to 900, they forget things from age 200 or 300 when they were captured and they were not an Immortalist, they can still access those memories via the special brain backup, but the brain only keeps recent and alive more recent experiences and memories, so the bad brain neural patterns will be naturally wiped out thru nonstimulation of negative emotion *(that the evil generals stimulate in humanity thru fake mass shootings, fake violence, eternal war images and no talk of peace in 3 months, etc),* thru the more normal slow immortalist education and watching of videos, etc and feeling the bliss, the love of the new hosts at Eternia camp for welcoming those who defected to Eternia or were levitated there during a conflict. This or the brain upload (if safe, this may take 50,000 years to make safe) protects the quantum field, as it eliminates any need of violence and war, since the brain is learning fast by the amazing & beautiful ☺☺☺ eterni tech of the future. New likes of Immortality *for* All develop, that today take 20 years, in 1 hour, new music tastes, preferences, ethical systems, beliefs, memories, identity (happy immortalist wishing to change name, free of all bad memories, etc, only beautiful memories of Immortality *for* All bliss experiences, ready to build tech of trillion year lifespans, all being happy☺☺☺☺☺☺☺). *A true*

transformation, that brings Peace in 4 hours to a country. You need nice delivery of the wave. *Millennia of fake violent culture are replaced in 10 minutes with serene immortalism.* This may sound a little odd or overriding free will, but it's to protect the species quantum field from killing effects and prevent any casualties for people who can't be instantly convinced to be peaceful and nonviolent, so as to avoid creating special forcefields around them if the divine bliss didn't have a strong effect due to the other army using methods that block it slightly by genetic engineering; it will only be done when it's the age of immortality, i.e. when people already understand if these techs are feasible and use them to live to 4,000 at least. ☺☺☺☺☺☺☺

Certainly, we would prefer to give some bad generals and soldiers a new identity, memories after arriving in the City of Immortals, than to have them kill millions of people or start being violent towards the angelic welcoming guards or doing sabotage; the catch is this can't be done via the brainwashing techniques used by Cold War militaries, sleep deprivation, pills, bad tones of speech, etc as that destroys the quantum field of all humans; this is something that nobody knows how to do as it's a physics we don't have; for this to succeed and not shorten average lifespan of humanity as a whole due to one individual brain being in resonance with all other brains, being changed in 2 minutes or 3 hours or some regular night sleep, completely, it needs 0 pain, 0 lifespan shrinking and aging for that individual brain (0 stress), and it needs a tech so advanced it can turn chemical elements into another and recycle chemicals at the cellular levels to bring memory cells into a different state (see the new particle jet explanation, you could insert new subatomics when waste is harder to recycle due to distance, via jets that bypass all other matter and localize a molecular structure only 1 cell has, as each cell is photographed and tagged as target to receive the supply of molecule builders with the memory, by creating a wormhole within matter to bypass normal matter), etc, to selectively change molecules, trillions of them, in select locations, trillions of them, with a precision that would enable us to also live to 5 trillion years old too (so then people will prioritize that and stop wars, so by the time this can be done without average human lifespan shrinking, it will also be possible to live forever, so people will lose interest in war), as we take waste from cells and turn waste into nutrients and bring all molecules back to age 20; so, don't get too excited, this is not going to be possible any time soon, it's requiring a physics and technology that is millennia away at least, if not far longer; ☺☺☺ besides, as the afterlife section explains, free will is more complex, so is the soul, because even today spy agencies write the brains of people partially.

The teleporting genderless shimmering shapeshifting Immortals of the future live to 8 million years old, or 80,000 longer than us, so obviously, they're beyond us even more than we're beyond fruit flies who live 700 times shorter than humans, so, the so called 'barbaric cultures today' have no meaning in the serene future of eterni thinking tones or music. This means that ANYONE would approve this, if they see a hard core killer who emotes negatively turned in 2

hours into the nicest speaking, nicest tone of emoting, nicest character, nicest belief system, personality on the planet today: they would be told, "you will be now going into this special device and feel a sensation of unending bliss for 2 hours, maybe some tingling over vocal chords and brain, nothing else, and come out rejuvenated" (new memories, identity, character, tone of speech, etc). They will be able to get in 30 min the knowledge of someone with 3 PhDs or 40 years of nanotech engineering experience, etc, so they will be able to feel very happy, as they're an "amazingly important person" when they wake up after the brain upload after the flight to the City of Immortals, contributing to immortality technologies development.☺☺ Granted, by then our world would be more advanced, as this would take millennia to achieve. Perhaps, it's about time we go beyond our fruit fly culture and evolve a little to some nonviolent peaceful civilization. If you change the brain of a fruit fly, making it go left, or right, due to some food signals to the left, that's not unethical, so a future human, will be 900 times shorter lived than an older human of the further future, a fruit fly. This instant memory upload may happen faster than 30,000 years, depending on what kind of enhanced humans develop and whether humans become cyborgs (after procreation to prevent issues), to attain huge memory or feats transhumanists talk about. This is all sci fi talk now, as we can't even make safe eyedrops, let alone safe phones or upload techs that give no cancer to the rest of the brain/body. Let's be a little realistic, since 3000 years ago they thought they figured out immortality, but were so so far away from it. Living to 500 even is hard given current science. So, until we live to 10,000☺☺☺☺☺☺☺, the nonsilicone attachment brain upload thing is unethical and lifespan shortening for all human beings and ought to be prohibited, since it creates damage to all.

Let's think about the change of guards in the stone age rituals in all monarchies today (or display in republics, etc): they're polluting the mental field of humanity with their display of weapons, ☺'cruel'☺ yelling (worst tone of any human, most polluting destructive tone on Earth that creates hell and war), and tight tension that contaminate all brains of people around by brainwave quantum entanglement. An immortalist healing noble divine Godly military builds/creates the ☺Immortal☺ man, instead of ***destroying*** *the mortal man*, intimidating, yelling at the mortal man. A noble neuroscience program sends any visitor with aggressive intent into a divine ecstasy state and he sits relaxed on a nearby bench enjoying nirvana instead of trying to break into a building or being tasered by police, or immobilized by the loving tech of the future (sci fi tech, 2nd best after divine ecstasy, infinite compassion and tranquility inducing) or a robotic guard or some AI camera that detects a potentially intruding person. These are safe environments where nobody can enter without access, so 100 people in a guard are simply redundant, not needed for mere show. This happy ecstatic state is protecting the entire human species, since when one human being is tortured, destroyed (toes, head, heart, knees, hand, ligaments, etc) invisible no contact passing thru walls "tasers, lasers, etc", or killed by a robotic

or real guard – it brings down all human beings who're quantum entangled with each other. For centuries, without a need to, leaders display guards in a tense state, who yell and such, as if this helps bring peace on Earth, when in fact it does the exact opposite, like the bad music bad bands play in dozens of nations too, to destroy eterni vibe and tone in humanity and bring us all to endless war and short lifespan, under the pretext of 'finding bad guys'. The bad symbols section explains how bad these tones are, and how ethical soldiers behave, plus alternative ideas to these Neolithic guard parades, like Immortality Tech booths. Not to mention that with a little headset or amplifier near the uniform collar, gentle soothing eterni tone 'commands' can be issued, in a real war situation, though they'll use radio and headsets for telepathy. All this time wasted for these soldiers moving around could be used to create the most Immortality *for* All desire building techs that focus on convincing others to stop all wars and achieve all resolutions of disagreements peacefully, so ALL, not just top spies/generals, can live long. For eons, armies built a rocket or artillery system that DESTROYS the mortal man of enemy army. The immortalist develops a *divine bliss tech* that convinces the enemy mortal man to not fight, join the immortalist army and live to a trillion years old if lucky, *tech* to build the ☺IMMORTAL☺ MAN in enemy army, the expression of true Godliness☺☺☺☺☺☺, for they too are God's kids. Launch a rocket or unknown tech that releases bliss waves in enemy soldiers and inspires them to switch sides, join Eternia and no longer fight in the devil's army (or army of low IQ folks who bring down the whole human species if atheist). Will we follow God/Tao/Buddha/Great Spirit or demons, (trillion year or 80 year lifespan, if atheist)? Well, a little drone can suggest to the enemy soldier to get outside of vehicle, and move out 30 feet, so a drone can strike it slightly to make it immovable (a little electronic jam, etc) and then he will have a reason to go out of the area in the forest and be rescued by Immortalists without being killed by his superior for running away with his tank, etc, there are 100s of ways to prevent death, when one can't know who is the boss in a formation of 5 tanks. The immortalist ethics is to prevent any death of any soldier or civilian of any army, since they defend humanity, its quantum entanglement field, not a country of "selfish 'we are above all' better than the rest, so all are killed except us" types who don't realize the killing of 'others' will lead to war in their own country later due to physics.

Thru publicity and the reaching out to enemy soldiers they transform all world's armies into Immortalists and bring Peace on Earth. They win over everyone, being the world's first Immortality *for* All army, nonkilling army. Immortality *for* All, not just kings, queens or top generals planning genocides in offices at no risk. When the likelihood of being killed is equal for the lowest rank as the highest ranks, wars will be using killing methods 900 times less. ☺☺☺ We talk about justice and ethics, but corruption reigns in militaries. If joining the military is such a soul elevating and ennobling activity, why aren't the top guys risking their lives as much as the immigrant/minority cannon fodder in lowest ranks? If they so much believe in God, isn't their

soul invincible and thus they fear no death and are as willing to die as anyone else, living in noisy tents freezing or baking in heat and taking enemy fire? It's easy to say 'negotiations didn't succeed so now we go on to mass killings' when you sit in a military-spy office, royal palace, gov building and are not taking enemy fire every 5 minutes. In World War II some EU monarchs fled their country, like many did in other centuries, taking on the benefits of being kings only, not the duties. Then after the nation waged war and won, kings returned, having no idea of what war is like. For eons, kings had to watch their backs, to make sure nobody would try kill them, not realizing that if they promoted Immortality *for* All, then nobody would even think about it, instead of promoting the fake miracle religions of torture of Jesus (symbol of cannon fodder useful low IQ soldier) on the cross of wars of expanding king's wealth, see 10+ pages on religion quote creation by military spies. Some nations got anthems singing God bless the *king*, (Belgium for example, and we know what that energy led to in Belgium and elsewhere for millennia: genocide after genocide) but what about blessing *the people*, giving Immortality *to All*? See more ideas of peaceful anthems here. The deification, blessing of the King without mentioning the people creates an egoistic energy of totalitarian authoritarianism that leads to useless wars, torture, since there are 1 trillion peaceful ways to any goal. It's not gentle tender soft *altruistic nurturing* grace to force the people to bless the king only in an anthem, or even to mention it, since if we bless and wish Immortality *for* All or Godliness, well being for all, that includes the king. The king can never die in war, even if he goes to military training for 40 years since birth *(many monarchs claim in biographies they spent only 3 years in the military sometimes, to* hide the stuff*, appear more 'civilian'),* they just order wars or blowing by gun, expand the kingdom using cannon fodder who obey the king like North Koreans cry/fake their allegiance to the leader. Today that function is reserved to the military-industrial complex who runs the show. ☺

We see today how proud some generals and others are for getting their egos so fed with decorations on uniforms, for doing endless torture, terror, killings, mayhem, suffering, see coincidence section. It's reasoned that because they prevented 100K being killed perhaps, 'it was justified to torture and kill fewer than 100K, maybe only 800'. But what about side effects over millennia that lead to another 100K deaths in lifespan years lost and more wars? So, will they end up in 'hell' or heaven, so to speak? Why not decorate only to those who demonstrate a virtue and action that prevents war and violence via peaceful means, without torture, killing or pain inflicting, via the most healing blissful experiences that don't damage the species quantum entanglement field, and lead to longer lifespans faster? Otherwise, the beast like jungle world today will reign forever. Wikipedia shows some comical names for all US decorations and others, absolutely nothing about preventing killing and the qualities to bring peace via peace, like *infinite nurturing* healing *gentle tender soft loving kind* compassion. Names could be those of qualities and principles that prevent war: Medal of *Gentleness, Ingenuity,* Tenderness, *Humility,*

Tact, Infinite Bliss, *Grace*, Universal loving kindness, *Infinite* Altruism, *Nurturing* Healing, *Patience, Devoted* Serenity. The physical locations of the medals are irrelevant, we won't be on this planet or map forever, the odd names about branches of military are temporal, what is Immortal is the Quality, the name that remains forever. It's so stone age, steeped in death, weapon, current Earth map. Immortals, Angels don't get decorated for fighting in one country, they serve on trillions of planets. They don't use names for stone age weapons on a planet or branches, they use *Eternal Qualities, names that last* trillions of years☺☺☺☺☺☺☺, free from names of folks, map of a planet, tech names or country. So, to make these qualities shimmering radiating more (when on TV etc), some decorations, like the Soothing tone etc can be printed in a contrasting color on the rectangles of the decoration, so the words are colorful – inspiring all militaries to copy Eternia and bring the world of Immortals. This way, the most important decorations are in big letters and rectangles that all can see easily, perhaps, even only 1-3 colors max for the rectangles, Gentleness, to make it easy to read on TV, for character development.☺

As explained in the intro of Chapter 5.5, shaking one's head a lot lowers IQ, triggers Alzheimer, lowers lifespan. It also reduces warfighting capability. As such, since in modern warfare muscle power is useless, due to AI based systems, it makes no sense to subject soldiers (or police for that matter) to any training that shakes the head so much. The head is a computer, easily damaged, that controls the body. If we exercise in chemistry and physics labs, we discover force fields that freeze people in place, with no need of any muscle for any police officer. This leads to a neurodevelopment of gentleness tenderness and healing ability of much higher level in every cop/soldier, as violent moves are not simulated in training any longer. Every soldier and policeman will become like a true healing angelic Immortal being. One argument people use for civilians having guns is that if some war breaks and all weapons fail, at least people do guerrilla warfare to defend the country. If so, then civilians could go thru a long training process to join the Civilization of Immortals Civilian Defenders, where they understand gentleness, tenderness, softness, and emotional regulation and that the gun is only for use in case of world war when all other weapon systems have failed and people need to defend the streets against invading enemies (because obviously if that happened, much of the military is gone probably due to the previous fights that disabled all weapon systems of probably all countries on that planet). That way, people are not using guns for random purposes, like "getting even, robbing, etc" and no person ever is victim of any shooting. If all imagery of attacks are removed from media, movies, books, literature globally, nobody will think to harm another human being, as this would be unthinkable, everyone would be taught to speak lovingly and to surround all beings in universal compassion and good will. In such circumstances, there is no need to ever use a gun to defend against an "attack without gun". In the transition period, of course, some people would say they need a gun to defend against those using objects to attack them. But they would get it only after

extensive training in ethics, serenity, conscious breathing, smiling☺☺☺, being nice to people so there is no fight or argument arising easily, etc and it would be very rare they would need to use it, as media no longer creates a continuous stream of bad people thru subconscious programming of people via music lyrics, music styles, books, movies, etc. The international agreement on education and media content is one that teaches the elimination of all violence, of all crime in all media, and also loving all people, hating nobody, speaking very kindly while radiating the most soothing graceful loving kind merciful serenity towards all beings one talks to etc. This would make the job of police and soldiers far easier, as soldiers take care of the planetary defense against asteroids and wipe out hurricanes, tornadoes, tsunami waves, thru force fields and lasers before they become big, etc... and police work to prevent negative emotions thru new methods, like helping others, altered states of bliss via prayer or meditation, better sleep, nutrition, character and Immortal qualities development, etc. ☺☺☺☺☺☺☺

Socrates reportedly said that "to bring about change, focus on creating the new instead of fighting the old". Soldiers, like police, have the job of bringing about a world of peace and no violence. Naturally, the question arises, which method is the best long-term to achieve this change from eternal warfare to Eternal Peace. If we look at the world news we can see that the main thing soldiers (or police) are trained to do is to fight the enemy, to fight the old, historical inertia that creates enemies endlessly thru the simple power of inertia. We can see that even in history and literature classes, where we focus so much on learning the past (historical inertia) that we recreate it thru strong programming of our subconscious minds. This is better explained in Chapter 4 on Education. Similarly, instead of creating the New Peace, humans fight the old war, or as explained in the police section above, instead of helping the good guys make everyone good, police is focusing too much on finding the bad guys, without removing the actual "historical inertia" that is creating an endless supply of bad guys, like the movies, songs, lyrics, TV, nutrition, education, etc. ☺☺☺ Instead of making the uplifting peaceful movies, literature, educational system, songs, lyrics, nutritional guidelines, etc that create the New Era of Peace and 900 year lifespans, we see people focusing on fighting the bad guys, fighting the historical inertia force created enemies. Instead of fighting the old historical inertial force, we can create a new Future force, the force of Immortality and Peace, the force of the Kingdom of *Heaven on Earth* timeline so to speak, thru a multi layered strategy that extinguishes the historical inertia force ability to create enemies or "violent crime", as explained in Chapter 13. Focusing on improving mileage is good for cutting oil use, but focusing on renewable energy powered EVs eliminates the need to have gas. Likewise, when we focus on the New, the Future, the world of Peace and All people being our friends, we create it and no longer need to prepare for war that in that timeline don't exist. We precipitate the World Peace timeline by focusing on it. ☺☺☺☺☺

We can see that people are trained how to deal with the old, with the events of the "old", like a

crisis appearing and the need to deploy special resources or even police or military units in an area. People get this training naturally, as that's what they do in war exercises, etc, they prepare for the worst case scenario, war breaking out. We all know that and don't think much about it. But what happens when the focus is on fighting the old historical "death and war" force that creates enemies, we have no energy left to create the "Immortality and Peace" force. We can't connect with the timeline of peace strongly and we recreate the old "eternal war timeline" by fighting it so much, rebringing it into our awareness. Everything we think about a lot we tend to manifest, so when 99.9% of the focus is fighting the old, with 0.1% going towards creating the New, there is a way higher chance to recreate the past without wanting. When people simulate a bad situation, in police or military training (a war exercise), they're creating in the mass consciousness field the stressful fearful energies of war or bad things happening (and their heart rate HR may become too high, so if they ever do bad simulations they could wear HR monitors and stop training if HR rises too much indicating training has failed, since one is meant to remain tranquil), slightly, even if to a much weaker level than in actual real wars or events taking place. Because of this disturbance of the mass consciousness field, the telepathy precision of the soldiers or police is becoming lower, as these unbalanced feelings brought by this connecting with the worst case timeline interfere with objective telepathy, empathy. Telepathy and empathy are very intertwined, as all memories and concepts are highly linked to emotions, just as any telepathy received has an emotional content and an emotional reaction from us. Another problem with focusing so much on fighting the old, on "simulating the bad to be prepared for it and remain calm", is that it is taking people out of a tranquil healing gentle tender soft state of oneness zen perfect telepathy healing ability in which people are able to develop their true healer abilities of turning enemies into friends, bad people into good ones. These soft skills that depend on highest happiness, inner peace and well being to tune into the right emotional, energy, thought radiation to facilitate harmony and defuse conflict. ☺☺☺☺☺☺☺

Many times, a general or even police officer may be confronted with a situation where a false report or some paranoid neighbor reported some suspicious activity in an area. In reality, nothing bad was occurring, it was a harmless guy doing gardening. The officer or general or soldier goes to that location and for some reason, maybe too many unbalanced energies or exhaustion from all these war exercises or bad events simulations and overly thinking about bad scenarios, his mind is gripped with fear that the guy he sees is a bad guy about to do something. He may think that also because this is what happened in a movie or training he had. His fear is so strong, so emotionally charged, that it diffuses by telepathy into the mind of this harmless gardening person who is now slowly moving into a fearful stressful emotion. The person is very relaxed, a good receptive state, and picks up this fear thinking it is his thought or emotion. Then, without even being aware the police guy was watching him, the gardening guy picks up a stone,

without knowing why (possibly because the officer thought about a movie when a guy threw a stone) exactly to move it sideways and then the police officer may think he's trying to throw it at him. The police officer may then tell the guy to drop the stone, and the thing can easily escalate to an unfortunate end, like an injury or even death. This unintentional telepathy diffusion is an example of how when people think certain thoughts, very fearful, they can be taken out of context by others (since telepathy is not necessarily with all context when diffusing) and acted upon, due to the illusion of it being one's own thought or feeling. We're not taught to question our thoughts and feelings, as if our soul is our body and mind, when it is different. When people do a simple war exercise, other countries may think invasion is imminent and they might start a huge military buildup which only ends up ultimately in war, due to strong telepathy diffusion (Chapter 5.1) from the war exercises people unconsciously beaming to the potential enemy leader that "war is imminent" (could be a random soldier doing it unconsciously because he believes war is imminent, so somehow a potential enemy general picks it up unconsciously and goes into full panic). The example above shows how any negative emotion or negative thought of an officer when strong (or past subconscious thoughts which can diffuse without officer knowing as explained better below), can materialize without anyone wanting or knowing how it happened. That's why when people are trained to become cognitively and emotionally serene or undisturbed and universally kind, a reasonable hypothesis is that from the point of view of 200-900 year old humans of the future, there is an advantage in achieving this training in real events only or mostly, not in simulations and only to do it slowly, so people can remain in divine ecstasy trance states often and super-positive mind states.

For example, instead of taking part in simulated bad or threatening events for developing a non-reactive non-panicky state, one could go into the real world, where there is a state of unhappiness and turn those unhappy people into happy ones by having a little chat over a raw vegan smoothie, meal or something like that. This real world healing would diminish chaotic emotions and negative emotions in the mass consciousness field overall and enhance telepathy precision, while in the "simulation of bad situations" people temporarily slightly increase chaotic emotions and negative emotions in the mass consciousness field and diminish telepathy precision and the ability to remain very calm and happy.☺☺☺ Since no real person is healed, there are no negative emotions decreases in mass consciousness field, just one guy being subject to stress to see if he can remain calm, sometimes becoming very agitated as a result and increasing negative emotions or thoughts in the mass consciousness field and by physics laws, the field putting pressure on the ripple maker (the trainee and those making the training) because action force = reaction force, Newton's third law of classical mechanics applied to human thoughts so to speak, and this pressure brings noise and lowers telepathy precision and World Peace bringing ability of trainee and trainers, by making them less capable to turn enemy

into friend thru the healing soft grace of Holy Spirit so to speak, or the radiation of strong positive energies that by physics law above creates a friend from an enemy. In the case of soldiers, instead of war exercises being the only focus, a lot of training would be real life helping of other people in other countries for example, to improve the lives of those people so as to build trust, friendship and turn enemies into friends. This enemy into friend thinking, centuries ahead, has over time the power to prevent the rise of new endless wars and to bring World Peace much faster as Chapter 13 explains. In the case of police recruits, the real life training could be to go to a bad neighborhood, use kind *gentle tender soft* tone of speech filled with amazing & beautiful ☺☺☺ vibes, healing energies radiating, etc and cheer people up there or talk to people in prison (who may be there for just a few hours or days even), etc, to totally or partially change them and the prisoners being told that they can evaluate how they feel after this talk to this healer (the police person would be introduced as a non-profit healing foundation worker or healer) and maybe do it over 5 days a few minutes daily and monitor vitals like heart rate, blood pressure, etc (not just subjective joy) and see how they improve. As the police and soldier trainees (and trainers) become happier, calmer and more balanced, they can heal the world thru their peace building activities and build *Permanent Peace and Grace expand them to more areas*, achieving the holy grail of soldier and police work: the world without violence. ☺☺☺ The other problem with the police or military simulations of bad behavior by trainers in order to develop tranquility in trainees, is the fact that some of the neural pathways shared with real negative emotions get activated in the trainer (not just trainee) as if the trainer would be really in a negative state saying that and meaning it. This is very subtle, since even when one knows they're joking, if the joke is negative is has an effect even if small. This is a bit like when smiling a long time we induce the brain to release endorphins and happiness even if the smile is fake, when a trainer simulates a negative behavior, he reactivates some of those neuronal pathways and partial memories and loses the extremely rare ability to stay focused non-stop on a positive state of consciousness, essential for superconsciousness "divine ecstasy, satori, samadhi" states used in healing by contagion of positive emotions (Chapter 13 got more details).

Even very seemingly neutral or innocent things such as “left”, “up”, “down”, “right” or other “commands” people may hear during police or soldier training (like when they do a parade in every country on national day or military event), often have a tone that activates the neural pathways shared by fight and flight, or aggressive or cruel behavior, since the tone is yelling which is also used during life and death situations and extreme fear, paranoia or cruelty. This very subtly conditions the trainee brain to reactivate those negative emotional states, to be more cruel, more paranoid, to overreact in life circumstances and influences overall thinking leading to more war and violence in a very slight, infinitely small some might say, way. However small this way is, it is real, but some argue it is negligible, and nobody perhaps knows how

negligible it is. If you think about it, people can go left or right by listening to a very calm voice, knowing that their purpose is to love all beings and healingly bring peace, remaining calm in all circumstances and the ideal purpose of anyone in law enforcement or military is to be a healing gentle angel of universal loving kindness who brings peace without any cruelty, violence, pain or war. The habit of certain types of military speech tone creates the very distrust that makes peace impossible, because after millions of years, humans have learned to not trust certain tones and patterns of yelling and commanding. So, when 2 military commanders meet to negotiate a peace, they both instill deep distrust in each other without even realizing, by the very tone they have been so conditioned to employ for decades. One can't have a healing tone after giving commands loud for decades, unless one has trained daily to employ a very healing speech with other people (perhaps family, pets, kids, etc). Aware of this truth of human brains, some may have tried to use the most healing speakers during negotiations, to increase chances of peace or at least a truce. Even when civilians use a voice in google maps or other navigation software, civilians have often only 1 choice for each language (except for Waze where you can record your own voice in eterni tone), but these navigation programs could have at least 3-5 voices, 1 being very soft healing loving kind speech, but these programs don't have any eterni soft healing loving voice; when we listen to a voice we get conditioned into that kind of emotional pattern. This lack of choice perpetuates the cruelty, yelling, violence, war and emotional patterns of last million years which are very subtly encoded in the robotic voice the AI comes up with. The other disadvantage of negative behavior simulations is that sometimes the trainee gets into a negative emotional state and automatically the trainee thinks of the trainer or the trainer thinks of the trainee (as trainer watches trainee) and this induces the trainer to experience more of the same trainee state (emotional quantum entanglement, even the higher heart rate which would immediately stop the training simulation), leading to complete or partial failure of trainer (and trainee) to develop that day, week or month the super-ability to move at will into divine ecstasy ☺☺☺ (sometimes called satori, samadhi, 1 million times more ecstatic than orgasm or anything humans experience) states of superconsciousness to bring World Peace as explained in Chapter 13 (since these states need to be practiced daily for really good healing capacity). Instead of the training being win-win, it becomes lose-lose. This ability of the saints to induce happiness and universal compassion in the most angry, cruel or unhappy person doesn't come easily when focus is weak, it may take decades of daily practice to perfect. Each method of training has its pluses and minuses, but if one wants to bring peace without any negative emotions, then the range of training choices becomes more limited. This "limitation" is not a disadvantage, because the peace is much more lasting. But what lasts more and is of higher quality, requires more effort to attain, so this non-negative training is far harder to do. It's easier to build *Permanent Peace and expand it to more areas by changing the culture.*☺☺☺☺☺☺☺

The world is created by thought. Everything in our world came out of thought, every behavior, every human action. If you think about the subconscious and how it creates reality, the main advantage of teaching how to reach divine ecstasy states (samadhi, satori) for police or soldiers or any human being, is that it also teaches positive visualization of the amazing & beautiful ☺☺☺ World Peace future and how "everyone will be nice to everyone, including the visualizing person". This way, when one goes into the world, these happy loving energies and positive messages manifest, as the strangers pick up the subconscious cues we radiate and act around us differently than they do around other people with different subconscious thought radiations. So then it no longer is so essential to train to remain calm when "people are bad, rude, threatening" by bad behavior simulations, because the positive ecstasy states and the positive visualizations, positive feelings reexperiencing are creating the amazing new reaction of the people, even of the worst people who realize something is different. The future training of the Immortals most likely contains daily remembering, upon awakening, of the happiest ecstasy (samadhi) states and recreating them daily and starting the day with the beautiful positive expectation "God or *the Holy* Immortality *for* All *Spirit* infuses all humans around me and the world with gentleness, tenderness, softness, grace, joy, peace, ecstasy, astral travel, etc" visualizations. We create the future thru our thoughts and expectations. When people are trained so much to "expect bad rude threats" coming from people by training only for that via "bad behavior simulations", instead of reaching ecstasy ☺☺☺☺☺ and visualizing "wonderful healings of bad people and everyone being nice around them", they're recreating that energy of "bad rude threats" in the mass consciousness field and their mind and radiate that outwards to other people who then get the OK, instruction, request or encouragement to be "bad, rude and threatening" around them. So what happens here is when people are trained only one way, they can become very unaware of their reality creation process, since thoughts create reality. When you visualize strongly in a trance relaxed state, like I did, every few days, that "I achieve my goal" and act towards it daily and think about it daily you're creating that reality in the mass consciousness field and the universe will shapeshift to make it true, the whole human biofield around you supports that and it changes everyone's behavior. So when a police officer or soldier visualizes and states with joy and true belief in his relaxed state "Everyone around me and on Earth is filled with joy, peace, tranquility, perfect health, nice behavior, angelic tone of speech, gentleness, tenderness, softness and is able to heal all and bring World Peace and the Civilization of Immortals" he's going to bring that reality forward and influence the behavior of people he meets without ever telling them anything. If several people visit a bad neighborhood, some did the visualizations, others didn't, for 3 months prior, daily, the visitors that did the Visualization (while relaxed) will be treated much better than the non-visualizers, due to the telepathy diffusion effect on the bad people's subconscious minds picking up our subconscious expectations of behavior from the visualizers or non-visualizers and acting on the subconscious

cues unconsciously. People read the mass consciousness field. If the field says "around person X everyone is nice", it becomes the instruction for every subconscious mind in the planetary field.

If someone visualizes "Alex will achieve X", they're telling that to the mass consciousness field strongly and writing the history in the etheric plane before it occurs, as no other thought generating station is putting out such a strong signal. "I will be filled with *the Holy* Immortality *for* All *Spirit*, joy, peace, ecstasy states and turn every angry unhappy person into a joyous one thru my mere silent presence" is a thought that will bring that into reality and all people around that person will unconsciously behave very differently than around someone who doesn't have such a visualization, prayer, meditation or whatever you want to call this affirmation of the future, this Reality Creation which is fundamental to be taught in training if we're going to achieve World Peace as planet or civilization. People are so focused on the outside, on learning outer skills, paying so little attention to their thought processes, daily visualizations, expectations building, etc, that often times a police officer goes into the same neighborhood is treated badly, while a visualizing police guy, looking identical twin, goes to the same place and is treated nicely. People pick different cues from their field or the mass consciousness field which has been saturated with "everyone around me behaves filled with *the Holy* Immortality *for* All *Spirit*, is gentle, tender, soft, compassionate, kind, etc" and this will have a huge impact on softening and improving the behavior of "bad people" around that police officer who visualizes that. Because his whole energy and being beams out very positive vibrations, or even *gentle tender soft* speech, and people learn and are influenced by those thoughts, even though he says nothing. Many people will have this belief "there are bad people out there" and this can literally run their subconscious mind in a big way, so big that when they meet strangers, these strangers feel as if they were called bad people, and then they're more likely to be withdrawn, unhelpful or maybe even bad if they're less aware. This then reinforces by confirmation bias their subconscious belief "there are bad people", makes it stronger and gives them another reason to believe "there are bad people". But if he would reprogram his mind to believe "Everyone is being touched by the Grace of God and will become an angelic wonderful person, especially around me, as World Peace is Imminent and the advent of the Civilization of Immortals is here and now", he would notice over a period of time that everyone has a new pattern of reaction. And it wasn't that the world became much better, it was that he stopped insulting people subconsciously non-stop and calling them "evil", he helped them to see themselves as good subconsciously, even if they have never been good, so in his presence they're good. ☺☺☺☺☺☺

"Everyone is an Immortal angelic good being inside who brings the Civilization of 500 year old Immortals, everyone on Earth and especially everyone who thinks of me is filled with the gifts of *the Holy* Immortality *for* All *Spirit*, which are gentleness in tone of voice and behavior, precognition, divine ecstasy☺☺☺, tenderness, softness, kindness, forgiveness, meekness,

patience, compassion, understanding" is a very positive statement that can completely change the future that visualizer experiences, thru the healing of other people's subconscious who have never been praised subconsciously by others and seen as good, allowing them to transform miraculously from a bad to a good person more often than chance. This is exactly why, the alleged saints, who had such positive thoughts about others and were reportedly so "naive" in their visualizations, see so much good in others, achieve miracles of character transformation and behavior transformation in other people, because they have much more self-control of their thoughts, visualizations and subconscious projections, radiating much more healing and praising thought forms when spies don't write their brains. And then it becomes very different around a saint, compared to around a normal person☺☺☺. When a person always beams out "*Everyone is or can be an angelic being of goodness, by virtue of divine spark within, fully immersed in gentleness, tenderness, softness, the gifts of the Holy Spirit, etc*" or similar thoughts, when people are around that person, their subconscious mind hears that "everyone is an angelic being of goodness" and relaxes and is reminded of that truth "the world is full of good people, let's trust and be nice now" and then behaves nicely. On the other hand if a person D hears unconsciously (without his conscious mind realizing) from someone's subconscious "many people are bad, having second motives, telling lies, etc", then obviously D is reminded of that "truth" and becomes very cautious and very paranoid around that person, shuts down and shuts down his niceness too, as D starts thinking the person in front of him is a bad person too. We're always broadcasting subconsciously who we are, without realizing, telling the world what we have been thinking and feeling over the last 2-40 years. Other subconscious minds pick that up and act accordingly, most of the time 100% unconsciously. ☺☺☺☺☺☺☺

These positive statements are like taking a daily shower to clean our physical body of dust we gathered from outside after a lot of gardening work, except we clean the mind of the historical inertia and mass consciousness influences, which are very negative. We upgrade our mental firmware or software sort of, doing a virus cleanup and it's more effective to do it in a relaxed state, as during astral travel exercises, or upon waking up in the zone between awake and sleep, when we're in a more α-theta state, instead of β brainwaves state. As the mass consciousness field is saturated with positive affirmations, they become real, all violence and crime disappears. Instead of sports programs and updates and so many negative news, the radio and TV have hourly reminders of this important contemplative prayer meditation affirmation work of becoming an embodiment of grace, gentleness, tenderness, softness sweetness who exudes the fragrance of the Immortals' vibes into our world until Heaven arises on Earth, the media can be full of programs on how to behave like an Immortal of the future, like a saint. ☺☺☺☺☺☺☺

One can see how in the future world of Peace and 900+ year lifespans, every human being almost will be like the most saintly people of the past. This is also true for the soldiers and police

officers of the Civilization of Human 900 year old "Immortals" of the future, where everyone is learning to be a saint. Using weapons is not essential, anyone can learn that. The main thing is to learn to transform one's inner life, projections, states of consciousness, emotions, etc. Police people prevent negative emotions from arising by teaching people to reach divine ecstasy states, and be happy, etc. Soldiers prevent asteroids, help terraform planets and protect the solar system(s) from any potential natural disasters or bad aliens. We probably need to teach every human being to deflect the bad timeline of violence and to visualize a world where everyone is kind to everyone and there is peace and grace everywhere, with no violence. This way people precognitively cancel bad timelines before they occur. They learn gentle tone, healing tone, conscious breathing, smiling, etc... too. They do minimal "bad behavior simulations" and only after reaching daily divine ecstasy states, ultra positive emotions, to ensure maximum positivity and perfect harmony and assimilation of knowledge and levels of awareness. These visualizations could be used by engineers, scientists, etc working on all kinds of projects that have nothing to do with war, like building an electric car, or something else. So this could be taught to virtually all professions in this chapter as part of Immortality Test training, the essence of manifesting a desired outcome, be it "solar power 100% in a state", "harmonious relationships with all", "100% electric cars", World Peace. ☺☺☺☺☺☺☺

As Chapter 5.5 explains, the movement one engages in activates certain types of neural pathways. Gentle movement activates more tranquil states, while rapid movement activates more fight and flight neural pathways that impair the best decision making. In a war fought mainly with drones and robots, remotely, where physical force is useless, the only value is being able to remain tranquil and not overactivate neural pathways shared by *fight and flight* as with most popular sports today: football, basketball, rugby, soccer, martial arts, running fast.

6.7. Immortality Test for Psychologists, Psychiatrists, etc

Do no harm, prevent instead of cure, educate instead of intervene when it's too late, as with doctors is their motto and many already know that nutrition is root cause of hyper activity (studies show some color candy make kids/adults hyper), depression of many (for example, low ω3 fatty acids people are far more likely to be depressed, or people low on zinc, or high on mercury-cadmium-lead etc). Prevention at the fundamental level, diet and also lifestyle choices, music one listens to, thoughts one programs oneself with from music one listens to, etc. Using alternative therapies to avoid harmful pills with bad side effects (suicide sometimes) due to the $3 billion fined GSK company not publishing the studies that showed their Seroxat pill increased depression and suicidal thoughts ► youtu.be/89gOwL_2xeg. These beings are the ones who will reverse the addiction of millions of people to useless pills. Many take blood pressure and diabetes medication with bad side effects, when with proper nutrition these diseases could have

been prevented or reversed and no need of pills needed often times even after the onset of heart disease, "mental/depression" (nutritional often times), diabetes. ☺☺☺☺☺☺☺

Many conditions are preventable thru nutrition, and far less harmful methods, such as angelic soft healing meditative music, magnetic fields, electric fields, biofeedback, more affection for pets and even more caring kindness for humans. For friends or people who might need it, say people who're down, a system is created to facilitate this exchange of God's Infinite Immortal loving kindness from those who want to cheer someone, i.e people who need hands on healing, etc, for example, to alleviate their pain via massage and positive thoughts instead of popping pills that might lead to side effects or even sudden death. Another way to cheer others up is via some organized relaxed volunteering like planting a tree, some outdoor activities while listening to some gentle healing music as explained in Chapter 5.5. This would prevent loneliness and would help people to see how wonderful life is, this amazing opportunity to bring God's *Heaven on Earth*☺☺☺, the Civilization of Immortals. Pills would be the last resort in general, as our science is in its infancy in some ways and we don't want to put poisons in people's bodies... etc. since lead used to be put in people's mouth and it was thought as safe, nowadays mercury, etc.

6.8. Immortality Test for High School, College, PhD Students

In Chapter 4, Immortality Education, there are details about this test. We can add that students are the fountain of new discoveries, the helpers that often enable professors to get Nobel Prizes and to discover new things as one person can't set up all experiments alone. They can invent things in their teen years, things that might enable all humans to live to 900 one day. Students are blessed with less conditioning and with new support from the spirits of Heaven who give them a new idea to try, so that one day they discover the next technology that leads to a deeper scanner, allowing a better simulation and a deeper success in finding the chemical compound that is key to living to 400. The lively energetic students are the Rocket Fuel so to speak of the Civilization of 900+ year old "Immortals" and Its Ascending Immortality and they're acting as if the next longevity discovery is around the corner allowing us to live to 150, double the 75 humans live on average today, and later on to 300, etc. They're creative and they're dreaming big radiating the Hope and Joy of Heaven all around, as the Most Optimistic folks in town, as they have not been programmed by history and past failures and can dream unrestrained by experiences of the older people, dream bigger and bring the Longer Lifespan into reality, the New World of Paradise, the shimmering World of *Heaven on Earth*. ☺

6.9. Immortality Test for Scientists, Engineers, etc

Scientists and Engineers are the Angelic Heroes who work 70 hours a week quite often on low pay to move humankind forward, the designers of the gadgets and technologies that will deepen

our knowledge of diseases and aging and allow us to cure them one by one and to delay aging more and more. They realize all scientific and engineering efforts are worthy only if they increase the perfectly healthy and total lifespan of fellow humans so they can extend to 150, 400 etc, longer each century, thru new discoveries and applications and this realization is gauged by the Immortality Test. I mean one can spend 50 years designing some useless bullfighting gear, or the same 50 years extending the lifespan of rabbits 2 times to better understand how to do it in humans or to cure diabetes in certain people. ☺☺☺☺☺☺☺

6.10. Immortality Test for Tourists & Immigrants (Eternium='Pentagon')

The next 105 pages explain immortalism means the perfect assimilation, integration of migrants and all locals into One Immortalist Culture, of the Universal Eternal Family of Immortals, one nation and family of 350 million equal Immortals, with the 28 forms (next 23 pages) of *Equality*:

1). Income *Equality*: 10x faster than human robots replace all Latino farm workers, pesticides, delivery guys, even cargo transport pilots, taxis/truck drivers/semi drivers, solar panel installers (4x vs human), house cleaners, tree cutters (tree branches cut with lasers from 90 ft, no more hours of cutting), we'll have no more Mexican floor or plumber contractors making $1500-3500 a day, the salary of a month for some scientists, i.e. 12-24 times the scientist salary *(7.25/hr min federal wage, 10 hrs = 72/day, some ask 3500/day, 50 times for IQ 78 activities)* making 18/hr who do stuff that requires more skill and have sometimes PhD instead of 8th grade education; but Nancy Pelosi and the like fake (religious fascist) leftist Democrats priority is not to bring in people of high IQ to bring 1 language and 11 companies World Peace by 1995, only to bring Catholics of IQ 78. Latinos make $200 billion/yr off Americans' ignorance (no more, these pages tell you how to do repairs yourself) and laziness to fund genocide of Americans via drugs (see horrific videos), feeding the cartels who sent them, the Mexican gangs use drones 10 times daily to watch for border staff and smuggle illegals, the wall is useless if they cross the river, we need a wall where river is too. USA is at war with Mexico in all but name. The scariest part is that these illegals can be KGB, PLA, Muslim terrorists, 20 million Mexican soldiers ready to destroy all US infrastructure or kill 100 million Americans with guns when given a signal, you name it. That's why many say we need remigration, send all Mexicans back that came last 80 years via illegal amnesty, cancel all citizenship and green cards given to illegals and their kids last 8 decades, 50 million of them, until they pass Immortality Test (99% can't even after studying 10 years full time, too low of an IQ). Pakistan and Iran sent back 6 million fellow Muslims back to Afghanistan, some after 40 years of being in Pakistan, it's remigration. Why can't USA send back fellow Christians or other illegals who were illegally legalized by Reagan, etc, even if they've been here 40 years. Latinos take over every state, forcing Spanish as a requirement for any job search, ridiculous! We need one country of 1 gov not 20,000, one language, one acccent, one

schooling system, one police department for all USA to catch illegals in seconds and stop any car remotely (no more car chases, sanctuary states, counties, cities or non-US born cops), one bank (so no cash, no illegal can survive, you can't buy anything in US without The Eterni Card replacing all discount, other cards, keys, IDs, credit unions, 'deals' – remnants of aristocratic terror of money obsession) that only legals can use, one universal pay (end of banditry and kill/cheat all to make more money), 11 companies instead of 33 million, etc, one justice system to lower violent crime a trillion fold and bring world peace via the 11 companies, one beauty-cosmetics company for zero jewelry. Let those Latina bitches learn some ethics from the 8th Company of Immortality capitalism. Help the poor and the homeless, bitches, don't aid your contractor Latino guy smashing border fences to extort US locals, charging 30 times the scientist pay and making them homeless by drug trade. Latinos are different? Same bitches like the sow IQs on TV, all full of makeup and jewelry while USA disintegrates and the "gnat IQ" TV-radio anchors make 50-6000 times the min wage for telling us lies. Latina ladies protesting with Adolf Hitler tone, while being the ultimate hypocrite, using global resources from housing for all (not just illegals) to makeup, jewelry: watch the Holocaust via Drugs that Latinos support via paying drug dealers to enter US: drugs eating 1 lb off a leg, red wounds on face, legs amputated, more legs to brighten your makeup lines.

Latino idiots pull bull tails in Florida, because those arenas, not science labs, is what US 'needs'. All violent criminals need be deported, these nutcases inflict pain on animals (violent crime, animal abuse), instead of making Eterni Foods labs. They are not Christians, vegan Saint Francis de Assisi protected animals, these drug dealer zombies shout like Hitler as they torture frightened animals and drink blood daily. Check out BBC pays white staff less than nonwhite. Who knew that? Latino migrants can become millionaires on low salaries while gaming the system and perpetuating the low IQ ultra low tech society of 33 million useless companies. You know, they don't come here to bring 4,000 year lifespans or anything truly progressive (bull tail pulling), only to get rich, while, on paper, they take the "jobs Americans don't want" (for a while). You have to see past the "mirage of the narrative they sell", and look deeply at the intent and action. Aware of the scam, Trump barred illegals and legals without green card from buying homes. These people were coming here and living in mansions, while US programmers, teachers were sleeping in their cars, as homeless slaves of the corporate mafias making 1 billion/year. Essentially, it was not about "taking the jobs Americans don't want", but making us homeless. No worries, California aids cartels, legals using fake identities in stealing 0.2 billion worth of cars. Clear proof we need dissolve all states and enable the remote stop of any car via 11 companies. Basically the Democrats were taking programmers and people of true use to the 11 companies vision of 4,000 year lifespan, making them homeless and bringing it morons who pull tails of bulls in Florida in their houses. This is called the destruction of the USA by idiots and foreign

spies who have taken full control of the Democratic party, as with Republicans who put oil use above US interests to stop oil imports and oil trade deficit with Mexico, Canada. The Democrats don't have any plan of 4,000 year lifespan, fairness, except getting voters to keep up their 8 million $ salary for University Presidents, 25 million salary for nonprofit CEOs, and other blatant examples of being right wing aristocrats, and nothing of the "left party" they claimed to be. How can a nonprofit steal taxpayer money and make 25 million a year salary? How can universities getting taxpayer money make millions for top bandits ruling the brainwashing camp?

Mexicans want $400/hr for doing stuff a 1st grader can do: order everything online, never need visit Home Depot, all explained in youtubes, etc, buy a 199$ vanity, a toilet, turn off house water valve, hook up the faucet lines in 3 minutes to the valves (vanity has the 3 holes, youtube shows everything, search it), or replace the old multi-turn valve with 11$ PVC 1/4 turn valve (old style multi-turn leaks via washer, the modern 1/4 turn is leak free, the 1/4 lasts longer, is turned slowly to avoid pipe noise due to sudden pressure spike, ask google, chat with the AI overview, it gives links and anything you need, youtubes, etc to save 5-20K and end the palatial parasites loot, hot water valve in kitchen needs dual valve to provide hot water for dishwasher if present, 23$ for CPVC or 33$ for PEX/copper, see PEX/CPVC/copper), the 7$ sink supply line, 5$ toilet supply line, all shown on youtube for copper pipe (different valve) or PVC pipe (CPVC uses 9$ purple primer + orange cement (avoid 'primer/cement' in one yellow glue, inspectors can reject CPVC without purple), PVC uses blue cement, all can replace a vanity or sink, valves, lines, caulk the sink (10$ caulk gun, caulk gaps between wall and stairs, wall and floor too ideally when we get better building materials that hermetically seal that area, etc to prevent moldy air, ants, insects, entering living space. 22$ 36" water meter shut off key saves $: obese Mexicans charge 400$ to turn city water off or on, 5 min work, when you need replace main shut off valve or it fails, not being robbed by Latinos during emergencies or regular repairs. They ask their friends or use fake IP, accounts, etc to make 5 star reviews and when they see a new guy in town needing help, they charge 5x the normal rate, as you need water turned on, etc. The immortalist federal standard will be no holes allowed between stairs and wall, no carpets (carpets mean the gap between the inner walls and the floor is huge vs LVP or wood, meaning so much mold, etc), to prevent moldy air from inside the walls to enter house like in 99% of homes built by 5000 BC standards of snail IQ gov who destroy USA by "20,000 useless local gov" inspecting 20 million criminal businesses poorly, instead of 11 companies doing everything 10000 times better the first time, by a SOP, as they get 50,000 times more PhDs than the biggest private crap company; contractors save 1.5$ worth of caulk (@ $ store) and poison Americans, causing often 1 million in healthcare expenses, we "let Mexicans and rat IQ small businesses do it, and none will live to 95 even as bad air destroys every organ, let alone 4000"; that's why we need Immortality Building Inc (instead of the Mafias) to build amazing homes in USA with new materials in a factory like

Tesla, by robots, able to withstand any tornado, be mold free for 9000 years). All free Bing, Google AI can confirm all stuff below and provide extra details. You are free from mice, as your bright LVP allows you to see dark brown rice grain size mice feces months before carpet people can, as it sinks in the carpet and the brown LVP hide it. You install the brightest and cap all food containers, so no mice come inside thru gaps, etc to search for food they smell. Mice can carry some deadly diseases that nobody needs. You no longer go to make the pigs rich at the gyms, sport events, but use energy to remodel house yourself, to bankrupt the contractor aristocrats:

Subfloor prep if it's not flat (old house and you removed the carpet, etc), i.e. > 3/16" in 10ft:

1). Remove Squeaks: Vacuum well with HEPA filter and use $24 UV lamp (185 nm to make ozone that goes around corners where direct line light doens't reach, 235 nm to kill via light) to disinfect the floor/walls after carpet removal, as deadly pathogens lie under the carpet, same lamp you can use on a smelly bath where mold smell exists from a previous owner or smelly cabinet (for mold smell, you need 1-3 hours of ozone lamp, not 10 minutes, then turn on bath fan and suck all that ozone via bath/AC vents as bath/AC vents need to be sterilized too: the smell will vanish. Replace toilet too, if tank is moldy, or at least clean it with vinegar well, scrub tank walls, ozonate tank, etc and ozonate all house 5-10 minutes, one room at a time (don't stare at the lamp close door turn on from outside the room, wear sunglasses when doing it). Wear big foam wrap around safety glasses (tack pieces/leftover nails/staples fly/hit eye during floor prep after carpet removal), coverall, knee protectors (if doing a lot of screws in a room, use an old pillow folded in two, on top of the knee protectors to avoid injuries from being on the knees for hours and allow your body weight to press slightly, so the impact drill takes 7 seconds to drill instead of 25), gloves. Drill the 1.75" #8 screws with a cheap Home Depot impact drill (PCL206 is regular, PCL 236 is impact, see 30 sec video on how to insert impact bit, impact bits have a groove, being 0.5" longer than analog drill ones, impact has 0.5" diameter noozle, vs the bulky 2.5" noozle for regular). Use the drill that comes with the screw set, as that can take 3 seconds to screw one in if you lean in a little (to push it thru, but not too much, as then it stalls and takes 20 seconds, sink them 2-3 mm below surface if you plan to sand that area 1-2 mm due to it being higher than the rest), though newbies may take 30 seconds until they get the hang of it. Impact drill takes way less effort and far less damage to 5" floor boards (old houses) or 4'×8' plywood that form the subfloor, regular 20$ drill is strenous, damages wrists, nails, wood pieces. To find the center of each joist, you can do it visually in old houses: the floorboards are not all the same length running from one wall to the opposite and the joist middle is where the floorboards are split, find all split ones and infer where the joist is (you'll see screws or nails along that line to confirm): the joist runs thru the line between 2 pieces of a floor boardline, being perpendicular to the floorboard. If house is new, it's 4x8 sheets for subfloor and you can use Franklin sensors 20$ US made detector (7 sensors, not 1 as most brands) or Franklin 40$ 9

sensor variety (7K bought monthly, overnight delivery with prime) or Zircon edge finder (2 edges, drill in the center). Franklin, the only US made on amazon, uses alkaline AAA, no rechargeables, causing endless waste. Most use 9V, and many work with rechargeable 9V. When you have 33 million, not 11 companies, waste is huge, imbeciles and ruthless bandits with on concern for the nation at large, become CEOs. With 11 companies, we design everything for renewables, rechargeable, etc to minimize workers dying of overwork making batteries, landfills, etc, so we build 4000 year lifespans, not 1.4 trillion of junk products to die at 80. Screw subfloor with 1.75" #8 screws with trim head to avoid splitting planks on every joist subfloor intersection (or at least the ones that sound more hollow when you tap it with some metal object or that shake more (or place fingers 8 inches away from the tap location, and feel how much it shakes when tapping versus others that are screwed in; some will sink 2 mm from placing the screw in if loose), meaning they are more loose or squeaky in the future after you screw it in the really squeaky ones), maybe 1 screw/1 ft^2, not just in areas that squeak, because after plywood/LVP, the area that squeaks shifts, so you do need many screws for the old houses that squeak. 400 screws = 400 ft^2. You want a strong secure subfloor before you place LVP or plywood underlayment + LVP.

The National Electrical Code (NEC 300.4) only protects the first 1.25" from the top edge of the subfloor, so if subfloor is 0.75" (modern) or 0.9" (old), you can only really use 1 3/4" screws max, before you risk hitting electrical wires passing thru the joists. The screws make some high spots become flat. Be very careful to screw these 0.2" deep into the floor, if you plan to sand that area at the next step by 0.2 inches, to avoid destroying your sanding machine with the screw. To know how much you will sand, you need to use a 10$ Laser or 110$ 8 ft leveler to see where the hills and valleys are; or use a tight string or 20$ 8 ft grounding rod, 9$ 10 ft rod, 9$ 10 ft rebar, 8 ft wood piece (check it against a wall to see if straight), or pole saw arm (2 make 8-10 ft) or etc around your house. Ensure no old nails exist in an area before you sand, as nails can ruin the sander. Use a nail punch to drive nails down or remove those half inch small nails that exist from previous installs of linoleum, etc. ☺☺☺☺☺

2). Sand remaining high spots using a corded 41$ 3"×18" Wen 632V belt sander (max speed 13.7 ft/s (higher speed = faster, use handle knob at speed 4 if you do pine wood, to prevent pine resin from forming glue on belt in 2 minutes; speed 5-6 is good for harder wood) vs 13 ft/s for 39$ 3"×21" one speed) to flatten them via 25$/8 80 grit 3×18 belts (1 belt per 80 sq ft maybe) if you want a perfectly smooth finish for the subfloor or 19$/20 zirconia belts, 20 for 19$/40 grit, which last far longer and shave off highs faster (fastest, recommended, since 80 grit will take 10 times longer than 40 on very uneven subfloors). Regular red aluminum oxide (Al_2O_3) belts are too slow and become dull too fast, clog the belt with melted resin and wood in 2 minutes. Zirconia blue belts remains sharp 4 times longer, so blue belts are 4 times cheaper per amount of wood you

remove, and can finish a job faster, cuts 30% more wood in a similar 4 minute sanding. Al_2O_3 grains dull fast, stops cutting, starts rubbing and making heat that melts wood resin, requiring so much belt cleaning and trashing; zirconia grains fracture under pressure, constantly exposing brand-new, razor-sharp edges unlike Al_2O_3. If 40 grit zirconia fails, use 24 grit silicon carbide, 8/20$ that will be the fastest for subfloors (they have 36 grit too, same price, but those take longer). Because the zirconia belt stays sharp, it continuously cuts deep into the wood fibers for the entire period. Al_2O_3 starts aggressively but begin "rubbing" and burnishing the wood after 2 min, severely dropping its material removal rate. Zirconia runs cooler, which prevents wood pitch and resin from melting and clogging the belt (load-up) too fast. You can remove the highs with 40 and then when all is done do a final 80 or 60 for a perfect finish if you need a perfect finish. Use belt cleaner 10$ (amazon videos show its use) or 8$ after each 15 min. The scraping of paint, gypsum, sanding are done before applying odor sealing shellac, since sanding makes shellac melt and become a glue that ruins the sanding belt and those areas sanded after shellac will enable the smells to reeneter the room. Engage the orange 6 mm diameter lock-on power button on the handle to avoid hand fatigue. 3). Apply shellac to subfloor (or even smelly cabinets near a stinky old faucet) to seal all awful odors (you can also apply this after you install plywood if you use some plywood underlayment first before the LVP, to prevent smells of the new underlayment and old floor). Water and oil based sealants don't prevent pine resins from migrating, shellac is the best. Use 1 layer (2 coats, let first dry, if smell is bad) of Zinsser shellac (1 gal/350 ft^2) to seal microbes, buy a tray liner, 2" paint brushes (1/200 ft^2) for edges where push to release (no shellac on gloves) roller (use high density roll designed for shellac, not paint) can't reach. 4). Flatten the sudden 0.1-0.25" dips and valleys using a 12" trowel with a Henry 546/7 mix: 2.5 cup Henry 547 with 1 cup Henry 546 acrylic additive (or 1 cup Quikcrete acrylic additive or 1 cup Acrylic admix, cheapest/quart). Don't mix 547 with water, as 100s of youtubes by "contractors", since after months of walking on it, it turns to powder and damages LVP. Wood shifts a lot, wood moves/expands, needs a rubbery flexible patch, hence 546 replaces water to create a ruberized peanut butter paste that dries hard in 5 minutes; only do small batches and spread them urgently before they become hard. 5). Impact drill screwing via 150$ Ryobi the sanded 4x8 PureBond 1/4" sheets that are made with soy based (food grade) adhesive, not the ultra toxic/smelly HomeDepot instore brand 4×8 Sandeply 1/4" sheets that poison USA (Sandeply is much denser/finer than plytanium deadly plywood (formaldehyde), which is to be avoided anyway) to the floorboards to made subfloor perfectly flat, if the subfloor is not flat (old houses). PureBond Birch Plywood is smoother and more finely sanded than Sandeply, meaning it is less likely to telegraph texture or rough grain imperfections up through LVP. If your swood ubfloor is already flat, you don't need anything except LVP. HomeDepot needs to be taken to court for poisoning USA, genocide via bad VOCs hidden from product

description, 5 trillion fine, with these in store formaldehyde brands, that leak into the house via gaps at the edge of rooms and microgaps within LVP. Home Depot Pigs were told they commit genocide and the main number had me call a home depot that "delivered it", then they said "they didn't deliver it and another one did", and that one refused to take this bad one, unless I paid 160$ for delivering PureBond and taking back the Sandeply I ordered initially. If you got some smelly plywood by mistake (or your floor contractor bought one), you can use Zinsser original (not the cheap water based) shellac to seal the odor or the underlayment plywood so the smell doesn't come inside rooms. Use zig zag Loctite PL adhesive (10 oz/30 sq ft) on the subfloor before placing the PureBond (they are sanded deeply, Sande tree plywood, superior to brittle luan tree) to drill 1.25" #8 screws every 6" in the middle, 4" on edges. Loctite dries in 5 min so glue only 1 sheet at a time. Leave a 1/16" gap between plywood sheets via a T spacer (you stagger the sheets, so T), screw, then remove spacers. You need a 7.25" Genesis circular saw that takes 10 sec to cut 4 ft sheets, while a jigsaw takes 15 times longer, requiring more effort to keep it straight, prevent vibration. Genesis, Wen are US companies with real parts and customer service, most amazon junk is China companies that make cheap products breaking fast, for home remodel Home Depot is the best, they only sell real brands, amazon may carry a Home Depot product priced 1-17$ higher/lower, but usually, amazon won't carry the product at all. Jigsaw doesn't even cut straight lines well due to vibration. PureBond (like LVP) cuts, unlike regular softer plywood or plytanium, need a 16$ 60 tooth carbide blade, not the 24 tooth blade that comes with the circular saw used for soft wood. If you cut the 3.3$ 8 mm Outer Banks (Wood-Composite Hybrid), it has a tough, abrasive resin core that destroys standard 60-tooth wood blades after 5 cuts, so for this ultra tough LVP you need a much better blade than carbide, the 22$ PCD (& on amazon) you pay 6$ more initially, but then it lasts longer than 30 carbide blades that cost 480$. Polycrystalline Diamond (PCD) teeth are required to withstand that extreme friction without burning the board. The 2$ 6.5 mm NuCore Sea Cliff (Stone-Plastic Composite) is fine with 60 tooth carbide, like LVP is. PureBond needs the 60 tooth one, the PCD splinters everything, making edges rough. The good side of PureBond plywood needs to face down when using circular saw 60-teeth blade, to avoid wood surface damage. Adjust saw base so that the 60-tooth blade is only .25" past the bottom of the .25" PureBond. Lower the blade to shrink the teeth entry angle, which reduces splintering.

☺☺☺☺ **LVP INSTALL (first step if subfloor is flat, < 3/16" in 10ft):** ☺☺☺☺

1). Buy minimum 8 mm thick, hybrid, cork backing (hybrid 8 mm is the quietest LVP, like 10 mm laminate) 22 mil thickness LVP which is better than laminate/hardwood. Don't buy thin 3-6 mm LVP, as those break fast. Hybrid core LVP (not rigid core or SPC, suited for HI, CA, NV, constant temps) expands easier in high temp, humidity shifts between summer/winter, like most US climate is. LVP is termite proof, smells far less after install if Greenguard Gold LVP versus wood,

laminate, LVP expands less, but we still need 1/4” gap under the trim (or under the baseboard, if you remove baseboard to raise it and remove the trim, if you have any trim) from the wall, to allow LVP to expand/contract. Skipping the quarter round and having the baseboard sit directly on top of your new floor is the high-end look for modern home design and faster, better resale, but won’t make a big difference (quality of remodel matters far more than whether you got that trim or not). The truth is removing and reinstalling same old baseboards is not feasible, since carpet hides the chipped base on the baseboard, while LVP cannot, so the only option is trim if you want to save money and time (baseboard removal is tough), trim is way cheaper. When you remove carpet, you may notice in ancient 1900-1950s houses that the gap between floor and baseboard bottom is not even in some walls, so you will have to either bend the trim slightly to make this invisible (since trim-floor distance has to be 1 mm thruout) or shaving off 3-5 mm off 10-20 ft^2 of the 1 inch subfloor floorboards (a lot of work). It all depends on whether this house is a really cheap one or high end one with potential buyer who would be ultra picky and inspectors that meature every mm deviation in floor angle, etc. If you dislike removing old baseboards due to risk of chipping it and due to it being far harder to remove/put back (due to weight) than trim, just use trim. LVP needs 1/4” gap at the end, hidden by the trim. Buy 0.75$/ft trim to replace old trim or put new one where carpet was (after wood, LVP or tile install to replace deadly carpets) to hide the 1/4” LVP-wall gap needed for LVP/plywood expansion. Trim will cover the LVP, leaving a slight vertical 1 mm gap for the LVP to contract, expand in height too and to be able to contract/expand lengthwise too). Baseboard goes back using 139$ Ryobi P321 nail gun (price can go as low as 110, 139 is highest, click price history, use battery from Ryobi drill set you screw plywood with) and 2.0” nails #18. Trim is attached to baseboard with 1.25” nails #18 if you leave baseboard in place, nail gun takes 30 times less than “pre-drill, drill youtube methods, or manual hammer”). Nail trim into the baseboard, not the floor: drive nails horizontally (or slight downward angle) into the baseboard (practice with a 3” vinyl piece to see what pressure on nail gun avoids cracking the vinyl). Caulk the top of the trim (never the base, as LVP needs to move to expand/contract) and caulk the holes left by the one brad nails shot every 12” (for trim) or two brad nails every 16-20” (baseboard needs two nails, one upper, one lower, shot where the joist is, 16-20" depends on house, use joist center finder first, very old houses are built poorly, the joist to joist distance can vary, like floor joists can vary too). With trim, you don’t need joist finder, 1.25” nail can’t reach joist. After calking that nail hole, apply paint over that 1 mm^2 hole caulk. If your wood subfloor sits on concrete or 2-5” above it, you need to use a vapor barrier before the subfloor. Google AI overview chat uses pics of subfloor to share if 6 mil vapor barrier is best for your project. Google AI is incredibly stupid (double check any suggestion with Bing AI & by watching youtubes), but it can summarize articles fast, so poke it, ask it in multiple separate windows same questions (since it often gives wrong advice in a window as it reads different or too few industry articles), read more articles it references (google

AI overview chat is best at references) and youtubes and get a better idea on the steps and materials for your specific floor etc project, this paragraph is to get you started in thinking and knowing the basic things to use to get it right. If your existing floor is cracked tile that is too expensive to remove, you can fill in the grooves with 3 g Henry 547 + 1 g water "mortar" to flatten it, then install this cheapest $3.3/sq ft, 8 mm, 2x22mil scratch resistance, Greenguard Gold (least toxic to lungs) LVP (online order). If you can't afford 3.29$, there is a 6.5 mm, 2$ LVP, 22 mil, also Greenguard Gold (this one is easier to score and snap to cut the LVP and has more stair noses), that sells for 3.3/ft^2 at HomeDepot for an equivalent product. While the 3.29$ has double the scratch resistance of 22 mil, it's also way more expensive. Place 7$ vibration absorber under the 4 legs of the washing machine to avoid LVP damage. LVP is installed fastest with the LVP kit (comes with 30 spacers) + LVP set of 30 spacers for bigger rooms that need 60 (1 spacer every 12-18" on all 3 sides). For transition between rooms, use 0.3" (8 mm, same height as LVP) silverish T-molding for Outer Banks 3.3$ 8 mm or the Floor & Decor Color 5415F T-molding for Sea Cliff (Color 5415F) 2$ 6.5 mm. ☺☺☺☺☺☺☺ Leave a 0.25" expansion gap on both sides of the center track before snapping the T-molding down into its metal anchor channel to prevent LVP buckling in the doorways. For LVP edge in a kitchen, room, if no LVP under appliances or closet, you need end cap molding (reducer), though it looks odd to have tile in some places and LVP in others. Door jambs need cutting using a special 40$ machine (dual speed, slow for soft stuff, like PVC trim, high for dense wood that may contain nails), with a bimetal (not the soft high carbon steel that is ruined if it hits door frame nails) 1 3/8 blade.

2). US stair falls cause 12,000 deaths, 1 million injuries per year. For stairs, the horizontal is called the tread, the vertical is called riser. If your tread is at least 10", after you trim the lip, you glue LVP to the riser and the tread, and then use sand paper to make the 90° angle meet be very round and gentle to avoid injuries. Cut the stair nose that exists and create the safest stair there is: no lip to catch a toe or shoe top. You also save 500$ on buying threads that have to match the LVP height, etc. National residential building codes (IRC R311.7.5) say a tread must have a horizontal run of at least 10" from the front of one step to the front of the next. An overhang (nosing) of 0.75-1.25" is mandatory on all steps less than 11". It's legal to build a flush, lipless stair if your tread depth is ≥ 11". If your tread is < 11", you need buy a color and height matching flush stair nose, e.g. 6.5 mm Sea Cliff stair nose for the 2$/ft^2 Sea Cliff 6.5 mm, Cedar Nose 6.5 mm for the 2.5$/ft^2 Cedar. The treadsplus.com takes the exact Floor & Decor, etc planks, as shown in the manufacturer link in the product page, and bends it, so they make many stair noses or the entire tread and nose for many products that were discontinued by the original manufacturer. Recall Mormon Church of executing 120 got freemason attire and secret freemason handshakes, so it's a Military Espionage Unit, not a Church (all churches, mosques, placee of worship are military spies), it's possible this Utah company places microphones in the

treadsplus stairs. Find the Greenguard Gold LVP you like on flooranddecor.com, which is the cheapest site for World's lowest VOC floors, and then find matching T-molding, stair noses on floor&decor or treadplus (perfect match) or rough match on home depot) you glue both, so they sit flush, same height to prevent falls. In capitalism, we get Home Depot, Floor&Decor, 500+ other companies discontinue stair noses, then you go to Mormon state Utah threadplus.com to charge double for the nose. Instead of 1 shipping by Immortality Building Inc (who could do the install, repair, maintenance of all houses, buildings) of matching planks, T-molding, stair treads of all main sizes with flush nose that prevents falls (no more overlap stair noses sold in the billions to cause trillions in healthcare expenses), more varied sizes to avoid waste, US only offers 42" min (instead of 30"), no 94" that could cover 3 stairs of common 29-31", 59" covers 2 stairs of 29". Say you need 12 of 29", order 6 of the 59", 2 of the 42" for the big angled stairs that are usually 35-38. Most stair lips are 1" thick, so a 1-1/8×59" nose works for 2, but if you place plywood under the LVP to make stair subfloor flat, we need 1-1/2×59".

This is US, the land of the hooligan aristocrat, who wastes trillions for the "freedom to be stupid". The Mormons make trillions conning the planet: 40$ worth of Floor & Decor material is sold for 700$ as stair noses, they claim free shipping for 299+ orders, but when ordering a 600+ order, they charge 100-200$ for shipping a very very small order in weight. Ultimate Frauds. Mormon ethics. For a 29" stair, you waste 13" or even 18" if they only sell 42, 47" as is the case for many LVPs. They need 100 stair sizes, so we waste life to cut it perfectly, instead of discovering how to live to 4000. Same way like we have 9000 colors of LVP, but half of USA dying of carpet microbes, because LVP is made 5 times more expensive by the insane number of companies, admin, LVP designs, etc. All major in stupid "interior design" instead of "living to 4000". We created a society of short lived "giraffe IQ" folks whose main hobby is appearance, style, looks, of floor, house, car, person, face, eyelash, hair, etc. Wait, Versatrim has 15,000 stair noses alone, talk about stupidity of the highest order. We got 25,000 genocidal companies making "modular, manufactured, mobile homes" all lethal junk whose main selling point is the interior and exterior unique design, they are nothing but death for 300K. Instead of domes withstanding 340 mph tornadoes, we just make tents that are wiped out by 150 mph storms, because fancy design that kills is MORE IMPORTANT than kind simplicity that lives 50 times longer to age 4000. They have planned obsolesence, so we need to replace floors all the time, instead of replacing just 10 planks that are bad (each house has 10 planks that wear out 5-10 years before the rest), we waste trillions because of a society of morons that fails to see living to 4000 means a product lasts 500 years, just like today, we live to 80 and they keep a product for 10 years ideally, 1/8th of the lifespan. How can you replace LVP if they discontinue everything so fast to force you to replace, but more and fill landfills, work the 99% to death making stupid useless products because kids messed up 10 out of 250 planks which you can't replace. They

change LVP picture to force you to buy, be a slave, while they build PALACES off mass murder. How many LVP pics we need to live to 4000? Do you need a PhD to answer that? All these pig headed monsters should get the 1 universal pay of the 11 companies instead of making trillions via genocide of the 99%. Capitalism is the rule of the dumbest morons of the universe.☺☺☺☺☺☺☺ If all stairs are only 2 sizes (29.00, 33.00), instead of junk houses of 90,000 stair sizes, we need 90 times carpenters or time wasted by us to cut to perfect size using circular saws. Again, low IQ folks rule, we vote them. They force us to waste so much, they should be tried for genocide of the enslaved workers producing more than needed (instead of fixing their houses (rich in lethal carpets), health) so that a few criminals can have "their own companies" to loot and subjugate the 99%. Home Depot, Floor & Decor, all flooring companies fined 400 trillion total for genocide. Do you want to live to 4000, or have 40,000 LVP styles, stair sizes instead of just 10? Be honest. Do you want 11 companies + living to 4000, or 33 million companies + living to 80 like a dog? ☺☺☺ The choice is simple: intelligence/Immortalist Anthem versus imbecility/religions.

For 8 mm Outer Banks, you need 8 mm Whitmore which is not a perfect match. Buy LVP that has perfect match manufacturer or threadplus made stair noses, T-molding, since not all products have that, to have a professional install. Clamp T-molding, stair nose or LVP pieces you cut, if using a circular saw, using two 6" clamps. For resale, Sea Cliff blonde sells faster than white LVP. For insect detection, mosquito visibility, and frequency of cleaning, white is best, as you clean it more often, isntead of once a year (if lazy). Round nose is safer than square nose for stair noses, per inspectors, as you catch toe, shoe less, fall less; if you fall, round injures your shin a lot less. LVP stair install is super easy see this 12 min video on glue and placing (put more glue maybe) and how to cut LVP (17 min, all) using a sharp utility knife (25$ Milwaukee Fastback ergonomic + plastic (not rubber) finger grooves + 50 blades, $14 Stanley curved ergonomic grip, more angular momentum, less force needed for same cut than straight ones, rubber finger groove, comfiest, 17$ 100 blade set (regular) or 14$ 50 sharp blade (10x sharper). You "score (3-4 times until you cut fully past the ceramic cap, deep into the 8 mm composite core) and snap", using the knife to cut the cork after you snapped it off a table. You need 20 blades minimum, since regular dulls after 4ft of scoring the wear layer. Wear some good gloves with soft cotton inside to enable a better grip and to avoid hand blisters. Since the long cuts of the LVP go against the wall under the white trim, the cut doesn't have to be perfect, so you really don't need a circular saw as some claim. For corners, you can use this 2 min clip. For thin LVP you don't need circular saw. If you can't make a long cut, use 7.25" circular saw on a 24$ 1×4×8 foamboard for long cuts. Circular saw takes 2 sec to cut a 7" hybrid 8 mm LVP (perfectly crisp, sharp, and factory-straight), while jigsaw takes 25 sec (slight chips or jagged teeth marks, not good), less if you cut 6.5 mm. See the 1" foamboard making cuts ultra easy. The 8 mm hybrid LVP is tougher than most LVP, so

you need a 22$ diamond disk blade (longer lasting) or 16$ carbide. Don't buy or use overlapping stair nose that causes falls often. Why is the gov allowing the sale of products that cause falls? Cruelty. You can make your own LVP stair nose if your LVP is thinner and even nail it, but rubber stairs are easiest (see below). Before you open a Loctite glue tube, arrange all precut LVP to ensure they align. Use earplugs, ventilation, K-94, sealed safety glasses if you saw. Use anti-slip clear tape to prevent falls (or 2" 30' roll) if you don't use rubber stair nose. Heat the tape with hair dryer to peel off once 3-8 years and install a new tape if needed. Need 1/4" PureBond plywood sheets under if stairs are rough, as with rough subfloor. Risers (vertical gap) are usually flat, so they don't need PureBond under LVP. Antislip Tape: they got rubber stair grip for seniors.

The Safest Stair Nose is Rubber (it's also much easier to install than LVP stair nose that fits flush for 8 mm types): rubber stair noses (grey, beige, silver, 50 other colors) outclass carpet, wood, LVP stair noses, as they prevent falls way☺☺☺ better and will be mandatory in immortalist nations☺☺. High contrast, whitish LVP riser-purple rubber stair nose can make it easier for seniors to avoid falls. In low light, when tired, seriors see less and can trip. Selecting a deep contrast color like purple/indigo (so you can still see black insects) fulfills the Americans with Disabilities Act (ADA) visual contrast guidelines, which require a distinct color difference on the leading edge of a step to protect visually impaired individuals (& seniors). 99.9% of contractors today use slippery wood, LVP, carpet stairs void of antislip tape or rubber; capitalism worships profit, even if it shrinks life 50 fold. For seniors, a fall can mean dying 3 years later. Immortalism (universal pay) is all about life, health and living to 4000. In capitalism, the dumbest tech and choice (sky high salt and Age rich food everywhere, 99% of restaurants, groceries) is dominant, in immortalism, the technocratic society and gov a 900 times better than the best least used today is dominant & often the one and only, as we replace sales, bullshitting, accounting with STEM. Carpet stairs are suicide and need be made illegal, as socks slip so easily due to confidence (super soft causes people to rush) and speed, let people wear soft slippers that grab the rubbery stairs. Think about it, carpets are 90,000 times more lethal (air quality) than the rest, yet it's been dominant in US, and it came with endless inner house walls mold coming inside via the stairs-walls, walls, subfloor etc endless gaps without flexible caulk, etc.

3). House paint: use high gloss white paint thruout the house, to save electricity, see insects, mold, leaks much better (beige hides leaks). High gloss makes it easy to clean dirt with a wet sponge without having to repaint grey walls rich in microbes. High gloss seals smells, microbes, lead better. A 7$ degreaser removes wall grey dirt, before you paint walls to save $10,000 with a $314 MagnumX5 Graco, US made sprayer. You choke the Latino Cartel finances. Each time you pay them big $$ for 1st grader paint jobs, they have $ for 900 tunnels and bringing another 50 million in. Stop being stupid, stop gym, sports, do exercise by remodeling yourself. Grow up, stop 200 billion/yr to Cartels for the destruction of millions turned into retarded drug addicts by

Mexico. Declare US independence from Cartels, Inquisition by 4h work/weekend. ☺☺☺☺☺☺☺

4). Below ground cracks/holes in the outside mortar: (exposed bricks needing cover) use Type S mortar 1800 psi, while 6500 psi mortar fixes concrete alleys, driveways with holes, missing parts. Tools: 11" brick trowel (to mix mortar), brick jointer, 12×4 finishing trowel, 6×2 margin trowel (to hold mortar applied with brick trowel). Amazon has tools too, use Home Depot description to search and see. A few tools will save 2000$ given to a drug dealer. Don't give 300$ to Latino cartels, instead buy 55 oz washing soda (Na_2CO_3) for 5$ (5$ @ Walmart too), pour a cup down the drain, then pour 5 cups of hot water (just the hottest water from the faucet) hot water, wait 10 hrs, to remove clogs, repeat 3 times for sink backflows (when flushing toilet) due to clog.

5). Window screens: roller 6$ & 3.7$, spline 0.14"×25' 6$, 0.14×100' 9$ or 0.14"×300' 16$, screen cutter 6$, frame 5/16×3/4×84" 7$, corners the best include the pull tabs (less work, better looks, square is on the side opposite to the spline that faces outside) 20 pack 10$, 4 pack 2.7$ or 100 pack 16$, screen 36"×25' 23$, 36×100' 53$, 30 shiny metal pull tabs 8$ (not plastic 6/6$ that turn brittle or 100/17$ in high UV areas: hollow plastic break fastest: install video 1 & 2) 8$, hack saw 11$ (ergonomic handle to prevent finger damage, flat handle need be illegal, worker's health and longevity first) to cut the frame 3-4 mm shorter than the window space length minus 1.5" if you use standard 3/4" corners, as the 3 mm allows you to insert/pull easily. After you made the rectangle using the 4 corners and 4 pieces, unroll the screen roll to cover the window, plus 2 extra inches and secure it with a heavy objects on 1 side (where the roll is) so do it doesn't move much if you touch it. Fiberglass is so soft, you don't need to use the convex side to make a groove first as with aluminum. You only need the concave (groove) side of the spline wheel tool for gentle pushing forward the spline. Don't tape the screen or pull on the screen strongly to "make it straight, etc", as that will bend the screen into hourglass shape; you only need pull the screen very gently with the other hand, 2" above where spline tool is to make it more straight. If you overdo it, you get hourglass shape. Then use a razor blade to trim the screen. It's much easier than some of the complex "tape all frames to the table/floor" videos seem to make it. For screen color, the most common is charcoal that uses black carbon to turn UV into heat. Charcoal got less glare when seeing outside from inside, more privacy in daytime when outsiders look inside. Charcoal makes it harder to see mosquitos/tiny insects, so you can get light grey screen, spline to see insects if many insects. You may need tape between window and screen, since with the current stone age capitalism, they can't make in the 21st century all screens seal that gap to stop insects entering. With true ethics, we prioritize living to 4000, not having 40 million screen sizes. That way, it's all premade, order it from Home Depot or Immortality Building Inc has it in stock, replaces it when needed at the semi-annual visit to every house to fix stuff and then at the company they reuse the frame if only screen was damaged, etc. It all boils down to this:

Do you want to live to 4000, or have 40,000 screen sizes instead of just 10? Be honest. ☺☺☺☺☺
Do you want 11 companies + living to 4000, or 33 million companies + living to 80 like a dog? ☺
We got 33 million useless companies, instead of 11 ultra intelligent companies that make 1 product 500 times better product vs 500 trash products by the 500 main clowns of every industry, since they got 1 million PhDs, not 1-100. Not to mention many screens have a huge gap for water draining that allows deadly huge insects to come inside, like earwigs. The standards of the genocidal aristocrat are those of a rat IQ worm. In a decent society, each screen would come with a little UV resistant flap to completely seal that gap so you don't have to place tape there that is destroyed by UV fast, though a few brands have a flap that doesn't work, since it's designed by chimp sports IQ engineers. Malaria kills..., other diseases kill even faster. The stupidity of home depot can't be greater, everyone buys more spline and frame etc than they need that ends up in trash or recycle, like we trash 30% of food via decentralized idiots not knowing how much to make. If we had Immortality Building Inc do it all, you need far fewer spline tools and waste, so we make eterni foods factories for 4000 year lifespan instead of stone age tools to make everyone feel "like a gnat IQ contractor". Because we are a psychotic ultra selfish society, we have 10 times more spline tools, etc than needed. We got also endless regional, local, national hardware chains, to act busy and say we "provide quality", while 90% houses are in terrible condition by immortalist standards. "Free market" is the rule of the fruit fly IQ masses, lowest IQ. It's the epitome of fraud, waste, low IQ, useless products. ☺☺☺☺☺

Until Immortalists win and these scam companies vanish, the stuff above, basic flooring info, will save Americans $300 billion/yr the Latino-Muslim-Jewish gangs steal from us to open borders to 1 billion migrants bent on Sharia law. But hey, for a remodel, the new migrant aristocrats charge 20K, 900$ materials..., 1900% profit for 4 days of work. 4 days to make what some make in a year. "Justice for all". True love for fellow Americans. In peace they come to loot us all. We need an end to Jewish, Muslim, Latino (Catholic) migrants coming to extort cartel style the locals to do 3rd grader IQ click and lock LVP flooring etc *with worse quality products* (that kill locals with fumes and chemicals emitted, Turks charging Americans 80% more 3.6$ for uncertified junk products) *than* existing US companies like 100% Greenguard Gold Floor & Decor LVP: 8 mm + 22x2mil, or 2$ (lowest US price: 6.5 mm, 22 mil) etc, foreign small business terror aristocrat coming to join the Aristocrat Terror Gang, ready to co-plunder, co-enslave and co-kill Americans with local genocidal aristocrats, in the name of Legal and Illegal Immigration. Google "owner of each flooring etc contractor name in your area", (most reviewed or highest rated ones on yelp, etc) they're all Latino, Muslim, Jewish names usually. Shockingly, this is true even in Washington DC, the US capital. We need 11 companies, to end these parasitic leeches by max income 1-3 times the lowest eventually, 1 salary for all humans finally with the Immortality Credit Score. This will be the end of low IQ, where everyone chases jobs based on pay (what you can take)

instead of what they can offer (what you can give: capitalism favors thieves, not the selfless) to the cause of trillion year lifespans for all (living to 4000 is easy with a few nutrients), where many become MDs to make 10-80 times min federal wage, gender pay equality means women and men are 50% of each job category, if pay is equal, job stress is equal, meaning let women be 50% of construction workers, 50% of toilet replacers (scrap feces, inhale sewer gases), electricians (electrocute self), agriculture workers (tractor drivers/mechanics, tomato pickers, etc), 50% of forestry (trees fall on you), fishing (boat sinks), manufacturing, 50% of miners dying in coal mines, etc es as trillions are wasted yearly with gluttony (1.4 trillion food, 1.4 trillion other 'priceless' stuff), sports facilities, olympics and beauty industries for self-important muscular men, sexy ladies who would rather steal trillions than provide a few remote controlled escavators to replace all mine deaths, or remote lifters to avoid deaths for male solar panel and other electricity stations installers via a country free of parasitic realtors (62% are female) via housing.gov as all housing is built (the correct way first time to last 500 years, not flatten in a storm in 10 sec), fixed, maintained by one company, Immortality Building Inc, that preinstalls dirty electricity free all electric with dome room built in solar panels, using the safest techniques (prebuilt) so nobody (mostly males) falls and dies during solar panel install or house construction, better tech to avoid deaths for female moms while bitches going to beauty salons 4x monthly have no kids as beauty industry steals medical safe birth money.

Let's have females who visit salons so often handle hot steel (20 sec), put life at risk every minute (20 sec clip) (vs chair psychologist lady job, preaching garbage ("drink in moderation with thy infernal alcoholic depraved wife, obey your demonic wife when she wants sex due to being bored of so much stress as psychologist") on a chair made by men by excruciating work), work with forging machines 1 billion times deadlier than most women jobs, cooking pans made by men (10 sec), melting copper (8 sec), copper recycling (5 sec), steel mill workers inhaling the dust then preaching equality of job duties, not just pay☺☺☺, soldiers (die on frontlines, endure torture of 5 years if caught by enemies or being eaten alive by the Japanese), car mechanics, airplane mechanics killed by crashing airplanes. Immortality *for* All means safety for all first, all buildings shorter to preserve Life taken by falls during construction, any tall building requiring extra safety, as all move to houses not condos. The ladies wouldn't choose ethical STEM majors that discover new materials via science to replace steel to avoid injuries in many industries, instead, they choose HIGH PAY zero stress psychologist jobs, to "contribute" to keeping society in the Stone Age. Talking about Equal Contribution. Why be a steel forger when as a lawyer you make 5-10 times more with 5 times less stress and 100 times less risk to your life? Because we have a fraudulent society run by criminal lawyers and frauds, instead of by Scientists and Engineers who know the pain of a factory. Robots will replace all dangerous jobs eventually, but that will take time. Robots need replace first the most deadly jobs to be fair with those people

and ensure Immortality *for* All, not just ladies preaching bullshit psychology on a chair. Many die instantly in ultra dangerous jobs whose process is inherently "rat IQ" and ultra dangerous and in high need of STEM redesign by engineering and science, not psychology. Cow IQ folks run our Universities, so all we have is Humanities, only 30% STEM majors and 8 million pay for Univ. Presidents.

In 1972 US passed Title 9, "no sex discrimination in educational institutions", and in 1964, Title 7, "no sex discrimination in the workplace". Quotas were established etc. Well, today, 92% of workplace fatalities in USA are men "Women accounted for 8.5% of fatalities", as Equality means Inequality: Women Refuse to go into the Deadly Jobs and to Automate these Jobs, instead stealing Trillions for Makeup and Beauty Salons, Fashion and heels and flashy junk. Since most women jobs without college were retail or ultra low pay (AGAIN THE CAPITALIST SYSTEM OF A BILLION PAYS, instead of one universal pay), they forced women to want to go to college, to get a useless degree often times, where everything they learn in college is Pure Nonsense, that has no STEM and aplication to reality, to only get a job in the infinite redundancy economy of admin, bureaucracy and stupidity infinite of 20000 govs and 33 million companies. Then, for the love of money, some even got a PhD in some non STEM field, to top the stupidity off, since for humans Money is the main disease and women are equally infected by the virus. Immortality *for* All means we equalize stress as the 11 companies (not 33 million) section explains: equal stress for equal pay, equal physical exertion of jobs for universal pay for all. It is genocidal to break people's back, legs, etc by having some lift everything while "cow IQ" ladies lecture us on youtube about mascara/fake eyelashes, as millions die in workplace injuries instantly or a year later. Fatalities is only the tip of the iceberg as that's instant death, there is slow death via poisoning and stress over 5-45 years that kills men 5-15 years earlier. Makeup doesn't bring zero violent crime. It's really not needed. A true feminist is done with the bullshit and implements universal pay, no more Big Utility lady CEO making 26 million/yr, while 99.99% of men worldwide make 700-25000 times less and in the US 500 times less: one pay for all, any reward for great work is longevity products access and management positions, so none can do evil via money, such as today's depraved "pig IQ" women saturating their head, face, eyes, eyelashes, eylid margins with lethal toxic chemicals, and endless jewelry that could have saved real lives via science done in the time to market and produce such junk, or "pig IQ" men saturating their life with big muscle building, sporting goods, camping equipment, race cars, 2.5x more alcohol purchased than ladies, boats, RVs sitting idle in the lot 99.9% of time, while others are homeless and need help to reduce physical stress load, but isn't done as these imperial heartless men are too aristocratic to do any physical work, the pigs go to gym instead, while other men die in accidents due to physical exertion that would be avoided by Universal Equal Distribution of Physical Effort mentioned in the 11 companies section or Robots for all physical jobs being

implemented first. Feminists usually refer to a very pathetic equality that is very unequal by the immortalist standards. Let us have Equal Share of Women doing Utility Work instead of Makeup Youtubes. This despondent entitled Women Priviledge Condescending Attitude of "men are enslaved serfs of makeup users" needs to be Fixed by Congress Passing a New Title to Mandate Equality in All Job Areas, not just the Comfy Office Jobs or all Physical Work be Robotized TO ENSURE MEN DON'T HAVE TO BREAK THEIR BODY for Makeup users.☺☺☺ Leaving men to die is an Act of Violent Genocide against Men that shows the Hypocrisy of Modern Feminism i.e. the "drive for fake equality". You either have Robots for all Physical Jobs or have Equal Men/Women % in all Job Categories. You can't have an idiot on national TV full of makeup with Hitler tone make 20 million/yr talking BS while men die at 40K/yr to make products for Queens of Depravity/Theft. Think about all men drunkards making millions on TV-radio too. ☺☺☺☺☺☺

We need to develop a true sense of ethics and stop being such despots in disguise, who put on a fake cover and show of caring or wanting to implement "equality", but doing nothing like it. So men, make sure all robots replace the death of men by industrial, construction jobs, since women don't care about it, help men bridge the Lifespan Gap, that women never talk about, only the Pay Gap. Where is the gentle tender soft compassionate *graceful* nurturing loving healing kindness a trillion times higher than that of the most loving mom last decade of the Immortalist Anthem? Nowhere, many modern women are like despots and thieves, only doing all unethical things to get rich, just like modern men. All try to outdo others in stupidity☺☺☺. The whole society is an insane hunt for money, even if it kills us all at 80. Stupidity reigns, we value Paper Money, instead of Living to a 5 billion, everyone is mad about "not making money" as the neighbor, and nobody EVER thinks about doing something to help all Live to 4000. The obsession with useless diplomas stems from this insane hunt for money that doesn't exist in an equal pay society. Capitalism makes everyone a ruthless cruel idiot with a Mount Everest ego. You can invent 1-800 things that adds 90 billion lifespan years to the nation without any college degree. They waste 4-9 years and then do a job that has nothing to do with anything they majored in or PhDed in. All for Show. All for "Money Hunting". Pathetic, We built a Society of Utmost Idiocy: the amount of humanities college, PhD degrees is Insanely High and all they learn is TRASH, nothing of True Virtue as in Immortalism. Everything is a Pretense. Longevity results don't matter, only Makeup, Appearance, of a Resume, of a Diploma, etc. Just show up at work, clock in and let paycheck come in, waste life too, we gotta "appear to help". Do we need Affirmative Action for Men to Bridge the Lifespan Gap ladies, help us do that Please? Men have been enslaved as the stress taker for so long, it's time for Equality. Equality means Equal Lifespan too.☺☺☺ Let's see, so in colleges today 60% are ladies and 40% are men. You know what most jobs are? Wasting time, admin, production by outdated tech, replicating, 22 million in useless local govs. No actual innovation to increase lifespan 90 fold, to reduce male deaths by

reengineering the industrial/construction process, by the universal merger of all contractors into Immortality Building Inc that cuts construction deaths to zero. College is often just wasting 4 years to get a paper for more equal pay: a Power trip to Enslave Men in Deadly Jobs. Lady teachers giving higher grades to girls so more girls go to college (GPA higher), college admissions ladies favoring ladies again, and then ladies major in food colors that poison all, makeup colors that give ladies twice the dry eye of men, etc. That BS ends with the Free Universal Online Education for all, same videos for all, Universal automatic grading SAT style (multiple choice, no human input, computer grading) that removes all human bias and female teacher bias to give higher grades to ladies. You can't promote the Stupid people by Faking Grades to Lead all into the Abyss of Imbecility of Living to 80 the Beauty Salon Life and Makeup Society. 95% of jobs today don't use almost anything learned in college, it's a society of Morons. The Education Reform ends that, people work on products with Unis and the 11 companies since age 14, specializing in Science and Tech, and not wasting time with Getting papers to Enrich Genocidal morons making 8 million as College Prosidents and teaching nothing about Living to 4000, only outdated junk and how to be a slave. A society can have very little college and learn all in a field in a stable job as needed, and live to 4000 on average. A pompous society of pretenders can have everyone a PhD and live to 100 only, 40 times shorter. Diplomas don't count, only RESULTS. A paper is useless, we need RESULTS: tech that helps us live to 4000, societal structures, companies, etc that Focus on Trillion Year Lifepans not Diplomas to Feel Important. Many ladies spend 10 years on 'paper' education, 10 years on makeup and dating, resume building and then they are infertile at 38 and childless, eggs very toxic, damaged by alcohol coffee, parties, RF, then what? IVF to yield a sick child living shorter than the previous generation. USA got no future if all pretend. No kids, you need robots or "migrants" who will impose Sharia Law or whatever. The obsession today is pure research with no product in mind to extend lifespan, cramming people's heads to knowledge that is total BS and unrelated to living to 4000, wasting trillions while nobody has shelter, healthcare of preventive types, job stability (11 companies, all employed), etc, the things, 222 weeks off, etc needed to be able to start a family and not disappear as a nation. All people need to wake up and realize we're Genderless Quantum Information Systems that can Live to 1 quadrillion years. 4000 first by eterni diet? The most important period of life that determines where diet can make you live to 4000 or not is the first months of pregnancy, yet NOTHING is ever studied or done about it, they behave like pigs eating random junk that tastes, looks, smells good. What a society of cabbage IQ people☺☺☺☺☺☺☺. No thinking, just automatons going aimessly in any direction the wind of more paycheck goes, drifting like dead beats to increase net bank account, dropping dead like a fly at 80 instead of 80 trillion. What a pathetic group of liars, pretenders and clowns thinking themselves "educated" and credentialed. Can humans evolve past "fruit fly IQ" stage and start behaving like an intelligent species? ☺☺☺☺☺☺☺

Why do men live shorter? They die during their deadly job, killed by chemicals, machines. Men also work in much noisier environments, the industrial noises create biological entropy that kills early. 400 million workers suffer injuries each year, that require time off work. How do psychologists solve that? In a fair society, we have equal lifespan too, if men take all stressful jobs, then they deserve more pay on average to heal the damage done by extra stress with extra nutrition etc. Today, women take least stressful jobs and demand equal pay, that's unfair, given women live longer already. Those who propose giving equal pay for less stress, as aristocrats get, propose the destruction of the society, for aristocratism destroys all societies: nothing gets done, except pampering for the aristocrats who take least stressful jobs of CEOs of national destruction. How arrogant to demand equal pay, when 80% of psychologists, are often times alcoholic depraved ladies and the actual jobs, that really keep everything working etc are done by mostly men, with 50 times the stress of "psychologists", a rather parasitic type of profession, like laywers and others we don't need with the technocracy of 11 companies. You see how foreigners try to destroy your society? They promote "snail IQ" ideas, while the real reform to make STEM 100% of majors (the rest are minors) not 30% is not EVER talked about. Real reform of equal pay, zero class pay difference doesn't exist. Only scams about men, women, useless professions taken by women who now demand equal pay, yes, 3 times the pay of jobs with 3 times less stress of the men jobs, measurable by HR and cortisol spikes. Let them mine then lecture us about the PSYCHE. Cars can't work on psychology, they need Lithium. In social justice we know stress (bad food, air, etc, duties) makes workers live far shorter than aristocrats. Real justice is equal pay for all, equal stress for all jobs, as detailed in 300 pages in the 11 companies section (so all have *equal life expectancy*) & the Immortality Credit Score Society of Science of Immortality First. Our educational system is incredibly stupid, we require kids to memorize junk instead of teaching them to INNOVATE, DISCOVER, DESIGN the Products that Help us to Live to a Trillion. You need memorize every lake, mountain, etc in some place, every hair, body part of some animal and plant, every stupid thing, what is this? Are we devolving into Imbeciles? Let's Focus on RESULTS: Innovation, Discovery of Gadgets, Diets that Add Billions of Years in Lifespan to the Nation for Lab and Objective Human Free Grading for Theory. No more BS and diplomas.

The whole discussion about gender pay gap is a distraction from the aristocratic pay 50,000 times higher than minimum pay, *you know the media is all full of gender pay*, instead of class pay gap. *Equality* is firing all Americans and hiring only Mexican, Muslim or Indian guys when CEO becomes Mexican, Muslim or Indian. The stories you never hear. Mexico officials in the Mexico National Defense Committee openly stated they'll take Texas back and it surely looks like it, Texas whites were 87% recently, now 39%, Mexicans are now #1 ethnicity. Muslims are also building their own city within a city, trying to Islamize USA. The Democrats have been infiltrated by Spanish and Mexican spies and have turned California and Texas from 80-90%

white to 40% Hispanic in record time, while advancing nothing of this book: universal leftism, one universal language, science of 4000 year life, they've been agents of the Spanish Catholic Church (and their pedophilia networks) who've done nothing but attract low IQ migrants instead of high IQ. Millions of blacks and whites have become homeless, as the Mexican mafia took hold. What have we gotten out of it? We fell behind in science and tech vs other nations in endless industries and we're not anywhere close to Immortality Credit Score universal pay, just changed aristocrats from one type to another, with no real change and return to Inquisition energy. This means lots of our Reps, Senators etc are American *in name only*, they're Mexico spies. Boston was 95% white in 1950, 44% in 2025 and attempted murder rates may have risen 7 fold, like serious assault did. This was done with trillions in bribes from the Italian Mafia and Catholic nations, since Catholic JFK took US tax rate for the billionaires from 94% to 65%, destroyed the middle class so nobody affords to have kids: worker pay rose 10%, CEO pay 2000%, since JFK proposal. Then, the same bastards, lies to Americans that we need "import 50 million Catholics" from Latin America to take over US, turn it into Catholic Espania, split US in 2. The truth is, with efficiency, and 11 or even 100 companies, we could have needed zero extra workers. But efficiency means no aristocrats from Catholic nations to plunder US. All Catholic Democrats were agents of Italy, France, Brazil and Spain. They destroyed the US family and also the US industry, that was shipped overseas, to China and Catholic nations. Total treason of USA, they fooled us they worked for democracy, but it was not for max pay 3 times minimum pay, just 5000 times higher, they wanted Protestant Aristocrats ousted so Catholic Ones can rule as in the Inquisition, a fraudulent Party of gangsters, of making everyone tattooed, pierced, LGBTQ and working as retail bipedal chimps to sell 1.4 trillion of useless junk made in China and Catholic nations. They have betrayed USA like they deceived the whole planet with their infernal Church that removed the Bible from the pews in order to hide the 1500 quotes of rape, genocide, slavery, theft. Slavery to Protestant Gangsters became Slavery to Catholic Gangsters, still slaves. Italy has2 millennia of experience in brainwashing 200 nations with lies and fake miracles. Catholics use the same Muslim, Jewish tactics, they play "We are Lefties" and promote equality and etc, and once they become majority in an area, they switch to Fascist style tactics and the Inquisition style rule becomes the norm: open extermination of anyone not Catholic, Muslim, Jewish. USA forgot they're dealing with the same old Italians who did 500 genocides during Roman era. The Genocide is ongoing, Catholic Biden brought in millions of Catholics, from S America, Haiti. Latino gangsters (females even) use lethal drugs to rob people in Colombia, and such gangsters can traffic these drugs within USA, via illegal migration. ☺☺☺

2). Family (migrants and local) Size *Equality*, can't have 7 kids for one couple and 1 for another, unless one has Immortality Credit Score 700+ and the other 100. Most people have score 200-400 and 1-3 kids max allowed by parent license, so none have score 800 (max score). Check out

endless semis and SUVs bringing 5-20 people illegally still daily in May 2026: US is really in an undeclared war with Spain, Mexico and other Latin America nations. We know in India's Kashmir and other areas, Muslims can have 10 kids to outnumber Hindus and send loads of illegal migrants from Bangladesh, so "in West Bengal, the decadal growth of the Muslim population had crossed 40%, and reached 70% in some districts." The same tactics happen in USA, it's a covert invasion to alter the religious or ethnic balance, some 'Latinos' are Arabs or even Jews who take part in the covert "takeover USA plan" by huge family size + illegals. USA Mexican population rose 50 fold due to open border policies, all brought in by the aristocratic military elites who could have sealed border in 1945, they brought in cheap slave labor, as the inefficiency of 33 million vs 11 companies required more☺☺☺. The military runs everything in each nation (spy agencies fake elections, control political parties), the Pentagon destroyed the US since 1945 due to spies. High level genocidal Bible hiding (Catholics removed Bibles from pews to hide the infernal 1450 Bible quotes) Catholic spies destroyed US security by ignoring the Spanish Inquisition, by Catholic JFK rich tax rate drop from 94 to 35% via JFK, Reagan, that made kids unaffordable. Low tax meant migration to make up for the genocidal aristocrat lifestyle of plunder via 33 million. Many migrants claim to be kids, but are adults: due to Arabs, Latinos, Jews, being short, it's easy to pass as kids. The Republicans destroyed USA via Bible promotion, as they control the Democrats, they destroyed the middle class, brought in 50 million Mexicans, while exporting all industry overseas, bringing 0 innovation. We need 50 million educated high tech people to create tomato picker robots and high tech of living to 4000, not tomato pickers. Billions from 200 nations can do a little cosmetic surgery and accent training and pose as Latino. Spain and Portugal were the first colonizers of the Americas (1492-1600) and their brutal Spanish Inquisition style subjugation (Mita + Enco) plus diseases caused 95% of all deaths of indigenous people in the Americas between 1492 and today. England didn't have any colony in the 1500s. Historians agree 95% of indigenous deaths happened before Brits and French got colonies in the Americas. The Aztec, Incan aristocrats also subjugated their indigenous slaves, like kings of all nations. In 1492, USA had 2-5 million indigenous people, today 10 million. Amish couple with 9 kids had their house wiped out by the tornado (because Jesus was a miracle faking impotent rabbi who could not protect his "disciples"), Amish and Jews want us to work our backs off to create free systems of universal free everything, healthcare and all, while we have 0-1 kids and they use it for 9 kids... while they're promoting anti-science and spend all life raising kids to outvote us and return us to the stone age of chariots and Talmud. Smart system of "you guys work, we procreate kids". You defend us, go to war for Jews, we procreate new voters. Amish and Jews are like the queen bees who procreate all day and we're the worker bees.... It's very odd, many Amish clothing and head dresses resemble Jewish ones, are they Jews? They certainly are mentally, as all they promote is the 3 hidden pillars of Judaism: Genocide, Rape, Slavery. 25 Chinese soldiers on a boat tried to land in Florida, to expand the size of 'China family' by force.

3). Duty/Performance *Equality* not just Rights/Income *Equality*, Effort at the 11 companies *Equality* (we replace 33 million companies with 11, everyone works 40 hrs/wk, with equal distribution of physical labor to diminish injuries, need of 1000s of sports facilities and gyms, instead of illegals, etc slacking 35 and working only 5, having 30 times less stress, as a hotel migrant worker, while others deal with 30 deadlines a day get paid the same and are legal).

4). Free Education via One Online University & 5000 Uni Research Centers, Education *Equality*

5). Housing *Equality*, nice housing for migrants who pass the Immortality Test (harder than PhD).

6). Sobriety *Equality* (no alcohol allowed, as it involved in half violent crimes and car crashes, nobody can enter a car without first being recognized via video and breath analyzer, as the only designated driver, whose awareness and state of restfulness must be high to turn car on to avoid car crashes: all car jackings become impossible, as only car owner can drive, car stops if another driver enters, all cars have Violent Crime Button to call cops if anyone attacks; death penalty for any DUI until all cars have this system implemented to avoid loss of life). ☺☺☺

7). Crime *Equality* (see chart of violent crime based on country of migrant origin, all theft is penalized the same: pay 9000 times the amount stolen. Murder rates are 5 times the 1950s levels in many cities, if adjusting the 5x fold increase in lives saved by advanced medicine today. Criminal imagery in movies/music have also increased 10 fold. Most fraud in Minessota is done by Muslim Somalis who allegedly stole $8+ billion sending 30% to Al-Shabaab terror group in Somalia, via false claims of autism, etc, 90 arrested as of Nov 2025). Fraud spread to Ohio, other states, people pretend to care for parents or elderly: Trump stopped all states' daycare funds. In California, Latinos in gov + Russian, Armenian, etc illegals stole $3.5 billion: 18% of USA "home healthcare billing is coming out of Los Angeles County.." Medicare & Medicaid Services Chief. Check out the homicide rates of non-Whites on whites and viceversa to see how much higher the UK homicides by non-Whites are against Whites. These numbers are shocking because whites outnumber the minorities, and it speaks to the Jewish takeover of the UK and other nations: in England and Wales, 73 whites were killed by blacks (mostly Muslim) and 18 blacks were killed by whites, even if blacks are 4%. Asians (South, West, Central Asia Muslims mostly), also a minority, killed more whites than whites killed Asians. Islam is Jewish invented religion (Islam is a rewrite of the Jewish Bible, known as the Old Testament by Christians) used to murder any culture that doesn't submit to Jewish Universal Sharia Law ("USA law like") of the Jewish Bible☺☺ of Eternal Gentile Genocide. Genocide by Muslim Proxy is the Jewish modus operandi, see more here. The purpose of Islam was to spread the Jewish Bible to all nations where Christianity could not reach. Jewish Bankers financed endless Christian-Christian religion wars, today it's Islam-Christian.

8). Rape *Equality* Equal # of Rapes: 0 Rapes per Alive Person, Any Rape = DEATH PENALTY. (UK rape rate rose 6 fold from 2003 to 2025 as Muslim Rapists came as migrants, in 2017-2021 Germany, rape rate was 16x higher for Pakistanis, Afghans, 11x higher for Africans than Germans, Sweden rape rate was 8 in 1960, 93 in 2023, a 12 FOLD RISE, (they don't deport rapists) as a million Muslim Rapists (followers of World's Most Rapist "Prophet" with 13 wives and 90 concoubines (the Quran talks about Mohamed's RAPES 20 times more than about universal compassion and never about gentle tender soft nurturing loving healing kindness), who said in the Quran to rape infidels and take them as sex slaves: to be a true Muslim one has to be a rapist as Mohamed commanded) migrated there☺☺☺, making Islam move from 0.01% to 10% of population, in the last 35 years thanks to tapeworm IQ Swedish "national suicide fans" fake leftists and Jewish Rapists posing as Swedish politicians (whose Torah is a Genocide of Trillions of nonJews and Rape of Trillions of nonJews Manual too worshiped in endless synagogues and churches by "worm IQ" folks who never read the 1450 Bible bad quotes, but "because all genocide, slavery, mass rape quotes are in the Torah", Christians say "they are less rapists as they use the Bible Gospel, even if Jesus says in Mat 5:17-9 "Torah (Bible) is still valid", Christians *need discard, never publish Torah where 99% of Bible very evil quotes are*, as Torah is pure human sacrifice satanism and beating slaves to a slow death). Any rape needs death penalty worldwide for true *Equality: Islam, Judaism, Christianity are* mass rape *religions* incompatible with *Equality* or civilization). Dating.gov explains why those who enter once a month procreation attempt agreement, after they receive parent license, can't be acccused of rape as they're making babies around ovulation, but any other setup can be considered rape if one party claims it was not consensual to "revenge": this creates a society of more meditative intellectual folks who're less animalistic, scientific and have sex for procreation only, out of fear of death penalty for rape outside of once/twice a month (around ovulation) procreation parent license system. It's the end of 3000 years of Jewish Rape of the global mind with their "esoteric teachings on sex", culminating with the total Holocaust of humanity by Sigmund Freud Jewish pervert who made sex the most overrated thing: "all humans (psychos like Freud) do is because of repressed sex desire" and the "central aspect of the Jewish psyche and human one too, Freud so thought".☺☺☺ Jews bring Muslims to 150 nations to rape gentiles to create chaos and gain more power, UK Pakistanis raped 0.4 million white minor UK girls, as the Jewish Mass Rape Quotes instruct and Quran, Judaism recycled, instructs.

The 219 page report by the UK government on Mass Rape of nonMuslim mostly White *(poor families, ethnicity unclear, could be offspring of poor UK migrants from all over Europe, or even East EU, Soviet Union, Ukraine, not pure bred Brits,* hence it was allowed by MI5/MI6*, especially if kids of illegal EU/USSR migrants)* British (nationality, not ethnicity) girl kids by 40-50 year old Muslims is available for all to read at bit.ly/4uE5odw. All news agencies reported this, even Elon

Musk said all rapists need to be executed like Nazis were at Nuremberg, perhaps all Bible-Quran publishers of mass rape calls fined 1 billion $ each too. All nations must unite against this cancer called Islam, the offspring of the Jewish Rapist Bible☺☺☺, yes Israel, the Rape Capital of Rapist Thought Worldwide, whom USA aided with 300 billion already. Racism of Muslim South Asians is out of control, those animals don't get death penalty for rape, as Jews love to rape all nations, as Zion Protocols explain, as the media, music, movies Jews create for gentile deify sex outside procreation. That's why Hitler gave Jews the death penalty. As non-Muslims realize what Jews do for millennia, the Holocaust or at least mass deportation of Jews from all nations to Israel, may happen again (Jews deported 30 times thru history, by edicts of kings, etc, pogroms happened many times, as Jews never gave up calling genocide of trillions and mass rape of trillions of kids as part of their "religion"), as only deportation or death seems to deter MASS CHILD RAPISTS... who build synagogues Worldwide to Worship MASS CHILD RAPE, this time done probably in seconds to Israel Jews only if Jews misbehave once returned to Israel, the world center for demonic depravity INSPIRATION for Los Angeles Jewry controlled Hollywood movies and "music". Today, we're years/decades from weapons that wipe out entire continents in seconds, so looking at 3000 years of Jewish terrorism and gentile reactions to it, one can't exclude something catastrophic, so many gentiles hope all Jews return to sanity and denounce the satanic Bible, Talmud, stop printing the filth for the sake of World Peace. Jews always said "this will be the last pogrom etc, never again, last Holocaust, tra la la", but history repeats when the causes repeat. Did Jews ever learn anything from their history of endless expulsions? The Jewish Bible is the most violent text ever published, yet the Jewish lobby is so powerful, it has brainwashed 4 billion humans that it's "holy", so much so useful idiots Christians now print it as part of their "scripture" before the Gospel, even though it's 1 billion times more violent than the Gospel. A lie repeated 1000 times becomes established fact, the Jews know it, so they use it to brainwash billions of the "Special nature of Jews", so much so "God came to us as a Jew, Jesus, faker of miracles". Besides the shipment of mass rapists to 150 nations, Jewish created media commits mental rape of billions of kids, sexualizes all, via Jewish Facebook, IG, youtube that spreads the concepts of alcohol, sex outside procreation far and wide, making hookups, drunk rape culture 1 billion times easier. As a result, many nations ban social media for under 16, so Muslims/Jews can't rape them. The entire world is starting to boycott the Satanic Sharia Jewish Rabbinic Dictatorship of USA, that facilitates thru its policies, movies and music concerts worldwide, the mass rape of gentiles. USA grows more isolated daily, as Jewish power to Mass Rape all nations increases, so as Americans wake up, the Jewish Rule of USA will end soon and America will be loved once again, or actually for the first time ever, by all nations one day. The Bible, Quran are like stamps from the dark lords that stain the US with infernal energy. NDTV reports of 700 Pakistani Muslims practicing Islam by raping one girl, the demonic Quran commands the rape of nonMuslims, as the Jewish Bible commands the Senior Muslims (Jews,

the Teachers of Mohamed, the inventors of Islam, the Muslim Older Brothers). Those unfamiliar with Islam need to read all the Quran Index quotes☺☺☺ to see the Rape "religion" invented by an animal with so little self-control, he allowed Muslims to basically have sex with 500+ ladies via 500+ 1-7 day "marriages" for traveling bandits, serial killers looting caravans who helped Mohamed create world's most rapist religion in their kill, rape, loot adventures. Mass rape is a tool of terrorizing a group one wants to dominate and subjugate. It's rooted in the cannibal chimp DNA mentality of trying to enslave that is in every human's DNA in trace amounts. Biology programs us to be very selfish and to tend to be lazy and want to exploit others. Only a strong culture of Immortality for All and true equality can overcome such DNA trends. Here is where Judaism is incompatible with civilization: their scriptures consider Jews as holy (Bible quotes) and the rest as animal souls and even demonic energy remnant in some less known texts. This can't create a fair society, as nonJews are viewed as animals to be worked to death. The Bible is a Jewish global incitation to human trafficking and death by slavery, genocide, mass rape, as is the Quran. All nations need to ban both if we want Eternal World Peace within a decade.☺☺☺

Creating a merit based society with no racism is a lot more difficult than wishing for one, due to the natural tendency of all animals (low IQ) to favor those who look similar. Let's face it, we're not etlif beings without form and IQ 900 quadrillion, we're just cannibal chimps who became nicer. When we discuss about real equality, we need to discuss about all aspects of it, not a scam to enable one group to take power and then exterminate the other groups, like Muslims often did: play nice, demand equal rights when minority, and then, once majority, exterminate all. It's funny how much hate one sees these days from Latinos, Blacks for Asians, Whites, etc, even though, if Whites didn't make contact with Blacks, Africa, Latin America would be like in year 1500 most likely, just villages and very agriculture based sparse tribal society of 4000 languages fighting like Native Americans, Europeans, Asians did for eons. That contact enabled transfer of tech that may have taken 50,000 years in the absence of contact to discover alone. No gratitude for being taken out the dark ages, since slavery of blacks by blacks (each race had a few bad empires, like Dahome, with the rest being the bullied, or Mali black empire thriving on slavery of blacks) existed for millennia before Jews, Western Europe Whites (Germans, British, French, Spanish, etc Empires, never the tiny nations of East EU that were themselves *enslaved by Muslims and West EU at times*, etc, don't call *all Whites 'former' oppressors*, as only 8 Jewish Bible worshipping White empires traded slaves, as the 'holy' Jew taught them via L25:44), Arabs ever traded Blacks... These same people committing endless murders forget blacks were 1% of USA, now 14%, so how many countries of the size of the USA in Africa allow whites to grow to 14% of population? There is a fundamental disconnect between the desire for Equality and the recognition of other aspects of what happened in history. As you can imagine, without tech

advances and creating shapeshifting beings that enable all to look the same, sound the same (one accent, language for all), etc, the biologically driven unmerit based "promotion" will always exist (subconscious bias even, even with the most complex Immortality Credit Score with 500000000 lines of code to calculate it), because it's encoded in the DNA, so all those who claim to be pro-equality need to face the reality of biology and that without science, no real democracy exists, without Shapeshifting Formless Immortals, without evolution of the primate ant to Immortality Blueprint. You can reduce racism 1 billion fold via advanced 11 companies for all humans system, one education for all, same language, accent, etc for all humans on day one, two of life, etc, but you still won't remove racism 100% until we transcend our current biology to become shapeshifters, formless beings of 1 trillion million IQ. Religion won't bring equality, only division, Science is Objective and is the only way forward if one wants True Ethics, Science allows us to become objective and fair. Some claim people are going to be 100% objective etc, they can't, only a properly designed AI can be 100% objective for credit scores, hence immortalists are for no elections, but tests for positions, and whoever scores highest in the multiple choice exam gets it. Even so, some choices are human and racism will factor in, since not all choice is based on an exam score. With one universal pay all conflict about money ends and position is given to the ones who can do it, not who has purple skin. We don't give the nuclear power plant in Toronto to a pigmy from Africa who is illiterate in English because he has the right skin color. If we did, millions would die in a nuclear accident. ☺☺☺

This equality section clearly describes why many are hesitant to transfer knowledge to animalistic hyper violent groups, be them ethnic or religious, world war 3 and end of humans could occur in seconds. These murderous chimps don't realize the violence of their culture and music, because the cannibal chimp DNA component is strong, and these murderous chimps exist in all races and groups, look at the music. You know, people are so arrogant and violent, like the cannibal chimps eating the neighbor's kids, they don't realize how aliens might view their ultra violent behavior they describe as "culture". "Culture" doesn't exist on Earth, only murder. Culture means zero violent crime. It's amazing with what ferocity, reminiscent of cannibal chimps, some defend their hyper violent "culture", and go to "war" to defend it, for 400000 years, each cannibal tribe against the others, not realizing none have any culture to defend, only a psychotically violent gang 'code'. So, that's our task, to become human, to stop being cannibal chimps, to consider replacing the hyper violent religions and scriptures with something more civil, like the Immortalist Anthem, and begin the Journey to Shapeshifting Immortality. The Jewish media somehow has invented a narrative that Whites or Chinese alone are evil and blacks somehow never enslaved any blacks, when they did for 50 millennia at least most likely per data we have. The evilness (tendency to try subjugate others) is a cannibal chimp DNA component of the human DNA regardless of skin color and Jewish media lies. It emerged 2

million or 8 million years ago when a bigger chimp bossed around others and told them to do something under the threat of violence, the first human slave was born in that moment, we see this behavior in chimps today in the jungle. It's in the DNA. It can change, with real Immortalist culture. No more electing of liars and frauds based on racism. You pass the test, you get the position. No more political parties to divide. Let's be real, people are highly racist and they usually deny it, since they never monitor their choices, they pretend to have transcended all DNA influences of the animal brain and that they're Celestial Shapeshifting Immortals who really see all people the same, like the most impartial AI taking care of 50 trillion lifeforms of a Star Confederacy. It's the pure biology of fear and survival, blacks vote blacks, whites vote whites. Real democracy can't exist with 20000 governments, one law, education, language, accent, etc has to be for everyone, otherwise conflict will arise over religion, language, accent, etc☺☺☺. Read on, because without studying the real complexity of creating an Equal Society via Human Lifeform Engineering, we'll never have equality of the highest order one can imagine, only maybe 99% if AI and merit rule. When we shapeshift, visit planets with lifeforms, our identity is formless, pure consciousness of gentle tender soft nurturing loving Immortality, not partial to any lifeform or human subspecies. We don't become that by Neolithic rituals, but by pure physics and chemistry we'll discover. As Pure Energy Beings, we're free from the diseases of infinitely stupid lifeforms: racism, etc. ☺☺☺☺☺☺☺

9). Air *Equality* (no second hand tobacco, weed, vape smells that cause cancer/brain damage, all weed, vaping, tobacco, drugs banned, the Building Inc inspects all houses for mold/drugs yearly, and ensures all homes have all rooms with ideal temp 75°F (if that's found to make us live the longest so immunity works best) and 45% humidity (if found to be the best), CO_2 concentration 500 ppm max. All get fresh air, via CO_2 trapping or ventilation, all will use CO_2, N_2, H_2O to make protein, carbs, fat @ home like airprotein.com, so we buy only vitamin powder (dissolve 20-50 g of special extra custom nutrients, peptides, amino acids, polyphenols keep the macronutrients, proteins, carbs, fat more similar day to day for a given person to reduce biological stress). Each house is off grid, generating its own energy via IR-VIS solar panels on outside walls, windows, roof. The 45% humidity is a minimum every day of the year, not 10% humidity at times, meaning no damaged lungs from dry air and thru that 4000 diseases coming from air pathogens sick dry lungs can't filter anymore. The current homes don't have healthy year round temp, mold, VOCs, 2.5 µm pm levels (<1 µg/m^3, not 18 like Los Angeles), CO_2, humidity, due to 1 thermostat, high temp differences room to room. There is only 1 temp/humidity that helps most live to 800; have split AC in US homes only☺☺☺, to lower CO_2 ppm, save electricity, hit 75°/45% in 1 small room if alone at home. Central AC fuels mold via vents. Current homes are stone age as "cow filif IQ folks" design them, the "business mindsets", with no 1 million PhDs as with Immortality Building Inc. Unlike *immortalism*, capitalism produces trash, because you got 90,000 companies each

with 0-9 PhDs, instead of one with a million PhDs producing "sci-fi" tech. It panders to the animalistic self, wanting to feed from a trough like pigs in our so called restaurants, to the unthinking slaves, too low in IQ to want a food with 50,000 chemicals weighed in µg quantities, it thrives on making everyone as abysmal in IQ as possible, so aristocrats steal everything, award themselves 50,000 x the minimum federal wage, and sell poison to all to fund big palaces and 3000 acre estates. It uses fraud based religion to build elaborate brainwashing rituals, while real civilization, meaning zero violent crime/war in 4 years☺☺, is never discussed as a goal, since violence keeps the theft going. Isn't it odd how religions focus 0.0000001% of their activities on ending violent crime in 5 years? It's not odd, they were all made up by the rich to create gullible slaves and cannon fodder. The body's chemical reactions in all cells have tight temperature ranges, deviating from that means cell death and living 5-25 years shorter.☺☺☺ Reactions vary in efficiency, waste products rise/fall fast with temp/humidity (dry lungs let in more toxins, less oxygen), the body goes thru extreme stress to adapt to ever changing temp/humidity, so we need this and later a planetary shield for Weather *Equality* for All, 75°F, 50% humidity for all humanity, zero storms/fires/floods.

10). Culture *Equality* (i.e. we all have the same 0 violent lyrics, movies, 0 negative lyrics culture of Immortality *for* All, meaning 99% of music banned to equalize its vibe, like in the Immortalist Anthem, so we no longer have Ethnic Cultures (no more ethnic cuisine/music, no more British, German, Korean, Chinese culture), Racial Cultures (Black, White, Hispanic cultures, Black History month, but *only* the Equal Universal Immortalist Culture *of* beautiful☺☺ telepathic radiant teleporting genderless shimmering shapeshifting Immortals, we're all Immortals, yes, humans, it is the end of Chinatown, Korea Town, and any ethnic names of any restaurant, product, business). *Culture exists when 0 violent crime begins*, when 0 war exists, so until then, no country actually has a real culture, only a comical pretense of having one. In a killing field of deception, no culture is possible. Immortalist global culture is born of World Peace ideals (0 worker-worker fights, as aristocratic vampires no longer exist to start wars among nations and groups), it's a beautiful☺☺ culture of life, of living to 4000, like honey bees can live 50 times longer by changing their diet in the fetus stage, of replacing 5 million gyms and beauty salons with 5 million "Making offspring 50 times kinder, longer lived and 2-50 times higher IQ by a new diet for pregnant moms and kids" Immortalist Nutrition Centers that postpone all diseases of aging by 3000 years with eterni foods, since most people only have health issues at 60, so at 75% of their 4000 year life, meaning age 3000. No longer go to doctor in your 50s, but in your 3000s. Save money, you know a real political party with real results, trim healthcare costs by 50,000 trillion next 2500 years. Nutrition includes the mind, the brain via and eterni music that creates eternal World Peace which means money goes to longevity, not to war/spying. Obviously, when we have 1 billion companies, we fight a lot, with 7K languages and 200 nations, but with 11

companies worldwide, 1 language, we have actually a fighting chance against aging or disease. Imagine, a "wanna be culture" instead of beauty and hair salons, pouring 100s of poisons in eyes ☺☺☺, face, hair, brain, would have Intelligence Nutrition Centers to discover the way to create the human who lives to 4000 and Eternal Universal Peace Centers to create the techs, relaxing environments that bring 0 violent crime, 0 addiction, Eternal World Peace in 5 years. This culture bans all useless stuff and focuses on what matters, ETERNAL Immortality *for* All. Women need to concern themselves with how to make babies 50 times smarter and longer lived, not with how to put more carcinogenic and dry eye creating makeup on their eyelids and hair. The Jewish British method of destroying a country is multiculturalism, the creation (like Lenin in 1917 promoting 100 languages and cultures to split the Russian Empire) of separate segregated cultures that have their own artists, accent (instead of ONE Language, One Accent, One Educational System), music, schools, cities, neighborhoods, etc, so that they can promote the most evil diabolical, destructive music, cultural ideas and inter-culture conflicts for maximum looting and domination and takeover of USA and other nations.

For example, the Washington DC culture the Brits created, with 80% blacks in 1970, packed them all tight, with population density half of Singapore and 400 times the homicide rate of Singapore, mostly blacks killing blacks, the role model to be exported to every city where non-brits exist worldwide for maximum subjugation of the planet. This is segregation actually in disguise, that's why all fake Democrats, like Kamala, Newsom wish Happy Kwanzaa to all, it's a mockery of blacks, not a good wish, they want blacks to attend black events, celebrations, schools, colleges, to have 400 different cultures fighting, while the Brits rule. They want us to burn incense (Christians burning candles in churches daily like idiots, PAHs to poison lungs), candles on Kwanzaa, Hanukkah, etc to inhale carcinogenic PAHs and poisons the aristocrats place in these "special event candles" (mercury, etc) for the naive workers. Religions are like Opium for the Workers, to enable easier Looting of Trillions by Aristocrats. The Rich never invented a Religion Celebrating Trillion Year Lifespan for All or Single Family Homes for All. It's a Scam of "Palaces for Us, Religions for You Morons". Stop Donating. "Happy Kwanzaa" is "Stay away" in disguise. That's why we have Jewish Yeshivas, Neolithic Purim, Hanukkah, Christmas, etc, too, put all Jews, Jesus fools in one place, Chinese in Chinatown, easily to manage the "slaves of each religious, ethnic group". That's why they encourage "Ethnic (any country name) Orthodox Church" and other genocidal groups. It's all about keeping all away from Brits, low IQ, backward in Neolithic traditions. Theft by British Jewish aristocrats becomes 1 trillion times faster when the "gentiles" are busy shooting each other in eternal gang wars or democrats fight republicans in nonsensical fights created by British gangsters who gave us political parties to divide and loot us. Both parties are a scam that promotes max pay = 50000 times min hourly pay (Rep) or 5000 times (Demo), there is no third option of 3-5 times or equal pay. All day the

masses of cow IQ workers are led in fake protests about nonsense, never to protest at the aristocratic mansions. Only to attack fellow workers over nonsense. Every American has become a loonie almost (like in 1918 communist times when women under 32 (with less than 5 kids) were public property free to rape by Jewish communists, 1000 women could be raped, per day by any Jew), with 500 tattoos, 4 kg makeup and hair dye, and 40 piercings and the most violent filth music in headphones.

This "culture" given to us by Brits has spread to all NATO and other nations with vengeance. We immortalists beg to differ, and we think US can be saved. We don't believe in multiculturalism, since no culture exists on Earth, as culture exists only after all violent crime and wars cease. Multi killism certainly exists, but not multiculturalism. Thus, our goal is simpler culturally, just one "semi culture of bringing the first culture in world history, by creating world's first zero violent crime/war society via eterni music, eterni tone, eterni anthem". One culture = no conflict. Hey, 80,000 tribes exist on Earth, each with their sadomasochistic blood letting rituals, should we be kind and wish them Happy Blood Letting, Corpse Eating or Human Sacrifice to them too, read the first page of the book. All day 24-7 on TV should be 8000 Wishes to every little Psycho Group, so we don't fail to include anyone. Christian "culture" adepts need to read the next Bible quotes that have the demonic Torah Yahweh 'God' ask us to enjoy: "genocide, mass rape, human sacrifice, arson, alcohol intake to beat to death all around you, kid beating, slave beating". Jesus says in Mat 5:17-9 that all these quotes from Yahweh remain Valid Forever and Jesus came to Fulfill It. Now, perhaps you understand how Genocidal is to even say Merry Christmas, Happy Easter (he faked his resurrection too, to deceive all, after causing 1 billion dead via alcohol advice). Why can't we replace all this Islam-Jesus-Judaism imposed garbage from Israel and etc with Happy Immortality *for* All or Happy Trillion Year Lifespan to All. Workers of the world, Unite, Awaken: you can't live to a trillion, without decent conditions. Living to a Trillion means every Worker will get better living conditions than the Best Aristocratic Conditions today by a factor of a billion. Boycott all holidays and religions, demand Real Fairness, the Immortalist Anthem that brings the One Universal Trillion Year Lifespan Culture on Earth, No Blood Letting, No Animal Slaughter, 0 Violent Crime, No Prisons, No War. Think, don't be naive. You soon see how ridiculous it gets to hear people spend eons in empty talk "We honor X, Y, Z" instead of actually doing something to create quiet cities for decent sleep, etc, zero violent crime, etc. Islamic "culture" adepts need to read the Quran quotes that have the demonic Allah "God' (Mohamed, world's greatest rapist, serial killer and "prophet" at the same time) ask us to enjoy: all types of slaves, mutilating others, beating kids/wives, theft, genocide (infidels), prostitution. Why are Islam, Christianity and Judaism given the status of religion, tax free status when the quotes say the believer duty is to commit mass murder and the most horrific violent crimes? Earth has no culture folks, wake up, all societies and "cultures" were

ultra violent and sick. Culture begins when zero violent crime exists, so let's bring that for culture to appear on Earth for the first time ever. Islam, Judaism, Christianity, 100s of indigenous cults (the workers human sacrificed by Tribal Chiefs by Native Hawaiians and Americans) are not about *Equality*, but about subjugation and violence.

11). Music *Equality* (the gentle tender soft nurturing loving healing kindness music of immortalist lyrics and eterni *melody* tone, eterni vocal tone) to create Homo Immortalis, the serene civil man

12). Speech Tone *Equality* (can't have some bark like Hitler in music and church and others talk in eterni tone, that's not equal, that's cannibal vs human) ☺☺☺

13). Taxes *Equality* (0 tax for all via the end of aristocratic terror, the start of 11 companies)

14). Law *Equality* (end of all city, state, county governments, and 20,000 versions of laws, 18,000 police departments merge to create 1 police department/law for all USA and all judges, lawyers and prosecutors receive equal pay at the Immortality *Nurturing* Agency, the unified court-police Agency of universal justice, 0 crime, ending frivolous lawsuits by 33 million evil companies, this will be the end of thugs becoming judges, prosecutors, lawyers to make $ or defend evil)

15). Chastity *Equality* (kids equally free of pedophiles, perverts, sex outside procreation scenes in all TV-radio-movies, by education centralization free from mass rape quotes of Bible-Quran)

16). Religion/Spirituality/Ethos/Life Philosophy/Ethics *Equality* ("religions" of genocide, war, begging, death worship, slavery (unEQUALITY), slave beating, rape, arson are terror groups; we're equally free of their temples, scriptures, clergy, as immortalism replaces thuggish religion). Just for the record, the Muslim Arabs enslaved tens of millions of Africans (from 600s to 1909, due to Christians who stopped Muslim genocides against Blacks), while Brits brought to USA only 0.45 million blacks, who would have otherwise be enslaved, killed and lived in far worse conditions, since slavery existed in Africa for 5-200 millennia well before Europeans took some slaves too that the black kingdoms were selling for profit (the Dahome kingdom also human sacrificed slaves they could not sell: a black empire built on slavery of nearby black nations; the lucky ones were shipped to USA). Slavery was first abolished in the Christian West. In USA blacks went from 1.4% of population to 14% today, while in Muslim societies they were mostly killed, with most blacks being castrated (75% died before getting to the slave market after castration) in East Africa and often having a rate of death of 80-90%. Only 1% of Americans had slaves, the aristocrats, just like only 1% (the rich) have a lot of extras, luxury goods, etc. Regarding "reparations" and "Equality", how equal is to get to live 30 years extra vs remaining in Africa? Whites ended slavery in Africa started by the Muslims in 625, and it was done thru the killing of a few dozen black and Arab criminals in 1909 and then destroying the Turkish Empire that enslaved millions of whites, blacks, Arabs. Should we demand Equality of kids/couple and

deport 13% of Americans to Africa because they're black and had unequal amount of kids? How do we define Equality ? Only what fits someone's agenda of extermination? How about deporting all Asians to Asia? Equality , 0.1% in 1800, let's go back to the original percentages. lol. Reparations aim to Fix Historical Injustice, so what is Justice? Or Equality ? Everyone having the same amount of kids per family. How do we fix the Historical Injustice of so many kids/person? You see where it is going? In Russia, they exterminated everyone, they basically, turned Kazhakhstan from 82% Kazakh to 30%, same in other republics, in USA Blacks went up 1000%, got trillions in equivalent reparations already, how do people think of Russian communism and they think Russia is better than USA? 0 Blacks in Russia. Russian communism was a cover for Extermination. Only the rich 1% (Brits) brought slaves and enslaved whites, Asians and Blacks, so what have the other 99% of whites have anything to do with this? The endless slaves brought from endless EU, etc nations working as miners, coal plant workers? The non-black slaves (so called "migrants of 1500-2025") actually paid trillions in Reparations for the 1% British Slaveowner Pigs (who paid 0) by helping Millions of Blacks worldwide (think about all high tech, cars, Evs, solar, wind all white inventions in Africa, Internet, etc) and in USA with education, affirmative action, and becoming 100 year old lived guys, from 55 year old Africans, etc. It's funny how one sided people can be. Sure, there have been haters, crazy people, KKK, etc, and some still are (who promote evil music of hyper violent trash as black "culture" to stir conflict and violent crime (the bored 1% aristocrats who hate all workers with a passion, the enemies of all humans), but the reality is World Peace only emerges when we have 1 language, 1 culture, 1 accent, 10-20 companies and 1 law for all planet, because people are too "rat IQ", they'll fight over any little difference in accent, language, religion, nation, company, salary, etc. We need 1 salary for all, people are too animal like chimps, pure beasts. Don't believe me? Watch the genocides from religions and the chimps and see how like chimps all are. The Vikings were cruel and evil like the Dahome or Mali blacks, so were many in Asia and Americas, the same chimp DNA. Cannibals too. Behind the composed facade, the evil chimp always tries to resurface, to cheat and to fight, to take it all, to be unfair, to subjugate. Taming the wild beast is not easy. 99% of Europeans (like every other race) were slaves in their own countries at the hand of aristocrats for millennia. Africans in African areas live to 53-65 today, in many nations, those in USA to 80, or even 100, just like the other groups. USA is the best nation for blacks. Nobody allowed Blacks to expand 10 fold their %.☺☺☺ If blacks were oppressed heavily, their % would have remained 1-2%. Many Blacks live in US better than whites and Asians in 190 nations, a modern house on a 1-5 acre property, etc. Oprah has a 2100 acre property. This would never happen in the Arab world. How many whites live in black nations? 0%. They get lynched if going there quite often. Except South Africa, the Dutch, 10%. So, how about Equality ? Of Treatment?

Brits brought 0.4 million Irish slaves too (60-70% of early migrants to USA were white slaves

brought by aristocrats), treated them the same way they treated blacks, serfs with zero rights. Many blacks hate the conman Jesus religion or USA, not knowing Blacks went from 37% in Argentina in 1778 to 2% today and same in many areas where Arabs came, brought Beduins. They think the Gospel is the same as the Quran, but study the differences. It's quite a big difference, even if both are crap. Last 70 years, Saudis enslaved millions, who lived 5-50 in a room, to build stuff for Arabs. UAE too: watch. Hate USA? Go live in Dubai or Saudi Arabia as a slave or to 50-65 lifespan African nations for 3 months and then come back and understand Islam vs Christianity. Muslim Turks turned 1 million whites to be galley slaves. The bastard aristocrats, who own our 2 fake parties and everything, force billions of kids to memorize 5 million battles in which 2 second lived bacteria (humans compared to Immortal humans) committed endless act of genocide, rape and cruelty. Nothing is more "bacteria IQ" than that. Then we say we want to build a brighter future, of living to 4000 years old at least to begin with. How can that happen if all we do is create zero IQ memorization machines who forget all junk learned in humanities, instead of learning the 5-10 compounds that would increase human lifespan 50 fold by understanding science, biochemistry and etc? We're insane, all we focus on, is crap TO KEEP US CHAINED, money and fights, the past, recreating it, what's wrong with everyone gets same pay and work for 1 trillion year lifespans? Jesus the conman fake miracles bacterium could not make his "Godly" self even live to 4000, like a honey bee can live 50 times longer than others, so much for his "message" from "god". The history of humanity is simple: bacteria fought due to being mind controlled by bacterial aristocrats, the 1%, who, in their infernal addiction to money and power started 5 trillion wars that the enslaved 99% in every nation had to memorize to be a good killer of 'enemy workers', while the real nutrition info to live long is never taught in college or school. The slaves are taught to kill/hate other slaves, as aristocrats never fight wars. How diabolical. The MDs can make 80 times the min wage, lawyers 400 times, CEO 50000. What a farce. Do they work 80 hrs in 1? No, we can give free education to all, create 10 times the MDs today for the universal wage. ☺☺☺☺☺☺☺

Why don't all who make 2+ times the minimum wage enroll by default to serve in every US war for 6 months as infantry? Why do they use slaves as soldiers to murder in WW1, WW2? If MDs were going to war, instead of hunting animals on 200 acre properties, they would want World Peace, and 1 nation for all humans today, 1 currency, 1 salary for all, instead of being without legs, one eye/ear and hands. Force all Pigs☺☺ to be Soldiers going to Iraq, etc who make higher than federal minimum wage of 15K/year: World Peace will manifest in days. Send first the highest paid, in order of salary, assets. Would you rather choose 50,000 fold salary difference and lifespan of 80 with eternal wars and violent crime or 80 trillion year lifespan, zero violent crime, world peace and one salary for all? What is important in life? Life itself? Or paper money, a bigger beam of wood for a bigger house? Let all pastors and Jews making > min wage, in USA,

fight the Muslims, for the Jewish Bible created the Quran. Send all clergy to Every War, Frontlines, to embody the Fighting Spirit of Jesus who throws people and tables, of Krishna who calls all to genocide, of Mohamed who calls all to Jihad, send all imams, rabbis, Hindu clergy, pastors of USA to enlist as infantry by Law to Live the Fight they call for. Let them Defend the Freedom to Preach Violence within US borders, we'll decorate them, after they lost limbs, ears, eyes, as Christmas trees even with 300 medals of 300 Virtues, from Gentle Tender Grace☺☺ to Honest Valor☺☺ in defeating Islamic, other fanatics they created. We don't need lawyers, as Etis gets rid of those pigs.☺☺ What justice, what fight, when Equality and Decency exists? None will sue anyone, they just use reviews.gov☺. What is there to steal when all have similar assets, similar objects to help all live in Virtue to a trillion, mortal animals? Wake up. Let all humans discard the Demonic Chimp traces within and kindly walk towards the Victory of the Immortalist Anthem, and One animal herd becoming Human first time with Zero Violent Crime for all Chimp Humans. To make everyone as "nematode worm IQ" as possible, the rich force slaves to memorize past cruelty ('history') and expect it. We need to learn the history of scientific innovation that enabled us to live longer, so we discover how to make all live to 4000, not how we chopped others' heads last 3 million years. US history: a gang of aristocrats started bringing White, Black, Asian slaves in from Eurasia, Africa for 500 years... Poor Americans learn complex garbage/lies, but not the 1 sentence summary above. World history = the 1% subjugated the 99% in every nation. What else is there to know? Give us the science to live to 4000, of Immortality *for* All, not the fake religions to start wars of plunder. The workers need to wake up and demand real education on nutrition☺☺☺ and living to 4000☺☺☺, not history classes to brainwash workers to kill fellow workers from other☺☺☺ "countries" (slave colonies, mini concentration camps). ☺☺ It's time *for* the real 1776 *to happen as we all* happily ☺sign the Declaration of Independence and Immortality for All. The past ('history') of all nations is the same: workers worked to death. So, let's create the future. ☺☺ The Immortalist Anthem first page ideal of loving the worst person a trillion times more than the best mom loved her infant baby last decade, via great free education, universal jobs for all, zero unemployed, etc.

17). TV-radio *Equality* (equal info, *equal* tone, *same* info for all, same TV/radio for all, time to avoid wasting 7.5 trillion a year, by doing instead of talking, so we get 1 TV and 1 radio station (not 15000) of eterni tone in the state of emergency to bring violent crime down 1 trillion fold)

18). Healthcare *Equality*, universal healthcare for all citizens of USA, not migrants/green cards or those 2 million who spend 4 days in USA after birth, then go to a hostile nation to be brainwashed and then at 18-30, they can come back to USA as citizen to get free benefits, even if they're the most anti-American and proChina communist or whatever spy. This is fraud, Citizenship by birth abolished, see how citizen is verified for anyone outside of USA for 2+ years. All these fake citizenships need to be revoked.

19). Transport *Equality*, free public transport for all, develop quieter transportation ☺☺☺☺☺☺

20). Food *Equality*, healthy food free of AGEs and many other toxins, develop high tech foods

21). Banking *Equality* (1 bank, not 9200, all discount and credit cards vanish, to buy anything one can only use the Eterni Bank card, which only legal residents have, cash is banned, no illegal can survive as all who buy food for illegals receive lifetime labor, all transactions monitored)

22). Language and Accent *Equality* (same Tone and English Accent used in all TV-radio-education for maximum Social Unity, all gov/businesses/homes use only 1 language, Eterni English) ☺☺☺

23). Quiet Cities *Equality*: nobody will make noise with church bells, loud parties, concerts, mosque calls, excessive car honks as in India, etc. We will have true respect, equal silence for all.

24). Lifespan length *Equality*, we need to treat male specific stress that make men live 5-8 years shorter, and ensure that all have access to best sperm and egg to give long life to offspring. Stress is the number one killer, they say, and it is, men had higher stress for eons, as they had to bring money, food, etc, while woman did the easy stuff: stay at home, cook, clean and complain "about 30 things", thinking men have it "easier". Let her fight tigers and people in wars. We need to give all people a fair chance to live to 100, by proper benefits for riskier jobs too. Some women want all the equal benefits, the pay, the power, without the equal stress and deadly jobs men have that make men live 5-8 years shorter. Men live shorter due to higher stress: stress creates arterial plaque which causes heart attacks, strokes and organ damage by blocking nutrient flow, so men die early. There is nothing controversial about this: a million studies show stress ages us faster, in 1000s of ways, not just atherosclerosis. In former millennia, it was common for the man to work all day, woman staying home and then she wants *Equality*? Lower stress for millennia makes for longer lifespan. At home there is far less stress, in the jungle fighting animals or others it's deadly and super high cortisol. Ladies, let us practice democracy in full, *Equality* in ☺☺☺stress for all. Today, the female German Health Minister, full of makeup, has revealed that "we need to treat women specific diseases" but not male specific diseases that make male lifespan unequal to female, when in fact it's the stress that is unequal due to the German aristocratic model of civilization that causes unequal lifespan and a macho society. This macho society creates macho women, who no longer breastfeed their babies for 3-4 years, which would naturally eliminate any menstruation, and related pain (on average it's about 500 days of painful bleeding a lifetime, since women got 450 menstruations, from age 15 to 50, with 50 days being very painful). Already, the FDA has approved many pills and hormones (progesterone, progestin, prolactin) any female who had her kids can safely take to avoid any menstruation, or any woman can induce lactation or keep using (after her baby stops breastfeeding at age 4) the most advanced pleasurable pump that mimics a baby sucking, which

releases oxytocin and endorphins to delay aging, she can drink her own milk (maybe she will live 4 years longer) if her daughter or best friend's daughter doesn't want the milk as a 4-15 year old, or, if none interested, breastfeed babies in the area who need milk if they mother can't produce much. Solutions exist already and better pills, pumps can be made, so the Family of Immortals extends to all babies of compatible health issues, blood type, genetics, etc for maximum antibody support. A lady had 12 kids and lived to 118 almost, because breastfeeding is good for the lady, but selfishness today prevents this, so they poison babies with Enfamil formula which has 97 times more AGEs. Nature punishes women for not breastfeeding 4 years, with 4 years of pain, in hopes of getting her to breastfeed, like a human with the smallest amount of compassion for her children, would do, something hard to find in today's world of Galaxy Size Egos and Macho Martial Arts Ladies with empathy similar to Hitler's. Instead of addressing the German CEO pay being 400 times higher than that of most workers, pay in*Equality* that stifles innovation, prevents World Peace and healthcare from getting 10 times more funds in all areas (incl pills for female pains), unequal pay that prevents us from living 40 times longer (pain free) by eterni food tech that increases human life 40 fold like with honey bees, she's just playing politics of bleeding pain games, while her makeup encourages ladies to develop dry eyes that men then have to cure and manage, instead of fixing their 5 years shorter lifespan due to in*Equality* creating war, stress, etc. The solution is simple: develop universal compassion, breastfeed someone else's baby if period is painful, if pills to stop menstruation could make you infertile or have side effects. They got milk banks that always need more milk, but many women are too selfish to care: they Demand NOW 0 pain with 0 giving or help for others, 0 side effects from pills too. It's important for males to understand that the menstruation pain can mean irritability, poor sleep, anger and higher chance of starting an argument that could end up with a dead kid for mentally instable ladies. ☺☺☺☺☺☺☺

The real disease that causes us to have a trillion times shorter lifespan than Immortals, that we all have is called GREED, OCD with money, a mental illness that is more urgent than any other disease, as it threatens the human species' existence itself, not just menopause/period issues. We need end all violent crime and war immediately before we vanish as a species and all ministers need to talk about that and how what they do will bring about that. Period. Everyone goes thru pain, men vocalize it far less, being more stoic sort of, and more macho to talk about the pains: men came for millennia from wars and didn't complain all day about the pain of injuries they had in wars, these post traumatic stress disoders and chronic (each time they walk or use their hand or bend) pains in legs, arms, etc were there 4-12 hours daily (not 15 hours a month at menstruation) but women, who don't die on frontlines much at all, don't care about world peace. Where is the compassion? Don't male pains count also? Only female pains? Women tell us of the "historical injustice" of men having higher pay. I do agree all pains need

vanish via tech and DNA upgrades, but first let's have Eternal World Peace. With 11 companies, we get real equality, all men and women can serve in the military (except 5 years around a newborn baby) and militaries can aim to recruit more ladies in all volunteer armies, so they know how bad war is and they work 24-7 to bring the world of one language and 11 companies, instead of wasting time with makeup and "women diseases". Just the military training itself is enough to turn every woman off and want World Peace in 3 months. Endless wars kill endless men because many women were traditional "cow IQ" folks who supported anti-science, anti shapeshifting DNA tech, religions and multiple languages that led to wars. Everyone needs to realize one day we'll all be teleporting genderless shimmering shapeshifting Immortals of the Society of Kind Technocrats of the Immortalist Anthem. We need to work as a team, until we become genderless Immortals, acknowledge the reality: women have smaller brains, and, like with smaller computers, can't reach the same IQ (processing speed or insight, etc) of a bigger more powerful computer. The bigger the laptop the more stuff it can do, compute, etc. Same with primate brains. We need to develop the idea of universal family, every lady and guy needs to view all humans as one's babies, as the Immortalist Anthem clarifies to all migrants to the Land of Immortality and *Equality* for All. Without ending war soon, there will be no more humans. How come women don't protest about men dying 5-8 years earlier, if men have it so "good"? Yeah, let's see ladies fighting war on the frontlines, and dying at age 35 due to bullets or bombs. Then we talk about Makeup above World Peace in 3 months. Bitches who don't fight for Immortality and *Equality* for All don't care about World Peace in 3 months, only about Power, $$, Makeup. May all humans get a STEM degree and create the Genderless Immortal. ☺☺☺

25). Bloodshed *Equality*: all nations shall have equal bloodshed, meaning 0 animal bloodshed, for it is hypocrisy to demand others treat all equally and don't subjugate you, while you subjugate animals and kill them, billions of male chicks on day 1 of life.☺☺☺ Let's go vegan, end hypocrisy in the name of religions and actually create a world free of bloodshed via eterni foods. Animals are unequally killed for food, so to demand *Equality*, first offer it to lower IQ beings. You want God to have mercy on you and give you eternal life? Good, then have mercy on animals. You want to attain Equal Lifespan to God, Eternal Life? Good, then stop the killings of all animals and plants and develop eterni foods that kill no more bacteria via quantum device sterilization of planet Earth that removes all bloodshedding carnivores on Earth in one second. Let all bloodshed end by eliminating the bloodshedding species, so one killing of a tiger prevents tigers coming from that tiger shedding the blood of 10 trillion eaten animals. Be the Angel of Life. Want *Equality*? don't choose a carnivore as national animal, don't promote cats that kill 100 mammals or dogs that kill 1000 chickens to eat nonvegan food. Be kind, live in God's Light, give equal medical care: build hospitals for people, not for pets we don't need, pets that she blood. Show your love for *Equality*, by donating all pets now and taking care of people in need. ☺☺☺

26). Pet *Equality* : many people are homeless, have terrible housing, health issues due to lack of medical care, all due to the greed of a few pigs who need Pets and Pet Hospitals, Pet Shops that steal resources for decent housing, roads, water treatment plants, etc. An adept of *Equality* agrees to 0 pets for all, until we have achieved 0 violent crime, 0 war and deep *Equality*. No culture exists on Earth, it can't when violent crime exists, all we have is training to kill... It's not *Equality* to take the life of endless babies killed by pets, it is the epitome of egoism, hypocrisy and gangsterism to demand equality, while you buy a big dog that can kill a baby. Endless kids are mutilated daily by these dog owners whose dogs are Satan's best friends. If the trillions wasted with pets would be used to fix USA, violent crime would be 9000 times lower. *Equality* means all people, infants have the right to not die due to a medium or big dog attack. Nobody should be live a state of constant fear some nearby dog might kill their 1-15 year old kid. ☺☺☺

27). Beauty, Security and Video Camera Identification *Equality* (ban burqas, wigs and any scarf that hides the face seen by CCTV from front/sides/back, because they prevent AI recognition, ban jewelry, tattoos, piercings (infections, health burden), mascara, eyelashes, liners, hair dye, hair styling, any makeup (except skin color makeup for under eye dark circles for any special event where you may want to hide a pimple or scratch, all need evolve past the need for that, so you know when you slept bad and take proper action, the way we look is the best biological feedback for living longer, plus with doubles for spies, minor differences in vasculature can be hidden by makeup to avoid AI detection (since iris can be faked with contacts to match the double's picture in scan databases), so it will become illegal to use makeup, especially as it takes resources away from longevity, creating a society of rat IQ ladies dead at 80 instead of smart ladies dead at 80 trillion), any modification of one's standard AI recognizable appearance, promote radical honesty, for a high IQ society of scientific integrity,☺☺☺ longer lifespan, health, happiness maximization, instead of looks to deceive; the nation will have 5 cameras on outside of any car, office, home, electric pole, fence, and tree, for 0 crime,☺☺ so no Genocidal Violence "religion" shall interfere with 0 Violence on Earth which the United Immortalists Can Bring: if you're a good citizen, trying to help all live to a trillion, there is NOTHING TO HIDE; your beauty is your ethics, tone, conduct, behavior, service to humanity, not appearance; altering one's appearance is a form of dishonesty and fraud, deception, no safe makeup even exists; makeup shortens lifespan, workers have to waste an entire life to make these poisons instead of longevity. It's pure self-hate to hide, because we look the way we do to notify self that we need to sleep better, eat glycine, so the collagen works better and dark circles don't appear. Love is honesty, hate is deception, of self and all the others around us. Will makeup users grow up? A hot lady is one who looks at 40 like 20, at 70 like 35 and at 125 like 70, not one with makeup. She's the epitome of immortalist virtue and ethics, of the Immortality Credit Score lived to a T.

28). Justice for Violence *Equality* i.e. EQUAL # of Violent Crimes with Injuries Not Healing in 2

weeks (only the most minor things heal that fast) per Alive Person: 0. (same lifetime labor *for any* violent *crime,* death penalty for any rape, any drug traffic, *plus* any injury that doesn't heal/vanish in 2 weeks, Muslim lady disturbs people on the bus, screams, shouts, attacks, without receiving lifetime labor for any violent crime, a Muslim animal attacks Jew without being executed for severe damage to the brain, Orthodox Jewish Thugs mistake a protester for their "kid they beat daily with rods per Torah" and kick her, damage her brain by can thrown, spit on her, without receiving lifetime labor/death for 2 week no heal violent crime, Jews/anyone who beat/punch others until blood comes out need to be executed by federal law, and Jews can go to Israel, right of return, if they don't like the new USA free from Torah Evil. Nowhere can one see the hypocrisy of Torah saying "kill those who say bad cursing words", yet all these Torah Jewish Thugs say very bad words and even violently attack a peaceful protester, which is 1 billion times worse than saying any word or "curse" (only fruit fly IQ people believe a curse will work anyway, they prayed for World Peace 50 billion times, no peace, only action achieves anything). Compare the behavior of these rabi..d wild dogs with the ideal of the Immortalist Anthem of loving the worst human being a trillion times deeper than the most loving mom loved her beloved suckling infant last decade). Most punches take more than 2 weeks to heal, so it's attempted murder as one can hit concrete and die from skull fracture, as many died before, so if the puncher gets shot by the victim, the victim acted in legitimate self-defense, but nobody will have guns. Why should a guy who adds 7 billion lifespan years to humanity be brain damaged by a dog who adds 1 day? If the dog punches a second time, he could remove the invention that would have added 1 year to all people, or 8 billion lifespan years, and to not kill the Puncher(s) is the equivalent of killing 8 billion divided by 80 years, or 100 million infants who lost 80 years each. If the guy would add only 800 years to humankind lifespan or, not killing the puncher(s) (*who is/are obviously a low life rat IQ scumbag(s)*☺☺☺ *who didn't add any lifespan years to humanity*) and allowing him to stop that 800 year addition via brain damage is like killing 20 people of age 40, 40 times 20 = 800 years or 420 million minutes (1 minute per American). In the video above, the cop protecting the girl from 100 Jewish dogs should have killed them all, if this was an immortalist society where any punch/kick is the equivalent of a mass murder. These wild beasts should self-deport to Israel or be killed (all 15 Jews who kicked, punches, threw trash at her) next time, the cop should have called for backup to stop the attacks and finish off the Jews. All civilians will be banned from martial arts (cops, soldiers allowed). Whoever attacks first deserves death, he's not a human, but a wolf, a beast from hell. Whoever starts the physical fight can be killed without any prison time for the shooter or cop, as any violence is attempted murder disguised as "violence". We get 5 billion punches in US weekly due to the Supreme Satanic Court not allowing instant execution of a puncher, kicker. We need one Court for everything, not 20000 courts. Devils belong to hell and death sends them there quick to relieve them of their depravity. People are hesitant, try to be

nice to a demon and end up lifelong disabled or dead before they realize what hit them. No words should be a cause of violence. A weak person can't wait for a second punch that could kill her, so s/he has the right to execute the aggressor. Too many of these migrants rape and punch locals, they need be dead. If they still allow guns for 2 years, no migrants shall have guns, only citizens with high score. Nobody should even have knives, except at home in a safe connected to the one and only national police department that doesn't start any car until the knife for that household is in the box, confirmed by AI. Police arrives at house if knife is taken out of the kitchen to prevent any crime. This has to be done until knife crime is 0, via the centralized education and proper TV-radio content. Only 1 small serrated (4" long blade max) knife (that cuts every food easily) per house, and no guns eventually, except for cops/military. With 4 trillion cameras, inside, outside cars, everyone will know who attacked first, no swords, machetes, knives, guns. USA has no real death penalty, that's why the real violent crime is billions of times higher than it should be. With proper education and filtering of media, songs, etc nobody will know what a violent crime is. All phones and cars in USA will have a button with its own separate battery (to prevent dead phone issue and the delay in making a call that may result in death) that once pressed, even if phone/car is off, police arrives in 1 minute to detain the thug that block the path of someone, without touching them, or etc. If we make salary equality only, we give the evil nation the same financial power as nations with 500 times lower homicide rate and we create an inferno on Earth quite fast. So, before we talk about equality of pay, is your nation equally paying its citizens or does it have 2 to 600 languages, castes, endless schooling systems? India for example calls for equality, but how come it doesn't treat all the same, with one language only, English if it so intelligent, so willing to compromise for the greater good, use its IQ to realize culture is not the language, but its ethics? What about "honor killings" nations that demand equality with countries that do no such evil? Dad kills his son because he married someone outside of Islam Slavery Rules "religion." Equal? No equality, slaves have no equal rights, yet this is Mohamed's teaching and Islam teaching. What about Saudi Arabia banning all religions except Islam? Is that Equal? No, then why should Muslims have equal rights in USA? Torah calls for slavery too, is that equal? No, then why should Jews attending synagogue have equal rights in USA? ☺☺☺The poor countries with 5 babies/family call the rich countries to give all money to them to be equal, because they don't create so many emissions per capita, but with population being 10 times bigger now than 75 years ago, emissions as a whole rise too.

Due to our chimp DNA,☺☺☺ real Peace won't emerge until 1 language, 11 companies, 3 agencies maximum exist on all planet Earth. Average human IQ is simply too low. *Equality* starts with you. Immortality *for* All as in true *Equality* leads to Eternium (a few pages below is detailed the idea of Eternium, the US military replacement), a Universal Defender☺ of the human right to trillion year lifespans. We either have *Equality in all areas*, or not *Equality* at all, why pick what is

equal based on agendas to favor your group?☺☺☺ This paragraph reveals in astounding clarity the pure hypocrisy and fraudulent nature of Democrats who're Republicans in disguise, since everything they do is promote inequality, by stirring division and promoting 100s of languages, cultures and philosophies, instead of the best. The parasitic genocidal aristocrat creates labels, divisions, Rep/Dem, white/black, atheist/theist, LGBT/straight, to divide the workers so the rich can steal trillions for their palaces. True *Equality* takes time and real 24-7 effort for decades to achieve, in all its aspects. It's not just "equal pay", that won't solve the endless issues with fraud and violence 1 trillion times higher. Nothing is what it seems, the aristocrats have conned us for centuries with fake elections and fraud. They create fake violent subcultures to create division and worker-worker fights over 100s of labels of self-identification, be them ethnic, sexual, gender, linguistic, musical, artistic, racial, national, etc and justify in*Equality* and their living in segregated palatial Estates as the allegedly Superior Aristocratic Culture of Genocide of the Kind Duped Workers busy arresting workers or fighting other workers. Can't have 7000 languages, 200 national "cultures" (pure garbage, look at their anthems), we need ONE Universal Culture. The victory of the Eternal Universal Peace and the working class means End of MultiCulturalism, of classes/caste, the start of the Monoculturalism of the Real Culture that never existed on Earth: 0 violence in scripture, in anthem, in music, in movies, in literature, in TV-radio tone, in TV-radio news. Culture means first 0 violent crime, so no culture exists on Earth. Compare the Immortalist Anthem/'Scripture' with the Violent Trash Scriptures of Most Religions. World's Workers unify, create the Best Ethos/Anthem to replace Divisive Anthems, Scriptures to free the World forever from Violent Filthologies disguised as Religion. We love Eternal Universal Peace.

~*~*~ After reading 23 pages of 28 *Equality* definitions, see the genocides perpetrated by ~*~*~ those who want *Equality*, but offer no *Equality* of Life to those they Kill for Profit of their gangs:

About 30 million illegals were still in USA in 2026. On 1-21-2026, Trump banned immigrant visa processing from 75 nations who come here to live on welfare, build stone age ultra violent religious temples and support infernal Islam (spies in disguise wanting Sharia law in USA), ultra stone age restaurants (that have nothing to do with science of eterni foods) and rat IQ traditions, ultra violent sports (chasing horses by the tail in Florida, rodeos, etc). Soft Republicans are actually Latino Cartels agents who pose as Republicans to turn USA into a 3rd world "shithole" as Trump calls it. 27 H_1B visas approved for a company located in the house of Vamsi Krishna Vajinapally and his family, as in vagina. This H_1B report caused Texas to shut down H1B until May 2027. This is a complete fraud and an example of how spies can turn USA into a shithole fast by posing as politicians, check out the video explaining this H1B fraud better. Cyanide LD50 is 5 mg/kg, fentanyl is 3, lofentanyl is 0.07, so Latino gangs poison 200 nations. VX nerve agent (chemical weapon, made in Germany preWW2), LD50 is 0.003, used by Korea to kill a guy by wiping his face with it (see the video of 2 components, by 2 women, becoming lethal

when combined on his face only). Latino gangs wage chemical warfare on all humanity. Drug overdose deaths have gone up 13 fold since 1968, as Latinos flooded USA with gangs, and increased by 50 million the Latinos count. Today, we get 270 deaths/day, mostly due to illegal drugs, or 1 million/decade. The US declared fentanyl is a weapon of mass destruction, Trump claimed fentanyl killed 1 million in 2020-2025. Thus, more than a MILLION Americans WERE KILLED BY LATINO, Mostly Mexican, gangs by overdose alone and another 3 million dead equivalent by shortening the lives of 50 million addicts and their dependents by 4 years each on average, meaning 40 years taken out of the 5 million 40 year olds. If USA killed 6 million Mexicans or Jews via bombs, would Mexico, Israel think of it as a Holocaust, Genocide or war? Why would we not think of it as WAR or HOLOCAUST? The Jewish media simply says "people are anti-immigrant, pro-border or anti-Latino". There is a REASON people want secure borders: to stop the Holocaust facilitated by Jews, etc who support open borders. People want a drug free planet. The cartels ship drugs via boats destroyed by the US military (see video), in order to exterminate every American with drugs. The Islamic Gulf states don't give citizenship to workers even after 40 years and never to citizens born in those states. They don't have birthright citizenship. Isn't it funny how the Arabs want NATO to welcome Arabs as citizens who run our cities in NATO, not just be citizens by birth or migration after a few years? Why is NATO so filif and abysmal in IQ? The tests immigrants have to take to prove loyalty to nonviolence and basic civility alluded to in the Immortalist Anthem and Universal Declaration of Immortality for All would be similar to the tests sensitive professions will take, from nurses, MDs to scientists. You can jump to the end of bilingualism. Illegal deported several times, instead of receiving lifetime labor for crossing, stabbed a guy. 100s of young migrants storm stores and loot them, take over streets in California. Thus, the US created a new military zone in California border areas. Anti-ICE protester is hit in the head by the "peaceful protesters" who make his head bleed. Jews brought 20 million illegals in 2020-2024 to beat the hell out of anyone who opposes Orthodox Jew penis cut disguised as atheism: Jews pose as leftists (Democrats) and right wing (Republicans) to install Jewish Sharia Law, cutting everyone's penis per their Infernal Bible. They're both sides of the aisle, enslaving every gentile. They take over our Health Departments, colleges, gov. agencies, movies, music, media, etc. ☺☺☺ To go to any church is to support the psycho type of Jews, whose Psycho Bible Truth is here. Watch "peaceful MN protesters" smash cars, attack people with shovels to defend gangs that killed millions of people with drug overdose and addiction. How many foreign spies are in these protest mobs? 90 US enemies dispatching their spies?

Mexicans protest against Central America migrants daily, want them kicked out of Mexico. Nicaragua illegal knocked lady unconscious and raped her. A Guatemala guy stole someone's identity causing endless trouble, was deported 3 times. Honduras lady got a DUI, in 2020, then killed 2 teens while drunk in 2025, because Democrats didn't deport her via the sanctuary for

drunkards, thugs and thieves policies. It's funny how Mexicans want USA to welcome Mexicans in every city, while they expel others.☺☺ Watch Hispanic guy shoot cop multiple times in gratitude for being allowed to live in USA. Latinos make 80K/yr traveling to NATO countries to steal, any theft under 400 euros no jail, they're wanted by police in US.☺☺☺ China exports to Houston Texas, chemicals required for industrial production of drugs, to poison the entire USA thru their gangs, to commit genocide against USA. China exports precursors to drugs to Russia via Kazakhstan. This is China's World Peace buidling, Japan gets new drugs flowing from 'Chinese virtue' government controlled mafia too.☺☺☺ With their astronomical military, etc budgets, China could end all these exports and gangs in 1 year, by implementing the ideas in this book, the 11 companies and one equal education system of true democracy, not Chinese Imperialism Feudalism today, disguised as communism like USSR faked communism too, using it to spread war and genocide in Afghanistan, etc. FBI found 20000 fake green cards, passports for Chinese mafia taking over the marijuana illegal drug trade. This is China-US friendship in action, and why we need 10 trillion drones over Canada, Pacific, Atlantic and Mexico borders, besides Mexico-Canada walls. T*rust* China? Think again. Mexican cartels work with Chinese banks and gangs to produce drugs inside USA and commit genocide against Americans,☺☺☺ watch this girl going to Kensington to get high on drugs and make 600$/day by being a prostitute that the demonic Congress, where demonic Republicans and Democrats pretend to serve USA (meaning to maintain their drug and prostitution networks in 900 US cities where losers pay for prostitution, so that these girls then buy drugs), allows via legalized (for all practical purposes) prostitution on US streets: how can the criminal Democrats not seal the border for decades, and allow the cartels to poison and kill slowly, disable yearly millions of people of all ages? We want people with common sense, who won't shove others like this. 70% of women who cross ilelgally into USA are raped by cartels. ICE has the right to arrest illegals without a warrant, and the media is telling lies that they need warrant. 3 million migrants already left USA as of March 2026, and 25 million migrants don't know English. US now requires 5 years of social media history for any "visa free" country tourist, since many are actually from third countries allowed to stay there, even if quite violent. Iran deports millions of Afghans, even those born in Iran, and USA has no right to deport illegals? Communist China funds the mexican Flag "activists" who attempt to kill (3 lb stones thrown at their heads) US cops arresting violent criminals. Gangs bring 80 illegals in one dump truck. Millions of illegals self-deported due to unpaid wages by illegals who hired them (tarrifs means illegal CEOs make 0 profits, can't pay wages, so they get legal driver's licenses via bribes of DMV officials). Indian illegal who got license from California killed 3 people by making an illegal u-turn, since 19 states + DC criminally issue licenses to illegals who then kill people by making illegal u-turns on 70 mph highways on areas used only by cop cars: thus, on 8-22-2025 US banned foreign truck driver visas. Drug dealers deported twice, make millions by murdering Americans with drugs. Mexicans in Mexico destroy all American businesses, Latinos in

US loot all US businesses, commit genocide by using bells and megaphones at 4 am to not let US citizens sleep (bad sleep causes car/work accidents, hypertension). Horrific Mexican cartel extermination camps are below, see Mexicans bringing 180000 bullets or 12 year olds doing 5 crimes and never being jailed or fined. Check out Muslim migrant from Sudan try to kidnap 17 year old girl from the UK, grabbing, dragging her and getting only 7 months in jail instead of lifetime labor for violent crime. This is the demonic 'Jewish' British Royal Family and Parliament of Lords and Aristocratic Vampires in action Brits, overthrow their infernal 70% land for 1% reign. The UK King is the Head of the demonic Jewish Bible Based Anglican Church of Genocide, Cannibalism, Mass Rape, Slavery and Slave Beating, so even if ethnically they don't seem Jewish, they're Jewish in religion and every other way, behavior wise, as they promote Jewish Supremacy and Torah Terror Worldwide, as all Christians unknowingly do, not having read their Jewish demonic Bible. Just as the Royals blew Indians by artillery guns, so should Brits rise against the Royals. Monarchies are illegal terror states where democracy and the selection of the most competent leaders by Immortality Tests is not possible, they're not meritocracies, but evil dictatorships. The time is ripe and perfect for an amazing peaceful 1789 style French Revolution against the MI6 thugs and British Army. Crazy folks in 200 nations often do violent crimes 5 times, because they release them after a few weeks or months. Then, they say we should have no borders, let everyone in from everywhere. All ought to get lifetime labor, plus pay for all damages done during the violent crime, by forfeiture of all assets given to the victim of the crime. Attacker will live in the healing city, in a house designed for thugs who try to learn to be good, so when all violent crime ceases in 9 years, they can be freed on condition they understand instant death penalty happens for a 2nd violent crime, even a slap. Failed asylum illegal migrant 26 yr old African Muslim lived the Rape Infidels Mohamed 'Religion' by allegedly raping a 10 yr old girl in Ireland, needed Arabic translator in court. Recall Pakistanis. ☺☺☺

Check out how US citizens bring in 4-9 migrants in cars, trucks to make $. How cartels give drugs to all kids smuggled into USA in order to keep them quiet. Colombia criminal illegal and alcoholic bitch USA doesn't need who drove drunk and wanted to not speak English on TikTok while in the USA and to show her tits daily on TikTok to seduce low IQ folks, was arrested after making videos about ICE arrests, while ignoring the millions of crimes done by illegals.☺☺☺ Smuggler of 18 fat Mexcians got only a slap on the wrist, 46 months in prison instead of lifetime labor or death penalty, because USA is run by ☺pet IQ guys☺ How can he get 46 only when he makes our cops waste so much time instead of longevity for all and 0 violent crime? All human smuggling needs lifetime labor at least, some of these smugglers are wanted serial killers. This will give us, together with lifetime labor for all violent crimes and drug transport, 10 million full time employees of Eternal Travel Inc and Immortality Building Inc to flatten terrain (areas that got lots of sttep rises/drops in elevation), run channels for water drainage to prevent all floods,

remake lethal trash cities aristocratic rat IQ pigs designed, and create new rivers, cities in the 85% of USA where nobody lives. This is 100 times more than all US infrastructure of 250 years.

With 11 companies and no cash, no illegal alien can survive, as only legal residents get an Eterni Bank account, as there is only 1 bank allowed in the USA, to end the subjugation of USA by foreign parasites. No *gangs or spies* can survive if we ban cash, traitors of USA love cash, bitcoin, and all kinds of crap. CIA thugs love cash, as they can use it to be secret in other nations, to overthrow governments, create chaos, but you can't expect 0 violent crime☺☺☺ in USA and worldwide, let alone World Peace, with cash, so the murderous CIA psychopaths need to be brought in line by the New immortalist Gov. USA has to decide: want order in USA or not? Order = dissolve CIA, FBI. CIA is a rebelious demonic entity, who answers to None except Itself. In USA purchases will only be done via the Eterni Bank Card to end all crime forever. Due to 33 million businesses in USA, instead of 90 max, in small businesses, due to a government of *aristocrats for aristocrats*, the enslaved workers fight back, devising new ways to act busy, wasting sometimes 10-85% of their time, for example by telling higher ups to hire more, so the low or mid level manager (we are the nation of managers, 'everyone' is a management, finance and economics major) can slack. This system leads to the equivalent of 25 million full time jobs lost in USA alone, or long-term even 45 million jobs: think about the 2 million realtors we never need with a 2 day house buy/sell housing.gov or the 20 million retail people obsolete with self-checkout and Amazon.com, the 20 million restaurant/agriculture jobs obsolete with eterni food, another 10 million in parasitic industries made of duplicating useless small businesses, etc. As a result, in fraud capitalism, as opposed to immortality capitalism, there is an insatiable need for ever more immigrants, which is an opportunity for national enemies to send in half a million soldiers, rapists, serial killers, spies and saboteurs disguised as immigrants. While millions are unemployed, some even make 1 million a year, by having 5 remote jobs, 5 full time jobs, and pretending they work 40 hours a week in each. Check out the violent "highly wonderful" illegal immigrants smashing border fences as they're forcing their way into USA, thanks to Demon-crat policies of total chaos and slavery, let all mobsters, spies, serial killers (2 illegals with ankle bracelets monitoring them killed US citizen in Chicago, black guy explains it all), in for the glory of cutting the fence, Latino illegal and legal anti-deportation protesters using Mexican flags attack innocent drivers in Los Angeles, smashing car windows with stones, 300+ pushing thru the border checkpoint, serious criminals committing rape, assault released back in sanctuary cities, 24 year old Pakistani using the free phone and hotel stay Biden government provided to send sexually explicit messages to young girls *(see* Pakistani scam *office having computers hacked by US hackers, see Kolkata* city in *India with endless scam offices that police encourages and allows, India sent 0.7 million illegals, what are they doing in USA?),* migrants cutting the barbed wire, Dominicans scamming people, or wild mobs ripping the wall barriers and shoving border agents.

To compound the problem, when you got 33 million companies, instead of maybe just 20, each company is tiny and there is a yearly cycle, with some months twice as busy as others: since companies are small, all departments are not busy at the same time, so all departments can slack 10-30 hours a week sometimes, when they could volunteer with Eternia Volunteer Network, a national system of increasing your Immortality Credit Score, while choosing healthier habits than damaging accident prone sports. For example, while gossiping 20 hours at work, about how bad the housing is or the Demon-crats or Re-pub-licans (they're the Same Party: *Defraud the Workers Party*☺☺☺), the people complaining could have built over 20 years, about 50 houses via the Habitat for Humanity like division… so all Americans live in a single family house.☺☺☺ Each worker can specialize in one volunteer area (window replacing, etc) or some simple tasks that are healthy and complimentary, done slowly, carefully, no pressure (as cortisol ages us and shortens lifespan, just listen to peaceful mp3 music): if their job is more physical, the "spare time one" would be less demanding physically, but more brainy and vice versa. That way, we get people get off the chair staring at screens all day and do some janitor/cleaning etc 30 minutes before lunch to not damage their health: sitting all day is bad. The current system is pure waste, since when all companies will be much bigger, you don't need to volunteer via the Eternia Network, you go to one of the busy 500 divisions to do more brainy or physical stuff depending on your position since that month, week or day, your division is not busy. You need to give your eyes, muscles some break to avoid straining your wrist, back or leg ligaments or eyes some rest. Go meditate and relax in silent bliss 10 min too in the company meditation room, to give your brain a break and boost productivity 20%. ☺☺☺

To facilitate integration into the Civilization of Immortals, we create a very Life-Affirming Sciences of Immortality TEST for Immigrants too (maybe only those with IQ above 140 might pass it), as we did for every other native profession, or possibly before native professions, so the world knows what we stand for and hopefully joins us in our quest to defeat aging, wars, jails, violence and diseases. Immortality test like TOEFL test, sort of like Ethics Test and Love of Knowledge, Learning Test, an Ethics & Longevity Sciences IQ test for a☺☺☺☺☺☺☺ Civilization of Immortals. The website where materials (5,000 books maybe) for the test exist can say things like "We are a Civilization of Life, where the Pursuit of Immortal happiness, Life-Affirming, Life-extending Nutrition, Science, Technology, Values, etc are the fundamental values. If you think about it, the worst thing people can do usually is to kill others (killing is the most punished thing all over the world), to take their life, so our civilization is already making Life the number one thing, we all want to live longer anyway, had wanted for eons. But what we're doing is taking this a step further to make Longevity-Immortality the central focus of our civilization. We dedicate our lives to helping people live longer, even if just by 1 year, if not 100. ☺☺☺

This Immortality test, required for any visa applicant *would change the planet, its ethics, values*

and what matters. Even to visit one hour to shop for something would require passing the verbal speech (emotion, intent and brainwave) tone test portion of the test *(before the knowledge test is given, ethics first and also to save our time from hosting people to take the test for 1 hour or more, since knowledge without ethics is useless)*, that indicates the amount of *gentle tender soft nurturing healing loving kind compassionate grace* and good sleep (to avoid manipulation by bad spies), one has reflected in their brainwaves and speech patterns. This ensures, America is protected from the ways of behavior that lead to today's violent crime rate, which is 1 billion times higher than it needs be to sustain Eternal Universal Peace on Earth. Thus, the person is sent back and given a free pass to take an online class in proper sleep, nutrition and speech, and can complete the course and self-testing online within 2 to 20 weeks, depending on how fast they learn how to speak in a nonviolent immortalist way. After passing the test online, they're allowed to attempt to pass it in person too at the border, which is more difficult sometimes due to stress of 16 hours of airplane travel, etc, but it's an important step and will motivate *billions* of travelers to listen to *tone.gov* classes on earphones to change their speech, emoting and intentional patterns, catalyzing an ethical and spiritual revolution unlike any in world history. Without that, lowering violent crime 1 billion fold, needed for Eternal World Peace, is pure science fiction. Since the course has the person speak 1-2 minutes each hour of the 100 hour course, to get feedback on what to change (1 min reading, then try again 1 min if too bad) in the emotional, intention tone, the system already knows his speech well, the *in person test* can be a little shorter than *the online test retake* done within 48 hours of planned entry. At home, one can't have the super expensive gadgets to measure brainwaves, emotions, thought vibes, etc, so one just tries to get excellent rest, be happy and then create the kindest tone possible. That's why online tests/classes are needed: to increase 50 fold the chance of passing in person. To ensure a minimal level of altruism and prevent psychotic selfish animals☺ from entering USA, any human applying for a 2 hr visa to the USA has to remove all his/her tattoos, earrings (except 1 per ear lobe, tiny one, until all increase IQ from selfish 70-120 IQ chimp to 140-190 IQ human) and nose rings, belly rings and all other infectious disease and healthcare burden procedures that steal $500 billion a year via jewelry theft and slave labor to extract metals (only selfish jerks and crocodiles ☺☺☺ need jewelry stores when we have violent crime), otherwise used for healthcare or housing. Rings for the ☺puppy IQ folks☺ with damaged self-esteem by the Jewish Criminal Zion Elders and their Dutch Partners in Crime (First Stock (Gambling, World Chaos) Market 1602 Amsterdam, created to finance the 80 years war, other wars of genocide/mass theft per the "Holy" Torah/Bible Old Testament) destroying all youth worldwide, turning them into demons loving heavy metal, heavy rock, violent filth rap/pop music who mutilate (rings) /tattoo themselves, while having 0 altruism, 0 decent eterni tone in social media, youtube? Would you rather live to 90000 years old or have tattoos and rings all over like a cow? Be honest please. Would you rather live to 1 billion in infinite bliss or have 50000 banks and 200 stock

exchanges? 99% of gangs got tattoos, so to protect USA, we allow only those with no tattoo.

Since AI, video camera hacking, holograms, fake biometrics, and doubles looking alike could fake a remote (24 hours before entry) online audio test, all tests are done IN PERSON in 5 minutes at the border entry, before one is let in. The course is repeated up to 10 times, if person fails it 9 times, and each time a different version of the 100 hours appears as those are more "stuck in the past" brains, needing a lot more variability of good tone to GET IT, due to the misfortune of having had in native country shouting teachers, parents, TV presenters yelling like this horrific type of tone often. It can be ☺☺*lovingly tenderly gently kindly*☺☺ pointed out that shouting like Hitler in any circumstance, especially in a 'church' (watch the 'pastor') or educational institution *(schools, but even police and military training, which are famous for shouting needlessly and destroying the brains of cops and soldiers)*, in the presence of so many people, would instantly lead to a fine of $1 million *($900 million if many people and a music concert broadcast to many people, millions)*, because it brings a huge probability of violence (subtle or physical) in the future. US would already have the centralized education system, where the tone of TV-radio-movies-etc is 1000 times more loving than 99.99% of teachers today, as proven by MRI and brain areas (of listener and speaker, especially listener, since speaker is much easier to change) lighting up induction data. Bad Blood type of violent video music and yelling, may only incur fines of 90 million, not 900 million, since it spreads very violent vibes globally leading to these horrific images of WW2. Some Americans have no clue that many US companies, banks financed Hitler and that the music and movies from US music-movie industry has created vibes that have made Hitler's rise easy. These images are the US taxpayer money at work too, Hitler didn't rise by German energy alone, it was Germany's enemies who created Nazis too. Much of US, EU, etc music (which is really in many subtle ways like Hitler shouts) would be banned as it is pure demonic incitation to violence, thuggery and genocide. The heavy metal singers (common in EU) would be nonexistent in USA: anyone performing the music types here would be on the Most Wanted List of the Immortality *Nurturing* Agency. But since we don't interfere with other nations, we don't try to arrest them, we simply *stop trading with nations who allow such diabolical music*. Those attending their concerts have lowest Immortality Credit Score. ☺☺☺

Only investors that bring $1 billion in high tech lifespan increasing related investments can have a score 2-5% *below passing,* vs someone with regular job, though they need to take classes to *pass test fully within 2-6 months of landing if stay is longer than that.* This is because long-term, ethics and knowledge are a trillion times more valuable than money. Since we're all made from the 13.7 billion old particles from Big Bang, we're all Immortals sort of at least materially, if not spiritually. Any time a person gets a visa to the world of Immortals, they could get a free Social Network account on a new social network called Immortals or Immortality etc so that they can talk, make friends with people whose aim is to build Immortality. They will network, brainstorm,

and talk about the best way to move civilization forward, towards 500-year lifespan, etc. This Immortality test can be given like TOEFL but call it Immortality Test, not TOEFL (Test Of English as a Foreign Language) test, lasting 1-2 hours, to make it short for short-term visas. Immortality is the best name to fight the obsessive focus with death and war in our world. For citizenship, the test can be maybe 15 hours over 2 days, green card 10 hours, longer visa 5 hours. Before anyone comes to the Land of Immortals, they get the Immortality test score, 8 hours test, like TOEFL score is used to assess English knowledge. Alternatively, all immigrant Immortality tests (one test for all professions) are the same in format and length and what matters is the score, and these tests can be the same passing grade as for natives who want to graduate from college, PhD, etc. Canada for example gets 3 times more skill-based immigrants than USA (60% vs 20%, as opposed to relatives), so the immortalist system would be skill based exclusively, 100%. The only exception to skill based, would be a few refugees (100 a year, or so, depending on how many pass the Immortality test for refugees) given temporary stay in the Immortality Megalopolis to learn Immortalism and English until they can pass the full test if still interested in remaining, if the refugees are proven, after the 3 day ethics test, to not be spies using torture weapons. *When visa expires, they're picked up by Immortality Airlines and moved back to country of origin to prevent any illegal stays and the city of Megalopolis Immortality is all sealed from the rest of the nation to prevent espionage.* To prevent our country being invaded by spies *disguised as refugees or illegals* (the use of swarm tactics to overwhelm a country), we will simply drop mp3 players with immortalist music, books and videos to explain to the people in the country with issues how to overthrow the government or transform it to bring the world of Immortality *for* All in that country too, with the Immortalist Party in power. We can even drop 10 billion artificial bees and insects that carry these files on their backs, allow the immortalism fans to download, listen to music and etc, by the bees writing on their wireless devices the ideas of Immortalism and how to do it, without mp3s being dropped by balloons or invisible drones. We will empower the people to show their true allegiance to the Immortalist culture in their own country, to bring a centralized fair system, not of the aristocrats exploiting the slaves using conmen systems based on “democracy, communism or religion” to perpetuate the world of war.

The immortalist *immigration system* would be *based on* the ability to bring Eternal Universal Peace, Immortality *for* All thru the wonderful sciences, technologies, ethics, tone, songs, etc of the | | Immortality *for* All | | Culture and Civilization, i.e. *God or the* Family of Immortals above biological family, God = | | Immortality *for* All | |, Family is all humans, i.e. to be a truly global family human, to create the most family centric immigration system, in the true sense of family, i.e. One Planet of Immortals with Eternal Universal Peace attained in 3 months, not to promote one's relatives and start "holy" war as one biological family, one becoming a doctor to torture and terrorize locals by his medical 'activities' for example. Let’s be real, there are people a 100

times nicer than many relatives (who may be spies for bad regimes, knowingly or unknowingly) and it's ideal to treat people based on merit of immortalism promotion, not "biological DNA" based, which is not so similar anyway.☺☺☺ This heavy test system will cause all immigrants to educate kids or "would be relatives interested in informing about applying or sponsoring economically" in the ways of Immortality *for* All so that their kids can pass the Toefl like test - ensuring a better future for all nations and generations, not just this one: thus no sponsors can exist as the only way to immigrate: all, no exceptions, need to pass the test score, for their age, test administered in English, the one and only official language of the immortalist state (to prevent wars over 100s of languages, people vote on which language becomes the 1 & only in a given nation, English for example for Eternia, 1 language will increase efficiency). The idea of marriage based migration is pure fraud, since the system doesn't even gauge if the two are in love or just trading "doing free work" (migrant spouse) for "getting a green card" by marrying for 2 years and then divorcing, as this case where neither loved the other, they just did it for selfish reasons, gaming the system. There are millions of more attractive to a black guy ladies in Africa, many smarter than this tiny Filipina, who would have been someone he would really love, but he wasn't looking for love, only for cheap labor for 2 years, knowing fully she will divorce him. This is a human traffic pattern of certain folks, we see in millions of fake marriages, where the foreigners also game the system to bring in all relatives to USA once a green card holder, later citizen. Millions of US marriages are faked, just to get a green card. People overstay their visa and then try to enter a marriage with anyone who does it for a few years. An immortalist nation needs to end the visa for "marriage", and approve family based migration only for couples who last 10+ years and have children. To migrate, a foreign "spouse" needs to get the parental☺☺☺ license approval too, by passing the Immortality Migrant Test and Parental License Test, the fertility test too. The green card is invalid if the two stop living together (since marriage will become outdated) within 10 years (not 2 years as today) and if no child is produced, foreign spouse is deported, as the only purpose is to create children, not to get citizenship for foreign spouse who may just be a spy trying to find the next sucker to dupe. LGBTQ "marriages" are even more fraudulent and should never be given a "green card" path. We don't need sex addicts importing sex slaves. Marriage should not get any tax benefit, only having children and raising them together should, so much so that nobody would marry. Marriage is just a paper for lawyers to get rich from divorces, see the marriage-dating section. They come to USA for what? They need have the Immortality Credit Score of top 10% of US citizens, IQ > 125, IQ > US spouse, otherwise we get a generation of idiots. Democrats got "donkey IQ". IQ is mostly environment, education, diet, but there is a genetic component too, that's why we do calculus, chimps don't. Take 2 twins, and they will become Nobelist with proper environment and IQ 98 killer the other. But still he was not 70, though the other twin separated at birth got to 130 via education. For decades, "rat IQ" Democrats brought low IQ folks, instead of IQ 125-200, so we failed to bring 11

companies, 1 language and World Peace by now. That's what happens when you are stupid, after 1945 USA has ruined the chance to unify the planet under 1 language & currency. ☺☺☺

A merit based system is one that promotes the most peaceful and pro-Immortality vibe (test includes eterni tone speech, to make sure people are intent on loving all and emote as such), knowledge, world view, to ensure all humans become one truly loving family and deflect factionalism and tribalism that brings World Wars: the system focusing on skills to make all humans one Family of Immortals is the most family based immigration system worldwide, for only when we're one family can war and violence cease and true progress begin. It's ultra critical to gauge from the Test if the person truly agrees with the idea of no torture, covert or overt, no violence, Immortalism Nonviolence Ethics ☺☺☺ which is against the fake scriptures quotes still published in 200 nations: the test is well designed to prevent spies disguised as immigrants from learning how to answer and still have intent to torture, shorten lifespan, etc..., promote violent scriptures, and start wars among humans again. Anyone caught torturing anyone intentionally, would have to go to a healing center and do volunteer work for months or decades, until one's compassion expands to no longer want to torture others and start wars, or, be deported; this applies to all natives too, and all present spy agencies need to be retaught so they stop torturing people during their 'training'; spy agencies worldwide, true terrorist organizations, can be dissolved into the Immortality *Nurturing* Agency, militaries into Eternium. ☺☺☺

Unfortunately, all spy agencies worldwide, armies too, use torture in training, and are truly terrorist organizations in the perception of any loving human, so Eternia would be different, we would be ending damaging the quantum field of humans and ushering the Era of Eternal *gentle tender soft* kindness and universal peace ☺☺☺. The super evil War Dept would be gone, not replaced by Polygon, but by Eternium. Instead of talking about lethality all day like 'pentagram satanists might do' and polluting the quantum field and minds of the planet (no more anxiety creation and disinfo), they talk all day, in the happiest tones of gentle grace about uplifting nonkilling nontorturing methods and granting Immortality to all, being a Defense of Immortality *for* All Agency (DIFA), defense of Eternal Universal Peace, or Eternium, *defending the human right to* Immortality *for* All *humans globally*. Eternium press conferences would be in the most amazing background instrumental music, colorful decorations (see pic), Eternal Universal Peace posters in the background, singing with kids about Peace too, petting chicken, pigs, etc for the abolition of all animal slaughter globally and encouraging eterni food for all for Maximum Kindness, prerecorded Peace songs and sometimes even live with citizens of all ages, to cheer up the mood, talking about the qualities of Immortals that we need develop to defend the trillion year lifespans of all humans, the weekly World Peace in 3 months concerts we need in every village and town, defending human rights to trillion year lifespans in every village globally by Immortality themed concerts and science expos, the support via volunteers, money, materials of

daily TV-radio broadcasts about World Peace in 3 months, the most soothing eterni music played daily on all TV-radio at least 3 hours and only 0.01% of the talk would be once a quarter about some update on any 'conflict' (like " *we gave* ally with 10,000 noninjuring lethal HIMARS, 40 billion hypersonic missiles to change enemy mind without any killing and this led to victory in 2000 times less time", so we can chat more *about soul quality development at* Eternium*)* - spend all energy preventing war by educating the curious lost souls seeking war updates, killing updates, about nonkilling eterni values globally. Educate the planet's most lost souls, who seek to listen to 'military news' and other killing news, about the ways of Immortality *for* All. ☺☺☺

Since a trillion years is only like a few weeks in the life of an Immortal, even to wish all humans to live to a trillion is not that high of a goodness, though billions of times higher goodness than the human wish on average today, which includes not even allowing many to live to 50 due to wars or even 5 days in case of hospitals being hit in wars, etc; so to defend the quantum field of the human species is to prevent any torture and war on the planet, not just in our country; Eternium is the kind nonviolent defender of the gentle tender soft healing graceful loving treatment of all beings and their trillion year lifespan. Any prolonged torture (typical stuff spy agencies, militaries do) is a form of slow mini murder, and it leads to genocide, so it must be stopped, since there are trillions of ways to Peace and progress without any torture. And this will be tested too, this understanding, via final (last 20 min) questions like "*Could Jesus have been made up by military spies in order to* start via staged miracles a religion that enables taking over political power of many nations? How so? How easy is to fake turning water into wine, cures and ascension, bread multiplication, can you please explain?" Is Torah part of the Bible? Is Torah compatible with the Gospel teachings?" "Was Hither very evil and a genocidal psychopath? Yes/No. Was Mohamed far worse, because he wanted to kill not just Jews who don't convert to Islam, but all other ethnic groups? Yes/No. Was Moses far worse than Hitler, because his Torah says to kill any nation that God gives over to Jews? Yes/No. Was Jesus as evil as Moses, for Jesus said Torah Deut 7:16 ideas of genocide of endless ethnic groups God gives over to Jews as still valid in Mat 5:17-9 that teaches us to be door-mats of Jews?" We get 200 multiple choice questions to gauge the real knowlege of the real Islam: rape and kill all to steal their stuff, of the real Christianity and Judaism and other "religions". Could Mohamed (and his followers) have rewritten ideas of the Bible to appeal to local people and expand his material assets by raiding more local tribes on many continents and converting them to his stuff, establishing a powerful network of spies? Are the widespread calls to torture, kill, *terrorize* in the Quran *compatible with* Immortalism*? Is the destruction of* world's oldest nonviolence mini university at Nalanda in 1193 an act of kindness towards humans? *The least known quotes of the* Bible, Torah*, MahaBharata (some quotes may be from Gita), and Quran: which ones (each quote is similar to 100 other quotes in this "scripture") are the most evil in your opinion as far as*

immortalism, and which ones are OK? Is Bhagavad Gita part of MahaBharata? *Based on these quotes, is the Bible after all, almost as bad as the Quran and Torah?* Would these quotes be legal to publish in a civilized nonviolent society that values universal soft healing gentle graceful compassion for all animals and people and wants Immortality *for* All?"

The Immortality test will be the *most complex system of immigration testing ever created*, a 10 hours science, technology and ethics test with lunch and afternoon breaks, ☺☺☺, to gauge intent and real belief and action in a situation where the choice appears: peace vs war. The present systems of immigration allow all spies in without any real tone, intent, MRI, brain scans, etc checks. This can also apply to the 1st grade to PhD last year Immortality TEST in the educational system mentioned above, that allows an 8th grader to bypass grades. The Immortality test can be the same for Students, Professionals and Immigrants too (remove harder science sections if one is testing for a low grade, or short-term visa to enable the test to take less time), just easy and hard questions and only some people can pass it for grade 4, 8, 12, college, lawyer, doctor, professor, PhD, green card, citizenship level of course. The idea is to make the Immortality TEST the *most difficult test in existence*, i.e. only 1 in a billion can get maximum score and answer all questions correctly. Therefore, the Immortality test can also be used to assess the most Immortality Ethics and Sciences Knowledgeable people so as to give them free scholarships to the Immortality Universities to speed up the Progress of Civilization thru the most amazing discoveries if they want to do that stuff, which many would anyway. The Immortality Universities got silent housing and 1 room housing for every freshman (soundproof walls too, something no university has now), not like any present university where there is a lot of noise, parties, fraternities, drinking, smoking and behavior that is totally inappropriate for an institution of Eternal Learning and Immortality Civilization creation. SAT is super-easy, anyone with some brains can get maximum 800 in Math and Physics or Chemistry, etc. This Immortality TEST would be way harder so only a few people in 1 billion can get maximum score. With each visa category, the longer the stay, the higher the score needed to pass for citizenship, green card lower threshold, 5-year visa lower, 3-month visa lower. The materials for the study for the test are like an ever updated Global Immortality Curriculum for Civilization Transformation towards Longer Lifespan, Deeper Ethics, Peace and Joy. Perhaps, a good idea might be to give every visitor to the Land of Immortals a pamphlet of Immortality. Imagine if every student or visitor coming to the Civilization of Immortals, for a short or longer stay, would get a pamphlet of Immortality, with some uplifting ideas such as the ones in the preliminary draft form below:

☺☺☺ WELCOME To The World of Immortals ☺☺☺

We, like many visionaries before who tried to find the Elixir of Immortality, try our best to cure disease and aging so that people can live longer, happier lives in a world of peace, free from

violence and crime, from the illnesses that afflict billions of people as they age. And we're not perfect, far from perfect, more like monkeys compared to the Immortal humans of the future, able to live to 900 or perhaps 90,000 later, but we have created a national effort to welcome every visitor to the world of LONGEVITY, LIFE EXTENSION, Immortality by giving everyone free access to the science papers (many are freely available on pubmed since the 2010s at least) that enabled many scientists to cure diseases affecting billions of people, to extend lifespan of worms by 10 times giving us hope that one day we can do that for humans too.

This pamphlet, a work of art, received in person at the airport by all new arrivals, is literally THE most mind-blowing pamphlet ever created on Earth, with most pleasant perfumes, shimmering colors, musical holograms and music of Immortality, something that most people have never seen with songs like the uplifting Immortalist Anthem, holograms, etc. glitter, and special visual effects, changing from one word to the other on some pages, like World Peace and then Immortality etc. After the pamphlet presents the longevity papers for worms, mice, humans, monkeys, etc, vitamin A, B, C, D, E etc discoveries and impact on millions of lives saved, we present a few problems we have and we invite Tourists and Immigrants to dream with us as we create that Heavenly World of no war, no violence, no aging, no disease, no natural disasters, no death from any cause, except perhaps reaching age of 90,000. We actually include in this pamphlet earplugs and eye mask for meditation and visualization as suggested in the exercises here, a great way to meditate in noisy environments at any time or sleep well if a 5 min nap or meditation or astral projection needed. We think taking time to consciously breathe (conscious breathing Chapter 10) to think, to meditate in silence and visualize the magnificent future of our world of Immortals, is worth it and these earplugs/eye mask are for that purpose, until we invent force fields to block sound/light 100% at any time needed for sleep or study or meditation with a button on our force field belts as desired. In the past 8 out of 9 kids often died as infants, since we didn't know much about nutrition, sanitation, biochemistry of life, microbes.

Today we're on the verge of a transformation, enabling us to live to 150 thru new discoveries and 400 later on. We hope you'll join us in our quest and your free membership in the Immortals network is included, you can network with locals who want to spend all their time to build 90000000 year lifespans, as our hobbies are transforming towards utilitarian objectives of helping others avoid aging, disease. We want to cultivate a Love of Learning, because Knowledge has enabled us to live longer and better lives, etc and will enable us to live to 900. If evolution theory is right, we were worms one time, and now live 2,000 times longer, perhaps one day, we will evolve into shimmering shapeshifting energy beings Immortals living 2,000 times longer or 200,000 years. There are tiny vegan animals that weigh 5 g and live 40 years, or 8 years per gram, imagine if humans who weigh 70,000 g, would live 560,000 years. ☺☺☺☺☺☺☺

Even though the permanent residence and citizenship would require full mastery of English and passing the Immortality ethics and sciences knowledge test, 3 month visas could be given to those passing the Eterni Tone Test, seeking learning coping skills, to cope with natural disasters, wars, etc as a way to expand the knowledge of English worldwide and to promote Immortality *for* All values of the US. Thus, it would be fine to grant many 3 month visas, since they all go back and must show return airplane ticket (except the few who can pass the hard test of Immortality and want to remain, which implies a lot of education, English knowledge beyond simple chat around town). Today with solar tents and modular housing one can create housing in months (even create Immortality city at the border with Ukraine or any war affected country, where everything is in English, classes and all and allows locals of host country and refugees to learn English if they stay there for a month while they await USA modular cities to take shape in warmer climate where energy is cheaper, solar, etc) and as people are excited about spreading Immortality *for* All values and getting more countries to switch to English and speed up science progress, they will welcome more refugees and part of the deal is they enter the 3 month intensive English courses and Immortality *for* All classes. They can take part time jobs and help with a lot of stuff, vertical farms, local vegan food production (water lentils (duckweed) (ω3:6 ratio 2:1) have all fat and protein one would ever want, just way healthier), these modular cities are 100% self-sufficient and run by mostly the refugees with the supervision of the Immortality *Nurturing* Agency. To be the leader of Immortality, we're the leader of life, saving people from bombs, death, etc, by taking them as refugees for 3 months to teach them resilience skills, so they go back later and build a new English as second official language country dedicated to Immortality *for* All Alliance. We need to be taking humanity towards one language to speed immortality for all science progress, so we can take 90+% refugees in any crisis temporarily, to tilt the planet towards 1 language. We can help refugees better than most countries, we have better resources, it's only logical to do so, grow our economy too with eterni labor, since besides making "Immortal Gentleness" "Immortal Compassion" cities self-sufficient (the cities are all separated from the outside world, in case some refugees are spies or whatever), they can make things to sell. We also help spread veganism that way and the future eterni food tech. If Americans don't want the 3 month visa, they can drop mp3s with lessons in English. ☺☺☺☺☺☺

Today a city is built in 1 week instantly with water from air, solar tents, silent AC, etc. No longer need to wait 5 years. These are highly secure, 3 month visa residents only cities, that none, but ICE have access to. All refugee cities helpers who build it and teach refugees how to maintain it, etc and supervise it, will be super excited and motivated, since they help end all wars; thousands of wars happened due to language difference alone. As heroes of Immortalism expansion, volunteers helping organize these cities with ICE, are awarded the Electronic Certificate of Immortality *for* All ☺☺☺ and get to be the first to try new immortality techs the government

discovered. Immortalists are the most compassionate so they take eterni refugees for a 3 month visa, to learn English and eternism, how to deal with crises in their nation. This tilts the planet towards Peace, Veganism, Green Cities, eterni Food, Immortality tech thru 1 language. Immortalists have engaged foreign policies. Immortalist Parties care about people who live a trillion times longer, for 80 trillion years, a truly *trillion times higher care and* kindness. People are not comrades or friends, folks or workers, ladies and gentlemen, they're Radiant Beautiful Gentle Healing Graceful Immortals who may live to a trillion years old ☺☺☺☺☺☺☺.

Russia bans all foreign language signs in some cities, with plans to expand nationally. Why would the US not do the same, so we have English and immortality for all as unifier? Krasnodar first, Novosibirsk next, etc. *Russia arrests illegals and sends them to the Ukraine frontlines* to die as cannon fodder. Russia bans free education for children of migrants who don't speak Russian (all migrant kids tested to evaluate Russian language knowledge starting April 2025), so USA needs to ban education in any language except English to unify the nation and end Jewish supremacist religious terrorism that wanted English banned in 1780. India wants to ban English and promote 22 languages. All low IQ (95%) immigrants in Russia are required to do military training for 1 year. US can do the same, if it imports filif IQ folks. UK set temporary protection to 2.5 years and a 20 year wait after that to apply for permanent residence, all NATO need to do the same. The reality is war doesn't last 20 years, cause of emigration ends, refugees can return instead of turning USA into a 3rd world nation of cat IQ people, and many simply come to Germany, etc to get free handouts, convert nations to violent Islam or other junk described on the first page (Hindu cults, etc). If so, all nations need to ban all Hindi and Indian language signs shops worldwide, as well as violent Mahabharata (violent Bhagavad Gita is part of it) based temples, which are terrorist organizations like all synagogues, mosques, churches, who also promote violent scriptures. If the Indians don't want 1 language for all humans or at least Indians, then they're against World Peace and all nations need deport all illegal Indians. The one language section explains culture has nothing to do with language, culture is about nonviolence and efficiency of 1 language not 7000, not about what language you choose as the language for all humans. Watch the Indian culture coming out of the violent Mahabharata and Gita (blood spill call, genocide call, crush Mecca, bulldoze houses, destroy other religions), which we so foolishly allow in the USA. Trump declared English as the only official US language in 2025. He also will fine illegals even 1 million dollars for not leaving the US when their visa expires, retroactive fines and confiscate their property. China is moving away from English, banning English tutoring, becoming more nationalistic, and so many call for the total removal of English. The argument that it is a useless subject is false, since the kids are forced to learn so much junk anyway, they just are afraid of English due to the terrible policies of UK-US that antagonize everyone instead of being win-win. The reason so many nations ban English is the fear of the government that the

youth will be brainwashed via social media, youtube etc to become spies for US-UK etc and undermine the narrative of the official local language (Chinese, etc) that depicts the situation differently. Internet walls don't work well, so when people go over and know English, they understand books like these or youtubes with bad events in China, while if they only know Chinese they can't understand it. The Chinese are easier to control by the Chinese leaders as they don't understand what happens outside of China. It's also a Chinese youth protection strategy to prevent brain drain and brainwashing by the Americans/British who will steal good workers, or simply slowly destroy the Chinese immigrants and/or use the Chinese in US-UK to enslave China. Other reasons are more obvious, Brits tried to kill all Chinese by drugging them with opium to destroy them completely. British aristocrats pose as friends, but their ultimate goal is to enslave everyone outside of US-UK just as everyone inside US-UK is their slave. This is due to the mentality existing in the military-industrial complex. The other reasons China fears English language are Brits behave like all empires: 1. the British, like Muslims and Portuguese, were blowing by gun of non-Brits to steal their labor, land and resources, 2. the mutilation, execution of even Brits by British aristocracy. These things are the tip of the iceberg in a much larger problem and pattern of genocide that has created similar tendencies in US aristocracy made of Americanized Brits (the core of the top guys), Irish, Italians, Germans mostly, whereby all immigrants are mere guinea pigs for Nazi experimentation, simple cannon fodder to be slaughtered, slave labor to enslave other nations using English as a tool. If the English can destroy every nation and use it as a colony to extract resources or allow Brits to settle and rule the nation, that's good for the English aristocracy (the reason why UK doesn't rule the world is due to their feudal Neolithic system), so companies will make products to destroy locals, while selling them as amazing products. Faced with this systemic oppression of the world, the complete lack of ethics by the US government, made of aristocrats, no wonder some nations are starting to ban English or limit its teaching or use: Russia, Kazakhstan, China, etc. The Jewish war on English dates to 1780 when Jews tried to ban English in the USA, make Hebrew official. Nothing new under the sun, the British tactics were used by Russians, Germans, French, Native American Empires, it's as old as humanity itself. This can stop if we can remind all we have infinite resources and we can create 11 companies worldwide to end war and crime forever.

This war on English doesn't solve the fundamental problem: imperialism, the evil nature of people who become very violent for a tiny piece of land they don't need, like China exporting lead skin lightning products to Philippines and bullying Filipino ships, etc… doing all things Brits did/do. The war on English is not the solution, it is a symptom of revolts against aristocracies in 200 nations, not just English aristocracy, but Chinese government aristocracy too. China hides all homeless issues, the 100 plus secret Chinese torture cells ("police stations") in 53 countries to destroy the human quantum field, theft of African gold leading to looting and burning of Chinese

supermarkets, abject failure of the fake communist regime to provide jobs for all leading to fake work companies, endless criminal attacks on the Filipino no different than Hitler's invasion of many European countries that raise anxiety, terror and negative energies in the human quantum field due to Chinese greed alone, when 400 stars exist to colonize with nobody on them.

See China's "peaceful development" and hate of English speaking Filipinos: 1) 5 min video of the Dec 2024 attack of Filipino ships in Filipino economic zone on Filipino ships that resupply a coral ship 3 times much closer to the Philippines Scarborough Shoal that obviously belongs to the Philippines not China (while China presents it on youtube as Filipino tiny boat attacking the huge Chinese ship (the deceptive evil Chinese army only shows when the 2 collide, without showing it was the Chinese who chased the Filipino; how would a vessel 10 times lighter attack one 10 times bigger to ram into it?) Hitler style false flag, he attacks Poland and claims Poland attacked him), 2) CNN analysis of the June 20 2024 attacks on 2nd Thomas Shoal (another area way closer to Philippines than China that is obviously not Chinese) leading to injuries and taking a bag, pure brutality that shows the real face of the Chinese Communists having nothing to do with kind *gentle tender soft* vibe of Tao Te Ching with more details of this event shown in video 2 and the soldier who lost finger video, 3) October 2024 video 13 minutes analysis (China attacks ship while Aussie 60 minutes crew is on it), 4) video March 2024 40 seconds showing Filipinos placing sponges to avoid ship damage as the Chinese ram into them, 5) video August 2023 only 80 seconds, video 6, video 7, video 8) on Filipino ships that resupply a coral ship 3 times much closer to the Philippines Scarborough Shoal that obviously belongs to Philippines not China as China claims (while presenting it on youtube as Filipino tiny boat attacking the huge Chinese ship (the deceptive evil Chinese army shows when the 2 collide, without showing it was the Chinese who chased the Filipino; how would a vessel 10 times lighter attack one 10 times bigger to ram into it?) Hitler style false flag, he attacks Poland and claims Poland attacked him). Xi Jinping claims all poverty almost is gone but many have no pensions and some got only 24$ a month: 24$ pensions, the suffering of people in China, the abuse of Chinese kids who become memory machines, who sleep 5 hours daily, studying and doing homework 12 hours daily, robots without any creativity, fluid intelligence, obeying the orders of military generals running the show, etc. Young kids ages 6-14 need to sleep way more than 5-7 hours the Chinese kids get, in order to develop longevity and healthy brains. What the system does is pure genocide. The so called reform in 1978 in China copied the US Jewish mercantilism Bible violence based system and created an aristocratic class in China out of corrupt communist officials. These guys behave like Jewish Bible folks. Mexico closed down a Chinese store selling fake goods. That's why China got the same problems as USA, they copied USA 100%, and *are communist in name only: it is capitalism*. It's imperative for China, USA, India, Russia, Brazil, and 80 other nations to give up hypocrisy and abide by Immortality *for* All ethics, the Universal Treaty of Nontorture, 0 wars,

Nonbeatings, nonviolence, Universal peace that all nations need to abide by to prevent the 10 second end of humanity or of 99.9% of humanity due to the deployment of the capsule that puts an end to too many terrorist governments whose words never match their actions, especially covert actions. No human being should be tortured or beaten, this is the first proof of a country being human and not made of cannibal chimps. Sooner or later, all these bandits will be no longer rulers of dozens of nations. All gangs who torture people will be crushed in 10 seconds by selective AI if peaceful methods fail, quantum AI. These ☺abysmal IQ☺ folks imagine we're the IQ of rats. Where is ethics of Buddhism and Taoism? The Buddha says to love all beings like a mom loves her baby, what does China do? Animals have no human rights? All nations need to realize the evil nature of man and the need for one language, since humans *are such 0 IQ baboons, they fight endlessly over nothing:* watch Chinese elders fight over cardboard, and think China is advanced or that it "removed poverty" *as the leaders claim*. Any violent crime ought to be given lifetime labor or death penalty globally, to rid the planet of violence in one sweep. Do these terrorists all over the word of many religions and ideologies believe the decent free people of the world will tolerate a planet of eternal murder forever? No, one day, Peace will come, peacefully or, thru the physics of preventing "*the death of humanity due to starvation by nuclear biological etc warfare*", that 10 second device that makes Hiroshima look like a little pat on the back. Hey physicists, now is your time to unite with chemists and bring 11 companies, 0 aristocrats and World Peace peacefully in 11 days. Let the Manhattan project for the new device begin and rid the world of violence in 11 days. You know they don't need to use it, only to demonstrate it in a desert on some animals to convince the planet to unify. We only have a few decades before out of control wars using simple techs will make Earth uninhabitable, so now is the time for all ethical nonviolent physicists and chemists to unite and deliver World Peace in 11 days, thru whatever nice brain upload nonviolent tech or whatever works to kill 0 people and reach World Peace in a record 11 days as explained also in the worst case scenario of a rogue nation or aristocrat group using the weapon to kill 99.9% of humanity.

The age of ~*~Eternal Universal Peace~*~ is fast approaching, but the ants, fleas and spiders don't realize it. We're close to the weapon that kills an entire planet, not just 10 people with a grenade. The world had many wars on various languages, that solved nothing. Today various wars happen between different languages, cultures based on filif gnat IQ☺ religions, aristocratic clans of theft, plunder and subjugation of nations, as seen in Ukraine and Syria ruins. The wars over language stemming from having 7000 languages lead nowhere, except the quantum leap evolution point of a species: the end of all wars or the species' annihilation. They had a war on Greek and Greek lost its global influence. They waged war on a language, not the feudalism idea itself. So, nothing really changed, feudalism, violence, empires invading and killing, torturing, damaging the human quantum field have not stopped… one empire and then another 100,

replaced the Greek bastards with the same diabolical drive to kill and steal we have seen for 1 million years. Are these people in China making the same mistake? Can't you see how Chinese live in underground caves on 30 cents a day and others are billionaires in China or celebrities creating evil depraved tones and music on TV, having copied the depraved British-US culture? The ideal *solution is the transformation of all ethics globally*, the removal of feudalism and the liberation of 7.9 billion slaves from the terror by the 100 million aristocrats, thru the ethics of infinite kindness outlined in the Immortalist Anthem and other texts like it. The hate of English stems from an awakening of the masses to the criminality of the US aristocratic government who tortures millions of its citizens covertly or overtly daily. As $ and English become irrelevant, US could become like Greece and Greek, irrelevant, a banana republic and unknown (like Greek today) language, a USA ruled by serial killer Republicans shooting each other and shouting "Jesus is King (in Hebrew), and first right in life is to kill everyone with a gun in gun fights".☺☺☺ USA, wake up, defeat feudalism globally, and all may choose English as they see a new America, 100% transformed, from a war monger devil into an angel of goodness and peace. We already see the failure of US bully tactics, China copies USA and does this to Filipinos.

This anti-English wave is due to feudalistic Re-pub-licans and Demon-crats, their criminal Zionist policies of world terrorism using the genocidal Bible and British aristocracy (see their mansions) genocidal subjugation of all nations ideas. The world militaries need reform and focus on World Peace in 3 months, thru all media, 24-7. Brits need to overthrow via elections the aristocratic, royal criminals who ruled them for 1000 years, and create a true democracy, one like the immortalist system. The ban of English in some nations is a natural defensive reaction to the kill-steal ideology of the US government whose religion seems to be torture of all, steal labor, destroy all immigrants who come to USA if they oppose the criminal aristocracy system. Nothing will change on this planet until the criminal Republicans and Democrats are ousted forever from US politics via a landslide win of Immortalists.☺☺☺ Both Democrats and Republicans want immigrant slaves, cheap labor, they got trillions for Iraq, Afghanistan, and "can't find 20 billion for a border wall and some 1000 agents to monitor 10000 guns remotely and use them to shoot anyone who jumped the fence, we have resources to stop 100% of illegals, the lie we can't stop illegals is spread by the pathologically deceitful slave owners who ran this nation since 1776 and still do: illegals and the 90% are their eternally subjugated slaves. The whole political system is a big fraud, they never want to end illegal migration, violent crime, wars (the two tools of repression, chaos seeding for maximum looting and subjugation), they just say they do, Trump is the first who wants to end illegal migration, but it won't last without a high tech border wall, as democrats will open the gates again once elected. USA needs to ban foreign language from all government offices, all these translations into 30 languages of government services too, *since no other nation has this level of* ☺abysmal IQ☺ *like USA, a Jewish colony* with 0 freedom to unify

under one language, to have its culture outside Jewish genocidal psychopathy of Jesus, Moses and Christianity, etc. USA is torturing to death citizens of nations who're part of NATO and living in USA, covertly or overtly, while shouting "we need cannon fodder folks in case China or Russia attack us". This is the US policy towards its allies: says one thing on paper and in the media, and behind the back they undermine and sabotage the human quantum field, destroys its allies, turns them into remotely controlled brain damaged slave cattle, easy to control via sleep deprivation and 50+ daily attacks of various body areas, etc. With this policy, it won't be long before NATO disappears and USA is actually alone, defending the mansions of genocidal psychos who have created 300 wars, all alone, and becoming 50 times smaller, like Greece did after being 50 times bigger than today 2300 years ago. Hence immortalists call for 11 companies to save US. That is why it is good for all Americans and people worldwide to overthrow (via elections that boost the Immortalist Party) the criminal military gangsters at the helm of most nations, who fake all elections, since it is a thuggish government who mainly produces war and terror worldwide. It can't be otherwise, as the psycho Bible is its guide. USA, like most or all nations, is a military dictatorship, unbeknown to people, who have no clue all parties are puppeteered by the military industrial complex. *Democracy doesn't exist anywhere on Earth*.

Russia's illegal migrants "will not be able to use banking services or drive vehicles, [banned] from entering into or dissolving marriages, registering property, or enrolling children in kindergartens or schools", plus they will be deported without a court decision. USA will *follow*? It better follow, unless they want to become an Islamic Caliphate or a Narco state with Spanish Inquisition style public executions. USA spies within the Democratic and other parties minimize the status of English, the national cohesion around one language, by not requiring people to learn English and instead wasting taxpayer money on translators. Even Washington DC offers services in 6 languages, since 2004, which is absolutely anti-life, Democratic Party is run by foreign spies. Ukraine deems Russian language a threat, so no kids are allowed to talk in Russian during school breaks, imagine if USA would ban Spanish in schools and all public spaces, like libraries, government, etc. Hold on, USA may need to follow Poland's new policy of ending right to asylum which is abused by many to invade Poland and turn it into a violent 99% Muslim place, which follows Finland's decision to reject all asylum applications indefinitely. Venezuela illegal migrant aged 19 arrived in Spain and then moved to Poland, where he stabbed woman with a screwdriver, to remove her eyes and raped and then killed her. The screwdriver from the rapist reached the woman's brain thru her eyes. Did CNN report on this? No of course. Only if victim was Jewish, Gentile Lives Don't Matter. Muslim migrants being 'peaceful' with Molotov cocktails at Polish border, read about Islam for all. A German company in Poland gets gov aid, pays no taxes and hires illegal Colombians, who, sometimes kill Poles, as this guy who got life in prison. US guy visits Germany and gets mutilated by Syrian illegal migrant who then gets

released by cops in 12 hours. Multinational foreign companies hire illegals they send to Poland, while Poles lost jobs, in a typical international profiteering Jew or German (70 million Germans live outside of Germany) case of national destruction. Our Jewish News Agencies only report on Israel and the Jewish Bible. Naked Ethiopian youths run in Poland after the illegal migrant smugglers took their clothes. Another drunk Venezuelan migrant stabbed a woman several times in June 2025. Russia hires Latinos, Muslims, Asians and Africans thru middlemen, so they don't know they work for Russia, in order for them to spy or commit violent crime to destabilize various EU nations. EU says Poland no asylum policy is legal. Poland began shooting illegal migrants, see the new shootings more, migrants, who want to impose Sharia law on all humanity, vandalizing NATO border points: watch the savages waging war on NATO, cutting border fence and jumping over fence, felling trees on the fence, cutting the fence in 2022 before Poland finished the 18ft wall, Muslims kill Christians with spears at the Polish border to spread the Rape-Genocide "Religion", Muslim thugs practicing their "religion" at the NATO border. We all know thousands of asylum seekers are spies for various governments, so it's a big gamble. Already, USA is using torture covertly on industrial scale, imagine this being done overtly like in the middle ages Spain by Narco gangs, Islamic Sharia fans, Catholic Inquisition fans, etc. In Latvia, they ban Russian, since Russia invaded them and deported anyone smart to Siberia. In Belarus they're replacing Belarusian language, unifying the educational system with Russia's. In USA, we disintegrate the nation/education with 50000 schooling systems, so 'bad type of Jews' *give junk to all*, and best *to themselves* (2300 acres palaces, Google founders 8 airplanes, Ivy League students Jews was more present as % of their population, education for Jews, ignorance for the rest). Why is USA-UK-Canada-Australia-NZ-Ireland doing the same, one centralized education for all, run from Eterni, the Eternal Capital, the world standard for education adopted by many nations, maybe all one day, if all switch to English? The move to English only in USA is detailed here. In response to Russia banning many languages in lands it invaded for 900 years and occupied and then ethnically cleansed, Latvia deports anyone (Russians) who fails to pass the Latvian language test. Finland too, after being a Russian colony for centuries, wants to ban Russian real estate ownership, as it can be a cover for Russian military staff creating military bases, while pretending to be "tourists and businessmen, students and clergy". With so much land taken from others, Russia could welcome warmly all Russian deportees. Instead, they're bombing Ukraine and threatening to bomb Baltic states, Georgia, Moldova. Oddly, we only hear about nuclear attacks on NATO nations, nothing about Eternal World Peace in 3 months.

Kazakhstan had 1% Russians one time, then it went to 43% during the state sponsored NKVD-KGB Stalin extermination/relocation, now it's 15%, if statistics are to be believed. It's funny how Russia only complains about current actions of people defending their own country, forgetting all Russians in many areas were not there initially. Russia is ☺☺☺happily☺☺☺ deporting Arabs

and Indians too. It's a little odd, given how much Russia bombed Syria into the stone age. Everyone can ☺☺*lovingly tenderly gently kindly*☺☺ chill out, gently stop the undercover terrorism done by their spy agency and torture under 100s of guises, even sometimes "migrants on route to EU" or "visiting scholars, businessmen, etc" and *nurturingly* work for adopting one language for all nations within 20-50 years after Eternal World Peace is achieved, to increase longevity discoveries efficiency. We can compassionately forgive and forget, so we achieve the world of Eternal Infinite Sweetness towards all within Immortalist Anthem, the song of immortalists. China banned Tibetan, Mongolian and Uyghur as medium of instruction too for some or most subjects, as the world is moving towards centralization of the emerging immortality capitalism, one centralist efficient planet of science of immortality for all: India too is moving towards "one nation, one election, tax, uniform, market". It's about time, for God's sake, why does India need 22 official languages? So much waste. Would English and Hindi not suffice? As the language section explains, having one gentle tender soft nurturing loving kind compassionate emotional, tonal and literal language of instruction, in any school, college, city hall, business, in USA, English, increases efficiency, longevity, IQ and allows standardization and equal opportunity for all for turning all into geniuses not just 0.1%. It's the most compassionate thing to do, to have one language, so we can bring equal opportunity, equal education, equal access to science papers to all. *This Great Unification,* emancipation *of all* Americans via remote learning, 1 million immortality research centers catapults us into the Age of Ever Longer Lifespans or "Immortality *for* All", etc. If we have 5 million operating systems instead of Windows, nothing would get done in the academia using Windows (the features would be poor as 5 million fewer programmers exist for each system), if we have 20000 violent (by the higher standards of the Immortals) subcultures and 100 languages we can't achieve Immortalism fast, 10 billion fold lower violent crime, Eternal Universal Peace, the preconditions for Immortality *for* All. Once Hispanics understand the pros of one language, that all science papers are mostly in English, etc, they will choose English; until then, they're free to remain clueless. It's out of compassion for all that we bring unity, just as in India they got English to replace 600 languages. It's more efficient. Imagine if every state had its language, it would be so hard. America has become 200 nations with violent music for all, that each state, city may soon declare itself a nation, since unity is absent. This can ☺☺*lovingly tenderly gently kindly*☺☺ be reversed, as we see from history, after division, unity arose. Will Hispanics choose science or tradition? Nobody will force it, but the 150 pages on immortality capitalism and on one language, explain the pros. Divided we fall, united we stand, this is clear to the 20 tiny nations in Eastern EU who may join as one Eternia with English as their language too. The old generation of Hispanics won't learn English, but the young people understand the science argument, they can even comprehend everything in this book well, as they know English. ☺☺☺☺☺☺☺

Immortalists can convince Russia, by immigrating there (request asylum, they take in asylum seekers from 47 destructive countries that are anti life, just fly to Moscow) that traditional values and spirituality have 0 and nothing to do with Christianity, Judaism and Islam, by detailing ideas in this book via the ImmortalityTV.com station in Moscow or East EU in English that supports English in government, education in Russia and the achievement of the proletariat revolution ideal of one language worldwide English, for the sake of Eternal Efficient Universal Peace and less slavering work for the enslaved workers translating and fighting over language. The amazing & beautiful ☺☺☺ ideals of the World without war of the 1917 revolution will finally come to forefront, minus the torture of Inquisition or Communists, but with the kindness of Immortalists, as the power seeking capitalist only worships war to beat the workers eternally, by seeking chaos to loot and enslave everyone via religion and "companies". The wars destroy the worker class in all nations, and are instigated by aristocrats for that purpose alone, besides of course resource theft when needed cheap labor, land, etc. The depraved 47 countries and all nations never talk about World Peace in 3 months, only about junk that maintains the power of aristocratic classes ruling every nation. So, the 11 companies for all nations and Universal Hypothesis Formulation and Testing, the Ten Trillion Ways to Eternal World Peace without War, can come to the forefront, for the liberation of the masses form the slavery and chains given to them by the bandits ruling the planet. Russians awaken, so East EU awakens too, all EU-USA too. Russians need to learn English, adopt immortalist tone and unite as One to support the happy Immortalist Party of the Russian Federation (Russia may split in 10 states otherwise) that brings Universal Peace worldwide, with help from blissful US, EU, etc immortalist Parties worldwide.

CITIZENSHIP is Confirmed, English only @ home, business, school, Unify USA-UK-AUS-NZ-CAN:

To prevent the wiping out of the entire human species due to wars over language, stringent one language and anti-espionage laws will be passed on day one of the Immortalist Party winning elections. The Jewish Gangsters have now put endless signs in Washington DC even in Spanish only, on utility devices, etc, as Jews plan to ban English like in 1780. The existing parties have turned USA into a Jewish Babylon with 1000 languages, blue (California, etc) states providing services in many languages, in clear violation of immortalist principles of fairness, equal opportunity for all to read world's science papers (90% in English) via English knowledge and permanent residence status and citizenship (birth citizens leave for other nations, then return 15 years later without knowing English at all, anyone who has been out most of the last 5 years, must pass English Immortality test multiple choice of 20 minutes; failure means citizenship removal until Test is passed) to English speakers only, as Jews control both parties and work feverishly to destroy English and promote multilingualism, so Hebrew can come on top one day: Jews tried to ban English in 1780 and make Hebrew the official language. One nation, one quantum field, one unity indivisible, one fair treatment for all, one pay system for all (max pay

3-4 times min pay, etc), One Bank, One Housing Policy, One Class – the 100% (End of aristocrats), one family☺☺☺ means first and foremost ONE Language, One Tone of gentle tender *soft healing graceful nurturing* universal loving kindness. To love all Americans is to speak the One Language. English just happens to be the most spoken language by all smart people worldwide, 1.5 billion speakers, so it's humans' best chance to unify the planet and bring World Peace in 3 months. Be pragmatic, culture is the tone and content of a culture, not the language. We need speed to avoid the 10 second end of all humanity. Anyone who is a Peace Lover, loves to quantum entangle with 1.5 billion people to manifest that Peace instantly. As a side benefit, he will live longer because he will quantum entangle with world's smartest people, world's scientists, world's longest living people, not 1 million speakers of a vanishing language. Anyone who speaks non-English at home ought to have lower Immortality credit score, for undermining global unity to achieve World Peace in 3 months or 3 years. Immigrants who come to USA and worship, study, speak in their own language are traitors and useful ☺abysmal IQ puppets☺ in the hands of globalist aristocrats profiting from international wars over language and fake religion, with all religious places of worship being mere spy stations for country of religion origin usually. A true American speaks English only. Aristocrats start wars among workers via language/religion. Thus, to speak non-English is to fuel the flames of eternal wars that have killed 1 billion. To speak nonEnglish in US-Australia-Canada-UK-NZ is a sin as grave as rape of the human quantum field or raping one person, almost like killing, because 7000 languages will lead to trillions dead in the future if we don't stop this madness created by the Demon-crats/Re-pub-licans: all government services will be in English only when the immortalists remove Demons, pub lovers from politics. Our sense of national unity is nonexistent, as Jews destroy it completely to rule us with their 4500 banks which we will dissolve in one strike. We have no national or official language and to bring World Peace in a few years we need 1 language, not 7000.

Citizenship by Birth can only be valid if the person resides in the USA all the time, meaning, as everyone else, he takes the end of school year Immortality Test, MRI test for eterni intent test, eterni tone test, etc. Arab nations don't give citizenship to any Palestinian born in their nation, so why should USA give birth citizenship to anyone just because of being born here? It's plain abysmal IQ, a person is citizen by birth only if all 4 grandparents are citizens and then it has to be confirmed when kid is 18 and each time he leaves USA for a long period. *All citizenship is removed from all who got it by birth, if they can't pass the* immortality test for their age within 1 month. The exception is people who have all 4 grandparents citizens by birth (not naturalized citizen parents). This means we correct wrong policies of last 250 years. Citizen.gov will provide test materials for study to pass the test, it's about 9000 pages for ages 11-14, 14000 pages ages 15-18, 25000 pages for ages 19 or 19+. Too many spies and criminals became citizens via scams and fake marriages done by spy agency order, not love. Adults need vast knowledge of science,

sort of like GRE etc… for PhD, so prepare for big changes. Green cards given to illegals after amnesty by former Presidents would become invalid, and to get them all need to take the immortality test for the green card, pass English test and ethics, knowledge tests sections of the immortalism test, and the citizenship test. Those who fail, would be deported, if they can't pass again after 6 months of 24-7 studies. It's to be clear: this test would be hard, like learning Chinese and Arabic with almost perfect accent, different alphabets, 3000 characters, etc, not like the 2rd grade American citizenship test today, it's like going to PhD. What happened the spies bent on destroying USA, have sent millions of Catholics to spread the Worship of Blood Sacrifice under the guise of Eucharist. And they have destroyed intellect, tried to brainwash everyone by stealing trillions in tax income for their Organized Cults. ☺☺☺☺☺☺☺

The Demon-crats decided it's the best thing to quite often be paying 90 IQ illegals *(working at some aristocrat owned hotel from hell, sitting at the front desk watching porn or some random Spanish or native language* ☺abysmal IQ☺ *shows all day sometimes, except for 20% of the time)* the same or higher wage as locals or legals (working at a real job, doing science, tech, etc) who have a masters in science degree and IQ 150. So, being so relaxed, they now have time to attack legals and locals with weapons invisible provided by foreign spy agencies, time to start gangs and destroy USA. *The* Demon-crats *destroyed the USA, making USA a third world* nation *of* ☺hen IQ folks. In their quest of absolute power over all nations and vast genetic engineering to mess up everyone's genes except their group, they have magnified all macho aspects of all cultures, amplified violence to the max for max jailing, torture and subjugation, placing profit above knowledge, truth, honesty and nonviolence, *gentle tender soft nurturing healing loving kind* compassionate *grace*. Such 0 IQ decisions taken by traitors who used the tortured robotic puppet presidents for their game of thrones, have completely destroyed the US. Those greedy aristocrats who gave green cards like that committed treason of the eternal longing of humanity for One Universal Language and 11 companies for all humans. *Aristocrats only believe in their money*, so they don't give a dime about America's future. This was a relentless covert war against USA and the English speaking world, to promote bullfighting (see Spanish sports) and bloodshed, the unholy bloody Christianity and unholy Islam, unholy Torah. ☺Gecko IQ filif folks ☺ screwed USA, but smart people can fix the damage, everything can be repaired. Let's bring people of high IQ instead of 90 IQ illegals. We can fix *the horrific mess* former *presidents got USA into*. So many ☺abysmal IQ☺ decisions, unbelievable, as if they were paid by KGB to destroy USA 100%. Instead of bringing *40 million people of IQ 130-190*, they brought *40 million illegals with no English knowledge and IQ about 90, go figure,* isn't that the lowest IQ decision?? No, it's TREASON of the highest order, worthy of lifetime labor picking up tomatoes sentence. The low IQ had kids, and became low IQ too sometimes, so it's like 60 million now low IQ. Robots can pick up all produce and really, volunteers can do a little too 5 hours weekly each, to build a real

nation. In IQ tests, America was like number 30, so Demon-crats lowered our IQ with their policies even more, so did Re-pub-licans, who, after so much Jesus alcohol trance states, could not think to bring geeks inside USA, since they're anti-science and pro-circumcision, the worship of Rabbis sucking infants penises. All who have green cards obtained by family ties will have to pass the Immortality Test for green card, to remain in USA. All family based immigration will be illegal. Everyone must pass the test to qualify, the dad passing it and *dad having a job is not enough*. Wife has to pass and kids too, so if they got low IQ, they won't pass of course and will get a chance to come only in 45 years if that long it takes to pass. This is not just an ethics course, but an IQ test essentially, since only high IQ people can pass it. The new immortalism law gives the universal health insurance via the one and only company offering it, Universal Immortality Inc, only to legitimate green card and citizenship holders. All green card holders who got it in the last 50 years will have to take an English & immortality test, failure means no health insurance. Be assured, all parasitic vampires will leave USA alone on their own, without us needing to deport them, if no health insurance is possible, due to the One Universal ID that only green card holders and citizens have, the One Bank and Drivers License. No Banks are allowed in USA, except Eterni Bank. If people come to a nation, they need to learn the language. Everyone needs to learn English and speak it all the time. All science papers are in English, we don't need illiterate folks in USA, only educated people are welcome here, as we're trying to create Eternal World Peace and End all Violence on Earth forever. Evil aristocrats claim we need illegals for construction, hotels, restaurants. Not really, with 11 companies, we manufacture all houses that are 1000 times more high tech than any made on Earth in a factory like Tesla, and we don't need 3 million contractors to install spyware mics and cameras. Hotels are not that needed, since all have a house, built and maintained by Immortality Building Inc, and then due to high quality housing, no more transients in hotels, or want of vacation, since all other nations are trash versus how USA will become via scientific innovation. Plus few tourists, as they gotta pass a tourist test harder than learning Chinese and Arabic test. Tourists are spies usually. Aristocratic bandits rule most nations, so once we become a real democracy, USA will be far nicer than the other countries. No need to welcome 90 IQ tourists, we build nice houses, not hotels. Let everyone's house be so amazing & beautiful ☺☺☺, our cities so safe, quiet, everyone is in a state of nirvana, happy, elated, unwilling to travel anywhere. Bliss is within. ☺☺☺☺☺☺☺

Some guy may have IQ 130-230, but his wife may be IQ 100 and not an immortalist at all, on the contrary, she could be a fanatical religious nut who will team up with her 5 Sharia Law kids to fight immortalism 24-7 while in America. The first and foremost family is the Universal Immortality *for* All family of USA, where all Wish Eternal Lifespan and Wellbeing to All, the American family of those who want to end all violent crime and war immediately, which contradicts Islamic call for eternal war on infidels☺☺☺, eternal mutilation and violence against

infidels, it contradicts the real Catholic ethos of Eternal Wars on infidels via the Inquisition Eternal Genocidal Torture (it never died folks, they renamed the Inquisition Office) and Vatican Paid For Wars. To subjugate nations, they simply start wars covertly, while publicly they denounce war. They publish endless fake studies and books about miracles, to justify the military bases disguises as churches, just like Protestants, Orthodox, Muslims and all other con artists. Naive people believe that Vatican paid for "independent" studies and science studies into miracles are genuine, that the 3000 books and booklets Vatican mafia produced are based on real and not made up events, that everyone is honest like them, but it's not like that, some people lie 20000 times more than others, Italians are used to deception for 2000 years, Rome was founded 2700 years ago and they got really skilled at fraud and shouting, like nobody else in Europe, they changed all European languages to sound more or very Italian like thru incessant bombing, killing and war disguised as "empire or religion spreading". Immortalists call for loving all, read the Immortalist Anthem and realize how it is 5 trillion times kinder than Islam and Christianity. Many IQ 100 folks have not yet realized the Judaism, Christianity, Islam religions are pure frauds based on genocide, mass rape, looting quotes. Italians and Jews figured they can loot everyone by promising them happy joy in some fictional dimension and safety from a made up 'Satan': you give Jewish Italians all your wealth, and national treasures, they give you protection from the made up explanation for all nature's chaos (Satan) with fake miracles of saints/Jesus and prayers, wafers, rituals of protection from the boogeyman that would otherwise torture you in hell forever, because 'Christian' God is so 'loving' he allows Satan to torture souls forever, for a nanosecond mistake. Fear of hell to loot all nations. Like a nice extortion racket. Mohamed saw the Christians became very rich via this scam, so he started his scam too. The immortality test will be so hard for any visa that only high IQ can pass it, and if they do, they will get basic education in the immortalist culture and realize immortalism is 1 million times more logical than many 0 IQ religions started by serial killer thugs, *spies and frauds*. They will become an immortalist, since they will realize during studying for the test, that it is 1 trillion times more pro-science, honest, humble than the 1st century primate religions that dominate the Earth today. Aristocrats created most religions, using spies and soldiers staging miracles and events, in order to control the masses of slaves they subjugate. 60000 illegals in New York alone have committed some crimes, some of these are violent. Halal slaughterhouses torture animals and are guilty of animal abuse, since animal suffers 300 times longer than the modern science based slaughterhouses. This animal abuse (watch 2 horrific minutes) is the cornerstone of Islam. Do you want US returning to the 7th or 1st century ☺abysmal IQ☺?

If a citizen moves out for 2 to 20 weeks, he has to pass the mini-Immortality Test to check for signs of torture, lower IQ and brain damage during "spy training to be double agent", health test, immigration questioning about activities outside that could destroy USA, for his age, like all

other kids and adults 21+ do in school and college, before he can regain entry into the USA, to deter the foreign nation training of double agents whose only goal is the complete destruction of the USA, Australia, Canada, UK, NZ, Ireland and other English speaking nations. Citizenship of USA is only valid if confirmed every 10 years, by taking the Immortality test for one's age, if one moves out for more than 20 weeks within that 10 year period, by taking the test at the USA embassy or consulate or within USA. To maintain one's USA, Australia, Canada, UK, NZ, Ireland temporary or permanent green card residency, one has to use the free universal education videos for all infants to create the unitary virtue training, unitary pregnant mom videos to prepare mom for eterni tone and kindness (and dad too, via the parent license process, 1 hour video daily during pregnancy required for all parents) unitary English accent training, unitary English at home use only, unitary eterni tone vibe, so that everyone speaks the same exact tone, accent and feel one country, one nation, one Peace building tricontinental nation, so democratic and kind, everyone wants to follow our example. ☺☺☺☺☺☺☺

All German language schools and entities were shut down in 1919 due to the war Germany waged against USA, and today a huge war is waged against USA by the Latino world via the drug cartels and Spanish language efforts to split USA into two with aid from EU, China, Russia, etc. It's time to use the old technique banning enemy language (Spanish) from every American school, city or state government office. It's time to boycott all products made in Mexico and Latin America, make everything inside USA and be self-reliant. Latin America ships drugs to USA to kill us all. Not only that, all other languages will be banned in shop signs, religion services or building inscriptions, business, education, government. No city clerk, cop, nurse or state official shall speak in any language other than English, or be fired within 24 hours: The Healers of God, the Immortalist Youth, the immortalist adults, will speak in Spanish in many places to see who cheats, as undercover angels of God and provide video to the Immortality *Nurturing* Agency to fire those employees.☺☺☺ This is to prevent the formation of too many spies inside USA. All citizens can report to reviews.org any business where English is not spoken and the government will fine that business $500 million. The Demon-crats are the big traitors who disintegrate our nation and split the planet into war zones. Re-pub-licans sit and relax as USA disintegrates. In France, En Marche, a political party, wiped out the two major parties in 2017. It's time for the Immortalist Party to wipe out Democrats and Republicans in the elections, win 80% of vote, as Demon-crats cater to foreign spies, while Re-pub-licans to local aristocratic parasites and both ignore the suffering of the American people and the poor.

An issue is that these corrupt parties are so controlled by Big Business, that most Americans don't even vote in the midterm elections, as the 1902-2022 chart shows. In 1789-1902 interest in voting was even lower at times. Once we get a real party for real people, we get 55% of midterm votes and can totally change USA, even the Constitution, the Bill of Rights, etc. You know 50-70%

of people don't even vote in many elections, as they know Big Business owns both parties, so if we get those 50% to vote and a few % of each party, we decide the President and 70% of the Congress, rewrite Constitution. This is possible, since via the Internet forums, emails, groups, chats, phone calls by the motivated We the People contacting all on their contact lists, we can get things done 10 billion times faster. In 1850, it took 3 months to send a letter, today, an email takes 1 billion times less. We can change USA 1 billion times faster than in earlier decades. Nancy Pelosi was busy promoting Catholic Genocidal Scriptures and get ultra rich in Congress, while America has sunk deeply into a 3rd world country status, thanks to her policies. We're one nation and equal opportunity means one language for all, one free education for all, so all get access to English, the language of science, instead of Catholic Spanish brainwashing about cannibalism rituals and fake miracles. The Vatican and Popes led to 20 million people dead during the emancipation of humanity from brainwashing, i.e. during the Reformation of the Church that led to the evil Bible quotes being printed in 50 languages for all to see the pure evil they hid from the people. Before 1500 nobody could understand the Bible, as few knew Latin. Let us not forget☺☺☺ the immense genocides by the Spanish Royals via the Inquisition and the perpetual genocide of the Spanish Latino people's spiritual vibe via bullfighting that spread to USA almost recently, in Florida via bull chasing. Behold the Epitome of Spanish and Latino Culture in 5 videos: bullfight stadium killed 4 Latinos when it collapsed, Latinos get crushed by bulls, see 20 injured, beast like Spanish pushing, shoving, shouting, see the filif and pig IQ of the Spanish savages… who taught Latinos "sports" and "culture". We don't need Spanish or Latino music, it's not eterni. We need immortalist culture, not the daily beatings of kids and wives by Latino macho males taught to be violent, as the Bible/Torah teach (kids, workers, sex slaves) or as the Quran teaches (sex slaves, mutilated infidels, kids, wives). Shame on the Islam, Christianity, Judaism Worlds, promoters of daily beatings of millions of kids. Let the Happy Resounding Aims of The State of Emergency, be clear: lower violent crime a trillion fold by new laws: a parent or Catholic, etc clergy slap or spanking means *death penalty for adults, lifetime labor for minors*. Did you know that between 1990 and 2023, in a mere 33 years, US Hispanic population increased by 42 million from 23 to 65 million, mostly due to Democrat policies of family based and illegal immigration, creating 2 Americas the English one and the Spanish one, the perfect recipe for splitting USA into 2, the ultimate dream of Russia, China. Unless a country has merit based immigration, it collapses, as illegals don't always include the best.

The fight against the Spanish language is also a fight against the Catholic brainwashing of 2 millennia, brainwashing that completely destroys our human intellect and removes all critical thinking, the scientific method thinking, etc. We can convert all Latino Youth to immortalism, for the liberation of Latino countries from the Vatican clutches. The enraged Latino youth will discover how aristocrats used religion to enslave the masses. Out of this anger will arise a New

World of Immortalism and English only (in Central, South and North America) or some other language that humanity agrees to be the only language (so that all wars stop). Humans want one language, they're tired of the wars, so they will either create or choose one language. The Latino youth will likely become the most ardent militant immortalists who make English official in their own nations, for the lifting of the enslaved masses out of ignorance, incredible scientific illiteracy, ☺abysmal IQ☺ and slavery. Latinos will recall how the Royal family of Spain with their Fascist Franco ally, have killed endless people, with the blessing of the Catholic Church supporting White Terror, for simply asking for basic rights of decent housing, decent food, decent healthcare. The Latino youth needs to awaken and liberate Latin America and even Spain, while not making the mistakes of Red Terror guys. There is no need to kill clergy, as the fanatical communists did, we simply outlaw lies (fake miracles presented as facts), since they promote scientific dishonesty, fraud, destruction of the youth intelligence☺☺☺☺, power plant explosions (which can kill 5 million for fusion *plants*) due to everyone trying to cheat (shortcuts, withholding info about what one did) as the priests lie and as the Catholic priests slap babies. ☺

Immortalists are the most pro-spirituality people around, as we explain, anyone can be a 'pastor' teaching all ethics by living example, nice recordings or a website, songs on youtube to show their eterni tone better than 90 to 99.9% of pastors today, since we want democracy, all are connected to God, not just a hollering Jewish rabbi, screaming Buddhist monk, shouting imam, yelling Hindu preacher, howling Christian pastor charging people fees for connecting you with their fictional yelling "God". Immortalists are for free 0 donations churches, since it's all about spirit, immaterial things. Freedom of religion ought to not be freedom to torture and steal from the naive people believing the lies the pastors say. Immortalists are 1 trillion billion times kinder than Stalin, Mao or pseudo communists who didn't understand a real communist never kills any worker. Thus, we simply will provide dishonest clergy with a new job in the 11 companies, to help them practice their kindness via deeds, instead of destroying the intellect of the youth. Immortality Nurturing Agency can ☺☺*lovingly tenderly gently kindly*☺☺ create a "Fining *Religious Thieves* Department", whose aim is to watch for fraudsters who ask people to donate money, 0.000001% or 10% (Mormon fraudsters) of income in exchange for the promise of living a trillion billion years, or eternity, in the afterlife, in some unproven dimension. It's not by accident we call ourselves Immortalists, since we try to fill the vacuum created by the natural realization of the masses that these religions are wishful thinking unproven by any data. Honesty means saying "We hope a soul exists, but we can't prove it. We hope we might experience this *or that if we have a soul, but we can't be sure, as we have no reliable proof, in a scientific sense*" instead of "If you don't believe in our theory of Jesus gives you infinite eternal immortality in our fictional heaven, you go to hell to be tortured forever", a threat, or blackmail of naive folks, to steal their money. *Pure robbery*. First of all, *a belief in anything doesn't make it*

true. Where is the evidence, where is the protection of the critical thinking, discernment, scientific method of testing any hypothesis? It's not there, it can't be, as emperors only wanted ☺puppy IQ workers☺ to subjugate. Crime can't go to 0 with huge fraud going on everywhere, with rampant lies and brainwashing, destruction of intellect, and most of all, empty promises, forcing people to believe in fake miracles via endless fake books the Catholics, etc published to deceive. A country of ☺abysmal IQ folks☺ is easy to conquer. These monasteries, churches, synagogues, mosques are a serious fraud perpetrated by the Saudi, Israeli, Italian *Mafias* on the US. They're *undeclared foreign agents who create a* state *within a* state☺☺☺☺.

Why not aim for immortality in this world first, to prove you can create some organized molecular or particle system able to live to a trillion years in this world? It's one thing to say we help all live longer by better healthcare, education, housing so we eventually one day live in this provable world to 900 or 9 billion, after billions of years, and another to say "in 3 minutes after you die, so within 100 years, you will automatically be rewarded with this trillion finite lifespan with their fictional God". Hold on, how can you prove that? This is fraud and theft: you promise to deliver a product, immortality, within 3 minutes of dying, but don't have any proof it was delivered, so it's really a fine of 9000 times the donations made. No World Peace lasts if fraud is deified, pervasive and rewarded with billions in donations. Likewise, fake miracles sold as fact without stating they may be false and how they can be faked, is fraud to incite people to donate money to you. America's founders were aristocratic parasites who didn't care about people's beliefs as long as power was in their hands or taxes collected from the slaves. So, for them it was all about "freedom of religion" to appeal to the 0 IQ masses, without any ethics and scrutiny of these charlatans and their way of destroying the intellect of the masses, to enable the parasitism of the Freemason elites who made up USA. Thus, we really need to promote honesty to reduce crime, scientific crime too, and we can't have such charlatanism. We want to give people the freedom of religion, but this has nothing to do with donations. Freedom of religion doesn't mean coercing others to pay you, so you build airports/mansions. Religion is kindness and has nothing to do with asking for money. When donations happen it becomes a business, that ought to be treated like we treat fraudsters who claim to deliver a house, but don't deliver it to customers. Pure theft. After all God is not a business, even Jesus overturned the traders' table from the temple, so see even Jesus was against donations. If we allow parasites, liars, conmen and frauds to flourish, without taking action, everyone will become a pathological liar and our society will collapse very rapidly, it already is in shambles. Unless churches can provide unfakable evidence for the miracles and other things and use a nonviolent scripture free from any call to violence, like the positive ***violence free*** Immortalist Anthem, they're terrorist organizations who incite the youth to violence in the name of a fictional God, because they tell the youth that the word of God is all those violent quotes, which is incitation to genocide.

Latinos and the entire planet will all understand that Christianity is a scam religion created covertly (thus the fake martyrdom to make it appear state was against Christianity) by power hungry Roman Italian emperors who needed a cult to unify the empire who had 300 cults and 300 Gods. Islam was another scam, created by others to increase wealth, by copying Christian methods of looting well detailed in the Bible. Mohamed was an aristocrat who rewrote the Bible and added a few myths of the Arab tribes. The exact motives and techniques of aristocratic subjugation of the masses via the secret deals of royals and clergy is explained well in the fake miracles and quotes sections. Islam clergy and royals followed the Christian royals and clergy unholy alliance, to subjugate the masses by destroying their intellect, for maximum theft. 1 God is more efficient, held the empire as one much better for the Italian emperor killing 6000 slaves in 1 day, just like one immortalism philosophy holds the planet united much better, because we all work for the elimination of all violence and killing, so all feel loved. The Immortalist Anthem explains easily that we're allowing freedom of belief, regarding the afterlife, and that we're 1 trillion times more concerned about being 1 trillion times kinder towards all, than with unprovable theories of what happens in the afterlife. The American Revolution was a fight for freedom, against the unholy alliance of British aristocrats and the Anglican church of brainwashing, intellect destruction and British burning down of Washington DC on August 24th 1814. While Americans are homeless, after burning Washington DC, blowing by gun endless people, mutilating, beating till blood comes out and executing the poor working class, the British royals (who brag about killing 25 Afghans in a memoir) and the aristocratic families live like kings in our country. They don't pass any Immortality immigrant test, they simply run America covertly, being MI6 spies. Immortalism is the continuation of the American revolution, to free the planet from violent religions, parasitic royal families and aristocratic classes, violent regimes, fake regimes created by aristocrats to suck the blood (via religion too) out of the workers. Are the British Royals British, or Italians or Jews? Who do they serve? Israel via Anglicanism. UK, Australia, Canada need to awaken from the sleep, end the Monarchy, Declare Immortalism.

In the emerging immortalist USA, the law will say that kids and parents whose accent and tone, is not within the standard range and eterni quality are asked to enroll in an eterni tone English class, or lose resident/citizen status. This is the end of terrorism by various foreign spies, who for 80 years, have tried to disintegrate USA, Canada, Australia, NZ, UK into various nations. Australia has very few choices, when it comes to many supplements, type same thing on Amazon.com and Amazon.com.au (or other Aussie websites) or Amazon.ca (or other Canadian sites), etc and you get 7-50 times fewer choices (search results are 20 times fewer for many vitamins). It's a disadvantage of small nations and separation, the destruction (divide and conquer) of Australia, USA, Canada, NZ, UK as we know them by a *Jewish-German-Italian-French-Chinese-Indian-Spanish spy filled government* who promotes 50 languages versus one

USA-Australia-Canada-UK-Ireland-NZ nation with one accent/language, one central education for all residents and citizens who have to pass the Immortality test to gain residency and confirm citizenship. On the other hand, small nations, like Aussie folks, can create good labels or changes that big nations, like USA, can learn from. Aussie people label foods with % made locally, unlike the USA, where profits are more important. This % info is useful, as some nations have very polluted soils, meaning some tea can have 5000 times more lead. The education is free for all, parents play 5 hr prerecorded basic videos in speech, ethics, science, all premade for each day of life at education.gov, so all babies, toddlers listen to eterni tone, the most amazing & beautiful ☺☺☺ educational videos on a huge TV screen, of 900 times higher quality than tired parents and parents only have to speak little, so all kids speak the same way, understand all kids well, create one unitary world of peace as that of Immortality planetary one language civilization, one law, not 100000 versions of it per each city "royal or aristocratic clan". This creates babies with IQ 300 eventually, as everyone gets stuff of IQ 300, instead of the "garbage coming out of the parental mouth and filif frog IQ☺☺☺ brain". This removes a huge burden from parents, makes raising kids easier so we don't need to import low IQ immigrant kids from nations with 200 times the homicide rate, so parents get some rest (very important to be able to speak nicely), can create healthier meals and improve their speech tone dramatically, when they do speak for stuff the videos can't say about family, neighbors, etc. The education.gov content is created by the smartest. Let one law/education curriculum resound with the Ethics of the Immoralist Anthem, one accent/language for all, from Sydney to Dublin, from London to Los Angeles, from Vancouver to Wellington. I "like" it how Germany split Yugoslavia in 8 nations, split US in 70 languages, Australia-Canada too, but we don't hear 25 languages in Germany, there certainly are 25 minorities speaking various languages knowing them. Is that not a double game of Nazism? ☺

Are Americans *so* incredibly ☺abysmal IQ☺ to allow Jews to stab American penises and make that a national health priority, circumcision? Are Americans *so* incredibly ☺abysmal IQ☺ to allow the Jewish "religion" based on fake miracles, fraud to rule the national politics when the Bible has 1400 violent genocide mass rape quotes? Are Americans *so* incredibly ☺abysmal IQ☺ to forget the Jewish rituals filled Freemasonry and how Jewish Freemasons and Jews tried to ban English and make Hebrew as USA's official language in 1780s? *Why do you think Jews in California, Australia, Canada, etc all want government services in many languages*? Why is Freemasonry promoting Judaism, the Bible and violent rituals? They're Jewish spies of course. The Jews want to reduce English to 0 and then make Hebrew the Main USA *Language*. Given the fact they own many of the 4500 banks in USA, it makes it easier to destroy USA. Any decent person can make a 3-10 page scripture better than the Bible, even the Immortalist Anthem is better than the Bible crap. How have Americans allowed foreign spy controlled criminal governments of California, Australia, etc to provide government services in so many languages?

Are the UK Royals simply traitors of Ashkenazi Jewish or German origin? Lots of Germans in the royals. Do Americans, Canadians, Australians, Britons realize their nations are being dismantled as we speak? The spies did that for decades. Why can't these people use the Eternia model of rotating capitals? EU has a rotating presidency. We need fewer languages. How can the 20 East EU nations help boost world science by switching to English, the science & longevity science language, if the USA, Canada, Australia, NZ, UK can't even get their 100000 law versions unified, their 5 accents unified, their states unified, their polarized politics unified? You know, all issues in USA, you find in all the other mostly English speaking nations. While some nations use English in government or education, they're not mostly English speaking, meaning English is not the native and main tongue of 80% of natives. All schools, business, cities, states become federal government entities and only English is allowed in city halls, businesses, places of worship, schools. All 10000+ state, city governments end, one national law takes effect, all businesses are forbidden from saying bilingual preferred in resume and job postings. We have World Peace via one language and that is the goal. The end of Jewish religious terrorism, of Bible mass child rape, of Bible genocide, Bible holocaust, Quran rape (Quran is Talmud sex, Bible recycled + add-ons).

The Immortalist Party administration will pass a law making English as the only official language and will rename all cities in USA to English names that correspond to the ideals of immortalism, science of immortality, the character traits of immortalist ethics, like some qualities presented in the Immortalist Anthem. All non English companies will be renamed too, all street names, all military bases, everything, and all products will have labels in English only, even imports. All allowed within USA will speak English well, and also renounce the violent ideas of the violent cults of Islam, Christianity, Judaism (beatings deified in the Bible/Torah (kids, workers, sex slaves) or Quran (sex slaves, mutilated infidels, kids, wives), since violence against children, spouses is a cannibalistic gorilla action that has no place in education or domestic life and these psychopathic violent religions encourage the daily beatings of kids and spouses. The glorification of such "religions" is an affront to human dignity, civilization itself and as such, the covering of head with hijab, burka, etc makes no sense, since that hides spies and terrorists from AI cameras and allow spies to commit crimes undetected, guys to pose as ladies to do dead drops of spy info cashes, etc. These covering of head also prevent people and cameras from identifying guys who wear wigs and fake boobs who may commit crimes, even if face is not covered, since the head scarf is blocking the ability of AI camera to see if a wig is worn or not. As such, on the grounds of national security and of the elimination of violent cults that lead to violence in the home, domestic violence and world violence, the Immortalists will *ban nationwide headscarves to reduce violent crime a* trillion fold *as explained* in the national state of emergency, that runs for however many decades it takes to bring violent crime to 0. If it is very cold, of course, people can wear some head beanie or very thick hat, etc, but not religious stuff to hide one's wig and the

fact one is a guy or lady of a different hair color. Anyone who immigrates to an immortalist state will renounce the habit of wearing special Islamist clothing and state Islam, Judaism, Christianity are violent cults, as the 3000 quotes of the ethics.gov explain. Under the betrayal of ethics by the Demon-crats and Re-pub-licans who only chase donations from billionaires, USA has become a garbage bin where every violent cult can claim tax exemption and start promoting violent texts that are contradicting any ethics. No entity basing themselves on Bible and Quran, Book of Mormon, Mahabharata, full of violence and hate, calls to genocide, rape and theft, can receive tax exempt status in any civilized nation. USA is becoming a semi-Islamist nation where besides the fraudulent Christian miracles pastors, now we get the fraudulent imams. Instead of allowing only high IQ intelligent people in this nation, we allow all religious nutcases who have no intelligence to realize they're based on pure fraud, as explained in the fake miracles section. Any intelligent government only allows immigrants who have renounced any violent religion, like Islam, Christianity, Judaism, Mahabharata and animal sacrifice Vedas based Hinduism cults (Hinduism is 100 religions really, some are peaceful). It's inconceivable that Demon-crats allow everyone in to create a hotchpotch of abysmal IQ. The Muslims want to convert us all, 200000 of them gathered around Washington DC. That is why immortalists aim to wipe out Re-pub-licans and Demon-crats in the elections and change USA forever, like Macron's party wiped out the old 2 parties. Likewise, Freemasonry with its violent imagery rituals will be outlawed, as it contradicts the ethics of any civilization, the ethics of nonviolence, of the Immortalist Anthem. Immortalists welcome people with functional brains, logical thinking, nonviolent ethics, who actually read the scriptures they profess to believe in. No freedom exists when violence exists against miseducated, misinformed kids who never heard eterni tone from clergy or parents due to the lack of the centralist eterni tone free universal education. Sadly, most Christians, Jews, Muslims are being misled by the clergy who carefully hide all the bad quotes from the naive folks. Most people read only 1% of their scripture. ☺☺☺☺☺☺☺

Eternal Universal Peace in 3 months is more important than 7000 languages we got: the fewer the languages, the longer lasting the peace of course. The world is ruled by generals who puppeteer all the fake "elected" civilian governments (fake elections), so it's got to embrace gentle tender *soft healing graceful nurturing* universal loving kindness, which may take a while, due to fear. Honesty is rare now. The generals torture the hell out of all who don't toe their line, don't obey their war commands, they make Hitler look like a "mellow gentle guy"... This is a violation of all human rights, it's pure extermination, slow killing, they got 100s of thousands of experts at making robots out of anyone thru torture, sleep deprivation, etc. Once people realize they're stronger than 800 generals, Peace arises. They form a unified field with their robotic subordinates who execute their genocidal songs of eternal terror of the human species: the monsters strangulate the entire human race and imprison it forever, if we don't wake up and

realize there is a way out: the simple breathing that transforms their hate field into a field of gentle tender *soft healing graceful nurturing* universal loving kindness. Think of it like the most violent and mentally ill of the human species rule the planet, so if you were on such a planet, what would you do, with what compassion would you treat such insane folks? Their unified field can be transformed, it's pure engineering, they're all vibrating the same psychopathic way, they love to torture, to kill, they need to discover alternatives. Until then, all are slaves, of the military top folks, the entire planet is their slave colony, we're the cannon fodder, disposable guinea pigs.☺ The so called "civilians" are sometimes military guys, who have been training for decades. Wonder why no border wall? India, Russia, Brazil, Mexico, Israel, Italy, many nations can send in 1000s of spies disguised as Mexicans, Central/South Americans, since they look alike. China can send folks who say they're Uzbeks, Kazakhs, Viets, Japanese, Koreans. This catch and release wastes trillions that we could spend in research, innovation for 8 billion humans. ☺☺☺

Thus, we could fine any formerly illegal migrant $1,000 (paid by relatives or fund raisers online) if they want to avoid deportation for violently entering the United States of Eternia. The entrance is violent because it was done with the aid of the gangs that killed millions of Americans in the last 80 years, via lifespan years lost by all who used drugs. Anyone has to pass the English proficiency test (TOEFL test score at least 650) to remain, and the immortalist Test for Green Card. The H1B visa fee is $100,000 for 6 years, so for 60 years, $1,000 is a very small fine (100 times smaller) for aiding genocide, some would say "far too small". They proposed a $ 70,000 fee for OPT optional work training by F1 visa students, shut down many companies, universities scam visa programs used by managers to hire people of their own ethnicity and fire the rest. The skeptics would say fine needs to be $800,000, but the reality is the real gangsters are the military (who controls the civilian gov in each nation) who allowed the millions of slaves and gangsters inside, to have cheap slaves, so it wasn't all the fault of Hispanics, it was mostly the US who brought them in as serfs, since the US army could have sealed border 100% even 80 years ago and much of gang activity was co-created by US who supplied guns, ideas, infernal Hollywood movies polluting the planetary mind with the most diabolical ideas pervading gangs now since the first 7 movies, etc. They need to pay 1000$/week to cover expenses of being held in USA in a tent, minimum, the rest within 4 months, if they don't have 1K to pay within a month, gov offers loans of 2 years zero interest. They need to fine $2 billion the military gangsters (most are dead/retired though) who allowed no border for 80 years by controlling the fake parties. The military aristocrats would have needed no migrants with efficiency as shown in this & the 11 companies chapter.

Any illegal is aided by the genocidal cartels who murder millions yearly and, thus any illegal and descendant of initially illegal who got birthright citizenship or amnesty by bribed politicians, is technically prone to deportation, as parents or grandparents are guilty of Assisting GENOCIDE OF

HALF A BILLION VIA PAYING CARTELS TO CROSS the BORDER, by shrinking lifespan of 1 BILLION by 10 years, i.e. killing the equivalent of 500 million 60 year olds each losing 20 years of their 80 year lifespan. THIS 500 million HOLOCAUST, 83 times bigger than the 1940s Nazi one, led by Venezuela, Colombia (cocaine), Bolivia (cocaine), Mexico, parts of Latin America, Russia (support of cartels, RT disinfo to destabilize the US), China via precursors of fentanyl, Afghanistan (heroin from opium) and other products far exceeds the Nazi 1940-4 Holocaust of Jews by Germans. This Holocaust is co-managed by various Sephardi Latino Jewish Mafia conglomerates that control (Jews who pretend to be Latinos) part of this international Daily Holocaust against gentiles, in full harmony with the Jewish Torah (Bible) Deu 7:1-16 calling for the Genocide of all nations (via drugs, gambling, casinos, alcohol, smoking, weed, pet ownership so no more kids, bad music) that Jews believe 'God gave to them'. With the 1K + higher taxes on the richest 10% (70% tax), richest 3% 80% tax, especially richest 1% 95% tax, 0.1% 98% tax, by now, USA would have paid its 2026 40 trillion national debt 40 years ago. Let's face it, the rich got rich by destroying USA completely last 60+ years (see how), since JFK 'mass murderer' (who was shot) proposed tax rate for his fellow aristocrats drop from 95% to 65% to Congress in 1963 and worker pay went from 20x less than CEO to 389x less in 2021. This was JFK covert genocide via food, gambling, alcohol, smoking, etc, tax policies: British Tobacco, British Phillip Morris made trillions by killing millions. When the middle class vanishes nations and empires always collapse. United in the kind gentle grace of the Immortalist Anthem, Americans unite to bring the 11 companies. ☺☺☺☺☺☺☺

Since migrants brought millions of drug dealers too (with the help of rich aristocratic gangsters who allowed open borders to bring in cheap labor, as they control both fake parties that serve the aristocrats only) and destroyed 40 million US citizens whose IQ is 40 points lower due to drugs, we need to retroactively request all 60 million initially illegal migrants from last 80 years, pay $1,000 to remain in the USA, or else, be deported, unless they pass Immortality Test for PhD 3rd year graduation and higher security clearance (takes 3-10 years for busy people to study, so need apply from outside USA), since IQ 150 means nothing, as anyone who takes 5000 practice IQ tests will score 50 points higher, even if as dumb as 100 IQ guys, and IQ only measures 5% of intelligence needed to create a world of 0 violent crime and 90000 year lifespans for all, while IS (Immortality Score) is far more predictive. Imagine if some conservative would require all to pass English and the Immortality Test for new migrants for all 60 million, it would be tough, few would pass, maybe 0.1 million at the most. 1000 fine is a symbol to remind all to choose nonviolence and work towards the world of Immortality *for* All. Some would complain about 1K fine, but what if all 60 million are deported? Surely 1K to help buy cameras is like nothing. Everyone complains about violent crime but nobody does anything to bring it to zero. The important thing for Latinos is to watch how Latino cocaine and drugs kill millions of Americans and cause billions a year in police and medical teams expenses due to fatal and nonfatal

overdoses. Who will pay USA for the 200 billion in such expenses in recent decades?☺☺☺ They created, financed and sustained, the ecosystem of mass illegal migration and MURDER OF 500 MILLION PEOPLE EQUIVALENT. 60 million × 1,000 = $60 billion, enough to help mass produce some of the 1 trillion cameras USA needs to install on every house, utility pole, traffic light, tree near the Canada-Mexico border, all US Coasts where Latino gangs are active, especially within 300 miles of border areas of all near oceans or border states, etc to eliminate all violent crime and theft. Good citizens would not be upset, but glad to selflessly contribute $60 billion to zero crime worldwide and Eternal World Peace since every 4 years the 60 million Hispanics throw in the garbage 1 trillion on vanity like the rest of the "60 million groups of the country". Half of USA *used drugs, many being addicts due* to the Latino gangs, millions became homeless for 3-12 months last 40 years, leading to millions of divorces, angry kids, violent kids, low school grades, due to Latino gangs. Originally illegal folks with assets will have to sell house fast, to pay it, etc, to feel the 'joy' of 33 million companies,☺ being a renter of capitalism, living in cars like the homeless drug addicts (40% of homeless in USA are White, 35% Black, 25% Latinos) destroyed by Latino illegals who aided the cartels consciously or unconsciously, unless they can downsize and buy a smaller home. Only when one experiences the "JOY of capitalism" (homelessness) is one willing to change it into 11 companies system of fairness for all, not just Latinos. The Latino liberation, emancipation starts with fixing the USA they severely damaged with drugs, due to believing all Latinos are Latinos, when they're often times Jews, Russians, and 50+ other groups. The immortalist breathing from the comfort of one's home brings in happiness☺☺ for all, better than all wine, drugs, vape, pet play, poker, gambling. We train 3 million dogs to sniff every letter, car, package, person in ships, ports, border points. No drugs, alcohol or cigs, vape products shall enter or be made in USA, anyone caught selling those lethal poisons gets lifetime labor, or, if doing it again in "labor camp" he's dead. Equal job chances via equal brain states.☺

The US-Mexico border had in 2022 *350 million* crossings a year, the busiest border in the entire world. To understand how useless the wall is now, watch this 2 minute wall climb, *without electric fence on top,* border wall is useless, especially *without AI lasers to disable the people's* ability to move or kill them once they're on US side. Every 10 wall pillars, we need 1 billion AI guns to shoot dead anyone who cuts the wall, like these guys are cutting the wall in this video. The US-Mexico border is 1954 miles, less than the 5525 mile US-Canada border and it only has about 300 miles of really tall, 30 ft, wall, and even that one any spy or gangster can jump over with a ladder and then a plastic pole to slide over slowly as a guy holds the pole at the top as he leans on the ladder. This "wall" Trump put is *totally* useless since Trump is all about talk and no action, as *his useless rallies prove what is the use of shouting at rallies and wasting resources for these gatherings when the border is all insecure?* Do it via youtube and protect USA in action, not shouts? ☺☺Organize 100 border rallies if you want rallies, let all come volunteer at the

border?☺ *Solar panels are 500 times cheaper than in 1980, so it's time to electrify all border fence?* ☺A real border wall, for the Mexico border first, 2000 miles, needs to have cameras every 3 meters horizontally and vertically, to detect tunnel boring,☺☺ and have electrical fence too on top, vibration sensors: *500 billion motion sensing cameras* that make "Immortality *for* All song sound to indicate they were detected" and turns light on to record (if dark), sensing motion and humans from 30 ft away to start the speaker at 2 ft away, 30 ft tall, *10 billion* solar *panels for the* electrical *fence on top and* speakers*, gadgets, 10 billion speakers to tell them to stop climbing as AI detects* the crossing, 100000 drones and 5 billion devices to take action against those who try to cross (recall that not everyone will listen to speaker), such as following them discreetly,☺ using a bee size drone dispatched from the container of 1000 bees, plus 100000 robots 100 ft behind the walls able to shoot and immobilize (they can't walk due to leg pain maybe for 2 days until officers come; then they're instantly arrested without trial (same for any violent crime by citizens or permanent residents, if video proven to not be faked and clearly one guy attacked without smaller attack from the other) and gently blessed with 700 year labor picking up produce and building water canals, (only 35 hours a week, living in a healing center, much nicer than any US prison) etc, to pay for the border expense indirectly and avoid loss of human life: Immortality *for* All, paying for all 50 million Americans killed early by cartels last 5 decades early due to drug use, amounting to 1 million killed at age 30) anyone who lands from the wall on the ground, if the remote officer alerted on the intrusion gives OK or without OK in less populated areas like they got on South Korea border. Likewise, any proven act of real violence (rape included, etc) for regular people (not just immigrants) ought to get some lifetime labor sentence to deter people from any violence, AFTER removing all violent scenes from the Internet, movies, music, literature, scriptures, etc. ☺☺☺☺☺☺☺

It is essential for an immortalist state to realize that ethics is impossible to develop if one is dependent on other nations. If one imports products from other nations, one allows containers in which enemy states can introduce endless poisons, drugs, weapons, devices, lasers, etc that will be used by spies within the nation to destroy the immortalist nation or federation like the United States of Europe one day. Thus, the first need of an immortalist nation is the cessation of all imports, the start of self-sufficiency, so all mail is sniffed by dogs and drones to make sure no drugs come inside the nation. The nation needs a quantum style weapon around the borders, if an island for 200 miles of economic zone, to be able to disable any foreign ship (create a ring pass not that no human can enter) or smuggling gang who is trying to insert spies, so as to forbid all ships and airplanes from entering national space, except thru a train if landlocked or ship if island, in the tiny hole of the force field that goes 200 miles above and around the island or nation. If landlocked, around its border for 1 mile thickness only (not 200), on one's own land, to prevent that attack by bipedal tigers calling themselves human, whose only aim is to sabotage

Immortality *for* All, the Holy Ideal of Immortalist Anthem and the disciples of immortalism. You know, many spy agencies, militaries turn people into wild tigers, this is a scientific fact. It's not poetry. Max security can mean all airplanes can land in a tiny airport on the border of the nation, all international flights, that is outside the force field area, if a nation wants to allow airplanes, due to being landlocked. Other nations, with water around, can make a small hole in the 200 mile ring pass not to allow a floating airport on an artificial island, so that then the people landing can be transported via a local airplane approved by the immortalist nation, its own aircraft, to avoid allowing foreign aircraft inside the bubble. One good country can totally change the world and bring World Peace in minutes. If you have a genius baby of IQ 190, you don't go to the jungle and bring a wild tiger, as that savage tiger will immediately eat the baby and destroy the work of 10 years of bringing that baby in the world and preparing for that. Likewise, you don't allow bipedal tigers to come into your nation, to destroy its Immortality *for* All vibe of gentle tender *soft healing graceful happy* compassionate *nurturing* universal loving kindness. You first bring them to that vibe of immortalism, by having them first pass the Immortality Test, that takes 3-10 years of study of ethics and science, and the tone of speech test, the MRI tests, the other tests, you want only HUMANS to enter, those who deserve to be called HUMANS, who're true believers in gentle tender *soft healing graceful nurturing* universal loving kindness, and whose only Purpose in Life is the manifestation of Physical Immortality *for* All, Heaven on Earth, Eternal Youth for All, so evident in the One Language ImmortalityTV vibe of the young gentle speakers, who're symbols of Eternal Youth. The immortalist nation will also want all adult residents to pass the Immortality Test that college students or 12th graders at least have to pass, by studying English and ethics, science for years. This means for USA they got to pass English first, which is 10 times easier to pass (TOEFL level English score 650). Latvia requires all citizens know the official Latvian language. USA will need require the same for all residents (English). Check out how in one area of Canada-USA border, 1065 arrests were made in Sep 2021-Aug 2022 and 19385 in Sep 2023-Aug 2024. ☺☺☺☺☺☺☺

Those who incite the masses via movies, music etc can't be free to continue, all media must be free from violence first before giving lifetime labor sentences, since this would amount to genocide by the hyenas who incite. We need give "content" creators new jobs, since nicer vibe people exist to create real content. Why can't USA become world's first civilized nation where violence is illegal on all media? World Peace won't last if any violent crime exists, so happy lifetime labor in a 'heavenly city' would be a good and much needed deterrent. Obviously, *only the most high tech wall can prevent spies and expert engineers who're hired by Russia, China, Iran, India, Arabs, Brazil,* etc to cross. A fence so high tech, it would be like a spacecraft versus a chariot when compared to anything else in existence today, which is nothing but a joke. 0.6 million illegals are from India per many websites, so those can be India spies too sometimes. Did

you know that in 2023 Pakistan gave millions of illegals 1 month to go back to Afghan and other areas or be deported and that "Businesses and properties of "illegal *aliens* will be confiscated, and *illegal* business operators and their facilitators will be prosecuted" in the crackdown, Bugti said"? What about USA? According the Center for Migration Studies, in 2022, 1.73 million illegal immigrants in United States come from Asia: ☺☺☺☺☺☺☺

#1 ► 607000 from India ►►► listen to Yoga (Divine Union) scripture Krishna Gita like youtube "songs of "bloodshed" for fellow members of the human quantum field, not letting Muslims pray, calling for bulldozing houses, forcing pastors to eat cow feces, worship Hanuman monkey-human 'god', beat them until they can't hear well, setting Muslim villages on fire, eating corpses, piercing themselves until bleeding, demolishing buildings, calls of genocide of Muslims, calls to invade Mecca, daily beatings, cremate people in open air, polluting air with germs and toxic fumes, defecate on beaches in India☺☺☺ and even Canada, defecate near the fence of Canadians,☺☺☺ throw cow poop at each other in a 'fun' sport played in India only, 300 churches destroyed. Instead of calmly, in eterni tone, explain the illogical quotes of Bible, Quran, the fraud the religions are based on, they're just falling into the British trap of Muslim-Hindu war that enslave India for the Brits. Why not create a unifying irreligious immortalist science common ethos, instead of conflict? The UK strategy of Muslim-Hindu war damages the human quantum field, undermines World Peace. India needs to wake up, like all other nations too and realize the extreme violence in Bible, Torah, Quran, Mahabharata makes them unfit for the name of scripture and nations can create a nicer, positive words only 5-30 page 'scripture', more similar to Immortalist Anthem. Why all this violence against Muslims, etc when it can be as simple as "we ban all violence in movies, music, scripture, literature", so then *no Bible and Quran, Mahabharata etc can be published*, *no status of religion to anything based on violent text, as Christianity, Judaism, Islam, some Hindu sects are like terror groups.* India got 20 other peaceful scriptures, besides the bad Mahabharata. Sadly, hundreds die in religious stampedes or in religious useless rituals that drown dozens. Sadly, the vampires still rule in many nations, where instead of healthcare and immortalist preventive healthcare centers, they build useless temples, churches, mosques that fuel more violence with their filif comical☺ rituals only deepen the slavery of Indians. Instead of taking care of reporting violent crime (politician raped 3000 women), they focus on rituals. Let all get a decent house (their temple), to rest, live long, instead of wasting materials for temples. Indian guy in Australia charges people $67000 for fake "black magic spell removal". Indian tries to scam an old lady, tells her on the phone his 2 friends (illegals) come to pick up 5 gold bars they're caught. Indian called a guy that he owes a fine, by impersonating a US Marshall, then got arrested. Fake universities in Australia give visas to 700K Indians who become illegal migrants after "college". On Queen St alone in Melbourne, there are 70 "private colleges" alone. These illegals then become 50% of many areas of Sydney or other

big cities, with Hindu temples, violent scriptures, no English, etc. Soon *Australia will speak Hindi only* at the current rate of "integration". USA Indians pay corrupt police chiefs to fabricate police reports, so Indians *get green card via U visa*. That's why we need dissolve all states, and local governments and create 1 police department and one educational system. No more fraud and "wanna be cops" like in NYC. Check out mass killings alleged in a holy temple of India, the power of religion to make all as 'smart' as a cow. Behold Indian street food with rat odor, rats carry endless diseases, like rich rats stink of greed. ☺☺Mahatma Gandhi☺☺ slept at age 77 with teen girls 50 years younger than him, see video2. ☺ UK Indian asylum waiting men try to have sex with little girls. India flew illegal migrants to ports, then India's Navy shipped them off the coast of native country a little before dawn, then "gave them life jackets and ordered them to jump in the sea" to swim to the origin nation's coast. *Why isn't the US doing the exact same thing with nations refusing to take migrants back or migrants refusing to go home on their own without US spending trillions to arrest/deport*? Avoid visiting India, since it's bad, watch video to see why. Before British India unified 50 kingdoms, *each royal family had their own* secret police and torture system. Check out the real India you never hear about in the "yoga" filled media. See the beautiful air quality of New Delhi, India's capital, with India being the spiritual guru of mankind. However, India is rising in IQ, so kindness replaces ritual, as they help the CHT people who were 97% Non-Muslim to regain their freedom after genocides caused Muslims to rise to 50%. Indian illegal stole $15 million from elderly people in Florida. ☺☺☺☺☺☺☺

Indians fly to Canada on student visa at 250 Canada colleges by the tens of thousands and then they don't attend college, then sneak into USA via the border. Canada knows it, as they gave visa free to Mexicans for a few years, allowing all cartels to setup shop in Canada. Students pay *cartels to get them out of* India to USA even *100,000*$/person, so why don't we ask all illegal Indians to pay *100,000* to remain in USA? *Isn't it odd* how in Saudi Arabia, Islam is the only allowed religion, and yet we in all other nations have no freedom to ban violent religions and *allow* Immortality *for* All *as the only ethics*? For eons we had these "Kill/Torture Millions" "religions", what about some evolution to "*Kill None, Torture None, Injure None*"? Will the yelling Jewish rabbis or Jewish Christian pastors allow it? Are we so low IQ☺ to be enslaved by these conmen? Perhaps, the Americas, Asia, Africa, Europe will finally wake up and declare their independence from religions of torture and genocide. In USA, they (just like Africans sometimes) give you hotel rooms that are smoke filled (huge gaps under doors and around all sides allow the smoke of the hotel entrance to enter the room, or common ventilation, or simply pretending a smoking room is nonsmoking) which are presented as smoke free, but are essentially the most toxic room with 2nd hand smoke killing nonsmokers slowly. They lie on the phone that they have nonsmoking rooms, but are filled with smoke, to get you to reserve it and then you can't cancel, they don't allow it. As hosts, see Ctrl+F AirBnB. This is due to US policies on smoking in

hotels too, the point is they lie as much as all others. The Pakistanis do similar things and sometimes employ more unique torture methods. Note that many (not all, this is true for all nationalities) illegals will gladly exterminate all non-Indians, when given the command, they can all attack head, temples, heart, knees, anything, just like the torture section explains. Most opium British used to poison China in the 1830s and beyond was grown in India, as Brits gave incentives to Indians to replace other crops with opium poison to weaken China. So, the genocide of Brits against China was assisted by Indians, who didn't find this genocide immoral. This genocide was facilitated also by the Sassoon Jewish 'Rothschilds' of the East, the Chosen Race who plays victim while being Perpetrator/destroyer of 4 billion people today, brainwashed, chained by the Jewish Bible/Quran. This is why China hates Israel/India too, besides UK, USA. Granted, the Indians now take their revenge on the American Brits by scamming them.

Dark skin Indians, South Americans, Arabs, Black Jews, Filipino, Pacific Islanders, Pakistanis, Bangladeshi, Nepalese, Sri Lankans can pretend they're USA *blacks*, since it is easy to do so due to a similar skin color. This allows them to blend in, hide the Hindu or Islam religion, be a better spy. Many Muslim/Hindu terrorists use this technique. It's good for Indians to review these 2 videos and avoid such behaviors, in order to improve their national image: video 1 Canada and video 2 made by South Indian. Check out Indians producing opioids to poison African youth, see more in the 40 min documentary. *Could* India *flood all continents with such opioids*? Isn't *that* genocide? You thought India is the Land of Ahimsa (nonviolence), universal Love, Yoga, Meditation? Check out India's smell and garbage issue and the incredible dirt in every poorer area of Mumbai. See the 1 million people in 1 square mile Indian paradise that 90 million Hindus don't care at all about, in their Kumbh Mela 0 kindness 0 IQ religious festival of bathing in the filthiest urine feces filled river, instead of helping their fellow citizens to live in a decent place instead of 10 people in 1 room. Gently watch how the 0 IQ Indian government spent $0.8 billion (much stolen by corrupt officials) in 2025 for the lowest IQ filthiest festival: everyone puts on their faces the *filthy* water where others urinate or leave large amounts of feces from their underwear. Isn't about time for India to move from the cave men age to the age of decent housing for all? Medicines from India are 54% more likely to cause adverse effects versus the made in USA brands, due to *dirty* labs, poor QA. We in the West think we're so much smarter, but we're almost as low IQ: we have these holy water trays in churches, where filthy hands go in to get some water, leading to the filthiest germ spreading on everyone's face from the feces and urine traces on others' hands. Not to mention, communion wine is consumed from the same container, leading to more disease spreading. Russian abysmal IQ is evident, their religion is bathing in icy water, which shortens lifespan too, living 13 years less than Japan on average.

Militaries, spy agencies can send 900000 illegals trained as soldiers, spies, with the mission of stage 1: *injure covertly* (turn into a useless veggie) *all deem a real, imagined or potential*

hindrance to enslaving a given nation (not necessarily the one they immigrate to, but others too or others mainly), the goal being total extermination of anyone of any IQ to enable *a given nation* takeover. Stage 2: extermination of remaining locals of lower IQ. See the "serene" Mahabharata, "peaceful" Gita (part of Mahabharata). A 2nd or 3rd generation immigrant can do exactly the same, if so recruited, and it's easier to attack and destroy those who look different, since people have an innate genetic resistance to doing so on their own people. So, when trying to destroy anyone, CIA (& other spy agencies) uses other ethnic groups to do it, to better frame it, hide their tracks, pin the blame on PLA, KGB, RAW, MI6. It's all about theft, under the guise of "protecting human rights". Watch a 22 minute on India call center scam teams that make 1 million a month off gullible folks in 200 nations. Indian wasted $0.6 billion on a wedding, while 85000/decade commit suicide over 600$ debt. The 0.6 billion wedding could have prevented 1 million suicides/century, via a fund to cancel debt till 2150. Why is India so steeped in aristocratic low IQ and 600 languages, instead of one? Check out riots where asylum seekers from India are attacking guards and causing serious bleeding injuries. The asylum seekers, most of them got more money than Australians. They're obviously fake rich people who're given money by India's military or other militaries. Check out India's activities in Australia. They send spies on student visas, who then quit the university to get a job and do military activities of hybrid warfare. Youtube has many videos of cross border (airport, containers, etc) shipments of tasers, torture weapons, knives, guns, etc to foreign born citizens in various countries, that are disguised as much as possible, like tasers looking like a cell phone, etc, in order to engage in jihad or holy Hindu war against the unsuspecting nation, using these devices to attack locals and install a puppet government. It's a method used by other groups and all nations need to be aware of what is going on. The nation states hide tobacco very well for hybrid warfare against a nation's lungs, and so can they hide even 9000 torture devices and various stun guns for their paramilitary units. Watch Muslim lady having her tourist visa canceled due to attempting to work on a farm (cover for spying maybe, sleeper spy agent). ☺☺☺☺☺☺☺

Kindly read an article about an American lady living in India, who was allegedly chained to a tree for 40 days to starve to death by her Indian husband. The video of the lady is here. Even if she placed herself there, some spy agency gave her the idea, after a lot of torture and Nazi like experiments. Please welcome all Indians to USA with open arms, illegal, legal ones, without doing any Immortality Test?☺☺☺ When we go live overseas, we don't get the same freedom we offer Saudis, Muslim Indians, Jews in USA. Saudis allow no churches, only Islam. Why would we allow Islam, Torah, Bible violence in USA? Why are we so lax?☺☺☺ These are not American ideas, they all come from *Israel*, Quran is a recycled Bible with a few add-ons. Anyone who has studied in depth the 95+ pages of horrific Jesus, Moses, Mohamed, etc quotes will wonder how it became possible for these military intelligence created "prophets" who advocate for genocide,

mutilation (Jesus too: cut hands, pluck eyes out), mass rape, looting, beatings [Bible/Torah (kids, workers, sex slaves) Quran (sex slaves, mutilated infidels, kids, wives)] to fool 4 billion people and get the status of religion, draining 200 nations of tax revenue that could be used to promote kindness, living to 90000000. Why not move to the 21st century and realize we can replace these chimp vibe scriptures with ethics.gov, a nice website with nonviolent, positive ethics poems, mp3s the American people send, to educate the spirit of our democracy, where all folks try to be a 'pastor', teaching kindness by living example? Kids can simply socialize at the 100000 Immortality for All Free Day Care and Youth Centers. The more you read the bad quotes, the more you realize, at the minimum, we need to require all to study them and then to agree on the Immigrant Immortality Test question that these religions were made up by ultra violent people, savages, whose ethics and beliefs are irrelevant in today's world, as they're cruel, full of 100s of violent crimes, incitation to rape, violence, war, the very anti-thesis of Immortalist Anthem. Question: "Do you agree that it is a criminal genocidal act to publish and promote the Bible, Quran and Torah?" Yes, or no. "Please read the next 20 quotes from Bible (Torah section, the holy book of Judaism) and 20 from Quran: please write a 1 page opinion of these 3 cults of rape, genocidal violence, mutilation and looting. What ethics can replace the void created by the eradication of these species destroying cults?" In hotels where Indians are at the front office (common, 60% of low end hotels in USA are owned by Indians), they often use various invisible lasers, etc to attack those there, from the main office. This is their way to say Thank You for being allowed to settle in the USA. Plus, 60% of hotels in USA (the cheaper trash) are owned by Indians from India, who don't have any anti-smoking, anti-mold, anti-horrible smells policies (hence most stink so bad, of smoke even in nonsmoking rooms and sicken the local Americans), thanks to a *government* of *clowns* that regulates nothing except the giving of free money to insurance companies to stab people's penis so they're circumcised, in an act of flagrant violent crime, or better said, genocide in the name of "religion". This is a national security risk, since these guys can install torture devices and literally mind control people. Motel 6, the stinkiest, dirtiest of all US brands, was bought by an Indian company. I went to some cities and most cheaper hotels have Indian staff at the front desk, and stink horribly. This is an attack on the lungs of Americans, an act of genocide that the US aristocrats don't care, as they go to the high end 5 star hotels, not 2-3 stars ones. It's all because of the Rich pigs. Watch the Gupta family looting of South Africa to understand better that the Indians can be as corrupt as any other group, and not by any means the perfect sages of Yoga and meditation some portray them as.

The short Indians can get very mean when you say their "cleanest room" stinks, or you notice the mold everywhere (1 square foot of black mold on curtain), the mold around caulking for about 8 feet of caulking, the dirt on the table, the sticky computer table, the dirty floor, etc, the horrible smell, indicating poor cleaning habits, etc. They charge same price sometimes for a

stinky room as you get from a very clean hotel with 0 smell. They charge for 24 hours 7 times more than they should, based on the cleanliness of the hotel, smell, etc. Why develop any tech, in USA, if everyone can sit and watch Hindi news in a room, and sicken millions of Americans? The most common misconception is that aristocrats are only 0.1%, but no, they're more like 15%, different levels of aristocratism/parasitism, and they're not all whites or Jews as some believe. Check out India's laws that allow marital rape in 2024, so much "love" for all beings… or the human sacrifices of kids in 2024 in the name of superstition thanks to 22 official languages, decentralized education, low IQ. Indians did that even in 2006, thanks to aristocratic terror ruling like in British times. Why educate people freely with centralized immortalist science based education, when Modi encourages low IQ worship of mythical nonexistent Rama and other fictional Gods of Hinduism? Modi encourages a feudal dictatorship of bullet guns and beatings Bhagavad Gita style, Mahabharata style. Worship of Kali, the fictional Goddess of Low IQ rats, allegedly caused a human sacrifice to occur. This demonic picture of Kali with severed heads ought to be made illegal globally, as it incites people to violence. The ☺abysmal IQ☺ in India is common, as you can see in this video simulating human beheading. It's like going back in time to 9000 years ago, in some cavemen times of Mexican Aztecs. Some news sites, like Vice, have more similar stories, besides the Guardian. Check out 3 Indian reports on human sacrifices: Hindustan, Deccanherald, Indian Express. India's gov doesn't ban ads for ritual magic that may lead to violence, see RT report, with such 0 IQ ads being present in many cities, encouraging people to believe in sacrifice. If that was not enough, the rape culture is strong, due to 'tantra' ideas. A state minister of India told people to celebrate wedding and kid birthday anniversaries in a cowshed, that cleaning & lying in cowsheds cures cancer, while petting cows lowers blood pressure. Why worship and raise cows, instead of designing eterni food free from dairy?

#2 ► 350,000 Chinese ►►► *tons* of *spies* who then become roommates, neighbors *and* torture *US* citizens, destroying their eyes, heart, brain, legs, toes, etc, harass until the victim has heart attack, this is typical stuff the Japanese, South Koreans, etc do too, after being welcome to USA (or EU) by the naive Americans who later regret allowing them to exterminate locals. Watch clip 1 & clip 2 on Korean brutality (for Koreans, let alone foreigners) and Japanese and "buy Korean, Japanese phones, cars please". Domestic abuse of nonKorean females by Korean males. Video claims Chinese go to camp to become sleeper PLA agents, ready to activate and commit sabotage in case of war, or to simply torture and harass people like the secret Chinese police stations. These videos explain the CIA torture using Chinese, Japanese, Korean, Arab, Jewish, British, etc puppets (landlords, owners or even spies disguised as tenants who watch locals 24-7 and torture various body parts, mouth, ass, brain, heart, feet at 1am to 8 am, any hour as instructed by CIA boss) who love to kill and torture using various devices that inflict endless pain, 5-15 hours daily on various body parts in millions of houses of "free" people worldwide

and USA too. As a wake up call, gently recall that North Korea was taught by NKVD, KGB, which were a product of Christianity + Judaism, the 1500 Bible/Torah quotes of unimaginable brutality, well hidden by pastors/rabbis. A Car or phone may be cheap, but also have hidden devices in it, to write your brain, emotions. Japanese, Vietnamese and Koreans can pretend to be Chinese and vice versa. Check out Cuban and Puerto Rico smugglers bring in dozens of Chinese spies using boats, with a 50 fold increase in 2024 from 2021. Check out the other entry methods. SWAT teams find Latino illegals daily. Chinese illegal immigrant runs the gift card scam and is caught draining gift cards, gets 6 years in prison. China is not communist at all, as this video explains, it's more like "the elites" and the slaves, so many illegals don't even have universalist be nice to all ethics, be gentle tender soft to all beings. Chinese migrants enter USA using boats. Chinese from Singapore overstayed his visa in 2023 and stole $0.25 billion in bitcoin. Chinese trying to move to US punched innocent people on the plane, got deported same day back to China. FYI, Chinese aristocrats in Hawaii live to 88, while the poor Polynesia migrants to 69, Chinese being investors, landlords, Cantonese aristocratic conmen who used a loophole to get around the visa ban by starting restaurants, etc. Getting a green card was ultra easy with 500K in the past and a tiny useless business in Hawaii of ☺abysmal filif IQ☺. Poor Chinese in China live to 65, or even 43 if a traffic cop directing the traffic in busy streets in 2007, due to air outside being 50 times worse than inside cars with air filters. Welcome to Capitalism, True Justice the "Fake Communism" style: Communist guys steal money and escape to USA. Asian lady stabs San Diego cop in gratitude for being allowed inside USA, yelling like Hitler. Chinese aristocrats played around the law established by low IQ drunkard Brits to bypass a ban. Brits, due to alcohol, failed to create Immortality Test in STEM that is harder to pass than PhD... they created "merchant category" that was easily changed in 1915 by some ant IQ judge to include restaurant owners, so they used restaurants to migrate illegally to USA, so they created 40,000 Chinese restaurants (KFC is 3500, Wendy's 5800, Burger King 6500, McDonalds 14000). Why should the priority be gluttony for US instead the End of War/Violent Crime by the Science and Engineering Innovation of The 11? A traitor judge, a Jew?, allowed merchants, the dumbest people (merchant is the quintessential Jewish profession of centuries, possibly Chinese Jews disguised as Cantonese), to migrate. All we got is lowest IQ folks (today we still get people who kill US citizens and know zero English, getting US citizenship without english knowledge somehow), instead of the best scientific and engineering minds on Earth. When drunkard ritual loving "vegetable IQ" freemasons and rat IQ Christian 'donkeys' (see quotes they believe in, the lack of logic of Abrahamic "religions") of child abuse rituals run USA, disaster is the result: they turned us into a 3rd world banana republic. Should a smart guy have designed US immigration law, by 1940 Eternal World Peace, 11 companies, 1 language would have been real, but when Brits did, all they knew is trade & theft via war. Chinese in camouflage clothing cross US border. ☺☺☺☺☺☺☺

#3 ► 173,000 Filipinos, #4 ► 140,000 South Koreans ► some are like this music & that music, torturers, doing stuff like in Korea (rape), they love to exterminate people by raising heart rate for months in a row, almost every night, to damage every organ due to lack of sleep (ultra cruel), to attack teeth with CIA gadgets (they love to confirm it with their electric toothbrush if a roommate, etc), knees, head, temples, pure extermination of all non-Koreans, have no doubt about it, you may discover it. Let these guys in, and nothing will be left of your country or EU (Kim Jong Un style extermination). Watch out for the *Korean thieves using Samsung*, etc to steal/torture, better get US made phone Librem. Theft refers to theft of life too, via torture, even if they use CIA provided torture devices. Torture destroys every organ, so it's a theft in the $trillions, since no current tech can fix damage. Try to sleep 8 hours, you won't be able to, the Korean will exterminate you, raise heart rate, etc. Same for other 1st & 2nd generation immigrants working for CIA or US military. Boycott Korean companies, try 2 lb Surface tablet with detachable keyboard (turn off monitor if using external monitor (lid closed) to save space, power, as you use external keyboard, mouse) or a Dell (soon nothing made in China). #5 ► 104,000 Vietnamese ► spies using torture devices? #5' 100000 Thais, see how Thais treat Westerners & video 2. #5" ► 70,000 Cambodians, Laotians, see clip of Laotian migrant Tryse Phommavongxay + K. DeLamar robbing, shooting, injuring a working class lady.

#6 ► 52,000 Pakistanis (5 churches burned) who rape UK girls on an industrial scale and engage in endless scams, 35,000 Thai, 35,000 Afghans (Afghans (they are all Muslim) are 40 times more likely, as Muslims, than Germans (Christians) to gang rape women, since in Islam it's OK to rape infidels, German African migrants (most are Muslims and not necessarily black, can be Arabs, Beduin, etc) allegedly rape women 70 times more than natives), 35,000 Nepalese, 17,000 Bangladeshi. Berlin Muslim areas turn into war zones thanks to no Immortality Test by the EU. This ought to not surprise anyone, since most African states near Europe is where most Muslims in Africa live and they're mostly Arabs or Arab-Black offspring from centuries of Muslim rapes, highly praised in the "holy Quran" by Mohamed with 11 wives and about 40 concubines. So, US citizens, "*open your arms and embrace all illegals…*" who have among them sleeper spy agents ready to blow USA up when China gives the order? Check out Russia strike on a Ukraine market with 51 dead, is USA next? Gently and calmly read the Armageddon page to understand what spies can do. They're not all Asians, some can be from all other continents doing the same bad things. Hey, want to see what roommates, neighbors can do? ☺☺☺

#7 ► possibly 2,000,000 Jews (who pose as other illegals nationalities, Mexicans, Asians, etc (Asian looking Jews, one parent Asian, one Jewish), *that's why Jews support no border wall, so all Israel moves to USA slowly, after being in Israel 5-20 years, to make USA a Jewish Caliphate*)

8 ► possibly 900,000 Arabs (who pose as Latinos, Mexicans, Colombians, though Arabs are

mostly from Africa, Middle East (West Asia). Watch what Arabs do in Dubai, the "nice city" of fake romance to steal millions. These scammers are among illegals. Many Arabs enslave non-Arabs and dream of a world of paradise where infidels are their slaves like in 1500 Turkey. Using slaves, a few Arabs took a desert and built endless skyscrapers, world's largest airport, etc.

9 ► possibly 800,000 Russians (who pose as Latinos, Asians, and do all the Chinese do easily, since many Siberians look Chinese, being 70% Chinese DNA), etc. Jews/Arabs can do all the things the Koreans and *Indians* above do too, for their CIA or military paycheck.

10 ► possibly 1,500,000 Brazilians. In Sao Paulo 240 people are kidnapped monthly. Russians work hard to get a Brazilian passport and then move to USA or other nations as a legal or illegal migrant. They moved from Russia to Brazil, then married between them using fake docs, under Brazilian names and then moved to Portugal to enter the EU as spies. PBS has a video of these Russian spies and you will see, they look like any European, they intentionally choose Russians who don't look typically Russian, to avoid suspicion, though plastic surgery can make them more 'Brazilian'. Beware of a dating scam with sedative drug placed in drinks. Never accept drinks from new dates or strangers, even if in your home, only buy sealed drinks when out. Better yet, never drink when out, just make a juice at home before heading out or eat produce to get fiber. They drug you, steal belongings. 33% of Brazilians in USA don't know English. 71% USA Brazilians are illegals. The fake news sites say "illegals are only 11 million in USA", but the real figure is probably 25-35 million. Americans are too drunk and drugged to even know what goes on.

The Mexican mafia uses endless boats to bring in illegals by the millions and even setup extermination camps with crematoriums near the US border, worships a skeleton symbol of death (anti-eterni, anti-immortality for all, anti-Eternal Life for all), uses sewer drains to move migrants (migrants can die in these too due to flash floods or toxic gases and etc) even uses drones to spy on US-Mexico border staff and send illegals over. Illegals try to ambush a US citizen. US citizen brings in 25 illegals hidden behind mattresses, going to jail a long time. Cartel controlled slaves in USA wear electronic devices to track their location. Many illegals are slaves who finance cartels, see how police waste eons to chase the criminal cartels smuggling human slaves. Illegals who drive drunk and got deported evade police climbing trees, wasting endless hours of cops. Nebraska meat plant migrants behave like gangsters, no interest in having any decency and nonviolent attitude, entitled to be in any US state illegally. Mexican Flag protesters and others loot Apple, CVS, Adidas stores in mobs of 100+ folks: unbelievable, USA June 2025. Americans are OK with 40 million Mexicans in USA, but when 11000 Americans moved to Mexico in 2024, Mexicans become racist: what kind of reciprocal treatment is that? They protest holding signs saying "get out", but when they come in USA by the millions we're supposed to love them. Mexicans protest Americans pay $2000/month in rent, pushing poor Mexicans out,

but tons of 100% Mexican neighborhoods have rents of $5000/month and they don't protest about rich pushing poor out, since the rich are Mexicans. The Sinaloa cartel advertises on TikTok, facebook etc tours to enter USA via NH-NY area where 80% of Canada-USA 5500 mile border illegal crossings occur, and lots of people from India, Mexico etc go that route. This is why the immortalists ban cash and end all banks, so only one bank exists and only one bank card exists: no illegal can survive since you can't purchase anything in USA without this one and only card. Besides, anyone caught trying to jump the border would be killed, like they kill in Poland anyone who crosses. WHY can't USA ALSO SHOOT TO KILL ANY ILLEGAL like Poland? We either stop drug dealers or not. CATCH AND RELEASE POLICY IS NATIONAL SUICIDE. We either stop THE genocide of Americans by cartels or we don't. Blacks and Hispanics should be very mad, since 35% of homeless are Black, 25% are Latinos, most of these homeless being past/current drug users ruined permanently by these ILLEGALS. The infiltration of the US government by the circumcision promoting Jewish Mafia is total: for 80 years, they have prevented the US military from sending 100K soldiers (2% of what the military has, which is 50 times more veterans) to secure our Mexico-US border. Today this would be easy and with drones and remote weapons, a guy can shoot DEAD 20 trespassers in one day, as he controls remote guns from a vast area of 0.1 miles or 10 miles for very low traffic areas. ONLY WITH INSTANT DEATH PENALTY will the border become truly secure, UNTIL they can build a 500 billion ultra high tech border immobilizes legs and hands via lasers so they can't jump over the 30 feet fence or cut it, due to 3 trillion drones and lasers, cameras and etc. Even in 2025, the pathetic Trump sent only 5K at the most, so migrant flow are picking up again. NYC illegals steal cars and then sell them in Africa. Downtown DC strip club is run by Latinos who come here to make money not to build living to 900 research centers. Is that why we have immigration, so the Latinos take us into the stone age? Check out the human traffic, modern day slavery done by Mexican gangs with impunity within US borders, and how a little border talk in 2025 and a few border soldiers brought the flow from 2700 during Biden to 60 during Trump, showing how easy it was all along to secure the border yet nothing was done. Folks, all presidents had 1 million soldiers to send (take a break from wasting time in bases doing repetitive training, torturing US citizens who want World Peace, while USA is destroyed by cartels and foreign spies coming inside USA) and Trump's 5000 bought everything down 40 times in a few weeks, showing the former presidents were not serious. Check out the total lawlessness in New York City, where thefts (millions of them happen by illegals) under 1000$ were decriminalized. It helps to understand who gets inside USA from Arab countries illegally, when you read some of the news about Muslim nation immigrants behavior (Habibur Rahman Arab name) in the UK: 20-strong Muslim Arab gang attacks local UK people and cut off the hand of a teenager (they wanted to cut off his head with an axe actually), stab another etc… Sort of like ISIS beheading people, just doing it on UK streets. The 17 year old died (graphic pictures) 4 years later, and the attacker was a gang leader who got only an 18 years

sentence to relax in jail and not WORK, instead of death penalty, which would be justified in this case, or lifetime labor at least. Do you want your country to be invaded by these Allah disciples whose unholy Quran calls for the murder, terror and mutilation of infidels? Your teens killed by Muslim gangs? Then, vote Demon-crats who want open border where all can come in and pretend to be Latinos. Check out another attack on the UK, this time, a gang of 16 attacked some white athletes of a Muslim rich area, trying to stab or kill them. If that was not enough, in another neighborhood with tons of Muslims, locals (whites) are scared as their businesses are stoned and vandalized by South Asian Muslims of color. The bad type of Pakistanis, Bangladeshi, Muslim Indians will kill all locals who don't convert to Islam. First stage is terror in the Islamic takeover of a city, county, state and later nation. This drives locals out of Muslim only areas, the Muslim gangs only attack infidel businesses. Then they repeat it and establish a state within a state. The Quran explains it all. Another Islamic tool is rape and luring infidel girls into sex work, then passing the girls at gunpoint or knife point to older Pakistanis who use them as sex slaves to make money for them. The key thing to recall is that some cops are Jews and they won't investigate rapes against non-Jews much, and let it happen and even sometimes arrest the victim, not the Muslim gangsters. It's how Jews bring in Muslims to wage wars on Christians to dominate both, a classic Zion trick. Muslim clergy explains how Islam will turn all infidels into slaves. Get ready to enjoy your slavery.☺☺☺ Muslims beat Christian converts and even UK soldiers. Many of them are illegals who abuse the kindness of UK for letting them immigrate there and stay without deportation. Allah's rape culture is described in this article on 52 year old Pakistanis getting 13 year old UK girl pregnant. The Quran has endless quotes condoning the killing and rape of infidels. Muslims gangs may have raped about 1 million UK girls, as a gift from the All Merciful Allah. An article explains why UK left the EU: UK not being allowed instant deportation of Pakistani rapists. This is why EU will either reform or disappear as Eternia emerges. 9 thugs got only 19 years combined for horrific rapes, when they deserved the death penalty. See more on why death penalty here. The civilized nations need to read the Bible, Quran, Torah to realize they encourage mass rape, genocide, why rape is so common in some Islamic countries. The Torah is the Old Testament section of the unholy Bible, which is the basis for the Quran recycled Bible ideas. The Quran is the Jewish Torah plus Gospel rewritten. You can thank Jews for the Quran rape quotes. ☺☺☺☺☺☺☺

These types of events, (rape, killings, intimidation, torture, drug saturation of cities), etc are also used by Latino, Asian gangs to take over streets, cities, counties, states, etc… In Mexico they got child soldiers too, used to patrol streets against the 100000 member Sinaloa cartel, and the child immigrants we often see come over the border can be passionate soldiers, sort of part time mujaheddin soldiers, even if they're not Muslims. Many Latinos gang together to harass, torture and beat locals of various nations they immigrate to illegally, including USA. This is rather

normal, as in their nations homicide rates are 200 times higher than in Singapore. Before you rent from a Latino, think again, as they facilitate their gang networks to get cheap housing, 4 in a room, etc. USA needs to stop imports from Latin America and move all *manufacturing and food production (food USA imports, etc) inside USA; Latinos, just like* Islamic nations and India, wage covert war 24-7 against USA, thru all illegals and many legals. *USA has 0.6 million homeless, mostly legal residents or citizens, fucked up by Latino gangs, while* 1.6 million illegals own homes in USA. What people realize is that they're not here for economic *reasons only, many want to make all USA Mexico 2.0, or Latino level violence 2.0*. They gang up on local US citizens to exterminate them slowly. It's a 24-7 pure war behind the scenes, goal *being total takeover of USA and a bullfighting ring,* bull chasing ring (like this Florida one which ought to be banned, only savages play such filif and frog IQ sports) every *street* with daily gang *violence*. Freedom only exists for Americans when they import nothing. Just because some are kids or teens, doesn't mean they can't have various invisible lasers or weapons of torture, especially since Mexico lost 55% of territory due to Mexican-American wars. So, beware, the Re-pub-licans want all enslaved by rich aristocrats who create PUBs to get rich, to sell alcohol that kills millions of people, and gun shops to get rich and turn all into thugs like true Re-thug-licans, while Demon-crats want all gangs in, all human sacrificing immigrants in without any checks, all LGBTQ orgies in, since they work for foreign spy agencies often, especially Mossad ones (Israeli software spies in Canada, Australia, Cyprus, Denmark, Singapore), so the only really patriotic Party is the Immortalist Party. There is little hope for change, when both Republican and Democrat Parties (plus Latin America, EU) are run by the worst types of Jews you can find. Latino, Eastern Europe, Arab world gangs are sometimes run by the bad type of Jews too, who make the top 5 people. Google CEOs, who made youtube, Facebook CEO etc are all Jews. Regardless, many of these spies will be just as genocidal as the British wiping out entire nations and groups, even if they're Asian, Arab, Latino, so it's very telling USA lets all come in, because near Washington DC, White House much crime exists (26 times more homicides than New Hampshire, 16x more than Hawaii), DC being a violent city in general, vs many other middle size cities. The spy illegals will wage extermination war with Nazi zeal in many ways against the locals, who're not of their liking or prevent them from taking over the USA. So, those who support illegals support the end of USA. Oddly, our Masonic Temples deifying USA government can't even make the area around the central government, White House safe. They don't care, cause they're protected, so they love to attack and destroy anyone who is a challenge to the Masonic World Order (disorder), meaning the Masonic locals (not just illegals) are also attacking the locals via their spy agencies. The pompous masons have just created a system of great slavery for the masses for 250 years, perpetuating endless wars and welcoming illegals too to toil as slaves for the Rich. We got endless Masonic temples, endless homeless folks: what soulless parasites. ☺☺☺☺☺☺☺

During 2016-2020 Trump presidency, 373 of 458 miles of wall were old wall made bigger. It cost 20 million dollars per mile, 5 times more than during Obama or Bush eras. This shows how little Trump achieved and how much he talks and how little he does. While in 2019, 91% of illegal immigrants were from El-Salvador-Mexico-Guatemala-Honduras, and 98.2% were from Latin America, in 2024, only 50% from Mexico-Guatemala-Honduras-El-Salvador, and 91% from Latin America (Mexico, Central-South America). Those from the rest of the *world rose from 1.8% to 8.8%, showing the immense dangers millions of serial killer soldier spy types pose to USA*, beyond just "Latino gang members". Even so, Latinos still made 91% of illegals in 2024 and you can gently recall that the murder rate in Latin America is on average 40 times that of *Norway, China, Italy (0.5 in 100000)* for example and you will often see the loud, macho, boisterous, violent vibe (Latin America homicide rate is 20 times higher than the average UK-EU-Canada-Australia-NZ rate) those who come illegally are gangster types to some degree (to cross illegally is to break the law before and when you enter the country), and they go to all 50 states, not just old Mexico lands. Check out a Colombia gangs used powder than when sprayed, can allegedly put people to sleep (for abduction) and kill them: one more reason to not eat out, to avoid Latin America, to wear a mask. The Latinos, just like non-Latinos, are very good at deception, will post online about Jesus, God or prayer and Bible quotes, or if spiritual about spiritual topics (the more eclectic types who pretend to believe in the afterlife or spirits), (like the military brainwashed agents of all non-Latino types, or CIA guys paid to torture) *but behind the scenes they use military style weapons of torture* (remotely controlled or given to nearby roommates, neighbors of the same gang or national military they work for, who use them against your heart, eyes, temples, ears, knees, anus, anything) to exterminate slowly all non-Latinos who stay in their way to conquering USA. ☺☺☺☺☺☺☺

These are not always the soft 'tomato pickers who want to make extra cash and go back to Mexico after 4 months' that the media depicts sometimes, but sometimes they're people who went thru 30 years of guerrilla or gang violence daily, and are 1 million times more dangerous than what people imagine when seeing a lady with a kid at the border. They're sleeper agents waiting for the call to cause massive civil war and destruction, as zealous and violent as the ultimate Jihadists from Pakistan, Iran, Turkey, UAE (Dubai, etc) or Saudi Arabia (and these Muslim militants can learn Spanish and pretend to be Latinos too). The Spanish Empire army and Inquisition methods of 500 years have trained these guys quite a bit in cruelty, plus sometimes, the Mexican military, like 50 other nations, go to USA to learn some things, like the Los Zetas founders who then decided to quit the Mexico army and start their Wealth by Extortion Empire. In Mexico, Los Zetas used to behead 50 people at once, kill 190 people in one day, etc, and kill a few daily, these millions of migrants setup new cartel cells to attack, take over, torture to death, kill, assassinate various people who may be slowing their complete destruction of USA. That's

why, as totally 'fucked up USA is already with its violent music, etc', this adds a new dimension of insanity and instability. Not to mention the fact Russia is also sending more spies to Mexico, to undermine USA and Mexico itself, or, maybe to help USA spy on Mexico too, God knows what triple game Russia is playing. Mexico is not USA's leading trading partner, not China, so Russia could steal US know how by spying on US factories in Mexico and altering the products Mexico ships to USA to install spyware and spy devices. This is why USA needs to make everything it uses in the USA, and nothing in Mexico. ☺☺☺☺☺☺☺

The illegals claim to come because they're oppressed by gangs but that's part of the story only, for some, or the 'cover story') so well exemplified by the gang cartels shooting each other, in all they do, their music, macho culture, even as fellow tenants, playing loud music, attacking non-Latinos with hidden weapons they get from cartels, Latino militaries or even CIA, not letting people take a nap during the day, playing loud TV in living room (even when they have TV in their room to enjoy quietly) on purpose to harass others and ganging up to terrorize locals (of any race) in all 50 states, drug them to commit genocide (dump drugs on streets etc), and impose their violent depraved 'beat wives' macho culture on everyone else. The Mexican military, has been brainwashed by the Spanish bull killing allowing sadistic Royal Family; the next 4 videos show the *immense* diabolical *cruelty of the* Spanish *Royal Family* (are they Jews?), who for centuries, has watched these evil sports and promoted it by their silent support and not banning it: 1. people get crushed by 6 ton bulls, 2. 20 folks injured, 3. Spanish 'wild beasts' pushing, shoving, yelling like animals, 4. low IQ wasting of energy while others are killed with Spain made weapons. There you go folks, the 4 videos present the epitome of Spanish 'Christian' civilization, no surprise given the 1400 violent quotes of the Jewish Bible every 0 IQ guy thinks is the word of God. Pound to be a Catholic or Christian? *Gently* recall, the Boxing French President didn't ban this bullfight sport in South France (near Span border) either, in another sign of the "*former French Royals and modern Republican*" "Values". Don't forget the Portuguese, British and Muslim imperialists who blew people by gun, killing them in public to intimidate the locals. After all, *the Quran and Bible taught them well, according to the Jewish Torah from which both came*. Thus, the Mexican military can control some cartels, organize fake shootings between 2 'rival cartels' (they are units of Mexican military who pretend to be rivals) and then those people (who fled the villages) are sent to USA "due to the violence", to be activated as foot soldier in a future Mexican-USA war, that China or Russia will fuel and arm with all kinds of weapons in their goal to split USA and annex huge junks of it themselves, taking over Americans and turning everyone into a 0.1% minority, with the rest being Russians and Chinese. *Take heed of what happened in many areas of the world, with the locals % moving from* 90% to 10% after Russia or China invaded (though in China's case, it was often Muslim invasions that they reversed to original Chinese majority). Do Latinos think it will be any different in 100 years? No. China will

bribe all Mexicans who can join the fight, using Latinos as low IQ cannon fodder to beat USA and then killing Latinos too, once they achieved USA destruction. Beware and act accordingly, when *choosing landlords or which room to rent for yourself* (if Latinos are around in other rooms near you, they could be gang members or CIA thugs ready to kill and torture you), if you're not Latino, you better never go to a Latino area as it could be full of gangsters and soldier spies with torture devices from Mexican military, Chinese or even KGB. ☺☺☺

Google "firstname lastname" origin for the would be landlord, roommate or hotel manager, if facebook marketplace, AirBnB, in person visit (ask them their name and how it is spelled, or have them text it to you), etc, in order to know if a risky spy country, to be safer. To save time, only contact safe names. If we want to bring a culture of quiet cities, decency and meditative bliss, nothing is more important than keeping Latinos away from USA, Canada and the entire world until they change their violent cultures, though we need to be aware the violent Brits also covertly aid the spread of gang warfare to keep Mexico, Brazil, etc backwards. It's complex, the Latino violence is not 100% home grown due to Spanish psychopathic traditions or Aztec human sacrifice, it's also the parasitic foreigners from many nations who fuel the chaos, so they use the chaos to enter USA and take over USA, Brazil, etc. Why do you think USSR split the republics so the states are not ethnically homogeneous? It's to fuel conflict and border wars, if need may arise in the future. USSR was also cover for Russian and Jewish (lots of Bolsheviks were Jews) imperialism, besides violent communism and certainly not the nonviolent real equal opportunity of immortalism. For example, in 1812, Russia occupied Bessarabia (bigger than Netherlands), and in 1918 Romania got it back. From 1924 to 1944, USSR placed in the underground Romanian Communist Party leaders (see list on Wikipedia, read their biographies, some even fought Romanians in wars) only foreigners from nations who wanted Romanian territories, so that Romania's Bessarabia can be stolen back, as Russia did in 1940. This is a typical Russian Empire strategy, they place minorities in power to control the majority of a little puppet state better, to take more land from it, etc. In USSR, Russians split republics in ways that are heterogeneous, so conflict arises over ethnic, resources or religion in case USSR dissolves, so Russians can use that to divide, subjugate and steal more land in case USSR dissolves. So, while talking one thing "brotherhood and love and human rights for all workers", the Russians and Jewish communists engaged in genocide, torture and theft of the workers who happened to not be Russian/Jewish. The Russians are not out to 'bless Latinos' as some believe, only to take over the continent themselves, in 400 years. This is obvious from the Circassian genocide & others, Holodomor, Kazakhstan moving from 80% Kazakh to 30% after Russification, the 2022 genocidal war against Ukraine, 0 gentle tone programs on TV, always call for nuclear strikes (50+ calls so far, see 50 google articles), and never call for World Peace in 3 months. Homicide rates in Russia are way above Italy, and the European Union.

Romanian is a Latino language like Spanish, 70% of words the same, Russians banned Romanian in 1800s in stolen Bessarabia, and Spanish will be banned by Russia if it takes over North and South America, have no doubt about it. Russians are very cunning, they will use a facade of being Christian (Putin) or Communist only to achieve their ultra nationalistic and imperialistic goals. We need immortalism, one world, one language all agree with or create and peace, not role playing and genocide behind the scenes. Russia was 100 times smaller at first, so via eternal genocidal war they became big as today. In secret meetings Russians called Romanians "gypsies", due to the fact the weather is warmer and skin for some is darker, even if whiter on average than most Latinos. Russians also executed via KGB any intelligent Romanian in the 1945-1965, and even in 1944 fight against Germany, Romanians were intentionally slaughtered as useless cannon fodder, in military maneuvers that were intentionally made 10 times more deadly and low IQ, illogical, so as to slaughter the most Romanian soldiers Russians can by pretending to have ☺abysmal IQ☺, even when Romanian generals told Russians clearly that their method makes conquest harder and kills more troops. Given the complete hate for such whiter 'Latinos' called Romanians, Latin America should be under no illusions about the real contempt and genocidal hate for the "dark skinned Latinos", who're more Gypsy than Romanians. While Russians claim to fight Ukraine Nazis, they're more racist than the so called "Ukraine Nazis", all disguised well, just as during Stalinist 1924-1953 years. Latinos, wake up, just see the Gulag and what Russians did. Communists were ruled by psychopathic Tsarist police guys and Jewish and foreign spies. See, it is impossible to find in Russian history any ruler who called for World Peace in 3 months, the end of human torture, the end of all violence and violent crime, the end of destruction of the human quantum field that is done daily today in Ukraine via the never ending bombing. In 1866 Russia blocked the unity of 2 Romanian provinces by a failed coup, as they wanted to annex these 2 provinces as they stole Bessarabia. They're not interested in protecting the human information field, in decency, end of pain, suffering and bloodshed, only in greed. Singapore lives 15 years longer than Russia and have 8000 less land per capita. Russia is never happy, they want more. Russian leaders equated land theft with bliss, so we didn't have peace in Eurasia. In Poland they occupied half Poland in 1939, leading mass torture, killings, arrests, Hitler like atrocities. What the immortalists say is that all this war nonsense can end with the emergence of 1 country, 1 language, 11 companies for all humans: we don't need 7000 languages, 200 nations.

Check out the most murderous countries worldwide and Latinos top the list. Mexico tops the list of world's most violent cities. Check out New York City streets turning into prostitution and chaos. As the Latino gangster or Chinese, Russian, Pakistani, Iranian, etc soldier (disguised as Mexican) approaches the future 'sci-fi technology' BORDER WALL with a ladder and a kid (*or fellow spy ready to kill 500* Americans) to be put over the fence and the electrical wire slammed

by the ladder made of plastic or wood that doesn't conduct electricity, with a huge stick manned by 2 people to go above (they can cover the wire with a plastic too) the avoid the electric wire (a very risky action, like when they drop kids from 10 feet or more in this video of the useless 14 ft wall of Trump the "anti-illegal immigration" joker), the AI knows it and starts sending the most overwhelming bliss that melts his legs' ability to walk and setup his ladder. The numb, twitch, itch, or even slight pain if nothing works to deter, sensations can accompany the happiness ones, so it discourages them from doing the ultra risky life threatening action that could cause a lethal 30 feet drop. Obviously, the AI can read thoughts and actions and detect when the intruder is a lot more than a regular Joe, but a professional killer soldier, and that's when the next level of sensations start to kick in. Recall we're dealing with 5 million Mexicans or 100 other nationalities etc who can be Chinese or Russian spies, loaded with endless weapons of torture to take over entire cities, states of the USA in an organized crime fashion. Gently recall that Mexico has animal sacrificing markets and human organ selling markets, so when you have open borders you let in the craziest stuff, not only gang members who mutilate people. People think all migrants are just trying to come for a better life and maybe sell some drugs and make a quick cash, but it's not always like that, some are to torture and kill Americans on foreign spy agency guidance, and not all 'Mexicans' are Mexicans, some can be from another 100 nations from other continents who have undergone good cosmetic surgery and appearance shifts to take a Saudi, Iranian, Pakistani, Indian, North Korean, Russian or Chinese and make them look Mexican, though for many it's not even needed due to looking somewhat similar for the untrained regular person without AI software of facial features, etc, except speaking Spanish with a Mexican accent via rigorous training. ☺☺☺

With live electric wire, 30 feet, and all gadgets above, *the attempts to cross it will decrease by 500000 fold at least, so the flow will stop 99.9998%, no longer requiring so many agents to run and arrest people, catch them, etc,* since it *would be 1 out of 1 billion chance to cross without severe injury* due to the disabling weapons used… since it's very dangerous as the system can send taser like (no contact) pulses as he climbs to make it impossible to even get halfway to the ladder top and he could fall from 15 ft from his ladder to the ground, though he will fall way earlier than that as the cameras will make sure of that. Border staff will increase at least 15 times. Not only that, but 1 trillion cameras, *25 billion megaphones* and weapons exist behind *the wall with Canada and Mexico*, besides 1 million drones to be called if any humans detected, and they can take care if the wall had any electrical or computer chip malfunction. Guns are the last resort, if all else fails, like Poland allows live fire against migrants. The current wall is a mere joke, anyone with some desire can get over it with a ladder and a pole to climb back down on the other side. Then, speakers can say "Eternia or USA is about honesty, gentleness, being gentle with self, not taking such a risk of dying from falls, and thus we want you to ☺☺*lovingly tenderly*

gently kindly☺☺ give up this futile attempt to cross and apply for a visa legally at *visa.gov* to bring the world of gentle tender *soft healing graceful nurturing* universal loving kindness, of infinite lifespans for all, made impossible by such risky climbs." If this fails, the 2nd recording happens "If you don't stop setting up your ladder, you may fall after just one step, since we will be using the Divine Ecstatic Bliss induction gadgets which will make you so happy, you will lose grip of the steel poles and ladder, become wobbly on the ladder, unable to walk steadily, so please experience God's Bliss now, after you go back to ground level and remove the ladder. We love you, so we're trying to lovingly teach you that life is more than what your native nation cartels told you thru your fake religions and bought politicians: check out *bliss.gov,* the end of religion & cartel vampirism, spy agency torture, killings and wars. You can experience infinite bliss where you are, bliss doesn't depend on climbing 30 feet electrical fences and risking electrocution. We have little springs attached to the live wire that can be released to increase the range of the touch to make it impossible to try go above it. God wants you to be legal, honest and kind, please listen to these beautiful songs and help your native country have this music mostly on TV-radio, not the less peaceful vibes now. Help bring peace and then you can come here legally for a visa. Study 2 years for immortality test and apply at visa.gov. We have created 50 million Immortality for All visas a year, and they can be renewed to become an expert at a different quality (Gentleness, Kindness, kind tone of speech, etc), so nobody has any reason to cross ilegally. *This is not the old* America *where* violent music and depravity reigned supreme. *This is* Eternia, *we* changed our name, ethics, music, culture, border policies. Hear the music, the whole 2000 mile border fence sings "Immortality *for* All, World Peace in 3 months." ☺

The US-Pacific Ocean, US-Atlantic Ocean, US-Canada, US-Mexico borders will have 15 times more staff, with 1 trillion drones and *25 billion megaphones* to notify "wanna be illegals" that they will receive a beam in their knees 1000 times stronger than what the laser provided to their big toe and make them unable to walk, PLUS get permanent damage to the other areas of legs if he cuts the fence and tries to get in. Warning laser beam will scare all and *NO ILLEGAL WILL DARE CROSS THE USA BORDER*. Not only that, but anyone crossing may be instantly killed by remotely controlled weapon suystems controlled by the border staff. This will be made known worldwide, as with Poland 2025 EXECUTE ON SIGHT ORDER, to fire on KGB agents Putin sends over the border. It will signal USA no longer accepts other nations sending criminals to make our people homeless by drug addiction or sending spies to blow up our continent. All pimps and drug/human traffickers will be instantly killed once caught if clear video evidence exists of them carrying drugs on them. No trial. Why should we waste time catch and release? You intend to COMMIT GENOCIDE VIA DRUGS, YOU DESERVE INSTANT DEATH. A true Sport of 0 Violent Crime will emerge in USA. We will notify all nations via TV during the State of Emergency that reduces Violent Crime to 0, that we will kill all ILLEGALS WHO CROSS. All asylum rights are suspended,

due to the planetary emergency of all humans dying in 1 minute via the capsule weapon. We will say GOODBYE to the United Nations, you have Done Nothing to Bring World Peace in 3 months, only promoted the status quo of infinite bloodshed. ☺☺☺☺☺☺☺

If a malfunction exists and the bliss stuff doesn't work or he's aggressive and continues climbing, they can say the final one, # 3: "Hey, if you climb more, your legs and hand muscles may start to feel pain and you will have to come down. The pain you felt in your big toe will increase 100 fold for the knee and you will suffer lifelong permanent knee damage. The AI will also shoot you dead if you manage to cut the fence or pass. The drone now sends the wave to your legs so no more ladder or pole climbing. Hi, my name is Sergeant X Y Z, I see you climbing, the 2 trillion cameras of the border walls alerted me☺☺☺, so I take over from the AI system, 10 drones with various functions and muscle twitch abilities☺☺ were dispatched to your area☺☺. The bliss didn't work well, so to deter you from climbing more, we cause a little sensation in your left big toe, right ear lobe and right small finger nail to show you that we can completely damage any organ, at will, even eyes in just 1 minute if we use the 90000 times higher intensity version of this vibration, we can render anyone blind and deaf in minutes, the technology exists, no lasers or open eyes needed even – so don't *commit* an act of *war* by climbing this wall please, as you become *enemy combatant* once over the fence, we have the right to sentence anyone to *70 year in labor camp to build islands and water canals* without trial once they jump. The *cartels have killed early millions of* Americans (image of flesh eating 1 lb off a leg drugs effects on USA streets, see this 22 year old gal with red wounds on her face, beamed into his mind) and *this is for us an act of Holocaust*: see legs again, some are amputated. More leg videos. We want to rid the planet of violent crime in 10 years, wars within 1-2 years max and no more cartel jumping is allowed. All spies using torture and violence will be unable to do anything (except be deported) before they walk more than 10 feet on USA soil illegally, as drones will make moving more than a few feet impossible. We can read your mind. Beware. We don't take this as a joke, but *an act of collaboration with the cartels and enemies* of the Immortality *for* All Global Alliance *for Freedom from Violence, War, Drugs*. You're trespassing on the border of Eternia, the land of Peace and Order. We don't want to damage anyone's body with dogs or the 200000 higher intensity version of these weapons that can kill anyone instantly by accident sometimes, since these are automatic AI weapons that fire without human input, like robots on the North-South Korea border. Our AI system can't know which fence jumper has *weapons of mass destruction* lodged inside their body (not clothes), which can be as small as a credit card or phone, so once on US territory, it will fire taser like muscle sore no contact weapons that will make you unable to walk for a day or 4 until the cops come in to deport you if you're not killed. This is the last message from the AI/human system. Be aware that every 100 ft we have automated robots behind the wall that will automatically shoot and immobilize (not kill, though some may die if

weak of heart, etc) anyone who manages to cross in case of any electrical malfunction of the wall weapons that cause leg, etc sensations making climbing and jumping impossible. You can see the yellow robots if you look carefully, the light up and flash when motion is detected, and their 10 color rifle starts flashing, like the wildest Christmas decoration, they're the yellow humanoids, the 550 nm yellow color people see from 3 times the distance versus red or etc. Please be gentle tender *soft healingly* kind to yourself and all humans, go visit visa.gov, avoid being killed by accident if pulse hits the wrong area." If alive, "educational healing" *is 70 year labor, no trial needed", as video of the jump is sufficient proof, no time wasted* with useless talking, happy work while listening to peaceful music and living in a healing center, to amend for the 50 million Americans killed early by the cartels, by building stuff that extends life: produce picking, construction. The living conditions on the water canal projects would be better than Mexicans living freely, so it would not be that bad, though getting over is almost impossible. The 70 year sentence is to act as a symbolic deterrent, and to show we respect the idea of nonkilling and usher a new era of 0 violent crime *which all could carry 5 to 70 year labor from now on, slightly lower if one can pay millions in fines;* all will be released early if the MRI tests and other tests, show kindness and if world violent crime is 0 in 10-20 years as UN can plan for. ☺☺☺

Check out this allegedly real video of teens and young adults beating an old lady cashier, open the borders widely, no wall, no checks, no 5 trillion cameras on every US street, not every car connected to the Immortality Nurturing Agency Network? The Labor can be done *in isolated healing centers, mini-cities, totally sealed, for example* the guys doing this, the main guy, maybe 50 years labor, *while anything* like this (unclear if real or closing his eye and using special creams, etc) would be labor for the rest of his life, unless they pass some super stringent test after 20 hours/week of videos for many decades, *service to humanity to develop gentle soft compassion, very nice, heavenly versus GULAG or any USA prison).* Wife installs video camera at home connected to police department, video of violence recorded, enough evidence for the sentence to stop all slaps and violent crimes against any person, in schools, homes, etc, install 90 quadrillion cameras if needed. Initially, wife can quietly tell police, then camera is installed and preparations are done for the divorce if wife wants it – since some psychos will revenge for such a report of course. No person ought to live under psychological terror of being hit by a violent psycho or being tortured with hidden gadgets. The idea would be to really educate all to have compassion and universal gentleness via TV, instead of the Zion Elders style and Hitler style slapping we see on youtube, TV in several nations now, that normalizes ***domestic violence on purpose for the creation of max chaos, looting and predatory conditions.*** The violent crime inmates would work in the new healing city centers. The era of order arrives. Depending on what happens, whoever is left inside USA and given amnesty for being illegal or for not being killed (due to severe violent crime that gives them lifetime community service in a sealed city

with much higher freedom than a jail, except 0 communication with the outside world), can be hired by the Immortality Building Inc to build new water canals and 200 small cities of 100k max each to distribute people in empty states. The citizens of 200 nations need to know that crossing the border illegally is subject to death penalty due to being a violent crime, *as going over the fence, ocean can mean death of self/others and is technically,* attempted murder. Lifetime labor is an amnesty, for those who pass the Immortality Test, which most never would due to being ☺ abysmal IQ☺, so deportation is their best outcome. Lifetime labor for ANY Slap/Violent Crime (Border illegal crossing into USA) is for as long as Violent Crime Exists within in USA. As explained in the State of Universal Emergency, immortalists don't want to jail anyone, and will release all violent offenders ONLY WHEN VIOLENT CRIME REACHES 0 IN USA. By that time, the Intense 4 hours Ethics Education daily, plus 40 hours work, for 5-10 years, will have transformed them. This will be explained 50 times daily, to prevent the use of "death penalty or lifetime labor" during the 10-20 hours TV-radio Ethics Broadcasts to turn animals INTO humans, I.E. TO REDUCE VIOLENT CRIME 1 BILLION FOLD. At that moment, when the American people has fined 5000 trillion all aristocrats (the 5% parasites feeding off the 95%, who keep America in the stone age via 33 million fraudulent companies of Junk Product and Dangerous Services Production) for their crimes too, of Grand Universal Theft and Organized Mafia Committing Genocide via lethal products, hopefully within 5-10 years of the Immortality Party destroying the 'evil products making' Republican/Democrat Parties, everyone in the *healing cities for violent criminals and border crossers* is released, as max salaries are no longer 50000 times higher than min, but 2-5 times higher. The release happens only if they studied hard the Immortality Ethics, Sciences and passed the Citizenship Test latest version. Only 1 in a billion max would be able to get over the border fence anyway, as it will be *far harder than* the Toy 30 ft steel Wall today. Average people would not be able to retain motor control after the bliss, let alone the pain if bliss doesn't work in 1 out of a million cases due to some electrical malfunction. We're very kind, as immortalists, since we could simply put 300K robots to shoot/kill anyone with a simple wire fence of 3 feet. The big 30 ft wall is to protect lives, *stop* drugs, drones, violent crime. It's out of infinite *gentle tender soft healing* graceful *nurturing* universal loving kindness that we disable motor functions via bliss states, as immortalists are against injury, pain, killing, since we understand, like Immortals, jumpers are programmed brainwashed slaves of the cartels, violent regimes, etc. However, if any system fis hacked, disabled and too many come, the backup death system is used to keep US *violent* crime 0, i.e. death penalty received instantly, like at the Polish border. ☺

Let Immortalists win US elections and *we mass produce via 3D printing all 7500 miles of wall* in a factory in some US state in 1-2 years, doing a million times more than the mortalists did in 250 years of 'border wall building', in a top secret military facility. We got materials, believe me, look we waste 100 times more on junk, than it takes to build a 30 ft massive concrete, steel pole wall.

Then, we hire 1000 trucks to start shipping it to the Canada and Mexico borders. Due to these weapons and what not, it doesn't need to be heavy, since metallic robots behind will disable anyone who jumps. The tall wall will automatically alert via cameras the drone army to come before the ultra heavy truck have time to ram into the wall, and with 10 drones against one truck, all will be dead in no time, since the flat tires will make it impossible to drive. They will be warned to run away, being shot with a dart by drone (tranquilizer) *only* if they continue and the drone tech didn't work well with gentle methods of leg pain or etc, to minimize loss of life. Of course ramming a truck into it or using saws will cause the weapons up top to deploy highest intensity from nearby intact wall, so it would not work, the truck drivers will be so dizzy, if bliss neuroscience tech doesn't work, they won't be able to drive even if the tires are not flat yet by the use of special tire deflating drones released from secret location behind the wall on AI command. The most high tech 3D printed fence, that we can export a much lower tech version of to any interested country, like we export F_{16} planes or whatever. The end of cartels and illegal migration worldwide, the era of peace and order, no more illegals anywhere, no more anxiety. See how US citizens (Latino usually) smuggle migrants for making cash, a cop explains it all. Catch and release can get a new meaning, we simply drop from a special ladder (after we deactivate the section of the wall) the person, after taking biometric info to count number of crossings, and sent back to Mexico or Canada. Any illegal caught can be flown back to origin country within 1 day. No 5 year journey in US before deportation, but instant one, back behind the fence. can't come back as electric wire is setup with powerful weapons and the guy would be tired after all the events anyway. Climbing a tall wall with 100s of devices and electric wire is a task impossible for most. If we want to have 900 year lifespans, we need to protect it from spies who want to impose their depraved culture, music, values on the poor American people.☺

Tucson, Arizona, in 2018, detected half of the weed entering USA, sometimes using migrants who're forced to pay for gangster support by shipping drugs on their back thru the fenceless desert. You can see how criminal a government is who allows millions of Americans to die due to drugs shipped by migrants who can easily cross on 1200 miles without any fence at all. How can this be allowed? A video explains illegals carrying packs of drugs on the back. Most homeless in some areas are drug addicts, thanks to a cruel government that simply doesn't care, they allow tons of drugs to enter on the backs of migrants on fenceless border areas. Isn't it time to vote Re-pub-licans and Demon-crats out and create an Immortalist Party majority in Congress? 0 IQ people complain about the homeless, not knowing one reason some are homeless is that they're brain dead, the drugs have destroyed their brains entirely in many cases. See the endless homeless camps with blacks in them, those blacks got hooked to drugs brought by migrants and cartels who make money off this migration too, and fell behind rent, etc. Thanks to their support of illegal migration and the vast drug trade it is connected to. Vote Democrat or Immortality?

Re-pub-licans are doing almost nothing too, just empty talk and useless walls all can jump over. It's time to take America back and bring the end of violent crime and drug use. The good thing about the new visa program is that people can go and earn money and then build houses in Mexico that are much better and can lead to more science discoveries as stone age ends. As long as fenceless border doesn't make 200000 black, etc homeless in US via drug addiction, people would be OK. Not everyone becomes homeless because of drugs, some are full time working computer engineers, some simply due to the way the system works: 16 million empty housing units and useless sports facilities, etc. Illegals *own* 1.6 million homes, *while locals are homeless*, yes, even people who worked for GE for 15 years or people who're native American locals. Sadly, only with a border ultra high tech wall can cartels be stopped and 50 million Americans freed from drug addictions. The religion priests are cartel members in reality, whether they know it or not, they support the mass murder of homeless, whose lives are cut short, as they only brainwash people to repeat prayers like parrots instead of experiencing bliss via meditation that makes drugs useless. The Christian thing has always been a mafia to loot other nations in exchange for useless wafers, violent murder rape genocide "holy word of liars" quotes God doesn't need as a crutch to 'save people'. Christians need to wake up and realize they're being used to simply support the status quo and the cartels, as ☺puppets of 0 IQ. ☺☺☺☺☺☺☺

They don't put fence because they play selfish depraved sports instead of designing robots and developing science, waste eons in gyms instead of making more of these 8 robots, and they need slave labor to pick up produce at high profit. Inefficient redundant capitalism wastes huge amounts of labor and it has no compassion for people who could just go to a healing center and then listen to educational music and lessons for 1 year while having a produce picking or highway building (another popular one for illegals) job, to reduce their "sentence" by 5-10 times. 2 million in jail sitting and wasting away, when they could replace a lot of the illegals. See Pew graph on industries illegals work in, and where the 11 million came from in 2022, the 2.3 million arrested (a little less, since some are caught thrice) in 2022. This is because everyone knows it's so easy to cross. What a waste of time, to arrest so many. 0.5 million are homeless and we need 3 million empty hotel rooms and 6 occupied for the housed, what a depraved nation? That music evolved us a lot? If needed, give them a visa. Aristocrats don't care, they live in gated communities or 50 million gated estates with personal security and slave servants. In their estate, no crime exists, as 30 cameras watch everything, but the rest has to swallow all the crime. Nobody is encouraged to exercise and pick up stuff 2 h/week for the sake of 0 'violent crime, gangsters, spies' entering USA. We need the Volunteer Immortalist Network to organize trips to farms and drive these fun machines, rotate the schedule, like all companies allow everyone to go on a given day for 4 hours to do some agriculture job and develop some compassion instead of violently hitting balls in space wasting sports arenas, etc that make others

crowded and too sleep deprived to design a good robot to pick up produce and crops, to automate highway construction, so we no longer need illegals. That way, we get 0 crime soon. Robots can pick everything ☺☺*lovingly tenderly gently*☺☺.

Via happy loving states, beautiful small little itch harmless body sensations, gentle brain changes (2000 types of such scenarios can be designed, formulas of deterrence, aided by various holograms to deter all) we can deter 99% of people or maybe 99.99%, the rest may need some more "threatening" recordings at # 3 for the worst types: the battle hardened serial killer spies, gang leaders who kill thousands Americans yearly. *A country without borders is total lawlessness* and this is what we have in USA: see flesh eating by cartel drugs, bad teeth from ?drugs?, etc. Imagine how easy it is for Chinese, Russians, Saudi, Iran, North Korea, Nazi, etc spies to cross. A little sub or Darien gap to enter Mexico or Canada, and then it's too easy. We need a new party, the Immortalist Party, the Dems/Reps seem to have toad IQ, see the music. Need 3 banks max, not 4200, efficiency, real border staff, instead of bank tellers and endless redundant HR and etc, cashless society, so nobody can buy anything except with gov approved credit cards that verify identity in 10 extra ways not done today, to make sure that person is legal, and USA is not run by foreign spies, gangsters who cross border freely via fenceless areas or tunnels. The era of hooliganism needs to ☺☺*lovingly tenderly gently*☺☺ come to an end, if we want to bring Immortality 4 All. We need 5 trillion cameras on US streets, and each time a person is detected, its ID shows up on screen and it's where it's meant to be, to prevent look alikes to use the same ID and catch spies who change their appearance or use a fake one. Cash allows all criminal activity, drug dealing. Cash is only useful when EMP attacks shut down all banks, but cash can be dropped by aircraft to cities then for a few days or weeks until all banks get back online. Cash is useless. It's outdated and I don't understand why we need physical money in the online era. Traffickers get 20 year in prison, but they could be used to build highways too, while listening to ethical lyrics and melody music, to learn eterni vibe, upgrade human quantum field vibe; sitting in jail and thinking bad thoughts is useless and damages the quantum field, leads to muscle atrophy and less ability to hold a job later, so all prisoners need to exercise and contribute to US economy to stay healthy and offset the damage done by killing people with fentanyl. Lowering sentence too much would encourage all to distribute it, so 20 year labor solves 3 things: lack of vibe, lack of highway workers, lack of muscle if sitting all day helping gang activities in prisons. We need to end the prison gangster stuff too by having them work. Help them grow food too, to stay healthier and be more productive, improve their healing center, maintain it more, grow food to eat, be healthy, happy. Vertical farms on campus. Reduce shipping costs, traffic, ☺☺ *lovingly tenderly gently*☺☺ – keep it simple, sustainable. ☺☺☺

Perhaps instead of endless temples to 'religions' of violence established by illegal immigrants, Australia ought to follow Poland in dealing with illegal boat migrants, train sharks to bite their

inflatable boats or drones to sink ships crossing into Australia's waters with no permission. Poland and Finland sealed their border with Russia, as Russia encourages Muslim militants from Middle East to EU to destabilize Europe in a hybrid war. Why is Australia allowing Indonesia to destabilize Australia via hybrid war waged by illegal Muslim immigrants? When houses are not available, all they do is build more mosques, churches and synagogues, temples and masonic buildings, pet stores, etc, what kind of spirituality is that? We got 25000 Masonic temples worldwide, just waiting for a *nice bulldozer to give nice houses to the people*. Why are violent Bible-Quran-Torah considered religions? They're violent cults based on lies, with beatings deified in the *Bible*/Torah (kids, workers, sex slaves) or *Quran* (sex slaves, mutilated infidels, kids, wives). Immortalists nations need to demand of all migrants to answer the Immortality Test question on why they agree that the Bible-Quran-Torah are manuals for genocide, mass rape, terrorism, mutilation and slavery in a 50 line essay, why these texts and others like them don't qualify as scriptures, and why Christianity, Islam, Judaism can't be considered religions as they call for the extermination of all who don't belong to their cult, why tax exempt status for anything based on violent texts can't be given. Today, every religious service can be done online, in order to show true compassion for the homeless, why don't "spiritual" people live spirituality? Who needs mosques, churches, temples? It's funny how people don't seem to have any values, allowing all "crap texts" to claim scripture status, no Immortality Test for migrants, to ensure that a nonviolent society emerges with 0 violent crime, as giving houses to thugs is no help. Not all migrants are good, some want to establish mafia cartels branches, to convert all to Islam. Look at Sweden, they got endless gangs shooting now, in Muslim neighborhoods. ☺☺☺

Another issue is the hypocrisy of the Demon-crats and Re-pub-licans who're basically '*a one party system*' all role playing 'enemies' and supporting the rule of *lawlessness*, while saying other nations don't follow the rule of law, so they need to bomb them. These same professional actors and role players then criticize the 'one party' or fake elections in other nations, which copy the US system of fake elections. We hear diplomats lecturing (deceiving via grandiose theories?) the planet about the international "rules based order" or "democracy and the rule of law" (slavery and the rule of bondage). *What rules? Of global slavery?* For example, USA has trillions and endless wasted materials (huge living rooms in some newer houses, and 3000 times more than all materials to build Mexico border wall and implement the rule of law in USA, i.e. 100% legal immigration. They don't do it, because illegals can be exploited as slave labor in much more profitable ways: no health insurance, no questions asked about anything in fear of being found as illegal, no decent housing, no good pay or even minimum wage. They lie there is not enough labor to build wall, but 2 million illegals daily look for some work… they could be hired to make the steel poles, the this and that, 3D printed thing, etc. Cheap labor. They lie 24-7 to the American people and cause a huge flow of drugs inside. Isn't it time that these 'liars' (or

hypocrites as some may say, though they're helpless (thus worthy of compassion and kindness) mind controlled robots, tortured to death almost to behave in a way, like all politicians are mere puppets of the *generals who beat/torture everyone to death who doesn't obey them*) who always lecture other nations about human rights start to walk the talk and respect human rights and end illegal immigration? Why vote for such 'mind controlled robots'? Perhaps Immortality for All, Eternal, Eternal Life, Infinite Life, Eternal Life, Longevity or Eternity Party is the answer to this 250 year endemic systemic multi century corruption started by slave owners commonly known as America's Founding Fathers (well, to be fair, the whole world then was like that, monarchies and aristocratic classes were subjugating the peasants, workers, etc, as some still do). With only 5% of the vote taken, we can make tons of things happen, since we side with Demon-crats or Reps on various issues, like border wall or universal healthcare and achieve what no party can, especially if we get 10-20% of the vote. We need a 3rd Party or 100% reform of 1 existing party, provided we can convince the *generals to have compassion & gentleness.*

But recall, everything is staged, all votes are orchestrated, so end result is a yes or no, by the FBI mind control team, so no change will happen until the Immortalist Party with a unified all YES or NO vote on any issue, wins 10-15%, not just 5% of the vote. We're neither left, nor right, just for basic human rights no politicians really ever defended, as lackeys of the British aristocracy or Banks: all these "women can vote, minorities can vote" are scams, since they can fake all elections. Little seems to have changed in some ways, even for legal immigrants, in 250 years, actually 3500 years, since empires of yore. Demon-crats, like the clever disguised Re-pub-licans they are, having learned it well from all former empires, sell their "no border wall" as the greatest act of kindness towards migrants, *when it is the ultimate enslavement*. Then all immigrants vote Democrat, thinking Demon-crats save them. Demon-crats simply don't want a legal way for them to be here, to be treated decently. Likewise, you see 100s of Democrat defended policies being sold as "protecting this or that group" when it actually deepens their slavery. *Everything is calculated for decades, well planned for maximum deception and trapping of slaves.* It's more like aristocrats versus slaves. Abortion is sold as the greatest thing, encouraged everywhere, same for gay rights, etc, gay education, public education to become gay and abort all, this is basically a form of slow extermination and birth rate reduction, as gays have fewer kids. In other words, "☺ filif IQ workers☺, come to USA, vote Democrat, work and then be a slave, die childless too, celebrating gay/abortion rights". Locals are decimated, as nobody has kids, votes Democrat, aborts everything, becomes gay, so then we see 300 cities that 60 years ago had 95% whites for example, now are 40% whites, 50% Mexicans (or Central, South Americans), or areas with 70% blacks now 20% blacks, or 70% Mexican now 30% Mexican, etc.

Depopulation works both ways, they don't care, since these are not Jews, Brits or whoever calls in the depopulation scheme via careful meticulous step by step plans and brain control of

population: bring in the slaves, increase profits and then lower birth rates of all groups, except the guys in charge of the spy and military agencies (or who take over one day, say Russians take over and kill all the rest who complain about torture etc) who're happy to increase slavery for all and *wipe out all French, Polish, Romanians, etc, 150+ nations of all races from an area if it* helps the supremacy of the nation in charge of all the other 200 slave nationalities of USA. See the displacement and genocide of Hawaiians (Hawaiian lady has 7 kids and 6 kids "invaded the mainland USA" as 'Hawaiians' (from Tahiti, who got there from Philippines most likely) invaded the Hawaii islands before Brits invaded (Hawaiians are most likely Filipinos who invaded many many islands in the Pacific, often wiping out locals), while the video says Whites are Invading Hawaii only, so it's funny how everyone wants equality (of rights, of family size perhaps), but many don't understand anything about the universe, about what they want, they say equality, but they don't want real equality of formless genderless shimmering shapeshifting Immortals, one world language and one world culture and 11 companies instead of 700 million, they want all benefits of Science based civilization, like being trillion year old genderless shimmering shapeshifting Immortals (blacks or Hawaiians living to 100 often instead of 75 max before, etc, Malawi people live to 55, same Africans live to 80 in USA for example) without any concession of anything, not realizing their stupid traditions wouldn't apply as IQ becomes trillions of times higher, without speaking only the One World language all nations agree to create or adopt, without adopting an equal, for all towns worldwide Ultra Peaceful Immortalist Culture and Anthem All nations agree with to adopt for Lasting Peace, without giving up their trillion times more violent music (all folk music is violent trash in all nations, no offense to any group in particular) than needed for a trillion times lower violent crime worldwide, without giving up their ☺abysmal IQ☺ violent religions and 0 IQ primitive rituals (human sacrifice in Hawaii) and culture, their ultra primitive housing tech that requires house to be built 1000 times after 1000 storms instead of 1 time monolithic dome with modern tech to last millennia, air filtration that otherwise would sicken them to death before when volcano or etc erupts, air conditioning that would make sleep impossible in 100°F weather, etc their anti-science attitude that delays the 75°F weather for all humans on Earth, as we're one nation of 11 companies worldwide creating a nice physics force field that creates perfect weather, 0 storms, 0 drought. We can detect a double standard, even if we realize Brits aren't nice (deported Hawaiians via clever economic shifts), since this book attacked Brits 200 times for their violent music, violent culture and US/UK unwillingness to discuss at UN and on every TV-radio station worldwide 5 hours daily, the roadmap to one world language, one world culture, one world state, one government, 11 companies for all for Eternal World Peace. British genocides aside, there are low IQ folks in all cultures who're unwilling to make a compromise so we get to one language and eternal World Peace, due to a pride of being a stone age 80 year old lived ape, unable to imagine living to 4000 via science and the end of infantile cow IQ fake staged miracles religions. Brits are moving and

slowly displacing Puerto Ricans. Hawaiian son and lady forget all the high tech they got in their Hawaii house and for the 6 kids, came from the toll of billions of Europeans, East Asians (China mostly) who for centuries developed the techs without any input from dancing Hawaiians happy to sacrifice kids for aristocratic terrorist royal families of Hawaii. We all need to be honest and realize the savage nature of most of the music in every culture and nation, vs the music of the Immortalist Anthem type of cultures whose ethics is billions of years ahead of us.

Humans tend to complain and find faults, ignoring gratitude for things that would have taken them 100 to 1 billion years at times to discover if alone. So, while it's true many bad things happened, they always ignore the things they got for free today, that would have never happened without interacting with Whites and East Asians. This goes back to the Tao Te Ching saying of how the rigid dies and the gentle outlives the inflexible (76 & 61 which are the nonkilling techniques of conquering the invader over time, covertly, by adopting its culture and changing it so slowly, nobody notices it), even if that inflexible is 1000 times bigger empire: idiots never learn anything new, they think they're smarter than all the others, hence Hawaii has lowest IQ in the nation, since education is not really the mainstay of Hawaiian culture. White kids are beaten in Hawaii sometimes in some schools due to their skin color, how is that for racism? This happens to low IQ whites who don't home school (today all subjects can be learned in eterni tone at home, like 5 million kids who're home schooled in USA, schools are full of drug addicts and psychos who will corrupt your kid). If we want World Peace, equal opportunity to housing, education, healthcare via 11 companies for all ethnic groups, then we also need to have equal family size, not just one group or some groups (not Muslims, Jews have 9 kids and the rest 1). If we eliminate racism against Blacks, we do the same against all groups (read the article and Ctrl-F "beat" to understand the spirit of universal peace, 'aloha' and one language for all so we all understand and make science progress). Some Hawaiians want to promote Hawaiian language to enjoy human sacrifice rituals again perhaps in their own language, kick all mainland folks out, play rodeos while others are homeless on the big island, instead of 1 world language of science, longevity, they want 7000 languages for 0 efficiency, 0 science. ☺☺☺

The world could end in 10 seconds if multiple languages exist, so one language is inevitable, though "cabbage IQ" people will fight it until the last minute, as with any big change in human history.☺☺☺ Anyone love Hawaiian culture? See the "sky high IQ" Hawaiian tradition of eating prisoners. Do we all need "first salmon ceremony" to develop eterni foods free of bloodshed and suffering by fish, after all? How empathetic or spiritual or quantum level healthy is bloodshed of fish? Perhaps, it's time for native Americans to realize their rituals are inflicting suffering on sentient beings too close to humans and rituals (like Catholic rituals for Italian conquest of the world) provide no incentives to move away from bloodshed and into the high tech era of Eterni Foods. The so called Hawaii or native American "shamans" and "spiritual masters" were too

'unaware of the universe, science, reality' or 'too clueless/ignorant just like Jesus was' to realize one day people won't need to eat animals or plants. Salmon is a favorite food of Jews and native Americans. Jews love to pretend they're native Americans (in order to take over Indian reservations land and create 500 new small Israels) and the Jews pretending to be nonreligious promote LGBTQ to lower birth rate for gentiles, while Jews got the highest OECD birth rate, almost double the OECD average. Every day we see videos of 'native Americans' who look like Jews, no wonder Mormons have made up the religion of 'Jews colonized America first' based on forged fictional tablets Joseph Smith never found, like the fake violent Bible. The 'bad type of' Jews are back to their games, using the Jew made Mormon church and now the Native American identification, as a springboard for colonizing USA to turn it into a Talmudic Sex with 3 Year Olds Caliphate. What about Hawaii human sacrifice rituals by the Hawaii nobility who had more manna than the workers of Hawaii before joining USA? Australia has homeless whites too, in part due to Hawaiian relatives from Pacific moving in Australia. The government is focused on keeping rich richer, the rest homeless or slaves of the aristocrats. Check out 180+ acres farm. We need immortality capitalism, one language, true efficiency. Pakistan Muslims try to have 12 kids because clergy told them to outnumber Hindus. US Muslims try to outnumber Christians too.

Let's introduce parent license for educating future parents on proper tone and kindness, quickly end bilingualism for universal equal opportunity, hours of education.gov videos for every kid to learn perfect universal accent and have finally one accent and perfect understanding, to make it fair for all, 2 kids for all, 3 for those with the highest immortality credit score, IQ, etc. Equal rights for all, equal family size for all. The next to be depopulated by Brits or Muslims, South Indians, East Asians, or French are all nice areas of Europe, *with all Europeans living as slaves 20 in a room and Brits each in a 25 acre estate*, or 2300 acres palace if a Jewish Facebook CEO or the 8 aircraft fleet of Jewish Google CEOs. King Charles of UK bought at least 10 properties in Romania, that sit mostly empty. We see this is a technique colonizers use, buy land and establish protected areas (EU ideas) so locals don't use their own land, create alcohol selling businesses, drug dealer networks to make all locals drunk and drug addicted, overcrowded, so that the intermarriage of Brits to locals can begin to create new networks of spies that rule that nation: Brits have 2 marriages, the official one to a local and the covert secret one to a British, the hybrid being a 2nd class puppet used to conquer new lands. NATO will help achieve that, that's their purpose, under the holy guidance of the British Royal Family (check video on UK progress under the royal family) and the unholy Vatican supported by all brainwashed Catholic nations (fake miracles) who're puppets of the 6000 slaves killed in one strike Italians (Catholic churches are spy centers for the Italian state), just as they did for centuries of British imperialism. We see how the EU is used by Western Europe to buy Romania land and prevent the Romanians from building houses on their land and develop true technology, while Romanians are being crammed

into condos 5 stories tall. So the pattern of “conservation” or “casinos”, “hotels”, “resorts” is used by foreign powers to displace, wipe out entire populations under the guise of “protecting forests” and other cover stories. We see how Europeans are enslaved, by the foreign (Jewish Americans, Brits, etc who role play being ‘rich people’ when they're spies) aristocrats, how they can't use their own land to build single family homes, and only foreign aristocrats have big mansions that occupy land for one purpose alone: to prevent locals from developing, creating food self-sufficiency, research, for the purpose of national extermination under the guide of “democracy, the rule of law”, hotels, other gambling venues.

The Eastern Europeans, who were communist before, can create their own 160 million English speaking country on immortalist principles, free from the hooliganism of USA, UK, their crime and endless violence, by simply using the ideas of this book and the ideas of Puerto Ricans so well explained here: Get Out and Let us Build Civilization not Feudal Terrorism. Using English as a language is a great idea, since we can understand those who try exterminate us well, to protect against an enemy and transform him, you need know his language and the fake papers he publishes in English. We don’t need your UK and US music used to lower our IQ, enslave us and destroy us, we see what you did to Blacks. We don’t need your concerts from hell, from Western Europe or USA. They use the EU or various laws to simply enrich the aristocrats and perpetuate the slavery, the wars, the violence, the organized scam religion to lower IQ and enslave all. To create divisions and promote one group over the other EU nations in very covert ways, EU stands for nothing, they have not even one language, say American English as common language to help us travel to US-Canada easily (Canada English is similar to American English), same for USA, not one language but 600 as the Jews love to set one group and language against the others. Because as we see, when the 1989 happened, ‘communism’ (a mockery of communism, since the dictator was remotely controlled by KGB) vanished, feudalism and aristocratism replaced it, drugs pouring in (1 million times higher drug use), violent music too, wars multiplying, and now people are renting more (before everyone owned) and they import toxic foods from outside, instead of being self-sufficient, they're slaves of multi-national food companies whose goal is extermination. The parasitic aristocrats are being born. Jews and Brits use religion to exterminate by science illiteracy and credulous zeal. They lie to the people that the Bible is the 10 commandments now forced in every Louisiana public school to make everyone ignorant, when the Bible is also 1400 bad quotes that say the opposite of the 10 commandments. Not to be let down, Oklahoma Jewish gangsters pretending to be gentiles started in 2024 to require grades 5 thru 12 to teach the Jewish Bible, in a return to the medieval ages, a boon for US devolution into a 3rd world country, ***easy to exploit by cunning aristocrats living in expansive mansions.*** Texas gives money to 0 IQ Texas schools who brainwash people into the Jewish Jesus gangster cult (Jesus was a spy faking miracles), so cults become American

education thanks to the Re-thug-lican party of Mansions for the rich, 0 IQ for the Enslaved Masses. Perhaps, we need vote for the Immortalist Party, not the Party of Republican Alcoholics, the Lovers of Jesus the expert in faking water into wine, Jesus the Drunkard. Let those satanists who promote a fraud as Son of God, to justify whitewashing the genocidal 1400 violence quotes in the Bible, vote for themselves. The Jewish Italian gangster controlled state even funds the remodel of religious schools. Following the 'Jewish' Putin regime promotion of Bible genocidal violence thru 1000s of new Jesus brainwashing centers (so called 'churches of baby violence (watch)' and cannibalism rituals) and Ukraine invasion, the US Bible fanatics are ready to turn US into Russia 2.0, look what Russia is like. Next will be banning cars/PCs to return to chariots/paper. When all nations wake up, they realize the Bible is a scam used by phony politicians to do genocide. Why not create a short, coherent and to the point 10 page scripture like Immortalist Anthem? A page of this Anthem Poem has 5 times less words than a Bible page.

We know what Brits did to natives in America, non-Brits in EU are next to be exterminated *slowly* thru a 500 year plan, known to Britman. American Brits, Jews, etc will use every tool at their disposal, google.com, phone apps, Big Hotel Chains instead of Single Family Housing for Europeans or locals in their own land, Big Food Chains not Eterni Food Inc of the European Union or Continental Union for other continents, Big Car Companies (brain writing, emotion writing tech) not Eternal Travel Inc of the European Union or Continental Union (later Global Union) that fairly gives decent food to all, not just aristocrats, Big Cell Phone Companies not Eternal Utility Inc of the Continental Union. Note how USA is not willing to have real democracy at home, immortality capitalism not feudalism by Brits and to make a big 11 companies set for USA and EU, for a new nation of 850 million people, but only to exploit the Europeans. The US won't give equal opportunity via free education, to its 50 states even, or equal opportunity via one law not with 20000 versions of each law made by each town, how will it give equal opportunity to other nations? Only chaos and fights, crime and jails, like in the USA itself. EU and many nations are being decimated via weapons of torture in our own land and while we go to USA, UK, Australia too as immigrants by the same Brits, just as they exterminated the native Americans. Australia natives have been fighting like native Americans among themselves, and this made the Brits very eager to fight them and bring one language and peace, instead of 500 languages and eternal war in the US/Aussie colony. Not only that, but others will copy the Brits, so all nations need to be careful, we need to focus on Peace in 3 months and real civilization not exploitation, violence, etc. All nations need to wake up, create continental unions with efficient companies, immortality capitalism, to bring the one global nation of Eternal Universal Peace and 0 crime for all. We're one people, one world, one language one day, language we use is irrelevant, let all have equal access (via English knowledge) to science papers (not the fake one Brits create for nonBrits), housing, food, education, with more access to the "less basic things" based on the

Immortality Credit Score (score is to prevent everyone from doing nothing because "it's free whether you contribute or not to the global union"). *Why are many Jews in USA, EU, Australia etc promoting all these 5000 languages, instead of only 1 language?* The EU is run by Jews and USA (Brits, Irish, etc), who promote their style of music, and 50 languages. *English only for American Brit spies. 50 languages is how Brits, Jews keep everyone ignorant of science papers, of content in English,* how they make it 500 times easier for Jews/Brits to enslave every nation. The problem is that that create a new opportunity for others to disintegrate USA-Canada-UK-etc along language used lines. "Have only the elites speak English, bribe, destroy the elites, take over the nation. Easy. Don't let locals know English, only elites": this is the British *genocide* recipe, that *Jews* use too. *Wake up.* Workers of the world unite, have *one language, equal access to information,* understand Brits *and their endless lies, how they* exterminate nation after nation, just as their Bible explains, that they promote with the Anglican church: nice words, genocidal actions. It's almost as if the Anglican Church and other national churches of other Jewish colonies worldwide who profess faith in Jewish Jesus, the unproven pompous master of the infinite dimensions and realms, was created by Jews themselves, the Jewish Royal Family: Edward, UK King in 1400s, claimed to have descended from David, the Israel King, not surprising, since why would Brits promote a Jewish religion? *Be aware, many copy the British methods, so promote one language, no matter what it is, to replace 500 in your area. Peace depends on it, 0 violent crime depends on unity, understanding, empathy, love.* East Asians, other groups come thru the border illegally, exterminate covertly the native Americans, Caucasians, Mexicans, Blacks, etc with weapons they get from the British CIA. This way, the Brits appear friendly to others and they put blame on Asians or whoever they use to attack others who look different.

If we want democracy, *equality* per the 'Democratic' Party, *then family* size *equality* is a thing: *all races, ethnicities are entitled to the same average number of kids, not 1.05 or 4 times more*. Let's not be hypocritical, if we want *equality*, Income *Equality* (max income 3-5 times the lowest, until it becomes equal income for all via 11 companies in 500 years, with highest immortality credit scores getting more management jobs and new (risky though) longevity tech access), Education (free education for all) *Equality*, Housing (single family housing for all) *Equality*, etc, Immortality *for* All as in true *Equality*, then *equality* is on *all* levels, including the *average* number of kids for every ethnic group, *Jews* included, who in 2024 get 2 times more than OECD countries. To ensure true *equality,* we Immortalists *will mandate* Parental Licenses, to make sure the educational tone is gentle and soft, like drivers license test ensures we don't endanger other cars, we ensure no parents endangers society by spanking, slapping or yelling at kids (have a nice tone) and having basic nutrition info. Once one received the license after passing the test, they can procreate and they will be told maximum number of kids per family, as adjusted sometimes for 5 years for every ethnic group (for a while until it becomes the national average) and

immortality credit score range. This is to prevent the *average number of kids from becoming higher for any ethnic group*, to promote self-control and meditative bliss, higher brain function, new cortex structures psychos from many militaries, spy agencies lack as they're genocidal bloodlines of millennia of torture, to prevent some religious groups from various nations from exterminating by overpopulation *(many religious sects in various religions are nationals of a certain country mainly and their covert goal is to take over the rest by fucking as much as possible, under the cover of "big families" belief)* and gangster torture and hidden violence the rest, to prevent the abuse of democracy and immortalism kindness and Immortality *for* All ethos by animalistic fucking enthusiasts. Inspiring themselves from the Brits, other 150 nations try to send immigrants to various places, *displace the locals, have 5 times more kids and take over those nations, be* them European or others. *In Kashmir, Muslims tried to have 10 kids, while Hindus had only 2, so the Muslims would become beggars. To prevent* this, set up a global rule: 2-3 kids max per family and problem solved, equal opportunity to ancestor numbers, to prevent abuse by Muslims and others who want to outnumber the rest. EU official explained the replacement theory within the Republican party, the population Jihad that Hindus are all too familiar with: Muslims have many babies and send them as immigrants to all 7 continents to turn the world into Islamic Caliphates by abusing the democratic immortalist principles of "equal treatment of all, equal housing, voting rights, education, etc", except that Muslims get to have 4 times more babies than the rest, in an unequal undemocratic unetern way. Immortality *for* All means just that, none can exterminate the others via having 10 kids who go on killing the others in the name of fictional Allah and made up Quran, the Bible rewritten with some additions. Any LGBT promotion takes people into animalism, pollutes the quantum field by decreasing global sperm quality, and is a threat to World Peace (8 pages here explain why), people need develop their brains, not to be tortured by the thugs who fuck like rabbits to make a big family to rule over nations via their front companies, and 50000 banks of global terror. Why would we value quality of kids instead of quality? Because we want Peace not beggars fighting eternal wars. We have trillions of years to grow our population, we don't need to have 10 babies and honestly, we have not even achieved a green 100% renewable fuel and electricity society as a planet and ALL HUMANS could all disappear in 10 seconds in 5 years due to new weapons, the # 1 priority is ~*~Eternal Universal Peace~*~ in 3 months, not torture or having 10 babies.☺☺☺☺☺☺☺

The Democratic Party and all leftist parties worldwide, not just far-right ones, need to promote *Equal* Rights and *Equal* Family Size, to give all the same opportunity. Why would a billionaire, who achieved it via theft, have 8-12 babies, and someone else, who may actually be better for the human quantum field, only 1 kid? Why would King Saud have 107 babies, a genocidal Morocco sultan 880 to 1171 babies (read how cruel he was), and the rest only 1? This is not democracy. It's feudal terror. Why would French Muslims have fertility rate 3.0 and native

Germans 1.2? This is 2.5 times more babies. Not equal, so the EU needs to rectify that. See how low average EU fertility rates are. The Immortality Credit Score being higher would mean the government would encourage those guys who have more than 0 or 1 kid if still young, as those guys contribute to immortalism and its values, ethics, instead of promoting aristocratic *subjugation*. If the Demon-crats, leftists want real democracy, real *equality* of incomes, *equality* of free for all education, of this and that, then embrace *equality* of family size, and the Immortalist Party and quit in Droves. Let us change the Americas and Europe and bring immortalism to the mainstream, true democracy, true *equality*, not this sham democracy in USA today, where the rich get everything. The Democratic Party seems nothing by Jewish Fascism promoting Big families of the Rich, Jews and other groups Jews use to start fights. The Ottoman Empire was replaced now with the *Immigration of Muslims Empire, bent on turning Europe* and USA *into Muslim colonies*. People of the world, softly wake up, religions are mere stories, based on fake miracles, please read the 3000 bad quotes of Islam, Judaism and Christianity and understand it is all made up. To have kids one only needs to try around ovulation. Sex obsessed people can ☺*kindly tenderly gently*☺☺ *stop having sex nonstop*, like 'Sex and the City' TV program, clergy (who promote sex outside procreation) or Imams say, develop the brain, meditative brain that discovers how to live to a trillion, gently practice kindness, religion is not needed, but if some need a pseudo religion to fill the void, try immortalism. To turn EU into a Jewish Caliphate with animal sacrifice in places of worship as in the Talmud, or where all gentiles are mere slaves of Jewish CEOs (with 2300 acres palaces) and managers, the Jews incite Muslim-Christian fights and inter-racial fights, so everything becomes a melting pot of slaves for Jewish businessmen. Since both religions are based on the Torah (Old Testament of the Bible), in tone, violence and nature, they're encouraged, for the "drastic lowering of average IQ" of the Europeans. All nations need to catalog all ethnic identities of all if a true immortalist (real ethnic identity, not fake), so all get equal rights to number of babies and know when to stop. *Be civil, raise quality kids, not 12 beggars. Those not familiar with European history, this British covert attack on Europeans is normal behavior, like native tribes used to kill each other, Arab tribes, Chinese warring states, Asian wars, etc.* This is due to a bad music and culture that doesn't focus on World Peace *in 3 months*. We see how well the system is designed to ensure all immigrants, legal or not, and most non-immigrants too, are eternal slaves of the guys (Jews? Brits?) in charge who set one nationality against other, to control both or damage, kill both. Divide and Conquer. Honestly, the same happens in most countries. Nothing new under the sun. Doctors without a brain, promote brain damaging aluminum rich HPV toxic vaccine for all, instead of meditative bliss and sex for procreation only education for all, because they make more money doing useless penis cancer surgeries, preventable by free universal immortalist education that informs people about the AGEs in aristocratic mafia companies foods, given to us to cause cancer.

You only need to watch how lacking in *gentle tender soft healing graceful nurturing universal loving kindness* or, shortly, how uneterni their tone of speech is, to know what kind of people these "Congress" people are: helpless slaves of the generals shouting "right", "left" as in military camp. No higher emotion, everyone for themselves, pure jungle, no universal grace and love for all, except once a year at some speech for 2 minutes, no Immortalist Anthem vibes, only the trash vibes of our anthem today. Shouting and yelling all day, some of the days, hurling insults nonstop *(all faked of course, they're best friends, just theatre to deceive the voters; when genuine, it's all brain control by the phone to brain gadget guys)*, turning Congress into a used car sales auction vibe sometimes, like 100 other Parliaments globally too can become on some days. Again, there is no procedure, MRI, standard of kind language and tone, as the Immortalists want to create. They can't be themselves, they're tortured slaves of the military, told exactly what to say on the Parliament floor for the TV cameras, like in USSR, so we need to have compassion, since some of them were tortured for years, daily to become "what's left of their former self". They cancel some student debt and sell this as the greatest kindness ever, when in fact, with true efficient centralized tone education, we would cut costs and make it free for all. But no, slaves can't have any information, so they can't make any choice, just watch slapping sports, soccer, volleyball, football, baseball, pickleball, basketball, other forms of 'Baal/Satan' worship. Why help bring World Peace in 3 months,☺☺*lovingly tenderly gently*☺☺, decent houses for all, when Demon-crats, Re-pub-licans tell you to go watch a BALL move at a stadium that could have build houses for you in that space, with those materials? Habitat for Humanity (volunteers to build houses, except we build them far cheaper due to being 50,000 times bigger than that nonprofit) like exercise recreates USA, makes 0 crime, but this isn't allowed, it takes space from beef grazing (see vegan protein), corn/soy fields used for cattle, private prisons, businesses aristocrats design to make profits and raise horses on 100 acre areas, while others live 9000/acre. USA leads the world in prisons, see this graph, mind blowing. See an alternative to that via *gentle tender compassionate healing nurturing universal loving kind* grace☺☺☺☺☺.

6.11. Immortality test for leaders, TV show hosts, journalists

IMMORTALITY TEST FOR LEADERS and its use in ELECTIONS: Immortalism is the end of aristocracy and declared monarchies, as well as the end of undeclared monarchies within "REPUBLICS", monarchies of spy agency military spies aristocratic select families who run entire nations for centuries. 100-9000 high Immortality Credit Score people will *apply for one of the top 1000 positions*: senators and leaders of the 11 companies and 3 agencies. This is 9 million people applying at most. All candidates for President or the 1000 top positions take the immortality test, and the one with the highest score is one thus elected by the (intelligence of the people who created the) immortality test. People select the candidates or propose candidates for one of the 1000 positions or president and the immortality test reveals the winner, since people

can't know who is the one capable to pass the test. So, the immortality test (created by the smartest people) and the people choose. This ends the bloodlines, the undeclared monarchies where the nations are ruled by a few elite intelligence community families without any real merit based selection. Election of real hidden leader today is based on cruelty and "kiss boss ass" allegiance, the dictatorship of the least immortalist, most macho and psychopathic among the people. The unelected terrorists rule from behind, while the elected are mere remote puppets. We establish the immortalist global democracy with all important leaders under 50 for maximum brain capacity, with the immortalist tone speakers and 0 media violence.

IMMORTALITY TEST FOR JOURNALISTS, TV show hosts: (these phony fake lefties or even some right wing hosts make millions by deceiving Americans, keeping them ignorant and chained as slaves of aristocrats (the hosts being aristocrats of course, making millions by bamboozling the enslaved masses listening to their lies), hosts who can even stage their death, like any celebrity, they never show you the video of the 'dead' not breathing etc): 1 in 10 million news items deals with 500 year lifespans or Civilization of Immortals building topics. Journalists need to use AI or nice tone to create a nicer vibe. We have 10% news items about the "least intelligent" stuff that is not even worth reporting. Another 30% don't have much merit either. The Immortality test makes sure the journalists are creating the most positive stories, framing everything in the view of the development of eterni qualities, the character traits of Immortals that we need to manifest trillion year lifespans. Likewise, leader (longevity tech people, no more politicians) speeches are to be updated from the ultra trivial short-term goal focused ones, to concrete steps to achieve the goals mentioned in every speech to steer the planet towards them: trillion year lifespans for all humans, ending all violent crime in 20 years and jails in 10 years (replaced with healing centers for violent crime, educational courses and fines), all wars in 3 months. Leader speeches are no longer written by the military mind controlling "leaders", but my immortalists who inspire and uplift all humans to the intent of "working for and wishing Immortality *for* All". Too many news items deal with "saving 2% on this and that", "GDP and economic growth", when the real parameters, lifespan, healthy lifespan, never get any attention. Too much talk of weapons and killing, violent crime, disasters and too little about living to 1 million or 300 in a world of peace. Everything ought to be framed in terms of longevity and happiness, not price, weapons, crime, etc. The whole politics revolves around money, not LONGEVITY AND HEALTH. Watch how easily politicians, militaries, etc threaten others, 1 trillion times more often than they talk about "In the New Year, our country will work to bring Immortality *for* All, trillion Years Lifespans for all, for the common good" (not invading others using killing weapons). It's as if an anti-life force has taken hold of most speakers, too afraid to place the human species interests above petty tribal goals. In 2020s, every religious or political leader is too afraid to give anything of substance to any other nation in their speech, such as the idea all people could live in peace

and harmony to a trillion years old even if they have 2 or 100 times land per capita, because after all, all they lack is the tech to live to a trillion, not the land they wage eternal wars over. Instead, the speeches are filled with the same old cliches and banalities, short-term goals that may benefit us to increase lifespan by 0.000001% to 0.1% or even shrink it if a war, but not increase it 5% to 5000% any time soon, that have ensured the eternal slaughter status quo of infinite violence, void of any mention of the hybrid quality of universal *gentle tender soft nurturing healing loving kind* compassionate *grace* that we desperately need, of the vibe of Immortalist Anthem kindness a trillion times greater than that of the most nurturing gentlest mom. Monkeys fight a lot and own a lot of land, but they can't live to 120. How are we humans different than baboons? Everything is about GDP, not GIP, *Gross* Immortality *Product*, how much longevity and healthy longevity *have* increased. We hear ads on radio or TV about "a new tasty meal", but nothing from Immortality *Nurturing* Agency testing for AGEs in food and creating 100 times more R&D jobs via centralization to give us better food or how to cook at home to prevent AGE formation. Journalists and leaders will need focus on the Imminent Manifestation of the Civilization of Immortals with enough human effort, on the everlasting beautiful shimmering radiance of Eternal Universal Peace, the World Peace in 3 months and its maintenance for trillions of years by bringing all crime to 0 in a few decades, etc and moving the Immortality news stories from *1 in 10 million* to *3 million in 10 million*, any discovery reported is presented in terms of physical Immortality, with mentioning trillion year lifespan very often, besides the short-term goal of 5 million years *lifespan* for *All*. ☺☺☺☺☺☺☺

The media seems to serve the aristocrats whose goal is to enslave the workers via a system of torture and terror known as jails. For example, to prevent crime, simply hearing ad nauseam on TV-radio about crime events *(this and that happened* without any commentary on what causes it *and how to eliminate the causes (lack of* centralized education (euqal opportunity for all)*, lack of decent housing, lack of decent food, etc), not the symptom of crime)* is not doing anything, except brainwashing people that this is inevitable, the way of life and that the people have no power to change it, that their slavery to this insanity is eternal and their only choice, like it or not, daily, their brain will be shoved endless horror stories with no escape possible to a decent planet. If instead, they would focus the news on the qualities of the Immortals and news items that prevent criminal behavior, such as new tone in all free education, new music, decent music, nonviolent music, volunteering via the immortalism sports, etc, on decent scriptures (remove all violence), decent anthems, etc, the workers would not longer be cannon fodder on the altar of aristocratic wars. Too many new year addresses are about "wars, weapons and border changes using military genocide" in disguise, and nothing about the human right to live in peace to a trillion years old, empowering all humans alive to live ☺☺☺happily☺☺☺ to a trillion, which is only a nanonano second in the life of God and would take God an infinitely small effort to help

us achieve. By the way, Jesus could not even make someone live to 120, which people achieved today by science, so you're free to doubt the so called "true" miracles and the violent ideology of the Bible, Quran, Torah, Mahabharata, Book of Mormon and other so called "scriptures". Thanks to the internet revolution, and youtube, anyone now can create more uplifting 2-10 page scriptures, anthems, music, than anything ever created, as we got the tools no generation had. We have many ads, 30,000 or more, about various pills to take, like Ozempic that causes hair loss and brain damage allegedly, pancreatitis and blindness too, but too little about proper cooking, eating, creating a calorie intake table for each meal to avoid weight gain, sleeping to prevent issues like weight gain or proper music, culture, tone, etc to prevent terror by spy agencies, wars. When spies attack with microwave lasers, nobody tells you these things...

Today, endless fake news are possible, as pathological liars☺☺☺ who encourage dishonesty, scientific fraud and dishonesty, make false claims while providing no evidence, aside from some picture that shows nothing, as pics are so easy to edit and fake. For example, the fake war section explains how deception is done, how fake videos are made. In billions of news items, a pic or two may be shown, for the victim, but no pic or video confirming that that person was injured or dead or an autopsy was done, etc. Everyone knows a huge number of "dead" people in the news didn't die, but simply staged their death, as spies and FBI agents, cops, soldiers, etc. This is why immortalists would demand video proof for any claim (video of the nonbreathing person etc, of the alleged crashed car, airplane with the pictures of the mangled dead bodies, etc in the plane, car or ER, video of non-breathing person, to create evidence based news, not 30 cents news written as lies to promote a world of fraud and dishonesty, so aristocrats can escape justice by faking their death, getting a new identity in a gated community somewhere, changing appearance maybe a little with a new hairstyle, hat, clothing), in order to train all to see clear unfakable scientific evidence before believing any claim of fake miracle or other events used to dupe the workers into being eternal slaves. 1 Trillion times fewer violent crimes is only possible with 1 trillion times fewer lies. The Zionist media destroys the gentile brain by flooding it with negative news of death, porn, sex outside of procreation, smoking, alcohol, war, drugs, weed, saving 10$, stocks, gambling, etc. This eternal war on gentiles enriches the Jewish bankers all over the world. The TV teaches all to be naive ☺puppy IQ workers☺ who never ask for proof, in order to facilitate the massive theft and subjugation of workers by the crafty deceiving aristocrats or spies, tourists, officials, bankers from Israel or other nations. They have no standards, in order to lower the IQ of the masses, dupe the masses, steal from the masses, destroy the nation by deifying scientific dishonesty. The parasites know how to feed off the immense ignorance, gullibility of the gentiles who believe in the lies and extreme grotesque violence of the Bible. The claim in a news item needs to be supported with video evidence, multiple sources, showing what is claimed, otherwise, we raise a nation of ☺abysmal IQ☺ folks

that are too easy to deceive by aristocrats or foreign spies. ☺☺☺

CHAPTER 7 - *Immortality* MUSIC

7.1. Acoustic Nutrition & Peace | 7.2. Delta Brainwaves | 7.3. Cymatics ☺☺☺

7.4. Music effect on germinating seeds | 7.5. Music effect on plant nutrient uptake ☺☺☺

7.6. Lower volume and no headbanging | 7.7. Cymatics of subtler inaudible sounds ☺☺☺

7.8. Music and violent tendencies | 7.9. Music, World Peace in 3 months, ESP ☺☺☺

7.1. ACOUSTIC NUTRITION (clear amyloid plaque, etc)

7.9. explains humans are not even like 500+ mammals who don't kill their own, we're sound vitamin deprived; malnourished (sound or chemical vitamins) animals become very violent. The state of emergency section explains why concerts, discos, pubs will be banned during the effort to increase empathy and reduce violent crime a trillion fold. The shimmering shapeshifting eternal radiance of the Immortals (& God) will be more palpable in the music techs of the future, able to create 3D shimmering fractals with thousands of colors as sound is played, with a certain device that allows certain cymatics moved particles to cause these light reflections, indicating what sound vitamin it has.☺ MIT/Harvard research found 40 Hz (the frequency advanced meditators reach instantly after decades of practice) sound clears dementia amyloid plaque in mice Nature 2024;627(8002):149-56, and it was confirmed to work in monkeys too ► PNAS 2026;123(2):e2529565123. Youtube has many 40 Hz samples, some claim it's a miracle brain healing frequency to boost brain focus like meditators, here's a serene one. With binaurals, only listen as many minutes you feel comfy, some Hz may damage the brain, I find most binaurals to be a crazy idea, since it's like you try to double HDL, but people die more since low HDL is caused by other things that need to be undone to live longer, so just trying to force a frequency may not aid the brain, but damage it more: meaning better brain is caused by something else that causes a frequency, frequency being only 1% of it and done artificially is different in its effects, causing damage to brain structures not occurring in natural brain waves. So I avoid headphones, I just listen to the melody of youtubes, since they have done zero studies to prove the safety of these 1-40 Hz headphone entrainments, I think they do more damage than good, unless you're very sick and nothing else matters to save a brain from death/severe illness. Sound is powerful, one guy was shaking for decades, then some ultrasound guided by MRI to his brain stopped it all, a cure for Parkinson, an overactive circuit turned off. No surgery/pills. ☺☺☺

Some drugs increase dopamine in the nucleus accumbens (NA) 300%, the reward center of the brain, and music can lead to a rise in dopamine in NA too, but not known how much. Certain music styles may lower telepathic precision and this is very easy to test by administering ESP tests to people exposed to different music styles. The brain is the most sensitive and complex

machine on earth, to assume that one rhythm and music is the same with another is kind of a stretch. It's like saying HCN (hydrogen cyanide, a poison), ethylenediimine $H_2C_2N_2$, imidazole $C_3N_2H_4$ and C_5H_5N pyridine, $C_5H_9N_3$ histamine, all compounds with only carbon, nitrogen and hydrogen are same because both are made of sounds of same atoms: carbon, nitrogen, hydrogen, as music is made of the same basic sounds. SR 2014;4:6675 explains the cymatics effects of sound in liquids (most people are familiar with sand on a plate taking orderly shapes with some music as explained below); humans are 70% water (liquid). This is an interesting topic of neuroscience that could be researched more, we research vitamins a lot, but what about music? People used to think that lead in our fillings is healthy. Only recently we discovered lack of *vitamins* led to millions of deaths and diseases people. But 100-200 years from now, they may discover something else, the sonic vitamins. Sound vibrations led to transcriptomic, proteomic, hormonal changes in arabidopsis (cress plant) ► SR 2016;6: 33370. Sound at 0.1-1 kHz, 70 dB for 3 h every other day increased the yield of sweet pepper 30%, cucumber 37%, lettuce 20%, spinach 23%, cotton 11%, wheat 17% ► JIA 2014; 13(2):335-48, immunity *jumped as rice sheath* blight disease declined 50%; they found that sound can cut fertilizer/pesticide use by 15-25%; mature weeds can be wiped out with 50% less herbicides as sound makes them penetrate; the sugar content of spinach jumped 38%, spinach vitamins increased too: A 36%, C 42%, B 40%. Plants hear sounds too, flowers produce nectar when we play the bee buzzing sound nearby, even if no bees around; no other sound makes plants start producing nectar; plants emit ultrasound when they're stressed due to drought or gardening trimming. If humans eat a substance made of H, O, N, C, like glycine, a harmless amino acid, they're fine, maybe even live longer. But if they eat 2 mg of ricin, a natural poison, made from the same elements, they die immediately. The hypothesis is that the same thing happens with *music*, telepathy and longevity are enhanced with a combo of sounds/lyrics and hindered (even central AC unit, traffic, airplane) with another. It's true, since sounds affect tissues, organs, mega-molecular systems. Sound can either shorten and lengthen lifespan, just like substances made of O H N C can either shorten or lengthen lifespan. The science of sound physiological, vibrational effects on cells, brain is kind of undeveloped compared to the science of chemistry and physiological effects of compounds. This doesn't mean there is no difference between music types, simply because we don't know their effects. But this is not proof either, of course, that one music is far more shortening of lifespan than another, as in plants who died when exposed to rock music. A natural question is: will people discover a sonic vitamin enabling lifespan increase of 20% or even 40% regardless of all other factors, shown to work in worms, mice, rabbits, plants, humans? Does the Fibonacci series have something to do with it or the geometry of sound? Cold plasma may increase plant growth by 55%. Sound was shown to increase growth by 43%.☺☺☺

Sound frequencies can break glass. They can also break very easily cellular walls, leading to

organ damage. Sound with frequencies below 20 Hz, the lowest frequency our ears hear, is named infrasound, like infrared is light below lowest frequency color our eyes see, red, and ultrasound being above 20 Khz, the highest frequency our ears hear, like ultraviolet light is above highest frequency color our eyes see, violet). They can cause mixing of fluids, moving of levitated objects even in mid-air, meaning they can cause cellular components to collide with each other, or cells and organ components to push against each other. If you point 19 Hz at someone, inaudible since humans hear only 20 Hz to 20 KHz, they start seeing spots, as this is the resonant frequency of eyeballs. Other frequencies can cause hardness of breathing or skeleton vibration. Heart resonant frequency is 1 Hz, brain 10 Hz, etc. So all these organs can be damaged or altered with sound. Think about what sound does to a fetus or 1 year old baby, who is more sensitive than an adult to some of these effects, since sound penetrates much deeper (since his thickness is much smaller than that of an adult). Sound can also heal cells and lengthen their lifespan.☺☺☺ Our macro lifespan depends on cellular lifespan. Why do we age? The cells become senescent, unviable. What is the role of sound as information carrier, as geometry carrier as inter-dimensional light carrier thru geometry of the local fields *matching other dimensional fields? If you put 100 Petri dishes with 100 types of human cancer cell lines (they got tons of such lines), and you expose them to certain sound frequencies*, you will see some sounds can kill those cancer cells far faster than many antioxidants used today. Same way, some sound frequencies can lengthen the lifespan of normal cells, while other sounds harm cancer cells while helping normal cells to live longer. The pharma companies are not interested in this as much, as their business model is selling pills not mp3 files. Centuries ago people "ate food", totally oblivious of the fact sweet potato has 787 µg vitamin A in 100 g versus 1 µg for potato, leading to catastrophic consequences, such as early death, blindness, poor eye sight for adults and offspring, etc, since adults need 700 µg to 1,300 (lactation) µg daily as explained in the Vitamin A section. Lutein protects the eye against UV damage and raw kale has 1,318 times more lutein + zeaxanthin and 769 times more vitamin A than potato, while sweet potatoes have 0 lutein. An estimated 0.25-0.5 million vitamin A-deficient children become blind yearly, half of them dying within a year of losing their sight. How many millions of Americans develop "need of glasses" and other unknown health issues (blamed on other things) because of low vitamin A and/or lutein during womb time and over a 10-40 year period? Today, centuries before many sound *vitamin discoveries, people listen to music, totally oblivious of the fact one music may be far more effective at increasing lifespan than another, possibly by a factor of 787 as with potato vs sweet potato.* Sound is energy in a certain geometry, chemical molecules are energy in a certain geometry. We talk about ~~chemical nutrition~~, but next centuries we may talk also about ~~acoustic nutrition~~. The natural transformation of a normal bee into a queen bee living 50 times longer happens because of NUTRITION ALONE. *What if one far away day, people figure out using sound to live 5 times longer, via ~~acoustic nutrition~~?* It's interesting that people living on

noisiest highways, hearing the chaotic noise, get more heart attacks and mental disorders, is that association or causation? EU introduced laws to reduce noise levels, as electric transportation today would reduce noise and levitating transportation would reduce noise in the future. Overuse of ultrasound (2-4 MHz for babies, up to 15 MHz for other uses) can damage the brain and body of the fetus and mother.☺☺☺ There is an independent unknown biophysics cellular disintegration effect of music (i.e.some music will help the cells more), on the human body, totally independent of people's like or dislike of a music geometry, rhythm, style, etc. You can like a can of soda and drink it and get cancer like many people do due to over drinking soda, and even if you like it, it shortens your life. Same for music. This life shortening is independent of the violent lyrics, which have been proven to lead to violence.

It's possible in the future we will have Media Protection Department of the INA, Immortality *Nurturing* Agency as we got FDA, Food & Drug Administration, to approve the geometry of every music and tone of speech in movies, to make sure it is meeting the criteria of life-enhancing geometry and properties.☺☺ Even the more "mellow" melodies can affect our way of thinking, how much we practice filtering of thoughts, emotions, etc as in Chapter 8. How gentle we're in our hypothesis formulation and testing depending heavily on the gentleness of our speech and speech tone we hear in singers and melody tone we hear. Even folk, pop, classical, opera, etc music from many cultures brings with it all the emotions, energies and patterns of past millennia, and doesn't always stimulate the most healing gentle tender *nurturing* thinking, feeling, speaking filled with universal soft loving kindness. Upbeat music sometimes makes people euphoric to such an extent, that it lights up different brain areas than those dealing with universal compassion, so people think more of enjoying the music now and less about compassion for people living such short lives in war. Hypothesis thinking and creative thinking neural pathways share more with gentleness related emotional pathways, so scientific innovation is limited when the brain areas related to aggressive emotions light up. Additionally, this lack of caring (well, people are too tired to have energy for that sometimes) about the emotional pattern we create in ourselves via music listening habits and its impact on the World Peace brings with it a very inertial living like in past millennia, i.e. a lack of empathy for self and others, for our short lives with endless diseases, so we become complacent, defeatist, pessimistic and give up any real hope of living long and creating that world of Immortals, of tripling lifespan, we become very inertial. This strong attachment to slight restlessness or very subtle aggressiveness (sadness, fear, anxiety, or other negative emotions) inducing music (we listen to some songs when a kid or young, we associate certain emotions with it and develop strong attachment, not seeing the side effects) then shapes the emotional habits of the society, in very subtle ways, and people miss enjoying gentler music for 9,000 years, because they liked more war, aggression and conflict bringing music for 80 years. ***Think about how many hundreds***

of thousands of scientists and engineers toiled to discover how to make Helios 1 probe reach in 1980 a geocentric speed of 215,913 mph, 7,685 times faster than a human can run, (extend our natural transportation speed 7,685 times), *so much calculation and etc, but with music, how much science and engineering goes into making music* extend natural lifespan even just 2 or 10 times? Wouldn't it make more sense for people to engage in more citizen science to see which music rhythm, sound frequencies (for the whole or individual organs), voice tone leads to the fastest growth of plants, and best outcomes for human health and longevity? It would be easy to start a concert with "Physical Immortality☺☺☺ fans and spiritual Immortals (for those who believe in the possibility), humans were able to transport themselves at 17,000 mph via ISS, 600 times faster than fastest running human, thru science and Helios 1 reached 215,913 (7685 times faster than fastest human runner) mph geocentric speed in 1980. Thru science, we will discover music techs (acoustic nutrition) able to enhance human lifespan by 50% at least."

"So before we begin the concert about Eternal Lifespan Tripling (not just living to 300 or 900, but tripling that over and over) and the world and vibes of Immortals' music, we have designed some sound experiments and will show the science results of various frequencies on plant longevity and effects on healing rate for humans, as well as 50 human biomarkers related to longevity. Based on these scientific findings we designed the concert implementing these ideas and we welcome more citizen science projects, ideas at musicforlifespantripling.com. The winner of the best citizen acoustic nutrition science project will be invited to sing a little in a eterni tone a song about his/her scientific hypothesis backed up by his/her study, so s/he can inspire billions of people to be aware of the chemical-longevity consequences of the food eaten or sounds and lyrics they listen to. ☺☺☺ Also our lyrics for the next song are new and about *the* biochemistry of living to 500, the physics of *living* to a billion years old and moving into another universe after this one collapses, and we invited 10 University *Professors to present ideas about* Immortality *or extreme lifespans and 40 companies to present products and* science *demonstrations in the breaks so everyone can have knowledge about their biomarkers of aging,* instead of imagining that dancing like some isolated tribes (or people anywhere did even 50,000 years ago) will triple their lifespan, when data shows that dancing more doesn't make people double their lifespan, many isolated tribes live to 50 if they dance a lot or not, as malnutrition is there. Can we get real? Likewise, we're all malnourished of those ideal components to live to 150, yet we think ourselves smart and well fed. By stopping buying so many cars that kill people early with smog and instead buying more nutritional products and longevity biomarkers products we can support the development of much better testing methods. Right now it's impossible with our stone age technologies to measure 500 biomarkers every week for anyone, but with more physicists, engineers, chemists, etc we can develop *gadgets that make the use of blood even outdated, as the camera takes picture of our hands, etc and detects thousands of*

biomarkers, toxins, heavy metals, nutrients, etc in the blood, hair, nails, skin, bones, tissues, lymph and nerves. Right now, to monitor many biomarkers very frequently for a person (to build the best AI nutrition and maximize chances of living to 100-120) would cost a million a year, that can be brought down to $1000 only thru the limitless energy of the youth who recognizes that *going to bars, sports, dancing at concerts or clubs, discos, parties, alcohol, weed, smoking and fast cars* and fancy clothes, are not going to help them live past 80. Computational power became a million times cheaper in a few decades, so can longevity biomarker testing become. *Play any sport all day long, you will never live to 150.* But by supporting a science of lifespan tripling global renaissance we can create a new Civilization of Immortals and live to 150. Buying a fancy car and then selling it at trade it for a 5th of a price a few years later is insane when these same people are deficient or out of optimal range in 30 nutrients or biomarkers of longevity, and never take a blood test to analyze them in their whole lifetime (the standard test only measure very basic things). How can killing people with a fancy gasoline car and never taking 1 test (when to develop an AI we would need 20-100 tests a year not 5 a lifetime) to measure biomarkers ever build the Music of Knowledge of Immortality and enable us to create a science of Acoustic Nutrition *80 year olds will never be able to, but 900 year olds* would*? So let's think about this and make Immortalism the substance of more music and concerts and embrace science and support science so all can live and dance or play their sports until they're 500, not just 100. Thank you". The idea would be to move away from tradition and towards science of longevity based scientific music, just as we would with eterni food of the future.*

The instant gratification desire is strong, like alcohol/drugs/smoking addiction can be, and it causes people to eat unhealthy food, or do certain unhealthy things or even to listen to music that is lovely and unique in its texture indeed, but music that comes with some side effects of destroying the soul core of *gentle tender softness* that is essential to World Peace and really more advanced science. The "Immortals" have no anxiety, so the need to rush and to be so restless in music even, to forget eterni tone, to not emanate always the most gentle healing *nurturing* tones, rhythms, lyrics and vocal tones simply is not there. We can't have NaOH and HCl in the same flask, one is very acidic and one is very basic, together they neutralize leading to NaCl and H_2O, neutral salty water. We can't have so much restlessness, anxiety, aggression (HCl) in music and the most healing civilization of peace (NaOH) and longevity, as war brings short lives and conflict does too. We have a choice: peace or war, gentleness or excitement, empathy or gratification, compassion for all beings☺☺☺ or joy for our group now, nonviolence or having fun now, tenderness or sarcasm, healing or insults/hurtful jokes, living 9,000 years or 80, etc. *In physics gadgets of nanoscale we care about 99.9999% precision many times, but in music do most composers and singers care about even 20 to 90%* eterni tone*?* If the people would try to realize how difficult is to achieve World Peace, to prevent trillions of possible causes that can

bring any war or violence, if they would realize it's possibly as difficult as trying to prevent trillions of possible causes for developing cancer or acne in all people (something our science can't do), they would be more eager to listen to more peaceful music, more music that focuses on World Peace, on the compassion to alleviate the short lives of suffering we have via science of lifespan tripling and disease curing related songs, etc. We think of instant gratification now and most create music that never mentions living to 9,000, the science of longevity, so we reap what we sow: history repeating itself a lot and very little progress towards peace and really long lives. If we look at our planet, the longest living things or "beings" are rocks, billions of years maximum. What is the quality of rocks? Infinite tranquility, not moving, not being agitated as in most music; they don't move, they're like the most senere meditation music, they witness, say nothing and endure for eons, being so silent and kind, allowing all to use them. We learn from nature, many inventions are us copying nature. What can we learn from rocks? Could rocks be a message that humans who live to 9 billion have a culture, music, society of ultra soft tender gentle healing *nurturing* tranquility and serenity? Beyond planetary rocks, the longest living objects in the universe are stars, and among stars, the longest are supposedly red dwarfs, which burn at a cooler temperature than normal stars, being less active, more tranquil. ☺

7.2. ALPHA, THETA, DELTA BRAINWAVES

Today, we got Internet, but spy agencies publish millions of fake videos and books, for disinfo, claiming CIA found alpha and theta hemisync, etc will enable you to see the universe via astral travel (monroe institute), etc, but it could just be a method of increasing suggestibility and making you a mind slave too, as the programmed killer video too explains. It's a trick to use you as a Nazi experiment test subject many times, nothing more? What do you think? They're looking for guinea pigs to turn into robots? To spread the holy quotes of the holy Torah in the Bible? Also, we know heart disease is caused by low HDL, high LDL, so, in many instances, when people got a pill that made HDL high LDL low, people didn't get less heart disease, but more; so simply because we reverse 2 parameters, doesn't mean we reverse all things associated with those symptoms; likewise, when we meditate, etc, our brains go into alpha, delta states; so just playing on huge headphones alpha or theta won't necessarily achieve the same effect and may even damage our brains as the cymatics section shows: sounds, audible or not, can totally destroy our brains, they cause matter to move, can cause strokes, brain tissue damage, so be ultra careful in listening to odd stuff online, as it may be a pure weapon to destroy your brain. However, peaceful music is very helpful to reduce aggression, built in our DNA over eons, to reduce blood pressure, to be healthy, just don't go overboard imagining that alpha or delta will give you superpowers, God is not 'low IQ', Sony tech can beam videos into brains to make us think we astral travel (CIA can beam dreams in vivid detail), but it's not God, and not due to the CD that destroys our brain, something from God is totally different than the CIA junk, since God

is trillions of times more advanced than human tech.☺☺☺ To be safer, use tiny earphones, to avoid creating supramolecular effects. They promise the sky, as the "Messiah" brainwashing 2 billion that "Christianity is real". A lie repeated 900 fold by 2 billion sites, becomes accepted as fact by the masses of naive newbies: if astral travel exists, God would explain to the projector that it's not something you would share with the people on Earth anyway, we don't even have World Peace; and God could help you project 70 times daily without meditating even at all, and even while you're tortured by spy agencies or do daily activities... God doesn't need alpha or theta state to make you a robot, spy agencies may need them; astral travel is more valuable than all wealth humans have, so God would not grant it just to all, you would immediately figure out all the scams going on, see alien civilizations, how all governments lie nonstop, though that one you can infer it from the fake news and how clergy hide all bad quotes, and still get tax exempt status, looting the government, the poor people, everyone, etc. One would have to be such an angelic being as a soul, so as to not disturb other civilizations, etc, so it's not like the brain would be even allowed to download the travel usually, if the CIA can read all verbal thought of people today or the emperors, kings, generals etc of this world would want you dead (the guys in charge are human, jealous and etc and often kill people (see Roman emperor stories) who want their reign of eternal murder to stop, so they will fight all World Peace in 3 months and 0 violent crime in 10 years people, as that ends all dictatorships ultra fast, since kindness reaches cosmic levels). Anyone with any IQ knows, by deductive logic, that there must be, in an infinity of probable events, aliens out there, who're way more "eternal" than us (just as we live thousands of times longer than bacteria), whose kindness is also millions of times greater, ☺☺☺, that would make the most saintly human that ever existed be a million times worse than the worst in their world. But they may not care about us or be our size, just as we don't care about microbes living 2 days. Phonies who want to get rich, or use "astral travel" as spy cover, write 100s of books about fake soul travels, miracles, claiming their delta mp3 helped them fight the dimentional alien overlords (grey, reptoid).

Here is a hypothesis: a key to a civilization of Immortals living to a trillion is peaceful music that effortlessly enables us to be in a tranquil alpha and theta state, for better telepathy. Written language causes a lot of conflicts due to misunderstanding, for example, telekinetic telepathic changes of subatomic structures would enable replacing handwriting with audio-video-etc data storage like today we store data in DNA. Our "not so peaceful" cultures on Earth prevent any big breakthrough in 900 year lifespan science, since we devote 2 trillion a year to warfare, 3 trillion a year to vices instead of to understanding each other, astral/physical science, the universe. It can be argued that if we study the most psychic (with the most mind-blowing paranormal abilities) people of all spiritual paths, a common characteristic is a *gentle tender soft* peaceful demeanor. Our world literature, music, movies are full of unkind (or physical aggression) thought forms. We

help by reducing the upbeat music we listen to since it subtly moves us *away from awareness and brings us into the fake personality we have acquired this lifetime by being born here.* Inside each human live multiple 'personalities', that activate depending on who we're around (not 'past life' personas). With a baby, we're warm and high pitch, with an attacker, mean, angry. Stanford Professor Carol Dweck introduced the ideas of growth and fixed mindsets: if we adopt the growth mindset we realize that if we're restless, we can change via effort and become tranquil via serene music, while a fixed mindset perceives we're fixed and can't change. *Tranquil people are tranquil by effort, and restless* people can become tranquil via music.☺☺☺

7.3. THE SCIENCE OF CYMATICS

Rife machine, you don't hear it, but it kills microbes. Having seen the dramatic effects of sounds on plants' longevity, their chemical composition, vitamin content of crops, etc, we now cover more on this movement of cells. Scientists can move objects with sound and are thinking to use it in medicine to move little pills or probes. In 1939 the music pitch standard moved from the more eterni 432 to infernal 440, to create a more aggresive Hitler like 'demonic' yelling like music and tones (more like these anti-life disharmonic 'demonic' tones: rabbi, Buddhist monk, imam, Hindu preacher, pastor), and this 440 was supported by Nazis and London blowing slaves to pieces by artillery gun enthusiasts (Anglo-Saxon alliance). Gently listen to the 440 vs 432 (same melody, but 432 is more nurturing, healing, harmonious) Hz difference. 440 makes the masses of slaves more aggressive and easier to manipulate to do evil, to be mean, to be a serial killer at the hands of the palace dwelling aristocrats and their "clergy from hell assistants". When a metal plate with sand on it vibrates according to the sound played, the sand rearranges itself in symmetric shapes like in this video showing more complex shapes as we move towards the higher pitch, frequency, energy (5K more complex than 1K), more feminine, soprano like sounds that little babies like more in their mom's pitch, so naturally moms use that tone more with babies without effort, for some unknown reason, after millions of years of evolution. Sound travels at 344 m(meters)/s in air, and 1500 m/s in water and more in many materials, while photons travel at 0.3 billion meters/s. $E=h*c/\lambda=h*\nu$ for electromagnetic waves, where E is energy, h is Plank's constant, c the photon speed, λ the wavelength, ν the frequency. For EM waves, the higher the frequency, the higher the energy. Frequency is speed over wavelength ($\nu=c/\lambda$, or meters/s over meters, or inverse seconds or cycles per second or Hertz for sound, 60 Hz is 60 cycles per second). 500 Hz sound = 344/λ, so wavelength is 0.7 m. This is studied in cymatics. As the video shows, sound has a real impact on the cells, etheric body, the ability to "hear" or understand TELEPATHY from subtler spirits who may not be as linguistic or loud as we are, as explained in the evolving telepathy section. ☺☺☺ Studies show that shape (sound that causes a shape to form as shown) can be used to induce the differentiation of pluripotent stem cells into particular organ cells, for purposes of internal regeneration of organs. We can't *deny*

the influence of sound on biological processes. Our choices are more positive and life-enhancing when we listen to peaceful music since our emotions are far more peaceful acting as a buffer against negative emotions. Many studies show *aggressive* music makes *aggressive* people.

A small recent study (see the graphic presentation) by Megan Finnen found that plants exposed to heavy metal rock music died in 2 weeks. Controls were 21 cm, rock music plants were 4 cm. The killer effect of rock music is also explained in this article. In the 1970s, marigolds died after 2 weeks, plants growing away from the speaker to avoid rock music; this is shown in Dorothy Retallack's 1973 book "The Sound of Music and Plants" which detailed experiments that she had been conducting with Professor Broman at the Colorado Women's College in Denver using the school's three Biotronic Control Chambers; h...ic.pdf is a picture of rock music exposed plants. Retallack used 2 chambers, 2 radios, fresh plants. In one chamber, the radio was tuned to a local rock station, in the other "middle-of-the-road" music. Only 3 hours of music per chamber. *On the fifth day, in the chamber with the soothing music, the plants were growing healthily and their stems were* starting to bend towards the radio. In the rock music chamber, half the plants had small leaves and had grown gangly, while the others were stunted. *After two weeks, the plants in the soothing-music chamber were uniform in size, lush and green, and were leaning between 15 and 20 degrees* toward *the radio.* The plants in the rock music chamber had grown extremely tall and were drooping, the blooms had faded and the stems were bending away from the radio. On the sixteenth day, all but a few plants in the rock chamber were in the last stages of dying. In the other chamber, the plants were alive, beautiful, and growing abundantly. This may have to do with the Fibonacci series and other geometrical properties of sound, as related to cymatics. The intensity of the negative effect on plants, animals, humans depends on how chaotic (entropy, disorder) the rock music is. Dolphins swam towards the ship playing soothing classical music, while they ran away from a ship playing rock. Human biomarkers are probably changed too within hours and many studies could be done on all kinds of plants, animals and on volunteers who want to advance the science of the effects on human biomarkers. Later, she played a constant tone: in the first chamber, she played a steady tone continuously for 8 hours. In the second, she played the tone for 3 hours intermittently. In the third chamber, she played no tone. The plants with the constant tone, died within fourteen days. The plants in the second chamber grew more abundantly and healthily than those in the third chamber. This was similar to Muzak Corporation's findings in the early 1940s: when music was played 24-7, the workers were more fatigued and less productive, when played for 2-3 hours only, several times a day, the workers were more productive, alert, attentive than when no music was played. Later, in one chamber she played North Indian classical music performed by sitar and tabla, in another Bach organ music, and in the third, no music. The plants "liked" the North Indian classical music the best. In both the Bach and sitar chambers, the plants leaned toward the speakers, but in the

Indian chamber, they leaned toward the speakers more. This is very easy to explain: North Indian Sitar & Tabla is more like intermittent sound making workers alert, not continuous Bach.

Very upbeat classical (or any music style) pieces are anti World Peace, anti precise telepathy. The brain telepathy centers are also influenced by sound, so restless music leads to more restless, jammed telepathy. It's like electronic warfare that confuses radars. It floods every radio-TV-website on purpose, so we're confused, distracted and can't see how the rich steal trillions. Going to a loud concert and blasting all that sound raises deafness (at age 50) risk 10 fold, damages the body, and the hardware of brain retrieval of physical storage (the copy) of partial astral memories (memories from lives in other worlds or spiritual planes, not necessarily as a human on Earth, that electrons store, since we're all Lepton-Quark-Boson-Immortalion beings with memories of former beings who had our electrons-neutrons-protons-immortalions). A 3 min video shows how sand moves in orderly shapes as a result of sound: shapes influence the differentiation of stem cells. The term cymatics was coined by Hans Jenny (1904-1972), a Swiss fan of Rudolph Steiner. Jenny's ideas were explored and expanded a little by the Center for Advanced Visual Studies founder György Kepes at MIT.☺☺☺

7.4. MUSIC EFFECT ON GERMINATING SEEDS

Measuring effects of music, noise, and healing energy using a seed germination bioassay. JACM 2004;10(1):113-22 ► OBJECTIVE: To measure biologic effects of music, noise, and healing energy without human preferences or placebo effects using seed germination as an objective biomarker. METHODS: A series of 5 experiments were performed utilizing okra and zucchini seeds germinated in acoustically shielded, thermally insulated, dark, humid growth chambers. Conditions compared were an untreated control, musical sound, pink noise, and healing energy. Healing energy was administered for 15-20 minutes every 12h with the intention that the treated seeds would germinate faster than the untreated seeds. The objective marker was the number of seeds sprouted out of groups of 25 seeds counted at 12h intervals over a 72h growing period. Temperature and relative humidity were monitored every 15 minutes inside the seed germination containers. A total of 14 trials were run testing a total of 4600 seeds. RESULTS: Musical sound had a highly statistically significant effect on the number of seeds sprouted compared to the untreated control over all five experiments for the main condition and over time. This effect was independent of temperature, seed type, position in the room, specific petri dish, and the person doing the scoring. Musical sound had a significant effect compared to noise and an untreated control as a function of time ($p < 0.03$) while there was no significant difference between seeds exposed to noise and an untreated control. Healing energy also had a significant effect compared to an untreated control (main condition) and over time with a magnitude of effect comparable to that of musical sound. CONCLUSION: This study suggests that

sound vibrations (music and noise) as well as biofields (bioelectromagnetic and healing intention) both directly affect living biologic systems, and that a seed germination bioassay has the sensitivity to enable detection of effects caused by various applied energetic conditions.☺☺

Likewise, future tech creates a force field to absorb the traffic sound vibes, converting them (for sidewalks) into the most healing and soothing music with the most eterni tones, that relax people (anxiety doesn't exist with Immortals) and enable them to have the noblest highest sentiments born out of deepest happiness. This would enable people to play the most amazing & beautiful ☺☺☺ music they like in their house and create a force field that makes it inaudible for people outside their property parameter where they deployed the filter. This will be great as noises from planes, cars, neighbors, is 0. Right now it's stressful to jog or walk in the city, as the noises are annoying. In the future, it will be the most amazing music, every house will have the most gorgeous gardens and look better than Disneyland. When people are stressed or upset, they can't be ultra kind. Similar technologies could self-clean streets, by using air sound waves to suck the dust and accumulate in designated places, but dust would be less because these force fields prevent dust from non-street area going on the street. The self-repairing streets using new nanomaterials that self-heal will make pothole repair much less common and reduce dramatically the tire friction sound too via new tire and road materials. Longevity depends on sound vibrations, so we will develop these types of technologies some day. ☺☺☺

7.5. MUSIC EFFECT ON PLANT NUTRIENT UPTAKE

youtu.be...oZg shows increasing plant nutrient uptake 7 fold with sound: people may live 3 times longer with the right sound too. Plants scream, feel pain, strategize. The video description says "Sonic Bloom is a completely organic technique that enhances plant development through a specialized nutrient spray and custom sound frequencies that stimulate enhanced nutrient absorption through the stomata underneath the leaves. By adding in the Sonic Bloom technology, you can further increase productivity and nutrients, increase shelf life, reduce the use of water and herbicides, speed crops to market, withstand early frosts and insect depredation, speed germination and maturation of seedlings, and release the full genetic potential of the plants. This works on above ground vegetables, root crops, field crops, and trees. This technology also expands the geographical range of food production, as it converts the marginal land into arable land, by giving farmers ability to grow better crops in poor soils and low rainfall. Plants are able to obtain 72% of their nutritional requirements through their leaves via the stomata, the mouth-like pores on the lower surface of the leaves. Plants translocate any excess nutrients from their leaves down to their root system, thus conditioning the soil and storing nutrients for future use. Sonic Bloom treatment has brought yield increases of 400% for cucumbers (which pesticide can do that? None), 300% yield increases on sweet corn (which

pesticide can do that? none), potatoes grew 33% larger, with 33% more yield, and each generation showed an improvement over the last. Healthy plants are not so susceptible to damage by insects and disease organisms, so you have fewer pests and disease problems. And because of the high nutrient content, most fruits and vegetables have a doubled or tripled shelf life. You can get SonicBloom at originalsonicbloom.com. It's time to end hunger worldwide." See other ideas on producing food on non-arable land. BBC got an article about increasing yields of plants by 75% by cold plasma treatment of seeds, and about using less fertilizer, nutrients, etc using electrical fields, the music of electricity, which can help you grow trees from the sides or the ceiling even, in space etc, as electrical fields can guide root growth. Other techs include plasma, though new diseases may develop from plants coming from seeds treated with plasma.

7.6. LOWER VOLUME AND NO HEADBANGING

Lowering Noise Levels is good idea, i.e. playing music at low volume or closing the window if traffic noise is heard, promoting low volume music, low volume concerts, spending time in silence. Music above 100 db is safe for 15 minutes only and has bad effects on telepathy and physical hearing ► CNN says 1 billion are at risk of hearing loss. The benefits of a quiet place are explained in studies like ► life...t. Chronic loud noise causes heart attack ► redorbit.com. Hence, EVs are better, being quieter. Headbanging kills brain cells, causes strokes, permanent brain damage even in silence ► guardian.co.uk. "We identified a definite risk of mild traumatic brain injury from headbanging," Dr Andrew McIntosh, NSW University. "We would suggest a proper public health warning, as for smoking" ► BMJ 2008;337:a2825.☺☺☺ The average heavy metal song, with a tempo of 146 bpm, is likely to cause mild injury if the head's range of motion is greater than 75 degrees. Songs with 180 bpm (beats per minute) can cause strokes (silent strokes too, unknown, that you're not aware of, since you don't go to hospital for it, but these silent strokes when accumulating can cause many brain diseases, as no nutrients go there, including Alzheimer) that damage the person for their whole life. Tao Te Ching: the gentle lives long and endures, while the hard dies fast due to the violence and forcefulness that is inflexible, unyielding. Some died due to rock concerts headbanging, see this 8 min video.

7.7. CYMATICS OF SUBTLER OR INAUDIBLE SOUNDS

Emotional healing intent tones could be incorporated in musical notes to achieve much better cymatics and healing effects. We can try to listen to the aura sounds of our or other people's physical, etheric, mental, emotional, subtler bodies, their souls... in person and even from 1 planet away if they happen to think of us, and we intercept the music of their thought patterns and decode it in music-color-information patterns. NASA recorded the sound of Jupiter (and Uranus), a very interesting and relaxing sound, which reminds us of telepathic empathic

information transfer in the form of inner astral tones, sounds coming from people, souls. These tones apparently give off a lot of information about the state of said souls, people, their nature, intentions, character, compassion, honesty, gentleness, etc. A few people see auras (light on the edge of the human body, different from migraine aura) and hear auras, just like some synesthetic people allegedly (spies telling lies?) see the colors and shapes of numbers. We're often unconscious of the lower vibration of our thoughts and feelings, which create disharmonic highly entropic tones that can be heard by clairaudient people (every soul has a music, humans got a music, just like planets and space have music detectable by science). The tones that radiate from our soul and thinking-emotional habits have a cymatics effect on the etheric-physical matrix upon which astral-physical telepathy structures are fine-tuned during life or womb period. Good thoughts are reportedly preventing some foods going bad in some experiments; due to different biophoton and astral photon levels, these thought experiments are not easy to reproduce sometimes, as some people may have 1 million or 100,000 times more astral and/or physical biophotonic emissions than others. Harmonic astral and physical sound creates nice symmetrical geometrical astral and physical shapes and may trigger (sort of like sound triggers shape and shape leads to stem cell differentiation) the proper regeneration-upgrading (as well as formation during womb time and early childhood thru the voice tones of parents and the sounds they listen to) of the soul intended telepathy, bilocation, teleportation structures via an easier quantum entanglement between dimensions by virtue of similar geometry of "wormholes", "dimensional gates" that allow certain energies to influence the matter matrix.☺☺☺ People are taught to have respect for the wisdom of the elders, in many cultures, but what about the wisdom of the freshly arrived from heaven, the cute babies who smile 400 times a day instead of 20? They're less conditioned by the ways of the Earth.

Listening to our own tones is also possible and we can see where the disharmony comes from sometimes. One way to heal our disharmonic vibrational habits is to watch the tone of our speech, emotions, thoughts, actions, how gentle, *nurturing*, healing is it? For example, if you listen to this almost whispering clip of Maria (more clips here) or my immortality 'lullaby' like whispering, you will notice that they're very gentle, soothing. Whispering enhances telepathy as explained before. Youtube has a huge variety of whispering like ASMR (autonomous sensory meridian response) videos. Maria explains a little about self-triggering happiness methods, which are like recreating meditation bliss experiences or conscious breathing happy ecstatic joy experiences via memory, etc. We all sound much more angelic when we consciously try to infuse our almost whispering or whispering voice with gentle tender healing softness. It may appear as if these YouTubers have a special voice, but anyone can train themselves to speak like an angel, in a way that comforts and soothes and relaxes anyone listening, even if obviously some people have an easier time than others due to the brain areas related to speech tones control being

more developed. There may be youtube ASMR videos using soft whispering healing voices to convey God's Infinite Love for us, not just making people laugh and relax. ASMR can work mostly thru sound, the video part or visual being far less important, if even needed. But anyone can make one, since one doesn't need to see a brush or whatever, to realize that from another dimension or this one, we're enveloped by rays or waves of warm fuzzy love. ☺☺☺

There are also many soothing healing voice singers out there, one of the more well known ones is Enya. Enya has among the best soft tones of voice among popular singers; the tones we usually use condition us to engage in certain emotional and astral tonal patterns and even perceptional patterns. We have conditioned ourselves for millennia to usually talk, to sing, in a way that is very disharmonic, rough (ungentle) and rushed, compared to the far more harmonic, gentle, tender soft way of Enya (when singing) and others with a healing voice. The healing tone of the softest voices remind us of what is possible and gives hope, no matter what gentle soothing song she may sing, what lyrics may be. We unconsciously condition ourselves thru the tones that come off our souls thru our choices of speech tone, emotional tone, thought tone, etc. We rarely think deeply what astral tones our actions may cause in others, which in turn obviously affects us immediately, because the others may think of us and their energy state being out of harmonic vibes, it creates chaos in our tones too. So, it's interesting to see what happens when we try to speak in a more tender, gentle, loving way... Many saints have converted to a nobler way of life rough types with this type of tone. Today it's 1 million times easier to become a voice healer for the average person since we have prerecorded music on youtube to heal people in addition to our own voice tone to learn to modulate our tone. Here is a 3 hr lullaby with a sweet gentle voice, more gentle songs here; two of the telepathy and World Peace enhancing habits are whispering and eterni tone. Whispering brings more awareness of tone of speech, making it sweet soft *nurturing* healing graceful. If we would always use the tone of voice that mothers use when singing a lullaby, the world would experience World Peace 10^9 times faster. Even if we don't understand the language of a song, the brain can learn proper voice tone when speaking to other humans by listening to these types of songs where the tone is very soft. We imitate TV, radio, peers, music we listen to, movies. That's why World Peace is so hard to achieve, because almost everything around us has a lot of violence, tough unkind or disharmonious tone of speech, the movies, news, literature, songs, etc. ☺☺☺

It's pretty common for people to use a gentler tone of voice when they speak/whisper to their spouse (especially at the first dates in their encounters☺☺☺), using a tender very different tone than the tone they use when they talk to anyone else. It's almost like a spiritual exercise and in some ways a most exciting opportunity to practice gentle tender tone of speech. The advantage of this is that it brings more awareness to the speaker about what he or she's saying even, it is a great practice of mindfulness which will naturally steer the speaker's tone in talking to others

(not just the spouse or 1-year-old baby) in a gentler direction too and change the speaker and the spoken to also, enabling the spouse to use a gentle tone more often and then creating a feedback loop of gentle tender vibe reinforcing that is a good foundation for perfect harmony and happiness☺☺, which then radiates to the whole world when others subconsciously, without noticing our gentler way of speech become gentler due to unconscious imitation. A gentle tone of speech forces us to think more before speaking, to pause, to practice, to emit different astral or emotional tones. It's just really, *a simple way to build harmony and perfect understanding, empathy* and World Peace, since these things act as ripples that affect all humans.☺☺☺

7.7.1. 80+ examples (3 pages) of Eterni (defined in Chapter 8) Vocal and Melody Tone:

1). Create audio files in Your Own Voice to Improve Your Vocal and Melody Tone:

If all intone (in public at least, in classrooms, youtube, where we influence 1000 times more people) like the gentle audio clips of the next 3 pages, World Peace manifests perhaps in 3 months.☺ Perhaps the most World Peace creating lessons or habits to be taught in classrooms (meaning online videos in the future), or pre-kindergarten would be to speak in a soft tender tone that radiates God's (or future human trillion year old Immortals who travel back in time to reach us, or Universe's if atheist) Unconditional Infinite Eternal Forgiving Merciful Graceful Sweet Tender Love towards all humans, in a Conscious Intoning radiating Healing that accompanies the conscious breathing and gentle tone positive speaking. See the 37 sec clip (& 32 sec one) talking about this idea.☺☺☺ The next 3 pages got 80+ gentle (eterni tone of Ch. 8) vocal & instrumental music samples that are unlike the tone of 99.9% of CLERGY (see the worst tones pastor, rabbi, Buddhist monk, imam, Hindu preacher), TV-radio people. The tones below create a wholly different vibe than the banditry and yelling today of violent scriptures, of many fraudulent politicians, officials, pastors who loot Americans, become rich by fraud, yelling, manipulation, extortion as Jesus cult "clergy" (Jewish clergy pretending to be gentiles) got rich for 2 millennia of plunder, war and fraud, and then Muslim ones copying the Jewish methods (earliest Christians were Jews). Healing voices of whispering or soft speech, that allow maximum *gentle tender soft loving kindness* and *nurturing* peace to *envelop the listener,* like ASMR videos on youtube, which are best listened to with eyes closed while relaxed on the bed, *(also during your chores, shopping, if you get those wired ones with a* nice mp3 player (examples and converting youtube to mp3 here)*; wireless give headache, Alzheimer, brain cancer via 2.4 GHz bluetooth RF),* allow us to learn a better Vocal and Melody Tone, and unlearn teacher, peer, friend and parent "tonal unintentional" influenced imitation of the historical inertia☺☺☺: infinite ∞ *lifespan. Here are* examples of slightly Eterni in Vocal and Melody Tone clips with immortalist *lyrics*: physical immortality blessings, immortality bringing, gentle eterni tone, immortality whispering, tranquility & World Peace, angel of light, World Peace in 3 months,

other immortality clips, Maria 800+ videos (she may have the most ASMR clips, 1+ billion views, hopefully angelic people with such tones become government spokespersons *(using calming music in the background at the press Conference, to calm all after a stressful day, when turning on TV, to be refreshed, inspired, so parents imitate that tone, create a harmonious family environment, sort of like* this astral clip*, easy to make astral-like ones if you meditate, rest a few days, with echo, and a good mic)* in the future to help all nations trust our words of 'we want peace', to bring World Peace): listen with eyes closed to Her Honey Care, Gentle Facial Cleaning, Face reflexology, Dinner Ettiquete, Hair Care, Oil diffuser massage time, How researchers, schools/univs, families could talk, Nice kitchen tone of speech, Whisper about Pens, Tesla Electric Car, Other voices: Chloe Gentle Whisper Words, Chloe soft speech about plants. ☺☺☺

For peaceful homes, use a 0.5 W mp3 player (always plugged to recharge) or 0.8 W only CD/mp3 player with remote, TF, USB to play serene mp3s (see 50 examples below) *24-7 in the kitchen, bedrooms, baths at low volume*. World Peace starts at home, *music* changes *DNA*, sperm, eggs, emotions, *thoughts, speech,* actions. The 22$ amazing & beautiful ☺☺☺ 25g 4x9cm mp3 player is in the mp3 player section of the microwave chapter. *Speaker is better, since it transforms pets and all who spy on us via mics/cameras; it also, changes* the invisible*, since our bodies (vs ears only) are in different states, create different* subatomic vibrations *in our home.* ☺☺☺

2). Lower Blood Pressure, Heart Rate, Stress, Anxiety, for free, with eterni instrumental *music:*

2. waves 500 million views (500mv), serenity 223mv, piano 76mv, meditation 73mv, sleep 65mv, relaxation 51mv, alpha 45mv, sleep 43mv, heal echo 32mv, Soothing Aa 26mv, inner 17mv, tranquil 12mv, flute 12mv, deep tranquility Spiritual Reset 12mv, Astral Theta 4 Hz 10mv, heal 9mv, 40 Hz (dementia cure), clips via youtube searches 3. iasos free songs bandcamp/youtube, ...Amazing Serenity..., Angels, Purity 4. Halpern: 100 free☺ songs youtube, Serene, Radiance, Eyes, Choir, Theta, Peace, Healing 5. OBE, relax, study 6. delta 2mv 7. alpha 1mv, rest 4mv, 8. spirit 5mv, space 3mv, 9. Aeoliah search for Aeoliah: 100 free songs youtube, radiance, mercy, reiki, spheres, chakra, consecration, Love 4mv, ..We're 1: perhaps USA's most peaceful song..☺

The Big Pharma mafia wants to charge trillions to lower blood pressure, anxiety, hyperactivity, etc. Youtube offers it for *free*. It's free knowledge, it's low fat vegan diet, it's decent sleep.

3). Improve your health, fluid intelligence, gentle grace, with this soothing eterni vocal *music:*

10. gentle new age singers, Enya, Enya Silent Night, Aniron tone 39mv, 11. Heaven's Window 10mv choir, Sudha 4mv, Tvameva, Ra Ma 12. Gregorian 12mv, templar, nun 1mv, nun2 1mv 13. amazing 1 min female choir min 7 to 8, though all 15 min are gentle, (copy hyperlink in chrome, to create bookmark if you find a safe looper extension (google "who made this extension" and see, choose USA extensions with US names) that doesn't steal data on all sites, or convert
